**Measurement of intrinsic exchange rates of amide protons in a  $^{15}\text{N}$ -labeled peptide**

Published in

*J. Biomol. NMR* (1995) **6**, 306–312

In Table 1 on page 311, the predicted hydrogen exchange rate (HX) for Ser<sup>2</sup> should be 588 s<sup>-1</sup> instead of 14 s<sup>-1</sup>, and that for Ile<sup>1</sup> should be listed as 'not determined' (nd) instead of 78 s<sup>-1</sup>. The authors thank Dr. Walter Englander for bringing this error to their attention.
