Erratum

The articles in Volume 18, Number 5, October 1986 issue of this Journal are Mini-Reviews and not Research Articles as shown in the table of contents. The title of the series of Mini-Reviews is "On the Role of Physical Parameters in the Regulation of Electron Transport."

FEBS-CNRS Advanced Course

A FEBS-CNRS Advanced Course 1987 on "Dynamics of Membrane Proteins and Cellular Energetics" will be held in France in 1987 (Grenoble-Besançon, 13-26 September 1987).

The course will cover important subject areas in the rapidly expanding domains of cellular biochemistry, membrane traffic, and bioenergetics. It will include the following topics: Endocytosis, Receptors, Signal Transduction, Cytoskeleton, Subcellular Membranes, Processing of Proteins, Ion Fluxes.

Lectures and round-table discussions will take place during the first week in Grenoble and will be followed by laboratory experiments during the second week in Besançon. The number of participants will be limited to 80 for the theoretical session in Grenoble and restricted to 20 for the practical course in Besançon. The course fees are 3.750 FF for the lecture course or 5.750 FF for the full course (accommodation and meals included). *Applications should be submitted before January 15, 1987.* Early registration is advised.

Applications and inquiries should be directed to:
