

ERRATUM**Some Relationships between Water Vapor Permeability and
Chemical/Physical Structure in Rigid Urethane Foams**

(J. Appl. Polymer Sci., 7, 1775-1790 (1963))

by C. J. HILADO and R. H. HARDING

*Research and Development Department, Union Carbide Chemicals Company, South
Charleston, West Virginia*

In Table IV on page 1784, the equation for WVP perpendicular to the foam rise direction should read:

$$1.98 - 0.0033h + 2.16/(r + 1) - 0.601d + 0.201V^{1/3} + 5.44F + 0.407/R$$
