

Fulton AB (1993): Spatial organization of the synthesis of cytoskeletal proteins. J Cell Biochem 52:148–152.

In the above cited article, the source of information regarding the localized messages An1a and An1b was not cited. The sequence information about these two messages was provided to the author as a personal communication from Daniel Weeks. A more complete description of these two messenger RNAs has been published in Gene 128:181–188, 1993. The GenBank accession numbers are L08474 and L08475.
