ERRATUM

Starch Gelatinization

J. LELIEVRE, *Department of Applied Biochemistry and Nutrition, University of Nottingham School of Agriculture, Sutton Bonington, Loughborough, Liecs., Great Britain*

(article in *J. Appl. Polym. Sci.*, **18**, 293 1974).

Figure 1 should be a graph of $100(1 - T_m/T_m^0)\nu_1^2$ versus $(T_m/\nu_1) \cdot 10^{-2}$. The interaction parameter, B, has a value of 20 cal/ml.
