

CONTENTS OF NEXT ISSUE

PMM Vol. 40, № 5, 1976

- V. V. RUMIANTSEV : On the motion of controllable mechanical systems
- V. B. KOLMANOVSKII : On the probability guidance by some systems
- L. D. AKULENKO : Resonance motions in an essentially nonlinear system, containing stable elements
- L. S. SAAKIAN : On optimum stabilization of equilibrium configurations of a satellite-gyrost
- R. A. MUSARSKII and N. A. FUFAYEV : Dynamics of the most simple wheeled vehicle under random actions
- V. I. ARTEMOV and O. A. SINKEVICH : On the construction of plane stationary solution of the equations of nonequilibrium magnetized plasma
- G. L. STENCHIKOV : Solution of the quasi-linear equation of first order, which describes the evolution of plasma turbulence
- V. V. ALEKSANDROV and A. A. FROLOVA : On proper transonic flows of a radiating gas in channels with slightly varying parameters
- V. N. KOTEROV : On nonlinear damping of plane acoustic impulses in a radiating gas
- L. E. PEKUROVSKII : Diffraction of a shock wave by a thin wedge, moving with supersonic speed, for irregular wave interaction
- V. A. NALETOVA and G. A. SHAPOSHNIKOVA : Disintegration of an arbitrary explosion in an ideally conducting magnetized incompressible medium
- N. L. VASIL'EVA : One-dimensional electrohydrodynamic flows of a three-component medium with shock waves
- A. A. NEPOMNIASHCHII : On stability of secondary flows of a viscous fluid in unbounded space
- Iu. A. SERGEEV : Convective diffusion of a reacting solid sphere in Stokes flow
- V. B. PORUCHIKOV : Diffraction of a spherical elastic wave by a wedge
- V. S. NIKISHIN, B. S. PARIISKII and G. S. SHAPIRO : On consolidation of an elastic porous multilayered medium under the pressure of a die, circular in the plane
- L. A. PLAKHINA and V. N. USHAKOV : Differential game of guidance for a system with slack and integral constraints
- P. B. GUSIATNIKOV : On a criterion of optimum pursuit time
- V. F. MOLCHANOV : The most simple type of flows with formation of tangential discontinuities
- Iu. P. GUPALO, A. D. PLIANIN and Iu. S. RIAZANTSEV : Diffusion to a particle for large Péclet numbers in the case of arbitrary axisymmetric flow of a viscous fluid
- G. M. IVANOV and A. S. KOSMODAMIANSKII : Elastic equilibrium of an anisotropic cylinder with longitudinal cavities under the action of axial loads
- V. A. BRUSIN : Equations of Lur'e in Hilbert space and their solution
- R. M. RAPPOPORT : On the construction of general solutions of the equations of the theory of elasticity of transversely isotropic nonhomogeneous bodies
- G. G. KHAZINA : On the problem of interaction of resonances
