

CONTENTS OF NEXT ISSUE

PMM Vol. 25, No. 6, 1961

- V.V. RUMIANTSEV: On systems with friction
- G. LEITMANN: On optimum rocket trajectories
- D.R. MERKIN: On stability of motion of a gyroframe
- S.N. SHIMANOV: On stability of quasiharmonic systems with lag
- S.A. GORBATENKO: On stability of a nonlinear system of automatic control
- N.A. GUBAR': Investigation of a piecewise-linear dynamic system with three parameters
- G.A. GRINBERG: On steady flow of a conducting fluid in a rectangular tube with two nonconducting and two conducting walls which are parallel to the external magnetic field
- G.Z. GERSHUNI and E.M. ZHUKHOVITSKII: Stability of equilibrium of a fluid in a horizontal cylinder heated from below
- G.Ia. LIUBARSKII: On the structure of shock waves
- V.V. LUNEV: Similarity law of hypersonic viscous gas flows past thin blunt bodies
- M.I. GUREVICH: Influence of capillary forces on the compressibility coefficient of a jet
- N.N. KOCHINA: On periodic solutions of Burgers' equation
- L.Ia. KOSACHEVSKII: On reflection of sound waves from layered two-component media
- A.S. GRIGOR'EV: Equilibrium of a membrane shell of revolution with large deformations
- A.G. GABRIL' IANTS and V.I. FEODOS'EV: On axially-symmetric shapes of equilibrium of an elastic spherical shell, subjected to the action of uniform pressure
- S.G. LEKHNITSKII: Axisymmetric deformation and torsion of a transversely isotropic cylinder under the action of polynomial loading

- G.I. BARENBLATT and G.P. CHEREPANOV: On brittle cracks of longitudinal shear
- L.N. TER-MKRTICH' IAN: Some problems of the theory of elasticity of non-homogeneous elastic media
- D.D. IVLEV and T.N. MARTYNOVA: On the compressibility effect in the theory of ideal plastic media
- M.R. KOROTKINA: Possible definitions of the concepts of stress and strain with the aid of a system of interacting particles
- N.T. PASHCHENKO: Some problems of aerothermodynamics, associated with the model of free molecular flow
- V.S. GALKIN and A.A. GLADKOV: On the lifting force for hypersonic velocities
- L.D. MESHALKIN and Ia.G. SINAI: Study of stability of stationary solution of a system of equations of plane motion of an incompressible viscous liquid
- Iu.S. RIAZANTSEV: On taking into account changes in density during phase change in Stefan's problem
- T.L. PEREL' MAN: On asymptotic expansions of solutions of a class of integral equations
