Calendar

19–21 March 2001

Gulf Hotel, Bahrain

9th Middle East Corrosion Conference and Exhibition

Mr Abdullah M. Al-Ghamdi
NACE Technical Programme Committee
The Bahrain Society of Engineers
PO Box 1727
Dharan 31311
Saudi Arabia
Tel: +966 3 873 8540

4–5 April 2001

Southampton, England

The Development of Electrolytic Processes-Laboratory Studies and Pilot Scale Experience: a Short Course

- Understanding electrode reactions
- Electrochemical engineering and cell design
- Mass transport
- Electrocatalysis
- Using voltammetry to aid rapid process design
- Selecting electrode materials and form
- Membranes and other separators
- Parallel plate reactors
- Modern trends in cell design
- Quantitative figures of merit and drivers for process improvement
- Case studies: synthesis, effluent treatment and materials recycling

25–27 April 2001

Saint-Etienne, France

3rd International Colloquium on Hard & Decorative Chromium Plating: The Challenge of the 21st Century

- Bath control
- Deposit characterisation
- Process improvement
- Recycling and environmental issues
- New chromium plating processes
- Electrochemical, electroless and other alternative deposition strategies
- Industrial experience

Patrick Benaben
Ecole Nationale Supérieure des Mines
158 cours Fauriel

4–8 June 2001

Moscow, Russia

Electrochemistry and Surface Technology

200th Birthday of Professor Moritz Jakobi (1801–1874) International Conference and Exhibition

- Electroplating and surface technology
- Fundamental problems of electrocrystallisation

Professor V.N. Kudryavtsev
Mendeleev University of Chemical Technology of Russia
9 Miusskaya sq.
125047 Moscow
Russia
Tel: +7 095 978 59 90

17–22 June 2001

Marilleva (Trento), Italy

5th International Symposium on Impedance Spectroscopy (EIS 2000)

- Science and applications
- Corrosion and electrodeposition
- Electrochemical kinetics
- Electronically- and ionically conducting polymers
- Semiconductors
- Batteries and fuel cells

Prof Pier Luigi Bonora
Local Organising Committee EIS 2001
Laboratory of Industrial Control
Department of Materials Engineering

02–06 July 2001

Lucerne, Switzerland

The Fuel Cell Home: Residential Applications of Fuel Cells

PO Box 99
CH-5452
Oberrohrdorf
Switzerland

02–04 July 2001

University of Newcastle, UK

Short Course on Electrochemical Process Engineering

- Principles of electrochemical engineering
- Reactor modelling and design
- Laboratory workshops

Professor K. Scott
Department of Chemical and Process Engineering
University of Newcastle
Merz Court
Newcastle upon Tyne NE1 7RY

9–13 July 2001

Montreal, Canada

Fourth International Symposium on New Materials for Electrochemical Systems

- Fuel cells
- Supercapacitors

- Advanced batteries
- Sensors
- Materials synthesis and characterisation
- Systems integration and commercial aspects

Professor O. Savadogo
 Laboratoire d'Electrochimie et de Matériaux Energétiques
 Ecole Polytechnique de Montréal
 CP 6079 Succursale Centre-ville

25–30 August 2001

Toronto, Ontario, Canada

Electrometallurgy 2001 31st Annual Hydrometallurgy Meeting International symposium on fundamental and applied advances in the electrometallurgy of Co, Ni, Zn, Cu and Pb

- Plant practice
- Cell design
- Anodes for electrowinning
- Electrode kinetics
- Mathematical modelling
- Molten salt electrowinning and electrorefining

2–6 September 2001

Montpellier, France

Polymers in the Third Millennium

- Polymer synthesis and modification
- Polymers in the living environment
- Polymers in electrical and electromagnetic environments
- Structure and characterisation of polymers

Conference Secretariat, SCI
 14/15 Belgrave Square
 London SW1X 8PS
 Fax: +44(0)171 235 7743

2–7 September 2001

San Francisco, USA

52nd ISE Meeting and 22th Meeting of the Electrochemical Society

The Electrochemical Society Inc

17–19 September 2001

Loughborough University, UK

Electrochem 2001

- Biomedical electrochemistry
- Electroanalytical and electrochemical sensors
- Electrochemical education
- Electrochemical materials for power sources
- Electrochemical surface treatment of metals
- Electrochemistry of nanoparticulate systems
- Environmental electrochemical engineering and technology
- Electrochemistry under extreme conditions
- General electrochemistry
- Interdisciplinary electrochemistry
- Postgraduate research student session

31 August–5 September 2003

Florianopolis, Brazil

54th ISE Meeting

September 2004

Thessaloniki, Greece

55th ISE Meeting

NEWS ITEMS

Please send details of relevant meetings and other worthy news to the News Editor. Lengthy information should be supplied as Word Windows or ASCII files on 3.5" discs.

BOOK REVIEWS

Subject areas relevant to the Journal's interests include: environmental electrochemistry, recycling and removal of contaminants, batteries, fuel cells and electrochemical energy conversion, corrosion and protection of metals, electrosynthesis (of organics, inorganics, metals, alloys, polymers, ceramics and composites), electrocatalysis, photo- and semiconductor electrochemistry, electrochemical engineering and reactor design, electrode materials and coatings, electrochemical techniques, electrochemical sensors and monitors.

Publishers are invited to send copies of new books for review in this journal to the News Editor: Professor Frank Walsh, Electrochemical Engineering Group, Department of Chemical Engineering, University of Bath, Claverton Down, Bath BA2 7AY, UK.
