

ANNOUNCEMENT

1987 UCLA Symposia on Membrane Biochemistry

a DuPont-UCLA Symposium

Molecular Biology of Intracellular Protein Sorting and Organelle Assembly

Organizers: R. A. Bradshaw, M. Douglas and L. McAlister-Henn
January 30-February 5*, Taos, New Mexico

Plenary sessions will include: Cytoplasmic Sorting; Cotranslational Amino Terminal Processing; Karyophilic Transport; Mitochondrial Transport; ER Transport/Secretion; Intracellular Targeting; ER/Golgi; Genetic Analyses; Recycling.

an ARCO Plant Cell Research Institute-UCLA Symposium

Plant Membranes: Structure, Function, Biogenesis

Organizers: Christopher Leaver and Heven Sze
February 8-13**, Park City, Utah

Plenary session topics include: Structure and Function of Energy-Transducing Membranes; Biogenesis of Membranes; Dynamic Aspects of Metabolite Transport; Synthesis and Intracellular Transport of Macromolecules; Membrane Receptors and Transmembrane Signalling; Mutations Modifying Membrane Structure and Function.

Signal Transduction in Cytoplasmic Organization and Cell Motility

Organizers: Peter Satir, John Condeelis and Elias Lazarides
February 15-21**, Lake Tahoe, California

Plenary session topics will include: Thermokinetics and Structural Basis of Cytomatrix Assembly; Control Mechanisms in Assembly of the Membrane-Skeleton; Molecular Basis of Transmembrane Signalling; Transmembrane Signal Discrimination; Signalling during Motile Events—Cell Activation; Control of Cell Function; Amoeboid Chemotaxis; Mechanochemical Force Transduction and Translocation; Integration of Signalling and Force Transduction during Embryogenesis.

Abstract submission deadlines: *October 3, 1986; **October 24, 1986

Applications will be accepted at any time for meetings which are not over-subscribed. For further information, please write:
