

CONTENTS OF NEXT ISSUE

PMM Vol. 31, No. 5, 1967

- V.N. DIESPEROV and O.S. RYZHOV: Second approximation in the asymptotic theory of sonic flow of a real gas past bodies of revolution
- A.N. KRAIKO: On the formation of shock waves in nonequilibrium flows
- B.M. BULAKH: On uniformly exact equations of plane laminar boundary layer for a body with sharp local curvature change of its profile
- G.Z. GERSHUNI, E.M. ZHUKHOVITSKII and R.N. RUDAKOV: On the theory of Rayleigh's instability
- V.M. ENTOV: On some two-dimensional problems of the theory of filtration with limiting gradient
- A.I. SUBBOTIN: On the problem of game encounter of motions
- V.I. VOZLINSKII: On bifurcation of stationary motions of conservative systems with two cyclic coordinates
- N.V. ZVOLINSKII: On reflection and refraction of a plane plastic wave in the presence of a boundary plane
- I.I. VOROVICH and V.E. KOVAL'CHUK: On base properties of a system of homogeneous solutions
- V.I. MOSSAKOVSKII and I.I. MISHCHISHIN: Rolling of elastic bodies
- E.M. CHERNYKH: Self-similar problem of impact loadings of a nonlinearly elastic material
- G.N. CHERNYSHOV: Deflection under concentrated force in shells of positive curvature
- D.D. IVLEV: On deformational theories of plasticity for singular loading surfaces
- I.A. KUNIN: Internal stresses in a medium with microstructure
- N. Kh. ARUTIUNIAN: Contact problems of the theory of creep
- I.A. MOLOTKOV and D.K. OZEROV: High frequency oscillations of a thin elastic layer of variable thickness
- L.A. MOLOTKOV and P.V. KRAUKLIS: Vibrations of a cylindrical shell, with a liquid and placed in an elastic medium
- A.G. ALENITSIN: On decaying of waves propagating along the surface of a heterogeneous half-space with a wave guide
- Ia.M. KAZHDAN: On the motion of gas behind a diverging detonation wave in space with a cut-out cone
- G.I. NAZAROV and A.A. PUCHKOV: Analytical solution of a system of equations for axially symmetric flow of an incompressible liquid
- Ia.G. SAPUNKOV: Converging detonation waves in the regime of Chapman-Jouguet in a medium with variable and constant initial density
- A.Ia. SAVCHENKO: On a generalization of the invariant relation of Hess
- L.G. GLIKMAN and E.M. IAKUSHEV: A case of integrability of the Hamilton-Jacobi equations
- I.M. BELEN'KII: Cycles and quasi-indices of singular points of conservative systems
- A.A. KHENTOV: Motion near the center of mass of a magnetized equatorial satellite in a circular orbit in the presence of interacting magnetic and gravitational fields of the earth

- Kh.L. SMOLITSKII:** On the motion of a gyroscope in a Cardan suspension on a uniformly rotating foundation
- V.B. KOLMANOVSKII:** ON the application of Liapunov's method to a linear system with lag
- N.V. STOIANOV:** On stabilization of a nonlinear control system in the critical case of a double zero root for steady motions
