CBF β and the Leukemogenic Fusion Protein CBF β -SMMHC Associate With Mitotic Chromosomes to Epigenetically Regulate Ribosomal Genes

Cesar Lopez-Camacho, Andre J. van Wijnen, Jane B. Lian, Janet L. Stein, and Gary S. Stein

2155

ACCEPTED MANUSCRIPT ONLINE 30 JULY 2014

The study by Lopez-Camacho et al. contributes to understanding of the epigenetic role of CBF β -SMMHC in proliferation and maintenance of the leukemic phenotype.
