Laboratory for Advanced Research in Polymeric Materials (LARPM), Central Institute of Plastics Engineering and Technology, Bhubaneswar 751 024, India

The following article from the *Journal of Applied Polymer Science*, “Mechanical and Thermal Properties Enhancement of Polycarbonate Nanocomposites Prepared by Melt Compounding” by Sanjay K. Nayak, Smita Mohanty, and Sushanta K. Samal, published online on 7 April 2010 in Wiley Online Library (*J. Appl. Polym. Sci.* **2010**, *117*, 2101; <http://onlinelibrary.wiley.com/doi/10.1002/app.31222/full>), has been retracted by agreement between the authors, the journal’s editors, and Wiley Periodicals, Inc. The retraction has been agreed due to significant overlap with respect to another article, “Effect of hydrogen bonding on the rheology of polycarbonate/organoclay nanocomposites,” by Kyung Min Lee, and Chang Dae Han, published online on 19 June 2003 in *Polymer* (**2003**, *44*, 4573).
