

CONTENTS OF NEXT ISSUE

PMM Vol. 39, № 6, 1975

- V. V. RUMIANTSEV : Influence of gyroscopic forces on the stability of stationary motion
- Ia. M. GOL'TSER and A. L. KUNITSYN : On stability of autonomous systems in the presence of internal resonance
- Iu. I. BERDYSHEV : Synthesis of a nonlinear system of fourth order which is optimal with respect to control speed
- L. D. AKULENKO : Optimum control by means of motion of a quasilinear vibration system with the aid of small forces
- A. S. BRATUS' : Method of a small parameter for the construction of approximate strategies of a class of differential games
- L. A. GALIN : Nonlinear problem of non-steady filtration of a heavy liquid with a free surface
- Ia. I. SEKERZH-ZEN'KOVICH : On composite steady capillary-gravitational waves of finite amplitude on the surface of a liquid of finite depth
- A. V. FEDOROV : Legendre condition in optimum problems of supersonic gas dynamics
- S. V. VERSHININ and A. F. SIDOROV : On the behavior of solutions of the equations of double waves in the vicinity of the rest region
- V. P. SHIDLOVSKII : Singular perturbation for one-dimensional non-steady motion of a real gas
- E. D. TARENT'EV : On integral equations of non-steady flows close to self-similar ones
- A. L. NI : Flows of a reacting mixture in Laval nozzles under conditions of a quasi-frozen process
- V. G. MARKOV and O. A. OLEINIK : On propagation of heat in one-dimensional dispersive systems
- N. V. BANICHUK : On a variational problem with unknown boundaries in determining optimal shape of elastic bodies
- A. D. CHERNYSHOV : On deformation of continuous media in a wedge-like region with smooth edges
- G. Ia. POPOV and L. Ia. TIKHONENKO : Exact solution of plane contact problems of semi-infinite beams with an elastic wedge
- L. P. LEBEDEV : On stability of the natural unstressed state of visco-elastic bodies
- B. P. BELINSKII and A. Z. LOKSHIN : State of stress in a plane circular annulus with a crack
- DO SHAN' : On the determination of forces of constraint reaction
- A. V. KARAPETIAN : On stability of equilibrium of non-holonomic systems
- V. F. VITIUK : Waves in a non-homogeneous liquid in the presence of a dock
- Iu. I. BABENKO : Heat transfer into a semi-infinite region with a boundary moving according to an arbitrary law
