

### ERRATUM

Volume 123, Number 2 (1990), in the article "Carbon Deposition on Supported Platinum Particles," by T. S. Chang, N. M. Rodriguez, and R. T. K. Baker, pages 486-495: Figures 6 and 7 were inadvertently reversed. For the reader's convenience, the corrected Figs. 6 and 7 appear below.

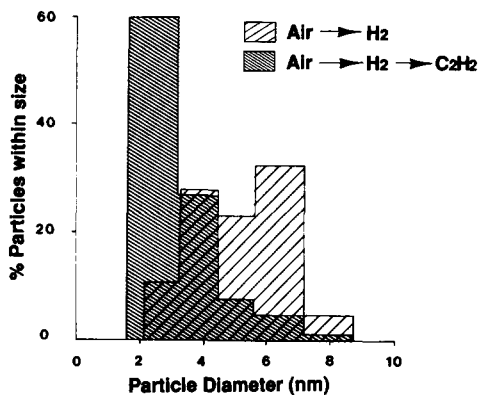

FIG. 6. Particle size distribution of a model platinum/graphite catalyst after heating to 500°C in (a) air for 2.0 h, (b) hydrogen for 4.0 h, and (c) acetylene for 0.5 h.

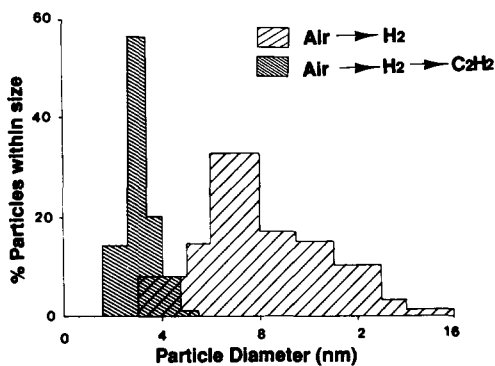

FIG. 7. Particle size distribution of a model platinum/alumina catalyst after heating to 500°C in (a) air for 2.0 h, (b) hydrogen for 4.0 h, and (c) acetylene for 0.5 h.
