

## ANNOUNCEMENTS

### *Photosynthesis Conference*

The Fourth International Conference on Photosynthesis will be held at the University of Reading, Whiteknights, Reading, England, September 4–9, 1977.

The proceedings of the symposia will be published in full. Contributed papers are welcome on topics which relate to the symposia. An exhibition of relevant scientific and commercial products will be held at the university. Details of the conference can be obtained from either of the following sources:

Dr. J. Coombs  
Tate and Lyle Ltd.  
P.O. Box 68  
Reading RG6 2BX, England

Professor D. O. Hall  
University of London, King's College  
68 Half Moon Lane, London SE24 9JF  
England

### *Solar Energy Conversion Systems*

The European Seminar on Biological Solar Energy Conversion Systems will be held 9–12 May 1977 at Grenoble-Autrans, France. The organizers of the seminar are D. O. Hall and P. M. Vignais.

The program will include the following topics: physiology and control of plant productivity; protein production and nitrogen fixation; energy crops—land and sea; biomass production for chemicals; greenhouses; algae and bacteria; molecular aspects; and energy analyses and energy systems.

Applications are invited from students, research workers, agriculturists, industrialists, and others in any field. A limited number of scholarships will be awarded to cover accommodation.

Additional information and applications for attending the conference can be obtained from either of the following sources:

Dr. P. M. Vignais  
DRF/Biochimie, C.E.N.-G., 85X  
38041 Grenoble Cedex, France

Professor D. O. Hall  
University of London, King's College  
68 Half Moon Lane, London SE24 9JF  
England
