ARTICLE INFO

Article history:

Received 19 July 2010

Accepted 20 July 2010

An article of this title was published in the Journal of Alloys and Compounds 478 (2009) 572–578. Unfortunately, some errors occurred in the stoichiometry reported in Eq. (2) and in the *Results and discussion* section of the published article.

Eq. (2) is displayed below.

The correct stoichiometry is reported as follows:

In addition, the value of the enthalpy of formation equal to 2315.634 kJ appearing in fourth row of the *Result and discussion* section was incorrect.

The correct value is 1727.573 kJ.
