PMM Vol.23, No.3, 1959

Toward new problems of mechanics (*Editorial*)

Kh.A. RAKHMATULIN: On propagation of elasto-plastic waves in a half-space

D.N. CHETEAV: On the radiation of a piston with a rigid flange into an elastic half-space

G.I. BARENBLATT: On equilibrium cracks, occurring in brittle fracture. General ideas and hypotheses. Axisymmetric cracks

I.I. VOROVICH and Iu.A. USTINOV: On pressure of a die on a layer of finite thickness

V. NOVATSKII: On some three-dimensional problems of thermoelasticity

M.G. SLOBODIANSKII: On general and complete forms of solutions of the elasticity equations

A.A. MOVCHAN: On the direct Liapunov method in problems of stability of elastic systems

V.V. RUMIANTSEV: On stability of Maclauren ellipsoids of a rotating liquid

O.I. KOMARNITSKAIA: On stability of nonlinear systems of automatic control

G.E. KUSMAK: Asymptotic solutions of nonlinear differential equations of second order with variable coefficients

V.S. PUGACHEV: A method for the determination of characteristic values and characteristic functions for a class of linear integral equations

G.V. MUKHINA and S.L. SOBOLEV: On the solution of a boundary value problem

P.Ia. POLUBARINOVA-KOCHINA: On the motion of ground water in case of oscillations of the water level in the reservoir with a vertical boundary

M.D. KHASKIND: Radiation and diffraction of surface waves of a vertically floating plate

M.N. KOGAN: Shock waves in magnetohydrodynamics

- V.B. ADAMSKII and N.A. POPOV: Motion of a gas under the action of a piston whose pressure varies in accordance with a power law
- L.N. SRETENSKII: On Chaplygin functions
- B.M. BULAKH: Remarks regarding the lecture by A. Ferri 'Recent theoretical work in supersonic aerodynamics at the Brooklyn Polytechnic Institute'
- V.I. MERKULOV: Heatexchange in plane steady flow of a viscous liquid
- E.A. BIRIUKOV: Flow deviation past the swept vortex of finite span for unsteady motion
- S.I. PARKHOMOVSKII: Mass attachment for some curvilinear contours of jets in discontinuous flow
- V.S. ROGOZHIN: Determination of body shape by a given impulsive impact pressure
- N.N. KRASOVSKII: On sufficient optimization conditions
- B.Kh. KHARASAKHAL: On a generalization of a theorem by Bohr and Neugebauer
- Iu.M. FILIMONOV: On stability of solutions of differential equations of second order
- I.V. LIVARTOVSKII: On stability of the solution of a system of differential equations with discontinuous right-hand sides
- CHZHAN SY-IN: On stability of motion of a gyroscope
- E.N. BEREZKIN: On stability of unperturbed motion of a mechanical system
- N.I. REMISOVA: Integral equations of equilibrium of thin elastic cylindrical shells
- L.M. KACHANOV: On variational methods of solution of problems in the theory of plasticity
- D.D. IVLEV: On the theory of fracture of solid bodies
