

CONTENTS OF NEXT ISSUE

PMM Vol.30, № 5, 1966

- O.A. OLEINIK: On the mathematical theory of boundary layer for an unsteady flow of incompressible fluid
- A.G. KULIKOVSKII: Stability of the Poisson flow and other plane-parallel flows in a long plane tube of finite length at large Reynolds' numbers
- F.L. CHERNOUS'KO: On free oscillations of a viscous fluid in a vessel
- S.V. FAL'KOVICH and I.A. CHERNOV: Algebraic self-modelling solutions of equations of transonic plane gas flow
- I.A. KUNIN: Theory of elasticity with three-dimensional dispersion. One-dimensional complex structure
- V.A. LOMAKIN: On the theory of deformation of micro-nonhomogeneous bodies and its relationship with the momentum theory of elasticity
- A.N. GUZ' and G.N. SAVIN: Plane problem of the momentum theory of elasticity for an infinite plane weakened by a finite number of circular openings
- N.N. LEBEDEV and I.P. SKAL'SKAIA: Some boundary problems of mathematical physics and theory of elasticity for a hyperboloid of revolution on one sheet
- G.K. POZHARITSKII: Impulsive pursuit in case of linear, second order, similar objects
- Iu.P. GUS'KOV: On the optimal discrete correction of forced motion of stochastic systems
- R.Z. KHAS'MINSKII: On the stability of nonlinear stochastic systems
- V.V. RUMIANTSEV: On the stability of steady motions
- Iu.P. BYCHKOV: On the motion of a body of revolution bounded by a sphere, on a spherical base
- Iu.A. ARKHANGEL'SKII: Motion of a rigid body about a point, fixed on the Earth's surface
- N.N. KRASOVSKII: Control of an object with delay
- V.D. IRTEGOV: On the problem of stability of steady motion of a rigid body in a potential force field
- M.I. FEIGIN: Resonance properties of a dynamic system with discontinuous interaction
- L.Ia. AINOLA: Integral variational principle of mechanics
- V.A. BABKIN: Kinematics of a medium with continuous dislocation
- Iu.I. SOLOV'EV: Mixed fundamental problem of axisymmetric theory of elasticity
- O.K. AKSENTIAN: Concentration of stresses in thick plates
- R.Ia. SUNCHELEEV: Dynamic problems for a transversally isotropic elastic cylinder
- G.A. GRISHINA, R.M. ZAIDEL' and O.M. ZOLOTOVA: Approximate linear solutions of some plane gas dynamical problems
