In the published article cited above, the following errors were discovered.

Corrections need to be carried out

Page 1 (bottom):

Hence it is necessary to remove colored material from the effluent before being discharged into land and water using any one of the following physico-chemical or biological methods.

The text is incorrect and should read be:

Hence it is necessary to remove colored material from the effluent before being discharged into land and water using appropriate physico-chemical or biological methods²⁻⁷
