

CONTENTS OF NEXT ISSUE

Volume 44, Issue 4, 1980

- BATUKHTIN, V. D: On a game problem of guidance with incomplete information
- KRASOVSKII, A. N: On positional minimax control
- KOROTKII, A. I, OSIPOV, Iu. S: On positional control in systems with distributed parameters
- GUSIATNIKOV, P. B, MOKHON'KO, E. Z: On l_{∞} -escape in a linear differential game with many people with integral constraints
- TOMSKII, G. V: On strategies in differential games
- AKULENKO, L. D: Asymptotic solution of two-point boundary value problems
- ZEVIN, A. A: Stability of periodic oscillations in systems with mild and strict nonlinearity
- MEDVEDEV, S. V: On stability of periodic motions in a critical case
- KHAZIN, L. G, KHAZINA, G. G: On the possibility of resonance stabilization of a system of oscillators
- KRAIKO, A. N, SHIRONOSOV, V. A: On the investigation of spatial flows on an ideal gas in "narrow" channels
- VARENTSOV, O. K: Flow past a conducting sphere of an electro-gasdynamic fluid
- CHERNYI, L. T: Charging of weakly conducting particles of a suspension through impact with bounding surfaces
- DOMILOVSKII, E. R, LUSHNIKOV, A. A., PISKUNOV, V. N: Stationary distribution of particles by size in finite coagulating systems with dissociation
- GUSIKA, P. L, ZHIZHIN, V. G: Nonstationary regimes of radical polymerization
- VIL'KE, V. G. A theorem of existence and uniqueness of solutions of dynamic problems of the nonlinear theory of elasticity
- PETUKHOV, L. V: Minimum weight of thin curvilinear bars
- BAZARENKO, N.A: Construction of refined applied theories for shells of arbitrary shape
- BERDICHEVSKII, V. L, CHAU LE KHAN': High frequency long wave oscillations of shells
- DRUIANOV, B. A: Shear waves in hardening rigid plastic bodies
- PEN'KOV, V. B, TOLOKONNIKOV, L. A: On contact of crack edges
- BORZOV, V. B, GUTSUNAEV, Ts. I: On an exact solution of the equations of relativistic dynamics
- BUSHUEVA, G. V, PREDVODITELEV, A. A, FROLOVA, R. D: Stress fields of dislocation configurations in an isotropic plate
-
