

Announcement

The Third International Congress on Catalysis will be held from 20 to 25 July 1964 in Amsterdam, The Netherlands; theme of the congress is "The Mechanism of Heterogeneous Catalysis."

For copies of the second circular, submission of papers (summaries of which should be sent in before 1 July 1963), and further information, please apply to Dr. D. M. Bouwer, Secretary, Third International Congress on Catalysis, P. O. Box 3003, Amsterdam, The Netherlands.

Erratum

Volume 1, Number 5, in the article by P. B. Weisz and A. B. Schwartz entitled "Diffusivity of Porous-Oxide-Gel—Derived Catalyst Particles," pp. 399–406:

Page 405, Formula (4) should read:

$$D_{\text{calc}} = 2 \cdot 10^5 d_p^2 p_v^3 / S$$

All diffusivities in tables and figures are given in units of 10^{-3} cm²/sec.
