

POLYMER NEWS

The International Conferences concerning "The additive and auxiliaries for the rubber and plastics industries in 1970-1980" will be held in Brussels on 18th and 19th March 1970.

About two hundred and fifty specialists from eighteen countries will attend the conferences of international experts, who will give lectures relating to the scientific, technical, economical, and commercial aspects of this important industrial branch.

Complementary information will be available shortly by International Business Contact Club—i.b./c.c.—99 avenue Nouvelle—Brussels 4—Belgium.
