

## CONTENTS OF NEXT ISSUE

PMM Vol.29, № 3, 1965

- N.N. KRASOVSKII and G.S. SHELEMENT'EV: On the correction of the motion of a system with two degrees of freedom with one cyclic coordinate
- Iu.G. EVTUSHENKO: Asymptotic methods of integration of the equations of motion of Earth's artificial satellites in the presence of aerodynamic effects
- A.N. KRAIKO and L.E. STERNIN: On the theory of flows of a two-velocity continuous medium with solid and liquid particles
- L.G. ZASTAVENKO: Partially similar solutions of the nonlinear wave equation
- A.M. TER-KRIKOROV: On the theory of waves of the steady type in a heterogeneous liquid
- V.I. IUDOVICH: An example of the generation of the secondary stationary or periodic flow after loss of stability of the laminar flow of a viscous incompressible fluid.
- P.P. MOSOLOV and V.P. MIASNIKOV: Variational methods in the theory of flows of visco-plastic medium
- I.M. IAVORSKAIA: Diffraction of plane stationary elastic waves at smooth convex cylinders
- A.M. SKOBEEV: On plane elasto-plastic wave
- R.V. GOL'DSHEIN: Rayleigh waves and resonance phenomena in elastic bodies
- N.Kh. ARUTIUNIAN and A.A. BABLOIAN: On two dynamic contact problems for the elastic sphere
- G.M. VALOV: Solution of mixed problems of torsion of an infinite elastic cylinder by the method of dual integral equations and differentiation of boundary conditions
- V.N. ZAKORKO and N.A. ROSTOVITSEV: On a dynamic contact problem of steady vibrations of the elastic half-space
- E.N. KUZNETSOV: On the theory of instantaneously rigid nets
- K.G. POZHARITSKII: Vanishing sliding of mechanical systems with dry friction
- Iu.M. REFIN: Quadratic functionals of Liapunov for systems with lag
- P.V. KHARLAMOV: On the solution of the equations of dynamics of a rigid body
- Iu.P. BYCHKOV: On the rolling of rigid body on a fixed surface
- G.K. VALEEV and G.N. SHCHEGLOV: Some cases of integrability of the equations of perturbed motion of a material particle in a central force field
- Iu.A. ARKHANGEL'SKII: On single-valuedness of the general solution of the problem of the motion of a heavy rigid body in a Newtonian force field in a particular case
- V.Kh. KHARASAKHAL: On the application of the method of point transformations to quasi-periodic oscillations of nonlinear systems
- Iu.M. VOLIN and G.M. OSTROVSKII: On a problem of optimization of a system with distributed parameters
- Iu.P. IVANILOV: Asymptotic behaviour of an axisymmetric turbulent jet of an ideal incompressible fluid
- Iu.D. SHMYGLEVSKII: On maximum drag in supersonic flow
