The Viscosity of Miscible Blends

P. R. COUCHMAN

Department of Chemical and Biochemical Engineering, College of Engineering, Rutgers University, P.O. Box 909, Piscataway, New Jersey 08855-0909

Equation (17) is miswritten. The form of Eq. (12) at $x = 1/2$ is:

$$\log \eta_{1/2} = \log(\eta_1\eta_2)^{1/2} - \frac{1}{4}\left\{\frac{(T_{g_1} - T_{g_2})}{c_2 + \left[T - \frac{(T_{g_1} + T_{g_2})}{2}\right]}\right\} \log \eta_1/\eta_2 \quad (17)$$
