

ERRATA

Grafting of Acrylates and Vinyl Chains onto Collagen with Ceric Initiator

G. M. BRAUER and D. J. TERMINI, *Dental Research Section, National Bureau of Standards, Washington, D.C. 20234*

(article in *J. Appl. Polym. Sci.*, **17**, 2557, 1973)

p. 2559—18th line from bottom should read poly(α -chloroacrylonitrile).

p. 2559—14th line from bottom should be 1.3 N/m², instead of 1.3 M/m².

p. 2566—what appears as the bottom of the figure should be the top.

Fractionation of Ethylene-Propylene Copolymers

TOSHIO OGAWA, SHOICHI TANAKA, and TADAMI INABA,
*Hirakata Plastics Laboratory, Ube Industries Ltd., Hirakata,
Osaka 573, Japan*

(article in *J. Appl. Polym. Sci.*, **17**, 319, 1973)

The curves appearing in Figure 3 show the following systems.

- : PP
- : PE
- : xylene-butyl cellosolve system
- : decalin-ethyl carbitol system
- : *n*-decane-butyl carbitol system
- ▽ : tetralin-ethyl carbitol system
- △ : decalin-butyl carbitol system

The numbers in parentheses in Figure 4 indicates ethylene content in wt-%.
