

ELSEVIER

Volume 223, Number 2, 1 June 1995

Journal of
ALLOYS
AND COMPOUNDS

Contents

Preface	ix
Systematics in lanthanide and actinide solids	165
K.A. Gschneidner, Jr. (Ames, IA, USA)	
Structural systematics of 4f and 5f elements under pressure	170
W.B. Holzapfel (Paderborn, Germany)	
Comparative solution chemistry of the 4f and 5f elements	174
G.R. Choppin (Tallahassee, FL, USA)	
Comparative science of the lanthanide and actinide (lanact) halides	180
J.R. Peterson (Oak Ridge, TN, USA)	
Comparison of the chemical and physical properties of f-element metals and oxides: their dependence on electronic properties	185
R.G. Haire (Oak Ridge, TN, USA)	
Comparison of the electronic structure of the lanthanides and actinides	197
N.M. Edelstein (Berkeley, CA, USA)	
From the transition metals to the rare earths – via the actinides	204
M.S.S. Brooks (Karlsruhe, Germany), O. Eriksson, B. Johansson (Uppsala, Sweden)	
Crystal and electronic structure connections between the 4f and 5f transition metals	211
B. Johansson (Uppsala, Sweden)	
Comparative aspects of the high-pressure behaviour of lanthanide and actinide compounds	216
U. Benedict (Karlsruhe, Germany)	
The magnetism of localized or nearly localized 4f and 5f shells	226
O. Vogt, K. Mattenberger (Zürich, Switzerland)	
Comparison of structure and magnetic properties of the 4f and 5f electron ThMn₁₂-type ternary aluminides	237
W. Suski (Wrocław, Poland)	
Mössbauer studies on the volume stability of f-electron configurations	242
G.M. Kalvius (Garching, Germany)	
Comparison between Ce-monopnictides and An-monopnictides: strong mixing effect	251
T. Kasuya (Sendai, Japan)	
Bulk and surface electronic structure of lanthanide metals	265
G. Kaindl (Berlin-Dahlem, Germany)	
Synchrotron X-ray absorption spectroscopy: a new tool for actinide and lanthanide speciation in solids and solution	274
H. Nitsche (Dresden, Germany)	
Comparison of the frequencies of crystallographic space groups in organo-lanthanide and -actinide compounds	280
D.J.A. De Ridder (Karlsruhe, Germany)	
Author Index of Volume 223	289
Subject Index of Volume 223	291

The publisher encourages the submission of articles in electronic form thus saving time and avoiding rekeying errors. A leaflet describing our requirements is available from the publisher upon request.
