

POLYMER NEWS

JUNE PLASTICS TRAINING PROGRAMS

International Plastics Industry Consultants, Inc., P. O. Box 1324, Long Island City 1, N. Y., will offer four training programs for the plastics industry during June.

PREP, Plastics Rapid Educational Program, will be presented during the week of June 7-11 by Anver S. Suleiman, consultant and editor for the plastics industry. The course is geared to the needs of personnel desiring a broad knowledge of all aspects of plastics materials, processing, and applications.

Reinforced Plastics will be presented during the week of June 21-25 by Gerald D. Shook, active SPI Reinforced Plastics Division member and consultant for the reinforced plastics industry. This will be a comprehensive study of reinforced plastics materials, design, and processing.

Production of Polymers will be presented during the week of June 14-18 by Dr. James M. Church, consultant and educator for the plastics industry. Dr. Church, who has co-authored the *Concise Guide to Plastics*, is Professor of Chemical Engineering at Columbia University. This course will investigate in depth, the various techniques, equipment, and materials used.

Extrusion, a new course covering principles and practices, will be presented during the week of June 7-11 by Harold A. Arbit, extrusion consultant.

These programs will be presented at the Hotel Manhattan, New York City, and tuition for each of the courses is \$300. For further information call: 212-ST-60030.
