Proceedings of the conference on "Computational Methods and Function Theory," held in Valparaiso, Chile, in 1989. A collection of 17 research articles devoted to various problems in the area.

P. NEVAI, ED., *Orthogonal Polynomials: Theory and Practice*, Kluwer Academic Publishers, 1990, 472 pp.

Proceedings of the NATO Advanced Study Institute on "Orthogonal Polynomials and Their Applications," held in Columbus, Ohio, in 1989. While perhaps technically a conference proceedings, this book is actually quite a bit more. It is a collection of 20 invited survey papers covering different applications and aspects of orthogonal polynomials.
