An Expression of Concern is issued in relation to the above article, published online on 20 January 2015 in Wiley Online Library (wileyonlinelibrary.com), by agreement between the journal Editors in Chief, C. Fred Fox, Gary S. Stein and Max M. Burger, and Wiley Periodicals, Inc. The Expression of Concern is issued following independent pathologist review as it would appear that Figures 1(i) and 1(j) do not show lung tumours but rather inflammatory lesions.
