Stabilization of Poly(vinyl Chloride). V. Synergism between Metal Soaps and Polyols upon Stabilization of Poly(vinyl Chloride)

TAKEO IIDA and KUNIO GOTŌ, *Osaka Institute of Technology, Department of Applied Chemistry, Asahi-ku, Osaka 535, Japan*

[article in *J. Appl. Polym. Sci.*, **25**, 887–900 (1980)]

The sentence appearing on the sixth and seventh lines of page 899 which reads: "No masking effect for dihydric alcohols therefore, should depend on their steric hindrance" should be corrected to read: "No masking effect for dihydric alcohols, therefore, should depend on their steric hindrance."
