

NOTICES

World Congress Interfinish 1976

The International Union for Electrodeposition and Surface Finishing, which is responsible for the four-yearly World Congresses in the field of Metal Finishing has charged the Netherlands Association for Metal Finishing Techniques with the organization of the 1976 Congress.

The World Congress Interfinish 1976 will be held from 26–29 October 1976 in Amsterdam, The Netherlands.

Research scientists in the fields of metal finishing will be in a position to present their latest developments to an international forum of specialists. The call for papers covers the following subject matter: pre-treatment; conversion coatings and non-metallic coatings; metallic finishes; organic coatings; environment problematic; measuring methods.

Amsterdam,
The Netherlands.

International Society of Electrochemistry 1976 Meeting

A plenary meeting of the I.S.E. (formerly C.I.T.C.E.) will be held in Zurich, Switzerland from 6–11 September 1976. The main themes will be Electrochemical Engineering, Experimental Methods in Electrochemistry and Anodic Films and Passivating Layers.

A IUPAC-colloquium on 'Non-isothermal electrochemistry' sponsored by the Commission for Electrochemistry of the International Union of Pure and Applied Chemistry will also be held on 10–11 September within the frame of the meeting.

The deadline for the submission of papers (including a 75-word abstract) is 31 December 1975.

Address for enquiries:

Dr. O. Dossenback
Technisch-chemisches Labor ETHZ
Universitätstrasse 6
CH-8005 Zurich,
Switzerland.
