

## TECHNICAL SECTION

DECEMBER 1957 Volume 5, Number 12

### PESTICIDES

- Fungicide Residues, Microdetermination of the Fungicide Dinitrocaprylphenylcrotonate in Food Crops and Animal Tissues  
*Isadore Rosenthal, C. F. Gordon, E. L. Stanley, and M. H. Perlman . . . . .* 914
- Metabolism of Insecticides, DDT Metabolites in Feces and Bile of Rats  
*J. A. Jensen, Cipriano Cueto, W. E. Dale, C. F. Rothe, G. W. Pearce, and A. M. Mattson . . . . .* 919

### NUTRITION

- Quality of Plant Proteins, Protein Quality of Oat Varieties  
*E. B. Weber, J. P. Thomas, Ruth Reder, A. M. Schlehner, and D. A. Benton . . . . .* 926
- Selenium Poisoning, Modification of Selenite Metabolism by Arsenite  
*I. S. Palmer and C. W. Bonhorst . . . . .* 928

### NUTRITION/PLANT NUTRIENTS & REGULATORS

- Selenium Poisoning, Metabolic Interactions of Selenate, Sulfate, and Phosphate  
*C. W. Bonhorst and I. S. Palmer . . . . .* 931

### PLANT NUTRIENTS & REGULATORS

- Resistance Factor Determination, Quantitative Estimation of the Resistance Factor, 6-Methoxybenzoxazolinone, in Corn Plant Tissue  
*S. D. Beck, E. T. Kaske, and E. E. Smisson . . . . .* 933
- Phosphorus Availability, Solubility Characteristics of Nitric Phosphate Fertilizers in Calcareous Soils, and Comparative Effectiveness in Greenhouse Pot Cultures  
*W. H. Fuller, W. F. Riley, and Donald Seamands . . . . .* 935

### FOOD PROCESSING

- Grapefruit Pigment Determination, Spectrophotometric Methods for Determining Pigmentation—Beta-Carotene and Lycopene—in Ruby Red Grapefruit  
*B. J. Lime, F. P. Griffiths, R. T. O'Connor, D. C. Heinzelman, and E. R. McCall . . . . .* 941
- Milk Irradiation, Irradiation Preservation of Milk and Milk Products  
*J. H. Wertheim, R. N. Roychoudhury, Johan Hoff, S. A. Goldblith, and B. E. Proctor . . . . .* 944

### FOOD PROCESSING/FERMENTATION

- Sulfur Dioxide in Malt and Beer, Colorimetric Determination of Sulfur Dioxide from Malt and Beer by Complexing with Sodium Tetrachloromercurate(II)  
*E. B. Beetch and L. I. Oetzel . . . . .* 951
- Correction. . . . . 930

# THE WORLD'S SUGAR

Progress and Policy

**V. P. Timoshenko and B. C. Swerling**

This wide-ranging study of the evolution of the international sugar economy emphasizes the interrelationships between public policy and economic development. Among the important questions considered are the problems of wartime food management and postwar reconstruction, national and international sugar policies in peacetime, and the vast technological changes in the sugar industry. A publication of the Food Research Institute. \$6.50

Stanford University Press  
Stanford, California

*Industrial and Engineering  
Chemistry*

## AGRICULTURAL APPLICATIONS OF PETROLEUM PRODUCTS

Covers solvents for DDT, herbicidal uses of oils, agricultural pest control, thermal oil fogs, mosquito control, and 8 other topics.

104 pages—paper bound—  
\$2.50 per copy
