

TECHNICAL SECTION

September 1958 Volume 6, Number 9

PESTICIDES

Animal Metabolism of Insecticides, Bovine Metabolism of Organophosphate Insecticides. Subacute Feeding Studies with O,O-Dimethyl 1-Carbo-methoxy-1-propen-2-yl Phosphate
J. E. Casida, P. E. Gatterdam, J. B. Knaak, R. D. Lance, and R. P. Niedermeier 658

Animal Metabolism of Insecticides, Bovine Metabolism of Organophosphorus Insecticides. Metabolic Fate of O,O-Dimethyl O-(2,4,5-trichlorophenyl) Phosphorothioate in Rats and a Cow
F. W. Plapp and J. E. Casida 662

Fungicide Residues, Determination of Tetrachloro-1,4-benzoquinone (Spergon) Residues on Food Crops
J. R. Lane 667

Algicide Measurement, The Microdetermination of 2,3-Dichloro-1,4-naphthoquinone (Phygon) in Water
J. E. Newell, R. J. Mazaika, and W. J. Cook 669

PESTICIDES/PLANT NUTRIENTS AND REGULATORS

Growth Regulator and Herbicide Residues, Extension of the Residue Methods for 1,2-Dihydro-3,6-pyridazinedione (Maleic Hydrazide) and N-1-Naphthylphthalamic Acid (Alanap)
J. R. Lane, D. K. Gullstrom, and J. E. Newell 671

Soil Disinfectants, Urea Formaldehyde Concentrate-85, a Promising Control for Potato Scab
J. F. Bartz and K. C. Berger 675

PLANT NUTRIENTS AND REGULATORS

Quick Curing of Superphosphate, Effect of Ball Mill Grinding on Acidulation of Phosphate Rock
R. R. Rounsley and D. R. Boylan 677

Fertilizer Formulation, Simplified Approach to Calculations for Formulating High-Analysis, Mixed Fertilizers
J. G. MacArthur and J. W. Jones 684

NUTRITION

Forage Crop Constituents, The Isolation and Analysis of Hemicelluloses of Brome Grass
D. G. Routley and J. T. Sullivan 687

FOOD PROCESSING

Biochemistry of Myoglobin, Production and Identification of a Green Pigment Formed during Irradiation of Meat Extracts
J. B. Fox, Jr., Theodora Strehler, Carl Bernofsky, and B. S. Schweigert . 692

No. 12

Industrial & Engineering
Chemistry*

**Uses of Sugars and
other Carbohydrates
in the Food Industry**

17 papers—142 pages devoted to a better understanding of the ways in which our largest single dietary constituent—the carbohydrates—contributes to the physical and chemical nature, as well as the nutritional quality and acceptability, of our foods.

- The Role of Sugar in the Food Industry
- Starches in the Food Industry
- Liquid Sugar in the Food Industry
- Starch Hydrolyzates in the Food Industry
- Pectic Substances in the Food Industries
- Carbohydrates in Confections
- Sugar in Confectionery
- Sugar and Other Carbohydrates in Carbonated Beverages
- Sugars in the Canning of Fruits and Vegetables
- Sugars in the Baking Industry
- Sugar and Other Carbohydrates in Meat Processing
- Sugar in Frozen Foods
- Effects of Carbohydrates and Other Factors on Color Loss in Strawberry Products
- Role of Carbohydrates in Infant Feeding
- Role of Sweeteners in Food Flavor
- Sugars in Human Nutrition
- Sugars in Standardized Foods

Paper bound . . . \$3.50 per copy
