

## **Announcement**

---

### **Regularities, Classifications and Prediction of Advanced Materials Workshop Como, Italy April 13–15, 1992**

The workshop will cover theories, techniques and applications of materials predictions. The topics to be covered are:

- Regularities in materials.
- Prediction of materials with predefined physical, chemical and structural characteristics.
- Pattern recognition problems as relating to materials science, including rules for structural chemistry.
- Classification schemes for materials phases.
