

CONTENTS OF NEXT ISSUE

PMN Vol.29, № 1, 1965

On the twentieth anniversary since the death of N.E. Kochin

- L.I. SEDOV: On the ponderomotive forces of interaction of an electromagnetic field and an accelerating material continuum, taking into account finite deformations
- B.Ts. GUROVICH and K.P. STANIUKOVICH: On the application of general variational principles in the relativistic mechanics of an ideal fluid
- P.V. KHARLAMOV: Polynomial solutions of the equations of motion of a body with a fixed point
- N.N. VAKHANILIA: On the stability of spinning of a top with a liquid filled cavity
- Iu.I. NEIMARK and N.A. FUFAYEV: Stability of the equilibrium states of non-holonomic systems
- F.L. CHERNOUS'KO: Self-similar motion of a liquid under the action of surface tension
- A.I. SMORODIN: On the use of an asymptotic method for analyzing waves with unsteady motion of the source
- L.G. LOITSIANSKII: The universal equations and parametric approximations in the theory of the laminar boundary layer
- R.V. BIRIKH, G.Z. GERSHUNI and E.M. ZHUKHOVITSKII: On the spectrum of perturbations of plane parallel flows at low Reynolds numbers
- M.D. LADYZHENSKII: On hypersonic flows in nozzles
- V.M. BORISOV: Variational problem in three-dimensional supersonic flows
- G.P. SHINDIAPIN: Regular reflection of weak shock waves from a rigid wall
- A.M. KOGAN: Derivation of Grad's type equations and study of their relaxation properties by the method of maximization of entropy
- I.V. NEMCHINOV: Expansion of a tri-axial gas ellipsoid in a regular regime
- A.L. GOL'DENVEIZER and A.V. KOLOS: On the derivation of two-dimensional equations in the theory of thin elastic plates
- L.N. SEMENOVA: On Routh theorem for nonholonomic systems
- V.F. DEM'IANOV and L.Iu. KHUDIYAKOV: Solution of an integer problem of quadratic programming
- K.G. VALEEV: On the problem of motion of an axisymmetric body under the action of a constant moment
- L.Ia. ROITENBERG: On the motion of a gyrocompass for the case of random displacements of its point of support
- M.S. SAGITOV and A.N. FILATOV: On stability in the sense of Liapunov in the critical case when the determining equation possesses an even number of zero roots
- N.E. KHRAMOV: Analysis of a nonuniform gas flow past a sphere
- V.A. RYKOV: On an exact solution of the equations of magneto-gasdynamics with finite conductivity
- O.M. KISELEV: Capillary waves in a channel with a polygonal bottom
- A.K. NIKITIN: On ship waves on the surface of a viscous liquid of infinite depth
- R.A. GRUNTFEST: Ship waves for a uniformly accelerated motion
- I.P. OBOROTOV: Long cylindrical waves in a viscous liquid

- V.M. ENTOV: Comparison theorems for equations of nonstationary filtration
- I.I. VOROVICH: Some remarks concerning the paper by R.L. Salganik "Estimating the error committed in passing from the exact equations of the theory of elasticity to the equations of the plane state of stress" (*PMM* Vol.28, № 4, 1964)
- A.I. LUR'E: Erratum in paper "A theorem of dynamics" (*PMM* Vol.28, № 6, 1964)
