

Correction to The Impact of Packaging Materials on the Antioxidant Phytochemical Stability of Aqueous Infusions of Green Tea (*Camellia sinensis*) and Yaupon Holly (*Ilex vomitoria*) during Cold Storage [*Journal of Agricultural and Food Chemistry* 2011, 59, 4676]. Youngmok Kim Bruce A. Welt and Stephen T. Talcott*

In the third paragraph under the sidehead “Phytochemical Changes in Yaupon Holly Infusion” under Results and Discussion, the fourth sentence should read as follows: Even though no direct information is available on the effect of saponins on polyphenol stability, synergistic biological interactions have been reported when these two compounds were present in the same medium.
