

CONTENTS OF NEXT ISSUE
PMM Vol. 44, Issue 1, 1980

- F. L. CHERNOUS'KO: Guided search of a moving object
- V. B. KOLMANOVSKII and T. L. MAIZENBERG: On control of arrival time into a region by random motion
- L. D. AKULENKO and N. N. BOLOTNIK: On control by systems with elastic elements
- Iu. N. CHELNOKOV: On integration of kinematic equations of screw motion of a rigid body
- V. N. TKHAI: On stability of mechanical systems under the action of positional forces
- A. Z. ZINCHENKO: Slow axisymmetric motion of two drops in a viscous medium
- V. N. DIESPEROV: On transonic gas flow past a convex angle
- A. I. PLIS, and V. I. PLIS: Diffraction of Kelvin waves at the open end of a plane parallel channel
- A. N. KRAIKO and A. L. NI: On the approximation of nonlinear acoustics in problems of vibration of a gas in pipes
- V. S. BERMAN, Iu. S. RIAZANTSEV and V. M. SHEVTSOVA: Asymptotic analysis of ignition of a combustible gas mixture by thermal non-homogeneity
- V. S. BAUSHEV, V. N. VILIUNOV and A. M. TIMOKHIN: On stability of stationary solutions of the system of equations of combustion theory
- V. E. KLYKOV, V. L. KULAGIN and V. A. MOROZOV: On a problem of the Stefan type occurring in the study of processes of dissolution and transfer of salts in soil
- V. M. ENTOV, T. A. MALAKHOVA, V. N. PANKOV and S. V. PAN'KO: Calculation of the limit-equilibrium of retained viscoplastic oil extracted from a nonuniform stratified layer by water
- A. S. KRAVCHUK: On the theory of contact problems taking into account friction on the contact surface
- G. Ia. POPOV: On generalization of the applicability of the method of integral transforms in solving problems of mechanics
- V. M. ALEKSANDROV and V. A. KARPENKO: Torsion of a spherical layer by a spherical annular die
- V. V. REUT and L. Ia. TIKHONENKO: Bending of wedge-shaped plates with elastically or simply-supported edges
- L. P. LEBEDEV: On equilibrium of a free non-linear plate
- O. V. GOLUBEVA: Two-dimensional dynamic processes in anisotropic media
- L. K. KUZ'MINA: On stability of systems of gyroscopic stabilization in the presence of disturbances
- I. P. KOVAL'SKII and G. I. KUDIN: On stability of some nonstationary systems
- A. V. DUBINSKII: Relations between forces acting on shape-different bodies moving in a gas
- L. K. MARTINSON: Plane problem of convective heat transfer in a nonlinear medium
- V. Ia. TERESHCHENKO: On convex functionals in variational problems in the theory of elasticity analogous to the generalized Trefftz functionals
- S. A. SOLOP: On the existence of periodic solutions in the nonlinear Reissner's theory of vibrations of non-shallow shells of revolution, taking damping into account
