In the key to Fig. 3, the symbol for  $\text{Co}_3\text{O}_4$  and the symbol for the 1.13 wt% sample were inadvertently reversed. For the reader's convenience, the corrected Fig. 3 appears here with its legend.

Fig. 3. Temperature dependence of the reciprocal susceptibility of catalysts (the curve of  $\text{Co}_3\text{O}_4$  is also shown for comparison).
