The following article from the *Journal of Applied Polymer Science*, "PP/PP-g-MAH/layered expanded graphite oxide nanocomposites prepared via masterbatch process," by Jun Bian, Xiao Wei Wei, Hai Lan Lin, I Ta Chang, and Erol Sancaktar, published online on 10 July 2012 in Wiley Online Library (wileyonlinelibrary.com), and in Volume 128, pp. 600–610, has been withdrawn by agreement between the journal's editors and Wiley Periodicals, Inc. The action has been agreed due to unacknowledged overlap between Figure 4 in the above paper and Figure 2a in *Composites Science and Technology*, Volume 67 (2007), p. 2528, and the apparent misrepresentation of the material depicted therein. The publisher acknowledges that co-authors I Ta Chang and Erol Sancaktar are not responsible for the issues associated with this article.
