

# JOURNAL OF APPLIED MATHEMATICS AND MECHANICS

## CONTENTS OF NEXT ISSUE

### Volume 68, No. 1, 2004

- V. S. GALKIN and V. A. ZHAROV: Exact solutions of the Boltzmann–Maxwell equation
- S. P. BAKANOV: The nature of thermophoresis of highly thermally conductive bodies in gases
- N. D. BERTYAYEVA and V. B. PEN'KOV: Solution of mixed problems for an anisotropic half-plane and for two matched half-planes
- G. Z. SHARAFUTDINOV: Stresses and concentrated forces in thin annular plates
- A. A. MOVCHAN and L. G. SIL'CHENKO: Analytical solution of coupled stability problem for a plate made from shape memory alloy in the case of direct thermoelastic phase transition
- V. I. KONDAUROV: Clapeyron–Clausius equations for the first kind phase transition in a thermoelastic material
- R. Ye. LAMPER and V. Ye. LEVIN: Method of finite and boundary elements in problems of dynamics of elastic vessels with a liquid
- A. I. BELOUSOV and V. L. PRISEKIN: Numerical analysis of the stability of a multichannel loading control system for structures
- I. I. ARGATOV: Homogenization method in a contact problem for a system of punches
- V. B. ZELENTSOV: Transient dynamic contact problems of the theory of elasticity with varying width of the contact area
- Yu. V. NEMIROVSKII and A. P. YANKOVSKII: Equal-stress reinforcing of Kirchhoff plates for elasto-plastic transverse bending
- S. I. SENASHOV: Plastic flow of a Mises medium with spiral symmetry
- V. K. LASHCHENKOV and B. M. NULLER: Steady-state motion of a crack in an elastic strip (homogeneous problems)
- V. F. BAKIROV and R. V. GOL'DSHTEIN: Leonov–Panasyuk–Dugdale model for an interface crack
- A. O. VATUL'YAN: Determination of the configuration of a crack in an anisotropic solid
- Call for papers
