

## SUBJECT INDEX

### VOLUMES 451-500

# A

#### **A-64730**

HPLC for the determination of three new fluoroquinolones fleroxacin, temafloxacin and A-64730, in biological fluids 491 (1989) 379

#### **Abecarnil**

Automated HPLC assay for the  $\beta$ -carboline derivative Abecarnil in plasma 495 (1989) 324

#### **Z-Abienol**

Quantitative TLC of *Nicotiana tabacum* leaf surface components 463 (1989) 429

#### **Absorbance detectors**

Experimental and theoretical model of refractive index artifacts in absorbance detection 459 (1988) 119

#### **Absorbance ratios**

Use of absorbance ratios in densitometric measurements for the characterization and identification of natural products of pharmacological interest 469 (1989) 390

#### **Acceleration, mathematical analysis**

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. I. Design of the apparatus and analysis of acceleration 463 (1989) 305

#### **Acepromazine**

Determination of residues of carazolol and a number of tranquilizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

#### **Acesulfame K**

Analysis of saccharin, acesulfame-K and sodium cyclamate by high-performance ion chromatography 463 (1989) 463

#### **Acetaldehyde**

Effect of pH on the reaction of 2,4-dinitrophenylhydrazine with formaldehyde and acetaldehyde 455 (1988) 310

#### **2-Acetamido-*p*-benzoquinone**

Use of thermospray LC-MS for characterization of reactive metabolites of 3'-hydroxyacetanilide, a non-hepatotoxic regioisomer of acetaminophen 474 (1989) 209

#### **4-Acetamido-*o*-benzoquinone**

Use of thermospray LC-MS for characterization of reactive metabolites of 3'-hydroxyacetanilide, a non-hepatotoxic regioisomer of acetaminophen 474 (1989) 209

#### **Acetaminophen**

see Paracetamol

#### **Acetate**

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

#### **Acetazolamide**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

#### **Acetochlor**

GC determination of chloroacetamide herbicides in plants and soil 455 (1988) 391

**Acetonitrile**

Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65

**2-Acetylaminofluorene**

GC-MS study of deacetylation and oxidation of 2-acetylaminofluorene by rat liver epithelial cell lines upon cocarcinogen induction 488 (1989) 237

**Acetyl-amino-polynuclear aromatic hydrocarbons**

Separation of amino- and acetyl-amino-polycyclic aromatic hydrocarbons by reversed- and normal-phase HPLC 461 (1989) 327

**N-Acetyl-5-aminosalicylic acid**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**Acetylcellulose**

Dual retention mechanism on commercial acetylcellulose as a stationary phase in planar chromatography 454 (1988) 352

**Acetyl chloride**

Degradation and analysis of polyoxyethylene monoalkyl ethers in the presence of acetyl chloride 455 (1988) 119

Degradation and analysis of polyoxyethylene monoalkyl ethers in the presence of acetyl chloride and ferric chloride 469 (1989) 197

**N-Acetyl-S-(3-chloropropenyl-2)-L-cysteine**

Determination of two mercapturic acid metabolites of 1,3-dichloropropene in human urine with GC and sulphur-selective detection 496 (1989) 463

**Acetylcholine**

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

Simultaneous measurement of acetylcholine and dopamine releases in rat striatum under freely moving conditions with a brain dialysis method 494 (1989) 297

**Acetylcodeine**

Programmable temperature vaporizer applications in an high-resolution GC method

for the quantitation of impurities in illicit heroin 466 (1989) 384

**N-Acetyl-L-cysteine**

Quantification of L-3-(3-hydroxy-4-pivaloyloxyphenyl)alanine (NB-355) by HPLC using *o*-phthalaldehyde/N-acetyl-L-cysteine derivatization 494 (1989) 183

**14-Acetyldictiocarpine**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**N-Acetylhydroxysulphapyridine**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**Acetylisoniazid**

Determination of isoniazid methanesulphonate and its metabolites in rabbit blood by HPLC 493 (1989) 305

**N-Acetyl-3-methoxy-*p*-benzoquinone**

Use of thermospray LC-MS for characterization of reactive metabolites of 3'-hydroxyacetanilide, a non-hepatotoxic regioisomer of acetaminophen 474 (1989) 209

**N-Acetylneuraminic acid**

HPLC of sialooligosaccharides and gangliosides 488 (1989) 229

**3-Acetylpyrrolidine-2,4-diones, 5-substituted**

Ion-pair, anion-exchange and ligand-exchange HPLC of tenuazonic acid and 3-acetyl 5-substituted pyrrolidine-2,4-diones 464 (1989) 307

**Acetylsalicylic acid**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**O-Acetylsalicyloyl chloride**

Derivatization of amines with O-acetylsalicyloyl chloride to enhance electrochemical detection in HPLC 455 (1988) 349

**N-Acetylsulphapyridine**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**N-Acetylsulphapyridine O-glucuronide**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**2-Acetyl-4(5)-tetrahydroxybutylimidazole**

Determination of 2-acetyl-4(5)-tetrahydroxybutylimidazole in beers by HPLC with confirmation by chemical derivatization 466 (1989) 421

**N-Acetyltransferase**

Microassay for N-acetyltransferase activity using HPLC with electrochemical detection 487 (1989) 287

**Acid deposition**

Precision and accuracy of ion chromatography in dry deposition measurements 482 (1989) 297

 **$\alpha_1$ -Acid glycoprotein**

Direct enantiomeric separation of anticholinergic drugs derived from ( $\pm$ )-cyclohexyl(3-thienyl)glycolic acid on a novel  $\alpha_1$ -acid glycoprotein-bonded chiral stationary phase (Chiral-AGP) 467 (1989) 406

$\alpha_1$ -Acid glycoprotein HPLC column (Enantiopac) as a screening tool for protein binding 487 (1989) 257

One-step purification of rat plasma  $\alpha_1$ -acid glycoprotein by antibody affinity chromatography: application to normal and inflamed rat sera 489 (1989) 273

Enantioselective determination of metoprolol in plasma by LC on a silica-bonded  $\alpha_1$ -acid glycoprotein column 500 (1990) 629

 **$\alpha$ -Acids**

Preparative LC of hop and beer bitter acids 484 (1989) 361

**Acitretin**

HPLC determination of etretinate and all-*trans*- and 13-*cis*-acitretin in human plasma 500 (1990) 637

**Acrivastine**

Quantitative GC-MS analysis of acrivastine and a metabolite in human plasma 497 (1989) 288

**Activated charcoal**

Solid sorbent sampling and chromatographic determination of glycidyl ethers in air 454 (1988) 121

**Activation, thin layers**

Activation of thin adsorbent layers by an anhydrous organic solvent 474 (1989) 400

**Activity coefficients**

Solubility parameters of GC mixed stationary phases 457 (1988) 55

Determination of activity coefficients of binary liquids by capillary GC with thermal desorption modulation for direct headspace sampling 478 (1989) 141

Prediction of retention in GLC using the UNIFAC group contribution method. I. Low-molecular-weight stationary phases 483 (1989) 1

Study of partition models in reversed-phase LC based on measured mobile phase solute activity coefficients 499 (1990) 373

Limiting activity coefficients and gas-liquid partition coefficients of alkylbenzenes in hydro-organic solvents 500 (1990) 215

**Activity stain**

Activity stain for polygalacturonase 455 (1988) 376

**Acyl coenzyme A**

Hydrophobic interaction chromatography of small molecules: characterization of the retention of acyl coenzyme A homologues 477 (1989) 249

**N-Acyl-L-cysteines**

Automated enantioseparation of amino acids by derivatization with *o*-phthaldialdehyde and N-acylated cysteines 476 (1989) 73

**Acylglycines**

Urinary organic acids: retention indices on two capillary GC columns 491 (1989) 186

**Adenine**

HPLC analysis of fluorescent derivatives of adenine and adenosine and its nucleotides. Optimization of derivatization with chloroacetaldehyde and chromatographic procedures 475 (1989) 311

**Adenine nucleotides**

Novel dual-wavelength monitoring approach for the improved rapid separation and estimation of adenine nucleotides and creatine phosphate by HPLC 459 (1988) 229

Measurement of the release of adenine nucleotides during platelet aggregation by small-bore-column isocratic HPLC 459 (1988) 281

**Adenosine**

HPLC analysis of fluorescent derivatives of adenine and adenosine and its nucleotides.

Optimization of derivatization with chloroacetaldehyde and chromatographic procedures 475 (1989) 311

Simultaneous quantitative HPLC determination of cyclic adenosine 3',5'-monophosphate and adenosine in mouse brain after microwave irradiation: application to isoprenaline effect in vivo 489 (1989) 394

**Adenosine derivatives**

Study of the lipophilic character of xanthine and adenosine derivatives. I.  $R_M$  and  $\log P$  values 498 (1990) 179

**Adenosine 3':5'-monophosphate**

Determination of cyclic nucleotide phosphodiesterase activity in cellular systems by ion-pair reversed-phase LC 483 (1989) 427

Simultaneous quantitative HPLC determination of cyclic adenosine 3',5'-monophosphate and adenosine in mouse brain after microwave irradiation: application to isoprenaline effect in vivo 489 (1989) 394

**Adenosine 5'-triphosphate**

Synthesis of ATP-polyethylene glycol and ATP-dextran and their use in the purification of phosphoglycerate kinase from spinach chloroplasts using affinity partitioning 457 (1988) 183

**Adhumulone**

Preparative LC of hop and beer bitter acids 484 (1989) 361

**Adibendan**

Automated pre-column HPLC method for the investigation of adibendan metabolism 490 (1989) 155

**Adrenaline**

Improved solid-phase extraction and LC with electrochemical detection of urinary catecholamines and 5-S-L-cysteiny-L-DOPA 452 (1988) 409

Simultaneous quantitation of catecholamines and O-methylated metabolites in urine by isocratic ion-pairing HPLC with amperometric detection 459 (1988) 251

Simultaneous HPLC determination of catecholamine-related compounds by post-

column derivatization involving coulometric oxidation followed by fluorescence reaction 467 (1989) 237

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

Determination of catecholamines in human plasma by HPLC: comparison between a new method with fluorescence detection and an established method with electrochemical detection 487 (1989) 17

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites. Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

Highly sensitive determination of catecholamine and serotonin concentrations in plasma by LC electrochemistry 493 (1989) 157

Routine measurement of plasma catecholamines in clinical pharmacology by HPLC with electrochemical detection 493 (1989) 287

Catecholamine measurements in urine by HPLC with amperometric detection-comparison with an autoanalyser fluorescence method 494 (1989) 53

Measurement of urinary free catecholamines using HPLC with electrochemical detection 494 (1989) 303

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

Validation of an amperometric HPLC determination of epinephrine in bupivacaine and epinephrine injection 498 (1990) 402

 **$\alpha_2$ -Adrenergic receptor antagonist**

Determination of picogram levels of a novel  $\alpha_2$ -adrenergic receptor antagonist in plasma using solid-phase extraction and capillary GC with nitrogen-selective detection 488 (1989) 476

**$\beta$ -Adrenoceptor antagonists**

Measurement of the distribution coefficients of several classes of drug using reversed-phase TLC 452 (1988) 257

**Adsorbent layer, activation**

Activation of thin adsorbent layers by an anhydrous organic solvent 474 (1989) 400

**Adsorbents**

GC retention on carbon adsorbents coated with monolayers of polynuclear aromatic hydrocarbons 454 (1988) 373

Solid sorbent sampling and chromatographic determination of glycidyl ethers in air 454 (1988) 121

Determination of the GC performance characteristics of several graphitized carbon blacks 471 (1989) 105

Intermolecular interactions in the sorbate-modified graphitized thermal carbon black system 472 (1989) 155

Preparation and characterization of adsorbents for use in high-performance liquid affinity chromatography 481 (1989) 159

Characterization of polyimide sorbents by using tracer pulse chromatography 498 (1990) 41

New solid adsorbents for the separation of lower hydrocarbons and permanent gases. I. Ammonium tungstophosphate 498 (1990) 349

Intrinsic fluorescence studies of the kinetic mechanism of unfolding of  $\alpha$ -lactalbumin on weakly hydrophobic chromatographic surfaces 500 (1990) 481

**Adsorption**

Studies of adsorption and partition effects in LC with mixed mobile phases 452 (1988) 131

Adsorption of Co(III) complexes on cellulose 456 (1988) 444

Study of the adsorption of methyl red on thermally treated GLC packings 457 (1988) 377

Role of unreacted silanols in the adsorption properties of derivatized silica 461 (1989) 243

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

Sorption of *n*-alkanes on Tenax 464 (1989) 394

GSC on open-tubular columns: an isotope effect 471 (1989) 37

Solvent composition effects on the retention characteristics of aromatic hydroxyl compounds with silica and polar mobile phases and interpretation by the Snyder model 474 (1989) 347

Adsorption equilibrium of hydrogen isotopes on alumina adsorbents for GSC 475 (1989) 125

Adsorbability to and desorbability from Sephadex G-15 of sodium and phosphate ions 475 (1989) 412

Adsorption chromatography on cellulose. V. A simple chromatographic system for the identification of inks 475 (1989) 451

Minimizing adsorption of proteins on fused silica in capillary zone electrophoresis by the addition of alkali metal salts to the buffers 478 (1989) 63

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

Mobile phase effects on aromatic hydroxyl compounds with an aminopropyl column and interpretation by the Snyder model 479 (1989) 5

High-pressure adsorption of carbon dioxide on SFC adsorbents 479 (1989) 251

High-speed analytical sensor for in-line monitoring of dissolved analytes flowing in a tube employing a combination of limited diffusion, laminar flow and plug solvent injections 481 (1989) 111

Modelling methods to aid the design and optimisation of batch stirred-tank and packed-bed column adsorption and chromatography units 484 (1989) 187

Modelling single-component protein adsorption to the cation exchanger S Sepharose<sup>®</sup> FF 498 (1990) 113

HPLC of amino acids, peptides and proteins. XCV. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes: comparison of thermodynamic parameters and the adsorption behaviour of proteins evaluated from bath and frontal analysis experiments 499 (1990) 103

**Adsorption chromatography**

Unified theory of adsorption chromatography: gas, liquid and supercritical fluid mobile phases 452 (1988) 17

Adsorption chromatography on cellulose. IV.

Separation of D- and L-tryptophan and D- and L-methyltryptophan on cellulose with aqueous solvents 469 (1989) 253

**Adsorption isotherms**

Extension of the electrostatic theory of reversed-phase ion-pair chromatography for high surface concentrations of the adsorbing amphiphilic ion 456 (1988) 253

Experimental study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 19

Ion-exchange equilibria of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137

Determination of the GC performance characteristics of several graphitized carbon blacks 471 (1989) 105

Adsorption isotherms on silica for methanol and 1-hexanol modifiers from supercritical carbon dioxide 471 (1989) 357

Study of the representation of competitive isotherms and of the intersection between adsorption isotherms 475 (1989) 1

Preparation and characterization of adsorbents for use in high-performance liquid affinity chromatography 481 (1989) 159

Role of association on protein adsorption isotherms.  $\beta$ -Lactoglobulin A adsorbed on a weakly hydrophobic surface 482 (1989) 1

Preparative HPLC under isocratic conditions. III. The consequences of two adjacent bands having unequal column capacities 483 (1989) 95

Determination of ion-exchange equilibrium parameters of amino acid and protein systems by an impulse response technique 483 (1989) 263

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

Determination of competitive adsorption isotherms for modeling large-scale separations in LC 499 (1990) 5

Theoretical analysis of non-linear preparative LC 500 (1990) 185

**Advances in chromatography**

1963–1988: Twenty-five years of international symposia on advances in chromatography 468 (1989) 1

**Affi-Prep Polymyxin**

Efficient endotoxin removal with a new sanitizable affinity column: Affi-Prep Polymyxin 476 (1989) 175

**Affinity adsorbents**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

Rapid high-performance affinity chromatography on micropellicular sorbents 458 (1988) 207

Affinity separation with polyaldehyde microsphere beads 462 (1989) 177

Affinity chromatography of bovine heart lactate dehydrogenase using dye ligands linked directly or spacer-mediated to bead cellulose 466 (1989) 319

Efficient endotoxin removal with a new sanitizable affinity column: Affi-Prep Polymyxin 476 (1989) 175

Coated silica supports for high-performance affinity chromatography of proteins 476 (1989) 195

HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205

Affinity chromatography of recombinant *Rhizomucor miehei* aspartic proteinase on Si-300 bacitracin 476 (1989) 227

Comparison of protein A, protein G and copolymerized hydroxyapatite for the purification of human monoclonal antibodies 476 (1989) 257

Preparation of adsorbents for affinity chromatography using TSK gel Tresyl-Toyopearl 650M 478 (1989) 159

Preparation and characterization of adsorbents for use in high-performance liquid affinity chromatography 481 (1989) 159

Purification of argininosuccinase by high-pressure immunoaffinity chromatography on monoclonal anti-argininosuccinase-silica 482 (1989) 252

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

HPLC of amino acids, peptides and proteins. XCV. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes: comparison of thermodynamic parameters and the adsorption behaviour of proteins evaluated from bath and frontal analysis experiments 499 (1990) 103

HPLC of proteins on deformed non-porous agarose beads. Fast boronate affinity chromatography of haemoglobin at neutral pH 500 (1990) 543

Carbohydrates as a tool for oriented immobilization of antigens and antibodies 500 (1990) 585

#### **Affinity electrophoresis**

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

#### **Affinity partitioning**

Co-operative cluster model for multivalent affinity interactions involving rigid matrices 457 (1988) 13

Synthesis of ATP–polyethylene glycol and ATP–dextran and their use in the purification of phosphoglycerate kinase from spinach chloroplasts using affinity partitioning 457 (1988) 183

Interaction of lactate dehydrogenase with structurally related triazine dyes using affinity partitioning and affinity chromatography 483 (1989) 289

#### **Aflatoxin M<sub>1</sub>**

Application of an immunoaffinity column sample clean-up to the determination of aflatoxin M<sub>1</sub> in cheese 474 (1989) 457

#### **Aflatoxins**

Chromatographic and spectroscopic properties of hemiacetals of aflatoxin and sterigmatocystin metabolites 462 (1989) 269

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

#### **Agarose**

HPLC of proteins on compressed, non-porous agarose beads. I. Hydrophobic-interaction chromatography 457 (1988) 165

HPLC of proteins on compressed, non-porous agarose beads. II. Anion-exchange chromatography 457 (1988) 175

Simple method for the preparation of spherical agarose and composite gel particles 469 (1989) 396

High-performance chromatofocusing of proteins on agarose columns. I. Macroporous 15–20 μm beads 475 (1989) 167

High-performance chromatofocusing of proteins on agarose columns. II. Deformed non-porous 12–15 μm beads 475 (1989) 177

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. I. Coating: ferric oxyhydroxide with stoichiometrically bound phosphate 481 (1989) 175

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II. Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187

Determination of diffusion coefficients of proteins in beaded agarose by gel filtration 483 (1989) 221

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

HPLC of proteins on deformed non-porous agarose beads. Fast boronate affinity chromatography of haemoglobin at neutral pH 500 (1990) 543

#### **Agarose–polyaldehyde**

Affinity separation with polyaldehyde microsphere beads 462 (1989) 177

#### **Ajmalicine**

HPLC analysis of the ajmalicine distribution in roots of *Catharanthus roseus* lines with different flower colours 452 (1988) 485

Thermospray LC–MS analysis of *Catharanthus* alkaloids 474 (1989) 181

#### **Alachlor**

GC determination of chloroacetamide herbicides in plants and soil 455 (1988) 391

#### **Alanine esters**

Optical resolution of amino acid derivatives by HPLC on tris(phenylcarbamate)s of cellulose and amylose 477 (1989) 367

**Albendazole**

Direct resolution of anthelmintic drug enantiomers on Chiral-AGP protein-bonded chiral stationary phase 472 (1989) 265

Sensitive HPLC assay for albendazole and its main metabolite albendazole sulphoxide in plasma and cerebrospinal fluid 494 (1989) 403

**Albendazole sulphoxide**

Sensitive HPLC assay for albendazole and its main metabolite albendazole sulphoxide in plasma and cerebrospinal fluid 494 (1989) 403

**Albumin**

Use of mobile phase modifiers to alter retention and stereoselectivity on a bovine serum albumin HPLC chiral stationary phase 455 (1988) 316

Determination of binding affinity of enantiomers to albumin by LC 456 (1988) 323

Maillard reaction of bovine serum albumin with glucose. Determination of 2-formyl-5-(hydroxymethyl)pyrrole-1-norleucine by HPLC after alkaline hydrolysis (in German) 463 (1989) 119

Chiral recognition by biological macromolecules. Partial resolution of racemic enones by albumin 464 (1989) 289

Ion-exchange equilibria of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137

Direct LC separation of enantiomers on immobilized protein stationary phases. VII. Sorbents obtained by entrapment of cross-linked bovine serum albumin in silica 465 (1989) 263

Separation of intravenous IgG containing albumin by high-performance SEC on TSKgel G3000SWXL 467 (1989) 436

HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205

High-performance liquid chromatofocusing and column affinity chromatography of *in vitro* <sup>14</sup>C-glycated human serum albumin. Demonstration of a glycation-induced anionic heterogeneity 476 (1989) 467

Use of a fragment of bovine serum albumin as a chiral stationary phase in LC 482 (1989) 35

Direct LC separation of enantiomers on immobilized protein stationary phases. VIII. A comparison of a series of sorbents based on

bovine serum albumin and its fragments 498 (1990) 81

**Albuterol**

Analysis of albuterol in human plasma based on immunoaffinity chromatographic clean-up combined with HPLC with fluorimetric detection 497 (1989) 213

**Alcian Blue**

Hydrophobic interaction of Alcian Blue with soluble and erythrocyte membrane proteins 452 (1988) 347

**Alcohol chain length**

Effect of alcohol chain length, concentration and polarity on separations in HPLC using bonded cyclodextrin columns 499 (1990) 477

**Alcohol dehydrogenase**

Design and applications of biomimetic anthraquinone dyes. II. The interaction of C.I. Reactive Blue 2 analogues bearing terminal ring modifications with horse liver alcohol dehydrogenase 455 (1988) 201

HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205

**Alcohols**

Superconductor metal oxide catalyst in a chemiluminescence chromatography detector 452 (1988) 75

Electrosorptive detection of simple organic compounds in LC 456 (1988) 287

GC of organic compounds using inorganic salts as components of the stationary liquid phase and steam as a carrier gas 456 (1988) 351

Retention in reversed-phase LC: solvatochromic investigation of homologous alcohol-water binary mobile phases 457 (1988) 85

Pentafluorobenzoic anhydride as a derivatizing agent for alcohols and hydroxy fatty acid methyl esters detected by electron capture in GC 466 (1989) 251

GC method for enantiomeric excess determination of alcohols not requiring chiral auxiliary compounds or chiral stationary phases 467 (1989) 285

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

GC based method for assigning the configurations of allylic and benzylic alcohols and for determining their optical purities 482 (1989) 227

Preparation of carbeneous adsorbents by catalytic decomposition of hydrocarbons for chromatographic application 483 (1989) 197

Long-chain fatty acids and alcohols from gerbil meibomian lipids 494 (1989) 23

Effect of alcohol chain length, concentration and polarity on separations in HPLC using bonded cyclodextrin columns 499 (1990) 477

### Aldehyde oxidase

Purification of rabbit liver aldehyde oxidase by affinity chromatography on benzamidine Sepharose 6B 475 (1989) 363

### Aldehydes

HPLC of aliphatic aldehydes by means of post-column extraction with fluorometric detection 457 (1988) 299

HPLC analysis of aldehydes at trace level as their 3-methylbenzothiazolone azine derivatives 475 (1989) 343

Improved HPLC method for artifact-free measurements of aldehydes in the presence of ozone using 2,4-dinitrophenylhydrazine 483 (1989) 431

### Aldohexoses

see also Sugars

GC behaviour of carbohydrate trimethylsilyl ethers. II. Aldohexoses 462 (1989) 49

### Aldolase

Co-operative cluster model for multivalent affinity interactions involving rigid matrices 457 (1988) 13

### Aldophosphamide

Analysis of 4-hydroxycyclophosphamide by GC-MS in plasma 495 (1989) 131

### Algae

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

### Alginates

Determination of the molecular weights of alginates by agarose gel filtration 465 (1989) 386

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

### Alkali fusion

GC analysis of thermoplastic aromatic polyamides after alkali fusion 477 (1989) 53

### Alkali metals

Ion chromatography of transition metals on an iminodiacetic acid bonded stationary phase 499 (1990) 669

### Alkali metal salts

GC of organic compounds using inorganic salts as components of the stationary liquid phase and steam as a carrier gas 456 (1988) 351

Minimizing adsorption of proteins on fused silica in capillary zone electrophoresis by the addition of alkali metal salts to the buffers 478 (1989) 63

### Alkaline earth metals

Ion chromatography of transition metals on an iminodiacetic acid bonded stationary phase 499 (1990) 669

### Alkaline phosphatase

Design and applications of biomimetic anthraquinone dyes. Purification of calf intestinal alkaline phosphatase with immobilised terminal ring analogues of C.I. Reactive Blue 2 473 (1989) 227

Detection of macroenzymes in serum by high-performance GPC 496 (1989) 91

### Alkaloids

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

Determination of isoquinoline alkaloids from *Peumus boldus* by HPLC 457 (1988) 442

Analysis of lupine alkaloids in plants by HPLC 462 (1989) 333

Comparison of capillary GC with  $^1\text{H}$  and  $^{13}\text{C}$  nuclear magnetic resonance spectroscopy for the quantitation of pyrrolizidine alkaloids from *Senecio vernalis* 462 (1989) 387

Selective, stability-indicating assay of the major Ipecacuanha alkaloids, emetine and cephaeline, in pharmaceutical preparations by HPLC using spectrofluorimetric detection 463 (1989) 107

Detection and measurement of the alkaloid peramine in endophyte-infected grasses 463 (1989) 133

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

Capillary GC–Fourier transform IR spectroscopy of pyrrolizidine alkaloids of *Senecio inaequidens* DC 473 (1989) 161

Thermospray LC–MS analysis of *Catharanthus* alkaloids 474 (1989) 181

HPLC determination of the alkaloids in betel nut 475 (1989) 447

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

Reversed-phase HPLC assay for camptothecin and related alkaloids 481 (1989) 421

Reversed-phase ion-pair HPLC separation and determination of tropane alkaloids in Chinese solanaceous plants 481 (1989) 428

Characterization of novel steroidal alkaloids from tubers of *Solanum* species by combined GC–MS. Implications for potato breeding 482 (1989) 13

Separation of homologous and isomeric alkaloids related to nicotine on a  $\beta$ -cyclodextrin-bonded phase 483 (1989) 169

Quantitation of homoharringtonine in plasma by HPLC with amperometric detection 496 (1989) 155

#### **Alkane-1,2-diols**

HPLC separation of alkane-1,2-diol enantiomers on a chiral slurry-packed capillary column 472 (1989) 271

#### **Alkanes**

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

Sorption of *n*-alkanes on Tenax 464 (1989) 394

Splitting control and solvent effects in SFC with fused-silica capillary columns 465 (1989) 17

Non-linearity of the plot of log (adjusted retention time) versus carbon number for *n*-alkanes in series-coupled GC columns 471 (1989) 245

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

Some factors affecting the precision in the determination of retention indices on polar capillary columns for GC 473 (1989) 37

Radiolytic synthesis of high-molecular-weight alkanes for chromatographic characterization and identification purposes 475 (1989) 247

Correlation for Kováts retention index of C<sub>9</sub>–C<sub>26</sub> monoalkyl and polymethyl alkanes and alkenes 481 (1989) 1

#### **Alkanesulphonates**

Changes in retention and polarity accompanying the replacement of hydrogen by fluorine in tetraalkylammonium alkyl- and arylsulfonate salts used as stationary phases in GC 468 (1989) 261

GC study of the solution thermodynamics of organic solutes in tetraalkylammonium alkanesulfonate and perfluoroalkanesulfonate solvents 499 (1990) 749

#### **Alkane–water partition coefficients**

Prediction of alkane–water partition coefficients using a C<sub>18</sub> derivatized polystyrene–divinylbenzene stationary phase 464 (1989) 400

#### **Alkanolamines**

Electrosorptive detection of simple organic compounds in LC 456 (1988) 287

#### **Alkenes**

Superconductor metal oxide catalyst in a chemiluminescence chromatography detector 452 (1988) 75

Correlation for Kováts retention index of C<sub>9</sub>–C<sub>26</sub> monoalkyl and polymethyl alkanes and alkenes 481 (1989) 1

#### **Alkenylacyl glycerophosphoethanolamine**

Separation of the molecular species of diacyl and alkenylacyl subclasses of the methyl ester of dinitrophenylethanolamine glycerophospholipid by HPLC 487 (1989) 239

#### **Alkenyl benzenes**

Dispersion and selectivity indices of alkyl and alkenyl benzenes 452 (1988) 31

**Alkenyl benzoates**

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

**Alkoxy acids**

Reversed-phase TLC and HPLC of aromatic alkoxy and hydroxy acids 475 (1989) 321

**Alkylacylglycerol**

Separation of alkylacyl and diacyl glycerophospholipids and their molecular species as naphthylurethanes by HPLC 493 (1989) 353

**Alkylamidopropyl-N,N-dimethyl-N-(2,3-dihydroxypropyl)ammonium chlorides**

HPLC determination of alkylamidopropyl-N,N-dimethyl-N-(2,3-dihydroxypropyl)ammonium chlorides in aqueous solutions and cosmetic formulations 478 (1989) 191

***n*-Alkylamines**

Instrumental developments in micellar electrokinetic capillary chromatography 480 (1989) 185

 **$\alpha$ -Alkyl- $\alpha$ -amino acids**

Determination of the enantiomers of  $\alpha$ -H- $\alpha$ -amino acids,  $\alpha$ -alkyl- $\alpha$ -amino acids and the corresponding acid amides by HPLC 471 (1989) 263

**Alkyl aryl carbamates**

Relationships between GC retention indices and molecular structure of aromatic hydrocarbons 498 (1990) 357

**4(5)-Alkylated  $\gamma(\delta)$ lactones**

Analytical resolution of 4(5)-alkylated  $\gamma(\delta)$ -lactones by HPLC on a silica-bonded chiral polyacrylamide sorbent. Chromatographic characterization of a stationary phase 469 (1989) 137

**Alkyl benzenes**

Dispersion and selectivity indices of alkyl and alkenyl benzenes 452 (1988) 31

Correlations between octanol-water partition coefficients and reversed-phase HPLC capacity factors. Chlorobiphenyls and alkylbenzenes 454 (1988) 37

Problems with the reproducibility of retention data on capillary columns with hydrocarbon C<sub>87</sub> as the stationary phase 454 (1988) 65

Identification of alkylbenzenes up to C<sub>12</sub> by capillary GC and combined GC-MS. I. OV-101 as stationary phase 455 (1988) 301

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

Quantitative relationships between the structure of alkylbenzenes and their GC retention on stationary phases with different polarity 471 (1989) 227

Identification of alkylbenzenes up to C<sub>12</sub> by capillary GC and GC-MS. II. Retention indices on OV-101 columns and retention-molecular structure correlations 475 (1989) 113

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. III. Monosubstituted aliphatic compounds 481 (1989) 71

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. IV. Branched and unsaturated alkylbenzenes 481 (1989) 85

Relationships between GC retention indices and molecular structure of aromatic hydrocarbons 498 (1990) 357

Limiting activity coefficients and gas-liquid partition coefficients of alkylbenzenes in hydro-organic solvents 500 (1990) 215

**Alkyl benzoates**

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

**Alkyl-bonded silica**

Comparison of retention behavior on polymeric resins and an alkyl-bonded silica phase in reversed-phase HPLC 499 (1990) 279

Studies on the stability of *n*-alkyl-bonded silica gels under basic pH conditions 499 (1990) 317

**Alkylenebis(dithiocarbamates)**

Application of HPLC with spectrophotometric and electrochemical detection to the analysis of alkylenebis(dithiocarbamates) and their metabolites 479 (1989) 97

**1-O-Alkylethylene glycol phosphono analogues**

Silicic acid column chromatography of phosphonolipids. X. Some phosphono analogues of 1-O-alkylethylene glycol 454 (1988) 420

**Alkyl methylphosphonic acids**

Preparation, stability and quantitative analysis by GC and GC–electron impact MS of *tert.*-butyldimethylsilyl derivatives of some alkylphosphonic and alkyl methylphosphonic acids 475 (1989) 261

**Alkyl naphthalenes**

HPLC of alkyl naphthalenes and phenyl naphthalenes on alumina 498 (1990) 248  
Relationships between GC retention indices and molecular structure of aromatic hydrocarbons 498 (1990) 357

**Alkyl phosphonic acids**

Preparation, stability and quantitative analysis by GC and GC–electron impact MS of *tert.*-butyldimethylsilyl derivatives of some alkylphosphonic and alkyl methylphosphonic acids 475 (1989) 261

**Alkylsilane bonded silica gel**

Analysis of short alkylsilane bonded silica gel HPLC stationary phases using hydrofluoric acid digestion and headspace analysis by capillary GC 452 (1988) 43

**24-Alkyl sterols**

Effective separation of sterol C-24 epimers 468 (1989) 91

**Alkylthioether agarose gels**

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

**Allicin**

LC determination of allicin in garlic and garlic products 455 (1988) 271

Effects of pH on the formation of flavour compounds of disrupted garlic 462 (1989) 137

**Allopurinol**

Interrelationships between purine nucleotide degradation and radical formation during intestinal ischaemia and reperfusion: an application of ion-pair HPLC of nucleotides, nucleosides and nucleobases 491 (1989) 77

Determination of serum cytidine deaminase activity using ion-pair reversed-phase LC 495 (1989) 105

**Allylic alcohols**

GC based method for assigning the configurations of allylic and benzylic alcohols

and for determining their optical purities 482 (1989) 227

**Almitrine**

LC–MS of trace compounds with a moving-belt interface and multi-dimensional chromatography 474 (1989) 265

**Alphamethrine**

Study of alkaline hydrolysis of the insecticide alphamethrine by isotachophoretic determination of decomposition products 470 (1989) 235

**Alpinigenine**

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

**Altenuene**

Profiling of *Alternaria* mycotoxins in foodstuffs by HPLC with diode-array UV detection 465 (1989) 305

**Alternariol**

Profiling of *Alternaria* mycotoxins in foodstuffs by HPLC with diode-array UV detection 465 (1989) 305

**Alternating current plasma detector**

GC detection of selected organochlorine species using an alternating current plasma detector 467 (1989) 373

**Alterporriol**

HPLC determination of macrosporin, altersolanol A, alterporriol A, B and C in fermentation of *Alternaria porri* (Ellis) Ciferri 454 (1988) 406

**Altersolanol A**

HPLC determination of macrosporin, altersolanol A, alterporriol A, B and C in fermentation of *Alternaria porri* (Ellis) Ciferri 454 (1988) 406

**Altertoxin-I**

Profiling of *Alternaria* mycotoxins in foodstuffs by HPLC with diode-array UV detection 465 (1989) 305

**Altertoxin-II**

Profiling of *Alternaria* mycotoxins in foodstuffs by HPLC with diode-array UV detection 465 (1989) 305

**Altritol**

Separation of algal organic osmolytes by HPLC 479 (1989) 353

**Alumina**

Retention characteristics in HPLC of basic drugs and plasma extracts on an alumina column 473 (1989) 53

Adsorption equilibrium of hydrogen isotopes on alumina adsorbents for GSC 475 (1989) 125

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II.

Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187

Alumina as stationary phase for ion chromatography and column-coupling techniques 482 (1989) 401

HPLC of alkylnaphthalenes and phenylnaphthalenes on alumina 498 (1990) 248

**Alumina, polybutadiene-coated**

Determination of hydrophobicity parameters on polybutadiene-coated alumina and their application in quantitative structure-activity relationships analysis 458 (1988) 395

**Alumina-silica**

Anion-cation separations on a mixed bed alumina-silica column 466 (1989) 291

**Aluminium**

Differentiation of Al<sup>3+</sup> and Al species in environmental samples by isotachopheresis 470 (1989) 289

Reversed-phase HPLC of aluminium(III) and indium(III) with 1-phenyl-3-methyl-4-benzoyl-5-pyrazolone 478 (1989) 408

**Aluminium oxide**

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II.

Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187

**Amarogentin**

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient elution of a mixture of natural secoiridoid compounds 485 (1989) 631

**Amaroswerin**

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient

elution of a mixture of natural secoiridoid compounds 485 (1989) 631

**Ambenonium chloride**

Sensitive determination of ambenonium chloride in serum from patients with myasthenia gravis using ion-exchange resin extraction and reversed-phase ion-pair chromatography 496 (1989) 397

**Amberlite XAD-2**

Solid sorbent sampling and chromatographic determination of glycidyl ethers in air 454 (1988) 121

**Amberlite XAD-7**

Solid sorbent sampling and chromatographic determination of glycidyl ethers in air 454 (1988) 121

**Ambroxol**

Assay of ambroxol in human plasma by HPLC with amperometric detection 490 (1989) 464

**Amides**

LC determination of low-molecular-weight amides in pharmaceutical matrices 458 (1988) 287

Relationships between structure and retention index for N-substituted amides of aliphatic acids on a non-polar column 463 (1989) 297

Discussion of a controversial chiral recognition model 469 (1989) 67

Direct stereochemical resolution of enantiomeric amides via TLC on a covalently bonded chiral stationary phase 472 (1989) 277

**Amiloride**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

Sensitive HPLC determination of amiloride in human plasma by direct injection with pre-column enrichment 490 (1989) 219

**Amineptine**

GC-MS assessment of the pharmacokinetics of amineptine and its main metabolite in volunteers with liver impairment 487 (1989) 313

**Amines**

Derivatisation of amines with O-acetylsalicyloyl chloride to enhance electrochemical detection in HPLC 455 (1988) 349

Electrosorptive detection of simple organic compounds in LC 456 (1988) 287

Characteristics of an avidin-conjugated column in direct LC resolution of racemic compounds 457 (1988) 227

Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65

Determination of volatile amines in air by on-line solid-phase derivatization and HPLC with UV and fluorescence detection 463 (1989) 192

Biogenic amines and their metabolites in body fluids of normal, psychiatric and neurological subjects (Review) 466 (1989) 89

Determination of nitrogen compounds by SFC using nitrous oxide as the mobile phase and nitrogen-sensitive detection 467 (1989) 61

GLC resolution of some racemic synthons for lamtidine analogous histamine H<sub>2</sub>-receptor antagonists via diastereomeric amides of (1S)-(-)-camphanic acid 467 (1989) 402

Characterisation of products formed by condensations of primary amines with polygodial, and their scope for enantiomer analyses 468 (1989) 201

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

LC separation of acidic phosphoserine peptides on macroporous copoly(styrene-divinylbenzene) using amines to regulate retention 473 (1989) 63

Corona discharge ionization LC-MS interface for target compound analyses 474 (1989) 335

Chromatographic determination of amines in biological fluids with spectral reference to the biological monitoring of isocyanates and amines. I. Determination of 1,6-hexamethylenediamine using glass capillary GC and thermionic specific detection 479 (1989) 125

Chromatographic determination of amines in biological fluids with special reference to the biological monitoring of isocyanates and amines. II. Determination of 2,4- and 2,6-toluenediamine using glass capillary GC and selected ion monitoring 479 (1989) 135

Chromatographic determination of amines in biological fluids with special reference to the biological monitoring of isocyanates and amines.

III. Determination of 4,4'-methylenedianiline in hydrolysed human urine using derivatization and capillary GC with selected ion monitoring 479 (1989) 145

HPLC determination of low levels of primary and secondary amines in aqueous media via derivatization with 1,2-naphthoquinone-4-sulphonate 483 (1989) 341

Sensitive ferrocene reagents for derivatization of amines for HPLC with electrochemical detection 487 (1989) 247

Isolation, separation and analysis in neurochemistry: trace amines and acids as an illustrative example 488 (1989) 129

Determination of aromatic amines in urine and serum 488 (1989) 470

Electrochemical label for HPLC. I.  $\beta$ -Naphthoquinone-4-sulphonate as an electrochemical detection labelling reagent of amines 489 (1989) 371

Analysis of biogenic amines in the brain of the american cockroach (*Periplaneta americana*) by GC-negative ion chemical ionisation MS 490 (1989) 9

Detection of tetrahydroisoquinoline in parkinsonian brain as an endogenous amine by use of GC-MS 491 (1989) 397

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

Application of 3-(2-furyl)quinoline-2-carbaldehyde as a fluorogenic reagent for the analysis of primary amines by LC with laser-induced fluorescence detection 499 (1990) 579

### **$\alpha$ -Amino acid amides**

Determination of the enantiomers of  $\alpha$ -amino acids and  $\alpha$ -amino acid amides by HPLC with a chiral mobile phase 461 (1989) 419

Determination of the enantiomers of  $\alpha$ -H- $\alpha$ -amino acids,  $\alpha$ -alkyl- $\alpha$ -amino acids and the corresponding acid amides by HPLC 471 (1989) 263

### **Amino acid derivatives**

Recent advances in the preparation and use of molecularly imprinted polymers for enantiomeric resolution of amino acid derivatives 470 (1989) 391

**Amino acid oxidase**

Confirming chiral HPLC separations with stereospecific enzymes 468 (1989) 359

**Amino acids**

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

Determination of amino acids on Merrifield resin by microwave hydrolysis 456 (1988) 357

Peak identification of amino acids in LC by optical activity detection 457 (1988) 421

Quantitation of free amino acids in biological samples by HPLC. Application of the method in evaluating amino acid levels in cerebrospinal fluid and plasma of patients with multiple sclerosis 459 (1988) 237

General evaluation and application to trace analysis of a chiral column for ligand-exchange chromatography 461 (1989) 397

Determination of the enantiomers of  $\alpha$ -amino acids and  $\alpha$ -amino acid amides by HPLC with a chiral mobile phase 461 (1989) 419

Determination of taurine: influence of the coil temperature on the taurine peak purity (in German) 462 (1989) 105

Injection of elutes in solvents stronger than the mobile phase in reversed-phase LC 465 (1989) 189

Confirming chiral HPLC separations with stereospecific enzymes 468 (1989) 359

Utility of copper-containing electrolytes for isotachopheresis of amino acids 470 (1989) 131

Some new by-products in primary structure analysis with dimethylaminoazobenzene isothiocyanate as an aid in the TLC identification of residues 472 (1989) 318

Optical resolution of amino acids, peptides and hydroxycarboxylic acids using a new chiral column for ligand-exchange chromatography 473 (1989) 241

Occurrence of D-amino acids in food. Detection by capillary GC and by reversed-phase HPLC with L-phenylalaninamides as chiral selectors 475 (1989) 45

Chiral stationary phases via hydrosilylation reaction of N-acryloylamino acids. I. Stationary phase with one chiral centre for HPLC and

development of a new derivatization pattern for amino acid enantiomers 481 (1989) 380

Study of the chromatographic behaviour and resolution of  $\alpha$ -amino acid enantiomers by HPLC utilizing pre-column derivatization with *o*-phthalaldehyde and new chiral thiols 483 (1989) 239

Determination of ion-exchange equilibrium parameters of amino acid and protein systems by an impulse response technique 483 (1989) 263

Multi-dimensional interpolation by the moving least-squares approach for modelling of chromatographic retention data 485 (1989) 453

Measurement of free amino acids in polymorphonuclear leukocytes by HPLC 491 (1989) 200

Peptide and protein hydrolysis by microwave irradiation 491 (1989) 424

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Simultaneous determination of L-homoserine and L-homoserine lactone by reversed-phase LC in acid hydrolysates of proteins after cyanogen bromide treatment 493 (1989) 380

Capillary electrophoresis with indirect amperometric detection 499 (1990) 713

Use of stable isotopes and GC-MS in the study of different pools of neurotransmitter amino acids in brain slices 500 (1990) 387

 **$\alpha$ -H- $\alpha$ -Amino acids**

Determination of the enantiomers of  $\alpha$ -H- $\alpha$ -amino acids,  $\alpha$ -alkyl- $\alpha$ -amino acids and the corresponding acid amides by HPLC 471 (1989) 263

**Amino acids, branched-chain**

Post-column immobilized leucine dehydrogenase reactor for determination of branched chain amino acids by HPLC with fluorescence detection 463 (1989) 177

**Amino acids, N(O)-*tert*-butyldimethylsilyl derivatives**

Use of stable isotopes and GC-MS in the study of different pools of neurotransmitter amino acids in brain slices 500 (1990) 387

**Amino acids, cyclic**

Derivatization of N-methyl and cyclic amino acids with dimethylformamide dimethyl acetal 469 (1989) 191

**Amino acids, DNP derivatives**

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. II. Studies on retention of stationary phase in short coils and preparative separations in multilayer coils 463 (1989) 317

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. I. Design of the apparatus and performance of semipreparative columns in 2,4-dinitrophenyl amino acid separation 475 (1989) 219

**Amino acids, Dns derivatives**

Chiral separation by electrokinetic chromatography with bile salt micelles 480 (1989) 403

$\gamma$ -Aminobutyric acid, glutamate, glycine and taurine analysis using reversed-phase HPLC and UV detection of dansyl chloride derivatives 487 (1989) 167

Performance of micro-LC columns in an industrial environment: a case history 499 (1990) 541

Appraisal of our pre-column derivatization methods for the HPLC determination of free amino acids in biological materials 499 (1990) 557

**Amino acids, fluorescein isothiocyanate derivatives**

High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141

**Amino acids, Fmoc derivatives**

Appraisal of our pre-column derivatization methods for the HPLC determination of free amino acids in biological materials 499 (1990) 557

**Amino acids, N-heptafluorobutyl isobutyl esters**

Determination of amino acids in rat muscle by GC 487 (1989) 428

**Amino acids, N-methyl**

Derivatization of N-methyl and cyclic amino acids with dimethylformamide dimethyl acetal 469 (1989) 191

**Amino acids, neuroexcitatory non-protein**

Resolution of neuroexcitatory non-protein amino acid enantiomers by HPLC utilising pre-column derivatization with *o*-phthalaldehyde chiral thiols. Application to  $\omega$ -N-oxalyl diamino acids 466 (1989) 407

**Amino acids, OPA derivatives**

Modified procedure for the HPLC analysis of amino acids in xylem sap (in French) 455 (1988) 173

Improved method for amino acid analysis of stained collagen bands from polyacrylamide gels using HPLC 462 (1989) 341

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

Separation of precolumn *ortho*-phthalaldehyde-derivatized amino acids by capillary zone electrophoresis with normal and micellar solutions in the presence of organic modifiers 468 (1989) 55

Resolution of neuroactive non-protein amino acid enantiomers by HPLC utilising pre-column derivatization with *o*-phthalaldehyde-chiral thiols. Application to 2-amino- $\omega$ -phosphonoalkanoic acid homologues and  $\alpha$ -amino- $\beta$ -N-methylaminopropanoic acid ( $\beta$ -methylaminoalanine) 469 (1989) 412

Determination of the enantiomers of  $\alpha$ -H- $\alpha$ -amino acids,  $\alpha$ -alkyl- $\alpha$ -amino acids and the corresponding acid amides by HPLC 471 (1989) 263

Automated enantioseparation of amino acids by derivatization with *o*-phthalaldehyde and N-acylated cysteines 476 (1989) 73

LC analysis of amino and imino acids in protein hydrolysates by post-column derivatization with *o*-phthalaldehyde and 3-mercaptopropionic acid 476 (1989) 83

Analysis of *o*-phthalaldehyde derivatives of acidic and polar amino acids in fermentation broths by HPLC 483 (1989) 437

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

Determination of free amino acids in biological samples: problems of quantitation 491 (1989) 281

Appraisal of our pre-column derivatization methods for the HPLC determination of free amino acids in biological materials 499 (1990) 557

#### **Amino acids, N-protected**

Separation of the enantiomers of N-protected  $\alpha$ -amino acids as anilide and 3,5-dimethylanilide derivatives 479 (1989) 419

#### **Amino acids, PTC derivatives**

Analysis of natural and modified amino acids and hexosamines by reversed-phase HPLC 474 (1989) 411

Simple apparatus for capillary zone electrophoresis and its application to protein analysis 494 (1989) 87

Appraisal of our pre-column derivatization methods for the HPLC determination of free amino acids in biological materials 499 (1990) 557

#### **Amino acids, PTH derivatives**

Peak identification of amino acids in LC by optical activity detection 457 (1988) 421

Thermospray HPLC-MS characterization of biological macromolecules. I. Analysis of acid hydrolysate of peptides 463 (1989) 95

Microcomputer-assisted LC separation system (MCASYST) for method development and data handling 485 (1989) 461

Isocratic separation of phenylthiohydantoin-amino acids by reversed-phase HPLC 487 (1989) 161

#### **Amino acids, N-TFA methyl esters**

Determination of the enhancement of the enantiomeric purity during recrystallization of amino acids 477 (1989) 139

#### **$\delta$ -(L- $\alpha$ -Amino adipyl)-L-cysteinyl-D-valine**

HPLC determination of  $\delta$ -(L- $\alpha$ -amino adipyl)-L-cysteinyl-D-valine in complex media by precolumn derivatization with dansylaziridine 481 (1989) 245

#### **$\alpha$ -Amino alcohols**

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

#### **$\alpha$ -Aminoamides**

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

#### **4-Aminoantipyrine**

Application of amperometric detection to the HPLC determination of antipyrine and 4-aminoantipyrine in urine 455 (1988) 420

#### **2-Aminobiphenyl**

Determination of aromatic amines in urine and serum 488 (1989) 470

#### **2-Amino-3-(4-bromobenzoyl)benzeneacetic acid**

Determination of bromfenac in plasma by HPLC 489 (1989) 452

#### **$\gamma$ -Aminobutyric acid**

$\gamma$ -Aminobutyric acid, glutamate, glycine and taurine analysis using reversed-phase HPLC and UV detection of dansyl chloride derivatives 487 (1989) 167

Ultra-rapid assay of brain  $\gamma$ -aminobutyric acid by LC with electrochemical detection 497 (1989) 363

Use of stable isotopes and GC-MS in the study of different pools of neurotransmitter amino acids in brain slices 500 (1990) 387

#### **$\alpha$ -Aminocarboxylic acids**

Use of achiral ion-pairing reagents with chiral stationary phases 479 (1989) 377

#### **$\alpha$ -Amino esters**

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

#### **2-(2-Aminoethoxy)ethanol**

LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249

#### **Aminoethylcysteine**

HPLC of cystathionine, lanthionine and aminoethylcysteine using *o*-phthaldialdehyde precolumn derivatization 490 (1989) 404

#### **2-Aminofluorene**

Selection of electrophoric derivatives of 1-aminopyrene and 2-aminofluorene for

determination by GC with electron-capture negative-ion MS 500 (1990) 373

### **Aminoglycoside antibiotics**

see also Antibiotics

Determination of the aminoglycoside antibiotics sisomicin and netilmicin in dried blood spots on filter discs, by HPLC with pre-column derivatization and fluorimetric detection 490 (1989) 125

### ***p*-Aminohippuric acid**

Quantitation of *p*-aminohippuric acid in biological fluids by HPLC and dual-wavelength UV detection 490 (1989) 213

### **$\alpha$ -Amino- $\beta$ -N-methylaminopropanoic acid**

Resolution of neuroactive non-protein amino acid enantiomers by HPLC utilising pre-column derivatisation with *o*-phthaldialdehyde-chiral thiols. Application to 2-amino- $\omega$ -phosphonoalkanoic acid homologues and  $\alpha$ -amino- $\beta$ -N-methylaminopropanoic acid ( $\beta$ -methylaminoalanine) 469 (1989) 412

### **2-Amino-4-(5-nitro-2-furyl)thiazole**

Quantitation of N-[4-(5-nitro-2-furyl)-2-thiazolyl]formamide and 2-amino-4-(5-nitro-2-furyl)thiazole in rodent diet 465 (1989) 442

### **Aminopeptidase P**

HPLC determination of aminopeptidase P activity in Fischer F344 rat serum and kidney 493 (1989) 176

### **Aminophenols**

Host-guest complexation in capillary isotachopheresis. II. Determination of aminophenol and diaminobenzene isomers in permanent hair colorants by using capillary isotachopheresis 470 (1989) 123

### **2-Aminophosphonic acids**

Use of achiral ion-pairing reagents with chiral stationary phases 479 (1989) 377

### **2-Amino- $\omega$ -phosphonoalkanoic acids**

Resolution of neuroactive non-protein amino acid enantiomers by HPLC utilising pre-column derivatisation with *o*-phthaldialdehyde-chiral thiols. Application to 2-amino- $\omega$ -phosphonoalkanoic acid homologues and  $\alpha$ -amino- $\beta$ -N-methylaminopropanoic acid ( $\beta$ -methylaminoalanine) 469 (1989) 412

### **Amino-polynuclear aromatic hydrocarbons**

Separation of amino- and acetylamino-polycyclic aromatic hydrocarbons by reversed- and normal-phase HPLC 461 (1989) 327

### **1-Aminopyrene**

Selection of electrophoric derivatives of 1-aminopyrene and 2-aminofluorene for determination by GC with electron-capture negative-ion MS 500 (1990) 373

### **Aminopyrine**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

### **3-Aminoquinuclidine**

Enantiomeric purity determination of 3-aminoquinuclidine by diastereomeric derivatization and HPLC separation 466 (1989) 415

### **5-Aminosalicylic acid**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

### **Amino sugars**

GC determination of glycoprotein amino sugars as *O*-pentafluorobenzoyloxime acetates 467 (1989) 315

### **Amitriptyline**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

### **Ammonia**

LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249

### **Ammonium**

Isocratic elution of sodium, ammonium, potassium, magnesium and calcium ions by ion-exchange chromatography 469 (1989) 339

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

### **Ammonium tungstophosphate**

New solid adsorbents for the separation of lower hydrocarbons and permanent gases. I. Ammonium tungstophosphate 498 (1990) 349

**Amniotic fluid metabolites**

Screening of amniotic fluid metabolites by GC-MS 489 (1989) 353

**Amoxicillin**

Quantitative HPLC determination of ampicillin embonate and amoxicillin embonate 455 (1988) 415

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

**Amphetamines**

Determination of amphetamine-related compounds by HPLC with chemiluminescence and fluorescence detections 464 (1989) 343

Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315

Headspace GC of stimulants in urine by in-column trifluoroacetyl derivatization method 467 (1989) 227

Isothermal capillary GC with electron-capture detection of heptafluorobutyl-L-prolyl derivatives of chiral amphetamines 491 (1989) 262

**Amphiphilic modifier**

Extension of the electrostatic theory of reversed-phase ion-pair chromatography for high surface concentrations of the adsorbing amphiphilic ion 456 (1988) 253

**Ampholytes**

Spacer performance in the cationic isotachopheresis of proteins 470 (1989) 201

**Ampicillin**

Quantitative HPLC determination of ampicillin embonate and amoxicillin embonate 455 (1988) 415

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

 **$\alpha$ -Amylases**

Rapid HPLC separation of barley malt  $\alpha$ -amylase on Cyclobond columns 469 (1989) 361

Rapid separation of  $\alpha$ -amylases from barley by ion-exchange HPLC on non-porous columns 481 (1989) 397

Detection of macroenzymes in serum by high-performance GPC 496 (1989) 91

Investigation of some  $\alpha$ -amylases by high-performance hydrophobic-interaction chromatography 499 (1990) 197

**Amylose tris(phenylcarbamate)**

Optical resolution of amino acid derivatives by HPLC on tris(phenylcarbamate)s of cellulose and amylose 477 (1989) 367

**Anabolic agents**

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

Metabolism of some anabolic agents: toxicological and analytical aspects 489 (1989) 11

Studies on anabolic steroids. I. Integrated methodological approach to the GC-MS analysis of anabolic steroid metabolites in urine 489 (1989) 23

Application of optimization procedures for the separation of anabolic compounds by HPLC 489 (1989) 57

Quality criteria for the detection of analytes in test samples with special reference to anabolic agents and related compounds 489 (1989) 89

Effective monitoring of residues of nortestosterone and its major metabolite in bovine urine and bile 489 (1989) 95

Biotransformation of  $\beta$ -nortestosterone by cultured porcine hepatocytes 489 (1989) 105

Multi-immunoaffinity chromatography: a simple and highly selective clean-up method for multi-anabolic residue analysis of meat 489 (1989) 111

Effect of extended use of single anabolic steroids on urinary steroid excretion and metabolism 489 (1989) 121

Screening and confirmation of thyreostatics in urine by GC with nitrogen-phosphorus detection and GC-MS after sample clean-up with a mercurated affinity column 489 (1989) 127

On-line HPLC diode array spectrophotometric analysis of steroidal hormones in illegal preparations 489 (1989) 139

Determination of  $\beta$ -19-nortestosterone and its metabolite  $\alpha$ -19-nortestosterone in biological samples at the sub parts per billion level by HPLC with on-line immunoaffinity sample pretreatment 489 (1989) 157

Distinction between oral and parenteral application of 19-nortestosterone by residue analysis in kidney fat from veal calves using HPLC and enzyme immunoassay 489 (1989) 173

Determination of hormone contaminants in milk replacers by HPLC and immunoassay 489 (1989) 181

Profiling of free and conjugated [<sup>3</sup>H]zeranol metabolites in pig plasma 489 (1989) 191

Application of sorbent extraction chromatography to the purification of diethylstilboestrol extracted from muscle tissue and determined by radioimmunoassay 489 (1989) 199

Quantitative analysis of anabolics on TLC plates using image analysis techniques 489 (1989) 205

TLC method for the detection of anabolics in fatty tissues 489 (1990) 213

Chemiluminescence immunoassay for the detection and quantification of methyltestosterone residues in muscle tissue 489 (1989) 219

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

Enzyme immunoassay screening procedure for the synthetic anabolic steroids and androgens diethylstilbestrol, nortestosterone, methyltestosterone and trenbolone in bovine urine 489 (1989) 235

Fast detection of homogeneous chemiluminescent immunoassays with a sensitive photoplate 489 (1989) 245

Studies on anabolic steroids. III. Detection and characterization of stanozolol urinary metabolites in humans by GC-MS 497 (1990) 17

### **Analgesics**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

### **Analysis time**

Contemporary LC column design 468 (1989) 99

Optimization of selectivity, detectability and analysis time in HPLC 499 (1990) 489

Factors influencing the performance of peptide mapping by reversed-phase HPLC 499 (1990) 125

### **Analyte, absolute amount**

Determination of the absolute number of moles of an analyte in a flow-through system from peak-area measurements 482 (1989) 207

### **Analyte structure**

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

### **Analyte-wall interactions**

Analysis of factors causing peak broadening in capillary zone electrophoresis 480 (1989) 95

### **Anatoxin-a**

Determination of anatoxin-a, the neurotoxin of *Anabaena flos-aquae* cyanobacterium, in algae and water by GC-MS 481 (1989) 358

### **Androgens**

see also Steroids

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

### **Anethole**

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

### **Angiotensin-converting enzyme**

Purification of angiotensin-converting enzyme by gel HPLC 461 (1989) 271

### **Angiotensin-converting enzyme inhibitor**

Body fluid analysis of a phosphonic acid angiotensin-converting enzyme inhibitor using HPLC and post-column derivatization with *o*-phthaldehyde 487 (1989) 135

GC-MS of perindopril and its active free metabolite, an angiotensin convertase inhibitor: choice of derivatives and ionization modes 488 (1989) 249

Determination of a new angiotensin-converting enzyme inhibitor (CS-622) and its active metabolite in plasma and urine by GC-MS using negative ion chemical ionization 496 (1989) 129

### **Angiotensins**

Capillary zone electrophoresis of histidine-containing compounds 470 (1989) 241

Determination of renin activity in human-plasma by column-switching HPLC with fluorescence detection 490 (1989) 43

**Anilides**

Discussion of a controversial chiral recognition model 469 (1989) 67

Improved chiral stationary phase for the separation of the enantiomers of chiral acids as their anilide derivatives 471 (1989) 271

**Anilines**

Perfluoro and chloro amide derivatives of aniline and chloroanilines. A comparison of their formation and GC determination by mass selective and electron-capture detectors 457 (1988) 267

LC separation of several classes of acidic and basic aromatic compounds on silica-bonded 8-quinolinol stationary phases 465 (1989) 249

**Anion chromatography, injection peaks**

Injection peaks in anion chromatography 482 (1989) 343

**Anion exchangers**

HPLC of amino acids, peptides and proteins. LXXXVII. Comparison of retention and bandwidth properties of proteins eluted by gradient and isocratic anion-exchange chromatography 458 (1988) 27

High-performance liquid chromatography of amino acids, peptides and proteins. LXXXVIII. Calculation of the average distance between protein solutes and the stationary phase during isocratic anion-exchange chromatography 458 (1988) 45

Anion-exchange selectivity in latex-based columns for ion chromatography 458 (1988) 241

Preparation and use of latex-coated resins for anion chromatography 462 (1989) 165

High-performance anion-exchange chromatography of proteins using aza-ether bonded silica-based phases 463 (1989) 329

Evaluation of advanced silica packings for the separation of biopolymers by HPLC. VI. Design, chromatographic performance and application of non-porous silica-based anion exchangers 476 (1989) 37

Low-capacity quaternary phosphonium resins for anion chromatography 479 (1989) 401

New latex-bonded pellicular anion exchangers with multi-phase selectivity for HPLC separations 499 (1990) 249

**Anions**

Methyl green-coated column for separation of inorganic anions by ion chromatography 452 (1988) 283

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Anion-exchange selectivity in latex-based columns for ion chromatography 458 (1988) 241

Behavior of simple salts on silica and C<sub>18</sub> columns. Retention dynamics of cations, anions and ion pairs 462 (1989) 71

Anion-cation separations on a mixed bed alumina-silica column 466 (1989) 291

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

Multifactor simultaneous statistical optimization of the mobile phase composition for the separation of inorganic anions in reversed-phase ion-interaction chromatography 467 (1989) 15

Sample-induced internal gradient of ionic strength in ion-exclusion microcolumn LC 469 (1989) 223

Characterization of indirect photometry for the determination of inorganic anions in natural water by ion chromatography 469 (1989) 329

Simultaneous photometric and conductivity detection for microcolumn LC 471 (1989) 303

Determination of the principal anionic components in wines and soft drinks, by ion interaction reversed-phase HPLC 472 (1989) 433

New developments in ion chromatographic methods for atmospheric analysis 482 (1989) 307

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

**Anisaldehyde**

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

**Anisate**

Analysis of theophylline and sodium (or potassium) anisate in pharmaceutical preparations by ultra-fast HPLC (in French) 479 (1989) 430

**Anisodamine**

Reversed-phase ion-pair HPLC separation and determination of tropane alkaloids in Chinese solanaceous plants 481 (1989) 428

**Anisodine**

Reversed-phase ion-pair HPLC separation and determination of tropane alkaloids in Chinese solanaceous plants 481 (1989) 428

**Anisoles**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

**Anthracene**

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

**Anthranilic acid**

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

**Anthrapyrazole**

Determination of the anthrapyrazole anticancer drug CI-941 in plasma and urine by solid-phase extraction and HPLC 491 (1989) 253

**Anthraquinone aglycones**

Strategies of mobile phase transfer from TLC to medium-pressure LC with silica as the stationary phase 499 (1990) 453

**Anthraquinone dyes**

Design and applications of biomimetic anthraquinone dyes. II. The interaction of C.I. Reactive Blue 2 analogues bearing terminal ring modifications with horse liver alcohol dehydrogenase 455 (1988) 201

Design and applications of biomimetic anthraquinone dyes. Purification of calf intestinal alkaline phosphatase with immobilised terminal ring analogues of C.I. Reactive Blue 2 473 (1989) 227

**1-Anthroyl nitrile**

Sensitive method for the analysis of phospholipid subclasses and molecular species as 1-anthroyl derivatives of their glycerides 491 (1989) 37

**Anti-argininosuccinase-silica**

Purification of argininosuccinase by high-pressure immunoaffinity chromatography on monoclonal anti-argininosuccinase-silica 482 (1989) 252

**Antibiotics**

Isolation of virginiamycin-M<sub>1</sub> by droplet counter-current chromatography 454 (1988) 387

Quantitative HPLC determination of ampicillin embonate and amoxycillin embonate 455 (1988) 415

HPLC analysis of josamycin in serum and urine 459 (1988) 261

Improvement of chemical analysis of antibiotics. XV. Isocratic HPLC methods for the analysis and preparative separation of the components of bacitracin 462 (1989) 315

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

LC-MS studies on rifamycin antibiotics 474 (1989) 317

Isolation of drug residues from tissues by solid phase dispersion 475 (1989) 353

Separation of  $\beta$ -lactam antibiotics by micellar electrokinetic chromatography 477 (1989) 259

Improvement of chemical analysis of antibiotics. XVI. Simple and rapid determination of residual pyridonecarboxylic acid antibacterials in fish using a prepacked amino cartridge 477 (1989) 397

Development of a polymer-based reversed-phase HPLC stability indicating assay for U-78 608, an iron complexing monocarbam antibiotic 477 (1989) 427

Isolation of the aromatic heptaenic antibiotics trichomycin A-F by HPLC 481 (1989) 416

Process-scale reversed-phase HPLC purification of LL-E19020 $\alpha$ , a growth promoting antibiotic produced by *Streptomyces lydicus* ssp. *tanzanius* 484 (1989) 381

Development of an analytical method for penicillin G in bovine milk by LC with UV-visible detection and confirmation by MS detection 490 (1989) 101

Determination of the aminoglycoside antibiotics sisomicin and netilmicin in dried blood spots on filter discs, by HPLC with pre-column derivatization and fluorimetric detection 490 (1989) 125

Assay for cloxacillin in human serum utilising HPLC with UV detection 490 (1989) 243

Automated HPLC analysis of tetracycline in urine 490 (1989) 474

Determination of oxytetracycline in plasma from rainbow trout using HPLC with UV detection 493 (1989) 217

HPLC method for the simultaneous determination of enrofloxacin and its primary metabolite ciprofloxacin in canine serum and prostatic tissue 493 (1989) 337

Analytical studies on  $\beta$ -lactam antibiotics. III. Automated HPLC method for the determination of the orally active antibiotic ceftibuten in human plasma and urine 494 (1989) 231

HPLC determination of teicoplanin in plasma: comparison with a microbiological assay 494 (1989) 340

Determination of mizoribine in plasma using ion-pair HPLC 494 (1989) 354

Reversed-phase HPLC assay for the determination of mezlocillin in human and rat biological samples 494 (1989) 376

### **Antibodies**

see also Monoclonal antibodies

Isoelectric focusing of cross-linked monoclonal antibody heterodimers, homodimers and derivatized monoclonal antibodies 489 (1989) 303

Affinity chromatography of anti-mannan antibodies on mannan-acrylamide copolymers 490 (1989) 418

Purification of monoclonal antibodies by complex-displacement chromatography on CM-cellulose 499 (1990) 47

Carbohydrates as a tool for oriented immobilization of antigens and antibodies 500 (1990) 585

Preparative purification of human monoclonal antibody isoforms in a multi-compartment electrolyser with Immobiline membranes 500 (1990) 681

### **Antibodies, biotinylated**

Isolation of a specific membrane protein by immunoaffinity chromatography with biotinylated antibodies immobilized on avidin-coated glass beads 476 (1989) 187

### **Antibodies, labelled**

Purification of labelled antibodies by hydrophobic interaction chromatography 470 (1989) 385

### **Antibody immobilization**

Strategy for the immobilization of monoclonal antibodies on solid-phase supports 458 (1988) 67

### **Anticholinergic drugs**

Direct enantiomeric separation of anticholinergic drugs derived from ( $\pm$ )-cyclohexyl(3-thienyl)glycolic acid on a novel  $\alpha_1$ -acid glycoprotein-bonded chiral stationary phase (Chiral-AGP) 467 (1989) 406

### **Antigens**

Carbohydrates as a tool for oriented immobilization of antigens and antibodies 500 (1990) 585

### **Anti-mannan antibodies**

Affinity chromatography of anti-mannan antibodies on mannan-acrylamide copolymers 490 (1989) 418

### **Antimycin A**

Reversed-phase TLC of homologues of antimycin A and related derivatives 464 (1989) 453

### **Antioxidants**

Liquid chromatographic determination of common water-soluble antioxidants in biological samples 487 (1989) 463

### **Antipyrine**

Application of amperometric detection to the HPLC determination of antipyrine and 4-aminoantipyrine in urine 455 (1988) 420

Modified HPLC assay for antipyrine and its three major metabolites in urine 494 (1989) 424

### **Antithrombin III**

Chromatography of human plasma on aminohexyl Sepharose: separation of factor VIII/vWf and behaviour of factors II, VII, IX and X and antithrombin III 491 (1989) 299

### **Aperture width**

Adjustable aperture-width detector cell for on-column detection in capillary zone electrophoresis 462 (1989) 147

### **Apolipoprotein A-IV**

Purification of human apolipoprotein A-IV by fast protein LC 487 (1989) 154

### **Apricot flavour compounds**

Chiral flavour compounds from apricots. Distribution of  $\gamma$ -lactone enantiomers and stereodifferentiation of dihydroactinidiolide using multi-dimensional GC 498 (1990) 396

**Aprindine**

Rapid and sensitive determination of aprindine in serum by GC using a surface ionization detector 493 (1989) 71

**Arabinitol**

Enantioselective measurement of the *Candida* metabolite D-arabinitol in human serum using multi-dimensional GC and a new chiral phase 495 (1989) 21

Separation and quantification by GC-MS of arabinitol enantiomers to aid the differential diagnosis of disseminated candidiasis 500 (1990) 413

**1- $\beta$ -D-Arabinofuranosylcytosine**

HPLC assay for cytosine arabinoside and uracil arabinoside in cerebrospinal fluid and plasma 497 (1989) 302

**1- $\beta$ -D-Arabinofuranosylcytosine-5'-triphosphate**

Detection and separation of intracellular 1- $\beta$ -D-arabinofuranosylcytosine-5-triphosphate by ion-pair HPLC 497 (1989) 109

**Arabitol**

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

**Arachidonic acid**

Specific radioactivity determination of labeled eicosanoids 489 (1989) 359

**Arecaidine**

HPLC determination of the alkaloids in betel nut 475 (1989) 447

**Arecoline**

HPLC determination of the alkaloids in betel nut 475 (1989) 447

**L-Arginine**

Determination of L-canavanine and L-canaline in plant tissues by HPLC 456 (1988) 405

**Arginine-containing peptides**

HPLC determination of substance P-like arginine-containing peptide in rat brain by on-line post-column fluorescence derivatization with benzoin 490 (1989) 301

**Argininosuccinase**

Purification of argininosuccinase by high-pressure immunoaffinity chromatography on monoclonal anti-argininosuccinase-silica 482 (1989) 252

**Arg-Lys-Asp**

Determination of impurity profiles in drugs and related materials. II. Detection and quantification of a diastereomeric impurity in the peptide RGH-0205 (Arg-Lys-Asp) 452 (1988) 317

**Argon ion laser-Yeung detector**

High-sensitivity laser-induced fluorescence-HPLC studies of polyaromatic hydrocarbons using the argon ion laser-Yeung detector cell configuration 455 (1988) 332

**Aromatic acids**

Selectivity of an octadecyl-modified vinyl alcohol copolymer gel for the retention of polar compounds 468 (1989) 191

**Aromatic compounds**

Preparative and automated compound class separation of Venezuelan vacuum residua by HPLC 484 (1989) 399

**Aromatic compounds, monosubstituted**

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. I. Monosubstituted aromatic compounds 475 (1989) 57

**Aromatic hydroxyl compounds**

Solvent composition effects on the retention characteristics of aromatic hydroxyl compounds with silica and polar mobile phases and interpretation by the Snyder model 474 (1989) 347

Mobile phase effects on aromatic hydroxyl compounds with an aminopropyl column and interpretation by the Snyder model 479 (1989) 5

**Arsenate**

Capillary isotachophoretic separation of phosphate, arsenate, germanate, silicate and molybdate ions using complex-forming equilibria 478 (1989) 238

**Arsenic anions**

Non-suppressed ion chromatography of arsenic anions using sodium nitrite solutions as eluents 457 (1988) 415

**Arteether**

Determination of arteether in blood plasma by HPLC with UV detection after hydrolysis with acid 493 (1989) 125

**Artelinic acid**

Determination of artelinic acid in blood plasma by HPLC 495 (1989) 167

**Articaine**

GC and MS analysis of articaine in urine 494 (1989) 331

**Artificial intelligence**

Artificial intelligence techniques for peak homogeneity validation in LC 465 (1989) 59

**Aryloxypropanolamines**

Resolution of antihypertensive aryloxypropanolamine enantiomers by reversed-phase chromatography of (–)-menthyl chloroformate derivatives 487 (1989) 197

**Aryl sulphoxide**

Contribution of electronic effects to the lipophilicity determined by comparison of values of log *P* obtained by HPLC and calculation 452 (1988) 227

**Ascorbic acid**

Liquid chromatographic determination of common water-soluble antioxidants in biological samples 487 (1989) 463

Anion-exchange HPLC determination of ascorbic acid and hexavalent chromium in rat lung preparations after treatment with sodium chromate in vitro and in vivo 489 (1989) 283

Determination of ascorbic acid and dehydroascorbic acid in plasma and cerebrospinal fluid by LC with electrochemical detection 497 (1989) 276

**Aspartic acid**

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

Use of stable isotopes and GC–MS in the study of different pools of neurotransmitter amino acids in brain slices 500 (1990) 387

**Aspartic proteinase**

Affinity chromatography of recombinant *Rhizomucor miehei* aspartic proteinase on Si-300 bacitracin 476 (1989) 227

**Aspartylglucosamine**

Analysis of aspartylglucosamine at the picomole level by HPLC 490 (1989) 293

**Assay specificity**

Evaluation of assay specificity in non-suppressed ion chromatography 477 (1989) 271

**Association constants**

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

**Astacene**

Reversed-phase LC of astacene 452 (1988) 535

**Asymmetry**

Measurement of statistical moments of resolved and overlapping chromatographic peaks 461 (1989) 149

**Atenolol**

HPLC determination of the enantiomers of  $\beta$ -adrenoceptor blocking agents in biological fluids. II. Studies with atenolol 489 (1989) 438

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (–)-menthyl chloroformate 493 (1989) 402

**Atmospheric analysis**

New developments in ion chromatographic methods for atmospheric analysis 482 (1989) 307

**Atomic plasma emission spectrometry**

Selection of conditions for the molecular size speciation of vanadium and nickel complexes in oil by SEC coupled with inductively coupled plasma-atomic emission spectrometry 462 (1989) 115

Element-selective GC detection by atomic plasma emission spectroscopy. Review and developments 468 (1989) 319

**Atracurium besylate**

Separation of *cis-cis*, *cis-trans* and *trans-trans* isomers of (±)-atracurium besylate and *cis* and *trans* isomers of its major quaternary decomposition products and related impurity by reversed-phase HPLC 457 (1988) 127

**Atrazine**

Coupled reversed-phase LC–capillary GC for the determination of atrazine in water 473 (1989) 423

**Autoantibodies**

HPLC of amino acids, peptides and proteins. XCIII. Comparison of methods for the purification of mouse monoclonal immunoglobulin M autoantibodies 476 (1989) 269

**Autoantigens**

Has immunoblotting replaced electroimmunoprecipitation? Examples from the analysis of autoantigens and transglutaminase-induced polymers of the human erythrocyte membrane 470 (1989) 351

**Autofocusing**

Application of autofocusing in the isolation of peroxidase 474 (1989) 430

**Automation**

Automated analysis of various compounds with a wide range of boiling points by capillary GC based on retention indices 454 (1988) 109

Automated sequential trace enrichment of dialysates and robotics. A technique for the preparation of biological samples prior to HPLC 456 (1988) 53

On-line sample processing and analysis of diol compounds in biological fluids 456 (1988) 93

Preconcentration and analysis of atmospheric isoprene and monoterpenes. System automation 456 (1988) 165

Automated recycling free fluid isotachopheresis. Principle, instrumentation and first results 457 (1988) 137

Strategies for automated optimisation of HPLC separations incorporating diode-array detection 458 (1988) 335

Simplified procedures for the determination of fenoldopam and its metabolites in human plasma by HPLC with electrochemical detection: comparison of manual and robotic sample preparation methods 487 (1989) 385

Sample preparation for biomedical analysis (Review) 492 (1989) 3

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

**Autoradiography**

Highly sensitive on-line radioassay of HPLC effluents 468 (1989) 279

**Auxins**

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. II. Studies on retention of stationary phase in short coils and preparative separations in multilayer coils 463 (1989) 317

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various

biological samples with a semipreparative column 498 (1990) 169

**Average distance of approach**

High-performance liquid chromatography of amino acids, peptides and proteins. LXXXVIII. Calculation of the average distance between protein solutes and the stationary phase during isocratic anion-exchange chromatography 458 (1988) 45

**Avidin-coated glass beads**

High-performance affinity isolation of lymphocyte membrane receptors on biotinylated antigen and avidin-coated beads 458 (1988) 185

Isolation of a specific membrane protein by immunoaffinity chromatography with biotinylated antibodies immobilized on avidin-coated glass beads 476 (1989) 187

**Avidin-conjugated column**

Characteristics of an avidin-conjugated column in direct LC resolution of racemic compounds 457 (1988) 227

**Aza-ether bonded silica-based phases**

High-performance anion-exchange chromatography of proteins using aza-ether bonded silica-based phases 463 (1989) 329

**Azaperone**

Determination of residues of carazolol and a number of tranquillizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

**Azide**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

**3'-Azido-3'-deoxythymidine**

Adsorption chromatographic separation of <sup>125</sup>I-labelled derivatives of 3'-azido-3'-deoxythymidine 478 (1989) 280

Trace-level determination of 3'-azido-3'-deoxythymidine in human plasma by preconcentration on a silver (I)-thiol stationary phase with on-line reversed-phase HPLC 491 (1989) 321

**3'-Azido-3'-deoxythymidine-5'-phosphate**

Preparative-scale HPLC separation and purification of 3'-azido-3'-deoxythymidine-5'-phosphate 499 (1990) 55

**Azines**

2-Trichloromethylbenzimidazole, a selective chromogenic reagent for the detection of some azines on thin-layer plates. Addendum 481 (1989) 477

**Azinphosmethyl**

Identification of organophosphorus insecticides and their hydrolysis products by liquid chromatography in combination with UV and thermospray-MS detection 455 (1988) 163

**Azobenzene**

Trace/ultratrace analyses of unstable compounds. Investigations on hydrazobenzene and azobenzene 471 (1989) 443

**B****B24/76**

Determination of the  $\beta$ -adrenoceptor blocking drug B24/76 in serum by HPLC with fluorimetric detection after pre-column dansylation 488 (1989) 482

**Bacitracin**

Improvement of chemical analysis of antibiotics. XV. Isocratic HPLC methods for the analysis and preparative separation of the components of bacitracin 462 (1989) 315

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. II. Studies on retention of stationary phase in short coils and preparative separations in multilayer coils 463 (1989) 317

Improved method for continuous UV monitoring in high-speed counter-current chromatography 475 (1989) 229

Affinity chromatography of recombinant *Rhizomucor miehei* aspartic proteinase on Si-300 bacitracin 476 (1989) 227

Foam counter-current chromatography of bacitracin. I. Batch separation with nitrogen and water free of additives 482 (1989) 197

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various biological samples with a semipreparative column 498 (1990) 169

**Baclofen**

Simple and rapid reversed-phase HPLC determination of baclofen in human plasma with UV detection. Application to a pharmacokinetic study 487 (1989) 107

Determination of baclofen and  $\alpha$ -baclofen in rat liver homogenate and human urine using solid-phase extraction, *o*-phthalaldehyde-*tert*-butyl thiol derivatization and HPLC with amperometric detection 491 (1989) 151

**Bacteriorhodopsin**

Micropreparative separation of peptides derived from sodium dodecyl sulphate-solubilized proteins 473 (1989) 71

Preparative purification of functional bacteriorhodopsin by high performance SEC 483 (1989) 331

**Bacteroides species**

Rapid identification of *Bacteroides* species by HPLC 459 (1988) 331

**Band broadening**

Sample size and retention values in HPLC of biological and synthetic polymers 458 (1988) 79

Contribution of longitudinal diffusion to band broadening in LC 469 (1989) 53

Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

Analysis of factors causing peak broadening in capillary zone electrophoresis 480 (1989) 95

Preparative HPLC under gradient conditions. I. Band broadening in gradient elution as a function of sample size 484 (1989) 409

**Band interference patterns**

Theoretical study of multi-component interferences in non-linear chromatography 484 (1989) 103

**Band profiles**

see Elution band profiles

**Band shape**

Computation of band shape for strong injection solvent and weak mobile phase combinations in LC 473 (1989) 260

**Band spacing**

Design of optimized HPLC gradients for the separation of either small or large molecules. II. Background and theory 459 (1988) 25

**Bandwidth**

HPLC of amino acids, peptides and proteins. LXXXVII. Comparison of retention and bandwidth properties of proteins eluted by gradient and isocratic anion-exchange chromatography 458 (1988) 27

Measurement of statistical moments of resolved and overlapping chromatographic peaks 461 (1989) 149

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

**Barbiturates**

Automated LC analysis of drugs in urine by on-line sample cleanup and isocratic multicolumn separation 473 (1989) 325

SFC of barbiturates 481 (1989) 63

HPLC method for determining thiopental concentrations in twelve rat tissues: application to physiologic modeling of disposition of barbiturate 490 (1989) 339

**Baseline variation**

Simple modification to compensate for the baseline variation due to the introduction of a reduced-pressure gas sample into a gas chromatograph 472 (1989) 389

**Bases**

Silanediol groups of the silica gel Nucleosil: active sites involved in the chromatographic behaviour of bases 468 (1989) 67

**Basic drugs**

Retention reproducibility of basic drugs in HPLC on a silica column with a methanol-ammonium nitrate eluent. Batch-to-batch reproducibility of the stationary phase 455 (1988) 77

Separation of basic drugs by HPLC on a silica column using a methanol-ethylenediamine buffer 464 (1989) 117

Retention characteristics in HPLC of basic drugs and plasma extracts on an alumina column 473 (1989) 53

**Batch stirred-tank adsorption**

Modelling methods to aid the design and optimisation of batch stirred-tank and packed-bed column adsorption and chromatography units 484 (1989) 187

**Batracylin**

HPLC assay and preclinical pharmacologic studies with the experimental antitumor agent batracylin 491 (1989) 488

**Bed structure**

Insights into the slurry packing and bed structure of capillary LC columns 458 (1988) 267

**Belt-speed programming**

Belt-speed programming, a new technique for peak compression in LC-MS and supercritical-fluid chromatography-mass spectrometry with moving-belt interfaces 474 (1989) 275

**Bencetonium chloride**

Rapid HPLC method for the determination of bencetonium chloride residues in fish products; confirmation by TLC 467 (1989) 321

**Bendroflumethiazide**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

**Benflurone**

Evaluation of photometric HPLC data for the determination of benflurone metabolites in biological materials with and without concomitant use of a standard 500 (1990) 643

**Bentazone**

Residue analysis of the herbicides cyanazine and bentazone in sugar maize and surface water using HPLC and an on-line clean-up column-switching procedure 475 (1989) 432

**Benzaldehydes**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

**Benzalkonium**

HPLC assay of benzalkonium in plasma 487 (1989) 221

**Benzalkonium chlorides**

Analysis of benzalkonium chlorides by GC 463 (1989) 188

**Benzathine salts, antibiotics**

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

**Benzazepines**

Quantitation of selective dopaminergic drugs in plasma by GC-MS following solid-phase extraction 496 (1989) 201

**Benz[*c*]acridines**

Separation of methyl-substituted benz[*c*]acridines by cation-exchange HPLC 498 (1990) 129

**Benzeneacetamides, k-opioid selective**

HPLC assay of k-opioid selective benzeneacetamide derivatives (U50488, U69593 and PD 117302) in rat plasma and brain 491 (1989) 481

**Benzenecarboxylic acids**

Mobility of some carboxy- and hydroxybenzene derivatives on thin layers of plain and iron(III)-impregnated silica gel 464 (1989) 220

**Benzenepolycarboxylic acid salts**

Benzenepolycarboxylic acid salts as eluents in anion chromatography 482 (1989) 155

**Benzenes**

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

Determination of benzenes and naphthalenes in water by purge and trap isolation and capillary column chromatography 466 (1989) 271

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Simultaneous determination of benzene and toluene in the blood using head-space GC 491 (1989) 309

**Benzenesulphonates**

Changes in retention and polarity accompanying the replacement of hydrogen by fluorine in tetraalkylammonium alkyl- and arylsulfonate salts used as stationary phases in GC 468 (1989) 261

**Benzil**

HPLC determination of benzil in air as an indicator of emissions derived from polyester powder coatings 479 (1989) 369

**Benzimidazoles**

Isolation of drug residues from tissues by solid phase dispersion 475 (1989) 353

Isocratic separation of seven benzimidazole anthelmintics by HPLC with photodiode array characterization 475 (1989) 404

Determination of benzimidazole anthelmintics in meat samples 498 (1990) 145

**Benzimidazol-2-ones**

Retention behaviour of some classes of pharmaceutical products on chemically modified TLC plates 475 (1989) 95

**Benzine**

Direct coupling of capillary LC with conventional HPLC 499 (1990) 549

**Benzo[*a*]pyrene**

Determination of benzo[*a*]pyrene in coke tars 456 (1988) 227

Selective determination of benzo[*a*]pyrene in petroleum-based products using multi-column LC 479 (1989) 117

**Benzocaine**

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

**1,4-Benzodiazepine, oxadiazole-substituted**

Determination of an oxadiazole-substituted 1,4-benzodiazepine in plasma by HPLC with UV detection and by a radioreceptor assay 494 (1989) 257

**Benzodiazepine receptor agonist**

Determination of the partial benzodiazepine receptor agonist R<sub>0</sub> 16-6028 in plasma by

capillary GC with nitrogen-selective detection after conversion into the ethyl ester derivative 494 (1989) 119

### **Benzodiazepines**

Packed-column SFC of benzodiazepines 483 (1989) 51

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

Analysis of benzodiazepines and tricyclic antidepressants in serum using a common solid-phase clean-up and a common mobile phase 497 (1989) 201

Prediction of the HPLC retention behaviour of some benzodiazepine derivatives by TLC 499 (1990) 361

### **Benzodioxan**

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

### **Benzoic acid**

Simultaneous determination of nine food additives using HPLC 457 (1988) 333

Model compound sorption by the resins XAD-2, XAD-8 and diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

### **Benzoic acid isotopomers**

Regiochemical differences in the isotopic fractionation of deuterated benzoic acid isotopomers by reversed-phase HPLC 483 (1989) 413

### **Benzoin**

Use of a fragment of bovine serum albumin as a chiral stationary phase in LC 482 (1989) 35

HPLC determination of substance P-like arginine-containing peptide in rat brain by on-line post-column fluorescence derivatization with benzoin 490 (1989) 301

### **Benzoporphyrins**

Computerised GC-MS and HPLC analysis of sedimentary benzoporphyrins 473 (1989) 135

### **Benzotriazole reagent**

Polymeric benzotriazole reagent for the off-line HPLC derivatization of polyamines and related nucleophiles in biological fluids 454 (1988) 169

### **4-(2,1,3-Benzoxadiazol-4-yl)-5-methoxycarbonyl-2,6-dimethyl-3-pyridine-carboxylate**

Determination of isradipine and the oxidative pyridine metabolite in human plasma by HPLC 487 (1989) 483

### **N-Benzoxycarbonylglycyl-L-proline**

Determination of (*R*)- and (*S*)-propranolol in plasma by HPLC using N-benzoxycarbonylglycyl-L-proline as chiral selector in the mobile phase 494 (1989) 157

### **Benzoylcegonine**

Automated LC analysis of drugs in urine by on-line sample cleanup and isocratic multicolumn separation 473 (1989) 325

TLC of benzoylcegonine: a rapid qualitative method for confirming the EMIT Urine Cocaine Metabolite Assays 490 (1989) 236

Determination of cocaine and selected metabolites in canine and human serum by reversed-phase HPLC on coupled cyanopropyl and silica columns 495 (1989) 153

### **Benzoylnorecgonine**

Determination of cocaine and selected metabolites in canine and human serum by reversed-phase HPLC on coupled cyanopropyl and silica columns 495 (1989) 153

### **Benztropine**

HPLC method for the analysis of benztropine in human plasma 491 (1989) 248

### **Benzyl alcohol**

Analysis of solvent residues in pharmaceutical bulk drugs by wall-coated open tubular GC 469 (1989) 161

### **Benzylic alcohols**

GC based method for assigning the configurations of allylic and benzylic alcohols and for determining their optical purities 482 (1989) 227

### **Benzyl-2-oxazolidinone**

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

### **Benzylpropionitrile dithiocarbamates**

Reversed-phase HPLC of metal-benzylpropionitrile dithiocarbamate complexes 481 (1989) 287

**Bepridil hydrochloride**

Stability-indicating HPLC assay for bepridil hydrochloride drug substance and drug products 462 (1989) 398

**Beta-blockers**

Improved screening method for beta-blockers in urine using solid-phase extraction and capillary GC-MS 488 (1989) 357

**Betaxolol**

Direct enantiomeric separation of betaxolol with applications to analysis of bulk drug and biological samples 452 (1988) 477

**Bichromophoric systems**

Reversed-phase HPLC, a tool for the study of bichromophoric systems including polymethylenic linking bridges 481 (1989) 461

**Bicycloketones**

Heat of solution in a polyethylene glycol stationary phase of several cyclic and bicyclic compounds 463 (1989) 441

**Bifenox**

Simultaneous XAD-2 resin extraction and high-resolution electron-capture GC of chlorine-containing herbicides in water samples 456 (1988) 382

**Bile acid N-acetylglucosaminides**

Isolation of bile acid glucosides and N-acetylglucosaminides from human urine by ion-exchange chromatography and reversed-phase HPLC 452 (1988) 459

**Bile acid glucosides**

Isolation of bile acid glucosides and N-acetylglucosaminides from human urine by ion-exchange chromatography and reversed-phase HPLC 452 (1988) 459

**Bile acids**

Studies on steroids. CCXXXVIII. Determination of bile acids in liver tissue by GC-MS with negative ion chemical ionization detection 452 (1988) 119

Quantitative microanalysis of bile acids in biological samples. Collaborative study 452 (1988) 399

Manual automated enrichment procedures for biological samples using lipophilic gels 488 (1989) 87

Altered metabolism of bile acids in cholestasis: determination of  $1\beta$ - and  $6\alpha$ -hydroxylated metabolites 488 (1989) 315

HPLC determination of tauro- and glyco-conjugated bile acids in human serum 490 (1989) 275

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Carrier gas flow-rate and injection system in capillary GC of unconjugated and glycine-conjugated bile acids 495 (1989) 31

New and versatile method for the determination of faecal bile acids by TLC with direct scanning fluorimetry 497 (1989) 139

**Bile salts**

Separation and determination of the ingredients of a cold medicine by micellar electrokinetic chromatography with bile salts 498 (1990) 313

**Bilirubins**

Chromatographic analysis and structure determination of biliverdins and bilirubins (Review) 496 (1989) 1

**Biliverdins**

Chromatographic analysis and structure determination of biliverdins and bilirubins (Review) 496 (1989) 1

**Binapacryl**

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

**1,1'-Binaphthalene-2,2'-dicarboxylic acid**

HPLC separation of enantiomers on axially chiral binaphthalene dicarboxylic acid-chiral phenylethylamine bonded to silica gel 464 (1989) 411

**Binding affinity constants**

Determination of binding affinity of enantiomers to albumin by LC 456 (1988) 323

**Binding equilibrium constants**

Determination of binding equilibrium constants by numerical simulation in zonal high-performance affinity chromatography 458 (1988) 13

**Bioaffinity chromatography**

Bioaffinity chromatography: synergy between interactive chromatography and molecular recognition for the separation and analysis of macromolecules 488 (1989) 145

**Biogenic amines**

Biogenic amines and their metabolites in body fluids of normal, psychiatric and neurological subjects (Review) 466 (1989) 89

**Biological detectors**

Biological detectors in LC 490 (1989) 247

**Bioluminescence**

Chemiluminescence detection for HPLC of biomedical samples (Review) 492 (1989) 319

**Biopolymers, high-molecular-weight**

SFC-MS of high-molecular-weight biopolymers. Instrumental considerations and recent progress 474 (1989) 83

**BIOPREP**

Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425

**Biopterin**

Determination of pterins in urine by HPLC on C<sub>18</sub> columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

**Biospecific interactions**

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

**Biotin**

LC determination of biotin by using 1-pyrenyldiazomethane as a pre-column fluorescent labelling reagent 456 (1988) 421

Characteristics of an avidin-conjugated column in direct LC resolution of racemic compounds 457 (1988) 227

**Bis(alkylthio)selenides**

Separation and detection of bis(alkylthio)selenides of penicillamine and glutathione by LC with electrochemical detection 465 (1989) 359

***m*-Bis(2-chloroethyl)aminophenyl-L-alanine**

HPLC determination of *m*-bis(chloroethyl)-aminophenyl-L-alanine in plasma 490 (1989) 224

**2,2'-{[4,8-Bis(diethylamino)pyrimido-[5,4-*d*]pyrimidine-2,6-diy]}bis[(2-methoxyethyl)imino]}bisethanol**

HPLC assay for RA 642, a compound with cardiovascular effect, in human and rabbit serum 491 (1989) 513

**N,N-Bis(hydroxyethyl)piperazine**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

**Bismuth diethyldithiocarbamate**

Determination of Pb<sup>II</sup>, Cd<sup>II</sup> and Bi<sup>III</sup> by reversed-phase liquid chromatography of their diethyldithiocarbamate complexes with post-column ligand exchange and selective spectrophotometric detection 482 (1989) 317

**Bisphosphonates**

Assay of 1-hydroxy-3-aminopropylidene-1,1-bisphosphonate and related bisphosphonates in human urine and plasma by high-performance ion chromatography 490 (1989) 329

**Bisquaternary amino steroids**

Selection of HPLC methods in pharmaceutical analysis. III. Method validation 464 (1989) 265

**Bitumen**

Sequential hydrocarbon and nitrogen detection in TLC analysis of oil shale bitumen 465 (1989) 345

**Black Pearl**

Traditional oriental medicines. I. Black Pearl: identification and chromatographic determination of some undeclared medicinal ingredients 469 (1989) 406

**Block copolymers**

Analysis of polycarbonate-polydimethylsiloxane block copolymers 500 (1990) 367

**Blotting**

Blotting of proteins onto Immobilon membranes. *In situ* characterization and comparison with HPLC 476 (1989) 59

**Body fluid profiling**

Profiling cells and body fluids-chromatography and two-dimensional electrophoresis as complementary techniques 488 (1989) 105

**Boldenone**

Studies on anabolic steroids. I. Integrated methodological approach to the GC-MS analysis

of anabolic steroid metabolites in urine 489  
(1989) 23

### **Boldine**

Determination of isoquinoline alkaloids from *Peumus boldus* by HPLC 457 (1988) 442

### **Bonded layers, gas-phase synthesis**

Synthesis of bonded layers from cyclic organosilicons in the gas phase 456 (1988) 337

### **Bonded layer structure**

Calculation of the characteristics of the bonded layers of reversed stationary phases 465 (1989) 233

### **Bonded-phase stability**

Stabilization of reversed phases for LC.

Application of IR spectroscopy for the study of bonded-phase stability 458 (1988) 225

### **Borate**

Peculiar features of application of pH gradients formed in borate buffer with a polyhydroxy compound for separation of proteins in a free-flow electrophoretic apparatus 496 (1989) 121

### **Branched-chain keto acids**

Micro-method for measurement of branched-chain keto acid concentrations in plasma from sheep and man 487 (1989) 434

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

### **Brassilexin**

Efficient clean up of non-aqueous plant extracts using reversed-phase cartridges. Applications to the determination of phytoalexins from *Brassica* spp. by HPLC 473 (1989) 293

### **Brassinolide**

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

### **Brassinosteroids**

Effective separation of sterol C-24 epimers 468 (1989) 91

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

### **Brofaromine**

Determination of the new monoamine oxidase inhibitor brofaromine and its major metabolite

in biological material by GC with electron-capture detection 488 (1989) 275

### **Bromacil**

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

### **Bromadiolone**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

### **Bromate**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

### **Bromfenac**

Determination of bromfenac in plasma by HPLC 489 (1989) 452

### **Bromide**

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

LC determination of bromide after pre-column derivatization to 4-bromoacetanilide 457 (1988) 345

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

### **Bromination**

LC analysis of bromination reactions of metal trifluoroacetylacetonates 479 (1989) 181

### **4-Bromoacetanilide**

LC determination of bromide after pre-column derivatization to 4-bromoacetanilide 457 (1988) 345

### **5-Bromodeoxyuridine**

HPLC determination of 5-bromodeoxyuridine in human plasma 491 (1989) 129

### **Bromoditerpene**

Isolation of an antimicrobial bromoditerpene from a marine alga aided by improved bioautography 478 (1989) 255

**Bromomethane**

Direct capillary trapping and GC analysis of bromomethane and other highly volatile air pollutants 454 (1988) 392

**9-Bromomethylacridine**

Automated HPLC determination of plasma free fatty acids using on-line derivatization with 9-bromomethylacridine based on micellar phase-transfer catalysis 500 (1990) 443

**4-Bromomethyl-7-methoxycoumarin**

HPLC determination of valproic acid in plasma using a micelle-mediated pre-column derivatization 456 (1988) 191

Study of the influence of aqueous micellar systems on the derivatization of undecylenic acid with 4-bromomethyl-7-methoxycoumarin 456 (1988) 201

Analysis of 5-fluorouracil in plasma by precolumn derivatization with 4-bromomethyl-7-methoxycoumarin, followed by multi-dimensional HPLC 473 (1989) 431

Automated analysis procedure for valproic acid in blood, serum and brain dialysate by HPLC with bromomethylmethoxycoumarin as fluorescent label 487 (1989) 496

**4-Bromomethyl-6,7-methylenedioxy coumarin**

Sensitive fluorescence labelling for analysis of carboxylic acids with 4-bromomethyl-6,7-methylenedioxy coumarin 478 (1989) 149

**Bromperidol**

Determination of bromperidol in serum by automated column-switching HPLC 495 (1989) 227

**Bromural**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**Bryostatin 1**

Stability-indicating HPLC assay for the anticancer drug bryostatin 1 467 (1989) 332

**Bucromarone**

HPLC method for the radiometric determination of [<sup>14</sup>C]bucromarone in human plasma utilizing non-radiolabeled bucromarone as an internal standard 487 (1989) 365

**Buflomedil hydrochloride**

Rapid, sensitive HPLC method for the analysis of buflomedil hydrochloride and its potential by-products 467 (1989) 327

**Bumetanide**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

**Bupivacaine**

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

Validation of an amperometric HPLC determination of epinephrine in bupivacaine and epinephrine injection 498 (1990) 402

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

**Buprenorphine**

Quantitative determination of buprenorphine and its active metabolite, norbuprenorphine, in human plasma by GC-chemical ionization MS 487 (1989) 469

**Buspirone**

Determination of buspirone and 1-(2-pyrimidinyl)piperazine in plasma samples by HPLC 490 (1989) 470

**Butachlor**

Simultaneous XAD-2 resin extraction and high-resolution electron-capture GC of chlorine-containing herbicides in water samples 456 (1988) 382

**2,3-Butanediol**

GC determination of 2,3-butanediol isomers in urine 496 (1989) 209

**1-Butanol**

Industrial applications of chromatography. I. Determination of methanol, *n*-butanol and toluene by direct aqueous injection GC 457 (1988) 372

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

**2-Butanone**

Determination of methyl ethyl ketone in human urine after derivatization with *o*-nitrophenylhydrazine, using solid-phase extraction and reversed-phase HPLC and UV detection 489 (1989) 419

**tert.-Butyl N-arylsulphinamoyl esters**

(*S*)-*thio*-DNBTyr-A and (*S*)-*thio*-DNBTyr-E as chiral stationary phases for analytical and preparative purposes. Application to the

enantiomeric resolution of alkyl N-arylsulphinamoyl esters 498 (1990) 67

### Butylated hydroxyanisole

Rapid determination of isomer ratios of butylated hydroxyanisole by HPLC 464 (1989) 438

### *n*-Butylbenzene

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

### *tert.*-Butyl-(*S*)-8-bromo-11,12,13,13a-tetrahydro-9-oxo-9*H*-imidazo[1,5-*a*]pyrrolo[2,1-*c*][1,4]benzodiazepine-1-carboxylate

Determination of the partial benzodiazepine receptor agonist R<sub>0</sub> 16-6028 in plasma by capillary GC with nitrogen-selective detection after conversion into the ethyl ester derivative 494 (1989) 119

### 4-*tert.*-Butylcatechol

Determination of 4-*tert.*-butylphenol and 4-*tert.*-butylcatechol in cosmetic products by reversed-phase HPLC 466 (1989) 433

### *n*-Butyldimethylsilane

Analysis of short alkylsilane bonded silica gel HPLC stationary phases using hydrofluoric acid digestion and headspace analysis by capillary GC 452 (1988) 43

### 3-Butyl-2,4-dioxo[1,2-*a*]-*s*-triazinobenzimidazole

Effect of organic solvents in sample solutions and injection volumes on chromatographic peak profiles of analytes in reversed-phase HPLC 483 (1989) 189

### $\alpha$ -Butylene oxide

Chemical degradation and analysis of polyoxyethylene glycols and ethylene oxide- $\alpha$ -butylene oxide block copolymers 455 (1988) 131

### 4-*tert.*-Butylphenol

Determination of 4-*tert.*-butylphenol and 4-*tert.*-butylcatechol in cosmetic products by reversed-phase HPLC 466 (1989) 433

### Butyltin species

Extraction of butyltin species and their GC determination as chlorides in a sediment certified reference material for trace metals, PACS-1 475 (1989) 373

### $\gamma$ -Butyrolactones

Enantiomer separation of  $\alpha$ -substituted  $\gamma$ -butyrolactones on the chiral polyacrylamide resin ChiraSpher® 481 (1989) 387

### Butyrophenones

Retention behaviour of some classes of pharmaceutical products on chemically modified TLC plates 475 (1989) 95

## C

### Cadaverin

Polymeric benzotriazole reagent for the off-line HPLC derivatization of polyamines and related nucleophiles in biological fluids 454 (1988) 169

### Cadmium diethyldithiocarbamate

Determination of Pb<sup>II</sup>, Cd<sup>II</sup> and Bi<sup>III</sup> by reversed-phase liquid chromatography of their diethyldithiocarbamate complexes with post-column ligand exchange and selective spectrophotometric detection 482 (1989) 317

### Cadralazine

Determination of cadralazine in human whole blood using reversed-phase HPLC: utilizing a salting-out extraction procedure 489 (1989) 345

### Caesium-137

Determination of mono-, bi- and trivalent cations using non-suppressed ion chromatography 482 (1989) 289

### Caffeine

HPLC study of the potential metabolites of caffeine. Comparison of different techniques (in French) 455 (1988) 369

Reproducibility of packed-column SFC with helium head-pressure carbon dioxide 465 (1989) 11

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

Applicability of capillary GC to study caffeine distribution in the developing chicken egg 493 (1989) 182

**trans-Caffeoyltartaric acid**

HPLC determination of the free *o*-quinones of *trans*-caffeoyltartaric acid, 2-S-glutathionylcaffeoyltartaric acid and catechin in grape must 472 (1989) 428

**Calcium**

Isocratic elution of sodium, ammonium, potassium, magnesium and calcium ions by ion-exchange chromatography 469 (1989) 339

Determination of rubidium, sodium, calcium and thiamine in a pharmaceutical preparation by capillary isotachopheresis 472 (1989) 441

**Calcium antagonist**

Assay of a calcium antagonist (PU 122) in plasma by GC 497 (1989) 296

**Calcium carbonate**

Effect of particle treatment of composite filler on its interaction coefficient 462 (1989) 155

Application of GC for the study of precipitated calcium carbonate 464 (1989) 416

GC of pure and surface-modified precipitated calcium carbonate 479 (1989) 17

**Calcium channel blockers**

Column LC of calcium channel blockers 494 (1989) 408

**Calibration, universal**

Molecular weight distribution of aspen lignins from conventional GPC, universal calibration and sedimentation equilibrium 498 (1990) 93

**(1S)-(-)-Camphanoyl chloride**

GLC resolution of some racemic synthons for lamtidine analogous histamine H<sub>2</sub>-receptor antagonists via diastereomeric amides of (1S)-(-)-camphanic acid 467 (1989) 402

**Camptothecin**

Reversed-phase HPLC assay for camptothecin and related alkaloids 481 (1989) 421

**L-Canavanine**

Determination of L-canavanine and L-canaline in plant tissues by HPLC 456 (1988) 405

**Cannabinoids**

Diazotized dapsone as a reagent for the detection of cannabinoids on TLC plates 457 (1988) 383

**Capacity factors**

Effect of pressure drop across the column on average densities and capacity factors in SFC 471 (1989) 347

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. II. Long term reproducibility of capacity factors and retention indices 475 (1989) 75

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

Free energy correlations: dead volume and the reversed-phase HPLC capacity factor in the interaction index model. A discussion and application to a nitrosamine series 481 (1989) 97

Possibilities of determination and prediction of solute capacity factors in reversed-phase systems with pure water as the mobile phase 500 (1990) 281

**Capillaries, coating**

Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429

**Capillaries, flushing device**

Simple device for flushing capillaries in capillary zone electrophoresis 480 (1989) 289

**Capillary columns**

see also Columns

Application of deactivated metal capillaries to the analysis of solvents in varnish 464 (1989) 172

LC on packed fused-silica capillary columns with electrochemical detection 467 (1989) 41

Effect of repeated cross-linking of SE-54 stationary phase film on the chromatographic properties of capillary columns 471 (1989) 237

New perspectives in capillary chromatography 473 (1989) 93

Evaluation of small diameter capillary columns for GC 475 (1989) 145

Preparation of silicone-coated 5–25- $\mu$ m I.D. fused-silica capillary columns for open-tubular LC 499 (1990) 345

Performance of micro-LC columns in an industrial environment: a case history 499 (1990) 541

**Capillary columns, wide-bore**

Potential of wide bore open tubular columns in GC analysis of drugs (Review) 494 (1989) 1

**Capillary electrochromatography**

Methods for on-line determination and control of electroendosmosis in capillary

electrochromatography and electrophoresis 470 (1989) 89

### Capillary electrophoresis

Post-column detection for capillary zone electrophoresis 456 (1988) 375

Separation and detection of DNA by capillary electrophoresis 458 (1988) 303

On-line capillary zone electrophoresis-ion spray tandem MS for the determination of dynorphins 458 (1988) 313

Rapid separation of DNA restriction fragments using capillary electrophoresis 458 (1988) 323

Focusing counterparts of electrical field flow fractionation and capillary zone electrophoresis. Electrical hyperlayer field flow fractionation and capillary isoelectric focusing 461 (1989) 95

Adjustable aperture-width detector cell for on-column detection in capillary zone electrophoresis 462 (1989) 147

Nature of temperature gradients in capillary zone electrophoresis 466 (1989) 219

Separation of precolumn *ortho*-phthalaldehyde-derivatized amino acids by capillary zone electrophoresis with normal and micellar solutions in the presence of organic modifiers 468 (1989) 55

Generation of operational electrolytes for isotachopheresis and capillary zone electrophoresis in a three-pole column 470 (1989) 43

Capillary zone electrophoresis of histidine-containing compounds 470 (1989) 241

High-voltage capillary zone electrophoresis of red blood cells 470 (1989) 251

Indirect photometric detection in capillary zone electrophoresis 470 (1989) 299

Dynamic programming of pH—a new option in analytical capillary electrophoresis 470 (1989) 309

Zone broadening due to sample injection in capillary zone electrophoresis 471 (1989) 421

Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429

Capillary electrophoresis—electrospray ionization-MS 474 (1989) 21

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

Minimizing adsorption of proteins on fused silica in capillary zone electrophoresis by the addition of alkali metal salts to the buffers 478 (1989) 63

Harnessing electrical forces for separation. Capillary zone electrophoresis, isoelectric focusing, field-flow fractionation, split-flow thin-cell continuous-separation and other techniques 480 (1989) 21

Dispersion effects in capillary zone electrophoresis 480 (1989) 35

Extra-column effects in high-performance capillary electrophoresis 480 (1989) 91

Analysis of factors causing peak broadening in capillary zone electrophoresis 480 (1989) 95

Use of Peltier thermoelectric devices to control column temperature in high-performance capillary electrophoresis 480 (1989) 111

Performance of an automated injection and replenishment system for capillary electrophoresis 480 (1989) 129

High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141

Characterization of a post-column reaction—laser-induced fluorescence detector for capillary zone electrophoresis 480 (1989) 157

Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169

Photodiode array detection in high-performance capillary electrophoresis 480 (1989) 179

Preliminary investigation of ion mobility spectrometry after capillary electrophoretic introduction 480 (1989) 233

Semiconductor radioisotope detector for capillary electrophoresis 480 (1989) 259

Simple method for generation of a dynamic pH gradient in capillary zone electrophoresis 480 (1989) 271

GPC combined with capillary electrophoresis for microanalysis of proteins 480 (1989) 277

Effect of electrolyte and sample concentration on the relationship between sensitivity and resolution in capillary zone electrophoresis using conductivity detection 480 (1989) 285

Simple device for flushing capillaries in capillary zone electrophoresis 480 (1989) 289

Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311

Capillary zone electrophoresis of oligonucleotides. Factors affecting separation 480 (1989) 321

Capillary electrophoresis of nucleic acids with a fully automated apparatus 480 (1989) 331

Performance of carbohydrate-modified fused-silica capillaries for the separation of proteins by zone electrophoresis 480 (1989) 339

Separation of the human transferrin isoforms by carrier-free high-performance zone electrophoresis and isoelectric focusing 480 (1989) 351

Separation of collagens by capillary zone electrophoresis 480 (1989) 371

Characterization of human growth hormone by capillary electrophoresis 480 (1989) 379

Capillary zone electrophoresis of peptide fragments from trypsin digestion of biosynthetic human growth hormone 480 (1989) 393

Determination of metal ion complexes in electroplating solutions using capillary zone electrophoresis with UV detection 480 (1989) 427

High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

Determination of leucine enkephalin and methionine enkephalin in equine cerebrospinal fluid by microbore HPLC and capillary zone electrophoresis coupled to tandem MS 495 (1989) 41

On-line coupling of capillary isotachopheresis with capillary zone electrophoresis 498 (1990) 191

Capillary electrophoresis with indirect amperometric detection 499 (1990) 713

New option in capillary zone electrophoresis. Use of a transient ionic matrix (dynamic pulse) 500 (1990) 673

### **Capillary electrophoresis, apparatus**

Simple apparatus for capillary zone electrophoresis and its application to protein analysis 494 (1989) 87

### **Capillary electrophoresis–mass spectrometry**

Coupling of capillary zone electrophoresis and capillary liquid chromatography with coaxial continuous-flow fast atom bombardment tandem sector MS 480 (1989) 197

Capillary zone electrophoresis and isotachopheresis–MS of polypeptides and proteins based upon an electro spray ionization interface 480 (1989) 211

Coupling capillary zone electrophoresis and continuous-flow fast atom bombardment MS for the analysis of peptide mixtures 480 (1989) 247

### **Capillary isoelectric focusing**

Focusing counterparts of electrical field flow fractionation and capillary zone electrophoresis. Electrical hyperlayer field flow fractionation and capillary isoelectric focusing 461 (1989) 95

### **Capillary isotachopheresis**

Measurement of limiting mobilities by capillary isotachopheresis with a constant temperature at the site of detection 470 (1989) 69

Data acquisition in capillary isotachopheresis 470 (1989) 79

Concept of response factor in capillary isotachopheresis. Determination of drugs in solution for intravenous injection 470 (1989) 105

Host–guest complexation in capillary isotachopheresis. II. Determination of aminophenol and diaminobenzene isomers in permanent hair colorants by using capillary isotachopheresis 470 (1989) 123

On-column radiometric detector for capillary isotachopheresis and its use in the analysis of <sup>14</sup>C-labelled constituents 470 (1989) 139

Photometric detection of metal cations in capillary isotachopheresis based on complex equilibria 470 (1989) 155

Complementary information from isotachopheresis and HPLC in peptide analysis 470 (1989) 171

Investigations on the interferon-induced 2'–5' oligoadenylate system using analytical capillary isotachopheresis 470 (1989) 185

Application of capillary isotachopheresis to the analysis of glutathione conjugates 470 (1989) 191

Isotachopheretic analysis of peptides. Selection of electrolyte systems and determination of purity 470 (1989) 209

Isotachophoretic determination of short-chain fatty acids in drinking water after solid-phase extraction with a carbonaceous sorbent 470 (1989) 223

Study of alkaline hydrolysis of the insecticide alphasmethrine by isotachophoretic determination of decomposition products 470 (1989) 235

Phase-heterogeneous zones in capillary isotachopheresis of low-solubility bases 470 (1989) 263

Capillary isotachophoretic separation of phosphate, arsenate, germanate, silicate and molybdate ions using complex-forming equilibria 478 (1989) 238

### **Capillary liquid chromatography, coupling to conventional HPLC**

Direct coupling of capillary LC with conventional HPLC 499 (1990) 549

### **Capsaicinoids**

Pentafluorobenzoylation of capsaicinoids for GC with electron-capture detection 457 (1988) 279

### **Carazolol**

Determination of residues of carazolol and a number of tranquillizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

### **Carbadox**

Determination of residues of carbadox and some of its metabolites in swine tissues by HPLC using on-line pre-column enrichment and post-column derivatization with UV-VIS detection 456 (1988) 105

### **Carbamates**

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

### **Carbamazepine**

Application of thermospray LC-MS to the simultaneous quantification of tracer concentrations of isotopically labelled carbamazepine epoxide and steady-state levels of carbamazepine and carbamazepine epoxide 474 (1989) 223

Simultaneous quantitation of salivary carbamazepine, carbamazepine-10,11-epoxide, phenytoin and phenobarbitone by HPLC 496 (1989) 147

### **Carbamazepine-10,11-epoxide**

Application of thermospray LC-MS to the simultaneous quantification of tracer concentrations of isotopically labelled carbamazepine epoxide and steady-state levels of carbamazepine and carbamazepine epoxide 474 (1989) 223

Simultaneous quantitation of salivary carbamazepine, carbamazepine-10,11-epoxide, phenytoin and phenobarbitone by HPLC 496 (1989) 147

### **Carbamoyloximes**

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

### **Carbaryl**

HPLC determination of carbaryl in fruit juices 457 (1988) 437

### **Carbazole**

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

### **Carbidopa**

Improved HPLC analysis with double detection system for L-DOPA, its metabolites and carbidopa in plasma of Parkinsonian patients under L-DOPA therapy 459 (1988) 341

### **Carbohydrates**

see also Sugars and saccharides

Determination of carbohydrate composition of soil hydrolysates by HPLC 454 (1988) 444

Microbore LC and refractive index gradient detection of low-nanogram and low-ppm quantities of carbohydrates 464 (1989) 83

Separation of algal organic osmolytes by HPLC 479 (1989) 353

Biochemical applications of LC-MS 492 (1989) 189

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

HPLC determination of metabolic products for fermentation control of mammalian cell culture: analysis of carbohydrates, organic acids and orthophosphate using refractive index and UV detectors 497 (1989) 59

Separation and quantification by GC-MS of arabinitol enantiomers to aid the differential diagnosis of disseminated candidiasis 500 (1990) 413

Recent developments in the chromatographic analysis of carbohydrates (Review) 500 (1990) 555

Carbohydrates as a tool for oriented immobilization of antigens and antibodies 500 (1990) 585

### **Carbohydrate trimethylsilyl ethers**

GC behaviour of carbohydrate trimethylsilyl ethers. II. Aldohexoses 462 (1989) 49

### **Carbohydrazide**

LC determination of hydrazine, carbohydrazide and thiocarbohydrazide in aqueous solutions 464 (1989) 208

### **$\beta$ -Carbolines**

Study of the lipophilic character of a series of  $\beta$ -carbolines 469 (1989) 121

Retention behaviour of  $\beta$ -carbolines in normal-phase chromatography. Silica and amino phases in HPLC and TLC 471 (1989) 407

Determination of pharmacological levels of harmine, harmine and harmaline in mammalian brain tissue, cerebrospinal fluid and plasma by HPLC with fluorimetric detection 496 (1989) 269

### **Carbon**

Improvement of a carbon-nitrogen elemental analyser for marine samples collected on glass-fibre filters 469 (1989) 399

### **Carbon adsorbents**

GC retention on carbon adsorbents coated with monolayers of polynuclear aromatic hydrocarbons 454 (1988) 73

Preparation of carbonaceous adsorbents by catalytic decomposition of hydrocarbons for chromatographic application 483 (1989) 197

### **Carbon dioxide**

Solvent strength and selectivity properties of supercritical carbon dioxide relative to liquid hexane 465 (1989) 177

Improved evaporative light-scattering detection for SFC with carbon dioxide-methanol mobile phases 467 (1989) 49

Adsorption isotherms on silica for methanol and 1-hexanol modifiers from supercritical carbon dioxide 471 (1989) 357

High-pressure adsorption of carbon dioxide on SFC adsorbents 479 (1989) 251

Determination of trace levels of total carbonate-carbon by indirect photometric ion chromatography with nitrogen purging 481 (1989) 323

Comparative SFC properties of carbon dioxide and sulphur hexafluoride-ammonia mixtures with packed columns 499 (1990) 637

### **Carbon disulphide**

Sampling and determination of carbon disulphide in air by GC with electron-capture detection 464 (1989) 422

### **Carbon-nitrogen elemental analyser**

Improvement of a carbon-nitrogen elemental analyser for marine samples collected on glass-fibre filters 469 (1989) 399

### **Carbon-polymer chip**

Carbon-polymer chips as sensitive electrochemical detectors for micro-LC 459 (1988) 163

### **Carbon sorbent**

Isotachophoretic determination of short-chain fatty acids in drinking water after solid-phase extraction with a carbonaceous sorbent 470 (1989) 223

### **Carbonyl compounds**

see also Aldehydes and ketones

Limitations of 2-diphenylacetyl-1,3-indandione-1-hydrazone as a precolumn fluorescence derivatization reagent 464 (1989) 186

Derivatization with 1,1-dimethylhydrazine for identification of carbonyl compounds resulting from ozonolysis 472 (1989) 284

### **Carbovir**

Liquid chromatographic assay of carbovir, a carbocyclic nucleoside active against human immunodeficiency virus 489 (1989) 323

### **$\alpha$ -Carboxyamido amino acids**

HPLC with thermospray MS detection of  $\alpha$ -carboxyamido amino acids 474 (1989) 187

### **Carboxyibuprofen**

HPLC determination of ibuprofen, its metabolites and enantiomers in biological fluids 491 (1989) 139

**Carboxylic acids**

see also Fatty acids and organic acids

Quantitative determination of dicarboxylic acids and polyols in silicone–polyester resins 452 (1988) 37

Electrosorptive detection of simple organic compounds in LC 456 (1988) 287

Use of a simultaneous conductivity and amperometric detector with a manganin electrode in the microcolumn LC of dicarboxylic acids 456 (1988) 370

Determination of carboxylic acids by LC after phase-transfer-catalysed fluorogenic labelling 456 (1988) 410

LC separation of several classes of acidic and basic aromatic compounds on silica-bonded 8-quinolinol stationary phases 465 (1989) 249

Simultaneous GC of volatile and non-volatile carboxylic acids as *tert*.-butyldimethylsilyl derivatives 468 (1989) 289

Isotachopheresis in mixed solvents consisting of water, methanol and dimethyl sulphoxide. III. Influence of the solvent composition on the dissociation constants and mobilities of non- and hydroxy-substituted aliphatic carboxylic acids 470 (1989) 57

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

Automated dual column coupled system for simultaneous determination of carboxylic acids and inorganic anions 473 (1989) 171

Sensitive fluorescence labelling for analysis of carboxylic acids with 4-bromomethyl-6,7-methylenedioxcoumarin 478 (1989) 149

Capillary GC–MS and identification of substituted carboxylic acids in lipids extracted from a 4000-year-old nubian burial 479 (1989) 61

Florisil<sup>®</sup> sorbent sampling and ion chromatographic determination of airborne aliphatic carboxylic acids 479 (1989) 445

Effect of electrolyte and sample concentration on the relationship between sensitivity and resolution in capillary zone electrophoresis using conductivity detection 480 (1989) 285

New UV labelling agents for HPLC determination of monocarboxylic acids 481 (1989) 211

Ion chromatography of transition metals on an iminodiacetic acid bonded stationary phase 499 (1990) 669

**Carboxylic acids, anilide derivatives**

Improved chiral stationary phase for the separation of the enantiomers of chiral acids as their anilide derivatives 471 (1989) 271

**3-Carboxy-4-methyl-5-propyl-2-furanpropionic acid**

Hippuric acid and 3-carboxy-4-methyl-5-propyl-2-furanpropionic acid in serum and urine. Analytical approaches and clinical relevance in kidney diseases 500 (1990) 615

**Carboxypeptidase A**

Kinetic analysis of the carboxypeptidase A hydrolysis of oligopeptides by reversed-phase HPLC 479 (1989) 27

**2-Carboxythiazolidine-4-carboxylic acid**

Reversed-phase ion-pair HPLC determination of 2-carboxythiazolidine-4-carboxylic acid in plasma 496 (1989) 485

**Carboxytolbutamide**

Simple HPLC method for the determination of tolbutamide and its metabolites in human plasma and urine using photodiode-array detection 490 (1989) 355

**Carbromal**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**Cardiac glycosides**

HPLC determination of secondary cardiac glycosides in *Digitalis purpurea* leaves 479 (1989) 319

**Cardiac steroids**

Retention behaviour of cardiac steroids using cyclodextrin in the mobile phase in HPLC 478 (1989) 339

**Cardiodilatin/atrial natriuretic factor**

Separation of synthetic cardiodilatin/atrial natriuretic factor and related peptides by reversed-phase HPLC 490 (1989) 411

**Carnitine**

Use of anion-exchange resin in F<sup>-</sup> form in sample processing for determination of carnitine 497 (1989) 250

**Carnitine palmitoyltransferase**

Determination of overt carnitine palmitoyltransferase by reversed-phase HPLC 491 (1989) 69

 **$\beta,\beta$ -Carotene-2,2'-diol**

Diastereomeric resolution of carotenoids. III.  $\beta,\beta$ -Caroten-2-ol,  $\beta,\beta$ -carotene-2,2'-diol and 2-hydroxyechinenone 478 (1989) 379

**Carotenes**

Separation of carotenes on cyclodextrin-bonded phases 499 (1990) 627

**Carotenoids**

Simultaneous separation and identification of carotenoids and chlorophylls in turf bermudagrass by HPLC 455 (1988) 396

HPLC of chlorophylls and carotenoids from vegetables 472 (1989) 296

Diastereomeric resolution of carotenoids. III.  $\beta,\beta$ -Caroten-2-ol,  $\beta,\beta$ -carotene-2,2'-diol and 2-hydroxyechinenone 478 (1989) 379

HPLC and capillary SFC separation of vegetable carotenoids and carotenoid isomers 479 (1989) 261

Diastereomeric resolution of carotenoids. IV. Carotenoids with a 4-hydroxy- $\beta$ -end group 482 (1989) 189

 **$\beta,\beta$ -Caroten-2-ol**

Diastereomeric resolution of carotenoids. III.  $\beta,\beta$ -Caroten-2-ol,  $\beta,\beta$ -carotene-2,2'-diol and 2-hydroxyechinenone 478 (1989) 379

**Carpipramine**

Preparative HPLC method for the 2-hydroxy metabolite of carpipramine, excreted by isolated perfused liver 491 (1989) 495

**Carrier ampholytes**

Carrier ampholyte-mediated oxidation of proteins in isoelectric focusing 475 (1989) 283

**Carrier gas flow-rate**

Carrier gas flow-rate and injection system in capillary GC of unconjugated and glycine-conjugated bile acids 495 (1989) 31

**Carvedilol**

HPLC method for the simultaneous determination of the enantiomers of carvedilol and its O-desmethyl metabolite in human plasma after chiral derivatization 493 (1989) 105

**Casein**

Application of reversed-phase HPLC to the separation of peptides from phosphorylated and dephosphorylated casein hydrolysates 473 (1989) 189

HPLC determination of the extent of proteolysis in Gouda cheese 483 (1989) 319

**Casein kinase-1**

Application of fast protein LC for the isolation of vertebrate casein kinase-1 477 (1989) 448

**Castasterone**

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

**Catechins**

Chemical reaction detection of catechins and proanthocyanidins with 4-dimethylaminocinnamaldehyde 467 (1989) 185

HPLC determination of the free *o*-quinones of *trans*-caffeoyltartaric acid, 2-S-glutathionylcaffeoyltartaric acid and catechin in grape must 472 (1989) 428

**Catechol**

HPLC of mixtures of catechol and its reaction products with glyoxylic acid 472 (1989) 381

**Catecholamines**

Improved solid-phase extraction and LC with electrochemical detection of urinary catecholamines and 5-S-L-cysteinyl-L-DOPA 452 (1988) 409

On-line sample processing and analysis of diol compounds in biological fluids 456 (1988) 93

Simultaneous quantitation of catecholamines and O-methylated metabolites in urine by isocratic ion-pairing HPLC with amperometric detection 459 (1988) 251

Improved HPLC analysis with double detection system for L-DOPA, its metabolites and carbidopa in plasma of Parkinsonian patients under L-DOPA therapy 459 (1988) 341

Full automation of catecholamine metabolite determination by column switching and HPLC 465 (1989) 113

Biogenic amines and their metabolites in body fluids of normal, psychiatric and neurological subjects (Review) 466 (1989) 89

Simultaneous HPLC determination of catecholamine-related compounds by post-column derivatization involving coulometric oxidation followed by fluorescence reaction 467 (1989) 237

Determination of catecholamines in human plasma by HPLC: comparison between a new method with fluorescence detection and an established method with electrochemical detection 487 (1989) 17

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites. Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

Highly sensitive determination of catecholamine and serotonin concentrations in plasma by LC electrochemistry 493 (1989) 157

Routine measurement of plasma catecholamines in clinical pharmacology by HPLC with electrochemical detection 493 (1989) 287

Catecholamine measurements in urine by HPLC with amperometric detection—comparison with an autoanalyser fluorescence method 494 (1989) 53

Measurement of urinary free catecholamines using HPLC with electrochemical detection 494 (1989) 303

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

### Catechol derivatives

Isotachophoretic separation and behavior of catechol derivatives 498 (1990) 205

### Catharanthine

Thermospray LC-MS analysis of *Catharanthus* alkaloids 474 (1989) 181

### *Catharanthus roseus*

HPLC analysis of the ajmalicine distribution in roots of *Catharanthus roseus* lines with different flower colours 452 (1988) 485

### Cathie

Cathie: expert interpretation of chromatographic data 485 (1989) 341

### Cation exchangers

Sulphated Sepharose—a strong cation exchanger 472 (1989) 261

Chromatographic separation of the heavier lanthanoids on the spherical cation exchanger OSTION with  $\alpha$ -hydroxy- $\alpha$ -methylbutyrate 478 (1989) 446

Modelling single-component protein adsorption to the cation exchanger S Sepharose® FF 498 (1990) 113

### Cations

Behavior of simple salts on silica and C<sub>18</sub> columns. Retention dynamics of cations, anions and ion pairs 462 (1989) 71

Determination of cations in xylem sap by ion-exchange HPLC with UV detection (in French) 462 (1989) 303

Anion-cation separations on a mixed bed alumina-silica column 466 (1989) 291

Isocratic elution of sodium, ammonium, potassium, magnesium and calcium ions by ion-exchange chromatography 469 (1989) 339

Determination of mono-, bi- and trivalent cations using non-suppressed ion chromatography 482 (1989) 289

New developments in ion chromatographic methods for atmospheric analysis 482 (1989) 307

Determination of cations in tear fluid samples by non-suppressed ion chromatography with indirect UV detection 482 (1989) 407

### Ceftetrame

Rapid analysis of ceftetrame in human plasma using sorbent extraction and HPLC 497 (1989) 349

### Ceftibuten

Analytical studies on  $\beta$ -lactam antibiotics. III. Automated HPLC method for the determination of the orally active antibiotic ceftibuten in human plasma and urine 494 (1989) 231

### Celiprolol

Simultaneous determination of (*R*)- and (*S*)-celiprolol in human plasma and urine: HPLC assay on a chiral stationary phase with fluorimetric detection 496 (1989) 387

**Cell profiling**

Profiling cells and body fluids—chromatography and two-dimensional electrophoresis as complementary techniques 488 (1989) 105

**Cell surface interactions**

Cell surface interactions with metal chelates 495 (1989) 113

**Cellulose**

Retention and heats of adsorption of hydrocarbons and aliphatic alcohols on cellulose 455 (1988) 263

Adsorption of Co(III) complexes on cellulose 456 (1988) 444

Adsorption chromatography on cellulose. IV. Separation of D- and L-tryptophan and D- and L-methyltryptophan on cellulose with aqueous solvents 469 (1989) 253

Influence of the cellulose content of cellulose gels on the electrophoretic mobility 469 (1989) 378

Adsorption chromatography on cellulose. V. A simple chromatographic system for the identification of inks 475 (1989) 451

**Cellulose triacetate**

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

Evaluation of the optimization potential in HPLC separations of optical isomers with swollen microcrystalline cellulose triacetate 478 (1989) 101

**Cellulose tris(3,5-dimethylphenylcarbamate)**

Optical resolution of amino acid derivatives by HPLC on tris(phenylcarbamate)s of cellulose and amylose 477 (1989) 367

**Centrifugal counter-current partition chromatography**

Centrifugal counter-current partition chromatography with helical coil rotor. Simplified counter-current chromatography with a rotating face-seal 483 (1989) 359

**Centrifugal partition chromatography**

Chromatography of tannins. IV. Separation of labile oligomeric hydrolysable tannins and related polyphenols by centrifugal partition chromatography 467 (1989) 139

Use of centrifugal partition chromatography for assessing partition coefficients in various solvent systems 469 (1989) 91

**Cephaeline**

Selective, stability-indicating assay of the major Ipecacuanha alkaloids, emetine and cephaeline, in pharmaceutical preparations by HPLC using spectrofluorimetric detection 463 (1989) 107

**Cephalexin**

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

**Cephalin**

Silicic acid column chromatography of phosphonolipids. X. Some phosphono analogues of 1-O-alkylethylene glycol 454 (1988) 420

**Cephalosporins**

Direct serum injection in micellar liquid chromatography. Recovery of serum proteins and assay of hydrophilic drugs 488 (1989) 341

Analytical studies on  $\beta$ -lactam antibiotics. III. Automated HPLC method for the determination of the orally active antibiotic ceftibuten in human plasma and urine 494 (1989) 231

On-line HPLC for the determination of cephalosporin C and by-products in complex fermentation broths 499 (1990) 609

**Ceramides**

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

**Cerebrosides**

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

**Cethexonium bromide**

Evaluation of a versatile reversed-phase HPLC system using cethexonium bromide as ion-pairing reagent for the analysis of glucuronic acid conjugates 493 (1989) 137

**Cetyltrimethylammonium bromide**

Determination of pterins in urine by HPLC on C<sub>18</sub> columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

**CGP 6140**

Fully automated analytical system using liquid-solid extraction and LC for the determination of CGP 6140 in plasma 456 (1988) 45

 **$\alpha$ -Chaconine**

HPLC method for the simultaneous analysis of  $\alpha$ -solanine and  $\alpha$ -chaconine in potato plants cultured *in vitro* 462 (1989) 357

**Chalcones**

Factor analysis and experiment design in HPLC. VIII. Charge-transfer *versus* standard stationary phases in normal-phase HPLC 464 (1989) 237

Flavonoid aglycones identified by GC-MS in bud exudate of *Populus balsamifera* 472 (1989) 393

**Charge, ionic**

Determination of the charge of ions by partition measurements in aqueous polymer two-phase systems 498 (1990) 325

**Charge, metal ions**

Some considerations on the "charge" on a metal ion in ion-exchange chromatography 452 (1988) 265

**Charge-transfer stationary phases**

Factor analysis and experiment design in HPLC. VIII. Charge-transfer *versus* standard stationary phases in normal-phase HPLC 464 (1989) 237

**Chemical class separation**

Phosphoric acid-modified amino bonded stationary phase for HPLC chemical class separation 457 (1988) 215

**Chemiluminescence detector**

Superconductor metal oxide catalyst in a chemiluminescence chromatography detector 452 (1988) 75

Rhodamine labelling reagent for the determination of chlorophenols by LC with peroxyoxalate chemiluminescence detection 459 (1988) 139

Separation and assay of N-nitroso compounds by HPLC with chemiluminescence detection 463 (1989) 201

SFC with sulfur chemiluminescence detection 465 (1989) 23

Sequential hydrocarbon and nitrogen detection in TLC analysis of oil shale bitumen 465 (1989) 345

Chemiluminescence immunoassay for the detection and quantification of methyltestosterone residues in muscle tissue 489 (1989) 219

Chemiluminescence detection for HPLC of biomedical samples (Review) 492 (1989) 319

**Chemiluminescence immunoassays**

Fast detection of homogeneous chemiluminescent immunoassays with a sensitive photoplate 489 (1989) 245

**Chemometrics**

Chemometric approach to explain the LC retention of some chiral indoles on swollen microcrystalline triacetylcellulose 466 (1989) 364

**Chiral mobile phase additives**

Enantioselectivity of complex formation in ligand-exchange chromatographic systems with chiral stationary and/or chiral mobile phases 452 (1988) 309

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

**Chiral recognition**

New insights into the recognition mechanisms of chiral "brush-type" LC stationary phases 464 (1989) 39

Chiral recognition by biological macromolecules. Partial resolution of racemic enones by albumin 464 (1989) 289

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

Discussion of a controversial chiral recognition model 469 (1989) 67

(*S*)-*thio*-DNBTyr-A and (*S*)-*thio*-DNBTyr-E as chiral stationary phases for analytical and preparative purposes. Application to the enantiomeric resolution of alkyl N-arylsulphinamoyl esters 498 (1990) 67

**Chiral stationary phases, GC**

Evaluation of nickel(II) bis[ $\alpha$ -(heptafluorobutanoyl)terpeneketonates] as chiral stationary phases for the enantiomer separation of alkyl-substituted cyclic ethers by complexation GC 475 (1989) 23

Thermodynamic properties of enantiomers of underivatized diols *versus* the cyclic carbonates in GC on Chirasil-Val 481 (1989) 17

Enantioselective measurement of the *Candida* metabolite D-arabinitol in human serum using multi-dimensional GC and a new chiral phase 495 (1989) 21

### Chiral stationary phases, LC

Enantioselectivity of complex formation in ligand-exchange chromatographic systems with chiral stationary and/or chiral mobile phases 452 (1988) 309

Use of mobile phase modifiers to alter retention and stereoselectivity on a bovine serum albumin HPLC chiral stationary phase 455 (1988) 316

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Computational chemical studies of chiral stationary phase models. Complexes of methyl N-(2-naphthyl)alaninate with N-(3,5-dinitrobenzoyl)leucine *n*-propylamide 461 (1989) 129

General evaluation and application to trace analysis of a chiral column for ligand-exchange chromatography 461 (1989) 397

Mobile phase optimization of a urea-linked chiral stationary phase for the HPLC separation of optical isomers 461 (1989) 407

Example of the concentration dependence of elution order in the resolution of enantiomers on microcrystalline triacetylcellulose chiral stationary phase 462 (1989) 95

(*R*)-N-(3,5-Dinitrobenzoyl)-1-naphthylglycine as a chiral stationary phase for the separation of enantiomers by HPLC 462 (1989) 382

New insights into the recognition mechanisms of chiral "brush-type" LC stationary phases 464 (1989) 39

HPLC separation of enantiomers on axially chiral binaphthalene dicarboxylic acid-chiral phenylethylamine bonded to silica gel 464 (1989) 411

Direct LC separation of enantiomers on immobilized protein stationary phases. VII. Sorbents obtained by entrapment of cross-linked bovine serum albumin in silica 465 (1989) 263

Chemometric approach to explain the LC retention of some chiral indoles on swollen microcrystalline triacetylcellulose 466 (1989) 364

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

Direct enantiomeric separation of anticholinergic drugs derived from ( $\pm$ )-cyclohexyl(3-thienyl)glycolic acid on a novel  $\alpha$ -acid glycoprotein-bonded chiral stationary phase (Chiral-AGP) 467 (1989) 406

Discussion of a controversial chiral recognition model 469 (1989) 67

$\pi$ -Acceptor amide group for LC chiral separations with special emphasis on the 3,5-dinitrobenzoyl amide 469 (1989) 101

Analytical resolution of 4(5)-alkylated  $\gamma$ ( $\delta$ )-lactones by HPLC on a silica-bonded chiral polyacrylamide sorbent. Chromatographic characterization of a stationary phase 469 (1989) 137

LC separation of racemates on acetylated or carbamoylated  $\beta$ -cyclodextrin-bonded stationary phases 469 (1989) 429

Improved chiral stationary phase for the separation of the enantiomers of chiral acids as their anilide derivatives 471 (1989) 271

Direct resolution of anthelmintic drug enantiomers on Chiral-AGP protein-bonded chiral stationary phase 472 (1989) 265

HPLC separation of alkane-1,2-diol enantiomers on a chiral slurry-packed capillary column 472 (1989) 271

Optical resolution of amino acids, peptides and hydroxycarboxylic acids using a new chiral column for ligand-exchange chromatography 473 (1989) 241

Determination of optical purity by HPLC on chiral stationary phases: pantothenic acid and related compounds 474 (1989) 405

Design and synthesis of a chiral stationary phase containing a benz[*de*]isoquinolinone skeleton. I. First chromatographic results 475 (1989) 153

Stereochemical recognition of enantiomeric and diastereomeric dipeptides by HPLC on a chiral stationary phase based upon immobilized  $\alpha$ -chymotrypsin 476 (1989) 165

Optimization of detection sensitivity for enantiomers of metoprolol on silica-bonded  $\alpha_1$ -acid glycoprotein 477 (1989) 107

Optical resolution of amino acid derivatives by HPLC on tris(phenylcarbamate)s of cellulose and amylose 477 (1989) 367

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

Evaluation of the optimization potential in HPLC separations of optical isomers with swollen microcrystalline cellulose triacetate 478 (1989) 101

Use of achiral ion-pairing reagents with chiral stationary phases 479 (1989) 377

Chiral stationary phases via hydrosilylation reaction of N-acryloylamino acids. I. Stationary phase with one chiral centre for HPLC and development of a new derivatization pattern for amino acid enantiomers 481 (1989) 380

Enantiomer separation of  $\alpha$ -substituted  $\gamma$ -butyrolactones on the chiral polyacrylamide resin ChiraSpher<sup>®</sup> 481 (1989) 387

Use of a fragment of bovine serum albumin as a chiral stationary phase in LC 482 (1989) 35

HPLC for optical resolution on a column of an ion-exchange adduct of spherically shaped synthetic hectorite and optically active metal complexes 482 (1989) 165

(*S*)-*thio*-DNBTyr-A and (*S*)-*thio*-DNBTyr-E as chiral stationary phases for analytical and preparative purposes. Application to the enantiomeric resolution of alkyl N-arylsulphinamoyl esters 498 (1990) 67

Direct LC separation of enantiomers on immobilized protein stationary phases. VIII. A comparison of a series of sorbents based on bovine serum albumin and its fragments 498 (1990) 81

Triacetylcellulose as a chiral stationary phase for HPLC 498 (1990) 257

Enantioselective determination of metoprolol in plasma by LC on a silica-bonded  $\alpha_1$ -acid glycoprotein column 500 (1990) 629

### **Chiral stationary phases, SFC**

Enantiomer resolution of D- and L- $\alpha$ -amino acid derivatives by SFC on novel chiral diamide phases with carbon dioxide 461 (1989) 121

### **Chiral stationary phases, TLC**

Direct stereochemical resolution of enantiomeric amides via TLC on a covalently bonded chiral stationary phase 472 (1989) 277

### **Chloral hydrate**

Determination of trichloroethanol, the active metabolite of chloral hydrate, in plasma by LC 500 (1990) 655

### **Chlorambucil**

HPLC of chlorambucil prodrugs structurally related to lipids in rat plasma 494 (1989) 389

GC assay for chlorambucil and phenylacetic mustard in plasma 495 (1989) 281

### **Chloramine-T**

Ion chromatographic determination of cyanide compounds by chloramine-T and conductivity measurement 465 (1989) 395

### **Chloramphenicol**

Monoclonal antibody-mediated clean-up procedure for the HPLC analysis of chloramphenicol in milk and eggs 478 (1989) 205

### **Chloride**

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

Ion chromatographic determination of nitrite in the presence of a large amount of chloride 475 (1989) 331

Precision and accuracy of ion chromatography in dry deposition measurements 482 (1989) 297

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

### **Chlorinated aromatic compounds**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

### **Chlorinated benzenes**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

### **Chlorinated water**

Freon FC-133, an alternative to methylene chloride for liquid-liquid extraction of trace organics from chlorinated drinking water 454 (1988) 217

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

### **Chlorine**

Determination of chlorine and chlorine dioxide in workplace air by impinger collection and ion-chromatographic analysis 457 (1988) 409

### **Chlorine dioxide**

Determination of chlorine and chlorine dioxide in workplace air by impinger collection and ion-chromatographic analysis 457 (1988) 409

### **Chlormethoxynil**

Simultaneous XAD-2 resin extraction and high-resolution electron-capture GC of chlorine-containing herbicides in water samples 456 (1988) 382

### **Chloroacetaldehyde**

HPLC analysis of DNA composition and DNA modification by chloroacetaldehyde 458 (1988) 117

HPLC analysis of fluorescent derivatives of adenine and adenosine and its nucleotides. Optimization of derivatization with chloroacetaldehyde and chromatographic procedures 475 (1989) 311

### **Chloroacetamide**

GC determination of chloroacetamide herbicides in plants and soil 455 (1988) 391

### **Chloroanilines**

Perfluoro and chloro amide derivatives of aniline and chloroanilines. A comparison of their

formation and GC determination by mass selective and electron-capture detectors 457 (1988) 267

### **Chlorobenzoates**

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

### **Chlorobiphenyls**

Correlations between octanol-water partition coefficients and reversed-phase HPLC capacity factors. Chlorobiphenyls and alkylbenzenes 454 (1988) 37

**N-(3-Chloro-2,6-dimethylphenyl)-N-(2-oxotetrahydrofuryl)-2-methoxyacetamide**  
Coupled HPLC-GC for the determination of pesticide residues in biological matrices 477 (1989) 359

### **2-Chloroethyl acetate**

Degradation and analysis of polyoxyethylene monoalkyl ethers in the presence of acetyl chloride and ferric chloride 469 (1989) 197

### **$\omega$ -Chloroethyl benzoates**

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

### **Chloroform**

High-performance SEC of poly- and oligoethylene terephthalate using a mixture of hexafluoroisopropanol and chloroform as the mobile phase 479 (1989) 85

Physical-chemical parameters of some chloroform-containing solvent systems in droplet counter-current chromatography (in German) 498 (1990) 303

### **9-Chloro-2-(2-furyl)[1,2,4]triazolo[1,5-c]-quinazolin-5-imine**

Rapid, high-sensitivity reversed-phase LC assay for 9-chloro-2-(2-furyl)[1,2,4]triazolo[1,5-c]quinazolin-5-imine and its oxo metabolite in plasma using fluorescence detection 496 (1989) 377

### **2-(4-Chloro-2-methylphenoxy)propanoic acid**

Chiral HPLC analysis of phenoxy herbicide mixtures 454 (1988) 450

### **Chloronitroguaiacols**

Synthesis, GLC analysis and GC-MS identification of nitrovanillins,

chloronitrovanillins, nitroguaiacols and chloronitroguaiacols 467 (1989) 99

### **Chloronitrovanillins**

Synthesis, GLC analysis and GC-MS identification of nitrovanillins, chloronitrovanillins, nitroguaiacols and chloronitroguaiacols 467 (1989) 99

### **Chlorophacinone**

HPLC separation of indandione rodenticides 481 (1989) 458

### **Chlorophenols**

Rhodamine labelling reagent for the determination of chlorophenols by LC with peroxyoxalate chemiluminescence detection 459 (1988) 139

Determination of chlorophenols in water by direct acetylation and solid-phase extraction 472 (1989) 327

### **Chlorophenoxyalkanoic acids**

Sample preparation by means of a supported liquid membrane for the determination of chlorophenoxyalkanoic acids 471 (1989) 151

### **Chlorophylls**

Simultaneous separation and identification of carotenoids and chlorophylls in turf bermudagrass by HPLC 455 (1988) 396

HPLC of chlorophylls and carotenoids from vegetables 472 (1989) 296

### **Chloroquine**

Identification and determination of a carboxylic acid metabolite of chloroquine in human urine by HPLC 487 (1989) 189

Contribution to the determination of chloroquine in biological fluids 493 (1989) 196

### **4-[(7'-Chloro-4'-quinolinyl)amino]pentanoic acid**

Identification and determination of a carboxylic acid metabolite of chloroquine in human urine by HPLC 487 (1989) 189

### **2-(4-Chloro-*o*-tolyl-oxy)propionic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

### **Chlorpromazine**

Determination of residues of carazolol and a number of tranquillizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

Computer-assisted optimization of an HPLC separation for chlorpromazine and thirteen metabolites 485 (1989) 585

### **Chlorsulphuron**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

### **Chlortetracycline**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

### **Chlorthalidone**

Determination of chlorthalidone and its impurities in bulk and in dosage forms by high performance TLC densitometry 456 (1988) 435

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

### **3-(3-Cholamidopropyl)-dimethylammoniopropanesulphonate**

Use of the surfactant 3-(3-cholamidopropyl)-dimethylammoniopropane sulfonate in hydrophobic interaction chromatography of proteins 464 (1989) 61

### **Cholecystokinin**

Unexpected elution behaviour of peptides with various reversed-phase columns 499 (1990) 165

### **Cholestanol**

Potential application of TLC and TLC with flame ionization detection of cholestanol in the diagnosis of cerebrotendinous xanthomatosis 452 (1988) 543

### **Cholesterol**

Separation and quantitation of free cholesterol and cholesteryl esters in a macrophage cell line by HPLC 494 (1989) 43

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

### **Cholesterol 7 $\alpha$ -hydroxylase**

Assay of cholesterol 7 $\alpha$ -hydroxylase utilizing a silica cartridge column and 5 $\alpha$ -cholestane-3 $\beta$ , 7 $\beta$ -diol as an internal standard 496 (1989) 255

**Cholesteryl acetate**

Chromatographic separation of cholesteryl acetate and its chloro analogues 462 (1989) 467

**Cholesteryl chloroacetates**

Chromatographic separation of cholesteryl acetate and its chloro analogues 462 (1989) 467

**Cholesteryl esters**

Chromatographic determination of cholesteryl esters synthesized *in vitro* 466 (1989) 446

Improved separation of lipid esters by TLC 483 (1989) 369

Separation and quantitation of free cholesterol and cholesteryl esters in a macrophage cell line by HPLC 494 (1989) 43

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

**Choline**

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

**Cholinesterase-inhibiting compounds**

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

**Chondroitin sulphates**

Sensitive detection of unsaturated disaccharides from chondroitin sulphates by TLC as their dansylhydrazine derivatives 462 (1989) 471

**Chromate**

Lanthanide luminescence quenching as a detection method in ion chromatography. Chromate in surface and drinking water 482 (1989) 351

**Chromatofocusing**

Ten years of chromatofocusing: a discussion 470 (1989) 317

High-performance chromatofocusing of proteins on agarose columns. I. Macroporous 15–20  $\mu\text{m}$  beads 475 (1989) 167

High-performance chromatofocusing of proteins on agarose columns. II. Deformed non-porous 12–15  $\mu\text{m}$  beads 475 (1989) 177

High-performance liquid chromatofocusing and column affinity chromatography of *in vitro*  $^{14}\text{C}$ -glycated human serum albumin. Demonstration of a glycation-induced anionic heterogeneity 476 (1989) 467

The separation of pancreatic procarboxypeptidases by HPLC and chromatofocusing 481 (1989) 233

**Chromatographic systems, calibration**

Multivariate calibration strategy for reversed-phase chromatography systems based on the characterization of stationary–mobile phase combinations with markers 485 (1989) 169

**Chromatographic theory**

Unified theory of adsorption chromatography: gas, liquid and supercritical fluid mobile phases 452 (1988) 17

Theory of open-tube chromatography: an exact proof of Golay's equations 471 (1989) 61

Application of a unified molecular theory to GLC 471 (1989) 71

Theoretical analysis of non-linear preparative LC 500 (1990) 185

**Chromatography, use beyond analytical chemistry**

Chromatography beyond analytical chemistry 488 (1989) 25

**Chrome Azurol S**

Dyestuff-coated HPLC resins for the ion-exchange and chelating-exchange separation of metal ions 482 (1989) 325

**Chromium**

Simultaneous determination of Cr(III) and Cr(VI) at ultratrace levels using ion chromatography with chemiluminescence detection 482 (1989) 361

Anion-exchange HPLC determination of ascorbic acid and hexavalent chromium in rat lung preparations after treatment with sodium chromate *in vitro* and *in vivo* 489 (1989) 283

**Chromium hydroxy salts**

Application of ion chromatography to the analysis of chromium hydroxy salts 454 (1988) 411

**Chromosomal proteins**

HPLC separation of variants of chromosomal proteins from prokaryotes 466 (1989) 331

**Chrysanthemic acid**

Study of alkaline hydrolysis of the insecticide alaphmethrine by isotachophoretic determination of decomposition products 470 (1989) 235

 **$\alpha$ -Chymotrypsinogen**

Protein conformation changes as the result of binding to reversed-phase chromatography column materials 476 (1989) 159

Capillary electrophoresis of proteins in buffers containing high concentrations of zwitterionic salts 480 (1989) 301

**CI-941**

Determination of the anthrapyrazole anticancer drug CI-941 in plasma and urine by solid-phase extraction and HPLC 491 (1989) 253

**Cibacron Blue F3GA**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205

**Cimetidine**

Injection of elutes in solvents stronger than the mobile phase in reversed-phase LC 465 (1989) 189

**Cinchonamine**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**Cinchonidine**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**Cinchonine**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**1,8-Cineole**

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile oil constituents with short GC retention times 467 (1989) 272

**Cinnamic acid**

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful

application to flavonoids isolation 478 (1989) 225

**Cinnarizine**

Column LC of calcium channel blockers 494 (1989) 408

**Cinoxate**

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

**CIPC**

Rapid determination of seven herbicides in water or isoctane using C<sub>18</sub> and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

**Ciprofloxacin**

HPLC method for the simultaneous determination of enrofloxacin and its primary metabolite ciprofloxacin in canine serum and prostatic tissue 493 (1989) 337

**Circular dichroism**

Protein conformation changes as the result of binding to reversed-phase chromatography column materials 476 (1989) 159

**Cisplatin**

Determination of cisplatin and related platinum complexes in plasma ultrafiltrate and urine by HPLC with on-line radioactivity detection 491 (1989) 163

**Citalopram**

Determination of citalopram in plasma and brain tissue of the rat by HPLC with UV detection 488 (1989) 492

**Citrate**

Simultaneous determination of citrate and D-isocitrate in urine by isocratic ion chromatography 495 (1989) 239

**Citrinin**

HPLC determination of citrinin in cereals using an acid-buffered silica gel column 462 (1989) 406

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

**Clean-up methods**

Single-step solid matrix clean-up of vegetable extracts for organophosphorus pesticide residue determination 456 (1988) 149

Effect of chemically bonded alkyl chain length on the recovery of serotonin and its metabolite from urine by a solid extraction clean-up procedure 456 (1988) 219

Comparison of sulphuric acid treatment and column chromatographic clean-up procedures for the GC determination of organochlorine compounds in some food commodities 457 (1988) 387

Efficient clean up of non-aqueous plant extracts using reversed-phase cartridges. Applications to the determination of phytoalexins from *Brassica* spp. by HPLC 473 (1989) 293

Automated LC analysis of drugs in urine by on-line sample cleanup and isocratic multicolumn separation 473 (1989) 325

Monoclonal antibody-mediated clean-up procedure for the HPLC analysis of chloramphenicol in milk and eggs 478 (1989) 205

Sample cleanup methods for ion chromatography 482 (1989) 267

### **Clenbuterol**

Determination by HPLC of clenbuterol in commercial syrup formulations 473 (1989) 301

### **Clinical chromatography**

The role of chromatography and electrophoresis in biomedical sciences 488 (1989) 5

### **Clobazam**

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

### **Clofibrilic acid**

Evaluation of a versatile reversed-phase HPLC system using cethexonium bromide as ion-pairing reagent for the analysis of glucuronic acid conjugates 493 (1989) 137

### ***Clostridium difficile*, toxin B**

*Clostridium difficile* toxin B: characterization and sequence of three peptides 490 (1989) 91

### **Cloxacillin**

Assay for cloxacillin in human serum utilising HPLC with UV detection 490 (1989) 243

### **Clozapine**

Rapid and sensitive determination of clozapine in human plasma using HPLC and amperometric detection 491 (1989) 235

### **Clozapine analogue**

HPLC method for a clozapine analogue, CGS 13429, and its N-oxide and desmethyl metabolites 494 (1989) 413

### **Cluster analysis**

Cluster analysis in the comparison of two dimensional chromatograms 466 (1989) 371

### **CMPP**

Chromatographic approaches to the quality control of chiral proprionate anti-inflammatory drugs and herbicides 469 (1989) 183

### **Coagulation factors**

Separation of vitamin K-dependent coagulation factors on sulphated cellulose 487 (1989) 173

Chromatography of human plasma on aminoethyl Sepharose: separation of factor VIII/vWf and behaviour of factors II, VII, IX and X and antithrombin III 491 (1989) 299

### **Coal extracts**

Alkaline SEC of lignins and coal extracts using cross-linked dextran gels 467 (1989) 309

### **Coal liquefaction products**

Characterization of coal liquefaction products by GC-Fourier transform IR spectroscopy-MS 468 (1989) 309

### **Coating methods**

Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429

New perspectives in capillary chromatography 473 (1989) 93

### **Cobalt complexes**

Dependence of  $R_F$  values of cobalt(III) complexes on the size of diamine chelate ligands on silica gel thin layers 454 (1988) 362

Adsorption of Co(III) complexes on cellulose 456 (1988) 444

Chromatographic studies of metal complexes. V. TLC of some octahedral cobalt(III) and nickel(II) complexes 469 (1989) 383

TLC on polyacrylonitrile. I. Effect of the *cis-trans* configuration of cobalt(III) complexes on their  $R_F$  values 481 (1989) 465

Effect of the chelate ring size of diamine cobalt(III) complexes on their  $R_F$  values obtained by PC 481 (1989) 471

**Cobalt-60 irradiation**

Production of tyrosine isomers in mice by therapeutic doses of  $^{60}\text{Co}$  irradiation 497 (1989) 360

**Cobalt-modified solid**

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

**Cocaine**

TLC of benzoylecgonine: a rapid qualitative method for confirming the EMIT Urine Cocaine Metabolite Assays 490 (1989) 236

Determination of cocaine and selected metabolites in canine and human serum by reversed-phase HPLC on coupled cyanopropyl and silica columns 495 (1989) 153

**Cocoa**

Authentication of cocoa in Maya vessels using HPLC techniques 466 (1989) 279

**Codeine**

GC-MS determination of morphine, codeine and 6-monoacetylmorphine in blood extracted by solid phase 490 (1989) 444

Simultaneous determination of codeine, norcodeine and morphine in biological fluids by HPLC with fluorescence detection 491 (1989) 367

Determination of codeine and its metabolites in human blood plasma and in microsomal incubates by HPLC with UV detection 491 (1989) 473

**Codeine-6-glucuronide**

Determination of codeine and its metabolites in human blood plasma and in microsomal incubates by HPLC with UV detection 491 (1989) 473

Direct determination of codeine-6-glucuronide in plasma and urine using solid-phase extraction and HPLC with fluorescence detection 493 (1989) 313

**Codeine phosphate**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**Coenzyme A**

Determination of overt carnitine palmitoyltransferase by reversed-phase HPLC 491 (1989) 69

**Cohumulone**

Preparative LC of hop and beer bitter acids 484 (1989) 361

**Coil planet centrifuge**

Chromatography of peptides on a multi-coil counter-current chromatograph 484 (1989) 319

**Coil temperature**

Determination of taurine: influence of the coil temperature on the taurine peak purity (in German) 462 (1989) 105

**Cold medicine**

Separation and determination of the ingredients of a cold medicine by micellar electrokinetic chromatography with bile salts 498 (1990) 313

**Cold trapping**

Determination of the total amount sulfur in petroleum fractions by capillary GC in combination with cold trapping and a total sulfur analyzer 468 (1989) 345

**Collagenase**

Improved HPLC determination of bacterial collagenase activity in ointments 459 (1988) 337

**Collagens**

Improved method for amino acid analysis of stained collagen bands from polyacrylamide gels using HPLC 462 (1989) 341

Separation of collagens by capillary zone electrophoresis 480 (1989) 371

Separation methods for the study of collagen and treatment of collagen disorders 488 (1989) 161

Determination of radiolabelled proline and hydroxyproline in collagen hydrolysates by HPLC with on-line radiometric detection 488 (1989) 267

**Colour codes**

Identification power of TLC colour reactions and integration of colour codes in a database for computerized identification in systematic toxicological analysis 500 (1990) 661

**Colour reactions, computer handling**

Identification power of TLC colour reactions and integration of colour codes in a database for computerized identification in systematic toxicological analysis 500 (1990) 661

**Column bed structure**

Packing technology, column bed structure and chromatographic performance of 1–2- $\mu\text{m}$  non-porous silicas in HPLC 465 (1989) 39

**Column cutting techniques**

Practical aspects of recycle GC with capillary columns 477 (1989) 59

**Column design, LC**

Contemporary LC column design 468 (1989) 99

**Column design, SFC**

Some practical aspects of column design for packed-column SFC 468 (1989) 127

**Column diameter**

Contemporary LC column design 468 (1989) 99

Evaluation of small diameter capillary columns for GC 475 (1989) 145

**Column efficiency**

Effect of random noise and peak asymmetry on the precision and accuracy of measurements of the column efficiency in chromatography 457 (1988) 1

Effect of some operational variables on the efficiency of ion chromatographic separations 479 (1989) 387

**Column extraction procedure**

Screening and confirmation of drugs in horse urine by using a simple column extraction procedure 473 (1989) 215

**Column length**

Contemporary LC column design 468 (1989) 99

Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85

**Column loading**

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

**Column overload**

Study of preparative reversed-phase chromatography by application of kinetic and equilibrium models of column overload 484 (1989) 61

**Column parameters**

Generalized treatment of spatial and temporal column parameters, applicable to GLC, LC and SFC. I. Theory 461 (1989) 165

**Column performance**

Numerical simulation of column performance in ion-exclusion chromatography 457 (1988) 43

Packing technology, column bed structure and chromatographic performance of 1–2- $\mu\text{m}$  non-porous silicas in HPLC 465 (1989) 39

Column performance of Q-Sepharose HP in analytical- and preparative-scale chromatography 477 (1989) 337

**Columns**

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

**Columns, megabore**

Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. I. Evaluation of the system for organophosphorus pesticides 481 (1989) 27

Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. II. Determination of organophosphorus pesticides in environmental water 481 (1989) 37

**Column saturation capacity**

Preparative HPLC under isocratic conditions. III. The consequences of two adjacent bands having unequal column capacities 483 (1989) 95

**Column switching**

Systematic approach to column switching (Review) 456 (1988) 3

Determination of a new non-benzodiazepine anxiolytic and its O-demethyl metabolite in plasma by HPLC using automated column-switching 456 (1988) 21

Improvement of selectivity and sensitivity by column switching in the determination of glycyrrhizin and glycyrrhetic acid in human plasma by HPLC 456 (1988) 71

Full automation of catecholamine metabolite determination by column switching and HPLC 465 (1989) 113

Automated dual column coupled system for simultaneous determination of carboxylic acids and inorganic anions 473 (1989) 171

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

Gas sampling- and column-switching systems in high-resolution gas analysis (in German) 477 (1989) 25

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

On-line combination of dialysis and column-switching LC as a fully automated sample preparation technique for biological samples. Determination of nitrofurans residues in edible products 500 (1990) 453

### Column temperature

Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209

HPLC of amino acids, peptides and proteins. XCI. The influence of temperature on the chromatographic behaviour of peptides related to human growth hormone 476 (1989) 125

Retention behaviour of paracelsin peptides on reversed-phase silicas with varying *n*-alkyl chain length and ligand density 476 (1989) 135

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

Evaluation of the optimization potential in HPLC separations of optical isomers with swollen microcrystalline cellulose triacetate 478 (1989) 101

Effect of some operational variables on the efficiency of ion chromatographic separations 479 (1989) 387

Use of Peltier thermoelectric devices to control column temperature in high-performance capillary electrophoresis 480 (1989) 111

Physicochemical studies of biologically active peptides by low-temperature reversed-phase HPLC 499 (1990) 79

### Competitive equilibrium isotherms

Theoretical analysis of non-linear preparative LC 500 (1990) 185

### Competitive isotherms

Study of the representation of competitive isotherms and of the intersection between adsorption isotherms 475 (1989) 1

### Complex formation

Enantioselectivity of complex formation in ligand-exchange chromatographic systems with chiral stationary and/or chiral mobile phases 452 (1988) 309

Macrocyclic polyfunctional Lewis bases. XII. Influence of complex formation on chromatographic migration 454 (1988) 340

### Computer programs

see Software

### Computer simulations

Numerical simulation of column performance in ion-exclusion chromatography 457 (1988) 43

Computer simulation of HPLC separations of peptide and protein digests for development of size-exclusion, ion-exchange and reversed-phase chromatographic methods 458 (1988) 147

Design of optimized HPLC gradients for the separation of either small or large molecules. I. Minimizing errors in computer simulations 459 (1988) 1

Design of optimized HPLC gradients for the separation of either small or large molecules. II. Background and theory 459 (1988) 25

Ideal mixed cells model of multi-component preparative LC 464 (1989) 1

Experimental and theoretical dynamics of isoelectric focusing. III. Transient multi-peak approach to equilibrium of proteins in simple buffers 478 (1989) 39

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Reversed-phase chromatographic method development for peptide separations using the computer simulation program ProDigest-LC 485 (1989) 365

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

Development of HPLC method for fluroxypyr herbicide and metabolites using computer simulation with DryLab G software 485 (1989) 581

Optimization of gradients in anion-exchange separations of oligonucleotides using computer-assisted retention prediction and an HPLC simulation system 485 (1989) 647

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

### **Conductivity detector**

Simultaneous photometric and conductivity detection for microcolumn LC 471 (1989) 303

Evaluation of assay specificity in non-suppressed ion chromatography 477 (1989) 271

Effect of electrolyte and sample concentration on the relationship between sensitivity and resolution in capillary zone electrophoresis using conductivity detection 480 (1989) 285

### **Configuration assignment**

GC based method for assigning the configurations of allylic and benzylic alcohols and for determining their optical purities 482 (1989) 227

### **Conformational changes**

Protein conformation changes as the result of binding to reversed-phase chromatography column materials 476 (1989) 159

Characterization of reversed-phase HPLC stationary phases using ribonuclease A 498 (1990) 281

Reversed-phase chromatographic behavior of proteins in different unfolded states 499 (1990) 89

### **Coniferin**

HPLC separation of *E*- and *Z*-monolignols and their glucosides 479 (1989) 345

### **Contact time**

Limitations of high-speed reversed-phase HPLC observed with integral membrane proteins 477 (1989) 131

### **Continuous affinity-recycle extraction**

Mathematical modelling of the continuous affinity-recycle extraction purification technique 478 (1989) 1

### **Continuous-flow fast atom bombardment**

Microcolumn LC-MS using moving belt and continuous flow fast atom bombardment interfaces 474 (1989) 39

Optimisation of continuous flow fast atom bombardment MS for bioanalysis 474 (1989) 51

Applicability of continuous-flow fast atom bombardment LC-MS in bioanalysis. Dextromethorphan in plasma 474 (1989) 59

Coupling of capillary zone electrophoresis and capillary liquid chromatography with coaxial continuous-flow fast atom bombardment tandem sector MS 480 (1989) 197

### **Continuous gas extraction**

Basic equations in continuous gas extraction and their application to headspace analysis 471 (1989) 55

### **Continuous polymer beds**

HPLC on continuous polymer beds 473 (1989) 273

### **Contour-clamped homogeneous electric field electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

### **Co-operative cluster model**

Co-operative cluster model for multivalent affinity interactions involving rigid matrices 457 (1988) 13

### **Cope elimination reaction**

Characterization of the anti-diarrhoeal loperamide by GC-MS and application of the Hofmann degradation and Cope elimination reaction 494 (1989) 324

### **Copolymer distribution**

Use of HPLC for the characterization of synthetic copolymers 499 (1990) 645

### **Copper(II) acetate**

Determination of the enantiomers of  $\alpha$ -amino acids and  $\alpha$ -amino acid amides by HPLC with a chiral mobile phase 461 (1989) 419

### **Copper plating baths**

LC analysis of organic additives in copper plating baths 452 (1988) 503

### **Coproporphyrins**

Isocratic ion-pair HPLC methods for the determination of uroporphyrin and coproporphyrin type II and IV isomers in human urine 468 (1989) 329

Separation of porphyrin isomers by HPLC 493 (1989) 53

**Coprostanol**

HPLC method for isolating coprostanol from sediment extracts 481 (1989) 263

**Corona discharge ionization**

Corona discharge ionization LC-MS interface for target compound analyses 474 (1989) 335

**Correlation analysis**

Correlation analysis in LC of metal chelates. I. One-dimensional retention-structure models in reversed-phase TLC 498 (1990) 337

**Correlation chromatography**

Application of correlation chromatography to the investigation of biopolymers in wines 469 (1989) 420

**Corynantheal**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**Corynomycolic acid, 3-O-acetyl methyl ester**

Separation of homologues of methyl ester and 3-O-acetyl methyl ester derivatives of the corynomycolic acid fraction from *Corynebacterium pseudotuberculosis* 481 (1989) 411

**Co-solvent trapping**

Introduction of water and water-containing solvent mixtures in capillary GC. IV. Principles of concurrent solvent evaporation with co-solvent trapping 473 (1989) 411

Concurrent eluent evaporation with co-solvent trapping for on-line reversed-phase LC-GC.

Optimization of conditions 477 (1989) 73

**Cotarnine**

Determination of noscapine and its metabolites in plasma by coupled-column LC 459 (1988) 301

**Cotinine**

Determination of cotinine in urine using glass capillary GC and selective detection, with special reference to the biological monitoring of passive smoking 454 (1988) 293

Multidimensional GC determination of cotinine as a marker compound for particulate-phase environmental tobacco smoke 463 (1989) 253

Capillary GC determination of *trans*-3'-hydroxycotinine simultaneously with nicotine and cotinine in urine and blood samples 479 (1989) 410

Determination of nicotine and cotinine in urine by HPLC (in French) 488 (1989) 487

***p*-Coumaric acid**

Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149

**Coumarin**

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

***p*-Coumaroyltartaric acid**

HPLC determination of the free *o*-quinones of *trans*-caffeoyltartaric acid, 2-S-glutathionylcaffeoyltartaric acid and catechin in grape must 472 (1989) 428

**Counter-current chromatograph**

New high-speed counter-current chromatograph equipped with a pair of separation columns connected in series 454 (1988) 382

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. I. Design of the apparatus and performance of semipreparative columns in 2,4-dinitrophenyl amino acid separation 475 (1989) 219

Modification to a high-speed counter-current chromatograph for improved separation capability 482 (1989) 234

Chromatography of peptides on a multi-coil counter-current chromatograph 484 (1989) 319

**Counter-current chromatography**

Preliminary applications of cross-axis synchronous flow-through coil planet centrifuge for large-scale preparative counter-current chromatography 454 (1988) 185

Isolation of virginiamycin-M<sub>1</sub> by droplet counter-current chromatography 454 (1988) 387

Cross-axis synchronous flow-through coil planet centrifuge for large-scale preparative counter-current chromatography. III. Performance of large-bore coils in slow planetary motion 455 (1988) 151

Horizontal flow-through coil planet centrifuge equipped with a set of multilayer coils around the column holder. Counter-current chromatography of proteins with a polymer-phase system 457 (1988) 393

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. I. Design of the apparatus and analysis of acceleration 463 (1989) 305

Application of analytical high-speed counter-current chromatography to the isolation of bioactive natural products 477 (1989) 434

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

Multilayer coil planet centrifuge for analytical high-speed counter-current chromatography 479 (1989) 53

Foam counter-current chromatography of bacitracin. I. Batch separation with nitrogen and water free of additives 482 (1989) 197

Centrifugal counter-current partition chromatography with helical coil rotor. Simplified counter-current chromatography with a rotating face-seal 483 (1989) 359

Purification of nitrophenylvaleric acid reaction mixtures by counter-current chromatography 484 (1989) 391

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various biological samples with a semipreparative column 498 (1990) 169

Physical-chemical parameters of some chloroform-containing solvent systems in droplet counter-current chromatography (in German) 498 (1990) 303

### **Counter flow liquid extraction system**

High-efficiency liquid extractor for isolation of a desired material from complex organic mixtures 499 (1990) 721

### **Coverage density**

Effect of coverage density on the retention mechanism in reversed-phase HPLC 499 (1990) 305

### **Craig simulations**

Preparative HPLC under gradient conditions. III. Craig simulations for heavily overloaded separations 484 (1989) 437

### **Creatine kinase**

Detection of macroenzymes in serum by high-performance GPC 496 (1989) 91

### **Creatine phosphate**

Novel dual-wavelength monitoring approach for the improved rapid separation and estimation of adenine nucleotides and creatine phosphate by HPLC 459 (1988) 229

### **Creatinine**

Simultaneous determination of pseudouridine and creatinine in untreated urine by ion-pair LC with diode-array UV detection 493 (1989) 35

### **CRIPES**

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. V. CRIPES (chromatographic retention index prediction expert system) 485 (1989) 325

### **Critical micelle concentration**

Sodium dodecyl sulphate-protein complexes. Changes in size or shape below the critical micelle concentration, as monitored by high performance agarose gel chromatography 476 (1989) 147

### **Cross-axis synchronous flow-through coil planet centrifuge**

Preliminary applications of cross-axis synchronous flow-through coil planet centrifuge for large-scale preparative counter-current chromatography 454 (1988) 185

Cross-axis synchronous flow-through coil planet centrifuge for large-scale preparative counter-current chromatography. III. Performance of large-bore coils in slow planetary motion 455 (1988) 151

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. I. Design of the apparatus and analysis of acceleration 463 (1989) 305

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. II. Studies on retention of stationary phase in short coils and preparative separations in multilayer coils 463 (1989) 317

### **Cross-linking**

Effect of repeated cross-linking of SE-54 stationary phase film on the chromatographic properties of capillary columns 471 (1989) 237

Non-extractable stationary phases for GC cross-linked by exposure to low-temperature plasmas 473 (1989) 79

**Crotamiton**

Determination of crotamiton in plasma and urine by HPLC 494 (1989) 361

**Crown ethers**

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

Use of crown ethers in GC 469 (1989) 153

Use of GC for a study of crown ethers 471 (1989) 139

Crown ethers as ligands for HPLC of proteins and nucleic acids 476 (1989) 309

**Crude oils**

Preparative and automated compound class separation of Venezuelan vacuum residua by HPLC 484 (1989) 399

**Cryptands**

Isocratic reversed-phase HPLC assay for a cryptand-cryptate-free metal ion system 469 (1989) 440

**Cryptate complexes**

Isocratic reversed-phase HPLC assay for a cryptand-cryptate-free metal ion system 469 (1989) 440

**CS-622**

Determination of a new angiotensin-converting enzyme inhibitor (CS-622) and its active metabolite in plasma and urine by GC-MS using negative ion chemical ionization 496 (1989) 129

**Cuprophan dialysis**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

**Cyanazine**

Residue analysis of the herbicides cyanazine and bentazone in sugar maize and surface water using HPLC and an on-line clean-up column-switching procedure 475 (1989) 432

**Cyanide**

Ion chromatographic determination of cyanide compounds by chloramine-T and conductivity measurement 465 (1989) 395

Improved GC with electron-capture detection using a reaction pre-column for the determination of blood cyanide: a higher content in the left ventricle of fire victims 490 (1989) 319

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

**Cyano-bonded silica**

Comparison of the selectivity of cyano-bonded silica stationary phases in reversed-phase LC 464 (1989) 297

**3-Cyanopyridine**

GC determination of nicotinamide in meats and meat products as 3-cyanopyridine 466 (1989) 307

**Cyclamate**

Analysis of saccharin, acesulfame-K and sodium cyclamate by high-performance ion chromatography 463 (1989) 463

**Cyclic enol ethers**

Formation of cyclic enol ethers from a labile biological precursor: an example of analytical artifacts 491 (1989) 27

**Cyclic nucleotide phosphodiesterase**

Determination of cyclic nucleotide phosphodiesterase activity in cellular systems by ion-pair reversed-phase LC 483 (1989) 427

**Cyclodextrins**

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

Determination of cyclic glucans by anion-exchange chromatography with pulsed amperometric detection 454 (1988) 303

Evaluation of the liquid chromatographic separation of monosaccharides, disaccharides, trisaccharides, tetrasaccharides, deoxysaccharides and sugar alcohols with stable cyclodextrin bonded phase columns 462 (1989) 219

Use of cyclodextrins in isotachopheresis. VII. Resolution of structurally related and chiral phenothiazines 464 (1989) 139

LC separation of positional isomers of suprofen on a cyclodextrin-bonded phase 465 (1989) 422

Rapid HPLC separation of barley malt  $\alpha$ -amylase on Cyclobond columns 469 (1989) 361

LC separation of racemates on acetylated or carbamoylated  $\beta$ -cyclodextrin-bonded stationary phases 469 (1989) 429

Use of cyclodextrins in isotachopheresis. VIII. Two-dimensional chiral separation in isotachopheresis 472 (1989) 308

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

Indirect photometric detection of cyclodextrins via inclusion complexation in micro HPLC 477 (1989) 147

Comparison of LC selectivity for polycyclic aromatic hydrocarbons on cyclodextrin and  $C_{18}$  bonded phases 477 (1989) 277

Retention behaviour of cardiac steroids using cyclodextrin in the mobile phase in HPLC 478 (1989) 339

Determination of hydroxypropyl- $\beta$ -cyclodextrin in plasma and urine by SEC with post-column complexation 487 (1989) 99

HPLC separation of urinary hippuric and *o*-, *m*- and *p*-methylhippuric acids with a  $\beta$ -cyclodextrin-bonded column 496 (1989) 189

Studies on iodinated compounds. V. Reversed-phase HPLC determination of iodide with cyclodextrin-containing mobile phases 498 (1990) 137

Retention characteristics of several compound classes in reversed-phase LC with  $\beta$ -cyclodextrin as a mobile phase modifier 499 (1990) 395

Effect of alcohol chain length, concentration and polarity on separations in HPLC using bonded cyclodextrin columns 499 (1990) 477

### Cyclodextrin-silica

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

Displacement chromatography on cyclodextrin-silicas. II. Separation of *cis-trans* isomers in the reversed-phase mode on  $\alpha$ -cyclodextrin-silica 484 (1989) 251

### Cyclohexane

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

### Cyclohexanones

Experimental utilization of a displacement effect for the optimization of the separation of a two-component mixture 484 (1989) 153

### ( $\pm$ )-Cyclohexyl(3-thienyl)glycolic acid

Direct enantiomeric separation of anticholinergic drugs derived from ( $\pm$ )-cyclohexyl(3-thienyl)glycolic acid on a novel  $\alpha_1$ -acid glycoprotein-bonded chiral stationary phase (Chiral-AGP) 467 (1989) 406

### Cyclopentenones

Preparative resolution of enantiomers of prostaglandin precursors by LC on a chiral stationary phase 484 (1989) 337

### Cyclophosphamide

Analytical and preparative HPLC separation of the enantiomers of ifosfamide, cyclophosphamide and trofosfamide and their determination in plasma 490 (1989) 133

### Cyclopiazonic acid

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

### Cyclopropanol

Practical use of an optimization strategy in reversed-phase HPLC for the separation of a limited subset of components in a reaction mixture 464 (1989) 225

### 3-(5-Cyclopropyl-1,2,4-oxadiazol-3-yl)-5,6-dihydro-5-methyl-6-oxo-4H-imidazo-[1,5a][1,4]-benzodiazepine

Determination of an oxadiazole-substituted 1,4-benzodiazepine in plasma by HPLC with UV detection and by a radioreceptor assay 494 (1989) 257

### Cyclosphoraoses

Determination of cyclic glucans by anion-exchange chromatography with pulsed amperometric detection 454 (1988) 303

### Cyclosporin

HPLC for cyclosporin measurement: comparison with radioimmunoassay 476 (1989) 93

### Cyclosporin A

Determination of cyclosporin A in the serum of kidney transplant patients by rapid-flow fractionation and normal-phase HPLC 490 (1989) 145

**Cycrimine**

Capillary GC of trihexyphenidyl, procyclidine and cycrimine in biological fluids 494 (1989) 135

***p*-Cymene**

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile oil constituents with short GC retention times 467 (1989) 272

**Cystathionine**

HPLC of cystathionine, lanthionine and aminoethylcysteine using *o*-phthaldialdehyde precolumn derivatization 490 (1989) 404

**Cysteine**

Liquid chromatographic determination of common water-soluble antioxidants in biological samples 487 (1989) 463

**Cysteine-acrylamide adduct**

Formation of a cysteine-acrylamide adduct in isoelectric focusing gels 500 (1990) 697

**Cysteine oxidation**

Kinetics of cysteine oxidation in immobilized pH gradient gels 499 (1990) 699

**5-S-Cysteinyl-3,4-dihydroxyphenylalanine**

Automated HPLC determination of 5-S-cysteinyl-3,4-dihydroxyphenylalanine in urine 473 (1989) 359

**5-S-L-Cysteinyl-3,4-dihydroxy-phenylalanine**

Improved solid-phase extraction and LC with electrochemical detection of urinary catecholamines and 5-S-L-cysteinyl-L-DOPA 452 (1988) 409

**Cytidine**

Determination of serum cytidine deaminase activity using ion-pair reversed-phase LC 495 (1989) 105

**Cytidine deaminase**

Determination of serum cytidine deaminase activity using ion-pair reversed-phase LC 495 (1989) 105

**Cytochalasans**

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

**Cytochrome P-450**

Separation and purification of component proteins of the cytochrome P-450-dependent microsomal monooxygenase system by HPLC 476 (1989) 299

Application of HPLC analysis of scopolamine and its metabolites in the study of cytochrome P 450 differentiation in vitro 487 (1989) 489

**Cytosine**

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

**Cytosine arabinoside**

Determination of <sup>3</sup>H-labelled cytosine arabinoside and eight metabolites in cell extracts by HPLC and scintillation spectrometry 491 (1989) 331

HPLC assay for cytosine arabinoside and uracil arabinoside in cerebrospinal fluid and plasma 497 (1989) 302

**Cytosine 5'-triphosphate**

Method for the determination of the specific activities of UTP and CTP in mouse kidney by HPLC 495 (1989) 249

**D****Dabequin**

Determination of dabequin in biological fluids by GC with a nitrogen-selective detector 493 (1989) 202

**Dansylaziridine**

HPLC determination of  $\delta$ -(L- $\alpha$ -aminoadipyl)-L-cysteinyl-D-valine in complex media by precolumn derivatisation with dansylaziridine 481 (1989) 245

**Data acquisition**

Data acquisition in capillary isotachopheresis 470 (1989) 79

**Data handling**

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

**Davis–Giddings theory**

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient elution of a mixture of natural secoiridoid compounds 485 (1989) 631

**2,4-DB methyl ester**

Rapid determination of seven herbicides in water or isooctane using C<sub>18</sub> and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

***p,p'*-DDE**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

***p,p'*-DDT**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

**Deacetoxycephalosporin C**

On-line HPLC for the determination of cephalosporin C and by-products in complex fermentation broths 499 (1990) 609

**Deacetylcephalosporin C**

On-line HPLC for the determination of cephalosporin C and by-products in complex fermentation broths 499 (1990) 609

**Deacetyldiltiazem**

Automated HPLC with column switching for on-line clean-up and analysis of diltiazem and metabolites in human plasma 495 (1989) 358

**Deacetyl-N-onodemethyl diltiazem**

Automated HPLC with column switching for on-line clean-up and analysis of diltiazem and metabolites in human plasma 495 (1989) 358

**Deactivation**

Characteristics of glass based packings as a support in chromatography 471 (1989) 113

Deactivation with polymethylhydrosiloxane. A comparative study with capillary GC and solid-state <sup>29</sup>Si nuclear magnetic resonance spectroscopy 477 (1989) 3

**Dead volume**

Free energy correlations: dead volume and the reversed-phase HPLC capacity factor in the interaction index model. A discussion and application to a nitrosamine series 481 (1989) 97

**DEAE-cellulose**

Protein A, hydroxyapatite and diethylaminoethyl: evaluation of three

procedures for the preparative purification of monoclonal antibodies by HPLC 465 (1989) 101

Ionization of DEAE-cellulose. Dependence of *pK* on ionic strength 469 (1989) 111

**Decomposition, on-column**

Use of a stop-flow technique to study on-column decomposition in SFC 479 (1989) 170

**Deconvolution**

Resolution of a coeluting chromatographic pair using Kalman filtering 469 (1989) 77

**DEF**

Rapid determination of seven herbicides in water or isooctane using C<sub>18</sub> and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

**Dehydroacetic acid**

Simultaneous determination of nine food additives using HPLC 457 (1988) 333

**Dehydroascorbic acid**

Determination of ascorbic acid and dehydroascorbic acid in plasma and cerebrospinal fluid by LC with electrochemical detection 497 (1989) 276

**7-Dehydrocholesterol**

Ultramicro determination of 7-dehydrocholesterol in rat skin by HPLC with fluorescence detection 491 (1989) 404

**11-Dehydrothromboxane B<sub>2</sub>**

Microdetermination of 11-dehydrothromboxane B<sub>2</sub> in human urine by GC–selected-ion monitoring 468 (1989) 383

Analysis of the major urinary thromboxane metabolites, 2,3-dinor thromboxane B<sub>2</sub> and 11-dehydrothromboxane B<sub>2</sub>, by GC–MS and GC–tandem MS 497 (1990) 1

**Delcosine**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**Delpheline**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**Deltaline**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**Deltamine**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**Demeclocycline**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

**Demethylgorgosterol**

Effective separation of sterol C-24 epimers 468 (1989) 91

**Demissidine**

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

**Denaturation**

Thermodynamics of  $\alpha$ -lactalbumin denaturation in hydrophobic-interaction chromatography and stationary phases comparison 458 (1988) 93

**Densitometry**

Use of absorbance ratios in densitometric measurements for the characterization and identification of natural products of pharmacological interest 469 (1989) 390

Ultra-thin electrophoretic gel densitometry using photo-thermal deflection spectroscopy 472 (1989) 331

Progress in densitometry for quantitation in planar chromatography (Review) 492 (1989) 539

**Density**

Effect of pressure drop across the column on average densities and capacity factors in SFC 471 (1989) 347

Effects of temperature and density on retention in capillary SFC 478 (1989) 311

**Density distribution functions**

Generalized treatment of spatial and temporal column parameters, applicable to GLC, LC and SFC. I. Theory 461 (1989) 165

**Dentifrice**

Flavor characterization of dentifrices using equilibrium headspace GC 455 (1988) 143

**Deoxyguanosine**

Measurement of deoxyguanosine/thymidine ratios in complex mixtures by HPLC for determination of the mole percentage guanine + cytosine of DNA 479 (1989) 297

**Deoxynucleosides**

MS of electrophore-labeled nucleosides. Pentafluorobenzyl and cinnamoyl derivatives 452 (1988) 369

**Deoxynucleotides**

Isocratic reversed-phase HPLC of ribonucleotides, deoxynucleotides, cyclic nucleotides and deoxycyclic nucleotides 461 (1989) 259

**Deoxyoligonucleotides**

High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

**Deoxyribonucleosides**

HPLC analysis of DNA composition and DNA modification by chloroacetaldehyde 458 (1988) 117

Reversed-phase LC retention and selectivity surfaces. II. Deoxyribonucleosides 485 (1989) 617

**Deoxythymidylate**

HPLC assay for thymidylate synthase from the human malaria parasite, *Plasmodium falciparum* 487 (1989) 51

**Deoxyuridylate**

HPLC assay for thymidylate synthase from the human malaria parasite, *Plasmodium falciparum* 487 (1989) 51

**(-)-Deprenyl**

Chromatographic studies on the binding, action and metabolism of (-)-deprenyl 499 (1990) 589

**Derivatization, electrophoresis**

High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141

**Derivatization, GC**

Determination of *N-n*-propylnorapomorphine in serum and brain tissue by GC-negative ion chemical ionization MS 457 (1988) 257

Perfluoro and chloro amide derivatives of aniline and chloroanilines. A comparison of their formation and GC determination by mass selective and electron-capture detectors 457 (1988) 267

Pentafluorobenzoylation of capsaicinoids for GC with electron-capture detection 457 (1988) 279

GC behaviour of carbohydrate trimethylsilyl ethers. II. Aldohexoses 462 (1989) 49

- HPLC and GC of dialkylphosphates, dialkylthiophosphates and dialkyldithiophosphates as their pentafluorobenzyl derivatives 462 (1989) 233
- TLC decomposition of the picrates and trinitrobenzoylates of polycyclic hydrocarbons and other organic compounds 463 (1989) 452
- Trace detection of modified DNA bases via moving-belt LC-MS using electrophoretic derivatization and negative chemical ionization 465 (1989) 285
- Pentafluorobenzoic anhydride as a derivatizing agent for alcohols and hydroxy fatty acid methyl esters detected by electron capture in GC 466 (1989) 251
- GC determination of nicotinamide in meats and meat products as 3-cyanopyridine 466 (1989) 307
- Headspace GC of stimulants in urine by in-column trifluoroacetyl derivatization method 467 (1989) 227
- Methylation of  $\omega$ -oxocarboxylic acids with diazomethane: effect of solvent on by-product formation 467 (1989) 279
- GC determination of glycoprotein amino sugars as O-pentafluorobenzoyloxime acetates 467 (1989) 315
- GLC resolution of some racemic synthons for lamtidine analogous histamine H<sub>2</sub>-receptor antagonists via diastereomeric amides of (1S)-(-)-camphanic acid 467 (1989) 402
- Simultaneous GC of volatile and non-volatile carboxylic acids as *tert*-butyldimethylsilyl derivatives 468 (1989) 289
- Relative GLC retention factors of trimethylsilyl ethers of diradylglycerols on polar capillary columns 471 (1989) 187
- GC retention of carbohydrate trimethylsilyl ethers. III. Ketohexoses 471 (1989) 205
- Improved chiral stationary phase for the separation of the enantiomers of chiral acids as their anilide derivatives 471 (1989) 271
- Derivatization with 1,1-dimethylhydrazine for identification of carbonyl compounds resulting from ozonolysis 472 (1989) 284
- Silylaldonitrile derivatives for the determination of sugars by GC-MS 473 (1989) 125
- Determination of sodium monofluoroacetate in soil and biological samples as the dichloroanilide derivative 473 (1989) 251
- GC analysis of sulphonic acids as their sulphonamide derivatives 473 (1989) 276
- Preparation, stability and quantitative analysis by GC and GC-electron impact MS of *tert*-butyldimethylsilyl derivatives of some alkylphosphonic and alkyl methylphosphonic acids 475 (1989) 261
- Ester and related derivatives of ring N-pentafluorobenzylated 5-hydroxymethyluracil. Hydrolytic stability, MS properties, and trace detection by GC-electron-capture detection, GC-electron-capture negative ion MS, and moving-belt LC-electron-capture negative ion MS 476 (1989) 423
- Identification of reaction products from the pyridinium dichromate derivatization of prostaglandins by HPLC and direct chemical ionization MS 477 (1989) 345
- Chromatographic determination of amines in biological fluids with spectral reference to the biological monitoring of isocyanates and amines. I. Determination of 1,6-hexamethylenediamine using glass capillary GC and thermionic specific detection 479 (1989) 125
- Chromatographic determination of amines in biological fluids with special reference to the biological monitoring of isocyanates and amines. II. Determination of 2,4- and 2,6-toluenediamine using glass capillary GC and selected ion monitoring 479 (1989) 135
- Chromatographic determination of amines in biological fluids with special reference to the biological monitoring of isocyanates and amines. III. Determination of 4,4'-methylenedianiline in hydrolysed human urine using derivatization and capillary GC with selected ion monitoring 479 (1989) 145
- GC separation of diastereomeric dicarbamate derivatives of  $\gamma$ - and  $\delta$ -lactones 479 (1989) 176
- Determination of glutathione in Scots pine needles by HPLC as its monobromobimane derivative 479 (1989) 335
- Thermodynamic properties of enantiomers of underivatized diols *versus* the cyclic carbonates in GC on Chirasil-Val 481 (1989) 17
- GLC-MS of mono- and dithiols as their *tert*-butyldimethylsilyl derivatives 483 (1989) 21
- GC determination of (phosphorylated) 2-keto-3-deoxyoctonic acid, heptoses and glucosamine in bacterial lipopolysaccharides after treatment with hydrofluoric acid, methanolysis and trifluoroacetylation 487 (1989) 1

Enantioselective GC assays with electron-capture detection for methoxyphenamine and its three primary metabolites in human urine 487 (1989) 61

Determination of aromatic amines in urine and serum 488 (1989) 470

Solid-phase sample preparation method for prostaglandins: integration of procedures for isolation and derivatization for GC determination 489 (1989) 263

Isothermal capillary GC with electron-capture detection of heptafluorobutyl-L-prolyl derivatives of chiral amphetamines 491 (1989) 262

Sulfonium salts as derivatizing agents. 2. Determination of theophylline in plasma by automated GC 494 (1989) 109

Determination of the partial benzodiazepine receptor agonist R<sub>0</sub> 16-6028 in plasma by capillary GC with nitrogen-selective detection after conversion into the ethyl ester derivative 494 (1989) 119

Determination of meprobamate in serum by alkaline hydrolysis, trimethylsilyl derivatization and detection by GC-MS 494 (1989) 318

GC and MS determination of some resin and fatty acids in pulpmill effluents as their pentafluorobenzyl ester derivatives 498 (1990) 367

Selection of electrophoric derivatives of 1-aminopyrene and 2-aminofluorene for determination by GC with electron-capture negative-ion MS 500 (1990) 373

### **Derivatization, LC**

Determination of nitrite and nitrate by reversed-phase HPLC using on-line post-column photolysis with UV absorbance and electrochemical detection 452 (1988) 295

Determination of fatty acids as phenacyl esters in rat adipose tissue and blood vessel walls by HPLC 452 (1988) 243

On-line HPLC-post-column reaction-capillary GC analysis of lipids in biological samples 454 (1988) 157

Polymeric benzotriazole reagent for the off-line HPLC derivatization of polyamines and related nucleophiles in biological fluids 454 (1988) 169

Effect of differing thiols on the reversed-phase HPLC behaviour of *o*-phthalaldehyde-thiol-amino acids 454 (1988) 398

Modified procedure for the HPLC analysis of amino acids in xylem sap (in French) 455 (1988) 173

Determination of phenols by LC using reductive electrochemical detection via precolumn derivatization 455 (1988) 241

Derivatization of amines with *O*-acetylsalicyloyl chloride to enhance electrochemical detection in HPLC 455 (1988) 349

HPLC determination of hinokitiol in cosmetics by the formation of difluoroborane compounds 455 (1988) 430

Determination of residues of carbadox and some of its metabolites in swine tissues by HPLC using on-line pre-column enrichment and post-column derivatization with UV-VIS detection 456 (1988) 105

HPLC determination of valproic acid in plasma using a micelle-mediated pre-column derivatization 456 (1988) 191

Study of the influence of aqueous micellar systems on the derivatization of undecylenic acid with 4-bromomethyl-2-methoxycoumarin 456 (1988) 201

Improved HPLC method with fluorimetric detection for the determination of glycerol using an immobilized enzyme column reactor 456 (1988) 398

LC determination of biotin by using 1-pyrenyldiazomethane as a pre-column fluorescent labelling reagent 456 (1988) 421

HPLC of aliphatic aldehydes by means of post-column extraction with fluorometric detection 457 (1988) 299

Chromatographic separation of the diastereomers of a dihydropyridine-type calcium channel antagonist as the bis-3,5-dinitrobenzoates 457 (1988) 309

LC determination of bromide after pre-column derivatization to 4-bromoacetanilide 457 (1988) 345

HPLC of the antitumour agent triethylenethiophosphoramidate and its metabolite triethylenephosphoramidate with sodium sulphide, taurine and *o*-phthalaldehyde as pre-column fluorescent derivatization reagents 458 (1988) 295

Rhodamine labelling reagent for the determination of chlorophenols by LC with peroxyoxalate chemiluminescence detection 459 (1988) 139

- Determination of salsolinol by ion-exchange chromatography with glycyglycine as the post-derivatizing agent 459 (1988) 245
- Improved enantiomeric separation of dihydrodiols of polycyclic aromatic hydrocarbons on chiral stationary phases by derivatization to O-methyl ethers 461 (1989) 377
- Confirmation of domoic acid in molluscan shellfish by chemical derivatization and reversed-phase LC 462 (1989) 419
- Post-column immobilized leucine dehydrogenase reactor for determination of branched chain amino acids by HPLC with fluorescence detection 463 (1989) 177
- Post-column co-immobilized galactose oxidase/ peroxidase reactor for fluorometric detection of saccharides in an LC system 463 (1989) 183
- Determination of volatile amines in air by on-line solid-phase derivatization and HPLC with UV and fluorescence detection 463 (1989) 192
- Limitations of 2-diphenylacetyl-1,3-indandione-1-hydrazone as a precolumn fluorescence derivatization reagent 464 (1989) 186
- Determination of amphetamine-related compounds by HPLC with chemiluminescence and fluorescence detections 464 (1989) 343
- Derivatization and HPLC determination of urinary glycolic acid 465 (1989) 87
- Resolution of neuroexcitatory non-protein amino acid enantiomers by HPLC utilising pre-column derivatisation with *o*-phthalaldehyde chiral thiols. Application to  $\omega$ -N-oxalyl diamino acids 466 (1989) 407
- Determination of 2-acetyl-4(5)-tetrahydroxybutylimidazole in beers by HPLC with confirmation by chemical derivatization 466 (1989) 421
- Chemical reaction detection of catechins and proanthocyanidins with 4-dimethylaminocinnamaldehyde 467 (1989) 185
- Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209
- Simultaneous HPLC determination of catecholamine-related compounds by post-column derivatization involving coulometric oxidation followed by fluorescence reaction 467 (1989) 237
- LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249
- Quantitative analysis of thorium in plutonium using reversed-phase LC and spectrophometric detection 469 (1989) 369
- HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424
- Determination of the enantiomers of  $\alpha$ -H- $\alpha$ -amino acids,  $\alpha$ -alkyl- $\alpha$ -amino acids and the corresponding acid amides by HPLC 471 (1989) 263
- HPLC of mercury and phenylmercury as the N-disubstituted dithiocarbamate complexes 472 (1989) 401
- Analysis of 5-fluorouracil in plasma by precolumn derivatization with 4-bromomethyl-7-methoxycoumarin, followed by multi-dimensional HPLC 473 (1989) 431
- Determination of 17-oxosteroid sulphates in serum by ion-pair extraction, prelabelling with dansylhydrazine and HPLC with fluorescence detection 474 (1989) 363
- Analysis of natural and modified amino acids and hexosamines by reversed-phase HPLC 474 (1989) 411
- HPLC analysis of fluorescent derivatives of adenine and adenosine and its nucleotides. Optimization of derivatization with chloroacetaldehyde and chromatographic procedures 475 (1989) 311
- HPLC analysis of aldehydes at trace level as their 3-methylbenzothiazolone azine derivatives 475 (1989) 343
- Automated enantioseparation of amino acids by derivatization with *o*-phthalaldehyde and N-acylated cysteines 476 (1989) 73
- LC analysis of amino and imino acids in protein hydrolysates by post-column derivatization with *o*-phthalaldehyde and 3-mercaptopropionic acid 476 (1989) 83
- Ester and related derivatives of ring N-pentafluorobenzylated 5-hydroxymethyluracil. Hydrolytic stability, MS properties, and trace detection by GC-electron-capture detection, GC-electron-capture negative ion MS, and moving-belt LC-electron-capture negative ion MS 476 (1989) 423

Sensitive fluorescence labelling for analysis of carboxylic acids with 4-bromomethyl-6,7-methylenedioxcoumarin 478 (1989) 149

Separation of derivatized black tea thearubigins by HPLC 478 (1989) 217

Quantification and characterization of the trifluoroacetic anhydride derivatives of N,N'-ethylenebisstearamide and N,N'-ethylenebisoleamide 479 (1989) 107

Determination of vitamin U and its degradation products by HPLC with fluorescence detection 479 (1989) 361

Separation of the enantiomers of N-protected  $\alpha$ -amino acids as anilide and 3,5-dimethylanilide derivatives 479 (1989) 419

New UV labelling agents for HPLC determination of monocarboxylic acids 481 (1989) 211

HPLC determination of  $\delta$ -(L- $\alpha$ -aminoadipyl)-L-cysteinyl-D-valine in complex media by precolumn derivatisation with dansylaziridine 481 (1989) 245

Chiral stationary phases via hydrosilylation reaction of N-acryloylamino acids. I. Stationary phase with one chiral centre for HPLC and development of a new derivatization pattern for amino acid enantiomers 481 (1989) 380

LC determination of N-methylcarbamate pesticides using a single-stage post-column derivatization reaction and fluorescence detection 481 (1989) 445

Determination of Pb<sup>II</sup>, Cd<sup>II</sup> and Bi<sup>III</sup> by reversed-phase liquid chromatography of their diethyldithiocarbamate complexes with post-column ligand exchange and selective spectrophotometric detection 482 (1989) 317

Study of the chromatographic behaviour and resolution of  $\alpha$ -amino acid enantiomers by HPLC utilizing pre-column derivatization with *o*-phthalaldehyde and new chiral thiols 483 (1989) 239

HPLC determination of low levels of primary and secondary amines in aqueous media via derivatisation with 1,2-naphthoquinone-4-sulphonate 483 (1989) 341

Improved HPLC method for artifact-free measurements of aldehydes in the presence of ozone using 2,4-dinitrophenylhydrazine 483 (1989) 431

Determination of catecholamines in human plasma by HPLC: comparison between a new method with fluorescence detection and an established method with electrochemical detection 487 (1989) 17

Determination of enantiomeric purity of the new D-2 dopamine agonist 2-(N-propyl-N-2-thiénylethylamino)-5-hydroxytetralin (N-0437) by reversed-phase HPLC after pre-column derivatization with D(+)-glucuronic acid 487 (1989) 125

Body fluid analysis of a phosphonic acid angiotensin-converting enzyme inhibitor using HPLC and post-column derivatization with *o*-phthaldehyde 487 (1989) 135

Resolution of antihypertensive aryloxypropanolamine enantiomers by reversed-phase chromatography of (-)-menthyl chloroformate derivatives 487 (1989) 197

Separation of the molecular species of diacyl and alkenylacyl subclasses of the methyl ester of dinitrophenylethanolamine glycerophospholipid by HPLC 487 (1989) 239

Sensitive ferrocene reagents for derivatization of amines for HPLC with electrochemical detection 487 (1989) 247

Enantioselective drug monitoring of (*R*)- and (*S*)-propranolol in human plasma via derivatization with optically active (*R,R*)-*O,O*-diacetyl tartaric acid anhydride 487 (1989) 375

Automated analysis procedure for valproic acid in blood, serum and brain dialysate by HPLC with bromomethylmethoxycoumarin as fluorescent label 487 (1989) 496

Biomedical applications of LC-electrochemistry 488 (1989) 31

Fluorimetric determination of kynurenine in human serum by HPLC coupled with post-column photochemical reaction with hydrogen peroxide 488 (1989) 349

Determination of the  $\beta$ -adrenoceptor blocking drug B24/76 in serum by HPLC with fluorimetric detection after pre-column dansylation 488 (1989) 482

Electrochemical label for HPLC. I.  $\beta$ -Naphthoquinone-4-sulphonate as an electrochemical detection labelling reagent of amines 489 (1989) 371

Determination of methyl ethyl ketone in human urine after derivatization with *o*-nitrophenylhydrazine, using solid-phase extraction and reversed-phase HPLC and UV detection 489 (1989) 419

Determination of the bisphosphonate pamidronate disodium in urine by pre-column derivatization with fluorecamine, HPLC and fluorescence detection 489 (1989) 446

Determination of the aminoglycoside antibiotics sisomicin and netilmicin in dried blood spots on filter discs, by HPLC with pre-column derivatization and fluorimetric detection 490 (1989) 125

HPLC determination of substance P-like arginine-containing peptide in rat brain by on-line post-column fluorescence derivatization with benzoin 490 (1989) 301

HPLC of cystathionine, lantionine and aminoethylcysteine using *o*-phthalaldehyde precolumn derivatization 490 (1989) 404

Sensitive method for the analysis of phospholipid subclasses and molecular species as 1-anthroyl derivatives of their diglycerides 491 (1989) 37

Optimized determination of thiochrome derivatives of thiamine and thiamine phosphates in whole blood by reversed-phase LC with precolumn derivatization 491 (1989) 89

Determination of baclofen and  $\alpha$ -baclofen in rat liver homogenate and human urine using solid-phase extraction, *o*-phthalaldehyde-*tert*-butyl thiol derivatization and HPLC with amperometric detection 491 (1989) 151

Determination of 3-methylhistidine in urine by HPLC using pre-column derivatization with 9-fluorenylmethyl chloroformate 491 (1989) 418

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

HPLC method for the simultaneous determination of the enantiomers of carvedilol and its *O*-desmethyl metabolite in human plasma after chiral derivatization 493 (1989) 105

Resolution of enantiomers of the antiarrhythmic drug encainide and its major metabolites by chiral derivatization and HPLC 493 (1989) 325

Separation of alkylacyl and diacyl glycerophospholipids and their molecular species as naphthylurethanes by HPLC 493 (1989) 353

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (-)-menthyl chloroformate 493 (1989) 402

Quantification of L-3-(3-hydroxy-4-pivaloyloxyphenyl)alanine (NB-355) by HPLC using *o*-phthalaldehyde/*N*-acetyl-L-cysteine derivatization 494 (1989) 183

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

Development of an HPLC post-column fluorogenic assay for digoxin in serum 496 (1989) 321

Sensitive HPLC assay using 9-fluorenylmethylchloroformate for monitoring controlled-release lidocaine in plasma 496 (1989) 335

HPLC separation of 11-hydroxylauric acid enantiomers. Application to the determination of the stereochemistry of microsomal lauric acids ( $\omega - 1$ ) hydroxylation 498 (1990) 293

Appraisal of our pre-column derivatization methods for the HPLC determination of free amino acids in biological materials 499 (1990) 557

Application of 3-(2-furoyl)quinoline-2-carbaldehyde as a fluorogenic reagent for the analysis of primary amines by LC with laser-induced fluorescence detection 499 (1990) 579

Determination of *D*-*myo*-1,2,6-inositol trisphosphate by ion-pair reversed-phase LC with post-column ligand exchange and fluorescence detection 499 (1990) 617

Determination of inorganic anions by flow injection analysis and HPLC combined with photolytic-electrochemical detection 499 (1990) 685

Automated HPLC determination of plasma free fatty acids using on-line derivatization with 9-bromomethylacridine based on micellar phase-transfer catalysis 500 (1990) 443

Liquid column chromatography of oxo compounds as their 2,4-dinitrophenylhydrazones with special reference to glucose-glycine Maillard reaction products 500 (1990) 607

### **Derivatization, MS**

Isolation, separation and analysis in neurochemistry: trace amines and acids as an illustrative example 488 (1989) 129

### **Derivatization, SFC**

Separation of  $\alpha$ -keto acids by capillary SFC as their quinoxalinol derivatives 452 (1988) 623

Analysis of steroids by capillary SFC with phosphorus-selective detection 461 (1989) 111

### **Derivatization, TLC**

Sensitive detection of unsaturated disaccharides from chondroitin sulphates by TLC as their dansylhydrazine derivatives 462 (1989) 471

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

### **Dermatan sulphate**

Chromatographic method for determination of hexuronic acid in dermatan sulphate 478 (1989) 275

### **N-1-Desalkylflurazepam**

Simultaneous determination of flurazepam and its metabolites in human plasma by HPLC 494 (1989) 247

### **Desipramine**

Determination of lofepramine and desipramine using HPLC and electrochemical detection 496 (1989) 228

### **O-Desmethylbrofaromine**

Determination of the new monoamine oxidase inhibitor brofaromine and its major metabolite in biological material by GC with electron-capture detection 488 (1989) 275

### **O-Desmethylcarvedilol**

HPLC method for the simultaneous determination of the enantiomers of carvedilol and its O-desmethyl metabolite in human plasma after chiral derivatization 493 (1989) 105

### **Desmethylencaïnides**

Improved HPLC assay for encaïnide and its metabolites in human body fluids 490 (1989) 165

### **N-Desmethyloxymethoxyphenamine**

Enantioselective GC assays with electron-capture detection for methoxyphenamine and its three primary metabolites in human urine 487 (1989) 61

### **O-Desmethyloxymethoxyphenamine**

Enantioselective GC assays with electron-capture detection for methoxyphenamine and its three primary metabolites in human urine 487 (1989) 61

### **Desorbing agents**

Potential of the sulfobetaine detergent Zwittergent 3-12 as a desorbing agent in biospecific and bioselective affinity chromatography 497 (1989) 87

### **Desulphoglucosinolates**

Specific screening methods for glucosinolates in sprout extracts using on-line thermospray LC-tandem MS 472 (1989) 219

### **Detectability**

Optimization of selectivity, detectability and analysis time in HPLC 499 (1990) 489

### **Detection limits**

Mass detection limits achieved with a commercially available fluorimeter in micro HPLC 471 (1989) 297

### **Detection, quality criteria**

Quality criteria for the detection of analytes in test samples with special reference to anabolic agents and related compounds 489 (1989) 89

### **Detectors, electrophoresis**

Use of a double-detector system for the measurement of mobilities in zone electrophoresis 452 (1988) 591

Post-column detection for capillary zone electrophoresis 456 (1988) 375

Adjustable aperture-width detector cell for on-column detection in capillary zone electrophoresis 462 (1989) 147

Indirect photometric detection in capillary zone electrophoresis 470 (1989) 299

Capillary electrophoresis-electrospray ionization-MS 474 (1989) 21

High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141

Characterization of a post-column reaction–laser-induced fluorescence detector for capillary zone electrophoresis 480 (1989) 157

Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169

Photodiode array detection in high-performance capillary electrophoresis 480 (1989) 179

Semiconductor radioisotope detector for capillary electrophoresis 480 (1989) 259

Effect of electrolyte and sample concentration on the relationship between sensitivity and resolution in capillary zone electrophoresis using conductivity detection 480 (1989) 285

Capillary electrophoresis with indirect amperometric detection 499 (1990) 713

### **Detectors, GC**

Direct coupling of a gas chromatograph to an ion trap detector 454 (1988) 372

Photometric and electron-capture modes in a dual-channel sensor 457 (1988) 149

Dynamic headspace method for the improved clean-up of gunshot residues prior to the detection of nitroglycerine by capillary column GC with thermal energy analysis detection 464 (1989) 178

Electron-capture detector with an ion signal 465 (1989) 215

Selective detection of volatile iron compounds by flame photometry 467 (1989) 75

GC detection of selected organochlorine species using an alternating current plasma detector 467 (1989) 373

Analysis of volatiles in tall oil by GC flame-photometric detection, flame-ionization detection and MS 468 (1989) 145

Non-radioactive electron-capture detector for GC 468 (1989) 215

Improved flame photometric detector for the analysis of sulfur compounds by GC 468 (1989) 303

Characterization of coal liquefaction products by GC–Fourier transform IR spectroscopy–MS 468 (1989) 309

Element-selective GC detection by atomic plasma emission spectroscopy. Review and developments 468 (1989) 319

Factorial optimization for flows in the Hall electrolytic conductivity detector 473 (1989) 27

GC detection by electron impact-induced fluorescence spectrometry of molecular fragments 475 (1989) 237

Studies on 1-(2-phenethyl)-4-(N-propionylanilino)piperidine (fentanyl) and related compounds. III. Effect of methyl group introduction into fentanyl on sensitivity enhancement in GC with surface ionization detection 475 (1989) 400

Evaluation of direct axial sample introduction for ion mobility detection after capillary GC 479 (1989) 221

Modification to a thermal energy analyzer with associated electronic filtering for improved GC analysis of explosives traces 483 (1989) 379

Improved synchronized accumulating radioisotope detector for GC 489 (1989) 255

Radio-GC on wide-bore capillary columns equipped with a synchronized accumulating radioisotope detector 490 (1989) 21

GC with Fourier transform IR spectrometry for biomedical applications 492 (1989) 109

Radio-GC (Review) 492 (1989) 137

Hypercoulemetry of the second kind in electron-capture detection 500 (1990) 95

Method for radio-capillary GC employing a modified oxidation–reduction train and flow-through detector 500 (1990) 349

### **Detectors, isotachophoresis**

The separation process in isotachophoresis. I. A 32-channel UV-photometric zone detector 463 (1989) 39

On-column radiometric detector for capillary isotachophoresis and its use in the analysis of <sup>14</sup>C-labelled constituents 470 (1989) 139

Photometric detection of metal cations in capillary isotachophoresis based on complex equilibria 470 (1989) 155

### **Detectors, LC**

Superconductor metal oxide catalyst in a chemiluminescence chromatography detector 452 (1988) 75

Determination of phenols by LC using reductive electrochemical detection via precolumn derivatization 455 (1988) 241

- High-sensitivity laser-induced fluorescence-HPLC studies of polyaromatic hydrocarbons using the argon ion laser-Yeung detector cell configuration 455 (1988) 332
- Application of amperometric detection to the HPLC determination of antipyrine and 4-aminoantipyrine in urine 455 (1988) 420
- Electrosorptive detection of simple organic compounds in LC 456 (1988) 287
- Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307
- Use of a simultaneous conductivity and amperometric detector with a manganin electrode in the microcolumn LC of dicarboxylic acids 456 (1988) 370
- Peak identification of amino acids in LC by optical activity detection 457 (1988) 421
- Strategies for automated optimisation of HPLC separations incorporating diode-array detection 458 (1988) 335
- Universal detection and quantitation of surfactants by HPLC by means of the evaporative light-scattering detector 459 (1988) 91
- Enhanced performance of a laser-induced fluorescence LC apparatus: a systems approach 459 (1988) 109
- Experimental and theoretical model of refractive index artifacts in absorbance detection 459 (1988) 119
- Rhodamine labelling reagent for the determination of chlorophenols by LC with peroxyoxalate chemiluminescence detection 459 (1988) 139
- Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151
- Carbon-polymer chips as sensitive electrochemical detectors for micro-LC 459 (1988) 163
- Indirect detection in reversed-phase LC. Response deviations in ion-pairing systems 461 (1989) 429
- Selection of conditions for the molecular size speciation of vanadium and nickel complexes in oil by SEC coupled with inductively coupled plasma-atomic emission spectrometry 462 (1989) 115
- Separation and assay of N-nitroso compounds by HPLC with chemiluminescence detection 463 (1989) 201
- Reversed-phase HPLC-NMR on-line coupling with solvent non-excitation 463 (1989) 355
- Microbore LC and refractive index gradient detection of low-nanogram and low-ppm quantities of carbohydrates 464 (1989) 83
- High-performance anion-exchange chromatography of homogeneous D-gluco-oligosaccharides and -polysaccharides (polymerization degree  $\geq 50$ ) with pulsed amperometric detection 464 (1989) 365
- Determination of fluoride in semiconductor process chemicals by ion chromatography with ion-selective electrodes 465 (1989) 1
- Polarographic detection of non-ionic surfactants analyzed by reversed-phase partition chromatography 465 (1989) 69
- High-sensitivity micro UV absorption detector for HPLC 465 (1989) 227
- Rapid analysis of triacylglycerols using HPLC with light scattering detection 465 (1989) 369
- LC on packed fused-silica capillary columns with electrochemical detection 467 (1989) 41
- Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149
- On-line flame photometric detection in micro-column LC 467 (1989) 385
- Highly sensitive on-line radioassay of HPLC effluents 468 (1989) 279
- Mass detection limits achieved with a commercially available fluorimeter in micro HPLC 471 (1989) 297
- Simultaneous photometric and conductivity detection for microcolumn LC 471 (1989) 303
- Effect of the position of the laser beam focal point on a capillary flow-through cell on the signal-to-noise ratio for a fluorimetric detector in capillary column LC 471 (1989) 311
- Control of some HPLC systems by using an evaporative light scattering detector (in French) 472 (1989) 209
- Electrochemical detection of mercapturic acid derivatives after separation by HPLC 475 (1989) 391

Micro-LC with diode array detection 477 (1989) 87

Evaluation of assay specificity in non-suppressed ion chromatography 477 (1989) 271

Optimization in photochemical reaction detection. Application to HPLC-photolysis-electrochemical detection 481 (1989) 121

Novel transport detector for LC. I. Preliminary experiments 482 (1989) 53

Microcylinder electrodes as sensitive detectors for high-efficiency, high-speed LC 482 (1989) 65

Theoretical considerations on the appearance of sample and system peaks in ion chromatography with photometric detection 482 (1989) 145

Chromatographic determination of water using spectrophotometric detection 482 (1989) 279

Lanthanide luminescence quenching as a detection method in ion chromatography. Chromate in surface and drinking water 482 (1989) 351

Simultaneous determination of Cr(III) and Cr(VI) at ultratrace levels using ion chromatography with chemiluminescence detection 482 (1989) 361

Expert system for the selection of HPLC methods for the analysis of drugs 485 (1989) 237

Separation of polyunsaturated fatty acid radicals by HPLC with electron spin resonance and UV detection 487 (1989) 9

Determination of catecholamines in human plasma by HPLC: comparison between a new method with fluorescence detection and an established method with electrochemical detection 487 (1989) 17

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

Identification of 9-hydroxylamine-1,2,3,4-tetrahydroacridine as a hepatic microsomal metabolite of tacrine by HPLC and electrochemistry 487 (1989) 401

Biomedical applications of LC-electrochemistry 488 (1989) 31

Chemiluminescence immunoassay for the detection and quantification of methyltestosterone residues in muscle tissue 489 (1989) 219

Biological detectors in LC 490 (1989) 247

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

Application of indirect detection methods in biomedical analysis (Review) 492 (1989) 299

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

Validation of an amperometric HPLC determination of epinephrine in bupivacaine and epinephrine injection 498 (1990) 402

Automated evaluation of tryptic digest from recombinant human growth hormone using UV spectra and numeric peak information 499 (1990) 221

Determination of inorganic anions by flow injection analysis and HPLC combined with photolytic-electrochemical detection 499 (1990) 685

### **Detectors, SFC**

Use of two simultaneous detectors in capillary SFC 459 (1988) 193

SFC of sesquiterpene hydrocarbons on silica packed columns with on-line Fourier transform IR detection 464 (1989) 125

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

SFC with sulfur chemiluminescence detection 465 (1989) 23

Improved evaporative light-scattering detection for SFC with carbon dioxide-methanol mobile phases 467 (1989) 49

### **Detectors, TLC**

Potential application of TLC and TLC with flame ionization detection of cholestanol in the diagnosis of cerebrotendinous xanthomatosis 452 (1988) 543

Indirect fluorimetric detection of non-electrolytes in TLC 455 (1988) 382

Quantitative TLC by laser pyrolysis and flame ionization or electron-capture detection 463 (1989) 139

Sequential hydrocarbon and nitrogen detection in TLC analysis of oil shale bitumen 465 (1989) 345

Laser microprobe MS of selected compounds directly from normal phase high-performance thin-layer plates 471 (1989) 389

Quantitative analysis of anabolics on TLC plates using image analysis techniques 489 (1989) 205

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Progress in densitometry for quantitation in planar chromatography (Review) 492 (1989) 539

### Detergents

Comparison of non-ionic detergents for extraction and ion-exchange HPLC of Sendai virus integral membrane proteins 476 (1989) 319

Peptide mapping and internal sequencing of proteins electroblotted from two-dimensional gels onto polyvinylidene difluoride membranes. A chromatographic procedure for separating proteins from detergents 476 (1989) 345

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

### Dexamethasone

Simultaneous measurement of prednisone, prednisolone and 6 $\beta$ -hydroxyprednisolone in urine by HPLC using dexamethasone as the internal standard 493 (1989) 421

### Dextrans

Synthesis of ATP-polyethylene glycol and ATP-dextran and their use in the purification of phosphoglycerate kinase from spinach chloroplasts using affinity partitioning 457 (1988) 183

High-performance SEC procedure for the determination of fluoresceinyl isothiocyanate dextrans of various molecular masses in biological media 491 (1989) 117

### Dextromethorphan

Applicability of continuous-flow fast atom bombardment LC-MS in bioanalysis. Dextromethorphan in plasma 474 (1989) 59

Dextromethorphan phenotypes determined by HPLC and fluorescence detection 495 (1989) 361

### Dextromoramide

GC-MS investigation of dextromoramide (Palfium) metabolism in the horse 498 (1990) 35

### Dextrophan

Dextromethorphan phenotypes determined by HPLC and fluorescence detection 495 (1989) 361

### Dhurrin

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

### (*R,R*)-*O-O*-Diacyl tartaric acid anhydride

Enantioselective drug monitoring of (*R*)- and (*S*)-propranolol in human plasma via derivatization with optically active (*R,R*)-*O,O*-diacyl tartaric acid anhydride 487 (1989) 375

### Diacylglycerols

Measurement of intracellular diacylglycerols by acetylation and TLC 490 (1989) 439

Separation of alkylacyl and diacyl glycerophospholipids and their molecular species as naphthylurethanes by HPLC 493 (1989) 353

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

### Dialkyldithiophosphates

HPLC and GC of dialkylphosphates, dialkylthiophosphates and dialkyldithiophosphates as their pentafluorobenzyl derivatives 462 (1989) 233

### Dialkylphosphates

HPLC and GC of dialkylphosphates, dialkylthiophosphates and dialkyldithiophosphates as their pentafluorobenzyl derivatives 462 (1989) 233

### Dialkylthiophosphates

HPLC and GC of dialkylphosphates, dialkylthiophosphates and dialkyldithiophosphates as their pentafluorobenzyl derivatives 462 (1989) 233

### Dialysates

Automated sequential trace enrichment of dialysates and robotics. A technique for the preparation of biological samples prior to HPLC 456 (1988) 53

### Dialysis

Sample preparation for biomedical analysis (Review) 492 (1989) 3

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

On-line combination of dialysis and column-switching LC as a fully automated sample preparation technique for biological samples. Determination of nitrofurans residues in edible products 500 (1990) 453

#### **Diamidine compounds**

HPLC method for the quantification of several diamidine compounds with potential chemotherapeutic value 494 (1989) 191

#### **Diamine chelate ligands**

Dependence of  $R_F$  values of cobalt(III) complexes on the size of diamine chelate ligands on silica gel thin layers 454 (1988) 362

#### **Diamine cobalt(III) complexes**

Effect of the chelate ring size of diamine cobalt(III) complexes on their  $R_F$  values obtained by PC 481 (1989) 471

#### **Diamine oxidase**

Improved HPLC determination of diamine oxidase activity 491 (1989) 209

#### **2,4-Diamino-N<sup>10</sup>-methylpteroic acid**

Rapid quantitation of methotrexate and its metabolites in human serum, urine and bile, using solid-phase extraction and HPLC 487 (1989) 476

#### **Diamino acids, $\omega$ -N-oxalyl derivatives**

Resolution of neuroexcitatory non-protein amino acid enantiomers by HPLC utilising pre-column derivatisation with *o*-phthalaldehyde chiral thiols. Application to  $\omega$ -N-oxalyl diamino acids 466 (1989) 407

#### **Diaminobenzenes**

Host-guest complexation in capillary isotachopheresis. II. Determination of aminophenol and diaminobenzene isomers in permanent hair colorants by using capillary isotachopheresis 470 (1989) 123

#### **1,2-Diaminocyclohexane**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

#### **4,4'-Diaminodiphenylmethane**

Determination of aromatic amines in urine and serum 488 (1989) 470

#### **Diaminopimelic acid**

Two-dimensional GC with electron-capture detection used in the determination of specific peptidoglycan and lipopolysaccharide constituents of Gram-negative bacteria in infected human urine 490 (1989) 71

Cellulose clean-up and HPLC of DL-diaminopimelic acid in hydrolysates of physiological samples 496 (1989) 430

#### **3,4-Diaminopyridine**

Analysis of 3,4-diaminopyridine in human serum by solid-phase extraction and HPLC with UV detection 496 (1989) 214

#### **Diazapolyoxyethylene ethers**

Measurement of the polarity of alkyl derivatives of diazapolyoxyethylene ethers by GC 454 (1988) 51

#### **Diazepam**

Traditional oriental medicines. I. Black Pearl: identification and chromatographic determination of some undeclared medicinal ingredients 469 (1989) 406

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

#### **Diazin**

Identification of organophosphorus insecticides and their hydrolysis products by liquid chromatography in combination with UV and thermospray-MS detection 455 (1988) 163

#### **Diazomethane**

Methylation of  $\omega$ -oxocarboxylic acids with diazomethane: effect of solvent on by-product formation 467 (1989) 279

#### **Diazotized dapsone**

Diazotized dapsone as a reagent for the detection of cannabinoids on TLC plates 457 (1988) 383

#### **Dibenzo-18-crown-6**

Use of GC for a study of crown ethers 471 (1989) 139

#### **Dibenzofuran**

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

**Dibenzylamine**

Determination of low concentrations of dibenzylamine in human plasma and urine by GC with a nitrogen-phosphorus detector 490 (1989) 206

**1,6-Di-*tert.*-butyl-*para*-cresol**

Quantitative analysis by HPLC of 2,6-di-*tert.*-butyl-*para*-cresol in transformer oils (in French) 464 (1989) 448

**Dibutyl phthalate**

Non-aqueous SEC coupled on-line to reversed-phase HPLC. Interface development and applications to the analysis of low-molecular-weight contaminants and additives in foods 477 (1989) 315

**Dicamba**

Analysis of dicamba in tobacco by on-line coupled LC-GC 473 (1989) 353

**Dicarboxylic acids**

Quantitative determination of dicarboxylic acids and polyols in silicone-polyester resins 452 (1988) 37

Use of a simultaneous conductivity and amperometric detector with a manganin electrode in the microcolumn LC of dicarboxylic acids 456 (1988) 370

Capillary GC-MS of very-long-chain  $\alpha,\omega$ -dicarboxylic acid dimethyl esters from *Equisetum* (horsetail) 465 (1989) 390

**Dichlorochrysanthemic acid**

Study of alkaline hydrolysis of the insecticide alphasmethrine by isotachophoretic determination of decomposition products 470 (1989) 235

**Dichloromethane**

Direct headspace GC determination of dichloromethane in decaffeinated green and roasted coffee 465 (1989) 429

**3,6-Dichloro-2-methoxybenzoic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

**2,4-Dichlorophenoxyacetic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

**DL-1-(2,4-Dichlorophenoxy)-3-[2-(3,4-dimethoxy)phenethylamino]propan-2-ol**

Determination of the  $\beta$ -adrenoceptor blocking drug B24/76 in serum by HPLC with fluorimetric detection after pre-column dansylation 488 (1989) 482

**1,3-Dichloropropene**

Determination of two mercapturic acid metabolites of 1,3-dichloropropene in human urine with GC and sulphur-selective detection 496 (1989) 463

**Diclofenac**

Determination of diclofenac in plasma and synovial fluid by HPLC with electrochemical detection 495 (1989) 303

**Dicloran**

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

**Dictyocarpine**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**Dictyocarpinine**

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

**Di-O-cyclohexylidene-1,2,3,4,5,6-[<sup>2</sup>H<sub>6</sub>]myo-inositol**

Preparative HPLC using detection by thermospray MS 478 (1989) 429

**Dicyclomine hydrochloride**

Stability-indicating capillary SLC assay of dicyclomine hydrochloride in some pharmaceutical formulations 475 (1989) 381

**2',3'-Dideoxycytidine**

Reversed-phase LC determination of 2',3'-dideoxycytidine in human blood samples 491 (1989) 215

**Didesethylflurazepam**

Simultaneous determination of flurazepam and its metabolites in human plasma by HPLC 494 (1989) 247

**Dieldrin**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

**Dienoestrol**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

### **Diethylaminoethylcellulose**

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

### **Diethyldithiocarbamate complexes**

Determination of Pb<sup>II</sup>, Cd<sup>II</sup> and Bi<sup>III</sup> by reversed-phase liquid chromatography of their diethyldithiocarbamate complexes with post-column ligand exchange and selective spectrophotometric detection 482 (1989) 317

Further studies of diethyldithiocarbamate complexes by HPLC 500 (1990) 313

### **Diethylenetriamine-N,N,N',N''-tetraacetic acid-N''-propionic acid**

Purification of diethylenetriamine-N,N,N',N''-tetraacetic acid-N''-propionic acid using anion-exchange displacement chromatography 455 (1988) 193

### **Di(2-ethylhexyl)sebacate**

Reversed-phase HPLC analysis of the reaction mixture occurring in the production of a synthetic diester lubricant 463 (1989) 222

### **Diethyl ketone**

Investigation of small populations of reactive silanols on silica surfaces 467 (1989) 31

### **N,N-Diethylphenylacetamide**

GC identification of urinary metabolites of insect repellent N, N-diethylphenylacetamide on inhalation exposure in rats 493 (1989) 210

### **Diethylstilboestrol**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

Metabolism of some anabolic agents: toxicological and analytical aspects 489 (1989) 11

Application of sorbent extraction chromatography to the purification of diethylstilboestrol extracted from muscle tissue and determined by radioimmunoassay 489 (1989) 199

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

Enzyme immunoassay screening procedure for the synthetic anabolic estrogens and androgens diethylstilbestrol, nortestosterone, methyltestosterone and trenbolone in bovine urine 489 (1989) 235

### **Diethyl sulphate**

Thermal desorption-capillary GC for the quantitative analysis of dimethyl sulphate, diethyl sulphate and ethylene oxide in the workplace 456 (1988) 233

### **Diethyl L-tartrate**

Development of an HPLC method for the simultaneous analysis of the species involved in diethyl L-tartrate hydrolysis 455 (1988) 355

### **Differential scanning calorimetry**

Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209

### **Diffusion**

Capillary zone electrophoresis. Quantitative study of the effects of some dispersive processes on the separation efficiency 452 (1988) 601

Chromatographic evaluation of sorption and diffusion characteristics of glucose, maltose and maltotriose in silica gels 463 (1989) 261

Contribution of longitudinal diffusion to band broadening in LC 469 (1989) 53

Analysis of factors causing peak broadening in capillary zone electrophoresis 480 (1989) 95

### **Diffusion coefficients**

Determination of diffusion coefficients of proteins in beaded agarose by gel filtration 483 (1989) 221

Diffusion coefficients in water-acetonitrile mixtures 500 (1990) 241

### **Diflunisal**

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

### **2,2-Difluorocitrate**

Separation of the enantiomers of a triester of 2,2-difluorocitrate 482 (1989) 258

### **Digitoxin**

HPLC determination of secondary cardiac glycosides in *Digitalis purpurea* leaves 479 (1989) 319

**Diglycerides**

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

**Digoxigenin**

Determination of  $\beta$ -methyl digoxin and its metabolites by HPLC and fluorescence polarization immunoassay 489 (1989) 425

**Digoxigenin bisdigitoxoside**

Determination of  $\beta$ -methyl digoxin and its metabolites by HPLC and fluorescence polarization immunoassay 489 (1989) 425

**Digoxigenin monodigitoxoside**

Determination of  $\beta$ -methyl digoxin and its metabolites by HPLC and fluorescence polarization immunoassay 489 (1989) 425

**Digoxin**

Determination of  $\beta$ -methyl digoxin and its metabolites by HPLC and fluorescence polarization immunoassay 489 (1989) 425

Development of an HPLC post-column fluorogenic assay for digoxin in serum 496 (1989) 321

**Dihydroactinidiolide**

Chiral flavour compounds from apricots. Distribution of  $\gamma$ -lactone enantiomers and stereodifferentiation of dihydroactinidiolide using multi-dimensional GC 498 (1990) 396

**Dihydrochalcones**

Flavonoid aglycones identified by GC-MS in bud exudate of *Populus balsamifera* 472 (1989) 393

**Dihydrodiols**

Improved enantiomeric separation of dihydrodiols of polycyclic aromatic hydrocarbons on chiral stationary phases by derivatization to O-methyl ethers 461 (1989) 377

**(3S)-(-)-N-(2,3-Dihydro-1-methyl-2-oxo-5-phenyl-1H-1,4-benzodiazepine-3-yl)-1H-indole-2-carboxamide**

Preparative separation of the enantiomers of the cholecystokinin antagonist (3S)-( $\pm$ )-N-(2,3-dihydro-1-( $^3\text{H}_3$ )methyl)-2-oxo-5-phenyl-1H-1,4-benzodiazepine-3-yl)-1H-indole-2-carboxamide by HPLC 462 (1989) 454

**6-[3,4-Dihydro-3-methyl-(2H)-2-oxoquinazoliny]-4,5-dihydro-3-(2H)-pyridazinone**

Determination of a new inotropic agent in human plasma by HPLC 459 (1988) 215

**Dihydropyridine calcium antagonists**

Measurement of the distribution coefficients of several classes of drug using reversed-phase TLC 452 (1988) 257

Radio HPLC determination of  $^{14}\text{C}$ -labelled LF 2-0254, a 1,4-dihydropyridine calcium antagonist, in rat and dog plasma using off-line liquid scintillation counting 456 (1988) 183

Separation of the four optical isomers of a dihydropyridine calcium channel antagonist 478 (1989) 169

**Dihydrosafrole**

Determination of dihydrosafrole in piperonyl butoxide by HPLC (in French) 462 (1989) 435

**3,5-Dihydroxybenzoic acid**

Model compound sorption by the resins XAD-2, XAD-8 and diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

**3,4-Dihydroxybenzylamine**

Reduced variation in retention times of biogenic amines by temperature control in LC with electrochemical detection 479 (1989) 216

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites. Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Capillary electrophoresis with indirect amperometric detection 499 (1990) 713

**3 $\alpha$ ,7 $\alpha$ -Dihydroxy-5 $\beta$ -cholestanoic acid**

Studies on steroids. CCXXXXV. Determination of 5 $\beta$ -cholestanoic acids in human urine by GC-MS with negative ion chemical ionization detection 493 (1989) 245

**3',4'-Dihydroxyflurbiprofen**

HPLC analysis of the enantiomers of flurbiprofen and its metabolites in plasma and urine 494 (1989) 173

**3,4-Dihydroxymandelic acid**

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

**3,4-Dihydroxyphenylacetic acid**

Improved HPLC analysis with double detection system for L-DOPA, its metabolites and carbidopa in plasma of Parkinsonian patients under L-DOPA therapy 459 (1988) 341

Full automation of catecholamine metabolite determination by column switching and HPLC 465 (1989) 113

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites.

Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

**L-3,4-Dihydroxyphenylalanine**

Improved HPLC analysis with double detection system for L-DOPA, its metabolites and carbidopa in plasma of Parkinsonian patients under L-DOPA therapy 459 (1988) 341

Determination of L-3,4-dihydroxyphenylalanine in blood by HPLC after solvent extraction 491 (1989) 291

**3,4-Dihydroxyphenylalanine**

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites.

Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

**3,4-Dihydroxyphenylethylene glycol**

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites.

Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

**2-[4-(2,3-Dihydroxypropoxy)phenyl]ethyl methyl 1,4-dihydro-2,6-dimethyl-4-(3-nitrophenyl)-3,5-pyridinedicarboxylate**

Chromatographic separation of the diastereomers of a dihydropyridine-type calcium channel antagonist as the bis-3,5-dinitrobenzoates 457 (1988) 309

**4,5-Dihydroxy-3-(*p*-sulphophenylazo)-2,7-naphthalenedisulphonic acid**

The separation process in isotachopheresis. I. A 32-channel UV-photometric zone detector 463 (1989) 39

The separation process in isotachopheresis. II. Binary mixtures and transient state models 463 (1989) 51

Separation process in isotachopheresis. III. Transient state models for a three-component system 470 (1989) 21

**Dihydroxyvitamin D<sub>3</sub>**

Identification and determination of 1 $\alpha$ ,25-dihydroxyvitamin D<sub>3</sub> in rat skin by HPLC and radioreceptor assay 493 (1989) 63

TLC as an efficient alternative to HPLC in the assay of plasma vitamin D<sub>3</sub> metabolites 496 (1989) 242

**Diisobutyl-naphthalenesulphonates**

Determination of diisobutyl- and diisopropyl-naphthalenesulphonates in pesticide wettable powders and dispersible granules by HPLC 467 (1989) 177

**Diisopropyl-naphthalenesulphonates**

Determination of diisobutyl- and diisopropyl-naphthalenesulphonates in pesticide wettable powders and dispersible granules by HPLC 467 (1989) 177

 **$\beta$ -Diketonato ligands**

Effect of the composition of coordinated  $\beta$ -diketonato ligands on  $R_F$  values of transition metal complexes obtained by TLC on silica gel 456 (1988) 346

 **$\beta$ -Diketones**

Picolinic acid: a mobile phase additive for improved chromatography of metal-chelating heterocyclic acids and  $\beta$ -diketones 471 (1989) 437

**Dilaudid**

Simultaneous extraction and chromatographic analysis of morphine, dilaudid, naltrexone and naloxone in biological fluids by HPLC with electrochemical detection 491 (1989) 240

**Diltiazem**

Determination of diltiazem in human whole blood and plasma by HPLC using a polymeric reversed-phase column and utilizing a salting-out extraction procedure 490 (1989) 365

Automated HPLC with column switching for on-line clean-up and analysis of diltiazem and metabolites in human plasma 495 (1989) 358

### Dilution

Sample preparation for biomedical analysis (Review) 492 (1989) 3

### 3,5-Dimethoxy-4-hydroxybenzoic acid

Model compound sorption by the resins XAD-2, XAD-8 and diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

### N,N-Dimethylacetamide

LC determination of low-molecular-weight amides in pharmaceutical matrices 458 (1988) 287

### N,N-Dimethylalkylamine N-oxides

Pyrolysis GLC of N,N-dimethylalkylamine N-oxides and their mixtures 466 (1989) 347

### Dimethylaminoazobenzene isothiocyanate

Some new by-products in primary structure analysis with dimethylaminoazobenzene isothiocyanate as an aid in the TLC identification of residues 472 (1989) 318

### 4-Dimethylaminocinnamaldehyde

Chemical reaction detection of catechins and proanthocyanidins with 4-dimethylaminocinnamaldehyde 467 (1989) 185

### 2-(Dimethylamino)ethanol

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

### 4-Dimethylaminopyridine

Ultrasound driven synthesis of reversed-phase stationary phases for LC using 4-dimethylaminopyridine as acid-acceptor 455 (1988) 95

### N,N-Dimethylformamide

LC determination of low-molecular-weight amides in pharmaceutical matrices 458 (1988) 287

### Dimethylformamide dimethyl acetal

Derivatization of N-methyl and cyclic amino acids with dimethylformamide dimethyl acetal 469 (1989) 191

### 1,1-Dimethylhydrazine

Derivatization with 1,1-dimethylhydrazine for identification of carbonyl compounds resulting from ozonolysis 472 (1989) 284

### 6-(2,4-Dimethyl-1H-imidazol-1-yl)-8-methyl-2(1H)-quinolinone

Analysis of a novel cardiac stimulant, UK-61 260, in human plasma by GC-MS with selected-ion monitoring 491 (1989) 439

### Dimethylphenanthrenes

Reversed-phase LC retention behaviour of dimethylphenanthrene isomers 473 (1989) 207

### 2,6-Dimethylphenol

HPLC of oxidation products of 2,6-dimethylphenol 461 (1989) 361

### 2,6-Di-tert.-4-methylphenol

Non-aqueous SEC coupled on-line to reversed-phase HPLC. Interface development and applications to the analysis of low-molecular-weight contaminants and additives in foods 477 (1989) 315

### 1,4-Dimethylpiperazine

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

### Dimethylpolysiloxane

Interface adsorption and reproducibility of retention indices in glass capillary columns with dimethylpolysiloxane stationary phases cross-linked by  $\gamma$ -irradiation 471 (1989) 251

### Dimethyl sulphate

Thermal desorption-capillary GC for the quantitative analysis of dimethyl sulphate, diethyl sulphate and ethylene oxide in the workplace 456 (1988) 233

Determination of residual dimethyl sulphate in a lipophilic bulk drug by wide-bore capillary GC 463 (1989) 216

### Dimethyl sulphoxide

HPLC method for the direct quantitation of oxy radicals in myocardium and blood by means of 1,3-dimethylthiourea and dimethylsulfoxide 459 (1988) 269

Isotachopheresis in mixed solvents consisting of water, methanol and dimethyl sulphoxide. III. Influence of the solvent composition on the dissociation constants and mobilities of non- and hydroxy-substituted aliphatic carboxylic acids 470 (1989) 57

**Dimethylthiophosphinic chloride**

Analysis of steroids by capillary SFC with phosphorus-selective detection 461 (1989) 111

**Dimethylthiourea**

HPLC method for the direct quantitation of oxy radicals in myocardium and blood by means of 1,3-dimethylthiourea and dimethylsulfoxide 459 (1988) 269

**1,3-Dimethyluric acid**

Capillary GC-MS determination of stable isotopically labelled and unlabelled theophylline in serum and urine and of 1,3-dimethyluric acid in urine 494 (1989) 101

**3,5-Dinitrobenzoic acid**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

**3,5-Dinitrobenzoyl amide**

$\pi$ -Acceptor amide group for LC chiral separations with special emphasis on the 3,5-dinitrobenzoyl amide 469 (1989) 101

**N-(3,5-Dinitrobenzoyl)leucine *n*-propylamide**

Computational chemical studies of chiral stationary phase models. Complexes of methyl N-(2-naphthyl)alaninate with N-(3,5-dinitrobenzoyl)leucine *n*-propylamide 461 (1989) 129

**(*R*)-N-(3,5-Dinitrobenzoyl)phenylglycine**

(*R*)-N-(3,5-Dinitrobenzoyl)-1-naphthylglycine as a chiral stationary phase for the separation of enantiomers by HPLC 462 (1989) 382

**Dinitrocresols**

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

Determination of 2,6- and 4,6-dinitrocresols by HPLC on a  $\beta$ -cyclodextrin bonded column 466 (1989) 442

**2,4-Dinitrophenol**

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

**2,4-Dinitrophenylhydrazine**

Effect of pH on the reaction of 2,4-dinitrophenylhydrazine with formaldehyde and acetaldehyde 455 (1988) 310

Improved HPLC method for artifact-free measurements of aldehydes in the presence of ozone using 2,4-dinitrophenylhydrazine 483 (1989) 431

**5-(2,4-Dinitrophenyl)valeric acid**

Purification of nitrophenylvaleric acid reaction mixtures by counter-current chromatography 484 (1989) 391

**2,3-Dinor-6-ketoprostaglandin F<sub>1 $\alpha$</sub>** 

Quantitative profiling of 6-ketoprostaglandin F<sub>1 $\alpha$</sub> , 2,3-dinor-6-ketoprostaglandin F<sub>1 $\alpha$</sub> , thromboxane B<sub>2</sub> and 2,3-dinor-thromboxane B<sub>2</sub> in human and rat urine by immunoaffinity extraction with GC-MS 495 (1989) 1

**2,3-Dinor-thromboxane B<sub>2</sub>**

Quantitative profiling of 6-ketoprostaglandin F<sub>1 $\alpha$</sub> , 2,3-dinor-6-ketoprostaglandin F<sub>1 $\alpha$</sub> , thromboxane B<sub>2</sub> and 2,3-dinor-thromboxane B<sub>2</sub> in human and rat urine by immunoaffinity extraction with GC-MS 495 (1989) 1

Analysis of the major urinary thromboxane metabolites, 2,3-dinor-thromboxane B<sub>2</sub> and 11-dehydrothromboxane B<sub>2</sub>, by GC-MS and GC-tandem MS 497 (1990) 1

**Dinoseb**

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

**N,N-Dioctyl-L-alanine-coated octadecylsilica**

General evaluation and application to trace analysis of a chiral column for ligand-exchange chromatography 461 (1989) 397

**Diode-array detectors**

Strategies for automated optimisation of HPLC separations incorporating diode-array detection 458 (1988) 335

Analysis of heparins by size-exclusion and reversed-phase HPLC with photodiode-array detection 465 (1989) 297

Profiling of *Alternaria* mycotoxins in foodstuffs by HPLC with diode-array UV detection 465 (1989) 305

Micro-LC with diode array detection 477 (1989) 87

**Diol compounds**

On-line sample processing and analysis of diol compounds in biological fluids 456 (1988) 93

**Dioleins**

Simultaneous HPLC analysis of oleic acid and simple glycerides of oleic acid 465 (1989) 438

**Diol-Gly-Phe-Phe-bonded phase**

HPLC separation of peptides on a diol-Gly-Phe-Phe tripeptide-bonded phase 458 (1988) 129

**Diols**

Electrosorptive detection of simple organic compounds in LC 456 (1988) 287

Thermodynamic properties of enantiomers of underivatized diols *versus* the cyclic carbonates in GC on Chirasil-Val 481 (1989) 17

**Diol-silica column**

Relative retention and column selectivity for the common polar bonded-phase columns. The diol-silica column in normal-phase HPLC 498 (1990) 55

**Dionex System 12 ion chromatograph**

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

**Dioxanyl hydroperoxide**

Dioxanyl hydroperoxide in preparative LC 461 (1989) 35

**Dioxins**

Formation of polychlorinated dibenzo-*p*-dioxin from 2,4,4'-trichloro-2'-hydroxydiphenyl ether (Irgasan® DP300) and its chlorinated derivatives by exposure to sunlight 454 (1988) 145

GLC analyses. XLIX. Polychlorinated dibenzo-*p*-dioxins and dibenzofurans on low-polarity NB-54 and NB-1701 capillary columns 473 (1989) 153

GLC analyses. L. Retention, dispersion and selectivity indices of polychlorinated dibenzo-*p*-dioxins and dibenzofurans 477 (1989) 327

Multiresidue procedures for the determination of chlorinated dibenzodioxins and dibenzofurans in a variety of foods using capillary GC-electron-capture detection 478 (1989) 349

**2-(2,6-Dioxopiperidine-3-yl)phthalimidine**

Determination of the thalidomide analogues 2-(2,6-dioxopiperidine-3-yl)phthalimidine (EM 12), 2-(2,6-dioxopiperidine-4-yl)phthalimidine (EM 16) and their metabolites in biological samples 488 (1989) 417

**2-(2,6-Dioxopiperidine-4-yl)phthalimidine**

Determination of the thalidomide analogues 2-(2,6-dioxopiperidine-3-yl)phthalimidine (EM 12), 2-(2,6-dioxopiperidine-4-yl)phthalimidine (EM 16) and their metabolites in biological samples 488 (1989) 417

**Dipeptides**

Separation of diastereomers of protected dipeptides by normal-phase HPLC 472 (1989) 336

Stereochemical recognition of enantiomeric and diastereomeric dipeptides by HPLC on a chiral stationary phase based upon immobilized  $\alpha$ -chymotrypsin 476 (1989) 165

Multi-dimensional interpolation by the moving least-squares approach for modelling of chromatographic retention data 485 (1989) 453

**Diphacinone**

HPLC separation of indandione rodenticides 481 (1989) 458

**Diphenadione**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

**2-Diphenylacetyl-1,3-indandione-1-hydrazone**

Limitations of 2-diphenylacetyl-1,3-indandione-1-hydrazone as a precolumn fluorescence derivatization reagent 464 (1989) 186

**Dipolarity**

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

**N,N-Di-*n*-propyl-L-alanine**

Determination of the enantiomers of  $\alpha$ -amino acids and  $\alpha$ -amino acid amides by HPLC with a chiral mobile phase 461 (1989) 419

**4-[2-(Dipropylamino)ethyl]-1,3-dihydro-2H-indol-2-one**

Application of thermospray LC-MS and LC-tandem MS for the identification of cynomolgus monkey and human metabolites of SK & F 101468, a dopamine D<sub>2</sub> receptor agonist 474 (1989) 123

**Dipyron**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**Diquat**

High-sensitivity HPLC analysis of diquat and paraquat with confirmation 479 (1989) 153

GC determination of diquat and paraquat in crops 479 (1989) 243

Rapid quantification of paraquat and diquat in serum and urine using HPLC with automated sample pretreatment 481 (1989) 434

**Diradylglycerols**

Relative GLC retention factors of trimethylsilyl ethers of diradylglycerols on polar capillary columns 471 (1989) 187

**Direct liquid introduction**

Device to transform the LC effluent to a continuous solid plug: a new approach to direct liquid introduction for LC-MS 456 (1988) 363

Comparison of open-tubular LC-MS and direct liquid introduction LC-MS for the analysis of metribuzin and its metabolites in plant tissue and water samples 474 (1989) 301

**Disaccharides**

Sensitive detection of unsaturated disaccharides from chondroitin sulphates by TLC as their dansylhydrazine derivatives 462 (1989) 471

HPLC identification of disaccharides generated from heparan sulphate isomers using heparitinases 496 (1989) 27

**Discharge ionization**

Repeller effects in discharge ionization in combined LC or SFC-MS using a thermospray interface. I. Changes in the reagent gas spectrum 474 (1989) 113

**Discovery process, chromatography**

Chromatography and the discovery process 468 (1989) 35

**Disialogangliosides**

HPLC separation of gangliosides, combined with immunological detection and fast atom bombardment MS characterization 490 (1989) 263

**Disopyramide**

Comparison between two methods for the determination of the total and free (*R*)- and (*S*)-disopyramide in plasma using an  $\alpha_1$ -acid glycoprotein column 494 (1989) 143

**Dispersion**

Capillary zone electrophoresis. Quantitative study of the effects of some dispersive processes on the separation efficiency 452 (1988) 601

Chromatographic dispersion corrections utilizing the generalized exponential function 462 (1989) 3

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

Dispersion effects in capillary zone electrophoresis 480 (1989) 35

**Dispersion indices**

Dispersion and selectivity indices of alkyl and alkenyl benzenes 452 (1988) 31

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

GLC analyses. L. Retention, dispersion and selectivity indices of polychlorinated dibenzo-*p*-dioxins and dibenzofurans 477 (1989) 327

**Displacement chromatography**

Theoretical optimization of operating parameters in non-ideal displacement chromatography 454 (1988) 1

Preparative LC with analytical separation quality. Interval injection/displacement reversed-phase HPLC 464 (1989) 103

Theory of isotope separation by displacement chromatography 483 (1989) 179

Rapid method for determining multicomponent Langmuir parameters for displacement chromatography 484 (1989) 167

Displacement chromatography of biomolecules with large particle diameter systems 484 (1989) 225

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

Displacement chromatography on cyclodextrin-silicas. II. Separation of *cis-trans* isomers in the reversed-phase mode on  $\alpha$ -cyclodextrin-silica 484 (1989) 251

Applications of preparative HPLC to the separation and purification of peptides and proteins (Review) 492 (1989) 431

Scaling-up procedure from the range of milligrams to grams for the purification of amino acid derivatives in displacement chromatography 499 (1990) 37

Purification of monoclonal antibodies by complex-displacement chromatography on CM-cellulose 499 (1990) 47

### Displacement effect

Experimental utilization of a displacement effect for the optimization of the separation of a two-component mixture 484 (1989) 153

### Displacer salts

HPLC of amino acids, peptides and proteins. LXXXIX. The influence of different displacer salts on the retention properties of proteins separated by gradient anion-exchange chromatography 476 (1989) 391

### Dissociation constants

Isotachopheresis in mixed solvents consisting of water, methanol and dimethyl sulphoxide. III. Influence of the solvent composition on the dissociation constants and mobilities of non- and hydroxy-substituted aliphatic carboxylic acids 470 (1989) 57

### Distribution coefficients

Measurement of the distribution coefficients of several classes of drug using reversed-phase TLC 452 (1988) 257

### Disulphides

Simultaneous determination of thiols and corresponding disulphides in mixtures by HPLC with polarographic detection using a Dual-Tast Analyser 455 (1988) 336

Separation and detection of bis(alkylthio)selenides of penicillamine and glutathione by LC with electrochemical detection 465 (1989) 359

### Diterpenoid alkaloids

Capillary GC of *Delphinium* diterpenoid alkaloids 466 (1989) 427

### 1,4-Dithiane

Analysis, characterization, and purification: requirements for toxicological evaluation of 1,4-dithiane 467 (1989) 159

### Dithia[3.3]phanes

Some data on the TLC and HPLC separation of some dithia[3.3]phanes 472 (1989) 314

### Dithiocarbamates

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

### Dithiols

GLC-MS of mono- and dithiols as their *tert.*-butyldimethylsilyl derivatives 483 (1989) 21

### Dithranol

Normal-phase and reversed-phase LC techniques for the determination of dithranol and its degradation products 467 (1989) 414

### Diuretics

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

### 2,4-D methyl ester

Rapid determination of seven herbicides in water or isooctane using C<sub>18</sub> and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

### DNA

Separation of RNA and DNA by histone affinity HPLC 455 (1988) 401

HPLC analysis of DNA composition and DNA modification by chloroacetaldehyde 458 (1988) 117

Separation and detection of DNA by capillary electrophoresis 458 (1988) 303

Trace detection of modified DNA bases via moving-belt LC-MS using electrophoretic derivatization and negative chemical ionization 465 (1989) 285

SEC of DNA restriction fragments. Fragment length determinations and a comparison with the behaviour of proteins in SEC 467 (1989) 217

High-performance hydroxyapatite chromatography of nucleic acids 467 (1989) 299

Separation of large DNA molecules by pulsed-field gel electrophoresis. A review of the basic phenomenology 470 (1989) 377

Measurement of deoxyguanosine/thymidine ratios in complex mixtures by HPLC for determination of the mole percentage guanine + cytosine of DNA 479 (1989) 297

Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

Hydrophilic-interaction chromatography for the separation of peptides, nucleic acids and other polar compounds 499 (1990) 177

### DNA adducts

LC-thermospray MS of DNA adducts formed with mitomycin C, porfiromycin and thiotepa 474 (1989) 197

Ester and related derivatives of ring N-pentafluorobenzylated 5-hydroxymethyluracil. Hydrolytic stability, MS properties, and trace detection by GC-electron-capture detection, GC-electron-capture negative ion MS, and moving-belt LC-electron-capture negative ion MS 476 (1989) 423

Preparation of electrophoric derivatives of N7-(2-hydroxyethyl)guanine, an ethylene oxide DNA adduct 499 (1990) 571

### DNA restriction fragments

Rapid separation of DNA restriction fragments using capillary electrophoresis 458 (1988) 323

Separation of DNA restriction fragments by high-performance ion-exchange chromatography on a non-porous ion exchanger 478 (1989) 264

### (*R*)-DNBPG

(*S*)-*thio*-DNBTyr-A and (*S*)-*thio*-DNBTyr-E as chiral stationary phases for analytical and preparative purposes. Application to the enantiomeric resolution of alkyl N-arylsulphinamoyl esters 498 (1990) 67

### (*S*)-*thio*-DNBTyr-A

(*S*)-*thio*-DNBTyr-A and (*S*)-*thio*-DNBTyr-E as chiral stationary phases for analytical and preparative purposes. Application to the enantiomeric resolution of alkyl N-arylsulphinamoyl esters 498 (1990) 67

### (*S*)-*thio*-DNBTyr-E

(*S*)-*thio*-DNBTyr-A and (*S*)-*thio*-DNBTyr-E as chiral stationary phases for analytical and preparative purposes. Application to the enantiomeric resolution of alkyl N-arylsulphinamoyl esters 498 (1990) 67

### Docosahexaenoic acid

Analytical-scale HPLC of omega-3 fatty acid esters derived from fish oils 468 (1989) 225

### N-Dodecanoyl-L-amino acidates

Enantioselective hydrophobic entanglement of enantiomeric solutes with chiral functionalized micelles by electrokinetic chromatography 480 (1989) 413

### Doehlert matrix design

Uniform shell designs for optimization in reversed-phase LC 485 (1989) 311

### Dolichoesterone

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

### Domoic acid

LC determination of domoic acid in shellfish products using the paralytic shellfish poison extraction procedure of the association of official analytical chemists 462 (1989) 349

Confirmation of domoic acid in molluscan shellfish by chemical derivatization and reversed-phase LC 462 (1989) 419

### Dopamine

Improved solid-phase extraction and LC with electrochemical detection of urinary catecholamines and 5-S-L-cysteinyl-L-DOPA 452 (1988) 409

Simultaneous quantitation of catecholamines and O-methylated metabolites in urine by isocratic ion-pairing HPLC with amperometric detection 459 (1988) 251

Simultaneous HPLC determination of catecholamine-related compounds by post-column derivatization involving coulometric oxidation followed by fluorescence reaction 467 (1989) 237

Resolution of a coeluting chromatographic pair using Kalman filtering 469 (1989) 77

Reduced variation in retention times of biogenic amines by temperature control in LC with electrochemical detection 479 (1989) 216

Determination of catecholamines in human plasma by HPLC: comparison between a new method with fluorescence detection and an established method with electrochemical detection 487 (1989) 17

Microassay for N-acetyltransferase activity using HPLC with electrochemical detection 487 (1989) 287

Analysis of biogenic amines in the brain of the american cockroach (*Periplaneta americana*) by GC-negative ion chemical ionisation MS 490 (1989) 9

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites. Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

Routine measurement of plasma catecholamines in clinical pharmacology by HPLC with electrochemical detection 493 (1989) 287

Catecholamine measurements in urine by HPLC with amperometric detection-comparison with an autoanalyser fluorescence method 494 (1989) 53

Simultaneous measurement of acetylcholine and dopamine releases in rat striatum under freely moving conditions with a brain dialysis method 494 (1989) 297

Measurement of urinary free catecholamines using HPLC with electrochemical detection 494 (1989) 303

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

### **Doping agents**

see also Anabolizing agents

Positive confirmation of identity of doping agents using GC-MS with Fourier transform IR spectrometry 489 (1989) 51

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

TLC screening procedure for some drugs in horse plasma 496 (1989) 407

### **Dot immunobinding**

Dot immunobinding assay of HPLC fractions on poly(vinylidene difluoride) membranes 472 (1989) 445

### **Double-detector system**

Use of a double-detector system for the measurement of mobilities in zone electrophoresis 452 (1988) 591

### **Doxycycline**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

### **2,4-DP**

Chromatographic approaches to the quality control of chiral proprionate anti-inflammatory drugs and herbicides 469 (1989) 183

### **Drinking water**

High boiling organic traces in drinking water. Quantitative analysis by liquid-liquid enrichment within the analytical glass capillary 477 (1989) 49

### **Droplet counter-current chromatography**

Physical-chemical parameters of some chloroform-containing solvent systems in droplet counter-current chromatography (in German) 498 (1990) 303

### **Drug-protein binding**

Determination of drug protein-binding by HPLC using a chemically bonded bovine albumin stationary phase 496 (1989) 291

### **Drugs**

Screening and confirmation of drugs in horse urine by using a simple column extraction procedure 473 (1989) 215

### **Drugs, in solutions for intravenous injection**

Concept of response factor in capillary isotachopheresis. Determination of drugs in solution for intravenous injection 470 (1989) 105

### **Drugs, LC-MS**

Biochemical applications of LC-MS 492 (1989) 189

### **Drugs, solvent residues**

Analysis of solvent residues in pharmaceutical bulk drugs by wall-coated open tubular GC 469 (1989) 161

### **Drugs screening**

TLC screening procedure for some drugs in horse plasma 496 (1989) 407

### **DryLab**

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

Development of HPLC method for fluroxypyr herbicide and metabolites using computer simulation with DryLab G software 485 (1989) 581

Practical approach for HPLC method development: assaying synthetic intermediates of a leukotriene inhibitor 485 (1989) 597

Computer-assisted development of an HPLC method for fractionating selected nitro derivatives of polyaromatic hydrocarbons 485 (1989) 607

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

### Dual-Tast Analyser

Simultaneous determination of thiols and corresponding disulphides in mixtures by HPLC with polarographic detection using a Dual-Tast Analyser 455 (1988) 336

### Dulcoside A

Simultaneous determination of stevioside, rebaudioside A and C and dulcoside A in foods by HPLC 474 (1989) 447

### 4,8,13-Duvatriene-1,3-diol

Quantitative TLC of *Nicotiana tabacum* leaf surface components 463 (1989) 429

### 4,8,13-Duvatriene-1-ol

Quantitative TLC of *Nicotiana tabacum* leaf surface components 463 (1989) 429

### Dye ligand chromatography

Dye ligand chromatography and two-dimensional electrophoresis of complex protein extracts from mouse tissue 482 (1989) 125

### Dyes

Determination of Methyl Yellow, Sudan I and Sudan II in water by HPLC 465 (1989) 434

Affinity chromatography of bovine heart lactate dehydrogenase using dye ligands linked directly or spacer-mediated to bead cellulose 466 (1989) 319

Isolation, characterization and determination of trace organic impurities in FD&C Red No. 40 467 (1989) 167

Particle beam LC–electron impact MS of dyes 482 (1989) 75

Interaction of lactate dehydrogenase with structurally related triazine dyes using affinity partitioning and affinity chromatography 483 (1989) 289

### Dynamic solvent effect

Comparison between the conditions for solute focussing by the static and dynamic solvent effects under ideal conditions 471 (1989) 81

### Dynorphins

On-line capillary zone electrophoresis–ion spray tandem MS for the determination of dynorphins 458 (1988) 313

## E

### ECAT

Expert system program for assistance in HPLC method development 485 (1989) 267

### Ecgonine

TLC of benzoylecgonine: a rapid qualitative method for confirming the EMIT Urine Cocaine Metabolite Assays 490 (1989) 236

### Ecgonine methyl ester

TLC of benzoylecgonine: a rapid qualitative method for confirming the EMIT Urine Cocaine Metabolite Assays 490 (1989) 236

### Effective mobility

General mathematical model for the steady state in isotachopheresis. Calculation of the effective mobility of terminating H<sup>+</sup> ions and two-buffer electrolyte systems 480 (1989) 69

### Effluent history

Calculation of column performance in nitrate removal from water supplies by anion exchange 499 (1990) 677

**Eicosanoids**

Specific radioactivity determination of labeled eicosanoids 489 (1989) 359

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

15-Hydroxyeicosatetraenoic acid as a major eicosanoid in nasal secretions: assay by HPLC–radioimmunoassay and GC–MS procedures 496 (1989) 416

**Eicosapentaenoic acid**

Analytical-scale HPLC of omega-3 fatty acid esters derived from fish oils 468 (1989) 225

**Elastase**

Determination of elastase activity by reversed-phase HPLC 461 (1989) 267

**Elastin peptides**

Reversed-phase LC of elastin peptides 487 (1989) 41

**Electrical field flow fractionation**

Focusing counterparts of electrical field flow fractionation and capillary zone electrophoresis. Electrical hyperlayer field flow fractionation and capillary isoelectric focusing 461 (1989) 95

Harnessing electrical forces for separation. Capillary zone electrophoresis, isoelectric focusing, field-flow fractionation, split-flow thin-cell continuous-separation and other techniques 480 (1989) 21

**Electrical hyperlayer field flow fractionation**

Focusing counterparts of electrical field flow fractionation and capillary zone electrophoresis. Electrical hyperlayer field flow fractionation and capillary isoelectric focusing 461 (1989) 95

**Electroblotting**

Peptide mapping and internal sequencing of proteins electroblotted from two-dimensional gels onto polyvinylidene difluoride membranes. A chromatographic procedure for separating proteins from detergents 476 (1989) 345

**Electrochemical detector**

Determination of phenols by LC using reductive electrochemical detection via precolumn derivatization 455 (1988) 241

Application of amperometric detection to the HPLC determination of antipyrine and 4-aminoantipyrine in urine 455 (1988) 420

Use of a simultaneous conductivity and amperometric detector with a manganin electrode in the microcolumn LC of dicarboxylic acids 456 (1988) 370

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

Carbon–polymer chips as sensitive electrochemical detectors for micro-LC 459 (1988) 163

Polarographic detection of non-ionic surfactants analyzed by reversed-phase partition chromatography 465 (1989) 69

LC on packed fused-silica capillary columns with electrochemical detection 467 (1989) 41

Electrochemical detection of mercapturic acid derivatives after separation by HPLC 475 (1989) 391

Identification of 9-hydroxylamine-1,2,3,4-tetrahydroacridine as a hepatic microsomal metabolite of tacrine by HPLC and electrochemistry 487 (1989) 401

Capillary electrophoresis with indirect amperometric detection 499 (1990) 713

**Electrochemistry, biomedical applications**

Biomedical applications of LC–electrochemistry 488 (1989) 31

**Electrochemistry–tandem mass spectrometry**

Characterization of solution-phase and gas-phase reactions in on-line electrochemistry–thermospray tandem MS 474 (1989) 231

Utility of solution electrochemistry MS for investigating the formation and detection of biologically important conjugates of acetaminophen 474 (1989) 245

**Electrochromatography**

Methods for on-line determination and control of electroendosmosis in capillary electrochromatography and electrophoresis 470 (1989) 89

**Electroendosmosis**

Methods for on-line determination and control of electroendosmosis in capillary electrochromatography and electrophoresis 470 (1989) 89

**Electroimmunoprecipitation**

Has immunoblotting replaced electroimmunoprecipitation? Examples from the analysis of autoantigens and transglutaminase-induced polymers of the human erythrocyte membrane 470 (1989) 351

**Electrokinetic chromatography**

see micellar electrokinetic chromatography

**Electrokinetic injection**

Zone broadening due to sample injection in capillary zone electrophoresis 471 (1989) 421

**Electrolyser, multi-compartment**

Preparative protein purification in a multi-compartment electrolyser with Immobiline membranes 475 (1989) 293

Preparative purification of human monoclonal antibody isoforms in a multi-compartment electrolyser with Immobiline membranes 500 (1990) 681

**Electrolytes**

Isotachopheretic analysis of peptides. Selection of electrolyte systems and determination of purity 470 (1989) 209

**Electrolytes, copper-containing**

Utility of copper-containing electrolytes for isotachopheresis of amino acids 470 (1989) 131

**Electrolytic conductivity detector**

Factorial optimization for flows in the Hall electrolytic conductivity detector 473 (1989) 27

**Electron-capture detector**

Photometric and electron-capture modes in a dual-channel sensor 457 (1988) 149

Electron-capture detector with an ion signal 465 (1989) 215

Hypercoulometry of the second kind in electron-capture detection 500 (1990) 95

**Electron-capture detector, non-radioactive**

Non-radioactive electron-capture detector for GC 468 (1989) 215

**Electron spin resonance spectroscopy**

Electron spin resonance studies under dynamic mobile phase conditions on chemically modified silica 458 (1988) 255

Separation of polyunsaturated fatty acid radicals by HPLC with electron spin resonance and UV detection 487 (1989) 9

**Electroosmosis**

Modified methods for off- and on-line determination of electroosmosis in capillary electrophoretic separations 470 (1989) 95

**Electroosmotic flow**

Capillary zone electrophoresis. Quantitative study of the effects of some dispersive processes on the separation efficiency 452 (1988) 601

**Electrophoresis**

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

Use of a double-detector system for the measurement of mobilities in zone electrophoresis 452 (1988) 591

Capillary zone electrophoresis. Quantitative study of the effects of some dispersive processes on the separation efficiency 452 (1988) 601

Simple sampling device for capillary isotachopheresis and capillary zone electrophoresis 452 (1988) 615

Purification of lentil lectins using preparative electrophoresis 455 (1988) 225

Post-column detection for capillary zone electrophoresis 456 (1988) 375

Electromigration of carrier-free radionuclides. IX. Protolysis of [<sup>131</sup>I]iodate in aqueous solutions 457 (1988) 362

Separation and detection of DNA by capillary electrophoresis 458 (1988) 303

On-line capillary zone electrophoresis-ion spray tandem MS for the determination of dynorphins 458 (1988) 313

Rapid separation of DNA restriction fragments using capillary electrophoresis 458 (1988) 323

Adjustable aperture-width detector cell for on-column detection in capillary zone electrophoresis 462 (1989) 147

Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315

Nature of temperature gradients in capillary zone electrophoresis 466 (1989) 219

Separation of precolumn *ortho*-phthalaldehyde-derivatized amino acids by capillary zone electrophoresis with normal and micellar solutions in the presence of organic modifiers 468 (1989) 55

- Influence of the cellulose content of cellulose gels on the electrophoretic mobility 469 (1989) 378
- Use of free-flow electrophoresis for the purification of components separated by ion-pair chromatography 469 (1989) 444
- Generation of operational electrolytes for isotachopheresis and capillary zone electrophoresis in a three-pole column 470 (1989) 43
- Methods for on-line determination and control of electroendosmosis in capillary electrochromatography and electrophoresis 470 (1989) 89
- Modified methods for off- and on-line determination of electroosmosis in capillary electrophoretic separations 470 (1989) 95
- Capillary zone electrophoresis of histidine-containing compounds 470 (1989) 241
- High-voltage capillary zone electrophoresis of red blood cells 470 (1989) 251
- Dynamic programming of pH—a new option in analytical capillary electrophoresis 470 (1989) 309
- Separation of large DNA molecules by pulsed-field gel electrophoresis. A review of the basic phenomenology 470 (1989) 377
- Detection of trypsin- and chymotrypsin-like proteases using *p*-nitroanilide substrates after sodium dodecyl sulphate polyacrylamide gel electrophoresis 470 (1989) 401
- Zone broadening due to sample injection in capillary zone electrophoresis 471 (1989) 421
- Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429
- Capillary electrophoresis—electrospray ionization-MS 474 (1989) 21
- Separation of optical isomers by capillary zone electrophoresis based on host—guest complexation with cyclodextrins 474 (1989) 441
- Minimizing adsorption of proteins on fused silica in capillary zone electrophoresis by the addition of alkali metal salts to the buffers 478 (1989) 63
- Harnessing electrical forces for separation. Capillary zone electrophoresis, isoelectric focusing, field-flow fractionation, split-flow thin-cell continuous-separation and other techniques 480 (1989) 21
- Dispersion effects in capillary zone electrophoresis 480 (1989) 35
- Extra-column effects in high-performance capillary electrophoresis 480 (1989) 91
- Analysis of factors causing peak broadening in capillary zone electrophoresis 480 (1989) 95
- Use of Peltier thermoelectric devices to control column temperature in high-performance capillary electrophoresis 480 (1989) 111
- Performance of an automated injection and replenishment system for capillary electrophoresis 480 (1989) 129
- High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141
- Characterization of a post-column reaction—laser-induced fluorescence detector for capillary zone electrophoresis 480 (1989) 157
- Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169
- Photodiode array detection in high-performance capillary electrophoresis 480 (1989) 179
- Capillary zone electrophoresis and isotachopheresis—MS of polypeptides and proteins based upon an electrospray ionization interface 480 (1989) 211
- Preliminary investigation of ion mobility spectrometry after capillary electrophoretic introduction 480 (1989) 233
- Coupling capillary zone electrophoresis and continuous-flow fast atom bombardment MS for the analysis of peptide mixtures 480 (1989) 247
- Semiconductor radioisotope detector for capillary electrophoresis 480 (1989) 259
- Simple method for generation of a dynamic pH gradient in capillary zone electrophoresis 480 (1989) 271
- GPC combined with capillary electrophoresis for microanalysis of proteins 480 (1989) 277
- Simple device for flushing capillaries in capillary zone electrophoresis 480 (1989) 289
- Capillary electrophoresis of proteins in buffers containing high concentrations of zwitterionic salts 480 (1989) 301
- Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311

Capillary zone electrophoresis of oligonucleotides. Factors affecting separation 480 (1989) 321

Capillary electrophoresis of nucleic acids with a fully automated apparatus 480 (1989) 331

Performance of carbohydrate-modified fused-silica capillaries for the separation of proteins by zone electrophoresis 480 (1989) 339

Separation of the human transferrin isoforms by carrier-free high-performance zone electrophoresis and isoelectric focusing 480 (1989) 351

Separation of collagens by capillary zone electrophoresis 480 (1989) 371

Characterization of human growth hormone by capillary electrophoresis 480 (1989) 379

Capillary zone electrophoresis of peptide fragments from trypsin digestion of biosynthetic human growth hormone 480 (1989) 393

Sensitive resolution of *Giardia lamblia* membrane antigens 480 (1989) 421

Determination of metal ion complexes in electroplating solutions using capillary zone electrophoresis with UV detection 480 (1989) 427

Application of free flow electrophoresis to the preparative purification of basic proteins from an *E. coli* cell extract 481 (1989) 343

The role of chromatography and electrophoresis in biomedical sciences 488 (1989) 5

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

Simple apparatus for capillary zone electrophoresis and its application to protein analysis 494 (1989) 87

Determination of leucine enkephalin and methionine enkephalin in equine cerebrospinal fluid by microbore HPLC and capillary zone electrophoresis coupled to tandem MS 495 (1989) 41

Peculiar features of application of pH gradients formed in borate buffer with a polyhydroxy compound for separation of proteins in a free-flow electrophoretic apparatus 496 (1989) 121

On-line coupling of capillary isotachopheresis with capillary zone electrophoresis 498 (1990) 191

Electrophoretic separation of sugars and hydrolysates of polysaccharides on silylated glass-fibre paper 498 (1990) 213

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

Capillary electrophoresis with indirect amperometric detection 499 (1990) 713

New option in capillary zone electrophoresis. Use of a transient ionic matrix (dynamic pulse) 500 (1990) 673

### **Electrophoresis, robotics**

Robotics in biomedical chromatography and electrophoresis (Review) 492 (1989) 85

### **Electrophoresis, two-dimensional**

High-resolution two-dimensional electrophoresis of wheat proteins 480 (1989) 359

Dye ligand chromatography and two-dimensional electrophoresis of complex protein extracts from mouse tissue 482 (1989) 125

Profiling cells and body fluids—chromatography and two-dimensional electrophoresis as complementary techniques 488 (1989) 105

### **Electrophoretic methods, history**

History of electrophoretic methods 480 (1989) 3

### **Electrophoretic titration curves**

Hydrophobic interaction of Alcian Blue with soluble and erythrocyte membrane proteins 452 (1988) 347

### **Electroplating solutions**

Determination of metal ion complexes in electroplating solutions using capillary zone electrophoresis with UV detection 480 (1989) 427

### **Electrosorptive detection**

Electrosorptive detection of simple organic compounds in LC 456 (1988) 287

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

### **Electrospray ionization interface**

Capillary electrophoresis—electrospray ionization-MS 474 (1989) 21

Capillary zone electrophoresis and isotachopheresis-MS of polypeptides and proteins based upon an electrospray ionization interface 480 (1989) 211

### **Electrostatic interaction chromatography**

Thermodynamic model for electrostatic-interaction chromatography of proteins 499 (1990) 63

### **Electrostatic interactions**

Interplay of hydrophobic and electrostatic interactions in biopolymer chromatography. Effect of salts on the retention of proteins 469 (1989) 3

### **Electrostatic theory, ion-pair chromatography**

Extension of the electrostatic theory of reversed-phase ion-pair chromatography for high surface concentrations of the adsorbing amphiphilic ion 456 (1988) 253

### **Eluent evaporation**

Concurrent eluent evaporation with co-solvent trapping for on-line reversed-phase LC-GC. Optimization of conditions 477 (1989) 73

### **Eluent impurities**

Effect of eluent impurities and sample matrix on quantitative analysis by ion chromatography 482 (1989) 393

### **Elution band profiles**

Effect of organic solvents in sample solutions and injection volumes on chromatographic peak profiles of analytes in reversed-phase HPLC 483 (1989) 189

Theoretical study of multi-component interferences in non-linear chromatography 484 (1989) 103

Influence of calculation errors in the numerical simulation of chromatographic elution band profiles using an ideal or semi-ideal model 484 (1989) 83

Quantitative comparison between the experimental band profiles of binary mixtures in overloaded elution chromatography and their profiles predicted by the semi-ideal model 499 (1990) 21

### **Elution by characteristic point**

Stability constants of hydracid-tributyl phosphate complexes in alkane solution: hydrochloric acid and hydrogen cyanide 468 (1989) 73

### **Elution chromatography, ideal model**

Analytical solution of the ideal model of elution chromatography in the case of a binary mixture with competitive Langmuir isotherms. II. Solution using the *h*-transform 484 (1989) 125

### **Elution order**

Example of the concentration dependence of elution order in the resolution of enantiomers on microcrystalline triacetylcellulose chiral stationary phase 462 (1989) 95

### **Elution order shifts**

Comments on a paper describing elution order shifts of halogenated compounds 474 (1989)

### **Elution profiles**

Theoretical study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 1

Experimental study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 19

### **Elution system coefficients**

Ion chromatographic elution behaviour and prediction of the retention of inorganic monovalent anions using a phosphate eluent 481 (1989) 315

### **Elution temperature**

Calculation of programmed temperature GC characteristics from isothermal data. II. Predicted retention times and elution temperatures 463 (1989) 271

### **EM 12**

Determination of the thalidomide analogues 2-(2,6-dioxopiperidine-3-yl)phthalimidine (EM 12), 2-(2,6-dioxopiperidine-4-yl)phthalimidine (EM 16) and their metabolites in biological samples 488 (1989) 417

### **EM 16**

Determination of the thalidomide analogues 2-(2,6-dioxopiperidine-3-yl)phthalimidine (EM 12), 2-(2,6-dioxopiperidine-4-yl)phthalimidine (EM 16) and their metabolites in biological samples 488 (1989) 417

### **Embonates, antibiotics**

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

**Emetine**

Selective, stability-indicating assay of the major Ipecacuanha alkaloids, emetine and cephaeline, in pharmaceutical preparations by HPLC using spectrofluorimetric detection 463 (1989) 107

**Enantiomeric excess**

GC method for enantiomeric excess  
determination of alcohols not requiring chiral auxiliary compounds or chiral stationary phases 467 (1989) 285

**Enantiomer separations**

Enantioselectivity of complex formation in ligand-exchange chromatographic systems with chiral stationary and/or chiral mobile phases 452 (1988) 309

Direct enantiomeric separation of betaxolol with applications to analysis of bulk drug and biological samples 452 (1988) 477

Chiral HPLC analysis of phenoxy herbicide mixtures 454 (1988) 450

Characteristics of an avidin-conjugated column in direct LC resolution of racemic compounds 457 (1988) 227

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Retention behaviour of diastereomeric truxillic and truxinic diamides and separation of an enantiomeric pair in HPLC 457 (1988) 366

Enantiomer resolution of D- and L- $\alpha$ -amino acid derivatives by SFC on novel chiral diamide phases with carbon dioxide 461 (1989) 121

Improved enantiomeric separation of dihydrodiols of polycyclic aromatic hydrocarbons on chiral stationary phases by derivatization to O-methyl ethers 461 (1989) 377

Mobile phase optimization of a urea-linked chiral stationary phase for the HPLC separation of optical isomers 461 (1989) 407

Example of the concentration dependence of elution order in the resolution of enantiomers on microcrystalline triacetylcellulose chiral stationary phase 462 (1989) 95

(*R*)-*N*-(3,5-Dinitrobenzoyl)-1-naphthylglycine as a chiral stationary phase for the separation of enantiomers by HPLC 462 (1989) 382

Preparative separation of the enantiomers of the cholecystokinin antagonist (3*S*)-(±)-*N*-(2,3-

dihydro-1-([<sup>3</sup>H<sub>3</sub>]methyl)-2-oxo-5-phenyl-1*H*-1,4-benzodiazepine-3-yl)-1*H*-indole-2-carboxamide by HPLC 462 (1989) 454

Resolution of *rac*-1,2-halohydrins by chiral complexation GC 462 (1989) 458

New insights into the recognition mechanisms of chiral "brush-type" LC stationary phases 464 (1989) 39

Use of cyclodextrins in isotachopheresis. VII. Resolution of structurally related and chiral phenothiazines 464 (1989) 139

Chiral recognition by biological macromolecules. Partial resolution of racemic enones by albumin 464 (1989) 289

HPLC separation of enantiomers on axially chiral binaphthalene dicarboxylic acid-chiral phenylethylamine bonded to silica gel 464 (1989) 411

Direct LC separation of enantiomers on immobilized protein stationary phases. VII. Sorbents obtained by entrapment of cross-linked bovine serum albumin in silica 465 (1989) 263

Chemometric approach to explain the LC retention of some chiral indoles on swollen microcrystalline triacetylcellulose 466 (1989) 364

Resolution of neuroexcitatory non-protein amino acid enantiomers by HPLC utilising pre-column derivatization with *o*-phthalaldehyde chiral thiols. Application to  $\omega$ -*N*-oxalyl diamino acids 466 (1989) 407

Enantiomeric purity determination of 3-aminoquinuclidine by diastereomeric derivatization and HPLC separation 466 (1989) 415

GC method for enantiomeric excess determination of alcohols not requiring chiral auxiliary compounds or chiral stationary phases 467 (1989) 285

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

GLC resolution of some racemic synthons for lamtidine analogues histamine H<sub>2</sub>-receptor antagonists via diastereomeric amides of (1*S*)-(-)-camphanic acid 467 (1989) 402

Confirming chiral HPLC separations with stereospecific enzymes 468 (1989) 359

Discussion of a controversial chiral recognition model 469 (1989) 67

Chromatographic approaches to the quality control of chiral proprionate anti-inflammatory drugs and herbicides 469 (1989) 183

Resolution of neuroactive non-protein amino acid enantiomers by HPLC utilising pre-column derivatisation with *o*-phthaldialdehyde-chiral thiols. Application to 2-amino- $\omega$ -phosphonoalkanoic acid homologues and  $\alpha$ -amino- $\beta$ -N-methylaminopropanoic acid ( $\beta$ -methylaminoalanine) 469 (1989) 412

LC separation of racemates on acetylated or carbamoylated  $\beta$ -cyclodextrin-bonded stationary phases 469 (1989) 429

Milligram-scale separation of optical isomers of 2-pentafluoroethylalanine and 2-trifluoromethylalanine by medium-performance reversed-phase chromatography 469 (1989) 434

Recent advances in the preparation and use of molecularly imprinted polymers for enantiomeric resolution of amino acid derivatives 470 (1989) 391

Determination of the enantiomers of  $\alpha$ -H- $\alpha$ -amino acids,  $\alpha$ -alkyl- $\alpha$ -amino acids and the corresponding acid amides by HPLC 471 (1989) 263

Improved chiral stationary phase for the separation of the enantiomers of chiral acids as their anilide derivatives 471 (1989) 271

Direct resolution of anthelmintic drug enantiomers on Chiral-AGP protein-bonded chiral stationary phase 472 (1989) 265

HPLC separation of alkane-1,2-diol enantiomers on a chiral slurry-packed capillary column 472 (1989) 271

Direct stereochemical resolution of enantiomeric amides via TLC on a covalently bonded chiral stationary phase 472 (1989) 277

Use of cyclodextrins in isotachopheresis. VIII. Two-dimensional chiral separation in isotachopheresis 472 (1989) 308

Optical resolution of amino acids, peptides and hydroxycarboxylic acids using a new chiral column for ligand-exchange chromatography 473 (1989) 241

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

Coupled column chromatography-MS. Thermospray LC-MS and LC-tandem MS analysis of metoprolol enantiomers in plasma using phase-system switching 474 (1989) 257

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

Automated enantioseparation of amino acids by derivatization with *o*-phthaldialdehyde and N-acetylated cysteines 476 (1989) 73

Stereochemical recognition of enantiomeric and diastereomeric dipeptides by HPLC on a chiral stationary phase based upon immobilized  $\alpha$ -chymotrypsin 476 (1989) 165

Optimization of detection sensitivity for enantiomers of metoprolol on silica-bonded  $\alpha_1$ -acid glycoprotein 477 (1989) 107

Determination of the enhancement of the enantiomeric purity during recrystallization of amino acids 477 (1989) 139

Optical resolution of amino acid derivatives by HPLC on tris(phenylcarbamate)s of cellulose and amylose 477 (1989) 367

Chiral separation of the optical isomers of the antimalarial drug halofantrine 477 (1989) 471

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

Evaluation of the optimization potential in HPLC separations of optical isomers with swollen microcrystalline cellulose triacetate 478 (1989) 101

Use of achiral ion-pairing reagents with chiral stationary phases 479 (1989) 377

Separation of the enantiomers of N-protected  $\alpha$ -amino acids as anilide and 3,5-dimethylanilide derivatives 479 (1989) 419

Chiral separation by electrokinetic chromatography with bile salt micelles 480 (1989) 403

Enantioselective hydrophobic entanglement of enantiomeric solutes with chiral functionalized micelles by electrokinetic chromatography 480 (1989) 413

Thermodynamic properties of enantiomers of underivatized diols *versus* the cyclic carbonates in GC on Chirasil-Val 481 (1989) 17

Determination of the enantiomeric composition of  $\gamma$ -lactones in complex natural matrices using multidimensional capillary GC 481 (1989) 363

Chiral stationary phases via hydrosilylation reaction of N-acryloylamino acids. I. Stationary phase with one chiral centre for HPLC and development of a new derivatization pattern for amino acid enantiomers 481 (1989) 380

Enantiomer separation of  $\alpha$ -substituted  $\gamma$ -butyrolactones on the chiral polyacrylamide resin ChiraSpher<sup>®</sup> 481 (1989) 387

HPLC for optical resolution on a column of an ion-exchange adduct of spherically shaped synthetic hectorite and optically active metal complexes 482 (1989) 165

Separation of the enantiomers of a triester of 2,2-difluorocitrate 482 (1989) 258

Study of the chromatographic behaviour and resolution of  $\alpha$ -amino acid enantiomers by HPLC utilizing pre-column derivatization with *o*-phthalaldehyde and new chiral thiols 483 (1989) 239

Proposed primary reference methods for the determination of some commercially important chiral aryloxypropionate herbicides in both free acid and ester forms 483 (1989) 349

Preparative resolution of enantiomers of prostaglandin precursors by LC on a chiral stationary phase 484 (1989) 337

Determination of enantiomeric purity of the new D-2 dopamine agonist 2-(N-propyl-N-2-thienylethylamino)-5-hydroxytetralin (N-0437) by reversed-phase HPLC after pre-column derivatization with D(+) -glucuronic acid 487 (1989) 125

Resolution of antihypertensive aryloxypropranolamine enantiomers by reversed-phase chromatography of (–)-menthyl chloroformate derivatives 487 (1989) 197

Enantioselective drug monitoring of (R)- and (S)-propranolol in human plasma via derivatization with optically active (R,R)-O,O'-diacetyl tartaric acid anhydride 487 (1989) 375

Racemates versus enantiomerically pure drugs: putting HPLC to work in the selection process 488 (1989) 53

Stereoselective HPLC assay for propranolol enantiomers in serum 488 (1989) 407

Quantification of propranolol enantiomers in small blood samples from rats by reversed-phase HPLC after chiral derivatization 489 (1989) 333

HPLC determination of the enantiomers of  $\beta$ -adrenoceptor blocking agents in biological fluids. II. Studies with atenolol 489 (1989) 438

Determination of 3,4-methylenedioxyamphetamine and 3,4-methylenedioxymethamphetamine enantiomers in whole blood 490 (1989) 59

Analytical and preparative HPLC separation of the enantiomers of ifosfamide, cyclophosphamide and trofosfamide and their determination in plasma 490 (1989) 133

HPLC determination of ibuprofen, its metabolites and enantiomers in biological fluids 491 (1989) 139

Isothermal capillary GC with electron-capture detection of heptafluorobutyryl-L-prolyl derivatives of chiral amphetamines 491 (1989) 262

HPLC determination of (R)- and (S)-proxyphylline in human plasma 491 (1989) 355

HPLC method for the simultaneous determination of the enantiomers of carvedilol and its O-desmethyl metabolite in human plasma after chiral derivatization 493 (1989) 105

Separation of the enantiomers of phenprocoumon and warfarin by HPLC using a chiral stationary phase. Determination of the enantiomeric ratio of phenprocoumon in human plasma and urine 493 (1989) 149

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (–)-menthyl chloroformate 493 (1989) 402

Comparison between two methods for the determination of the total and free (R)- and (S)-disopyramide in plasma using an  $\alpha_1$ -acid glycoprotein column 494 (1989) 143

Determination of (R)- and (S)-propranolol in plasma by HPLC using N-benzoyl-L-proline as chiral selector in the mobile phase 494 (1989) 157

HPLC analysis of the enantiomers of flurbiprofen and its metabolites in plasma and urine 494 (1989) 173

Stereoselective determination of plasma pindolol in endotoxin-pretreated rats by HPLC 494 (1989) 381

GC-MS analysis of *threo*-methylphenidate enantiomers in plasma 494 (1989) 420

Enantioselective measurement of the *Candida* metabolite D-arabinitol in human serum using multi-dimensional GC and a new chiral phase 495 (1989) 21

Determination of the enantiomeric composition of salsolinol in biological samples by HPLC with electrochemical detection 495 (1989) 205

Simultaneous determination of (*R*)- and (*S*)-celiprolol in human plasma and urine: HPLC assay on a chiral stationary phase with fluorimetric detection 496 (1989) 387

Rapid HPLC method for the measurement of the enantiomers of metoprolol in serum using a chiral stationary phase 497 (1989) 181

Determination of the enantiomers of verapamil and norverapamil in serum using coupled achiral-chiral HPLC 497 (1989) 191

Measurement of underivatized metoprolol enantiomers in human plasma by HPLC with a chiral stationary phase 497 (1989) 313

Direct LC separation of enantiomers on immobilized protein stationary phases. VIII. A comparison of a series of sorbents based on bovine serum albumin and its fragments 498 (1990) 81

HPLC separation of 11-hydroxylauric acid enantiomers. Application to the determination of the stereochemistry of microsomal lauric acids ( $\omega - 1$ ) hydroxylation 498 (1990) 293

Chiral flavour compounds from apricots. Distribution of  $\gamma$ -lactone enantiomers and stereodifferentiation of dihydroactinidiolide using multi-dimensional GC 498 (1990) 396

Direct resolution of the optical isomers of fenoldopam and one of its derivatives 498 (1990) 414

Separation and quantification by GC-MS of arabinitol enantiomers to aid the differential diagnosis of disseminated candidiasis 500 (1990) 413

Enantioselective determination of metoprolol in plasma by LC on a silica-bonded  $\alpha_1$ -acid glycoprotein column 500 (1990) 629

### **Encainide**

Improved HPLC assay for encainide and its metabolites in human body fluids 490 (1989) 165

Resolution of enantiomers of the antiarrhythmic drug encainide and its major metabolites by chiral derivatization and HPLC 493 (1989) 325

### **$\beta$ -Endorphin**

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

### **Endosperm proteins**

High-resolution two-dimensional electrophoresis of wheat proteins 480 (1989) 359

### **Endotoxins**

Efficient endotoxin removal with a new sanitizable affinity column: Affi-Prep Polymyxin 476 (1989) 175

### **Endrin**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

### **Enkephalins**

Measurement of methionine enkephalin and leucine enkephalin in rat brain regions by HPLC with coulometric electrochemical detection 494 (1989) 67

Determination of leucine enkephalin and methionine enkephalin in equine cerebrospinal fluid by microbore HPLC and capillary zone electrophoresis coupled to tandem MS 495 (1989) 41

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

### **Enol ethers**

Formation of cyclic enol ethers from a labile biological precursor: an example of analytical artifacts 491 (1989) 27

**Enones**

Chiral recognition by biological macromolecules. Partial resolution of racemic enones by albumin 464 (1989) 289

**Enrichment procedures**

Manual automated enrichment procedures for biological samples using lipophilic gels 488 (1989) 87

**Enrofloxacin**

HPLC method for the simultaneous determination of enrofloxacin and its primary metabolite ciprofloxacin in canine serum and prostatic tissue 493 (1989) 337

**Enthalpy**

Selectivity of an octadecyl-modified vinyl alcohol copolymer gel for the retention of polar compounds 468 (1989) 191

**Enzyme assays**

Application of HPLC to enzyme activity determination (Review) 492 (1989) 361

**Enzyme immunoassays**

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

**Enzymes**

Design and applications of biomimetic anthraquinone dyes. II. The interaction of C.I. Reactive Blue 2 analogues bearing terminal ring modifications with horse liver alcohol dehydrogenase 455 (1988) 201

Purification of phosphofructokinase using transition-state analogue affinity chromatography 455 (1988) 291

Activity stain for polygalacturonase 455 (1988) 376

Synthesis of ATP-polyethylene glycol and ATP-dextran and their use in the purification of phosphoglycerate kinase from spinach chloroplasts using affinity partitioning 457 (1988) 183

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

Large-scale purification of the chromosomal  $\beta$ -lactamase from *Enterobacter cloacae* P99 457 (1988) 317

Improved HPLC determination of bacterial collagenase activity in ointments 459 (1988) 337

Determination of elastase activity by reversed-phase HPLC 461 (1989) 267

Purification of angiotensin-converting enzyme by gel HPLC 461 (1989) 271

Post-column immobilized leucine dehydrogenase reactor for determination of branched chain amino acids by HPLC with fluorescence detection 463 (1989) 177

Detection of proteolytic enzymes in fractions after LC 463 (1989) 212

Affinity chromatography of bovine heart lactate dehydrogenase using dye ligands linked directly or spacer-mediated to bead cellulose 466 (1989) 319

Rapid HPLC separation of barley malt  $\alpha$ -amylase on Cyclobond columns 469 (1989) 361

Investigations on the interferon-induced 2'-5' oligoadenylate system using analytical capillary isotachopheresis 470 (1989) 185

Charge heterogeneity of recombinant pro-urokinase and urinary urokinase, as revealed by isoelectric focusing in immobilized pH gradients 470 (1989) 337

Detection of trypsin- and chymotrypsin-like proteases using *p*-nitroanilide substrates after sodium dodecyl sulphate polyacrylamide gel electrophoresis 470 (1989) 401

Application of enzyme purification processes to proteolytic enzymes (Review) 473 (1989) 1

Design and applications of biomimetic anthraquinone dyes. Purification of calf intestinal alkaline phosphatase with immobilised terminal ring analogues of C.I. Reactive Blue 2 473 (1989) 227

Coupling of proteolytic quenching and HPLC to enzyme reactions. Application to bovine pancreatic ribonuclease 473 (1989) 281

Polyoxyalkyleneglycols immobilized on Sepharose 6B for the sequential extraction of three enzymes from a crude extract of *Pseudomonas testosteroni* 474 (1989) 396

Application of autofocusing in the isolation of peroxidase 474 (1989) 430

- An improved method for the separation and quantification of glutathione S-transferase subunits in rat tissue using HPLC 474 (1989) 435
- Purification of rabbit liver aldehyde oxidase by affinity chromatography on benzamidine Sepharose 6B 475 (1989) 363
- Immunological-chromatographic analysis of lysozyme variants 476 (1989) 235
- Improved separation of human pepsins from gastric juice by high-performance ion-exchange chromatography 476 (1989) 291
- Separation and purification of component proteins of the cytochrome P-450-dependent microsomal monooxygenase system by HPLC 476 (1989) 299
- HPLC assay for nicotinamide-adenine dinucleotide kinase 476 (1989) 487
- Heterogeneity of human pepsin 1, as shown by high-performance ion-exchange chromatography 476 (1989) 491
- Separation by HPLC of the ferredoxin-thioredoxin system proteins 477 (1989) 305
- Application of fast protein LC for the isolation of vertebrate casein kinase-1 477 (1989) 448
- The separation of pancreatic procarboxypeptidases by HPLC and chromatofocusing 481 (1989) 233
- Rapid separation of  $\alpha$ -amylases from barley by ion-exchange HPLC on non-porous columns 481 (1989) 397
- Purification of argininosuccinase by high-pressure immunoaffinity chromatography on monoclonal anti-argininosuccinase-silica 482 (1989) 252
- Interaction of lactate dehydrogenase with structurally related triazine dyes using affinity partitioning and affinity chromatography 483 (1989) 289
- Purification of tryptophan decarboxylase from a *Catharanthus roseus* cell suspension culture 483 (1989) 311
- Determination of cyclic nucleotide phosphodiesterase activity in cellular systems by ion-pair reversed-phase LC 483 (1989) 427
- HPLC assay for thymidylate synthase from the human malaria parasite, *Plasmodium falciparum* 487 (1989) 51
- Microassay for N-acetyltransferase activity using HPLC with electrochemical detection 487 (1989) 287
- Stability of serum  $\gamma$ -glutamyltranspeptidase fractionated by gel permeation using HPLC and FPLC 488 (1989) 503
- Purification of the decomposing enzyme from *Nepenthes alata* against glycoprotein B of human red blood cells by HPLC 489 (1989) 384
- Fractionation of human gastric proteinases by immobilized metal chelate ( $\text{Fe}^{3+}$ ) affinity chromatography 489 (1989) 390
- Determination of lipoyllysine derived from enzymes by LC 490 (1989) 33
- Purification of human muscle phosphoglycerate mutase by fast protein LC based on hydrophobic interactions 490 (1989) 424
- Determination of overt carnitine palmitoyltransferase by reversed-phase HPLC 491 (1989) 69
- Improved HPLC determination of diamine oxidase activity 491 (1989) 209
- Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345
- Application of HPLC to enzyme activity determination (Review) 492 (1989) 361
- Separation of two erythrocyte prolidase isoforms by fast protein LC; application to prolidase deficiency 493 (1989) 170
- HPLC determination of aminopeptidase P activity in Fischer F344 rat serum and kidney 493 (1989) 176
- Determination of serum cytidine deaminase activity using ion-pair reversed-phase LC 495 (1989) 105
- HPLC identification of disaccharides generated from heparan sulphate isomers using heparinases 496 (1989) 27
- Detection of macroenzymes in serum by high-performance GPC 496 (1989) 91
- Assay of ornithine decarboxylase activity by reversed-phase HPLC 496 (1989) 101
- Assay of cholesterol 7 $\alpha$ -hydroxylase utilizing a silica cartridge column and 5 $\alpha$ -cholestane-3 $\beta$ , 7 $\beta$ -diol as an internal standard 496 (1989) 255

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

Assay for lysine-ketoglutarate reductase by reversed-phase HPLC 497 (1989) 263

Purification of microbial uricase 497 (1989) 268

Partial purification of glucose 6-phosphate dehydrogenase and phosphofructokinase from rat erythrocyte haemolysate by partitioning in aqueous two-phase systems 498 (1990) 159

Characterization of reversed-phase HPLC stationary phases using ribonuclease A 498 (1990) 281

Investigation of some  $\alpha$ -amylases by high-performance hydrophobic-interaction chromatography 499 (1990) 197

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

Microenvironmental contributions to the chromatographic behavior of subtilisin in hydrophobic-interaction and reversed-phase chromatography 500 (1990) 503

### Enzymes, stereospecific

Confirming chiral HPLC separations with stereospecific enzymes 468 (1989) 359

### Ephedrine

Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

Positive confirmation of identity of doping agents using GC-MS with Fourier transform IR spectrometry 489 (1989) 51

### 17-Epimethandrostenolone

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

### Epinephrine

see Adrenaline

### 2,3-Epithiopropyl methacrylate

GC and sorption properties of macroporous methacrylate copolymers 469 (1989) 143

### 2,3-Epoxypropyl methacrylate

GC and sorption properties of macroporous methacrylate copolymers 469 (1989) 143

### Equation of state

Investigation and improvement of the Horváth-Lin equation of state 499 (1990) 463

### Equivalent carbon number

Some new observations on the equivalent carbon numbers of triglycerides and relationship between changes in equivalent carbon number and molecular structure 482 (1989) 215

### Ergosterol

Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293

### Ergotamine tartrate

Selection of HPLC methods in pharmaceutical analysis. IV. Selection of most applicable separation system 464 (1989) 279

### Erythritol

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

### Erythrocruorin

Use of erythrocruorin of the earthworm (*Lumbricus terrestris*) as calibration standard in gel chromatography (in German) 497 (1989) 231

### Erythrocyte membrane

Has immunoblotting replaced electroimmunoprecipitation? Examples from the analysis of autoantigens and transglutaminase-induced polymers of the human erythrocyte membrane 470 (1989) 351

### Erythrocyte membrane proteins

Hydrophobic interaction of Alcian Blue with soluble and erythrocyte membrane proteins 452 (1988) 347

### Erythrocytes

High-voltage capillary zone electrophoresis of red blood cells 470 (1989) 251

### Erythrocytes, partitioning

Analysis of density-fractionated rat red blood cells of different ages by partitioning in two-polymer aqueous phase systems 479 (1989) 307

### Escalol 507

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

**$\beta$ -Escin**

HPLC analysis of  $\beta$ -escin 478 (1989) 259

**Essential oils**

Applications of GC to the study of terpenoid metabolism 452 (1988) 61

Determination of terpenic compounds in the essential oil from *Satureja thymbra* L. growing in Sardinia 457 (1988) 427

**Esters**

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

Relative retention and column selectivity for the common polar bonded-phase columns. The diol-silica column in normal-phase HPLC 498 (1990) 55

**17 $\beta$ -Estradiol, C-17 fatty acid esters**

Separation of C-17 fatty acid esters of 17 $\beta$ -estradiol by reversed-phase HPLC 493 (1989) 367

**5-Estrane-3,17 $\alpha$ -diol**

Comparison of the use of MS and methylene unit values in the determination of the stereochemistry of estranediol, the major urinary metabolite of 19-nortestosterone in the horse 479 (1989) 73

**Ethacrynic acid**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

**Ethanol**

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

Simplified GC analysis of ethanol in blood and tissue 487 (1989) 228

**Ethanolamine**

LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249

**Ethanolamine glycerophospholipids**

Separation of the molecular species of diacyl and alkenylacyl subclasses of the methyl ester of dinitrophenylethanolamine glycerophospholipid by HPLC 487 (1989) 239

**Ethiofencarb**

HPLC determination of ethiofencarb and its metabolic products 462 (1989) 430

**Ethirimol**

Determination of ethirimol, in the presence of some normal soil constituents, by LC 479 (1989) 424

**Ethoxylated alcohols**

Industrial applications of SFC-MS involving oligomeric materials of low volatility and thermally labile materials 474 (1989) 97

**1-[2-Ethoxy-2-(3'-pyridyl)ethyl]-4-(2'-methoxyphenyl)piperazine**

Determination of the antihypertensive drug 1-[2-ethoxy-2-(3'-pyridyl)ethyl]-4-(2'-methoxyphenyl)piperazine (IP/66) in rat and human plasma by HPLC and isotope dilution MS 487 (1989) 331

**Ethyl acetate**

Determination of partition coefficients by headspace GC 455 (1988) 45

**Ethylamine**

LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249

**8-Ethyl-7,8-dihydro-1,3,5-trimethyl-1H-imidazo[1,2-c]pyrazolo[3,4-e]-pyrimidine**

HPLC assay for a novel psychotropic drug (CI-943) in cynomolgus monkey plasma 496 (1989) 493

**O-Ethyl S-(2-diisopropylaminoethyl) methylphosphonothioate**

Indirect determination of O-ethyl S-(2-diisopropylaminoethyl) methylphosphonothioate in air at low concentrations 478 (1989) 51

**N,N'-Ethylenebisoleamide**

Quantification and characterization of the trifluoroacetic anhydride derivatives of N,N'-ethylenebisstearamide and N,N'-ethylenebisoleamide 479 (1989) 107

**N,N'-Ethylenebisstearamide**

Quantification and characterization of the trifluoroacetic anhydride derivatives of N,N'-ethylenebisstearamide and N,N'-ethylenebisoleamide 479 (1989) 107

**Ethylenediamine buffer**

Separation of basic drugs by HPLC on a silica column using a methanol-ethylenediamine buffer 464 (1989) 117

**Ethylene dimethacrylate**

GC and sorption properties of macroporous methacrylate copolymers 469 (1989) 143

**Ethylene glycol**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

**Ethylene oxide**

Chemical degradation and analysis of polyoxyethylene glycols and ethylene oxide- $\alpha$ -butylene oxide block copolymers 455 (1988) 131

Thermal desorption-capillary GC for the quantitative analysis of dimethyl sulphate, diethyl sulphate and ethylene oxide in the workplace 456 (1988) 233

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

Preparation of electrophoric derivatives of N7-(2-hydroxyethyl)guanine, an ethylene oxide DNA adduct 499 (1990) 571

**Ethylenethiourea**

Determination of ethylenethiourea in beverages without sample pretreatment using HPLC and amperometric detection on a copper electrode 457 (1988) 398

**Ethyl methacrylate**

Use of HPLC for the characterization of synthetic copolymers 499 (1990) 645

**4'-Ethyl-2-methyl-3-(1-pyrrolidinyl)propiophenone hydrochloride**

Determination of a new muscle relaxant (HY-770) in human serum by GC-MS 496 (1989) 456

**Ethinylestradiol**

HPLC analysis of the by-products of the synthesis of ethinylestradiol, mestranol, 17 $\alpha$ -hydroxyprogesterone caproate and 17 $\alpha$ -hydroxy-6-dehydroprogesterone acetate 456 (1988) 427

Quantitative analysis of anabolics on TLC plates using image analysis techniques 489 (1989) 205

**Etoposide**

Automated reversed-phase chromatographic analysis of etoposide and teniposide in plasma by using on-line surfactant-mediated sample clean-up and column-switching 495 (1989) 139

**Etorphine**

Screening and confirmation of drugs in horse urine by using a simple column extraction procedure 473 (1989) 215

**Etretinate**

HPLC determination of etretinate and all-*trans*- and 13-*cis*-acitretin in human plasma 500 (1990) 637

**Eusolex 8020**

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

**Evaporative light-scattering detector**

Universal detection and quantitation of surfactants by HPLC by means of the evaporative light-scattering detector 459 (1988) 91

Control of some HPLC systems by using an evaporative light scattering detector (in French) 472 (1989) 209

**Evernic acid**

Characterization of oakmoss products used in perfumery by HPLC 466 (1989) 301

**Evernicinic acid**

Characterization of oakmoss products used in perfumery by HPLC 466 (1989) 301

**Evernyl**

Characterization of oakmoss products used in perfumery by HPLC 466 (1989) 301

**Exchanger capacity**

Ion-exchange equilibria of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137

**Exifone**

Determination of exifone in human plasma and urine by HPLC with electrochemical detection 496 (1989) 345

**Experimental design techniques**

Method development in HPLC using retention mapping and experimental design techniques (Review) 485 (1989) 51

**Expert systems**

Expert system for chromatography 452 (1988) 175

Expert system for the selection of HPLC methods in pharmaceutical analysis. Validation of the rules for the selection of the mobile phase 457 (1988) 25

Artificial intelligence techniques for peak homogeneity validation in LC 465 (1989) 59

Explanations and advice provided by an expert system for system optimization in HPLC 485 (1989) 219

Expert system for the selection of HPLC methods for the analysis of drugs 485 (1989) 237

Expert system for the selection of initial HPLC conditions for the analysis of pharmaceuticals 485 (1989) 255

Expert system program for assistance in HPLC method development 485 (1989) 267

Expert system for method validation in chromatography 485 (1989) 283

Knowledge-based expert system for troubleshooting HPLC assay methods 485 (1989) 297

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. V. CRIPES (chromatographic retention index prediction expert system) 485 (1989) 325

Cathie: expert interpretation of chromatographic data 485 (1989) 341

Prediction of retention of metabolites in HPLC by an expert system approach 485 (1989) 349

Reversed-phase chromatographic method development for peptide separations using the computer simulation program ProDigest-LC 485 (1989) 365

### **Explosives**

Packed-column SFC separation of highly explosive compounds 467 (1989) 423

Modification to a thermal energy analyzer with associated electronic filtering for improved GC analysis of explosives traces 483 (1989) 379

### **External recycle chromatography**

External recycle chromatography: a practical method for preparative purifications 462 (1989) 85

### **Extra-column effects**

Extra-column effects in high-performance capillary electrophoresis 480 (1989) 91

### **Extraction methods**

Screening and confirmation of drugs in horse urine by using a simple column extraction procedure 473 (1989) 215

## **F**

### **Factor analysis**

Factor analysis and experiment design in HPLC. VIII. Charge-transfer *versus* standard stationary phases in normal-phase HPLC 464 (1989) 237

### **Factorial design**

Uniform shell designs for optimization in reversed-phase LC 485 (1989) 311

### **Factor IX**

Separation of vitamin K-dependent coagulation factors on sulphated cellulose 487 (1989) 173

### **Factor VIII/vWf**

Chromatography of human plasma on aminoethyl Sepharose: separation of factor VIII/vWf and behaviour of factors II, VII, IX and X and antithrombin III 491 (1989) 299

### **Family album, *Journal of Chromatography***

The *Journal of Chromatography* family album 500 (1990) 3

### **Fats**

High-performance size-exclusion chromatography of oils and fats 454 (1988) 317

Determination of free and esterified sterols and of wax esters in oils and fats by coupled LC-GC 471 (1989) 397

### **Fatty acid binding protein**

Separation of fatty acid binding protein by high-performance mixed-mode chromatography 459 (1988) 221

### **Fatty acid esters**

Improved separation of lipid esters by TLC 483 (1989) 369

**Fatty acid methyl esters**

Analysis of *in situ* methylated microbial fatty acid constituents by Curie-point pyrolysis-GC-MS 468 (1989) 181

Some factors affecting the precision in the determination of retention indices on polar capillary columns for GC 473 (1989) 37

**Fatty acid radicals**

Separation of polyunsaturated fatty acid radicals by HPLC with electron spin resonance and UV detection 487 (1989) 9

**Fatty acids**

Determination of fatty acids as phenacyl esters in rat adipose tissue and blood vessel walls by HPLC 452 (1988) 443

Purification of long-chain, saturated, free fatty acids 454 (1988) 438

LC determination of trace amounts of low-molecular-weight fatty acid vapours in industrial emissions 455 (1988) 425

Water as a stationary phase modifier in packed-column SFC. I. Separation of free fatty acids 459 (1988) 173

Preparative-scale HPLC of omega-3 polyunsaturated fatty acid esters derived from fish oil 459 (1988) 369

Improved evaporative light-scattering detection for SFC with carbon dioxide-methanol mobile phases 467 (1989) 49

Analytical-scale HPLC of omega-3 fatty acid esters derived from fish oils 468 (1989) 225

Separation of *cis* and *trans* isomers of unsaturated fatty acids by HPLC in the silver ion mode 469 (1989) 261

Separation of major phospholipid classes by HPLC and subsequent analysis of phospholipid-bound fatty acids using GC 469 (1989) 271

Isotachophoretic determination of short-chain fatty acids in drinking water after solid-phase extraction with a carbonaceous sorbent 470 (1989) 223

Reversed-phase LC for enrichment of very-long-chain fatty acids and their identification by GC-MS 472 (1989) 290

GC fatty acid determination to differentiate *Nocardia asteroides*, *Mycobacterium fortuitum* and *Mycobacterium chelonae* 487 (1989) 142

Capillary column GC-MS for the determination of the fatty acid composition of human adipose tissue 491 (1989) 1

Biochemical applications of LC-MS 492 (1989) 189

GC-MS studies after methylation of metabolites produced by some anaerobic bacteria in spent media 493 (1989) 257

Analysis of fatty acids in equine cerebrospinal fluid using GC with electron-capture detection 494 (1989) 278

GC and MS determination of some resin and fatty acids in pulpmill effluents as their pentafluorobenzyl ester derivatives 498 (1990) 367

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

Automated HPLC determination of plasma free fatty acids using on-line derivatization with 9-bromomethylacridine based on micellar phase-transfer catalysis 500 (1990) 443

**Fatty acids, dimer**

Chromatographic methods for the determination of monomer, dimer and trimer fractions in dimer fatty acids 466 (1989) 403

**Fatty acids, long-chain**

Long-chain fatty acids and alcohols from gerbil meibomian lipids 494 (1989) 23

**Fatty acids, very-long-chain**

Improved determination of very-long-chain fatty acids in plasma and cultured skin fibroblasts: applications to the diagnosis of peroxisomal disorders 494 (1989) 31

**Fatty alcohols**

Improved evaporative light-scattering detection for SFC with carbon dioxide-methanol mobile phases 467 (1989) 49

Long-chain fatty acids and alcohols from gerbil meibomian lipids 494 (1989) 23

**Fatty tissues**

TLC method for the detection of anabolics in fatty tissues 489 (1990) 213

**FD&C Red No. 40**

Isolation, characterization and determination of trace organic impurities in FD&C Red No. 40 467 (1989) 167

**Fecapentaenes**

Combined chromatographic–isotopic dilution analysis of fecapentaenes in human feces 488 (1989) 301

**Fenbendazole**

Direct resolution of anthelmintic drug enantiomers on Chiral-AGP protein-bonded chiral stationary phase 472 (1989) 265

**Fengabine**

Determination of the gabaergic antidepressant drug fengabine and some of its metabolites in plasma by capillary GC with electron-capture detection 490 (1989) 81

**Fenoldopam**

Simplified procedures for the determination of fenoldopam and its metabolites in human plasma by HPLC with electrochemical detection: comparison of manual and robotic sample preparation methods 487 (1989) 385

Direct resolution of the optical isomers of fenoldopam and one of its derivatives 498 (1990) 414

**Fenoprofen**

Discussion of a controversial chiral recognition model 469 (1989) 67

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

**Fenpropimorph**

Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293

**Fentanyl**

Screening and confirmation of drugs in horse urine by using a simple column extraction procedure 473 (1989) 215

Studies on 1-(2-phenethyl)-4-(N-propionylanilino)piperidine (fentanyl) and related compounds. III. Effect of methyl group introduction into fentanyl on sensitivity enhancement in GC with surface ionization detection 475 (1989) 400

Simultaneous determination of fentanyl and its major metabolites and fentanyl analogues using GC and nitrogen-selective detection 489 (1989) 459

**Ferredoxin**

Separation by HPLC of the ferredoxin–thioredoxin system proteins 477 (1989) 305

**Ferredoxin–thioredoxin reductase**

Separation by HPLC of the ferredoxin–thioredoxin system proteins 477 (1989) 305

**Ferric chloride**

Degradation and analysis of polyoxyethylene monoalkyl ethers in the presence of acetyl chloride and ferric chloride 469 (1989) 197

**Ferric oxyhydroxide**

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. I. Coating: ferric oxyhydroxide with stoichiometrically bound phosphate 481 (1989) 175

**Ferrocene**

Selective detection of volatile iron compounds by flame photometry 467 (1989) 75

**Ferrocene reagents**

Sensitive ferrocene reagents for derivatization of amines for HPLC with electrochemical detection 487 (1989) 247

**Ferulic acid**

Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149

**Fibrinogen**

Determination of diffusion coefficients of proteins in beaded agarose by gel filtration 483 (1989) 221

**Fibrinogenolysin**

Isolation and purification of a fibrinogenolysin from the venom of the saw-scaled viper (*Echis carinatus*) by HPLC 474 (1989) 424

**Fibroblast growth factor**

Rapid chromatographic isolation and immunoblot characterization of immunoreactive fibroblast growth factor-related polypeptides from various tissues 491 (1989) 49

**Fibronectin receptor**

Isolation of a fibronectin receptor from *Streptococcus pyogenes* by affinity chromatography followed by HPLC (in German) 497 (1989) 258

**Field alternation agar gel electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

**Field-flow fractionation**

Retention in sedimentation–flotation focusing field-flow fractionation using a step density gradient 452 (1988) 549

Sedimentation focusing field-flow fractionation in channels of triangular cross-section 454 (1988) 335

Resolution of colloidal latex aggregates by sedimentation field-flow fractionation 455 (1988) 1

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

Gradient elution in hollow-fibre flow field-flow fractionation 461 (1989) 89

Focusing counterparts of electrical field flow fractionation and capillary zone electrophoresis. Electrical hyperlayer field flow fractionation and capillary isoelectric focusing 461 (1989) 95

Sedimentation field-flow fractionation of colloidal metal hydrosols 461 (1989) 103

High-speed size characterization of chromatographic silica by flow/hyperlayer field-flow fractionation 467 (1989) 341

Field-flow fractionation of macromolecules 470 (1989) 327

Improved separation speed and efficiency for proteins, nucleic acids and viruses in asymmetrical flow field flow fractionation 476 (1989) 413

Harnessing electrical forces for separation. Capillary zone electrophoresis, isoelectric focusing, field-flow fractionation, split-flow thin-cell continuous-separation and other techniques 480 (1989) 21

Effect of operating parameters on polymer molecular weight accuracy with time-delay, exponential-decay thermal field flow fractionation 499 (1990) 655

**Field inversion gel electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

**Fish oil**

Analytical-scale HPLC of omega-3 fatty acid esters derived from fish oils 468 (1989) 225

**Flame photometric detector**

Selective detection of volatile iron compounds by flame photometry 467 (1989) 75

On-line flame photometric detection in micro-column LC 467 (1989) 385

Improved flame photometric detector for the analysis of sulfur compounds by GC 468 (1989) 303

**Flat-bed chromatography**

Flat-bed chromatography on impregnated layers (Review) 466 (1989) 1

**Flavanones**

Series of novel flavanones identified by GC–MS in bud exudate of *Populus fremontii* and *Populus maximowiczii* 481 (1989) 352

**Flavonoid aglycones**

Evaluation of the moving belt as an interface for the HPLC–MS analysis of the flavonoid aglycones 474 (1989) 372

**Flavonoids**

Solvent selectivity effects in reversed-phase HPLC of flavonoid compounds 461 (1989) 281

Comparison of reversed-phase TLC and HPLC of flavonoid compounds 462 (1989) 205

Flavonoid aglycones identified by GC–MS in bud exudate of *Populus balsamifera* 472 (1989) 393

Improved method for continuous UV monitoring in high-speed counter-current chromatography 475 (1989) 229

Capillary column GC of methyl and trimethylsilyl derivatives of some naturally occurring flavonoid aglycones and other phenolics 478 (1989) 415

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various biological samples with a semipreparative column 498 (1990) 169

**Flavonol glycosides**

Determination of flavonol glycosides in *Epimedium Herba* by HPLC 456 (1988) 392

**Flavour components**

Flavor characterization of dentifrices using equilibrium headspace GC 455 (1988) 143

**Flecainide**

Therapeutic drug monitoring of flecainide using HPLC and comparison with fluorescence polarisation immunoassay 487 (1989) 409

HPLC assay with fluorometric detection for flecainide and its major metabolites in urine and serum 490 (1989) 450

**Fleroxacin**

HPLC for the determination of three new fluoroquinolones fleroxacin, temafloxacin and A-64730, in biological fluids 491 (1989) 379

**Florisil**

Florisil® sorbent sampling and ion chromatographic determination of airborne aliphatic carboxylic acids 479 (1989) 445

**Flory–Huggins interaction parameters**

Solubility parameters of GC mixed stationary phases 457 (1988) 55

**Flow cells**

Mass detection limits achieved with a commercially available fluorimeter in micro HPLC 471 (1989) 297

Effect of the position of the laser beam focal point on a capillary flow-through cell on the signal-to-noise ratio for a fluorimetric detector in capillary column LC 471 (1989) 311

**Flow field-flow fractionation**

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

**Flow field-flow fractionation channel**

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

**Flow/hyperlayer field-flow fractionation**

High-speed size characterization of chromatographic silica by flow/hyperlayer field-flow fractionation 467 (1989) 341

**Flow-injection analysis**

Determination of the absolute number of moles of an analyte in a flow-through system from peak-area measurements 482 (1989) 207

Determination of inorganic anions by flow injection analysis and HPLC combined with photolytic-electrochemical detection 499 (1990) 685

**Flow optimization**

Factorial optimization for flows in the Hall electrolytic conductivity detector 473 (1989) 27

**Flow-rate**

Effect of mobile phase flow-rate on the recoveries and production rates in overloaded elution chromatography. A theoretical study 452 (1988) 209

Limitations of high-speed reversed-phase HPLC observed with integral membrane proteins 477 (1989) 131

Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85

Effect of operating parameters on polymer molecular weight accuracy with time-delay, exponential-decay thermal field flow fractionation 499 (1990) 655

**Flow-rate errors**

Unavoidable flow-rate errors in HPLC 478 (1989) 287

**Flow-switching interface**

Multidimensional packed capillary column SFC using a flow-switching interface 477 (1989) 161

**Flow velocity**

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. I. Influence of capacity factor, analyte structure, flow velocity and column loading 478 (1989) 71

**Flue gases**

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

**Flumazenil**

Quantitation of the benzodiazepine antagonist flumazenil in human plasma by GC-MS 491 (1989) 97

**Flumequine**

Determination of flumequine in biological fluids and meat by HPLC 495 (1989) 314

Solid-phase extraction and HPLC determination of flumequine and oxolinic acid in salmon plasma 496 (1989) 355

Determination of flumequine in fish by HPLC and fluorescence detection 497 (1989) 355

### **Flunitrazepam**

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

### **Fluoranthene**

Effects of temperature and density on retention in capillary SFC 478 (1989) 311

### **Fluorene**

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

### **N<sup>α</sup>-9-Fluorenoxycarbonyl-S-tritylcysteine**

Scaling-up procedure from the range of milligrams to grams for the purification of amino acid derivatives in displacement chromatography 499 (1990) 37

### **9-Fluorenylmethylchloroformate**

Sensitive HPLC assay using 9-fluorenylmethylchloroformate for monitoring controlled-release lidocaine in plasma 496 (1989) 335

### **Fluorescein**

Use of free-flow electrophoresis for the purification of components separated by ion-pair chromatography 469 (1989) 444

### **Fluorescein isothiocyanate**

High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141

### **Fluoresceinyl isothiocyanate dextrans**

High-performance SEC procedure for the determination of fluoresceinyl isothiocyanate dextrans of various molecular masses in biological media 491 (1989) 117

### **Fluorescence, laser-induced**

High-sensitivity laser-induced fluorescence-HPLC studies of polyaromatic hydrocarbons using the argon ion laser-Yeung detector cell configuration 455 (1988) 332

Enhanced performance of a laser-induced fluorescence LC apparatus: a systems approach 459 (1988) 109

### **Fluorescence detector**

Mass detection limits achieved with a commercially available fluorimeter in micro HPLC 471 (1989) 297

Effect of the position of the laser beam focal point on a capillary flow-through cell on the signal-to-noise ratio for a fluorimetric detector in capillary column LC 471 (1989) 311

High-sensitivity fluorescence detector for fluorescein isothiocyanate derivatives of amino acids separated by capillary zone electrophoresis 480 (1989) 141

Characterization of a post-column reaction-laser-induced fluorescence detector for capillary zone electrophoresis 480 (1989) 157

Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169

### **Fluorescence polarisation immunoassay**

Therapeutic drug monitoring of flecainide using HPLC and comparison with fluorescence polarisation immunoassay 487 (1989) 409

### **Fluorescence spectrometry, electron impact fragmentation**

GC detection by electron impact-induced fluorescence spectrometry of molecular fragments 475 (1989) 237

### **Fluorescence studies, intrinsic**

Intrinsic fluorescence studies of the kinetic mechanism of unfolding of  $\alpha$ -lactalbumin on weakly hydrophobic chromatographic surfaces 500 (1990) 481

### **Fluoride**

Determination of fluoride in semiconductor process chemicals by ion chromatography with ion-selective electrodes 465 (1989) 1

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

### **Fluorimetric detection**

Indirect fluorimetric detection of non-electrolytes in TLC 455 (1988) 382

**Fluorinated stationary phases**

Totally organic stationary phase from perfluoroalkyl acrylate for LC 465 (1989) 241

Changes in retention and polarity accompanying the replacement of hydrogen by fluorine in tetraalkylammonium alkyl- and arylsulfonate salts used as stationary phases in GC 468 (1989) 261

**5-Fluorocytosine**

Rapid and sensitive method for the determination of 5-fluorocytosine in human plasma by ion-pair HPLC 487 (1989) 183

**Fluorogenic labelling, phase-transfer-catalysed**

Determination of carboxylic acids by LC after phase-transfer-catalysed fluorogenic labelling 456 (1988) 410

**3-(*p*-Fluorophenyl)-L-alanyl-3-[*m*-bis(2-chloroethyl)aminophenyl]-L-alanyl-L-methionine**

HPLC determination of *m*-bis(chloroethyl)aminophenyl-L-alanine in plasma 490 (1989) 224

**2-{3-[4-(4-Fluorophenyl)-1-piperazinyl]-propyl}-6,7,8,9-tetrahydro-2*H*-naphtho[2,3-*b*][1,4]oxazin-3(4*H*)-one**

Sensitive HPLC determination of ionic drugs in biological fluids with short-wavelength UV detection using column switching combined with ion-pair chromatography: application to basic compounds 487 (1989) 357

**Fluoroquinolones**

HPLC for the determination of three new fluoroquinolones fleroxacin, temafloxacin and A-64730, in biological fluids 491 (1989) 379

**5-Fluorouracil**

Totally organic stationary phase from perfluoroalkyl acrylate for LC 465 (1989) 241

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

Analysis of 5-fluorouracil in plasma by precolumn derivatization with 4-bromomethyl-7-methoxycoumarin, followed by multi-dimensional HPLC 473 (1989) 431

Quantitation of 5-fluorouracil incorporation into RNA by HPLC without the use of radioactive precursors 496 (1989) 450

**Fluoxetine**

Determination of fluoxetine and norfluoxetine by HPLC 499 (1990) 601

**Flurazepam**

Simultaneous determination of flurazepam and its metabolites in human plasma by HPLC 494 (1989) 247

**Flurbiprofen**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Chromatographic approaches to the quality control of chiral propionate anti-inflammatory drugs and herbicides 469 (1989) 183

HPLC analysis of the enantiomers of flurbiprofen and its metabolites in plasma and urine 494 (1989) 173

**Fluroxypyr**

Development of HPLC method for fluroxypyr herbicide and metabolites using computer simulation with DryLab G software 485 (1989) 581

**Flushing device**

Simple device for flushing capillaries in capillary zone electrophoresis 480 (1989) 289

**Fluvoxamine**

Determination of fluvoxamine in human plasma by HPLC with UV detection 495 (1989) 295

**Foam counter-current chromatography**

Foam counter-current chromatography of bacitracin. I. Batch separation with nitrogen and water free of additives 482 (1989) 197

**Foeniculine**

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

**Folates**

Determination of reduced folate derivatives in tissue samples by HPLC with fluorimetric detection 487 (1989) 456

**Folding kinetics**

Reversed-phase chromatographic behavior of proteins in different unfolded states 499 (1990) 89

**Formaldehyde**

Effect of pH on the reaction of 2,4-dinitrophenylhydrazine with formaldehyde and acetaldehyde 455 (1988) 310

HPLC determination of free formaldehyde in cosmetics 464 (1989) 387

### Formate

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

### Formic acid

Formic acid as a milder alternative to trifluoroacetic acid and phosphoric acid in two-dimensional peptide mapping 469 (1989) 231

Reversed-phase LC of proteins with strong acids 476 (1989) 499

### 2-Formyl-5-(hydroxymethyl)pyrrole-1-norleucine

Maillard reaction of bovine serum albumin with glucose. Determination of 2-formyl-5-(hydroxymethyl)pyrrole-1-norleucine by HPLC after alkaline hydrolysis (in German) 463 (1989) 119

### 5-Formyltetrahydrofolate

Determination of reduced folate derivatives in tissue samples by HPLC with fluorimetric detection 487 (1989) 456

### Foscarnet

Determination of phosphonoformate (foscarnet) in biological fluids by ion-pair reversed-phase LC 488 (1989) 447

### Fraction collector

Simultaneous collection of the eluate from up to twenty LC columns by a minor modification to the fraction collector 455 (1988) 360

### Free energy correlations

Free energy correlations: dead volume and the reversed-phase HPLC capacity factor in the interaction index model. A discussion and application to a nitrosamine series 481 (1989) 97

### Free-flow electrophoresis

Use of free-flow electrophoresis for the purification of components separated by ion-pair chromatography 469 (1989) 444

Application of free flow electrophoresis to the preparative purification of basic proteins from an *E. coli* cell extract 481 (1989) 343

### Freon FC-113

Freon FC-113, an alternative to methylene chloride for liquid-liquid extraction of trace

organics from chlorinated drinking water 454 (1988) 217

### Frontal analysis

HPLC of amino acids, peptides and proteins. XCV. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes: comparison of thermodynamic parameters and the adsorption behaviour of proteins evaluated from bath and frontal analysis experiments 499 (1990) 103

### Fructose

GC retention of carbohydrate trimethylsilyl ethers. III. Ketohexoses 471 (1989) 205

### Function of mutual information

An information theory of chromatography. I. Evaluation of analytical systems by means of *FUMI* 462 (1989) 13

An information theory of chromatography. II. Application of *FUMI* to the optimization of overlapped chromatograms 462 (1989) 23

### Fungicides

see Pesticides

### Furanic acid

Determination of hippuric acid and furanic acid in serum of dialysis patients and control persons by HPLC 495 (1989) 95

### Furocoumarins

Reversed-phase HPLC, a tool for the study of bichromophoric systems including polymethylene linking bridges 481 (1989) 461

Strategies of mobile phase transfer from TLC to medium-pressure LC with silica as the stationary phase 499 (1990) 453

### Furosemide

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

Solid-phase extraction of furosemide from plasma and urine and subsequent analysis by HPLC 496 (1989) 234

Improved method for the determination of furosemide in plasma by HPLC 497 (1989) 367

### 3-(2-Furoyl)quinoline-2-carbaldehyde

Application of 3-(2-furoyl)quinoline-2-carbaldehyde as a fluorogenic reagent for the analysis of primary amines by LC with laser-induced fluorescence detection 499 (1990) 579

**Fused-silica capillaries**

Insights into the slurry packing and bed structure of capillary LC columns 458 (1988) 267

LC on packed fused-silica capillary columns with electrochemical detection 467 (1989) 41

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

Preparation of silicone-coated 5–25- $\mu\text{m}$  I.D. fused-silica capillary columns for open-tubular LC 499 (1990) 345

Performance of micro-LC columns in an industrial environment: a case history 499 (1990) 541

**Fused-silica capillaries, carbohydrate-modified**

Performance of carbohydrate-modified fused-silica capillaries for the separation of proteins by zone electrophoresis 480 (1989) 339

**Futoquinol**

Strategy for the preparative-scale HPLC isolation of kadsurenone and futoquinol from the medicinal plant *Piper futokadsura* 484 (1989) 369

**Fuzzy set theory**

Membership values as indicators of complications in chromatography 473 (1989) 267

**Fuzzy theory**

Recent advances in fuzzy peak tracking in HPLC 485 (1989) 557

**G****Galactitol**

Rapid analysis of sorbitol, galactitol, mannitol and myoinositol mixtures from biological sources 490 (1989) 1

**Galactosamine**

GC determination of glycoprotein amino sugars as O-pentafluorobenzoyloxime acetates 467 (1989) 315

**Galactose oxidase**

Post-column co-immobilized galactose oxidase/peroxidase reactor for fluorometric detection of saccharides in an LC system 463 (1989) 183

 **$\beta$ -D-Galactosidase**

Potential of the sulfobetaine detergent Zwittergent 3-12 as a desorbing agent in biospecific and bioselective affinity chromatography 497 (1989) 87

**Galactosyl-hydroxylysine**

HPLC preparation of galactosyl-hydroxylysine, a specific bone collagen marker 490 (1989) 285

**Gallamine**

Determination of gallamine and its impurities by reversed-phase ion-pair HPLC and comparison with TLC 462 (1989) 281

**Gallopamil**

GC determination of gallopamil and norgallopamil in human plasma 487 (1989) 73

**Gangliosides**

HPLC of sialooligosaccharides and gangliosides 488 (1989) 229

HPLC separation of gangliosides, combined with immunological detection and fast atom bombardment MS characterization 490 (1989) 263

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Rapid, quantitative method for the isolation and purification of gangliosides by LIPSEP gel chromatography 494 (1989) 289

Gangliosides and sulphatide in human cerebrospinal fluid: quantitation with immunoaffinity techniques 496 (1989) 279

**Gardenoside**

Determination of geniposide, gardenoside, geniposidic acid and genipin-1- $\beta$ -gentiobioside in *Gardenia jasminoides* by HPLC 455 (1988) 410

**Garlic**

LC determination of alliin in garlic and garlic products 455 (1988) 271

Effects of pH on the formation of flavour compounds of disrupted garlic 462 (1989) 137

**Gas chromatograph, coupling to an ion trap detector**

Direct coupling of a gas chromatograph to an ion trap detector 454 (1988) 372

**Gas extraction, continuous**

Basic equations in continuous gas extraction and their application to headspace analysis 471 (1989) 55

**Gas-liquid chromatography, unified molecular theory**

Application of a unified molecular theory to GLC 471 (1989) 71

**Gas phase silylation**

Gas phase silylation, a rapid method for preparation of HPLC supports 455 (1988) 105

**Gas sampling**

Gas sampling- and column-switching systems in high-resolution gas analysis (in German) 477 (1989) 25

**Gastrin**

Unexpected elution behaviour of peptides with various reversed-phase columns 499 (1990) 165

**GDP-fucose**

HPLC study of GDP-mannose and GDP-fucose metabolism 497 (1989) 319

**GDP-mannose**

HPLC study of GDP-mannose and GDP-fucose metabolism 497 (1989) 319

**Gel filtration media**

Properties, in theory and practice, of novel gel filtration media for standard LC 476 (1989) 329

**Generalized exponential function**

Chromatographic dispersion corrections utilizing the generalized exponential function 462 (1989) 3

**Genipin-1- $\beta$ -gentiobioside**

Determination of geniposide, gardenoside, geniposidic acid and genipin-1- $\beta$ -gentiobioside in *Gardenia jasminoides* by HPLC 455 (1988) 410

**Geniposide**

Determination of geniposide, gardenoside, geniposidic acid and genipin-1- $\beta$ -gentiobioside in *Gardenia jasminoides* by HPLC 455 (1988) 410

**Geniposidic acid**

Determination of geniposide, gardenoside, geniposidic acid and genipin-1- $\beta$ -gentiobioside in *Gardenia jasminoides* by HPLC 455 (1988) 410

**Gentian Violet**

HPLC of Gentian Violet, its demethylated metabolites, Leucogentian Violet and Methylene Blue with electrochemical detection 467 (1989) 259

**Gentiopicroside**

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient elution of a mixture of natural secoiridoid compounds 485 (1989) 631

**Gentisic acid**

HPLC method for the determination of salicylic acid and its metabolites in urine by direct injection 493 (1989) 93

**Geometric isomers**

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

**Geranial**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

**Germanate**

Capillary isotachophoretic separation of phosphate, arsenate, germanate, silicate and molybdate ions using complex-forming equilibria 478 (1989) 238

***Giardia* membrane antigens**

Sensitive resolution of *Giardia lamblia* membrane antigens 480 (1989) 421

**Gibberellins**

Reversed-phase C<sub>18</sub> a normal-phase silica HPLC of gibberellins and their methyl esters 452 (1988) 519

Separation of gibberellins by normal-phase HPLC 464 (1989) 195

**Ginsenosides**

Strategies of mobile phase transfer from TLC to medium-pressure LC with silica as the stationary phase 499 (1990) 453

**Gitaloxin**

HPLC determination of secondary cardiac glycosides in *Digitalis purpurea* leaves 479 (1989) 319

**Gitoxin**

HPLC determination of secondary cardiac glycosides in *Digitalis purpurea* leaves 479 (1989) 319

**Glass beads**

Characteristics of glass based packings as a support in chromatography 471 (1989) 113

**Glass-fibre paper, silylated**

Electrophoretic separation of sugars and hydrolysates of polysaccharides on silylated glass-fibre paper 498 (1990) 213

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

 **$\gamma$ -Globulin**

Determination of diffusion coefficients of proteins in beaded agarose by gel filtration 483 (1989) 221

**Glucans, cyclic**

Determination of cyclic glucans by anion-exchange chromatography with pulsed amperometric detection 454 (1988) 303

**Glucitol**

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

**D-Gluco-oligosaccharides**

High-performance anion-exchange chromatography of homogeneous D-gluco-oligosaccharides and -polysaccharides (polymerization degree  $\geq 50$ ) with pulsed amperometric detection 464 (1989) 365

**D-Glucopolysaccharides**

High-performance anion-exchange chromatography of homogeneous D-gluco-oligosaccharides and -polysaccharides (polymerization degree  $\geq 50$ ) with pulsed amperometric detection 464 (1989) 365

**Glucosamine**

GC determination of glycoprotein amino sugars as O-pentafluorobenzoyloxime acetates 467 (1989) 315

GC determination of (phosphorylated) 2-keto-3-deoxyoctonic acid, heptoses and glucosamine in bacterial lipopolysaccharides after treatment with hydrofluoric acid, methanolysis and trifluoroacetylation 487 (1989) 1

**Glucose**

Maillard reaction of bovine serum albumin with glucose. Determination of 2-formyl-5-(hydroxymethyl)pyrrole-1-norleucine by HPLC after alkaline hydrolysis (in German) 463 (1989) 119

Chromatographic evaluation of sorption and diffusion characteristics of glucose, maltose and maltotriose in silica gels 463 (1989) 261

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

Inhibition of glucose utilization in uremia by hippurate: LC isolation and MS and NMR spectroscopic identification 490 (1989) 186

Liquid column chromatography of oxo compounds as their 2,4-dinitrophenylhydrazones with special reference to glucose-glycine Maillard reaction products 500 (1990) 607

**Glucose infusion fluids**

Reversed-phase HPLC method for the quantification of 5-hydroxymethylfurfural as the major degradation product of glucose in infusion fluids 467 (1989) 395

**Glucose 6-phosphate dehydrogenase**

Partial purification of glucose 6-phosphate dehydrogenase and phosphofructokinase from rat erythrocyte haemolysate by partitioning in aqueous two-phase systems 498 (1990) 159

**Glucosinolates**

Specific screening methods for glucosinolates in sprout extracts using on-line thermospray LC-tandem MS 472 (1989) 219

**D-(+)-Glucuronic acid**

Determination of enantiomeric purity of the new D-2 dopamine agonist 2-(N-propyl-N-2-thienylethylamino)-5-hydroxytetralin (N-0437) by reversed-phase HPLC after pre-column derivatization with D(+)-glucuronic acid 487 (1989) 125

**Glucuronic acid conjugates**

Evaluation of a versatile reversed-phase HPLC system using cethexonium bromide as ion-pairing reagent for the analysis of glucuronic acid conjugates 493 (1989) 137

**Glucuronides**

Reversed-phase ion-pair LC of glucuronides. Retention and selectivity 499 (1990) 411

**Glutamic acid**

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

$\gamma$ -Aminobutyric acid, glutamate, glycine and taurine analysis using reversed-phase HPLC and UV detection of dansyl chloride derivatives 487 (1989) 167

Use of stable isotopes and GC-MS in the study of different pools of neurotransmitter amino acids in brain slices 500 (1990) 387

**Glutamine**

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

 **$\gamma$ -Glutamylglutamine**

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

 **$\gamma$ -Glutamylglutamylglutamine**

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

 **$\gamma$ -Glutamyltranspeptidase**

Stability of serum  $\gamma$ -glutamyltranspeptidase fractionated by gel permeation using HPLC and FPLC 488 (1989) 503

**Glutaric acid**

Advances in the use of computerized GC-MS and HPLC with rapid scanning detection for clinical diagnosis 468 (1989) 43

**Glutathione**

Separation and detection of bis(alkylthio)selenides of penicillamine and glutathione by LC with electrochemical detection 465 (1989) 359

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

Determination of glutathione in Scots pine needles by HPLC as its monobromobimane derivative 479 (1989) 335

Liquid chromatographic determination of common water-soluble antioxidants in biological samples 487 (1989) 463

**Glutathione conjugates**

Application of capillary isotachopheresis to the analysis of glutathione conjugates 470 (1989) 191

**Glutathione disulphide**

Interrelationships between purine nucleotide degradation and radical formation during intestinal ischaemia and reperfusion: an application of ion-pair HPLC of nucleotides, nucleosides and nucleobases 491 (1989) 77

**Glutathione S-transferase**

An improved method for the separation and quantification of glutathione S-transferase subunits in rat tissue using HPLC 474 (1989) 435

**2-S-Glutathionylcaffeoyltartaric acid**

HPLC determination of the free *o*-quinones of *trans*-caffeoyltartaric acid, 2-S-glutathionylcaffeoyltartaric acid and catechin in grape must 472 (1989) 428

**Glycans**

HPLC of sialooligosaccharides and gangliosides 488 (1989) 229

**Glycerides**

Simultaneous HPLC analysis of oleic acid and simple glycerides of oleic acid 465 (1989) 438

**Glycerol**

Improved HPLC method with fluorimetric detection for the determination of glycerol using an immobilized enzyme column reactor 456 (1988) 398

**Glycerophospholipids**

Separation of alkylacyl and diacyl glycerophospholipids and their molecular species as naphthylurethanes by HPLC 493 (1989) 353

**Glyceryl dinitrates**

Simultaneous determination of glyceryl trinitrate and its metabolites, 1,2- and 1,3-glyceryl dinitrate, in plasma using capillary GC 489 (1989) 462

**Glyceryl trinitrate**

Simultaneous determination of glyceryl trinitrate and its metabolites, 1,2- and 1,3-glyceryl dinitrate, in plasma using capillary GC 489 (1989) 462

 **$\gamma$ -Glycidoxypropyltrimethoxysilane**

Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429

Spectroscopic investigation of the hydrolysis of  $\gamma$ -glycidioxypropylsilane bound to silica surfaces 483 (1989) 209

### Glycidyl ethers

Solid sorbent sampling and chromatographic determination of glycidyl ethers in air 454 (1988) 121

### Glycidyl methacrylate–ethylene dimethacrylate

Hydrolyzed macroporous glycidyl methacrylate–ethylene dimethacrylate copolymer with narrow pore size distribution. A novel packing for size-exclusion HPLC 475 (1989) 187

### 3-(4'-Glycidyoxyphenyl)-2,3-dihydro-1H-benz[de]isoquinolin-1-one

Design and synthesis of a chiral stationary phase containing a benz[de]isoquinolinone skeleton. I. First chromatographic results 475 (1989) 153

### Glycine

$\gamma$ -Aminobutyric acid, glutamate, glycine and taurine analysis using reversed-phase HPLC and UV detection of dansyl chloride derivatives 487 (1989) 167

Liquid column chromatography of oxo compounds as their 2,4-dinitrophenylhydrazones with special reference to glucose–glycine Maillard reaction products 500 (1990) 607

### Glycine betaine

Simultaneous determination of monoethanolamine and glycine betaine in plants 479 (1989) 452

### Glycoalkaloids

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

### Glycofurol

Advances in the use of computerized GC–MS and HPLC with rapid scanning detection for clinical diagnosis 468 (1989) 43

### Glycolic acid

Derivatization and HPLC determination of urinary glycolic acid 465 (1989) 87

### N-Glycolylneuraminic acid

HPLC of sialooligosaccharides and gangliosides 488 (1989) 229

### Glycopeptides

Study of the primary structure of recombinant tissue plasminogen activator by reversed-phase HPLC tryptic mapping 463 (1989) 375

### Glycophorins

Combined lectin-affinity and metal-interaction chromatography for the separation of glycophorins by HPLC 458 (1988) 1

Purification of the decomposing enzyme from *Nepenthes alata* against glycophorin B of human red blood cells by HPLC 489 (1989) 384

### Glycoproteins

Rapid high-performance affinity chromatography on micropellicular sorbents 458 (1988) 207

GC determination of glycoprotein amino sugars as O-pentafluorobenzoyloxime acetates 467 (1989) 315

Preparative isolation of glycoproteins from plasma membranes of different rat organs 484 (1989) 327

Analysis of glycoprotein-derived oligosaccharides by high-pH anion-exchange chromatography 499 (1990) 205

### Glycosides

HPLC analysis of naturally occurring glycosides and saponins 466 (1989) 390

### Glycylglycine

Determination of salsolinol by ion-exchange chromatography with glycylglycine as the post-derivatizing agent 459 (1988) 245

### Glycyrrhetic acid

Improvement of selectivity and sensitivity by column switching in the determination of glycyrrhizin and glycyrrhetic acid in human plasma by HPLC 456 (1988) 71

### Glycyrrhetic acid

Determination of glycyrrhizin and its metabolite glycyrrhetic acid in rabbit plasma by HPLC after oral administration of licorizin 495 (1989) 343

### Glycyrrhizin

Improvement of selectivity and sensitivity by column switching in the determination of glycyrrhizin and glycyrrhetic acid in human plasma by HPLC 456 (1988) 71

Determination of glycyrrhizin and its metabolite glycyrrhetic acid in rabbit plasma by HPLC after oral administration of licorizin 495 (1989) 343

### **Glyoxylic acid**

HPLC of mixtures of catechol and its reaction products with glyoxylic acid 472 (1989) 381

### **Golay's equations**

Theory of open-tube chromatography: an exact proof of Golay's equations 471 (1989) 61

### **Gonadotropin-releasing hormone**

HPLC monitoring of transpeptidation reactions in analogues of gonadotropin releasing hormone containing aspartic acid derivatives in position six 477 (1989) 377

### **Gonadotropin-releasing hormone antagonist**

Preparative-scale synthesis and reversed-phase purification of a gonadotropin-releasing hormone antagonist 484 (1989) 307

### **Gorgosterol**

Effective separation of sterol C-24 epimers 468 (1989) 91

### **Gouda cheese**

HPLC determination of the extent of proteolysis in Gouda cheese 483 (1989) 319

### **Gradient elution**

Gradient elution with normal phases on silica. A comparison between HPLC and SFC 454 (1988) 253

Consecutive gradients in chromatography. Gradients under sub- and supercritical conditions including composition gradients and multiple gradients 455 (1988) 17

HPLC of amino acids, peptides and proteins. LXXXVII. Comparison of retention and bandwidth properties of proteins eluted by gradient and isocratic anion-exchange chromatography 458 (1988) 27

Computer-assisted retention prediction system for oligonucleotides in gradient anion-exchange chromatography 458 (1988) 385

Design of optimized HPLC gradients for the separation of either small or large molecules. I. Minimizing errors in computer simulations 459 (1988) 1

Design of optimized HPLC gradients for the separation of either small or large molecules. II. Background and theory 459 (1988) 25

Design of optimized HPLC gradients for the separation of either small or large molecules. III. An overall strategy and its application to several examples 459 (1988) 43

Gradient elution in hollow-fibre flow field-flow fractionation 461 (1989) 89

Sample-induced internal gradient of ionic strength in ion-exclusion microcolumn LC 469 (1989) 223

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

HPLC of amino acids, peptides and proteins. XL1. The influence of temperature on the chromatographic behaviour of peptides related to human growth hormone 476 (1989) 125

HPLC of amino acids, peptides and proteins. LXXXIX. The influence of different displacer salts on the retention properties of proteins separated by gradient anion-exchange chromatography 476 (1989) 391

Separation of two molecular forms of human estrogen receptor by hydrophobic interaction chromatography. Gradient optimization and tissue comparison 476 (1989) 455

Limitations of high-speed reversed-phase HPLC observed with integral membrane proteins 477 (1989) 131

Performing high salt concentration gradient elution ion-exchange separations using thermospray MS 479 (1989) 437

Synthetic peptide purification by application of linear solvent strength gradient theory 483 (1989) 131

Gradient elution in non-linear preparative LC 484 (1989) 1

Preparative HPLC under gradient conditions. I. Band broadening in gradient elution as a function of sample size 484 (1989) 409

Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425

Preparative HPLC under gradient conditions. III. Craig simulations for heavily overloaded separations 484 (1989) 437

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Predictive calculation methods for optimization of gradient elution using binary and ternary solvent gradients 485 (1989) 113

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

Computer-assisted selection of the optimum gradient programme in TLC 485 (1989) 517

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient elution of a mixture of natural secoiridoid compounds 485 (1989) 631

Optimization of gradients in anion-exchange separations of oligonucleotides using computer-assisted retention prediction and an HPLC simulation system 485 (1989) 647

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

Binary and ternary salt gradients in hydrophobic-interaction chromatography of proteins 499 (1990) 141

### **Gradient flow programming**

Gradient flow programming: a coupling of gradient elution and flow programming 467 (1989) 1

### **Gradient scan**

Algorithms to correct gradient scan and transfer rule predictions of isocratic retention in reversed-phase LC 463 (1989) 1

### **Gradient shape**

Design of optimized HPLC gradients for the separation of either small or large molecules. II. Background and theory 459 (1988) 25

### **Gradient steepness**

Design of optimized HPLC gradients for the separation of either small or large molecules. II. Background and theory 459 (1988) 25

Limitations of high-speed reversed-phase HPLC observed with integral membrane proteins 477 (1989) 131

### **Graig simulations**

Preparative HPLC under isocratic conditions. I. Craig simulations for heavily overloaded separations 483 (1989) 63

### **Gramicidin A**

New HPLC-based methodology for monitoring the conformational transitions of self-associating hydrophobic peptides, incorporated into liposomes 458 (1988) 105

### **Graphitic carbon**

Mechanism of retention in HPLC on porous graphitic carbon as revealed by principal component analysis of structural descriptors of solutes 499 (1990) 333

### **Graphitized carbon black**

Performance of graphitized carbon black cartridges in the extraction of some organic priority pollutants from water 452 (1988) 527

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

Determination of the GC performance characteristics of several graphitized carbon blacks 471 (1989) 105

Intermolecular interactions in the sorbate-modified graphitized thermal carbon black system 472 (1989) 155

New perspectives in capillary chromatography 473 (1989) 93

### **Growth-associated protein B-50**

Microheterogeneity of the growth-associated neuronal protein B-50 (GAP-43). Contribution of phosphorylation by protein kinase C 483 (1989) 301

### **Growth hormone**

Immobilized metal-ion affinity chromatography of human growth hormone 472 (1989) 422

HPLC of amino acids, peptides and proteins. XC. Investigations into the relationship between structure and reversed-phase HPLC retention behaviour of peptides related to human growth hormone 476 (1989) 113

HPLC of amino acids, peptides and proteins. XCI. The influence of temperature on the chromatographic behaviour of peptides related to human growth hormone 476 (1989) 125

Characterization of human growth hormone by capillary electrophoresis 480 (1989) 379

Capillary zone electrophoresis of peptide fragments from trypsin digestion of biosynthetic human growth hormone 480 (1989) 393

Automated evaluation of tryptic digest from recombinant human growth hormone using UV spectra and numeric peak information 499 (1990) 221

Application of high-performance hydrophobic-interaction chromatography to the characterization of recombinant DNA-derived human growth hormone 500 (1990) 595

### **Growth hormone receptors**

Efficient HPLC system for protein purification 493 (1989) 27

### **Growth hormone-releasing hormone**

Reversed-phase HPLC purification of <sup>125</sup>I-labeled rat growth hormone-releasing hormone for radioimmunoassay 483 (1989) 253

### **Guaiazulene**

Determination of the ophthalmic drug guaiazulene by HPLC 463 (1989) 227

### **Guanidines**

Separation of simple guanidines on cation-exchange columns using indirect ultraviolet detection 466 (1989) 438

### **Gunshot residues**

Dynamic headspace method for the improved clean-up of gunshot residues prior to the detection of nitroglycerine by capillary column GC with thermal energy analysis detection 464 (1989) 178

### **Guvacine**

HPLC determination of the alkaloids in betel nut 475 (1989) 447

### **Guvacoline**

HPLC determination of the alkaloids in betel nut 475 (1989) 447

### **Gypsogenin 3,O-glucuronide**

Extraction and HPLC determination of gypsogenin 3,O-glucuronide 477 (1989) 413

# H

### **Haem**

Chromatographic analysis, isolation and partial characterization of two photocatalysed reaction products of haem and quinone 490 (1989) 311

### **Haemoglobins**

Identification of peptides, from a peptic haemoglobin hydrolysate produced at pilot-plant scale, by HPLC and MS 481 (1989) 221

Quantitation of hemoglobins Bart's, H, Portland-I, Portland-II and Constant Spring by anion-exchange HPLC 487 (1989) 265

Purification of the isolated  $\beta$ -chain of adult human haemoglobin from its post-translational modification 494 (1989) 310

Application of HPLC methodology to the analysis of hemoglobins synthesized in erythroid progenitor cells 496 (1989) 83

HPLC of proteins on deformed non-porous agarose beads. Fast boronate affinity chromatography of haemoglobin at neutral pH 500 (1990) 543

### **Hall electrolytic conductivity detector**

Factorial optimization for flows in the Hall electrolytic conductivity detector 473 (1989) 27

### **Halobenzenes**

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

### **Halocarbons**

Determination of tropospheric phosgene and other halocarbons by capillary GC 481 (1989) 373

### **Halofantrine**

Chiral separation of the optical isomers of the antimalarial drug halofantrine 477 (1989) 471

### **Halogenated compounds**

GC separation of halogenated compounds on non-polar and polar wide bore capillary columns 454 (1988) 129

### **1-Halogenoalkanes**

Precalculation of GC retention indices of linear 1-halogenoalkanes 463 (1989) 159

**1,2-Halohydrins**

Resolution of *rac*-1,2-halohydrins by chiral complexation GC 462 (1989) 458

**Halomethanes**

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

**Haloperidol**

Determination of residues of carazolol and a number of tranquillizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

**Harmaline**

Determination of pharmacological levels of harmine, harmine and harmaline in mammalian brain tissue, cerebrospinal fluid and plasma by HPLC with fluorimetric detection 496 (1989) 269

**Harmane**

Determination of pharmacological levels of harmine, harmine and harmaline in mammalian brain tissue, cerebrospinal fluid and plasma by HPLC with fluorimetric detection 496 (1989) 269

**Harmine**

Determination of pharmacological levels of harmine, harmine and harmaline in mammalian brain tissue, cerebrospinal fluid and plasma by HPLC with fluorimetric detection 496 (1989) 269

**HCB**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

**HCH**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

**Headspace analysis**

Analysis of short alkylsilane bonded silica gel HPLC stationary phases using hydrofluoric acid digestion and headspace analysis by capillary GC 452 (1988) 43

Theoretical aspects of the application of headspace analysis to the investigation of reaction kinetics in solutions 454 (1988) 327

Determination of partition coefficients by headspace GC 455 (1988) 45

Vapor-pressure measurement of complex hydrocarbon mixtures by headspace GC 455 (1988) 53

Determination of the solubility of vapours in polymers by automated headspace GC 455 (1988) 67

Flavor characterization of dentifrices using equilibrium headspace GC 455 (1988) 143

Application of headspace GC to the measurement of organic emissions 456 (1988) 241

Simple sample preparation for the quantitative multiple-headspace analysis of volatile components using adsorption patterns (in German) 456 (1988) 417

Indirect method for the determination of water using headspace GC 457 (1988) 247

Determination of water in solid samples using headspace GC 463 (1989) 365

Dynamic headspace method for the improved clean-up of gunshot residues prior to the detection of nitroglycerine by capillary column GC with thermal energy analysis detection 464 (1989) 178

Direct headspace GC determination of dichloromethane in decaffeinated green and roasted coffee 465 (1989) 429

Modified analytical technique for the determination of trace organics in water using dynamic headspace and GC-MS 467 (1989) 111

Headspace GC of stimulants in urine by in-column trifluoroacetyl derivatization method 467 (1989) 227

Basic equations in continuous gas extraction and their application to headspace analysis 471 (1989) 55

Rapid headspace GC method for the determination of liquid/gas partition coefficients 491 (1989) 271

Simultaneous determination of benzene and toluene in the blood using head-space GC 491 (1989) 309

**Heat of adsorption**

Retention and heats of adsorption of hydrocarbons and aliphatic alcohols on cellulose 455 (1988) 263

**Heat of solution**

Heat of solution in a polyethylene glycol stationary phase of several cyclic and bicyclic compounds 463 (1989) 441

**Heat-shock proteins**

Separation of rat liver HSP70 and HSP71 by HPLC with a hydroxylapatite column 481 (1989) 403

**Hectorite**

HPLC for optical resolution on a column of an ion-exchange adduct of spherically shaped synthetic hectorite and optically active metal complexes 482 (1989) 165

**Helical coil rotor**

Centrifugal counter-current partition chromatography with helical coil rotor. Simplified counter-current chromatography with a rotating face-seal 483 (1989) 359

**Helium head-pressure carbon dioxide**

Reproducibility of packed-column SFC with helium head-pressure carbon dioxide 465 (1989) 11

**Hemiacetals**

Chromatographic and spectroscopic properties of hemiacetals of aflatoxin and sterigmatocystin metabolites 462 (1989) 269

**Henry coefficient**

Organic solutes in paraffin solvents. Influence of the size of the solvent molecule on solution data 500 (1990) 139

**Heparan sulphate**

HPLC identification of disaccharides generated from heparan sulphate isomers using heparitinases 496 (1989) 27

**Heparins**

Analysis of heparins by size-exclusion and reversed-phase HPLC with photodiode-array detection 465 (1989) 297

**Heparitinases**

HPLC identification of disaccharides generated from heparan sulphate isomers using heparitinases 496 (1989) 27

**Heptachlor epoxide**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

**Heptaene antibiotics**

see also Antibiotics

Isolation of the aromatic heptaenic antibiotics trichomycin A-F by HPLC 481 (1989) 416

**Heptafluorobutyryl-L-prolyl chloride**

Isothermal capillary GC with electron-capture detection of heptafluorobutyryl-L-prolyl derivatives of chiral amphetamines 491 (1989) 262

**Heptanesulphonic acid**

Use of free-flow electrophoresis for the purification of components separated by ion-pair chromatography 469 (1989) 444

**Heptoses**

GC determination of (phosphorylated) 2-keto-3-deoxyoctonic acid, heptoses and glucosamine in bacterial lipopolysaccharides after treatment with hydrofluoric acid, methanolysis and trifluoroacetylation 487 (1989) 1

**Herbicides**

see Pesticides

**Hernandulcin**

Separation of natural product sweetening agents using overpressured layer chromatography 464 (1989) 213

**Heroin**

Programmable temperature vaporizer applications in an high-resolution GC method for the quantitation of impurities in illicit heroin 466 (1989) 384

HPLC determination of morphine in biological samples: an overview of separation methods and detection techniques 488 (1989) 215

**Heterocyclic acids**

Picolinic acid: a mobile phase additive for improved chromatography of metal-chelating heterocyclic acids and  $\beta$ -diketones 471 (1989) 437

**Hexacarboxylic porphyrinogens**

Preparation, HPLC separation and characterization of hexacarboxylic porphyrinogens 461 (1989) 353

**Hexadecane**

Stability constants of hydracid-tributyl phosphate complexes in alkane solution: hydrochloric acid and hydrogen cyanide 468 (1989) 73

**Hexafluoroisopropanol**

High-performance SEC of poly- and oligoethylene terephthalate using a mixture of hexafluoroisopropanol and chloroform as the mobile phase 479 (1989) 85

**Hexaglycine**

Simultaneous analysis of different species involved in hexaglycine hydrolysis 475 (1989) 416

**1,6-Hexamethylenediamine**

Chromatographic determination of amines in biological fluids with spectral reference to the biological monitoring of isocyanates and amines. I. Determination of 1,6-hexamethylenediamine using glass capillary GC and thermionic specific detection 479 (1989) 125

**Hexane**

Solvent strength and selectivity properties of supercritical carbon dioxide relative to liquid hexane 465 (1989) 177

**2,5-Hexanedione**

Determination of total 2,5-hexanedione by reversed-phase HPLC 495 (1989) 288

**1-Hexanol**

Adsorption isotherms on silica for methanol and 1-hexanol modifiers from supercritical carbon dioxide 471 (1989) 357

**3-Hexen-1-ol**

Displacement chromatography on cyclodextrin-silicas. II. Separation of *cis-trans* isomers in the reversed-phase mode on  $\alpha$ -cyclodextrin-silica 484 (1989) 251

**Hexestrol**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

**Hexitols**

Separation of algal organic osmolytes by HPLC 479 (1989) 353

Rapid analysis of sorbitol, galactitol, mannitol and myoinositol mixtures from biological sources 490 (1989) 1

**Hexoestrol**

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

**Hexosamines**

Analysis of natural and modified amino acids and hexosamines by reversed-phase HPLC 474 (1989) 411

**Hexuronic acid**

Chromatographic method for determination of hexuronic acid in dermatan sulphate 478 (1989) 275

**Hinokitiol**

HPLC determination of hinokitiol in cosmetics by the formation of difluoroborane compounds 455 (1988) 430

**Hippuric acid**

Rapid method for the determination of hippurate in biological fluids by HPLC 487 (1989) 440

Inhibition of glucose utilization in uremia by hippurate: LC isolation and MS and NMR spectroscopic identification 490 (1989) 186

Determination of hippuric acid and furanic acid in serum of dialysis patients and control persons by HPLC 495 (1989) 95

HPLC separation of urinary hippuric and *o*-, *m*- and *p*-methylhippuric acids with a  $\beta$ -cyclodextrin-bonded column 496 (1989) 189

Hippuric acid and 3-carboxy-4-methyl-5-propyl-2-furanpropionic acid in serum and urine. Analytical approaches and clinical relevance in kidney diseases 500 (1990) 615

**Hirudin**

Isolation of recombinant hirudin by preparative HPLC 476 (1989) 245

**Histamine**

Assay for N<sup>7</sup>-methylimidazoleacetic acid, a major metabolite of histamine, in urine and plasma using capillary column GC-negative ion MS 491 (1989) 15

HPLC technique for the rapid determination of histamine in both the plasma and cellular components of blood 496 (1989) 435

**Histamine H<sub>2</sub>-antagonists**

GLC resolution of some racemic synthons for lamtidine analogous histamine H<sub>2</sub>-receptor antagonists via diastereomeric amides of (1S)-(-)-camphanic acid 467 (1989) 402

**Histidine-containing compounds**

Capillary zone electrophoresis of histidine-containing compounds 470 (1989) 241

**Histones**

Separation of RNA and DNA by histone affinity HPLC 455 (1988) 401

**Histones, ADP-ribosylated**

Identification of ADP-ribosylated histones by the combined use of HPLC and electrophoresis 472 (1989) 243

**HIV-1 proteins**

Isolation of recombinant partial *gag* gene product p18 (HIV-1<sub>Bru</sub>) from *Escherichia coli* 476 (1989) 99

**Hofmann degradation reaction**

Characterization of the anti-diarrhoeal loperamide by GC-MS and application of the Hofmann degradation and Cope elimination reaction 494 (1989) 324

**Hollow-fibre flow field-flow fractionation**

Gradient elution in hollow-fibre flow field-flow fractionation 461 (1989) 89

**Hollow-fibre membrane reactors**

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

**Homobrassinolide**

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

**Homocastasterone**

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

**Homoharringtonine**

Quantitation of homoharringtonine in plasma by HPLC with amperometric detection 496 (1989) 155

**L-Homoserine**

Simultaneous determination of L-homoserine and L-homoserine lactone by reversed-phase LC in acid hydrolysates of proteins after cyanogen bromide treatment 493 (1989) 380

**L-Homoserine lactone**

Simultaneous determination of L-homoserine and L-homoserine lactone by reversed-phase LC in acid hydrolysates of proteins after cyanogen bromide treatment 493 (1989) 380

**Homovanillic acid**

Full automation of catecholamine metabolite determination by column switching and HPLC 465 (1989) 113

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

Simultaneous automated HPLC determination of 5-hydroxy-3-indoleacetic acid and homovanillic acid in urine with fluorescence detection 495 (1989) 263

**Hordenine**

Separation of hordenine and N-methyl derivatives from germinating barley by LC with dual-electrode coulometric detection 498 (1990) 241

**Horizontal flow-through coil planet centrifuge**

Horizontal flow-through coil planet centrifuge equipped with a set of multilayer coils around the column holder. Counter-current chromatography of proteins with a polymer-phase system 457 (1988) 393

**Hormones**

Reversed-phase HPLC analyses of insulin biosynthesis in isolated rat and mouse islets 462 (1989) 243

Immobilized metal-ion affinity chromatography of human growth hormone 472 (1989) 422

Characterization of human growth hormone by capillary electrophoresis 480 (1989) 379

Reversed-phase HPLC purification of <sup>125</sup>I-labeled rat growth hormone-releasing hormone for radioimmunoassay 483 (1989) 253

Rapid separation of tritiated thyrotropin-releasing hormone and its catabolic products from mouse and human central nervous system tissues by HPLC with radioactive flow detection 487 (1989) 275

Analysis of term human milk concentrations of 3,5,3'-triiodo-L-thyronine by HPLC and radioimmunoassay: correlation with circulating serum levels in lactating women 487 (1989) 445

Automated evaluation of tryptic digest from recombinant human growth hormone using UV spectra and numeric peak information 499 (1990) 221

Application of high-performance hydrophobic-interaction chromatography to the characterization of recombinant DNA-derived human growth hormone 500 (1990) 595

**Horváth-Lin equation of state**

Investigation and improvement of the Horváth-Lin equation of state 499 (1990) 463

**Host-guest complexation**

Host-guest complexation in capillary isotachopheresis. II. Determination of aminophenol and diaminobenzene isomers in permanent hair colorants by using capillary isotachopheresis 470 (1989) 123

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

**Hot thin-layer chromatography**

Hot TLC fractionation of polyethylene 456 (1988) 440

**HPLC-METABOLEXP**

Prediction of retention of metabolites in HPLC by an expert system approach 485 (1989) 349

***h*-Transform**

Analytical solution of the ideal model of elution chromatography in the case of a binary mixture with competitive Langmuir isotherms. II. Solution using the *h*-transform 484 (1989) 125

**HT-2 toxin**

Bioautographic detection of T-2 and HT-2 toxins 463 (1989) 457

 **$\alpha$ -Human atrial natriuretic peptide**

Development of a solid-phase extraction technique for  $\alpha$ -human atrial natriuretic peptide in human plasma 452 (1988) 469

**Humic acid**

HPLC determination of humic acid in environmental samples at the nanogram level using fluorescence detection 482 (1989) 175

**Humulone**

Preparative LC of hop and beer bitter acids 484 (1989) 361

**HY-770**

Determination of a new muscle relaxant (HY-770) in human serum by GC-MS 496 (1989) 456

**Hyaluronate**

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

**Hyaluronate oligosaccharides**

Determination of Stokes radii of hyaluronate oligosaccharides by Sephadex gel chromatography 472 (1989) 145

**Hybridization, solid-phase**

HPLC of amino acids, peptides, proteins and polynucleotides. XCIV. Solid-phase hybridization of complementary oligonucleotides 476 (1989) 445

**Hydrazine**

LC determination of hydrazine, carbohydrazide and thiocarbohydrazide in aqueous solutions 464 (1989) 208

**7-Hydrazino-4-nitrobenzo-2,1,3-oxadiazole**

HPLC of aliphatic aldehydes by means of post-column extraction with fluorometric detection 457 (1988) 299

**Hydrazobenzene**

Trace/ultratrace analyses of unstable compounds. Investigations on hydrazobenzene and azobenzene 471 (1989) 443

**Hydrocarbon C<sub>87</sub>**

Problems with the reproducibility of retention data on capillary columns with hydrocarbon C<sub>87</sub> as the stationary phase 454 (1988) 65

**Hydrocarbon group type analysis**

Hydrocarbon group type analysis of petroleum products by HPLC on organometallic donor/acceptor-bonded silica 461 (1989) 347

**Hydrocarbons**

Vapor-pressure measurement of complex hydrocarbon mixtures by headspace GC 455 (1988) 53

Retention and heats of adsorption of hydrocarbons and aliphatic alcohols on cellulose 455 (1988) 263

Optimization of selectivity by tuning column temperatures for series-coupled capillary columns in dual-oven GC systems 463 (1989) 243

Reproducibility of packed-column SFC with helium head-pressure carbon dioxide 465 (1989) 11

Sequential hydrocarbon and nitrogen detection in TLC analysis of oil shale bitumen 465 (1989) 345

Investigation of small populations of reactive silanols on silica surfaces 467 (1989) 31

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

Intermolecular interactions in the sorbate-modified graphitized thermal carbon black system 472 (1989) 155

Polymer-based packing materials with alkyl backbones for reversed-phase LC. Performance and retention selectivity 475 (1989) 195

Gas chromatography of Titan's atmosphere. I. Analysis of low-molecular-weight hydrocarbons and nitriles with a PoraPLOT Q porous polymer coated open-tubular capillary column 481 (1989) 45

Preparation of carboneous adsorbents by catalytic decomposition of hydrocarbons for chromatographic application 483 (1989) 197

Rapid analysis of light hydrocarbons in stabilized crude oils by GC 498 (1990) 231

New solid adsorbents for the separation of lower hydrocarbons and permanent gases. I. Ammonium tungstophosphate 498 (1990) 349

Computerized capillary GC analysis of hydrocarbon mixtures in workplace air 498 (1990) 381

Direct coupling of capillary LC with conventional HPLC 499 (1990) 549

### Hydrochloric acid

Stability constants of hydracid-tributyl phosphate complexes in alkane solution: hydrochloric acid and hydrogen cyanide 468 (1989) 73

### Hydrochlorothiazide

Traditional oriental medicines. I. Black Pearl: identification and chromatographic determination of some undeclared medicinal ingredients 469 (1989) 406

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

### Hydrofluoric acid digestion

Analysis of short alkylsilane bonded silica gel HPLC stationary phases using hydrofluoric acid digestion and headspace analysis by capillary GC 452 (1988) 43

### Hydrogen bond acidity

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

### Hydrogen bond basicity

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

### Hydrogen bonding effect

Modeling octanol-water partition coefficients by reversed-phase LC 461 (1989) 177

### Hydrogen cyanide

Stability constants of hydracid-tributyl phosphate complexes in alkane solution: hydrochloric acid and hydrogen cyanide 468 (1989) 73

### Hydrogen ion, terminating

General mathematical model for the steady state in isotachopheresis. Calculation of the effective mobility of terminating  $H^+$  ions and two-buffer electrolyte systems 480 (1989) 69

### Hydrogen isotopes

Adsorption equilibrium of hydrogen isotopes on alumina adsorbents for GSC 475 (1989) 125

### Hydrogen peroxide

Use of GC in the study of the oxidative decomposition of spent organic solvents from reprocessing plants 463 (1989) 81

Fluorimetric determination of kynurenine in human serum by HPLC coupled with post-column photochemical reaction with hydrogen peroxide 488 (1989) 349

Fluorimetric determination of indomethacin in human serum by HPLC coupled with post-column photochemical reaction with hydrogen peroxide 491 (1989) 389

### Hydrogen sulphide

Determination of hydrogen sulphide by porous-layer open-tubular column GC-MS 479 (1989) 194

### Hydroperoxydocosaehaenoic acid

Measurement of hydroperoxydocosaehaenoic acid in rat brain homogenates by reversed-phase HPLC 475 (1989) 457

### Hydrophilic drugs

Direct serum injection in micellar liquid chromatography. Recovery of serum proteins and assay of hydrophilic drugs 488 (1989) 341

### Hydrophilic-interaction chromatography

Hydrophilic-interaction chromatography for the separation of peptides, nucleic acids and other polar compounds 499 (1990) 177

**Hydrophobic interaction chromatography**

Comparison of phenyl- and octyl-Sephacrose CL-4B in the hydrophobic interaction chromatography of simple aliphatic and aromatic compounds 498 (1990) 237

**Hydrophobic interactions**

Interplay of hydrophobic and electrostatic interactions in biopolymer chromatography. Effect of salts on the retention of proteins 469 (1989) 3

Strong cation-exchange HPLC of peptides. Effect of non-specific hydrophobic interactions and linearization of peptide retention behaviour 476 (1989) 377

Enantioselective hydrophobic entanglement of enantiomeric solutes with chiral functionalized micelles by electrokinetic chromatography 480 (1989) 413

**Hydrophobicity**

Thermodynamics of  $\alpha$ -lactalbumin denaturation in hydrophobic-interaction chromatography and stationary phases comparison 458 (1988) 93

Determination of hydrophobicity parameters on polybutadiene-coated alumina and their application in quantitative structure-activity relationships analysis 458 (1988) 395

Correlation of protein retention times in reversed-phase chromatography with polypeptide chain length and hydrophobicity 476 (1989) 363

Basis of the rational selection of the hydrophobicity and concentration of the ion-pairing reagent in reversed-phase ion-pair HPLC 499 (1990) 423

**Hydrostatic injection**

Zone broadening due to sample injection in capillary zone electrophoresis 471 (1989) 421

**3'-Hydroxyacetanilide**

Use of thermospray LC-MS for characterization of reactive metabolites of 3'-hydroxyacetanilide, a non-hepatotoxic regioisomer of acetaminophen 474 (1989) 209

**1-Hydroxy-3-aminopropylidene-1,1-bisphosphonate**

Assay of 1-hydroxy-3-aminopropylidene-1,1-bisphosphonate and related bisphosphonates in human urine and plasma by high-performance ion chromatography 490 (1989) 329

**10-Hydroxyamitriptyline**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

**3-Hydroxyanthranilic acid**

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

**Hydroxyanthraquinones**

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

**4-Hydroxyantipyrine**

Modified HPLC assay for antipyrine and its three major metabolites in urine 494 (1989) 424

**Hydroxyapatite**

Protein A, hydroxyapatite and diethylaminoethyl: evaluation of three procedures for the preparative purification of monoclonal antibodies by HPLC 465 (1989) 101

High-performance hydroxyapatite chromatography of nucleic acids 467 (1989) 299

Comparison of protein A, protein G and copolymerized hydroxyapatite for the purification of human monoclonal antibodies 476 (1989) 257

High-performance adsorption chromatography of transfer ribonucleic acids and proteins on 2- $\mu$ m spherical beads of hydroxyapatite. Influence of sodium chloride and magnesium ions on the resolution 499 (1990) 153

**8 $\beta$ -Hydroxyasteroid**

Separation and determination of 8 $\beta$ -hydroxyasteroid and perlolyrine in *Codonopsis pilosula* by reversed-phase HPLC 477 (1989) 458

**2-Hydroxybenzaldehydes**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

**4-Hydroxybenzaldehydes**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

**Hydroxybenzenes**

Mobility of some carboxy- and hydroxybenzene derivatives on thin layers of plain and iron(III)-impregnated silica gel 464 (1989) 220

***p*-Hydroxybenzoic acid esters**

Simultaneous determination of nine food additives using HPLC 457 (1988) 333

**2-Hydroxycarboxylic acids**

Pentafluorobenzoic anhydride as a derivatizing agent for alcohols and hydroxy fatty acid methyl esters detected by electron capture in GC 466 (1989) 251

**Hydroxycarboxylic acids**

GC determination of oxo- and hydroxycarboxylic acids in serum and urine of diabetic and normal subjects 468 (1989) 157

Optical resolution of amino acids, peptides and hydroxycarboxylic acids using a new chiral column for ligand-exchange chromatography 473 (1989) 241

Reversed-phase TLC and HPLC of aromatic alkoxy and hydroxy acids 475 (1989) 321

Isolation of hydroxy fatty acids from livers of carbon tetrachloride-treated rats by TLC 475 (1989) 461

**2-Hydroxycarpipramine**

Preparative HPLC method for the 2-hydroxy metabolite of carpipramine, excreted by isolated perfused liver 491 (1989) 495

**7 $\alpha$ -Hydroxycholesterol**

Assay of cholesterol 7 $\alpha$ -hydroxylase utilizing a silica cartridge column and 5 $\alpha$ -cholestane-3 $\beta$ , 7 $\beta$ -diol as an internal standard 496 (1989) 255

**7 $\beta$ -Hydroxycholesterol**

Assay of cholesterol 7 $\alpha$ -hydroxylase utilizing a silica cartridge column and 5 $\alpha$ -cholestane-3 $\beta$ , 7 $\beta$ -diol as an internal standard 496 (1989) 255

**21-Hydroxycorticosteroids**

Measurement of 21-hydroxycorticosteroids in human and rat sera by HPLC with fluorimetric detection 489 (1989) 364

***trans*-3'-Hydroxycotinine**

Capillary GC determination of *trans*-3'-hydroxycotinine simultaneously with nicotine and cotinine in urine and blood samples 479 (1989) 410

**4-Hydroxycyclophosphamide**

Analysis of 4-hydroxycyclophosphamide by GC-MS in plasma 495 (1989) 131

**17 $\alpha$ -Hydroxy-6-dehydroprogesterone acetate**

HPLC analysis of the by-products of the synthesis of ethynylestradiol, mestranol, 17 $\alpha$ -hydroxyprogesterone caproate and 17 $\alpha$ -hydroxy-6-dehydroprogesterone acetate 456 (1988) 427

**2-Hydroxyechinenone**

Diastereomeric resolution of carotenoids. III.  $\beta$ , $\beta$ -Caroten-2-ol,  $\beta$ , $\beta$ -carotene-2,2'-diol and 2-hydroxyechinenone 478 (1989) 379

**4'-Hydroxyechinenone**

Diastereomeric resolution of carotenoids. IV. Carotenoids with a 4-hydroxy- $\beta$ -end group 482 (1989) 189

**Hydroxyeicosatetraenoic acids**

Isotope dilution GC-MS for the study of eicosanoid metabolism in human blood platelets 488 (1989) 283

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

15-Hydroxyeicosatetraenoic acid as a major eicosanoid in nasal secretions: assay by HPLC-radioimmunoassay and GC-MS procedures 496 (1989) 416

**Hydroxy esters**

Heat of solution in a polyethylene glycol stationary phase of several cyclic and bicyclic compounds 463 (1989) 441

**Hydroxyethyl- $\beta$ -cyclodextrin**

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

**N-1-Hydroxyethylflurazepam**

Simultaneous determination of flurazepam and its metabolites in human plasma by HPLC 494 (1989) 247

**N7-(2-Hydroxyethyl)guanine**

Preparation of electrophoric derivatives of N7-(2-hydroxyethyl)guanine, an ethylene oxide DNA adduct 499 (1990) 571

**N-(Hydroxyethyl)methylpiperazine**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

**Hydroxy fatty acid methyl esters**

Pentafluorobenzoic anhydride as a derivatizing agent for alcohols and hydroxy fatty acid methyl esters detected by electron capture in GC 466 (1989) 251

**4-Hydroxyflurbiprofen**

HPLC analysis of the enantiomers of flurbiprofen and its metabolites in plasma and urine 494 (1989) 173

**Hydroxyheptadecatrienoic acid**

Isotope dilution GC-MS for the study of eicosanoid metabolism in human blood platelets 488 (1989) 283

**Hydroxyibuprofen**

HPLC determination of ibuprofen, its metabolites and enantiomers in biological fluids 491 (1989) 139

**5-Hydroxyindole-3-acetic acid**

LC procedures for the analysis of compounds in the serotonergic and octopamine pathways of lobster hemolymph 452 (1988) 491

Determination of 5-hydroxytryptamine and 5-hydroxyindoleacetic acid in plasma by direct injection in coupled-column LC with electrochemical detection 459 (1988) 351

Full automation of catecholamine metabolite determination by column switching and HPLC 465 (1989) 113

Simple HPLC method with electrochemical detection for the determination of indoleamines in tissue and plasma 491 (1989) 221

Simultaneous automated HPLC determination of 5-hydroxy-3-indoleacetic acid and homovanillic acid in urine with fluorescence detection 495 (1989) 263

**3-Hydroxykynurenine**

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

**9-Hydroxylamine-1,2,3,4-tetrahydroacridine**

Identification of 9-hydroxylamine-1,2,3,4-tetrahydroacridine as a hepatic microsomal metabolite of tacrine by HPLC and electrochemistry 487 (1989) 401

**11-Hydroxylauric acid**

HPLC separation of 11-hydroxylauric acid enantiomers. Application to the determination of

the stereochemistry of microsomal lauric acids ( $\omega - 1$ ) hydroxylation 498 (1990) 293

**7-Hydroxymethotrexate**

Rapid quantitation of methotrexate and its metabolites in human serum, urine and bile, using solid-phase extraction and HPLC 487 (1989) 476

Stable and sensitive method for the simultaneous determination of N<sup>5</sup>-methyltetrahydrofolate, leucovorin, methotrexate and 7-hydroxymethotrexate in biological fluids 488 (1989) 379

**2-Hydroxy-4-methoxyacetophenone**

Simple method for the determination of paeonol in human and rabbit plasma by HPLC using solid-phase extraction and UV detection 489 (1989) 432

**3'-Hydroxy-4'-methoxyflurbiprofen**

HPLC analysis of the enantiomers of flurbiprofen and its metabolites in plasma and urine 494 (1989) 173

**5-Hydroxymethoxyphenamine**

Enantioselective GC assays with electron-capture detection for methoxyphenamine and its three primary metabolites in human urine 487 (1989) 61

**Hydroxymethylantipyrine**

Modified HPLC assay for antipyrine and its three major metabolites in urine 494 (1989) 424

 **$\alpha$ -Hydroxy- $\alpha$ -methylbutyrate**

Chromatographic separation of the heavier lanthanoids on the spherical cation exchanger OSTION with  $\alpha$ -hydroxy- $\alpha$ -methylbutyrate 478 (1989) 446

**5-Hydroxymethylfurfural**

Reversed-phase HPLC method for the quantification of 5-hydroxymethylfurfural as the major degradation product of glucose in infusion fluids 467 (1989) 395

**6-Hydroxy-6-methyl-3-heptanone**

Formation of cyclic enol ethers from a labile biological precursor: an example of analytical artifacts 491 (1989) 27

**1-Hydroxymethyl-4-hydroxymidazolam**

Simultaneous determination of midazolam and its three hydroxy metabolites in human plasma by electron-capture GC without derivatization 491 (1989) 107

**2-Hydroxy-4-methylmercaptobutyric acid**

On-line HPLC for the determination of cephalosporin C and by-products in complex fermentation broths 499 (1990) 609

**1-Hydroxymethylmidazolam**

Simultaneous determination of midazolam and its three hydroxy metabolites in human plasma by electron-capture GC without derivatization 491 (1989) 107

**6-Hydroxymethylpterin**

Determination of pterins in urine by HPLC on C<sub>18</sub> columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

**5-Hydroxymethyluracil**

Trace detection of modified DNA bases via moving-belt LC-MS using electrophoretic derivatization and negative chemical ionization 465 (1989) 285

Ester and related derivatives of ring N-pentafluorobenzylated 5-hydroxymethyluracil. Hydrolytic stability, MS properties, and trace detection by GC-electron-capture detection, GC-electron-capture negative ion MS, and moving-belt LC-electron-capture negative ion MS 476 (1989) 423

 **$\alpha$ -Hydroxymetoprolol**

Determination of metoprolol and its  $\alpha$ -hydroxy metabolite in urine by direct-injection reversed-phase HPLC with fluorimetric detection 488 (1989) 498

**4-Hydroxymidazolam**

Simultaneous determination of midazolam and its three hydroxy metabolites in human plasma by electron-capture GC without derivatization 491 (1989) 107

 **$\alpha$ -Hydroxymidazolam**

Determination of midazolam and the  $\alpha$ -hydroxy metabolite by GC in small plasma volumes 491 (1989) 455

**3-Hydroxymyristic acid**

Two-dimensional GC with electron-capture detection used in the determination of specific peptidoglycan and lipopolysaccharide constituents of Gram-negative bacteria in infected human urine 490 (1989) 71

***trans*-4-Hydroxy-2-nonenal**

Determination of the lipid peroxidation product *trans*-4-hydroxy-2-nonenal in biological samples

by HPLC and combined capillary column GC-negative-ion chemical ionisation MS 488 (1989) 329

**5-Hydroxy-4-oxonorvaline**

Analysis of *o*-phthalaldehyde derivatives of acidic and polar amino acids in fermentation broths by HPLC 483 (1989) 437

**5-Hydroxypentoxifylline**

Determination of pentoxifylline and its 5-hydroxy metabolite in human plasma by solid-phase extraction and HPLC with UV detection 495 (1989) 215

**L-3-(3-Hydroxy-4-pivaloyloxyphenyl)alanine**

Quantification of L-3-(3-hydroxy-4-pivaloyloxyphenyl)alanine (NB-355) by HPLC using *o*-phthalaldehyde/N-acetyl-L-cysteine derivatization 494 (1989) 183

**6 $\beta$ -Hydroxyprednisolone**

Simultaneous measurement of prednisone, prednisolone and 6 $\beta$ -hydroxyprednisolone in urine by HPLC using dexamethasone as the internal standard 493 (1989) 421

**17 $\alpha$ -Hydroxyprogesterone caproate**

HPLC analysis of the by-products of the synthesis of ethynylestradiol, mestranol, 17 $\alpha$ -hydroxyprogesterone caproate and 17 $\alpha$ -hydroxy-6-dehydroprogesterone acetate 456 (1988) 427

**Hydroxyproline**

Determination of radiolabelled proline and hydroxyproline in collagen hydrolysates by HPLC with on-line radiometric detection 488 (1989) 267

**5-Hydroxypropafenone**

Determination of 5-hydroxypropafenone in biological fluids by fused-silica capillary GC using electron-capture detection 495 (1989) 349

**Hydroxypropyl- $\beta$ -cyclodextrin**

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

Determination of hydroxypropyl- $\beta$ -cyclodextrin in plasma and urine by SEC with post-column complexation 487 (1989) 99

**Hydroxyrimantadine**

Determination of rimantadine and its hydroxylated metabolites in human plasma and urine 497 (1989) 147

**Hydroxysulphapyridine**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**1-Hydroxytacrine**

Determination of tacrine and its 1-hydroxy metabolite in plasma using column LC with UV detection 494 (1989) 397

**Hydroxytolbutamide**

Simple HPLC method for the determination of tolbutamide and its metabolites in human plasma and urine using photodiode-array detection 490 (1989) 355

**5-Hydroxytryptophan**

LC procedures for the analysis of compounds in the serotonergic and octopamine pathways of lobster hemolymph 452 (1988) 491

Simple HPLC method with electrochemical detection for the determination of indoleamines in tissue and plasma 491 (1989) 221

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

Simple method for the determination of L-5-hydroxytryptophan in plasma by HPLC 495 (1989) 245

**4-Hydroxytryptamine**

see Serotonin

**25-Hydroxyvitamin D<sub>3</sub>**

TLC as an efficient alternative to HPLC in the assay of plasma vitamin D<sub>3</sub> metabolites 496 (1989) 242

**Hygroscopicity**

Chromatographic method for studying the hygroscopic qualities of solids 457 (1988) 159

**Hyoscyamine**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

Reversed-phase ion-pair HPLC separation and determination of tropane alkaloids in Chinese solanaceous plants 481 (1989) 428

**Hypercoulometry of the second kind**

Hypercoulometry of the second kind in electron-capture detection 500 (1990) 95

**Hypersarcosinuria**

Chromatography for diagnosis of metabolic diseases 452 (1988) 435

**Hypochlorite**

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

**Hypoglycin A**

LC resolution of hypoglycin A from leucine 456 (1988) 431

**N<sup>2</sup>-[5-(Hypoxanthin-9-yl)pentylloxycarbonyl]-L-arginine**

HPLC evaluation of PCF 39, a new immunomodulator agent 465 (1989) 95

**HYTACH MicroPell C<sub>18</sub>**

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

**I****Ibuprofen**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Discussion of a controversial chiral recognition model 469 (1989) 67

Chromatographic approaches to the quality control of chiral propionate anti-inflammatory drugs and herbicides 469 (1989) 183

HPLC determination of ibuprofen, its metabolites and enantiomers in biological fluids 491 (1989) 139

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

HPLC determination of ibuprofen in rat and human plasma 497 (1989) 330

### **Ibuproxam**

Use of  $^1\text{H}$  NMR spectroscopy in the selection of the mobile phase for HPLC monitoring of the synthesis of ibuproxam 467 (1989) 276

### **Idarubicin**

Reversed-phase LC determination of idarubicin and its 13-hydroxy metabolite in human plasma 488 (1989) 427

Improved HPLC method using loop-column extraction for analysis of idarubicin and idarubicinol in plasma 491 (1989) 501

### **Idarubicinol**

Reversed-phase LC determination of idarubicin and its 13-hydroxy metabolite in human plasma 488 (1989) 427

Improved HPLC method using loop-column extraction for analysis of idarubicin and idarubicinol in plasma 491 (1989) 501

### **Ifosfamide**

Analytical and preparative HPLC separation of the enantiomers of ifosfamide, cyclophosphamide and trofosfamide and their determination in plasma 490 (1989) 133

### **Image analysis**

Quantitative analysis of anabolics on TLC plates using image analysis techniques 489 (1989) 205

### **Imino acids, OPA derivatives**

LC analysis of amino and imino acids in protein hydrolysates by post-column derivatization with *o*-phthalaldehyde and 3-mercaptopropionic acid 476 (1989) 83

### **Iminodiacetic acid**

Ion chromatography method for iminodiacetic acid determination in biological matrices in the presence of nitrilotriacetic acid 462 (1989) 293

### **Iminodiacetic acid gels**

Ion chromatography of transition metals on an iminodiacetic acid bonded stationary phase 499 (1990) 669

### **Immobiline membranes**

Preparative protein purification in a multi-compartment electrolyser with Immobiline membranes 475 (1989) 293

Preparative purification of human monoclonal antibody isoforms in a multi-compartment electrolyser with Immobiline membranes 500 (1990) 681

### **Immobilization**

Effect of repeated cross-linking of SE-54 stationary phase film on the chromatographic properties of capillary columns 471 (1989) 237

### **Immobilized enzyme column reactor**

Improved HPLC method with fluorimetric detection for the determination of glycerol using an immobilized enzyme column reactor 456 (1988) 398

### **Immobilized enzyme reactors**

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

### **Immobilized metal-ion affinity chromatography**

Immobilized metal-ion affinity chromatography of human growth hormone 472 (1989) 422

### **Immobilized pH gradients**

Charge heterogeneity of recombinant pro-urokinase and urinary urokinase, as revealed by isoelectric focusing in immobilized pH gradients 470 (1989) 337

Kinetics of cysteine oxidation in immobilized pH gradient gels 499 (1990) 699

### **Immobilized protein phases**

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

### **Immobilized protein stationary phases**

Direct LC separation of enantiomers on immobilized protein stationary phases. VII. Sorbents obtained by entrapment of cross-linked bovine serum albumin in silica 465 (1989) 263

Direct LC separation of enantiomers on immobilized protein stationary phases. VIII. A comparison of a series of sorbents based on bovine serum albumin and its fragments 498 (1990) 81

### **Immunoaffinity adsorbents**

Strategy for the immobilization of monoclonal antibodies on solid-phase supports 458 (1988) 67

Monoclonal antibody-mediated clean-up procedure for the HPLC analysis of chloramphenicol in milk and eggs 478 (1989) 205

**Immunoaffinity column**

Application of an immunoaffinity column sample clean-up to the determination of aflatoxin M<sub>1</sub> in cheese 474 (1989) 457

**Immunoaffinity pre-column**

Immunoaffinity pre-column for selective on-line sample pre-treatment in HPLC determination of 19-nortestosterone 452 (1988) 419

Determination of  $\beta$ -19-nortestosterone and its metabolite  $\alpha$ -19-nortestosterone in biological samples at the sub parts per billion level by HPLC with on-line immunoaffinity sample pretreatment 489 (1989) 157

**Immunoblotting**

Has immunoblotting replaced electroimmunoprecipitation? Examples from the analysis of autoantigens and transglutaminase-induced polymers of the human erythrocyte membrane 470 (1989) 351

Rapid chromatographic isolation and immunoblot characterization of immunoreactive fibroblast growth factor-related polypeptides from various tissues 491 (1989) 49

**Immunoglobulins**

Rapid high-performance affinity chromatography on micropellicular sorbents 458 (1988) 207

Protein A, hydroxyapatite and diethylaminoethyl: evaluation of three procedures for the preparative purification of monoclonal antibodies by HPLC 465 (1989) 101

Separation of intravenous IgG containing albumin by high-performance SEC on TSKgel G3000SWXL 467 (1989) 436

HPLC of amino acids, peptides and proteins. XCIII. Comparison of methods for the purification of mouse monoclonal immunoglobulin M autoantibodies 476 (1989) 269

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

**Immunological-chromatographic analysis**

Immunological-chromatographic analysis of lysozyme variants 476 (1989) 235

**Impregnated layers**

Flat-bed chromatography on impregnated layers (Review) 466 (1989) 1

**Impulse response technique**

Determination of ion-exchange equilibrium parameters of amino acid and protein systems by an impulse response technique 483 (1989) 263

**Impurity profiles**

Determination of impurity profiles in drugs and related materials. II. Detection and quantification of a diastereomeric impurity in the peptide RGH-0205 (Arg-Lys-Asp) 452 (1988) 317

**Inclusion complex formation**

Concept of effective and non-effective inclusion complex formation in isotachopheresis 470 (1989) 113

**Inclusion pseudophases**

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

**Indandiones**

HPLC separation of indandione rodenticides 481 (1989) 458

***Indigofera heterantha***

The use of new chromatographic techniques for the isolation and purification of phenolic acids from *Indigofera heterantha* 466 (1989) 399

**Indirect detection**

Indirect detection in reversed-phase LC. Response deviations in ion-pairing systems 461 (1989) 429

Indirect photometric detection in capillary zone electrophoresis 470 (1989) 299

Simultaneous photometric and conductivity detection for microcolumn LC 471 (1989) 303

Indirect photometric detection of cyclodextrins via inclusion complexation in micro HPLC 477 (1989) 147

Evaluation of assay specificity in non-suppressed ion chromatography 477 (1989) 271

Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169

Application of indirect detection methods in biomedical analysis (Review) 492 (1989) 299

**Indium**

Reversed-phase HPLC of aluminium(III) and indium(III) with 1-phenyl-3-methyl-4-benzoyl-5-pyrazolone 478 (1989) 408

**Indoleacetonitriles**

GC determination of indoleacetonitriles in rapeseed and *Brassica* vegetables 454 (1988) 285

**Indoleamines**

Simple HPLC method with electrochemical detection for the determination of indoleamines in tissue and plasma 491 (1989) 221

**Indoles**

Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. II. Studies on retention of stationary phase in short coils and preparative separations in multilayer coils 463 (1989) 317

HPLC determination of some psychotropic indole derivatives 464 (1989) 434

Chemometric approach to explain the LC retention of some chiral indoles on swollen microcrystalline triacetylcellulose 466 (1989) 364

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various biological samples with a semipreparative column 498 (1990) 169

**Indomethacin**

HPLC determination of indomethacin serum concentrations 459 (1988) 275

Traditional oriental medicines. I. Black Pearl: identification and chromatographic determination of some undeclared medicinal ingredients 469 (1989) 406

Fluorimetric determination of indomethacin in human serum by HPLC coupled with post-column photochemical reaction with hydrogen peroxide 491 (1989) 389

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

HPLC determination of indomethacin in human plasma and urine 495 (1989) 309

**Information theory**

An information theory of chromatography. I. Evaluation of analytical systems by means of *FUMI* 462 (1989) 13

An information theory of chromatography. II. Application of *FUMI* to the optimization of overlapped chromatograms 462 (1989) 23

**Infrared spectrometry, Fourier transform**

Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209

SFC of sesquiterpene hydrocarbons on silica packed columns with on-line Fourier transform IR detection 464 (1989) 125

Characterization of coal liquefaction products by GC-Fourier transform IR spectroscopy-MS 468 (1989) 309

GC with Fourier transform IR spectrometry for biomedical applications 492 (1989) 109

**Injection interval**

An information theory of chromatography. II. Application of *FUMI* to the optimization of overlapped chromatograms 462 (1989) 23

**Injection length**

Analysis of factors causing peak broadening in capillary zone electrophoresis 480 (1989) 95

**Injection mass**

Effect of some operational variables on the efficiency of ion chromatographic separations 479 (1989) 387

**Injection methods**

Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311

High-speed analytical sensor for in-line monitoring of dissolved analytes flowing in a tube employing a combination of limited diffusion, laminar flow and plug solvent injections 481 (1989) 111

Automated pre-column HPLC method for the investigation of adibendan metabolism 490 (1989) 155

**Injection peaks**

Injection peaks in anion chromatography 482 (1989) 343

**Injection solvent**

Injection of elutes in solvents stronger than the mobile phase in reversed-phase LC 465 (1989) 189

Computation of band shape for strong injection solvent and weak mobile phase combinations in LC 473 (1989) 260

**Injection system**

Performance of an automated injection and replenishment system for capillary electrophoresis 480 (1989) 129

Carrier gas flow-rate and injection system in capillary GC of unconjugated and glycine-conjugated bile acids 495 (1989) 31

### **Injection techniques**

Study of the injection process in a gas chromatograph split injection port 454 (1988) 23

Zone broadening due to sample injection in capillary zone electrophoresis 471 (1989) 421

Capillary GC determination of volatiles in solid matrices by direct introduction using a programmable-temperature vaporizer 483 (1989) 43

Automatic on-line pressurized liquid injection in GC 483 (1989) 111

Solid injection, a new technique for application of insoluble samples in preparative LC 484 (1989) 259

### **Inks**

Adsorption chromatography on cellulose. V. A simple chromatographic system for the identification of inks 475 (1989) 451

### **Inorganic acids**

Determination of organic and inorganic acids in precipitation samples 482 (1989) 381

### **Inorganic anions**

Methyl green-coated column for separation of inorganic anions by ion chromatography 452 (1988) 283

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Multifactor simultaneous statistical optimization of the mobile phase composition for the separation of inorganic anions in reversed-phase ion-interaction chromatography 467 (1989) 15

Characterization of indirect photometry for the determination of inorganic anions in natural water by ion chromatography 469 (1989) 329

Automated dual column coupled system for simultaneous determination of carboxylic acids and inorganic anions 473 (1989) 171

Indirect detection of inorganic anions by HPLC: use of papaveralidium as an UV absorbing agent 478 (1989) 131

Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169

Ion chromatographic elution behaviour and prediction of the retention of inorganic monovalent anions using a phosphate eluent 481 (1989) 315

New developments in ion chromatographic methods for atmospheric analysis 482 (1989) 307

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

Determination of inorganic anions by flow injection analysis and HPLC combined with photolytic-electrochemical detection 499 (1990) 685

### **Inorganic cations**

Modelling of cation retention in ion chromatography using fixed-site and dynamically coated ion-exchange columns 500 (1990) 301

### **Inorganic ions**

Computer-assisted retention prediction for HPLC in the ion-exchange mode (Review) 485 (1989) 143

### **Inorganic ions, charge**

Determination of the charge of ions by partition measurements in aqueous polymer two-phase systems 498 (1990) 325

### **Inorganic salts**

GC of organic compounds using inorganic salts as components of the stationary liquid phase and steam as a carrier gas 456 (1988) 351

Behavior of simple salts on silica and C<sub>18</sub> columns. Retention dynamics of cations, anions and ion pairs 462 (1989) 71

### **Inositol triphosphate**

Industrial applications of SFC-MS involving oligomeric materials of low volatility and thermally labile materials 474 (1989) 97

### **D-*myo*-1,2,6-Inositol trisphosphate**

Determination of D-*myo*-1,2,6-inositol triphosphate by ion-pair reversed-phase LC with post-column ligand exchange and fluorescence detection 499 (1990) 617

### **Insecticidal extracts**

Gradient HPLC using alkylphenone retention indices of insecticidal extracts of *Penicillium* strains 483 (1989) 153

### **Insecticides**

see Pesticides

**Insulin**

Production scale purification of biosynthetic human insulin by reversed-phase HPLC 461 (1989) 45

Reversed-phase HPLC analyses of insulin biosynthesis in isolated rat and mouse islets 462 (1989) 243

**Integerrimine**

Capillary GC–Fourier transform IR spectroscopy of pyrrolizidine alkaloids of *Senecio inaequidens* DC 473 (1989) 161

**Interaction coefficient**

Effect of particle treatment of composite filler on its interaction coefficient 462 (1989) 155

**Interaction index model**

Free energy correlations: dead volume and the reversed-phase HPLC capacity factor in the interaction index model. A discussion and application to a nitrosamine series 481 (1989) 97

**Interfaces, electrophoresis–ion mobility spectrometry**

Preliminary investigation of ion mobility spectrometry after capillary electrophoretic introduction 480 (1989) 233

**Interfaces, electrophoresis–MS**

Coupling of capillary zone electrophoresis and capillary liquid chromatography with coaxial continuous-flow fast atom bombardment tandem sector MS 480 (1989) 197

Capillary zone electrophoresis and isotachopheresis–MS of polypeptides and proteins based upon an electrospray ionization interface 480 (1989) 211

**Interfaces, LC–MS**

Characterization of the direct-probe open-tubular LC–MS interface parameters 462 (1989) 365

Microcolumn LC–MS using moving belt and continuous flow fast atom bombardment interfaces 474 (1989) 39

Corona discharge ionization LC–MS interface for target compound analyses 474 (1989) 335

Evaluation of the moving belt as an interface for the HPLC–MS analysis of the flavonoid aglycones 474 (1989) 372

Coupling of capillary zone electrophoresis and capillary liquid chromatography with coaxial continuous-flow fast atom bombardment tandem sector MS 480 (1989) 197

Particle beam LC–electron impact MS of dyes 482 (1989) 75

LC–MS coupling and its application in pharmaceutical research 488 (1989) 73

Biochemical applications of LC–MS 492 (1989) 189

**Interfaces, SEC–reversed-phase HPLC**

Non-aqueous SEC coupled on-line to reversed-phase HPLC. Interface development and applications to the analysis of low-molecular-weight contaminants and additives in foods 477 (1989) 315

**Interferon**

Structural characterization of recombinant consensus interferon- $\alpha$  454 (1988) 205

Investigations on the interferon-induced 2'-5' oligoadenylate system using analytical capillary isotachopheresis 470 (1989) 185

Elimination of contaminating *Escherichia coli* peptides in the purification of *Escherichia coli*-derived recombinant human interferon- $\beta$ 1 by zinc chelate affinity chromatography 490 (1989) 193

**Internal standard, deuterated**

GC–MS analysis of plasma oxybutynin using a deuterated internal standard 487 (1989) 91

**International symposia on advances in chromatography**

1963–1988: Twenty-five years of international symposia on advances in chromatography 468 (1989) 1

**Interphase adsorption**

Interface adsorption and reproducibility of retention indices in glass capillary columns with dimethylpolysiloxane stationary phases cross-linked by  $\gamma$ -irradiation 471 (1989) 251

**Interval injection/displacement**

Preparative LC with analytical separation quality. Interval injection/displacement reversed-phase HPLC 464 (1989) 103

**Inverse chromatography**

On some nomenclature in chromatography 471 (1989) 447

**Inverse electrolyte systems**

Inverse electrolyte systems in isotachopheresis. Impact of the terminating electrolyte on the migrating zones in cationic analysis 470 (1989) 3

**Inverse gas chromatography**

Application of inverse GC to solid propellants 457 (1988) 354

**Iodate**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

Electromigration of carrier-free radionuclides. IX. Protolysis of [<sup>131</sup>I]iodate in aqueous solutions 457 (1988) 362

**Iodide**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

Studies on iodinated compounds. V. Reversed-phase HPLC determination of iodide with cyclodextrin-containing mobile phases 498 (1990) 137

**Iodinated compounds**

Studies on iodinated compounds. V. Reversed-phase HPLC determination of iodide with cyclodextrin-containing mobile phases 498 (1990) 137

***m*-Iodobenzylguanidine**

Determination of *m*-iodobenzylguanidine in serum and urine by HPLC 487 (1989) 177

**Iodohistidines**

Studies on iodinated compounds. VI. Separation characteristics of iodohistidines on reversed-phase HPLC 475 (1989) 135

**Iodothyronines**

Automated HPLC method for the determination of iodotyrosines and iodothyronines 458 (1988) 175

**Iodotyrosines**

Automated HPLC method for the determination of iodotyrosines and iodothyronines 458 (1988) 175

**Ion chromatograph**

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

**Ion chromatography, precision and accuracy**

Precision and accuracy of ion chromatography in dry deposition measurements 482 (1989) 297

**Ion chromatography, sample cleanup methods**

Sample cleanup methods for ion chromatography 482 (1989) 267

**Ion-exchange equilibria**

Ion-exchange equilibria of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137

**Ion-exchange equilibrium parameters**

Determination of ion-exchange equilibrium parameters of amino acid and protein systems by an impulse response technique 483 (1989) 263

**Ion exchangers**

Mixed-bed ion-exchange columns for protein HPLC 452 (1988) 331

Anion-exchange selectivity in latex-based columns for ion chromatography 458 (1988) 241

Solute-solvent interactions of macroporous methacrylate ion exchangers in salt form studied by GC 462 (1989) 61

Preparation and use of latex-coated resins for anion chromatography 462 (1989) 165

High-performance anion-exchange chromatography of proteins using aza-ether bonded silica-based phases 463 (1989) 329

Anion-cation separations on a mixed bed alumina-silica column 466 (1989) 291

Ionization of DEAE-cellulose. Dependence of p*K* on ionic strength 469 (1989) 111

Sulphated Sepharose—a strong cation exchanger 472 (1989) 261

High-performance chromatofocusing of proteins on agarose columns. I. Macroporous 15–20 μm beads 475 (1989) 167

Ion chromatography on methacrylate ion exchangers 475 (1989) 209

Chemically suppressed anion chromatography based on macrocycle-cation complexation 482 (1989) 367

Dyestuff-coated HPLC resins for the ion-exchange and chelating-exchange separation of metal ions 482 (1989) 325

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

Modelling single-component protein adsorption to the cation exchanger S Sepharose® FF 498 (1990) 113

**Ion exchangers, dynamically coated**

Modelling of cation retention in ion chromatography using fixed-site and dynamically coated ion-exchange columns 500 (1990) 301

**Ion-exclusion chromatography**

Numerical simulation of column performance in ion-exclusion chromatography 457 (1988) 43

**Ionic charge**

Some considerations on the "charge" on a metal ion in ion-exchange chromatography 452 (1988) 265

Determination of the charge of ions by partition measurements in aqueous polymer two-phase systems 498 (1990) 325

**Ionic drugs**

Sensitive HPLC determination of ionic drugs in biological fluids with short-wavelength UV detection using column switching combined with ion-pair chromatography: application to basic compounds 487 (1989) 357

**Ionic strength**

Ionization of DEAE-cellulose. Dependence of  $pK$  on ionic strength 469 (1989) 111

Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367

**Ionic strength gradient**

Sample-induced internal gradient of ionic strength in ion-exclusion microcolumn LC 469 (1989) 223

**Ion mobility detector**

Evaluation of direct axial sample introduction for ion mobility detection after capillary GC 479 (1989) 221

**Ion mobility spectrometry**

Preliminary investigation of ion mobility spectrometry after capillary electrophoretic introduction 480 (1989) 233

**Ionotopes**

High-performance liquid chromatography of amino acids, peptides and proteins. LXXXVIII. Calculation of the average distance between protein solutes and the stationary phase during isocratic anion-exchange chromatography 458 (1988) 45

**Ion-pair chromatography, electrostatic theory**

Extension of the electrostatic theory of reversed-phase ion-pair chromatography for high surface concentrations of the adsorbing amphiphilic ion 456 (1988) 253

**Ion-pair formation constants**

Behavior of simple salts on silica and  $C_{18}$  columns. Retention dynamics of cations, anions and ion pairs 462 (1989) 71

**Ion-pairing reagents**

Use of achiral ion-pairing reagents with chiral stationary phases 479 (1989) 377

Evaluation of a versatile reversed-phase HPLC system using cethexonium bromide as ion-pairing reagent for the analysis of glucuronic acid conjugates 493 (1989) 137

Reversed-phase ion-pair LC of glucuronides. Retention and selectivity 499 (1990) 411

Basis of the rational selection of the hydrophobicity and concentration of the ion-pairing reagent in reversed-phase ion-pair HPLC 499 (1990) 423

Separation of ionic drug substances by SFC 500 (1990) 469

**Ion pairs**

Behavior of simple salts on silica and  $C_{18}$  columns. Retention dynamics of cations, anions and ion pairs 462 (1989) 71

**Ion-selective electrodes**

Determination of fluoride in semiconductor process chemicals by ion chromatography with ion-selective electrodes 465 (1989) 1

**Ion trap detector, coupling to a gas chromatograph**

Direct coupling of a gas chromatograph to an ion trap detector 454 (1988) 372

**Iron compounds**

Selective detection of volatile iron compounds by flame photometry 467 (1989) 75

**Iron cyanide complexes**

Determination of metal ion complexes in electroplating solutions using capillary zone electrophoresis with UV detection 480 (1989) 427

**Iron(II) 1,10-phenanthroline**

HPLC determination of phenoxyalkanoic acid herbicides using iron(II) 1,10-phenanthroline as a mobile phase additive 481 (1989) 439

**Iron porphyrins**

Characterization and purification of iron porphyrins by HPLC and CC 462 (1989) 411

**Iso-alpha acids**

Preparative LC of hop and beer bitter acids 484 (1989) 361

**D-Isocitrate**

Simultaneous determination of citrate and D-isocitrate in urine by isocratic ion chromatography 495 (1989) 239

**Isoconiferin**

HPLC separation of *E*- and *Z*-monolignols and their glucosides 479 (1989) 345

**Isocorydine**

Determination of isoquinoline alkaloids from *Peumus boldus* by HPLC 457 (1988) 442

**Isocratic elution**

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

 **$\beta$ -Isocryptoxanthin**

Diastereomeric resolution of carotenoids. IV. Carotenoids with a 4-hydroxy- $\beta$ -end group 482 (1989) 189

**Isocyanates, organic**

Analysis of organic isocyanates using capillary supercritical-fluid chromatography 472 (1989) 175

**Isoelectric focusing**

Focusing counterparts of electrical field flow fractionation and capillary zone electrophoresis. Electrical hyperlayer field flow fractionation and capillary isoelectric focusing 461 (1989) 95

Charge heterogeneity of recombinant pro-urokinase and urinary urokinase, as revealed by isoelectric focusing in immobilized pH gradients 470 (1989) 337

Recycling isoelectric focusing and isotachopheresis 470 (1989) 369

Carrier ampholyte-mediated oxidation of proteins in isoelectric focusing 475 (1989) 283

Experimental and theoretical dynamics of isoelectric focusing. III. Transient multi-peak approach to equilibrium of proteins in simple buffers 478 (1989) 39

Harnessing electrical forces for separation. Capillary zone electrophoresis, isoelectric focusing, field-flow fractionation, split-flow thin-cell continuous-separation and other techniques 480 (1989) 21

Open-channel isoelectric focusing in thermally engendered pH gradients 480 (1989) 293

Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311

Separation of the human transferrin isoforms by carrier-free high-performance zone electrophoresis and isoelectric focusing 480 (1989) 351

Isoelectric focusing of cross-linked monoclonal antibody heterodimers, homodimers and derivatized monoclonal antibodies 489 (1989) 303

High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

Kinetics of cysteine oxidation in immobilized pH gradient gels 499 (1990) 699

Formation of a cysteine-acrylamide adduct in isoelectric focusing gels 500 (1990) 697

**Isoeluotropic ternary solvent mixtures**

Practical optimization of the separation of a limited subset of components by using isoeluotropic ternary eluent mixtures in reversed-phase HPLC 458 (1988) 371

**Isoluminol**

Use of LC in the synthesis of isoluminol-labelled medroxyprogesterone acetate and zeranol 469 (1989) 305

**Isomerization**

Slow isomerization of some proline-containing peptides inducing peak splitting during reversed-phase HPLC 478 (1989) 121

***cis-trans* Isomers**

Displacement chromatography on cyclodextrin-silicas. II. Separation of *cis-trans* isomers in the reversed-phase mode on  $\alpha$ -cyclodextrin-silica 484 (1989) 251

**Isoniazid**

Determination of isoniazid methanesulphonate and its metabolites in rabbit blood by HPLC 493 (1989) 305

**Isoniazid methanesulphonate**

Determination of isoniazid methanesulphonate and its metabolites in rabbit blood by HPLC 493 (1989) 305

**Isoorientine**

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

**Isoprenaline**

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

Simultaneous quantitative HPLC determination of cyclic adenosine 3',5'-monophosphate and adenosine in mouse brain after microwave irradiation: application to isoprenaline effect in vivo 489 (1989) 394

**Isoprene**

Preconcentration and analysis of atmospheric isoprene and monoterpenes. System automation 456 (1988) 165

**1-Isopropylamino-3-phenoxypropan-2-ol**

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (-)-menthyl chloroformate 493 (1989) 402

**Isoproterenol**

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

**Isoquinoline alkaloids**

Determination of isoquinoline alkaloids from *Peumus boldus* by HPLC 457 (1988) 442

**Isoscopoletin**

Application of HPLC analysis of scoparone and its metabolites in the study of cytochrome P 450 differentiation in vitro 487 (1989) 489

**Isosorbide dinitrate**

Determination of isosorbide dinitrate and its metabolites in plasma by GC on a capillary column with electron-capture detection 493 (1989) 188

**Isosorbide mononitrates**

Determination of isosorbide dinitrate and its metabolites in plasma by GC on a capillary column with electron-capture detection 493 (1989) 188

**Isotachopheresis**

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

Simple sampling device for capillary isotachopheresis and capillary zone electrophoresis 452 (1988) 615

Automated recycling free fluid isotachopheresis. Principle, instrumentation and first results 457 (1988) 137

The separation process in isotachopheresis. I. A 32-channel UV-photometric zone detector 463 (1989) 39

The separation process in isotachopheresis. II. Binary mixtures and transient state models 463 (1989) 51

Analysis of mucin by isotachopheresis 463 (1989) 445

Use of cyclodextrins in isotachopheresis. VII. Resolution of structurally related and chiral phenothiazines 464 (1989) 139

Inverse electrolyte systems in isotachopheresis. Impact of the terminating electrolyte on the migrating zones in cationic analysis 470 (1989) 3

Separation process in isotachopheresis. III. Transient state models for a three-component system 470 (1989) 21

Generation of operational electrolytes for isotachopheresis and capillary zone electrophoresis in a three-pole column 470 (1989) 43

Isotachopheresis in mixed solvents consisting of water, methanol and dimethyl sulphoxide. III. Influence of the solvent composition on the dissociation constants and mobilities of non- and hydroxy-substituted aliphatic carboxylic acids 470 (1989) 57

Measurement of limiting mobilities by capillary isotachopheresis with a constant temperature at the site of detection 470 (1989) 69

Data acquisition in capillary isotachopheresis 470 (1989) 79

Concept of response factor in capillary isotachopheresis. Determination of drugs in solution for intravenous injection 470 (1989) 105

Concept of effective and non-effective inclusion complex formation in isotachopheresis 470 (1989) 113

Host-guest complexation in capillary isotachopheresis. II. Determination of aminophenol and diaminobenzene isomers in permanent hair colorants by using capillary isotachopheresis 470 (1989) 123

Utility of copper-containing electrolytes for isotachopheresis of amino acids 470 (1989) 131

On-column radiometric detector for capillary isotachopheresis and its use in the analysis of  $^{14}\text{C}$ -labelled constituents 470 (1989) 139

Complementary information from isotachopheresis and HPLC in peptide analysis 470 (1989) 171

Investigations on the interferon-induced 2'-5' oligoadenylate system using analytical capillary isotachopheresis 470 (1989) 185

Application of capillary isotachopheresis to the analysis of glutathione conjugates 470 (1989) 191

Spacer performance in the cationic isotachopheresis of proteins 470 (1989) 201

Isotachopheretic analysis of peptides. Selection of electrolyte systems and determination of purity 470 (1989) 209

Isotachopheretic determination of short-chain fatty acids in drinking water after solid-phase extraction with a carbonaceous sorbent 470 (1989) 223

Study of alkaline hydrolysis of the insecticide alphamethrine by isotachopheretic determination of decomposition products 470 (1989) 235

Phase-heterogeneous zones in capillary isotachopheresis of low-solubility bases 470 (1989) 263

Determination of the specific zone resistance and calculation of the response factor in isotachopheresis 470 (1989) 277

Differentiation of  $\text{Al}^{3+}$  and Al species in environmental samples by isotachopheresis 470 (1989) 289

Recycling isoelectric focusing and isotachopheresis 470 (1989) 369

Isotachopheresis of proteins 470 (1989) 407

Isotachopheretic separation of cyano complexes of noble metals using ion-pairing equilibrium in water-acetonitrile solvent 472 (1989) 303

Use of cyclodextrins in isotachopheresis. VIII. Two-dimensional chiral separation in isotachopheresis 472 (1989) 308

Determination of rubidium, sodium, calcium and thiamine in a pharmaceutical preparation by capillary isotachopheresis 472 (1989) 441

Capillary isotachopheretic separation of phosphate, arsenate, germanate, silicate and molybdate ions using complex-forming equilibria 478 (1989) 238

General mathematical model for the steady state in isotachopheresis. Calculation of the effective mobility of terminating  $\text{H}^+$  ions and two-buffer electrolyte systems 480 (1989) 69

Application of analytical isotachopheresis in the study of platelet membrane proteins in patients with chronic myeloproliferative disorders 490 (1989) 53

Isotachopheretic determination of sulbactam in rat serum 495 (1989) 338

On-line coupling of capillary isotachopheresis with capillary zone electrophoresis 498 (1990) 191

Isotachopheretic separation and behavior of catechol derivatives 498 (1990) 205

### **Isotachopheresis-mass spectrometry**

Capillary zone electrophoresis and isotachopheresis-MS of polypeptides and proteins based upon an electrospray ionization interface 480 (1989) 211

### **Isothebaine**

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

### **Isothiocyanate**

Isothiocyanate as a liquid crystalline stationary phase in capillary GC for the separation of polyaromatic hydrocarbons 455 (1988) 323

### **Isotope effects**

GSC on open-tubular columns: an isotope effect 471 (1989) 37

**Isotope separation**

Theory of isotope separation by displacement chromatography 483 (1989) 179

**Isovitexine**

Model compound sorption by the resins XAD-2, XAD-8 and diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

**Isoxanthopterin**

Determination of pterins in urine by HPLC on C<sub>18</sub> columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

**Isozeaxanthin**

Diastereomeric resolution of carotenoids. IV. Carotenoids with a 4-hydroxy- $\beta$ -end group 482 (1989) 189

**Isradipine**

Determination of isradipine and the oxidative pyridine metabolite in human plasma by HPLC 487 (1989) 483

**J****Jasmonic acid**

Separation of diastereomeric amino acid conjugates of jasmonic acid 483 (1989) 459

**Josamycin**

HPLC analysis of josamycin in serum and urine 459 (1988) 261

**Joule heating**

Capillary zone electrophoresis. Quantitative study of the effects of some dispersive processes on the separation efficiency 452 (1988) 601

**Journal of Chromatography family album**

The *Journal of Chromatography* family album 500 (1990) 3

**K****Kadsurenone**

Strategy for the preparative-scale HPLC isolation of kadsurenone and futoquinol from the medicinal plant *Piper futokadsura* 484 (1989) 369

**Kalman filter**

Resolution of a coeluting chromatographic pair using Kalman filtering 469 (1989) 77

**Kava**

Identification of some human urinary metabolites of the intoxicating beverage kava 475 (1989) 273

**KES**

Explanations and advice provided by an expert system for system optimization in HPLC 485 (1989) 219

Expert system for the selection of HPLC methods for the analysis of drugs 485 (1989) 237

Expert system for the selection of initial HPLC conditions for the analysis of pharmaceuticals 485 (1989) 255

**2-Keto-3-deoxyoctonic acid**

GC determination of (phosphorylated) 2-keto-3-deoxyoctonic acid, heptoses and glucosamine in bacterial lipopolysaccharides after treatment with hydrofluoric acid, methanolysis and trifluoroacetylation 487 (1989) 1

 **$\alpha$ -Keto- $\beta$ -methylvaleric acid**

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

**Keto acids**

Separation of  $\alpha$ -keto acids by capillary SFC as their quinoxalinol derivatives 452 (1988) 623

GC determination of oxo- and hydroxycarboxylic acids in serum and urine of diabetic and normal subjects 468 (1989) 157

Micro-method for measurement of branched-chain keto acid concentrations in plasma from sheep and man 487 (1989) 434

**7-Ketocholesterol**

Assay of cholesterol 7 $\alpha$ -hydroxylase utilizing a silica cartridge column and 5 $\alpha$ -cholestane-3 $\beta$ , 7 $\beta$ -diol as an internal standard 496 (1989) 255

 **$\alpha$ -Ketoglutarate dehydrogenase**

Determination of lipoyllysine derived from enzymes by LC 490 (1989) 33

**Ketohexoses**

GC retention of carbohydrate trimethylsilyl ethers. III. Ketohexoses 471 (1989) 205

 **$\alpha$ -Ketoisocaproic acid**

Determination of leucine and  $\alpha$ -ketoisocaproic acid concentrations and specific activity in plasma and leucine specific activities in proteins using HPLC 495 (1989) 81

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

 **$\alpha$ -Ketoisovaleric acid**

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

**Ketones**

Characterization of coal liquefaction products by GC-Fourier transform IR spectroscopy-MS 468 (1989) 309

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

Preparation of carboneous adsorbents by catalytic decomposition of hydrocarbons for chromatographic application 483 (1989) 197

Relative retention and column selectivity for the common polar bonded-phase columns. The diol-silica column in normal-phase HPLC 498 (1990) 55

**2-Ketones**

Some factors affecting the precision in the determination of retention indices on polar capillary columns for GC 473 (1989) 37

**Ketoprofen**

Chromatographic approaches to the quality control of chiral propionate anti-inflammatory drugs and herbicides 469 (1989) 183

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

**6-Ketoprostaglandin F<sub>1 $\alpha$</sub>** 

Specific radioactivity determination of labeled eicosanoids 489 (1989) 359

Quantitative profiling of 6-ketoprostaglandin F<sub>1 $\alpha$</sub> , 2,3-dinor-6-ketoprostaglandin F<sub>1 $\alpha$</sub> , thromboxane B<sub>2</sub> and 2,3-dinor-thromboxane B<sub>2</sub> in human and rat urine by immunoaffinity extraction with GC-MS 495 (1989) 1

**Killer toxin KT28**

Purification of yeast killer toxin KT28 by receptor-mediated affinity chromatography 469 (1989) 448

**Kynurenine**

Fluorimetric determination of kynurenine in human serum by HPLC coupled with post-column photochemical reaction with hydrogen peroxide 488 (1989) 349

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

**L****LABEL**

Expert system for the selection of HPLC methods in pharmaceutical analysis. Validation of the rules for the selection of the mobile phase 457 (1988) 25

Expert system for the selection of HPLC methods for the analysis of drugs 485 (1989) 237

 **$\alpha$ -Lactalbumin**

Thermodynamics of  $\alpha$ -lactalbumin denaturation in hydrophobic-interaction chromatography and stationary phases comparison 458 (1988) 93

Intrinsic fluorescence studies of the kinetic mechanism of unfolding of  $\alpha$ -lactalbumin on weakly hydrophobic chromatographic surfaces 500 (1990) 481

### **$\beta$ -Lactam antibiotics**

see also Antibiotics

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

Isolation of drug residues from tissues by solid phase dispersion 475 (1989) 353

Separation of  $\beta$ -lactam antibiotics by micellar electrokinetic chromatography 477 (1989) 259

### **$\beta$ -Lactamase**

Large-scale purification of the chromosomal  $\beta$ -lactamase from *Enterobacter cloacae* P99 457 (1988) 317

### **Lactate dehydrogenase**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

Affinity chromatography of bovine heart lactate dehydrogenase using dye ligands linked directly or spacer-mediated to bead cellulose 466 (1989) 319

Interaction of lactate dehydrogenase with structurally related triazine dyes using affinity partitioning and affinity chromatography 483 (1989) 289

Detection of macroenzymes in serum by high-performance GPC 496 (1989) 91

### **Lactoferrin**

Differential interaction of peptides and protein surface structures with free metal ions and surface-immobilized metal ions 500 (1990) 531

### **$\beta$ -Lactoglobulin**

Role of association on protein adsorption isotherms.  $\beta$ -Lactoglobulin A adsorbed on a weakly hydrophobic surface 482 (1989) 1

### **Lactones**

Determination of molluscicidal sesquiterpene lactones from *Ambrosia maritima* (Compositae) 457 (1988) 325

Characterization of coal liquefaction products by GC-Fourier transform IR spectroscopy-MS 468 (1989) 309

Analytical resolution of 4(5)-alkylated  $\gamma$ ( $\delta$ )-lactones by HPLC on a silica-bonded chiral polyacrylamide sorbent. Chromatographic characterization of a stationary phase 469 (1989) 137

Identification of some human urinary metabolites of the intoxicating beverage kava 475 (1989) 273

GC separation of diastereomeric dicarbamate derivatives of  $\gamma$ - and  $\delta$ -lactones 479 (1989) 176

Determination of the enantiomeric composition of  $\gamma$ -lactones in complex natural matrices using multidimensional capillary GC 481 (1989) 363

Chiral flavour compounds from apricots. Distribution of  $\gamma$ -lactone enantiomers and stereodifferentiation of dihydroactinidiolide using multi-dimensional GC 498 (1990) 396

### **Lamtidine**

GLC resolution of some racemic synthons for lamtidine analogous histamine  $H_2$ -receptor antagonists via diastereomeric amides of (1S)-(-)-camphanic acid 467 (1989) 402

### **Langmuir equilibrium coefficients**

Rapid method for determining multicomponent Langmuir parameters for displacement chromatography 484 (1989) 167

### **Langmuir isotherm parameters**

Determination of competitive adsorption isotherms for modeling large-scale separations in LC 499 (1990) 5

### **Lanosterol**

Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293

### **Lanthanide luminescence quenching**

Lanthanide luminescence quenching as a detection method in ion chromatography. Chromate in surface and drinking water 482 (1989) 351

### **Lanthanoids**

Chromatographic separation of the heavier lanthanoids on the spherical cation exchanger OSTION with  $\alpha$ -hydroxy- $\alpha$ -methylbutyrate 478 (1989) 446

### **Lanthionine**

HPLC of cystathionine, lanthionine and aminoethylcysteine using *o*-phthaldialdehyde precolumn derivatization 490 (1989) 404

**Large concentration bands**

Theoretical study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 1

Experimental study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 19

**Large-volume samples**

Recovery of organic compounds from large-volume aqueous samples using on-line LC preconcentration techniques 456 (1988) 121

**Laser beam focal point**

Effect of the position of the laser beam focal point on a capillary flow-through cell on the signal-to-noise ratio for a fluorimetric detector in capillary column LC 471 (1989) 311

**Laser microprobe mass spectrometry**

Laser microprobe MS of selected compounds directly from normal phase high-performance thin-layer plates 471 (1989) 389

**Laser pyrolysis**

Quantitative TLC by laser pyrolysis and flame ionization or electron-capture detection 463 (1989) 139

**Latex aggregates**

Resolution of colloidal latex aggregates by sedimentation field-flow fractionation 455 (1988) 1

**Latex-based columns**

Anion-exchange selectivity in latex-based columns for ion chromatography 458 (1988) 241

**Latex-coated resins**

Preparation and use of latex-coated resins for anion chromatography 462 (1989) 165

**LCSIM**

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

**Lead diethyldithiocarbamate**

Determination of  $Pb^{II}$ ,  $Cd^{II}$  and  $Bi^{III}$  by reversed-phase liquid chromatography of their diethyldithiocarbamate complexes with post-column ligand exchange and selective spectrophotometric detection 482 (1989) 317

**Lecithin**

Silicic acid column chromatography of phosphonolipids. X. Some phosphono analogues of 1-O-alkylethylene glycol 454 (1988) 420

**Lectins**

Purification of lentil lectins using preparative electrophoresis 455 (1988) 225

**Leptinidine**

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

**Leucine**

LC resolution of hypoglycin A from leucine 456 (1988) 431

Determination of leucine and  $\alpha$ -ketoisocaproic acid concentrations and specific activity in plasma and leucine specific activities in proteins using HPLC 495 (1989) 81

**Leucine dehydrogenase**

Post-column immobilized leucine dehydrogenase reactor for determination of branched chain amino acids by HPLC with fluorescence detection 463 (1989) 177

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

**Leucine enkephalin**

On-line capillary zone electrophoresis-ion spray tandem MS for the determination of dynorphins 458 (1988) 313

Measurement of methionine enkephalin and leucine enkephalin in rat brain regions by HPLC with coulometric electrochemical detection 494 (1989) 67

Determination of leucine enkephalin and methionine enkephalin in equine cerebrospinal fluid by microbore HPLC and capillary zone electrophoresis coupled to tandem MS 495 (1989) 41

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

**Leucogentian Violet**

HPLC of Gentian Violet, its demethylated metabolites, Leucogentian Violet and Methylene Blue with electrochemical detection 467 (1989) 259

**Leucovorin**

Stable and sensitive method for the simultaneous determination of N<sup>5</sup>-methyltetrahydrofolate, leucovorin, methotrexate and 7-hydroxymethotrexate in biological fluids 488 (1989) 379

**Leukotriene inhibitor**

Practical approach for HPLC method development: assaying synthetic intermediates of a leukotriene inhibitor 485 (1989) 597

**Leukotrienes**

Rapid and simple assay method to study the content and the biosynthesis of peptide leukotrienes in whole blood 491 (1989) 193

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

Separation of lipoxins and leukotrienes from human granulocytes by HPLC with a Radial-Pak cartridge after extraction with an octadecyl reversed-phase column 493 (1989) 361

**Levomoprolol**

Determination by coupled HPLC–GC of the  $\beta$ -blocker levomoprolol in plasma following ophthalmic administration 473 (1989) 343

**Lewis bases, macrocyclic polyfunctional**

Macrocyclic polyfunctional Lewis bases. XII. Influence of complex formation on chromatographic migration 454 (1988) 340

**LF 2-0254**

Radio HPLC determination of <sup>14</sup>C-labelled LF 2-0254, a 1,4-dihydropyridine calcium antagonist, in rat and dog plasma using off-line liquid scintillation counting 456 (1988) 183

**Licochalcone B**

Chromatography of tannins. IV. Separation of labile oligomeric hydrolysable tannins and related polyphenols by centrifugal partition chromatography 467 (1989) 139

**Licorzin**

Determination of glycyrrhizin and its metabolite glycyrrhetic acid in rabbit plasma by HPLC

after oral administration of licorzin 495 (1989) 343

**Lidocaine**

Sensitive HPLC assay using 9-fluorenylmethylchloroformate for monitoring controlled-release lidocaine in plasma 496 (1989) 335

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

**Ligand density**

Protein immobilization on silica supports. A ligand density study 458 (1988) 169

Retention behaviour of paracelsin peptides on reversed-phase silicas with varying *n*-alkyl chain length and ligand density 476 (1989) 135

**Light-scattering detector**

Rapid analysis of triacylglycerols using HPLC with light scattering detection 465 (1989) 369

Improved evaporative light-scattering detection for SFC with carbon dioxide–methanol mobile phases 467 (1989) 49

**Lignins**

Alkaline SEC of lignins and coal extracts using cross-linked dextran gels 467 (1989) 309

Molecular weight distribution of aspen lignins from conventional GPC, universal calibration and sedimentation equilibrium 498 (1990) 93

**Limited subset of components**

Practical use of an optimization strategy in reversed-phase HPLC for the separation of a limited subset of components in a reaction mixture 464 (1989) 225

**Limiting activity coefficients**

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

Limiting activity coefficients and gas–liquid partition coefficients of alkylbenzenes in hydro–organic solvents 500 (1990) 215

**Limiting mobility**

Measurement of limiting mobilities by capillary isotachopheresis with a constant temperature at the site of detection 470 (1989) 69

**Limonene**

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile

oil constituents with short GC retention times 467 (1989) 272

### **Limonin**

Determination of limonin in grapefruit juice and other citrus juices by HPLC 464 (1989) 375

### **Linear free energy relationships**

TLC behaviour of some styryl cyanine dyes derived from pyridine 481 (1989) 331

### **Linear velocity control**

Linear velocity control in capillary SFC by restrictor temperature programming 465 (1989) 157

### **Lipid esters**

Improved separation of lipid esters by TLC 483 (1989) 369

### **Lipids**

On-line HPLC–post-column reaction–capillary GC analysis of lipids in biological samples 454 (1988) 157

Preparative separation of algal polar lipids and of individual molecular species by HPLC and their identification by GC–MS 463 (1989) 397

Rapid analysis of triacylglycerols using HPLC with light scattering detection 465 (1989) 369

Analysis of *in situ* methylated microbial fatty acid constituents by Curie-point pyrolysis–GC–MS 468 (1989) 181

Capillary GC–MS and identification of substituted carboxylic acids in lipids extracted from a 4000-year-old nubian burial 479 (1989) 61

Separation of the molecular species of diacyl and alkenylacyl subclasses of the methyl ester of dinitrophenylethanolamine glycerophospholipid by HPLC 487 (1989) 239

Measurement of intracellular diacylglycerols by acetylation and TLC 490 (1989) 439

Biochemical applications of LC–MS 492 (1989) 189

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Separation of alkylacyl and diacyl glycerophospholipids and their molecular species as naphthylurethanes by HPLC 493 (1989) 353

Rapid, quantitative method for the isolation and purification of gangliosides by LIPSEP gel chromatography 494 (1989) 289

Prediction of retention times of hydroxylated triacylglycerols in reversed-phase HPLC 498 (1990) 410

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

### **Lipophilic gels**

Manual automated enrichment procedures for biological samples using lipophilic gels 488 (1989) 87

### **Lipophilicity**

Contribution of electronic effects to the lipophilicity determined by comparison of values of  $\log P$  obtained by HPLC and calculation 452 (1988) 227

Study of the lipophilic character of a series of  $\beta$ -carboline 469 (1989) 121

Comparison of various non-polar stationary phases used for assessing lipophilicity 473 (1989) 115

Estimation of the reversed-phase LC lipophilicity parameter  $\log k'_w$  using ET-30 solvatochromism 499 (1990) 435

### **Lipopolysaccharides**

Separation by HPLC of oligosaccharides obtained after mild acid hydrolysis of *Klebsiella pneumoniae* O<sub>1</sub>K<sub>2</sub> (NCTC 5055) lipopolysaccharides 474 (1989) 452

GC determination of (phosphorylated) 2-keto-3-deoxyoctonic acid, heptoses and glucosamine in bacterial lipopolysaccharides after treatment with hydrofluoric acid, methanolysis and trifluoroacetylation 487 (1989) 1

Two-dimensional GC with electron-capture detection used in the determination of specific peptidoglycan and lipopolysaccharide constituents of Gram-negative bacteria in infected human urine 490 (1989) 71

### **Lipoproteins**

Purification of human apolipoprotein A-IV by fast protein LC 487 (1989) 154

### **Liposomes**

New HPLC-based methodology for monitoring the conformational transitions of self-associating hydrophobic peptides, incorporated into liposomes 458 (1988) 105

**Lipoxins**

Separation of lipoxins and leukotrienes from human granulocytes by HPLC with a Radial-Pak cartridge after extraction with an octadecyl reversed-phase column 493 (1989) 361

**Lipoyllysine**

Determination of lipoyllysine derived from enzymes by LC 490 (1989) 33

**Liquid chromatography–gas chromatography**

Damage to GC columns caused by peroxides in LC eluents for coupled LC–GC 455 (1988) 297

Determination of free and esterified sterols and of wax esters in oils and fats by coupled LC–GC 471 (1989) 397

Applications of on-line coupled LC–GC 473 (1989) 315

Determination by coupled HPLC–GC of the  $\beta$ -blocker levomoprolol in plasma following ophthalmic administration 473 (1989) 343

Analysis of dicamba in tobacco by on-line coupled LC–GC 473 (1989) 353

Coupled reversed-phase LC–capillary GC for the determination of atrazine in water 473 (1989) 423

Concurrent eluent evaporation with co-solvent trapping for on-line reversed-phase LC–GC. Optimization of conditions 477 (1989) 73

Coupled HPLC–GC for the determination of pesticide residues in biological matrices 477 (1989) 359

**Liquid chromatography–mass spectrometry**

Determination of organophosphorus acids by thermospray LC–MS 454 (1988) 261

Identification of organophosphorus insecticides and their hydrolysis products by liquid chromatography in combination with UV and thermospray–MS detection 455 (1988) 163

Device to transform the LC effluent to a continuous solid plug: a new approach to direct liquid introduction for LC–MS 456 (1988) 363

Characterization of the direct-probe open-tubular LC–MS interface parameters 462 (1989) 365

Thermospray HPLC–MS characterization of biological macromolecules. I. Analysis of acid hydrolysate of peptides 463 (1989) 95

Trace detection of modified DNA bases via moving-belt LC–MS using electrophoretic derivatization and negative chemical ionization 465 (1989) 285

MS investigations on trichothecene mycotoxins. VII. LC–thermospray mass spectrometric analysis of macrocyclic trichothecenes 469 (1989) 209

Specific screening methods for glucosinolates in sprout extracts using on-line thermospray LC–tandem MS 472 (1989) 219

LC–MS. The need for a multidimensional approach 474 (1989) 5

Microcolumn LC–MS using moving belt and continuous flow fast atom bombardment interfaces 474 (1989) 39

Applicability of continuous-flow fast atom bombardment LC–MS in bioanalysis. Dextromethorphan in plasma 474 (1989) 59

Repeller effects in discharge ionization in combined LC or SFC–MS using a thermospray interface. I. Changes in the reagent gas spectrum 474 (1989) 113

Application of thermospray LC–MS and LC–tandem MS for the identification of cynomolgus monkey and human metabolites of SK & F 101468, a dopamine D<sub>2</sub> receptor agonist 474 (1989) 123

Effects of repeller position and voltage in thermospray MS 474 (1989) 139

Improving the ion current stability of a thermospray source by improving the control of the vaporizer temperature and solvent flow-rate 474 (1989) 145

Development of optimization strategies in thermospray LC–MS 474 (1989) 149

Characterization of organophosphorus compounds and phenylurea herbicides by positive and negative ion thermospray LC–MS 474 (1989) 163

Thermospray LC–MS of pesticides in river water using reversed-phase chromatography 474 (1989) 175

Thermospray LC–MS analysis of *Catharanthus* alkaloids 474 (1989) 181

HPLC with thermospray MS detection of  $\alpha$ -carboxyamido amino acids 474 (1989) 187

LC–thermospray MS of DNA adducts formed with mitomycin C, porfiromycin and thiotepa 474 (1989) 197

Use of thermospray LC–MS for characterization of reactive metabolites of 3'-hydroxyacetanilide, a non-hepatotoxic regioisomer of acetaminophen 474 (1989) 209

Application of thermospray LC–MS to the simultaneous quantification of tracer concentrations of isotopically labelled carbamazepine epoxide and steady-state levels of carbamazepine and carbamazepine epoxide 474 (1989) 223

Coupled column chromatography–MS. Thermospray LC–MS and LC–tandem MS analysis of metoprolol enantiomers in plasma using phase-system switching 474 (1989) 257

LC–MS of trace compounds with a moving-belt interface and multi-dimensional chromatography 474 (1989) 265

Belt-speed programming, a new technique for peak compression in LC–MS and supercritical-fluid chromatography–mass spectrometry with moving-belt interfaces 474 (1989) 275

Developments of micro LC–MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

Comparison of open-tubular LC–MS and direct liquid introduction LC–MS for the analysis of metribuzin and its metabolites in plant tissue and water samples 474 (1989) 301

LC–MS studies on rifamycin antibiotics 474 (1989) 317

Identification of nicotine biosynthetic intermediates in tobacco roots by LC–MS 474 (1989) 329

Corona discharge ionization LC–MS interface for target compound analyses 474 (1989) 335

Evaluation of the moving belt as an interface for the HPLC–MS analysis of the flavonoid aglycones 474 (1989) 372

Repeller effects in discharge ionization in LC and SFC–MS using a thermospray interface. II. Changes in some analyte spectra 478 (1989) 325

Preparative HPLC using detection by thermospray MS 478 (1989) 429

Performing high salt concentration gradient elution ion-exchange separations using thermospray MS 479 (1989) 437

Coupling of capillary zone electrophoresis and capillary liquid chromatography with coaxial continuous-flow fast atom bombardment tandem sector MS 480 (1989) 197

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

LC–MS coupling and its application in pharmaceutical research 488 (1989) 73

Biochemical applications of LC–MS 492 (1989) 189

Determination of unlabeled and  $^{13}\text{C}_6$ -labeled moricizine in human plasma using thermospray LC–MS 493 (1989) 79

Determination of leucine enkephalin and methionine enkephalin in equine cerebrospinal fluid by microbore HPLC and capillary zone electrophoresis coupled to tandem MS 495 (1989) 41

Development and validation of an LC–MS assay for the determination of sumatriptan in plasma 496 (1989) 137

Rapid determination of methandrostenolone in equine urine by isotope dilution LC–tandem MS 497 (1989) 49

LC–atmospheric pressure ionization MS analysis of toremifene metabolites in human urine 497 (1989) 169

### Liquid crystals

Isothiocyanate as a liquid crystalline stationary phase in capillary GC for the separation of polyaromatic hydrocarbons 455 (1988) 323

Application of liquid crystals in chromatography (Review) 466 (1989) 37

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile oil constituents with short GC retention times 467 (1989) 272

Optimization of the GC separation of five-membered ring polyarenes with an admixed BPhBT liquid crystal–Dexsil 300 stationary phase 469 (1989) 43

### Liquid extractor

High-efficiency liquid extractor for isolation of a desired material from complex organic mixtures 499 (1990) 721

**Liquid/gas partition coefficients**

Rapid headspace GC method for the determination of liquid/gas partition coefficients 491 (1989) 271

**Liquid-liquid enrichment**

High boiling organic traces in drinking water. Quantitative analysis by liquid-liquid enrichment within the analytical glass capillary 477 (1989) 49

**Liquid-liquid extraction**

Sample preparation for biomedical analysis (Review) 492 (1989) 3

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

**Liquid membrane**

Sample preparation by means of a supported liquid membrane for the determination of chlorophenoxyalkanoic acids 471 (1989) 151

**Liquid-solid extraction**

Fully automated analytical system using liquid-solid extraction and LC for the determination of CGP 6140 in plasma 456 (1988) 45

**Lissamine Rhodamine B sulphonyl chloride**

Rhodamine labelling reagent for the determination of chlorophenols by LC with peroxyoxalate chemiluminescence detection 459 (1988) 139

**LL-E19020 $\alpha$** 

Process-scale reversed-phase HPLC purification of LL-E19020 $\alpha$ , a growth promoting antibiotic produced by *Streptomyces lydicus* ssp. *tanzanius* 484 (1989) 381

**Load capacity**

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

**Localization**

Microcomputer-aided characterization of mobile phases for normal-phase LSC based on Snyder's theory and data 477 (1989) 235

Mobile phase effects on aromatic hydroxyl compounds with an aminopropyl column and interpretation by the Snyder model 479 (1989) 5

**Lofepamine**

Determination of lofepramine and desipramine using HPLC and electrochemical detection 496 (1989) 228

**Long-chain fatty acids**

Long-chain fatty acids and alcohols from gerbil meibomian lipids 494 (1989) 23

**Long-chain fatty alcohols**

Long-chain fatty acids and alcohols from gerbil meibomian lipids 494 (1989) 23

**Longitudinal diffusion**

Contribution of longitudinal diffusion to band broadening in LC 469 (1989) 53

**Loperamide**

Characterization of the antidiarrhoeal loperamide by GC-MS and application of the Hofmann degradation and Cope elimination reaction 494 (1989) 324

**Lorazepam**

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

**Lubricating oil**

Determination of polycyclic aromatic hydrocarbons in lubricating oil base stocks using HPLC and GC-MS 469 (1989) 241

**Lucigenin chemiluminescence**

Chemiluminescence detection for HPLC of biomedical samples (Review) 492 (1989) 319

**Lumazine**

Determination of pterins in urine by HPLC on C<sub>18</sub> columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

**Luminol chemiluminescence**

Chemiluminescence detection for HPLC of biomedical samples (Review) 492 (1989) 319

**Lupine alkaloids**

Analysis of lupine alkaloids in plants by HPLC 462 (1989) 333

**Lutein**

Reversed-phase HPLC separation of lutein and lutein fatty acid esters from marigold flower petal powder 464 (1989) 442

**Lutein fatty acid esters**

Reversed-phase HPLC separation of lutein and lutein fatty acid esters from marigold flower petal powder 464 (1989) 442

**Lymphocyte membrane receptors**

High-performance affinity isolation of lymphocyte membrane receptors on biotinylated antigen and avidin-coated beads 458 (1988) 185

**Lyophilization**

Sample preparation for biomedical analysis (Review) 492 (1989) 3

**Lysine-ketoglutarate reductase**

Assay for lysine-ketoglutarate reductase by reversed-phase HPLC 497 (1989) 263

**Lysozyme**

Ion-exchange equilibrium of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137

HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205

Immunological-chromatographic analysis of lysozyme variants 476 (1989) 235

Capillary electrophoresis of proteins in buffers containing high concentrations of zwitterionic salts 480 (1989) 301

Application of free flow electrophoresis to the preparative purification of basic proteins from an *E. coli* cell extract 481 (1989) 343

Modelling single-component protein adsorption to the cation exchanger S Sepharose® FF 498 (1990) 113

**M****Macrocycle-cation complexation**

Chemically suppressed anion chromatography based on macrocycle-cation complexation 482 (1989) 367

**Macroenzymes**

Detection of macroenzymes in serum by high-performance GPC 496 (1989) 91

 **$\alpha_2$ -Macroglobulin**

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

**Macromolecules**

Field-flow fractionation of macromolecules 470 (1989) 327

**Macrosporin**

HPLC determination of macrosporin, altersolanol A, alterporriol A, B and C in fermentation of *Alternaria porri* (Ellis) Ciferri 454 (1988) 406

**Magnesium**

Isocratic elution of sodium, ammonium, potassium, magnesium and calcium ions by ion-exchange chromatography 469 (1989) 339

**Magnesium ions**

High-performance adsorption chromatography of transfer ribonucleic acids and proteins on 2- $\mu$ m spherical beads of hydroxyapatite. Influence of sodium chloride and magnesium ions on the resolution 499 (1990) 153

**Maillard reaction**

Liquid column chromatography of oxo compounds as their 2,4-dinitrophenylhydrazones with special reference to glucose-glycine Maillard reaction products 500 (1990) 607

**Malaria vaccine**

Preparative purification of *Plasmodium falciparum* circumsporozoite protein synthetic polypeptides by displacement chromatography 482 (1989) 99

**Malate dehydrogenase**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

**Malonaldehyde**

HPLC determination of malonaldehyde in serum 495 (1989) 235

**Maltose**

Chromatographic evaluation of sorption and diffusion characteristics of glucose, maltose and maltotriose in silica gels 463 (1989) 261

**Maltotriose**

Chromatographic evaluation of sorption and diffusion characteristics of glucose, maltose and maltotriose in silica gels 463 (1989) 261

**Manganin electrode**

Use of a simultaneous conductivity and amperometric detector with a manganin electrode in the microcolumn LC of dicarboxylic acids 456 (1988) 370

**Manidipine**

Determination of manidipine and its pyridine metabolite in human serum by HPLC with UV detection and column switching 494 (1989) 209

**Mannan**

Affinity chromatography of anti-mannan antibodies on mannan-acrylamide copolymers 490 (1989) 418

**Mannitol**

Separation of algal organic osmolytes by HPLC 479 (1989) 353

Rapid analysis of sorbitol, galactitol, mannitol and myoinositol mixtures from biological sources 490 (1989) 1

**D-Mannose**

Scale-up and optimization in production LC 484 (1989) 211

**Marker compounds**

Multivariate calibration strategy for reversed-phase chromatography systems based on the characterization of stationary-mobile phase combinations with markers 485 (1989) 169

**Mass balance equations**

Influence of calculation errors in the numerical simulation of chromatographic elution band profiles using an ideal or semi-ideal model 484 (1989) 83

**Mass detection limits**

Mass detection limits achieved with a commercially available fluorimeter in micro HPLC 471 (1989) 297

**Mass spectrometry**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

**Mass transfer effects**

Mass transfer effects in isocratic non-linear elution chromatography 484 (1989) 29

**Maya vessels**

Authentication of cocoa in Maya vessels using HPLC techniques 466 (1989) 279

**Maysin**

Reversed-phase HPLC procedure for the determination of maysin in corn silks 477 (1989) 439

**Mazindol**

Screening and confirmation of drugs in horse urine by using a simple column extraction procedure 473 (1989) 215

**MCASYST**

Microcomputer-assisted LC separation system (MCASYST) for method development and data handling 485 (1989) 461

**Medetomidine**

Picogram level determination of medetomidine in dog serum by capillary GC with negative ion chemical ionization MS 497 (1989) 282

**Medifoxamine**

Determination of medifoxamine in plasma and urine by HPLC 496 (1989) 223

**Medroxyprogesterone acetate**

Use of LC in the synthesis of isoluminol-labelled medroxyprogesterone acetate and zeranol 469 (1989) 305

Specific and sensitive quantitation of medroxyprogesterone acetate in human serum by GC-MS 495 (1989) 13

**Mefenamic acid**

Traditional oriental medicines. I. Black Pearl: identification and chromatographic determination of some undeclared medicinal ingredients 469 (1989) 406

Simple, rapid and sensitive reversed-phase HPLC method for the determination of mefenamic acid in plasma 493 (1989) 239

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

**Mefloquine**

Simultaneous determination of pyrimethamine and mefloquine in human plasma by HPLC with UV detection 494 (1989) 219

**Megabore columns**

Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. I. Evaluation of the system for organophosphorus pesticides 481 (1989) 27

Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. II. Determination of organophosphorus pesticides in environmental water 481 (1989) 37

### Melatonin

LC procedures for the analysis of compounds in the serotonergic and octopamine pathways of lobster hemolymph 452 (1988) 491

### Melengestrol acetate

Determination of melengestrol acetate in bovine tissues by automated coupled-column normal-phase HPLC 488 (1989) 389

### Membership values

Membership values as indicators of complications in chromatography 473 (1989) 267

### Membrane proteins

see also Proteins

HPLC separation of membrane proteins isolated from erythrocyte ghosts 462 (1989) 255

Has immunoblotting replaced electroimmunoprecipitation? Examples from the analysis of autoantigens and transglutaminase-induced polymers of the human erythrocyte membrane 470 (1989) 351

Isolation of a specific membrane protein by immunoaffinity chromatography with biotinylated antibodies immobilized on avidin-coated glass beads 476 (1989) 187

Comparison of non-ionic detergents for extraction and ion-exchange HPLC of Sendai virus integral membrane proteins 476 (1989) 319

Comparison of ion-exchange HPLC columns for purification of Sendai virus integral membrane proteins 476 (1989) 477

Limitations of high-speed reversed-phase HPLC observed with integral membrane proteins 477 (1989) 131

Sensitive resolution of *Giardia lamblia* membrane antigens 480 (1989) 421

Preparative purification of functional bacteriorhodopsin by high performance SEC 483 (1989) 331

Preparative isolation of glycoproteins from plasma membranes of different rat organs 484 (1989) 327

Application of analytical isotachopheresis in the study of platelet membrane proteins in patients with chronic myeloproliferative disorders 490 (1989) 53

### Menadione

Fluorimetric determination of vitamin K<sub>3</sub> (menadione sodium bisulfite) in synthetic animal feed by HPLC using a post-column zinc reducer 472 (1989) 371

### Menaquinones

Measurement of vitamin K in human liver by gradient elution HPLC using platinum-black catalyst reduction and fluorimetric detection 489 (1989) 291

Measurement of K vitamins in animal tissues by HPLC with fluorimetric detection 497 (1989) 131

### Menthyl chloroformate

Resolution of antihypertensive aryloxypropanolamine enantiomers by reversed-phase chromatography of (–)-menthyl chloroformate derivatives 487 (1989) 197

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (–)-menthyl chloroformate 493 (1989) 402

### Mephénytoin

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

### Mepivacaine

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

### Meprobamate

Determination of meprobamate in serum by alkaline hydrolysis, trimethylsilyl derivatization and detection by GC-MS 494 (1989) 318

### 3-Mercaptopropionic acid

LC analysis of amino and imino acids in protein hydrolysates by post-column derivatization with *o*-phthalaldehyde and 3-mercaptopropionic acid 476 (1989) 83

### Mercapturic acid derivatives

Electrochemical detection of mercapturic acid derivatives after separation by HPLC 475 (1989) 391

### Mercury

HPLC of mercury and phenylmercury as the N-disubstituted dithiocarbamate complexes 472 (1989) 401

**Mesoporphyrin III**

Separation of porphyrin isomers by HPLC 493 (1989) 53

**Mestranol**

HPLC analysis of the by-products of the synthesis of ethynylestradiol, mestranol, 17 $\alpha$ -hydroxyprogesterone caproate and 17 $\alpha$ -hydroxy-6-dehydroprogesterone acetate 456 (1988) 427

**Metabolic disorders**

Chromatography for diagnosis of metabolic diseases 452 (1988) 435

Advances in the use of computerized GC-MS and HPLC with rapid scanning detection for clinical diagnosis 468 (1989) 43

**Metabolites**

Prediction of retention of metabolites in HPLC by an expert system approach 485 (1989) 349

**Metal-benzylpropionitrile dithiocarbamate**

Reversed-phase HPLC of metal-benzylpropionitrile dithiocarbamate complexes 481 (1989) 287

**Metal capillaries**

Application of deactivated metal capillaries to the analysis of solvents in varnish 464 (1989) 172

**Metal chelates**

Separation of 4-(2-pyridylazo)resorcinolato metal chelates by micellar electrokinetic capillary chromatography 469 (1989) 175

Photometric detection of metal cations in capillary isotachopheresis based on complex equilibria 470 (1989) 155

Cell surface interactions with metal chelates 495 (1989) 113

Correlation analysis in LC of metal chelates. I. One-dimensional retention-structure models in reversed-phase TLC 498 (1990) 337

**Metal complexes**

Macrocyclic polyfunctional Lewis bases. XII. Influence of complex formation on chromatographic migration 454 (1988) 340

Reversed-phase HPTLC and column LC of metal complexes of pheophorbide *a* 457 (1988) 99

Effect of the central ion of octahedral transition metal complexes on their TLC  $R_F$  values 466 (1989) 227

Chromatographic studies of metal complexes. V. TLC of some octahedral cobalt(III) and nickel(II) complexes 469 (1989) 383

Isotachopheretic separation of cyano complexes of noble metals using ion-pairing equilibrium in water-acetonitrile solvent 472 (1989) 303

HPLC for optical resolution on a column of an ion-exchange adduct of spherically shaped synthetic hectorite and optically active metal complexes 482 (1989) 165

Further studies of diethyldithiocarbamate complexes by HPLC 500 (1990) 313

**Metal-complex pseudophases**

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

**Metal  $\beta$ -diketonate polymers**

Application of metal  $\beta$ -diketonate polymers as selective sorbents in complex mixture analysis and for sulfur-containing compounds 463 (1989) 171

**Metal hydrosols**

Sedimentation field-flow fractionation of colloidal metal hydrosols 461 (1989) 103

**Metal ion, charge**

Some considerations on the "charge" on a metal ion in ion-exchange chromatography 452 (1988) 265

**Metal ions**

Use of HPLC in the study of metal-ion-catalysed methanolysis of phosphoric acid phenyl ester diamide (in German) 467 (1989) 304

Retention modification of nucleic acid constituents in reversed-phase HPLC 468 (1989) 167

Isocratic reversed-phase HPLC assay for a cryptand-cryptate-free metal ion system 469 (1989) 440

Photometric detection of metal cations in capillary isotachopheresis based on complex equilibria 470 (1989) 155

On-line preconcentration and elution of trace metals by ion chromatography 482 (1989) 335

Dyestuff-coated HPLC resins for the ion-exchange and chelating-exchange separation of metal ions 482 (1989) 325

Differential interaction of peptides and protein surface structures with free metal ions and surface-immobilized metal ions 500 (1990) 531

### **Metallic stationary phases**

Retention mechanisms on metallic stationary phases 461 (1989) 139

### **Metallothioneins**

Characterization of the metal composition of metallothionein isoforms using reversed-phase HPLC with atomic absorption spectrophotometric detection 482 (1989) 87

### **Metals**

TLC of some metals on silica gel layers impregnated with salicylic, syringic and *o*-phthalic acid 498 (1990) 428

### **Metal trifluoroacetylacetonates**

LC analysis of bromination reactions of metal trifluoroacetylacetonates 479 (1989) 181

**Metanephrine** Simultaneous quantitation of catecholamines and *O*-methylated metabolites in urine by isocratic ion-pairing HPLC with amperometric detection 459 (1988) 251

**Analysis of the *O*-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29**

### **Metaproterenol**

Determination of free and total metaproterenol in human plasma by HPLC with fluorimetric detection 493 (1989) 230

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (-)-menthyl chloroformate 493 (1989) 402

### **Methacrylate copolymers**

GC and sorption properties of macroporous methacrylate copolymers 469 (1989) 143

### **Methacrylate ion exchangers**

Solute-solvent interactions of macroporous methacrylate ion exchangers in salt form studied by GC 462 (1989) 61

Ion chromatography on methacrylate ion exchangers 475 (1989) 209

### **Methacycline**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

### **Methamphetamine**

Determination of amphetamine-related compounds by HPLC with chemiluminescence and fluorescence detections 464 (1989) 343

Headspace GC of stimulants in urine by in-column trifluoroacetyl derivatization method 467 (1989) 227

### **Methandrostenolone**

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

Effect of extended use of single anabolic steroids on urinary steroid excretion and metabolism 489 (1989) 121

Rapid determination of methandrostenolone in equine urine by isotope dilution LC-tandem MS 497 (1989) 49

### **Methanediene**

Studies on anabolic steroids. I. Integrated methodological approach to the GC-MS analysis of anabolic steroid metabolites in urine 489 (1989) 23

### **Methanol**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

Industrial applications of chromatography. I. Determination of methanol, *n*-butanol and toluene by direct aqueous injection GC 457 (1988) 372

Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65

Adsorption isotherms on silica for methanol and 1-hexanol modifiers from supercritical carbon dioxide 471 (1989) 357

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

Automatic on-line pressurized liquid injection in GC 483 (1989) 111

**Methanolysis**

Use of HPLC in the study of metal-ion-catalysed methanolysis of phosphoric acid phenyl ester diamide (in German) 467 (1989) 304

**Methionine**

On-line HPLC for the determination of cephalosporin C and by-products in complex fermentation broths 499 (1990) 609

**Methionine enkephalin**

Measurement of methionine enkephalin and leucine enkephalin in rat brain regions by HPLC with coulometric electrochemical detection 494 (1989) 67

Determination of leucine enkephalin and methionine enkephalin in equine cerebrospinal fluid by microbore HPLC and capillary zone electrophoresis coupled to tandem MS 495 (1989) 41

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

**DL-Methionine-S-methylsulphonium chloride**

Determination of vitamin U and its degradation products by HPLC with fluorescence detection 479 (1989) 361

**Method development, computer-assisted**

Simplex optimization of HPLC separations (Review) 485 (1989) 3

Computer-assisted optimization in HPLC method development 485 (1989) 15

Selection of mobile phase parameters and their optimization in reversed-phase LC (Review) 485 (1989) 27

Method development in HPLC using retention mapping and experimental design techniques (Review) 485 (1989) 51

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Predictive calculation methods for optimization of gradient elution using binary and ternary solvent gradients 485 (1989) 113

Computer-assisted retention prediction for HPLC in the ion-exchange mode (Review) 485 (1989) 143

Multivariate calibration strategy for reversed-phase chromatography systems based on the characterization of stationary–mobile phase combinations with markers 485 (1989) 169

Computer-aided optimization of HPLC in the pharmaceutical industry (Review) 485 (1989) 183

Comparison of optimization methods in reversed-phase HPLC using mixture designs and multi-criteria decision making (Review) 485 (1989) 195

Explanations and advice provided by an expert system for system optimization in HPLC 485 (1989) 219

Expert system for the selection of HPLC methods for the analysis of drugs 485 (1989) 237

Expert system for the selection of initial HPLC conditions for the analysis of pharmaceuticals 485 (1989) 255

Expert system program for assistance in HPLC method development 485 (1989) 267

Knowledge-based expert system for troubleshooting HPLC assay methods 485 (1989) 297

Uniform shell designs for optimization in reversed-phase LC 485 (1989) 311

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. V. CRIPES (chromatographic retention index prediction expert system) 485 (1989) 325

Cathie: expert interpretation of chromatographic data 485 (1989) 341

Prediction of retention of metabolites in HPLC by an expert system approach 485 (1989) 349

Reversed-phase chromatographic method development for peptide separations using the computer simulation program ProDigest-LC 485 (1989) 365

Rule-based approach for the determination of solute types in unknown sample mixtures as a first step of optimization parameter selection in reversed-phase ion-pair chromatography 485 (1989) 383

Rationalization of the selection of the type of the organic modifier(s) for selectivity optimization in reversed-phase ion-pair chromatography 485 (1989) 403

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

Multi-dimensional interpolation by the moving least-squares approach for modelling of chromatographic retention data 485 (1989) 453

Microcomputer-assisted LC separation system (MCASYST) for method development and data handling 485 (1989) 461

Optimization strategies for solutes exhibiting peak tailing. Comparison of two approaches 485 (1989) 501

Computer-assisted selection of the optimum gradient programme in TLC 485 (1989) 517

Prediction of retention times in ion-exchange chromatography 485 (1989) 533

Solvent modulation in LC: optimization strategies 485 (1989) 541

Recent advances in fuzzy peak tracking in HPLC 485 (1989) 557

Peak tracking in HPLC based on normalized band areas. A ribosomal protein sample as an example 485 (1989) 569

Development of HPLC method for fluroxypyr herbicide and metabolites using computer simulation with DryLab G software 485 (1989) 581

Computer-assisted optimization of an HPLC separation for chlorpromazine and thirteen metabolites 485 (1989) 585

Practical approach for HPLC method development: assaying synthetic intermediates of a leukotriene inhibitor 485 (1989) 597

Computer-assisted development of an HPLC method for fractionating selected nitro derivatives of polyaromatic hydrocarbons 485 (1989) 607

Reversed-phase LC retention and selectivity surfaces. II. Deoxyribonucleosides 485 (1989) 617

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient elution of a mixture of natural secoiridoid compounds 485 (1989) 631

Optimization of gradients in anion-exchange separations of oligonucleotides using computer-assisted retention prediction and an HPLC simulation system 485 (1989) 647

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

### Method validation

Selection of HPLC methods in pharmaceutical analysis. III. Method validation 464 (1989) 265

Expert system for method validation in chromatography 485 (1989) 283

### Methotrexate

Rapid quantitation of methotrexate and its metabolites in human serum, urine and bile, using solid-phase extraction and HPLC 487 (1989) 476

Stable and sensitive method for the simultaneous determination of N<sup>5</sup>-methyltetrahydrofolate, leucovorin, methotrexate and 7-hydroxymethotrexate in biological fluids 488 (1989) 379

Comparison of HPLC and the Abbott fluorescent polarization radioimmunoassay in the measurement of methotrexate 494 (1989) 201

### 3-Methoxy-O-desmethylecainide

Improved HPLC assay for ecainide and its metabolites in human body fluids 490 (1989) 165

### Methoxyflavones

Computer-assisted optimization with NEMROD software 485 (1989) 433

### 3-Methoxy-4-hydroxymandelic acid

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

### 3-Methoxy-4-hydroxyphenylethylene glycol

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

Determination of urinary 3-methoxy-4-hydroxyphenylethylene glycol and its conjugates by HPLC with electrochemical and UV absorbance detection 493 (1989) 275

**{(R)-2-(Methoxymethyl)-1-[(7-oxo-8-phenyl-7H-thieno[2,3-a]quinolizin-10-yl)-carbonyl]pyrrolidine}**

Determination of a new non-benzodiazepine anxiolytic and its O-demethyl metabolite in plasma by HPLC using automated column-switching 456 (1988) 21

**Methoxyphenamine**

Enantioselective GC assays with electron-capture detection for methoxyphenamine and its three primary metabolites in human urine 487 (1989) 61

**3-Methoxytyramine**

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

**Methylamine**

LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249

**$\alpha$ -Methylarylacetic acids**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

**Methylation**

Methylation of  $\omega$ -oxocarboxylic acids with diazomethane: effect of solvent on by-product formation 467 (1989) 279

**Methylbenz[a]anthracenes**

Separation and identification of monomethylated polycyclic aromatic hydrocarbons in heavy oil 498 (1990) 25

**Methyl-2-benzimidazole carbamate**

Effect of organic solvents in sample solutions and injection volumes on chromatographic peak

profiles of analytes in reversed-phase HPLC 483 (1989) 189

**3-Methylbenzothiazolones**

HPLC analysis of aldehydes at trace level as their 3-methylbenzothiazolone azine derivatives 475 (1989) 343

**Methyl *tert.*-butyl ether**

Automatic on-line pressurized liquid injection in GC 483 (1989) 111

**N-Methylcarbamates**

LC determination of N-methylcarbamate pesticides using a single-stage post-column derivatization reaction and fluorescence detection 481 (1989) 445

**2-Methyl-4-chlorophenoxyacetic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

GC-MS method to assess residues of 2-methyl-4-chlorophenoxyacetic acid in human urine 489 (1989) 404

**$\alpha$ -(2-Methyl-4-chlorophenoxy)butyric acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

**Methylchrysenes**

Separation and identification of monomethylated polycyclic aromatic hydrocarbons in heavy oil 498 (1990) 25

**Methylcyclopentadiene dimers**

Separation and characterization of methylcyclopentadiene dimers by GC and molecular spectroscopy 464 (1989) 93

**5-Methylcytosine**

Determination of 5-methylcytosine in DNA by GC-electron-capture detection 452 (1988) 51

Trace detection of modified DNA bases via moving-belt LC-MS using electrophoretic derivatization and negative chemical ionization 465 (1989) 285

**Methyl diethanolamine**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

**$\beta$ -Methyldigoxin**

Determination of  $\beta$ -methyldigoxin and its metabolites by HPLC and fluorescence polarization immunoassay 489 (1989) 425

**Methyl 2-(4-diphenylmethyl-1-piperazinyl)ethyl ( $\pm$ )-1,4-dihydro-2,6-dimethyl-4-(*m*-nitrophenyl)-3,5-pyridine-dicarboxylate**

Sensitive HPLC determination of ionic drugs in biological fluids with short-wavelength UV detection using column switching combined with ion-pair chromatography: application to basic compounds 487 (1989) 357

**(1-Methyldodecyl)dimethylamine N-oxide**

Pyrolysis GLC of N,N-dimethylalkylamine N-oxides and their mixtures 466 (1989) 347

**3-O-Methyl-DOPA**

Improved HPLC analysis with double detection system for L-DOPA, its metabolites and carbidopa in plasma of Parkinsonian patients under L-DOPA therapy 459 (1988) 341

**Methylene Blue**

HPLC of Gentian Violet, its demethylated metabolites, Leucogentian Violet and Methylene Blue with electrochemical detection 467 (1989) 259

**4,4'-Methylenedianiline**

Chromatographic determination of amines in biological fluids with special reference to the biological monitoring of isocyanates and amines. III. Determination of 4,4'-methylenedianiline in hydrolysed human urine using derivatization and capillary GC with selected ion monitoring 479 (1989) 145

**3,4-Methylenedioxyamphetamine**

Determination of 3,4-methylenedioxyamphetamine and 3,4-methylenedioxyamphetamine enantiomers in whole blood 490 (1989) 59

**3,4-Methylenedioxyamphetamine**

Determination of 3,4-methylenedioxyamphetamine and 3,4-methylenedioxyamphetamine enantiomers in whole blood 490 (1989) 59

**Methyl ethyl ketone**

Determination of methyl ethyl ketone in human urine after derivatization with *o*-nitrophenylhydrazine, using solid-phase extraction and reversed-phase HPLC and UV detection 489 (1989) 419

**Methyl green-coated column**

Methyl green-coated column for separation of inorganic anions by ion chromatography 452 (1988) 283

**Methylhippuric acids**

HPLC separation of urinary hippuric and *o*-, *m*- and *p*-methylhippuric acids with a  $\beta$ -cyclodextrin-bonded column 496 (1989) 189

**3-Methylhistidine**

Determination of 3-methylhistidine in urine by HPLC using pre-column derivatization with 9-fluorenylmethyl chloroformate 491 (1989) 418

**N<sup>7</sup>-Methylimidazoleacetic acid**

Assay for N<sup>7</sup>-methylimidazoleacetic acid, a major metabolite of histamine, in urine and plasma using capillary column GC-negative ion MS 491 (1989) 15

**tele-Methylimidazoleacetic acid**

Altered retention of derivatives of *tele*-methylimidazoleacetic acid in acid-hydrolyzed samples of brain measured by capillary GC and MS 472 (1989) 256

**3-O-Methylisoprenaline**

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

**N-Methylaurotetanine**

Determination of isoquinoline alkaloids from *Peumus boldus* by HPLC 457 (1988) 442

**Methyl methacrylate**

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

**Methyl methacrylate copolymers**

Solute-solvent interactions of macroporous methacrylate ion exchangers in salt form studied by GC 462 (1989) 61

**2-Methyl-5-(4-methyl-1-piperazinyl)-11H-[1,2,4]-triazolo-[1,5-C][1,3]-benzodiazepine**

HPLC method for a clozapine analogue, CGS 13429, and its N-oxide and desmethyl metabolites 494 (1989) 413

**Methyl N-(2-naphthyl)alaninate**

Computational chemical studies of chiral stationary phase models. Complexes of methyl N-(2-naphthyl)alaninate with N-(3,5-dinitrobenzoyl)leucine *n*-propylamide 461 (1989) 129

**Methylolmelamines**

Improved method for the separation of methylolmelamines by HPLC 477 (1989) 467

**Methylphenanthrenes**

Separation and identification of monomethylated polycyclic aromatic hydrocarbons in heavy oil 498 (1990) 25

**Methylphenidate**

GC-MS analysis of *threo*-methylphenidate enantiomers in plasma 494 (1989) 420

**5-(4-Methylphenyl)-5-phenylhydantoin**

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

**Methylphosphonic acids**

GC determination of methylphosphonic acids by methylation with trimethylphenylammonium hydroxide 467 (1989) 129

**Methylprednisolone**

Simultaneous determination of methylprednisolone and methylprednisolone-21-[8-[methyl-(2-sulfoethyl)amino]-8-oxooctanoate] sodium salt in human urine by HPLC with UV detection 496 (1989) 245

**Methylprednisolone 21-[8-[methyl-(2-sulphoethyl)amino]-8-oxooctanoate] sodium salt**

Simultaneous determination of methylprednisolone and methylprednisolone-21-[8-[methyl-(2-sulfoethyl)amino]-8-oxooctanoate] sodium salt in human urine by HPLC with UV detection 496 (1989) 245

**2-Methylpropene**

Automatic on-line pressurized liquid injection in GC 483 (1989) 111

**N-Methylputrescine**

Identification of nicotine biosynthetic intermediates in tobacco roots by LC-MS 474 (1989) 329

**4-Methylpyridinium polymers**

HPLC of proteins on N-methylpyridinium polymer columns 472 (1989) 357

**Methyl red**

Study of the adsorption of methyl red on thermally treated GLC packings 457 (1988) 377

**Methyltestosterone**

Multi-immunoaffinity chromatography: a simple and highly selective clean-up method for multi-anabolic residue analysis of meat 489 (1989) 111

Chemiluminescence immunoassay for the detection and quantification of methyltestosterone residues in muscle tissue 489 (1989) 219

Enzyme immunoassay screening procedure for the synthetic anabolic estrogens and androgens diethylstilbestrol, nortestosterone, methyltestosterone and trenbolone in bovine urine 489 (1989) 235

**N<sup>5</sup>-Methyltetrahydrofolic acid**

Stable and sensitive method for the simultaneous determination of N<sup>5</sup>-methyltetrahydrofolate, leucovorin, methotrexate and 7-hydroxymethotrexate in biological fluids 488 (1989) 379

**Methylthiouracil**

Screening and confirmation of thyreostatics in urine by GC with nitrogen-phosphorus detection and GC-MS after sample clean-up with a mercurated affinity column 489 (1989) 127

**Methyltryptophan**

Adsorption chromatography on cellulose. IV. Separation of D- and L-tryptophan and D- and L-methyltryptophan on cellulose with aqueous solvents 469 (1989) 253

**N-Methyltyramine**

Separation of hordenine and N-methyl derivatives from germinating barley by LC with dual-electrode coulometric detection 498 (1990) 241

**Methyl Yellow**

Determination of Methyl Yellow, Sudan I and Sudan II in water by HPLC 465 (1989) 434

**Metipamide**

Therapeutic monitoring of metipamide during antihypertensive therapy 488 (1989) 295

**Metolachlor**

GC determination of chloroacetamide herbicides in plants and soil 455 (1988) 391

**Metopimazine**

HPLC method with fluorescence detection for the simultaneous determination of metopimazine and its acid metabolite in serum 496 (1989) 472

**Metoprolol**

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

- Coupled column chromatography–MS. Thermospray LC–MS and LC–tandem MS analysis of metoprolol enantiomers in plasma using phase-system switching 474 (1989) 257
- Optimization of detection sensitivity for enantiomers of metoprolol on silica-bonded  $\alpha_1$ -acid glycoprotein 477 (1989) 107
- Determination of metoprolol and its  $\alpha$ -hydroxy metabolite in urine by direct-injection reversed-phase HPLC with fluorimetric detection 488 (1989) 498
- Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (–)-menthyl chloroformate 493 (1989) 402
- Rapid HPLC method for the measurement of the enantiomers of metoprolol in serum using a chiral stationary phase 497 (1989) 181
- Measurement of underivatized metoprolol enantiomers in human plasma by HPLC with a chiral stationary phase 497 (1989) 313
- Enantioselective determination of metoprolol in plasma by LC on a silica-bonded  $\alpha_1$ -acid glycoprotein column 500 (1990) 629

### **Metribuzin**

- Comparison of open-tubular LC–MS and direct liquid introduction LC–MS for the analysis of metribuzin and its metabolites in plant tissue and water samples 474 (1989) 301
- HPLC of metribuzin and non-polar metabolites extracted from leaf tissues 479 (1989) 206

### **Mexiletine**

- Rapid HPLC method for the quantification of mexiletine and its metabolites in serum 493 (1989) 414

### **Mezlocillin**

- Reversed-phase HPLC assay for the determination of mezlocillin in human and rat biological samples 494 (1989) 376

### **Micellar electrokinetic chromatography**

- Separation of water-soluble vitamins by micellar electrokinetic chromatography 465 (1989) 331
- Separation of 4-(2-pyridylazo)resorcinolato metal chelates by micellar electrokinetic capillary chromatography 469 (1989) 175
- Separation of  $\beta$ -lactam antibiotics by micellar electrokinetic chromatography 477 (1989) 259
- Instrumental developments in micellar electrokinetic capillary chromatography 480 (1989) 185

- Chiral separation by electrokinetic chromatography with bile salt micelles 480 (1989) 403

- Enantioselective hydrophobic entanglement of enantiomeric solutes with chiral functionalized micelles by electrokinetic chromatography 480 (1989) 413

- High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

- Separation and determination of the ingredients of a cold medicine by micellar electrokinetic chromatography with bile salts 498 (1990) 313

### **Micellar phase-transfer catalysis**

- Automated HPLC determination of plasma free fatty acids using on-line derivatization with 9-bromomethylacridine based on micellar phase-transfer catalysis 500 (1990) 443

### **Micellar pseudophases**

- Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

### **Micelles**

- Sample preparation for biomedical analysis (Review) 492 (1989) 3

### **Microbeads, non-porous silica gel**

- Polymer support synthesis. XV. Behaviour of non-porous surface-coated silica gel microbeads in oligonucleotide synthesis 476 (1989) 49

### **Microcylinder electrodes**

- Microcylinder electrodes as sensitive detectors for high-efficiency, high-speed LC 482 (1989) 65

### **$\beta_2$ -Microglobulins**

- Selective removal of  $\beta_2$ -microglobulin from human plasma by high-performance immunoaffinity chromatography 496 (1989) 194

### **Micropellicular stationary phases**

- Micropellicular stationary phases for rapid protein analysis by HPLC 499 (1990) 267

### **Microwave hydrolysis**

- Determination of amino acids on Merrifield resin by microwave hydrolysis 456 (1988) 357

### **Microwave-induced plasmas**

- Element-selective GC detection by atomic plasma emission spectroscopy. Review and developments 468 (1989) 319

**Microwave irradiation**

Peptide and protein hydrolysis by microwave irradiation 491 (1989) 424

**Microwave processing**

Sample preparation for biomedical analysis (Review) 492 (1989) 3

**Midazolam**

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

Simultaneous determination of midazolam and its three hydroxy metabolites in human plasma by electron-capture GC without derivatization 491 (1989) 107

Determination of midazolam and the  $\alpha$ -hydroxy metabolite by GC in small plasma volumes 491 (1989) 455

**'Middle molecules'**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

**Milk replacers**

Determination of hormone contaminants in milk replacers by HPLC and immunoassay 489 (1989) 181

**Milrinone**

HPLC determination of milrinone in biological tissues and fluids 491 (1989) 265

**Minocycline**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

**Mitomycin C**

Phase-system switching as an on-line sample pretreatment in the bioanalysis of mitomycin C using supercritical fluid chromatography 454 (1988) 243

LC-thermospray MS of DNA adducts formed with mitomycin C, porfiromycin and thiotepa 474 (1989) 197

HPLC determination of mitomycin C in rat and human plasma and urine 495 (1989) 330

Mitomycin C determination using loop-column extraction: a rapid and sensitive HPLC assay for pharmacokinetic studies with Spherex starch particles 497 (1989) 336

**Mitoxantrone**

HPLC determination of mitoxantrone in plasma utilizing non-bonded silica gel for solid-phase isolation to reduce adsorptive losses on glass during sample preparation 465 (1989) 75

**Mixed cells model**

Ideal mixed cells model of multi-component preparative LC 464 (1989) 1

**Mixture design**

Comparison of optimization methods in reversed-phase HPLC using mixture designs and multi-criteria decision making (Review) 485 (1989) 195

**Mizoribine**

Determination of mizoribine in plasma using ion-pair HPLC 494 (1989) 354

**Mobile phase composition**

Unified theory of adsorption chromatography: gas, liquid and supercritical fluid mobile phases 452 (1988) 17

Studies of adsorption and partition effects in LC with mixed mobile phases 452 (1988) 131

Enantioselectivity of complex formation in ligand-exchange chromatographic systems with chiral stationary and/or chiral mobile phases 452 (1988) 309

Selection of HPLC methods in pharmaceutical analysis. I. Optimization for selectivity in reversed-phase chromatography 454 (1988) 83

Selection of HPLC methods in pharmaceutical analysis. II. Optimization for selectivity in normal-phase systems 454 (1988) 95

Use of mobile phase modifiers to alter retention and stereoselectivity on a bovine serum albumin HPLC chiral stationary phase 455 (1988) 316

Expert system for the selection of HPLC methods in pharmaceutical analysis. Validation of the rules for the selection of the mobile phase 457 (1988) 25

Retention in reversed-phase LC: solvatochromic investigation of homologous alcohol-water binary mobile phases 457 (1988) 85

Separation of hydrophilic thiols using reversed-phase chromatography with trihaloacetate buffers 457 (1988) 111

Non-suppressed ion chromatography of arsenic anions using sodium nitrite solutions as eluents 457 (1988) 415

- Practical optimization of the separation of a limited subset of components by using isoelutropic ternary eluent mixtures in reversed-phase HPLC 458 (1988) 371
- Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65
- Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209
- Mobile phase optimization of a urea-linked chiral stationary phase for the HPLC separation of optical isomers 461 (1989) 407
- Determination of the enantiomers of  $\alpha$ -amino acids and  $\alpha$ -amino acid amides by HPLC with a chiral mobile phase 461 (1989) 419
- Separation of basic drugs by HPLC on a silica column using a methanol-ethylenediamine buffer 464 (1989) 117
- Practical use of an optimization strategy in reversed-phase HPLC for the separation of a limited subset of components in a reaction mixture 464 (1989) 225
- Optimization of mobile phase composition for HPLC analysis of eleven priority substituted phenols 464 (1989) 405
- Multifactor simultaneous statistical optimization of the mobile phase composition for the separation of inorganic anions in reversed-phase ion-interaction chromatography 467 (1989) 15
- Use of  $^1\text{H}$  NMR spectroscopy in the selection of the mobile phase for HPLC monitoring of the synthesis of ibuprofen 467 (1989) 276
- Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357
- Retention modification of nucleic acid constituents in reversed-phase HPLC 468 (1989) 167
- Picolinic acid: a mobile phase additive for improved chromatography of metal-chelating heterocyclic acids and  $\beta$ -diketones 471 (1989) 437
- Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197
- LC separation of acidic phosphoserine peptides on macroporous copoly(styrene-divinylbenzene) using amines to regulate retention 473 (1989) 63
- Chromatographic fractionation of proteins at high organic solvent modifier concentrations 474 (1989) 418
- Programming of pressure and mobile phase composition at constant flow-rate using a self-adjusting valve in SFC 475 (1989) 85
- Reversed-phase LC of proteins with strong acids 476 (1989) 499
- Microcomputer-aided characterization of mobile phases for normal-phase LSC based on Snyder's theory and data 477 (1989) 235
- Systematic procedure for the determination of the nature of the solutes prior to the selection of the mobile phase parameters for optimization of reversed-phase ion-pair chromatographic separations 478 (1989) 21
- Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87
- Evaluation of the optimization potential in HPLC separations of optical isomers with swollen microcrystalline cellulose triacetate 478 (1989) 101
- Retention behaviour of cardiac steroids using cyclodextrin in the mobile phase in HPLC 478 (1989) 339
- High-performance SEC of poly- and oligoethylene terephthalate using a mixture of hexafluoroisopropanol and chloroform as the mobile phase 479 (1989) 85
- Study of the changes in mono-, di- and trifunctional octadecyl-modified packings for reversed-phase HPLC with different eluent compositions 479 (1989) 269
- Use of achiral ion-pairing reagents with chiral stationary phases 479 (1989) 377
- Effect of some operational variables on the efficiency of ion chromatographic separations 479 (1989) 387
- HPLC determination of phenoxyalkanoic acid herbicides using iron(II) 1,10-phenanthroline as a mobile phase additive 481 (1989) 439

Ion-exchange chromatography of proteins. The effect of neutral polymers in the mobile phase 482 (1989) 133

HPLC of amino acids, peptides and proteins. XCIII. Comparison of methods for the purification of mouse monoclonal immunoglobulin M autoantibodies 476 (1989) 269

#### **N-Monodemethylidiltiazem**

Automated HPLC with column switching for on-line clean-up and analysis of diltiazem and metabolites in human plasma 495 (1989) 358

#### **Monodesethylflurazepam**

Simultaneous determination of flurazepam and its metabolites in human plasma by HPLC 494 (1989) 247

#### **Monoethanolamine**

Simultaneous determination of monoethanolamine and glycine betaine in plants 479 (1989) 452

#### **Monoglycerides**

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

#### **Monolignol glucosides**

HPLC separation of *E*- and *Z*-monolignols and their glucosides 479 (1989) 345

#### **Monolignols**

HPLC separation of *E*- and *Z*-monolignols and their glucosides 479 (1989) 345

#### **Mononucleotides**

Preparation of several types of RPC-5-like resins and their use for the separation of oligonucleotides and mononucleotides by HPLC 481 (1989) 201

#### **Monoolein**

Simultaneous HPLC analysis of oleic acid and simple glycerides of oleic acid 465 (1989) 438

#### **Monoxygenase**

Separation and purification of component proteins of the cytochrome P-450-dependent microsomal monoxygenase system by HPLC 476 (1989) 299

#### **Monophosphorus compounds**

Identification of tabun impurities by combined capillary column GC-MS 465 (1989) 271

#### **Monosialogangliosides**

HPLC separation of gangliosides, combined with immunological detection and fast atom bombardment MS characterization 490 (1989) 263

#### **Monosulphide**

Ion-pair chromatographic separation of inorganic sulphur anions including polysulphide 475 (1989) 442

#### **Monoterpenes**

Preconcentration and analysis of atmospheric isoprene and monoterpenes. System automation 456 (1988) 165

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

#### **Moricizine**

Improved column LC method for the determination of moricizine in plasma or serum 490 (1989) 458

Determination of unlabeled and <sup>13</sup>C<sub>6</sub>-labeled moricizine in human plasma using thermospray LC-MS 493 (1989) 79

#### **Morphiceptin**

Physicochemical studies of biologically active peptides by low-temperature reversed-phase HPLC 499 (1990) 79

#### **Morphine**

HPLC determination of morphine in biological samples: an overview of separation methods and detection techniques 488 (1989) 215

Determination of morphine in plasma by GC using a macrobore column and thermoionic detection after Extrelut column extraction: application to follow-up morphine treatment in cancer patients 489 (1989) 411

GC-MS determination of morphine, codeine and 6-monoacetylmorphine in blood extracted by solid phase 490 (1989) 444

Simultaneous extraction and chromatographic analysis of morphine, dilaudid, naltrexone and naloxone in biological fluids by HPLC with electrochemical detection 491 (1989) 240

Simultaneous determination of codeine, norcodeine and morphine in biological fluids by HPLC with fluorescence detection 491 (1989) 367

Determination of codeine and its metabolites in human blood plasma and in microsomal incubates by HPLC with UV detection 491 (1989) 473

Determination of morphine in plasma by HPLC with fluorescence detection 497 (1989) 326

### **Morphine-3-glucuronide**

HPLC determination of morphine in biological samples: an overview of separation methods and detection techniques 488 (1989) 215

### **Morpholep**

Use of a fragment of bovine serum albumin as a chiral stationary phase in LC 482 (1989) 35

### **Morpholine**

LC determination of morpholine and its thermal breakdown products in steam-water cycles at nuclear power plants 467 (1989) 249

### **Morpholinosulphenylbenzothiazole**

Determination of morpholinosulphenylbenzothiazole by HPLC 462 (1989) 426

### **Moving belt interface**

Microcolumn LC-MS using moving belt and continuous flow fast atom bombardment interfaces 474 (1989) 39

Evaluation of the moving belt as an interface for the HPLC-MS analysis of the flavonoid aglycones 474 (1989) 372

### **Moving least-squares**

Multi-dimensional interpolation by the moving least-squares approach for modelling of chromatographic retention data 485 (1989) 453

### **Mucin**

Analysis of mucin by isotachopheresis 463 (1989) 445

### **Multichannel UV-photometric zone detector**

The separation process in isotachopheresis. I. A 32-channel UV-photometric zone detector 463 (1989) 39

### **Multi-criteria decision making**

Comparison of optimization methods in reversed-phase HPLC using mixture designs and multi-criteria decision making (Review) 485 (1989) 195

### **Multi-dimensional interpolation**

Multi-dimensional interpolation by the moving least-squares approach for modelling of chromatographic retention data 485 (1989) 453

### **Multi-immunoaffinity chromatography**

Multi-immunoaffinity chromatography: a simple and highly selective clean-up method for multi-anabolic residue analysis of meat 489 (1989) 111

### **Multilayer coil planet centrifuge**

Multilayer coil planet centrifuge for analytical high-speed counter-current chromatography 479 (1989) 53

### **Multi-phase ion exchangers**

New latex-bonded pellicular anion exchangers with multi-phase selectivity for HPLC separations 499 (1990) 249

### **Multivariate analysis**

Strategy for peak tracking in LC on the basis of a multivariate analysis of spectral data 499 (1990) 499

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

### **Multivariate calibration**

Multivariate calibration strategy for reversed-phase chromatography systems based on the characterization of stationary-mobile phase combinations with markers 485 (1989) 169

### **Muzolimine**

Determination of muzolimine in plasma and urine by HPLC 496 (1989) 478

### ***Mycobacterium chelonae***

GC fatty acid determination to differentiate *Nocardia asteroides*, *Mycobacterium fortuitum* and *Mycobacterium chelonae* 487 (1989) 142

***Mycobacterium fortuitum***

GC fatty acid determination to differentiate *Nocardia asteroides*, *Mycobacterium fortuitum* and *Mycobacterium chelonae* 487 (1989) 142

**Mycolic acids**

Separation of homologues of methyl ester and 3-O-acetyl methyl ester derivatives of the corynomycolic acid fraction from *Corynebacterium pseudotuberculosis* 481 (1989) 411

**Mycotoxins**

Profiling of *Alternaria* mycotoxins in foodstuffs by HPLC with diode-array UV detection 465 (1989) 305

MS investigations on trichothecene mycotoxins. VII. LC-thermospray mass spectrometric analysis of macrocyclic trichothecenes 469 (1989) 209

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

HPLC determination of zearalenone and ochratoxin A in cereals and feed 478 (1989) 269

Sensitive analysis of the mycotoxin zearalenone and its metabolites in biological fluids by HPLC 494 (1989) 267

**Myoglobin**

Ion-exchange equilibria of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137

**Myoinositol**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

Rapid analysis of sorbitol, galactitol, mannitol and myoinositol mixtures from biological sources 490 (1989) 1

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

**Myosin**

High-performance ion-exchange chromatography of myosin using a DEAE-5PW column 491 (1989) 61

**Myristic acid**

Chromatographic approaches to the quality control of chiral propionate anti-inflammatory drugs and herbicides 469 (1989) 183

**Myristicine**

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

**N****Nalidixic acid**

Improvement of chemical analysis of antibiotics. XVI. Simple and rapid determination of residual pyridonecarboxylic acid antibacterials in fish using a prepacked amino cartridge 477 (1989) 397

**Naloxone**

Quantitative and pharmacokinetic analysis of naloxone in plasma using HPLC with electrochemical detection and solid-phase extraction 488 (1989) 435

Simultaneous extraction and chromatographic analysis of morphine, dilaudid, naltrexone and naloxone in biological fluids by HPLC with electrochemical detection 491 (1989) 240

**Naltrexone**

Simultaneous extraction and chromatographic analysis of morphine, dilaudid, naltrexone and naloxone in biological fluids by HPLC with electrochemical detection 491 (1989) 240

**Nandrolone**

Effect of extended use of single anabolic steroids on urinary steroid excretion and metabolism 489 (1989) 121

**Naphthalene-2,3-dicarboxaldehyde**

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

**Naphthalenes**

Determination of benzenes and naphthalenes in water by purge and trap isolation and capillary column chromatography 466 (1989) 271

**1,2-Naphthoquinone-4-sulphonate**

HPLC determination of low levels of primary and secondary amines in aqueous media via derivatisation with 1,2-naphthoquinone-4-sulphonate 483 (1989) 341

 **$\beta$ -Naphthoquinone-4-sulphonate**

Electrochemical label for HPLC. I.  $\beta$ -Naphthoquinone-4-sulphonate as an electrochemical detection labelling reagent of amines 489 (1989) 371

**Naphthylamines**

Separation of 1-naphthylamine from the five known impurities and sub-ppm level detection and quantitation of 2-naphthylamine by normal-phase HPLC 464 (1989) 201

**Naproxen**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Discussion of a controversial chiral recognition model 469 (1989) 67

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

**Narcotine**

Programmable temperature vaporizer applications in an high-resolution GC method for the quantitation of impurities in illicit heroin 466 (1989) 384

**Narcotoline**

Determination of noscapine and its metabolites in plasma by coupled-column LC 459 (1988) 301

**Natural products**

Use of absorbance ratios in densitometric measurements for the characterization and identification of natural products of pharmacological interest 469 (1989) 390

**NEMROD**

Computer-assisted optimization with NEMROD software 485 (1989) 433

**Neopterin**

Determination of pterins in urine by HPLC on  $C_{18}$  columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

***Nepenthes alata***

Purification of the decomposing enzyme from *Nepenthes alata* against glycophorin B of human red blood cells by HPLC 489 (1989) 384

**Neral**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

**Nesosteine**

HPLC assay of nesosteine in human plasma and urine 487 (1989) 117

**Netilmicin**

Determination of the aminoglycoside antibiotics sisomicin and netilmicin in dried blood spots on filter discs, by HPLC with pre-column derivatization and fluorimetric detection 490 (1989) 125

**Neuroleptic drugs**

Comparison of various non-polar stationary phases used for assessing lipophilicity 473 (1989) 115

**Neuromodulin**

Microheterogeneity of the growth-associated neuronal protein B-50 (GAP-43). Contribution of phosphorylation by protein kinase C 483 (1989) 301

**Neuropeptides**

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

**Niacin**

Simultaneous determination of niacin and niacinamide in meats by HPLC 457 (1988) 403

**Niacinamide**

Simultaneous determination of niacin and niacinamide in meats by HPLC 457 (1988) 403

**Nicarbazin**

HPLC screening method for low levels of nicarbazin in eggs with off-line cartridge sample clean-up 481 (1989) 452

**Nickel complexes**

Selection of conditions for the molecular size speciation of vanadium and nickel complexes in oil by SEC coupled with inductively coupled plasma-atomic emission spectrometry 462 (1989) 115

Chromatographic studies of metal complexes. V. TLC of some octahedral cobalt(III) and nickel(II) complexes 469 (1989) 383

**Nickel(II) bis[ $\alpha$ -(heptafluorobutanoyl)terpeneketonates]**

Evaluation of nickel(II) bis[ $\alpha$ -(heptafluorobutanoyl)terpeneketonates] as chiral stationary phases for the enantiomer separation of alkyl-substituted cyclic ethers by complexation GC 475 (1989) 23

**Nickel(II) desoxophylloerythroetioporphyrin**

Separation of nickel(II) alkylporphyrins by reversed-phase HPLC. Methodology and application 467 (1989) 195

**Nickel(II) etioporphyrins**

Separation of nickel(II) alkylporphyrins by reversed-phase HPLC. Methodology and application 467 (1989) 195

**Nickel(II) porphyrins**

Separation of nickel(II) alkylporphyrins by reversed-phase HPLC. Methodology and application 467 (1989) 195

***Nicotiana tabacum* L., leaf surface components**

Quantitative TLC of *Nicotiana tabacum* leaf surface components 463 (1989) 429

**Nicotinamide**

GC determination of nicotinamide in meats and meat products as 3-cyanopyridine 466 (1989) 307

**Nicotinamide-adenine dinucleotide kinase**

HPLC assay for nicotinamide-adenine dinucleotide kinase 476 (1989) 487

**Nicotinate esters**

Convenient method for the analysis of nicotinic acid as a metabolite of nicotinate esters in various tissue homogenates 495 (1989) 256

**Nicotine**

Identification of nicotine biosynthetic intermediates in tobacco roots by LC-MS 474 (1989) 329

Capillary GC determination of *trans*-3'-hydroxycotinine simultaneously with nicotine and cotinine in urine and blood samples 479 (1989) 410

Separation of homologous and isomeric alkaloids related to nicotine on a  $\beta$ -cyclodextrin-bonded phase 483 (1989) 169

Determination of nicotine and cotinine in urine by HPLC (in French) 488 (1989) 487

**Nicotinic acid**

Convenient method for the analysis of nicotinic acid as a metabolite of nicotinate esters in various tissue homogenates 495 (1989) 256

**Nifedipine**

GC-MS analysis of plasma nifedipine 495 (1989) 123

**Nitrate**

Determination of nitrite and nitrate by reversed-phase HPLC using on-line post-column photolysis with UV absorbance and electrochemical detection 452 (1988) 295

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

Precision and accuracy of ion chromatography in dry deposition measurements 482 (1989) 297

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

Calculation of column performance in nitrate removal from water supplies by anion exchange 499 (1990) 677

**Nitrazepam**

Determination of intact nitrazepam in plasma by GC (in French) 491 (1989) 461

**Nitriles**

Gas chromatography of Titan's atmosphere. I. Analysis of low-molecular-weight hydrocarbons and nitriles with a PoraPLOT Q porous polymer coated open-tubular capillary column 481 (1989) 45

**Nitrioltriacetic acid**

Ion chromatography method for iminodiacetic acid determination in biological matrices in the presence of nitrioltriacetic acid 462 (1989) 293

**Nitrite**

Determination of nitrite and nitrate by reversed-phase HPLC using on-line post-column photolysis with UV absorbance and electrochemical detection 452 (1988) 295

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

Ion chromatographic determination of nitrite in the presence of a large amount of chloride 475 (1989) 331

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

### **Nitroalkanes**

Nitroalkanes as a multidetector retention index scale for drug identification in GC 454 (1988) 345

### ***p*-Nitroanilide substrates**

Detection of trypsin- and chymotrypsin-like proteases using *p*-nitroanilide substrates after sodium dodecyl sulphate polyacrylamide gel electrophoresis 470 (1989) 401

### ***p*-Nitroaniline**

Some factors in solute partitioning between water and micelles or polymeric micelle analogues 463 (1989) 73

### **Nitrobenzenes**

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

### ***p*-Nitrobenzenes**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

### **N-4-Nitrobenzoylamino acid isopropyl esters**

Enantiomer resolution of D- and L- $\alpha$ -amino acid derivatives by SFC on novel chiral diamide phases with carbon dioxide 461 (1989) 121

### **Nitrocellulose**

Application of inverse GC to solid propellants 457 (1988) 354

### **4-Nitro-*p*-cresidine**

Isolation, characterization and determination of trace organic impurities in FD&C Red No. 40 467 (1989) 167

### **Nitrofurans**

Quantitation of N-[4-(5-nitro-2-furyl)-2-thiazolyl]formamide and 2-amino-4-(5-nitro-2-furyl)thiazole in rodent diet 465 (1989) 442

Simultaneous determination of nitrofurans derivatives in various animal substrates by HPLC 472 (1989) 321

On-line combination of dialysis and column-switching LC as a fully automated sample preparation technique for biological samples. Determination of nitrofurans residues in edible products 500 (1990) 453

### **N-[4-(5-Nitro-2-furyl)-2-thiazolyl]formamide**

Quantitation of N-[4-(5-nitro-2-furyl)-2-thiazolyl]formamide and 2-amino-4-(5-nitro-2-furyl)thiazole in rodent diet 465 (1989) 442

### **Nitrogen**

Sequential hydrocarbon and nitrogen detection in TLC analysis of oil shale bitumen 465 (1989) 345

Improvement of a carbon-nitrogen elemental analyser for marine samples collected on glass-fibre filters 469 (1989) 399

Foam counter-current chromatography of bacitracin. I. Batch separation with nitrogen and water free of additives 482 (1989) 197

### **Nitrogen-containing compounds**

Determination of nitrogen compounds by SFC using nitrous oxide as the mobile phase and nitrogen-sensitive detection 467 (1989) 61

### **Nitrogen heterocyclics**

LC separation of several classes of acidic and basic aromatic compounds on silica-bonded 8-quinolinol stationary phases 465 (1989) 249

### **Nitroguaiacols**

Synthesis, GLC analysis and GC-MS identification of nitrovanillins, chloronitrovanillins, nitroguaiacols and chloronitroguaiacols 467 (1989) 99

### **Nitrones**

Trifluoroacetic anhydride-sodium iodide as a reagent for the selective detection of nitrones and nitroxide radicals by TLC 473 (1989) 287

### ***p*-Nitrophenol**

Some factors in solute partitioning between water and micelles or polymeric micelle analogues 463 (1989) 73

**Nitrophenols**

Identification of nitrophenols in rain-water by HPLC with photodiode array detection 478 (1989) 399

***p*-Nitrophenylacetic acid**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

***p*-Nitrophenylglucoside**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

***p*-Nitrophenylglucuronide**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

***o*-Nitrophenylhydrazine**

Determination of methyl ethyl ketone in human urine after derivatization with *o*-nitrophenylhydrazine, using solid-phase extraction and reversed-phase HPLC and UV detection 489 (1989) 419

**2-Nitrophenylhydrazonopropandinitrile**

Separation of thiols on Spheron Ara activated with 2-nitrophenylhydrazonopropandinitrile ligand 455 (1988) 344

***p*-Nitrophenyllactoside**

Study on the analogy of GPC and cuprophan dialysis for the isolation of uremic 'middle molecules' using model compounds 497 (1989) 79

**Nitrophenylvaleric acid**

Purification of nitrophenylvaleric acid reaction mixtures by counter-current chromatography 484 (1989) 391

**Nitro-polynuclear aromatic compounds**

HPLC separation of ring-oxidized metabolites of nitro-polycyclic aromatic hydrocarbons 461 (1989) 315

**Nitrosamines**

Determination of non-volatile N-nitrosamines in baby bottle rubber nipples and pacifiers by HPLC-thermal energy analysis 463 (1989) 419

Free energy correlations: dead volume and the reversed-phase HPLC capacity factor in the interaction index model. A discussion and application to a nitrosamine series 481 (1989) 97

**N-Nitrosamino acids**

HPLC separations of nitrosamines. III. Conformers of N-nitrosamino acids 452 (1988) 511

**N-Nitroso compounds**

Separation and assay of N-nitroso compounds by HPLC with chemiluminescence detection 463 (1989) 201

**N-Nitrosodibenzylamine**

Determination of non-volatile N-nitrosamines in baby bottle rubber nipples and pacifiers by HPLC-thermal energy analysis 463 (1989) 419

**N-Nitrosodicyclohexylamine**

Determination of non-volatile N-nitrosamines in baby bottle rubber nipples and pacifiers by HPLC-thermal energy analysis 463 (1989) 419

**N-Nitrosodiethanolamine**

Determination of N-nitrosodiethanolamine in cosmetics. HPLC and GC-MS as alternative methods to chemiluminescence detection 472 (1989) 231

**N-Nitrosoethylphenylamine**

Determination of non-volatile N-nitrosamines in baby bottle rubber nipples and pacifiers by HPLC-thermal energy analysis 463 (1989) 419

**N-Nitrosomethylphenylamine**

Determination of non-volatile N-nitrosamines in baby bottle rubber nipples and pacifiers by HPLC-thermal energy analysis 463 (1989) 419

**Nitrous oxide**

Determination of nitrogen compounds by SFC using nitrous oxide as the mobile phase and nitrogen-sensitive detection 467 (1989) 61

**Nitrovanillins**

Synthesis, GLC analysis and GC-MS identification of nitrovanillins, chloronitrovanillins, nitroguaiacols and chloronitroguaiacols 467 (1989) 99

**Nitroxide radicals**

Trifluoroacetic anhydride-sodium iodide as a reagent for the selective detection of nitrones and nitroxide radicals by TLC 473 (1989) 287

**Noble metals, cyano complexes**

Isotachophoretic separation of cyano complexes of noble metals using ion-pairing equilibrium in water-acetonitrile solvent 472 (1989) 303

**Nobotanins**

Chromatography of tannins. IV. Separation of labile oligomeric hydrolysable tannins and related polyphenols by centrifugal partition chromatography 467 (1989) 139

***Nocardia asteroides***

GC fatty acid determination to differentiate *Nocardia asteroides*, *Mycobacterium fortuitum* and *Mycobacterium chelonae* 487 (1989) 142

**Noise**

Effect of random noise and peak asymmetry on the precision and accuracy of measurements of the column efficiency in chromatography 457 (1988) 1

**Nomenclature**

On some nomenclature in chromatography 471 (1989) 447

**Non-electrolytes**

Indirect fluorimetric detection of non-electrolytes in TLC 455 (1988) 382

**Non-porous packings**

Recovery of proteins and peptides with nanogram loads on non-porous packings 481 (1989) 391

**Non-steroidal anti-inflammatory drugs**

Measurement of the distribution coefficients of several classes of drug using reversed-phase TLC 452 (1988) 257

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

Identification and simultaneous determination of non-steroidal anti-inflammatory drugs using HPLC 496 (1989) 301

**Non-volatile fatty acids**

GC-MS studies after methylation of metabolites produced by some anaerobic bacteria in spent media 493 (1989) 257

**Nonoxynol-9**

Analytical HPLC system for separation of components in nonoxynol-9 spermicidal agents 478 (1989) 244

**Noradrenaline**

Improved solid-phase extraction and LC with electrochemical detection of urinary catecholamines and 5-S-L-cysteinyl-L-DOPA 452 (1988) 409

Simultaneous quantitation of catecholamines and O-methylated metabolites in urine by isocratic ion-pairing HPLC with amperometric detection 459 (1988) 251

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

Simultaneous HPLC determination of catecholamine-related compounds by post-column derivatization involving coulometric oxidation followed by fluorescence reaction 467 (1989) 237

Separation of optical isomers by capillary zone electrophoresis based on host-guest complexation with cyclodextrins 474 (1989) 441

Reduced variation in retention times of biogenic amines by temperature control in LC with electrochemical detection 479 (1989) 216

Microcylinder electrodes as sensitive detectors for high-efficiency, high-speed LC 482 (1989) 65

Determination of catecholamines in human plasma by HPLC: comparison between a new method with fluorescence detection and an established method with electrochemical detection 487 (1989) 17

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

Analysis of biogenic amines in the brain of the american cockroach (*Periplaneta americana*) by GC-negative ion chemical ionisation MS 490 (1989) 9

Effects of mobile phase composition on the chromatographic and electrochemical behaviour of catecholamines and selected metabolites. Reversed-phase ion-paired HPLC using multiple-electrode detection 493 (1989) 1

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

Highly sensitive determination of catecholamine and serotonin concentrations in plasma by LC electrochemistry 493 (1989) 157

Routine measurement of plasma catecholamines in clinical pharmacology by HPLC with electrochemical detection 493 (1989) 287

Catecholamine measurements in urine by HPLC with amperometric detection—comparison with an autoanalyser fluorescence method 494 (1989) 53

Measurement of urinary free catecholamines using HPLC with electrochemical detection 494 (1989) 303

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

#### **Norandrostenedione**

Biotransformation of  $\beta$ -nortestosterone by cultured porcine hepatocytes 489 (1989) 105

Distinction between oral and parenteral application of 19-nortestosterone by residue analysis in kidney fat from veal calves using HPLC and enzyme immunoassay 489 (1989) 173

#### **Norantipyrene**

Modified HPLC assay for antipyrene and its three major metabolites in urine 494 (1989) 424

#### **Norbrassinolide**

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

#### **Norbuprenorphine**

Quantitative determination of buprenorphine and its active metabolite, norbuprenorphine, in human plasma by GC—chemical ionization MS 487 (1989) 469

#### **Norcastasterone**

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

#### **Norcocaine**

Determination of cocaine and selected metabolites in canine and human serum by reversed-phase HPLC on coupled cyanopropyl and silica columns 495 (1989) 153

#### **Norcodeine**

Simultaneous determination of codeine, norcodeine and morphine in biological fluids by HPLC with fluorescence detection 491 (1989) 367

Determination of codeine and its metabolites in human blood plasma and in microsomal incubates by HPLC with UV detection 491 (1989) 473

#### **Norephedrine**

Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315

Separation of optical isomers by capillary zone electrophoresis based on host—guest complexation with cyclodextrins 474 (1989) 441

#### **Norepinephrine**

see Noradrenaline

#### **Norethisterone**

Studies on anabolic steroids. I. Integrated methodological approach to the GC—MS analysis of anabolic steroid metabolites in urine 489 (1989) 23

#### **Norfluoxetine**

Determination of fluoxetine and norfluoxetine by HPLC 499 (1990) 601

#### **Norgallopamil**

GC determination of gallopamil and norgallopamil in human plasma 487 (1989) 73

#### **Normetanephrine**

Simultaneous quantitation of catecholamines and O-methylated metabolites in urine by isocratic ion-pairing HPLC with amperometric detection 459 (1988) 251

Separation of norepinephrine and metabolites as Dns derivatives by two-dimensional TLC 465 (1989) 448

Analysis of the O-methylated metabolites of isoprenaline, adrenaline and noradrenaline in physiological salt solutions by HPLC with electrochemical detection 487 (1989) 29

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

**Norpropoxyphene**

Simultaneous determination of propoxyphene and norpropoxyphene in biological samples by GC using an on-column injection technique with a fused-silica capillary column 491 (1989) 448

**Nortestosterone**

Immunoaffinity pre-column for selective on-line sample pre-treatment in HPLC determination of 19-nortestosterone 452 (1988) 419

Comparison of the use of MS and methylene unit values in the determination of the stereochemistry of estranediol, the major urinary metabolite of 19-nortestosterone in the horse 479 (1989) 73

Studies on anabolic steroids. I. Integrated methodological approach to the GC-MS analysis of anabolic steroid metabolites in urine 489 (1989) 23

Effective monitoring of residues of nortestosterone and its major metabolite in bovine urine and bile 489 (1989) 95

Biotransformation of  $\beta$ -nortestosterone by cultured porcine hepatocytes 489 (1989) 105

Multi-immunoaffinity chromatography: a simple and highly selective clean-up method for multi-anabolic residue analysis of meat 489 (1989) 111

Determination of  $\beta$ -19-nortestosterone and its metabolite  $\alpha$ -19-nortestosterone in biological samples at the sub parts per billion level by HPLC with on-line immunoaffinity sample pretreatment 489 (1989) 157

Distinction between oral and parenteral application of 19-nortestosterone by residue analysis in kidney fat from veal calves using HPLC and enzyme immunoassay 489 (1989) 173

Determination of hormone contaminants in milk replacers by HPLC and immunoassay 489 (1989) 181

Quantitative analysis of anabolics on TLC plates using image analysis techniques 489 (1989) 205

Enzyme immunoassay screening procedure for the synthetic anabolic estrogens and androgens diethylstilbestrol, nortestosterone, methyltestosterone and trenbolone in bovine urine 489 (1989) 235

**Norverapamil**

Determination of the enantiomers of verapamil and norverapamil in serum using coupled achiral-chiral HPLC 497 (1989) 191

**Noscapine**

Effects of system peaks in ion-pair reversed-phase LC for noscapine and metabolites 452 (1988) 241

Determination of noscapine and its metabolites in plasma by coupled-column LC 459 (1988) 301

**Nubian mummy**

Capillary GC-MS and identification of substituted carboxylic acids in lipids extracted from a 4000-year-old nubian burial 479 (1989) 61

**Nuclear magnetic resonance spectroscopy**

Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209

Comparison of capillary GC with  $^1\text{H}$  and  $^{13}\text{C}$  nuclear magnetic resonance spectroscopy for the quantitation of pyrrolizidine alkaloids from *Senecio vernalis* 462 (1989) 387

Reversed-phase HPLC-NMR on-line coupling with solvent non-excitation 463 (1989) 355

Separation and characterization of methylcyclopentadiene dimers by GC and molecular spectroscopy 464 (1989) 93

Use of  $^1\text{H}$  NMR spectroscopy in the selection of the mobile phase for HPLC monitoring of the synthesis of ibuproxam 467 (1989) 276

GC method for enantiomeric excess determination of alcohols not requiring chiral auxiliary compounds or chiral stationary phases 467 (1989) 285

Deactivation with polymethylhydrosiloxane. A comparative study with capillary GC and solid-state  $^{29}\text{Si}$  nuclear magnetic resonance spectroscopy 477 (1989) 3

Correlation between chromatography and  $^1\text{H}$  NMR parameters in sterically substituted phenols 483 (1989) 390

**Nucleic acid fragments**

Microcolumn LC of small nucleic acid constituents 475 (1989) 13

**Nucleic acids**

Separation of RNA and DNA by histone affinity HPLC 455 (1988) 401

Micropreparative separation of transfer ribonucleic acids by HPLC 463 (1989) 409

High-performance hydroxyapatite chromatography of nucleic acids 467 (1989) 299

Overpressured multi-layer chromatography 471 (1989) 375

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

Crown ethers as ligands for HPLC of proteins and nucleic acids 476 (1989) 309

Improved separation speed and efficiency for proteins, nucleic acids and viruses in asymmetrical flow field flow fractionation 476 (1989) 413

Capillary electrophoresis of nucleic acids with a fully automated apparatus 480 (1989) 331

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

Hydrophilic-interaction chromatography for the separation of peptides, nucleic acids and other polar compounds 499 (1990) 177

### **Nucleobases**

Trace detection of modified DNA bases via moving-belt LC-MS using electrophoretic derivatization and negative chemical ionization 465 (1989) 285

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

Microcolumn LC of small nucleic acid constituents 475 (1989) 13

Interrelationships between purine nucleotide degradation and radical formation during intestinal ischaemia and reperfusion: an application of ion-pair HPLC of nucleotides, nucleosides and nucleobases 491 (1989) 77

Biochemical applications of LC-MS 492 (1989) 189

### **Nucleosides**

Determination of 5-methylcytosine in DNA by GC-electron-capture detection 452 (1988) 51

MS of electrophore-labeled nucleosides. Pentafluorobenzyl and cinnamoyl derivatives 452 (1988) 369

Retention modification of nucleic acid constituents in reversed-phase HPLC 468 (1989) 167

Ribonucleoside analysis by reversed-phase HPLC 471 (1989) 3

Microcolumn LC of small nucleic acid constituents 475 (1989) 13

Measurement of deoxyguanosine/thymidine ratios in complex mixtures by HPLC for determination of the mole percentage guanine + cytosine of DNA 479 (1989) 297

Liquid chromatographic assay of carbovir, a carbocyclic nucleoside active against human immunodeficiency virus 489 (1989) 323

Interrelationships between purine nucleotide degradation and radical formation during intestinal ischaemia and reperfusion: an application of ion-pair HPLC of nucleotides, nucleosides and nucleobases 491 (1989) 77

Biochemical applications of LC-MS 492 (1989) 189

Simultaneous determination of pseudouridine and creatinine in untreated urine by ion-pair LC with diode-array UV detection 493 (1989) 35

### **Nucleotides**

Computer-assisted retention prediction system for oligonucleotides in gradient anion-exchange chromatography 458 (1988) 385

Novel dual-wavelength monitoring approach for the improved rapid separation and estimation of adenine nucleotides and creatine phosphate by HPLC 459 (1988) 229

Measurement of the release of adenine nucleotides during platelet aggregation by small-bore-column isocratic HPLC 459 (1988) 281

Isocratic reversed-phase HPLC of ribonucleotides, deoxynucleotides, cyclic nucleotides and deoxycyclic nucleotides 461 (1989) 259

Retention modification of nucleic acid constituents in reversed-phase HPLC 468 (1989) 167

Microcolumn LC of small nucleic acid constituents 475 (1989) 13

HPLC analysis of fluorescent derivatives of adenine and adenosine and its nucleotides. Optimization of derivatization with chloroacetaldehyde and chromatographic procedures 475 (1989) 311

Evaluation of advanced silica packings for the separation of biopolymers by HPLC. VI. Design, chromatographic performance and application of non-porous silica-based anion exchangers 476 (1989) 37

Indirect fluorimetric detection and quantification in capillary zone electrophoresis of inorganic anions and nucleotides 480 (1989) 169

Preparation of several types of RPC-5-like resins and their use for the separation of oligonucleotides and mononucleotides by HPLC 481 (1989) 201

Interrelationships between purine nucleotide degradation and radical formation during intestinal ischaemia and reperfusion: an application of ion-pair HPLC of nucleotides, nucleosides and nucleobases 491 (1989) 77

Reversed-phase LC determination of 2',3'-dideoxycytidine in human blood samples 491 (1989) 215

Biochemical applications of LC-MS 492 (1989) 189

High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

Application of the fast protein LC system and MonoQ HR5/5 anion exchanger to the separation of nucleotides 493 (1989) 45

Method for the determination of the specific activities of UTP and CTP in mouse kidney by HPLC 495 (1989) 249

Influence of perchloric acid on ion-pair HPLC of nucleotides 496 (1989) 441

### Numerical simulation

Determination of binding equilibrium constants by numerical simulation in zonal high-performance affinity chromatography 458 (1988) 13

### Numeric peak information

Automated evaluation of tryptic digest from recombinant human growth hormone using UV spectra and numeric peak information 499 (1990) 221

## O

### Oakmoss products

Characterization of oakmoss products used in perfumery by HPLC 466 (1989) 301

### Oak wood extract

Preparative separation by HPLC of an extract of oak wood and determination of the composition of each fraction 457 (1988) 431

### Objective functions

Objective functions in experimental and simulated chromatographic optimization. Comparative study and alternative proposals 485 (1989) 477

### Obstructive factors

New method for measuring obstructive factors and porosity using GC instrumentation 471 (1989) 123

### Ochratoxin A

HPLC determination of zearalenone and ochratoxin A in cereals and feed 478 (1989) 269

### Ochratoxins

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

### 2-*n*-Octadecylindole-5-carboxylic acid

Determination of 2-*n*-octadecylindole-5-carboxylic acid in human plasma by HPLC 497 (1989) 121

### Octadecyl polyvinyl copolymer

Comparison of various non-polar stationary phases used for assessing lipophilicity 473 (1989) 115

### Octadecylsilanes, stability

Study of the changes in mono-, di- and trifunctional octadecyl-modified packings for reversed-phase HPLC with different eluent compositions 479 (1989) 269

### Octamethylcyclotetrasiloxane

Effect of repeated cross-linking of SE-54 stationary phase film on the chromatographic properties of capillary columns 471 (1989) 237

**1-Octanol**

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

**Octopamine**

LC procedures for the analysis of compounds in the serotonergic and octopamine pathways of lobster hemolymph 452 (1988) 491

Microassay for N-acetyltransferase activity using HPLC with electrochemical detection 487 (1989) 287

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

**p-Octopamine**

Analysis of biogenic amines in the brain of the american cockroach (*Periplaneta americana*) by GC-negative ion chemical ionisation MS 490 (1989) 9

**Octyl-Sephacel CL-4B**

Comparison of phenyl- and octyl-Sephacel CL-4B in the hydrophobic interaction chromatography of simple aliphatic and aromatic compounds 498 (1990) 237

**Octylsilyl-silica gel**

Chromatographic evaluation of oligomeric C<sub>8</sub> reversed phases for use in HPLC 471 (1989) 283

**Oestrogen receptor**

Separation of two molecular forms of human estrogen receptor by hydrophobic interaction chromatography. Gradient optimization and tissue comparison 476 (1989) 455

**Oestrogens**

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

**Off-flavour compounds**

Isolation of off-flavour compounds in water by chromatographic sniffing and preparative GC 482 (1989) 23

**Ofloxacin**

TLC separation and in situ fluorimetric determination of ofloxacin in plasma and pleural fluid 490 (1989) 395

Determination of ofloxacin in bronchoalveolar lavage fluid by HPLC and fluorimetric detection 495 (1989) 354

**Oils**

High-performance size-exclusion chromatography of oils and fats 454 (1988) 317

Determination of free and esterified sterols and of wax esters in oils and fats by coupled LC-GC 471 (1989) 397

**Oleic acid**

Simultaneous HPLC analysis of oleic acid and simple glycerides of oleic acid 465 (1989) 438

**2'-5' Oligoadenylates**

Investigations on the interferon-induced 2'-5' oligoadenylate system using analytical capillary isotachopheresis 470 (1989) 185

**2'-5' Oligoadenylate synthetase**

Investigations on the interferon-induced 2'-5' oligoadenylate system using analytical capillary isotachopheresis 470 (1989) 185

**Oligodeoxyribonucleotides**

Reversed-phase HPLC of very long oligodeoxyribonucleotides 477 (1989) 420

**Oligoethylene oxide**

Synthesis and structural considerations of oligoethylene oxide-containing polysiloxane stationary phases in capillary GC and SFC 473 (1989) 103

**Oligogalacturonic acids**

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

**Oligonucleotides**

Computer-assisted retention prediction system for oligonucleotides in gradient anion-exchange chromatography 458 (1988) 385

High-performance ion-exchange chromatography of oligoribonucleotides using linear and hyperbolic salt gradients 465 (1989) 325

Retention modification of nucleic acid constituents in reversed-phase HPLC 468 (1989) 167

Purification of synthetic oligonucleotides on a weak ion-exchange column 476 (1989) 439

HPLC of amino acids, peptides, proteins and polynucleotides. XCIV. Solid-phase hybridization of complementary oligonucleotides 476 (1989) 445

Capillary zone electrophoresis of oligonucleotides. Factors affecting separation 480 (1989) 321

Preparation of several types of RPC-5-like resins and their use for the separation of oligonucleotides and mononucleotides by HPLC 481 (1989) 201

Optimization of gradients in anion-exchange separations of oligonucleotides using computer-assisted retention prediction and an HPLC simulation system 485 (1989) 647

### **Oligonucleotide synthesis**

Polymer support synthesis. XV. Behaviour of non-porous surface-coated silica gel microbeads in oligonucleotide synthesis 476 (1989) 49

### **Oligooxyethylene compounds**

Properties of topological indices as structural parameters for compounds containing oligooxyethylene chain(s) 464 (1989) 251

### **Oligopeptides**

Kinetic analysis of the carboxypeptidase A hydrolysis of oligopeptides by reversed-phase HPLC 479 (1989) 27

### **Oligoribonucleotides**

High-performance ion-exchange chromatography of oligoribonucleotides using linear and hyperbolic salt gradients 465 (1989) 325

### **Oligosaccharides**

Size fractionation of oligosaccharides by LC on a cation-exchange column 464 (1989) 323

High-performance anion-exchange chromatography of homogeneous D-gluco-oligosaccharides and -polysaccharides (polymerization degree  $\geq 50$ ) with pulsed amperometric detection 464 (1989) 365

Determination of Stokes radii of hyaluronate oligosaccharides by Sephadex gel chromatography 472 (1989) 145

Separation by HPLC of oligosaccharides obtained after mild acid hydrolysis of *Klebsiella pneumoniae* O<sub>1</sub>K<sub>2</sub> (NCTC 5055) lipopolysaccharides 474 (1989) 452

Analysis of glycoprotein-derived oligosaccharides by high-pH anion-exchange chromatography 499 (1990) 205

### **Oligothymidylates**

Polymer support synthesis. XV. Behaviour of non-porous surface-coated silica gel microbeads in oligonucleotide synthesis 476 (1989) 49

### **Omeprazole**

Determination of binding affinity of enantiomers to albumin by LC 456 (1988) 323

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

### **Open-channel isoelectric focusing**

Open-channel isoelectric focusing in thermally engendered pH gradients 480 (1989) 293

### **Open-tube chromatography**

Theory of open-tube chromatography: an exact proof of Golay's equations 471 (1989) 61

### **Open-tubular columns**

see also Capillary columns

Theory of open-tube chromatography: an exact proof of Golay's equations 471 (1989) 61

### **Open-tubular liquid chromatography-mass spectrometry**

Comparison of open-tubular LC-MS and direct liquid introduction LC-MS for the analysis of metribuzin and its metabolites in plant tissue and water samples 474 (1989) 301

### **Open-tubular reactors**

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

### **Operating pressure**

Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85

### **Operational electrolytes**

Generation of operational electrolytes for isotachopheresis and capillary zone electrophoresis in a three-pole column 470 (1989) 43

### **k-Opioid agonists**

HPLC assay of k-opioid selective benzenacetamide derivatives (U50488, U69593 and PD 117302) in rat plasma and brain 491 (1989) 481

### **Opioid peptides**

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with

naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

### Optical activity detection

Peak identification of amino acids in LC by optical activity detection 457 (1988) 421

### Optimization

Theoretical optimization of operating parameters in non-ideal displacement chromatography 454 (1988) 1

Selection of HPLC methods in pharmaceutical analysis. I. Optimization for selectivity in reversed-phase chromatography 454 (1988) 83

Selection of HPLC methods in pharmaceutical analysis. II. Optimization for selectivity in normal-phase systems 454 (1988) 95

Strategies for automated optimisation of HPLC separations incorporating diode-array detection 458 (1988) 335

Practical optimization of the separation of a limited subset of components by using isoelutotropic ternary eluent mixtures in reversed-phase HPLC 458 (1988) 371

Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65

Effects of peak tailing on computer optimisation procedures for HPLC. II. An optimisation routine for tailed peaks 459 (1988) 79

Analytical study of non-ionic surfactants used in enhanced oil recovery. Optimization of analytical conditions in reversed-phase partition chromatography 461 (1989) 305

Mobile phase optimization of a urea-linked chiral stationary phase for the HPLC separation of optical isomers 461 (1989) 407

An information theory of chromatography. II. Application of *FUMI* to the optimization of overlapped chromatograms 462 (1989) 23

Optimization of basic parameters in temperature-programmed GC separations of multi-component samples within a given time 463 (1989) 235

Optimization of selectivity by tuning column temperatures for series-coupled capillary columns in dual-oven GC systems 463 (1989) 243

Development and optimisation of an HPLC assay for tioconazole and its potential impurities. I. Selection of separation conditions 464 (1989) 27

Practical use of an optimization strategy in reversed-phase HPLC for the separation of a limited subset of components in a reaction mixture 464 (1989) 225

Optimization of mobile phase composition for HPLC analysis of eleven priority substituted phenols 464 (1989) 405

Multifactor simultaneous statistical optimization of the mobile phase composition for the separation of inorganic anions in reversed-phase ion-interaction chromatography 467 (1989) 15

Factorial optimization for flows in the Hall electrolytic conductivity detector 473 (1989) 27

Systematic procedure for the determination of the nature of the solutes prior to the selection of the mobile phase parameters for optimization of reversed-phase ion-pair chromatographic separations 478 (1989) 21

Evaluation of the optimization potential in HPLC separations of optical isomers with swollen microcrystalline cellulose triacetate 478 (1989) 101

Optimization of size-exclusion separation of proteins on a Superose column 479 (1989) 159

Optimization in photochemical reaction detection. Application to HPLC-photolysis-electrochemical detection 481 (1989) 121

Scale-up and optimization in production LC 484 (1989) 211

Simplex optimization of HPLC separations (Review) 485 (1989) 3

Computer-assisted optimization in HPLC method development 485 (1989) 15

Selection of mobile phase parameters and their optimization in reversed-phase LC (Review) 485 (1989) 27

Predictive calculation methods for optimization of gradient elution using binary and ternary solvent gradients 485 (1989) 113

Computer-assisted retention prediction for HPLC in the ion-exchange mode (Review) 485 (1989) 143

Computer-aided optimization of HPLC in the pharmaceutical industry (Review) 485 (1989) 183

Comparison of optimization methods in reversed-phase HPLC using mixture designs and multi-criteria decision making (Review) 485 (1989) 195

Explanations and advice provided by an expert system for system optimization in HPLC 485 (1989) 219

Uniform shell designs for optimization in reversed-phase LC 485 (1989) 311

Rule-based approach for the determination of solute types in unknown sample mixtures as a first step of optimization parameter selection in reversed-phase ion-pair chromatography 485 (1989) 383

Rationalization of the selection of the type of the organic modifier(s) for selectivity optimization in reversed-phase ion-pair chromatography 485 (1989) 403

Computer-assisted optimization with NEMROD software 485 (1989) 433

Microcomputer-assisted LC separation system (MCASYST) for method development and data handling 485 (1989) 461

Objective functions in experimental and simulated chromatographic optimization. Comparative study and alternative proposals 485 (1989) 477

Optimization strategies for solutes exhibiting peak tailing. Comparison of two approaches 485 (1989) 501

Solvent modulation in LC: optimization strategies 485 (1989) 541

Computer-assisted optimization of an HPLC separation for chlorpromazine and thirteen metabolites 485 (1989) 585

Effects of different organic modifiers in optimization of reversed-phase HPLC gradient elution of a mixture of natural secoiridoid compounds 485 (1989) 631

Optimization of gradients in anion-exchange separations of oligonucleotides using computer-assisted retention prediction and an HPLC simulation system 485 (1989) 647

Application of optimization procedures for the separation of anabolic compounds by HPLC 489 (1989) 57

Applications of preparative HPLC to the separation and purification of peptides and proteins (Review) 492 (1989) 431

Optimization of selectivity, detectability and analysis time in HPLC 499 (1990) 489

Strategy for peak tracking in LC on the basis of a multivariate analysis of spectral data 499 (1990) 499

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

### **Orellanine**

Chromatographic behaviour and determination of orellanine, a toxin from the mushroom *Cortinarius orellanus* 478 (1989) 231

### **Organic acids**

see also Carboxylic acids

Advances in the use of computerized GC-MS and HPLC with rapid scanning detection for clinical diagnosis 468 (1989) 43

New developments in ion chromatographic methods for atmospheric analysis 482 (1989) 307

Determination of organic and inorganic acids in precipitation samples 482 (1989) 381

HPLC method for the rapid profiling of plasma and urinary organic acids 487 (1989) 147

Urinary organic acids: retention indices on two capillary GC columns 491 (1989) 186

HPLC determination of metabolic products for fermentation control of mammalian cell culture: analysis of carbohydrates, organic acids and orthophosphate using refractive index and UV detectors 497 (1989) 59

### **Organic additives**

LC analysis of organic additives in copper plating baths 452 (1988) 503

### **Organic emissions**

Application of headspace GC to the measurement of organic emissions 456 (1988) 241

### **Organic solvents**

Interchangeable use of aqueous and organic solvents in a hydrophilic poly(vinyl alcohol) gel column 452 (1988) 137

Use of GC in the study of the oxidative decomposition of spent organic solvents from reprocessing plants 463 (1989) 81

Effect of organic solvents in sample solutions and injection volumes on chromatographic peak profiles of analytes in reversed-phase HPLC 483 (1989) 189

**Organoarsenic compounds**

Separation and determination of organoarsenic compounds with a microbore column and UV detection 466 (1989) 379

**Organochlorine compounds**

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

Comparison of sulphuric acid treatment and column chromatographic clean-up procedures for the GC determination of organochlorine compounds in some food commodities 457 (1988) 387

GC detection of selected organochlorine species using an alternating current plasma detector 467 (1989) 373

Factorial optimization for flows in the Hall electrolytic conductivity detector 473 (1989) 27

**Organochlorine pesticides**

Large-volume spotting apparatus and its application to the semi-quantitative determination of organochlorine pesticides in tea 469 (1989) 403

**Organonitro compounds**

Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151

**Organophosphates**

Isolation of drug residues from tissues by solid phase dispersion 475 (1989) 353

**Organophosphorus acids**

Determination of organophosphorus acids by thermospray LC-MS 454 (1988) 261

**Organophosphorus compounds**

Identification of organophosphorus insecticides and their hydrolysis products by liquid chromatography in combination with UV and thermospray-MS detection 455 (1988) 163

Single-step solid matrix clean-up of vegetable extracts for organophosphorus pesticide residue determination 456 (1988) 149

HPLC and GC of dialkylphosphates, dialkylthiophosphates and dialkylidithiophosphates as their pentafluorobenzyl derivatives 462 (1989) 233

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

On-line flame photometric detection in micro-column LC 467 (1989) 385

Isolation and concentration of organophosphorus pesticides from water using a C<sub>18</sub> reversed phase 472 (1989) 365

Characterization of organophosphorus compounds and phenylurea herbicides by positive and negative ion thermospray LC-MS 474 (1989) 163

Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. I. Evaluation of the system for organophosphorus pesticides 481 (1989) 27

Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. II. Determination of organophosphorus pesticides in environmental water 481 (1989) 37

**Organosilicones, cyclic**

Synthesis of bonded layers from cyclic organosilicones in the gas phase 456 (1988) 337

**Organosilver bonded phase**

Hydrocarbon group type analysis of petroleum products by HPLC on organometallic donor/acceptor-bonded silica 461 (1989) 347

**Orientalidine**

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

**Oripavine**

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

**L-Ornithine**

Assay of ornithine decarboxylase activity by reversed-phase HPLC 496 (1989) 101

**Ornithine decarboxylase**

Assay of ornithine decarboxylase activity by reversed-phase HPLC 496 (1989) 101

**Orotic acid**

Simple method of measurement of orotic acid and orotidine in urine 493 (1989) 388

Determination of urinary orotate excretion by HPLC 497 (1989) 101

**Orotidine**

Simple method of measurement of orotic acid and orotidine in urine 493 (1989) 388

**Orsellic acid**

Characterization of oakmoss products used in perfumery by HPLC 466 (1989) 301

**Orthogonal field alternation gel electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

**Orthophosphate**

HPLC determination of metabolic products for fermentation control of mammalian cell culture: analysis of carbohydrates, organic acids and orthophosphate using refractive index and UV detectors 497 (1989) 59

**Osmolytes, algal**

Separation of algal organic osmolytes by HPLC 479 (1989) 353

**Otonecine**

Capillary GC–Fourier transform IR spectroscopy of pyrrolizidine alkaloids of *Senecio inaequidens* DC 473 (1989) 161

**Outer-sphere complexing**

Some considerations on the “charge” on a metal ion in ion-exchange chromatography 452 (1988) 265

**OV-101**

Identification of alkylbenzenes up to C<sub>12</sub> by capillary GC and combined GC–MS. I. OV-101 as stationary phase 455 (1988) 301

**Ovalbumin**

Thermodynamic model for electrostatic-interaction chromatography of proteins 499 (1990) 63

Carbohydrates as a tool for oriented immobilization of antigens and antibodies 500 (1990) 585

**Overlapped chromatogram**

An information theory of chromatography. II. Application of *FUMI* to the optimization of overlapped chromatograms 462 (1989) 23

**Overlapping-band separations**

Preparative HPLC under isocratic conditions. III. The consequences of two adjacent bands having unequal column capacities 483 (1989) 95

**Overloaded elution chromatography**

Effect of mobile phase flow-rate on the recoveries and production rates in overloaded elution chromatography. A theoretical study 452 (1988) 209

Applications of preparative HPLC to the separation and purification of peptides and proteins (Review) 492 (1989) 431

Quantitative comparison between the experimental band profiles of binary mixtures in overloaded elution chromatography and their profiles predicted by the semi-ideal model 499 (1990) 21

**Overloaded separations**

Preparative HPLC under isocratic conditions. I. Craig simulations for heavily overloaded separations 483 (1989) 63

**Overpressured layer chromatography**

Overpressured multi-layer chromatography 471 (1989) 375

**Overpressured multi-layer chromatography**

Overpressured multi-layer chromatography 471 (1989) 375

**Oxalic acid**

Detection and quantitation of oxalic acid by capillary GC 481 (1989) 55

**Oxandrolone**

Effect of extended use of single anabolic steroids on urinary steroid excretion and metabolism 489 (1989) 121

**Oxazepam**

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

Use of a fragment of bovine serum albumin as a chiral stationary phase in LC 482 (1989) 35

Capillary GC–MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

**Oxidation**

Carrier ampholyte-mediated oxidation of proteins in isoelectric focusing 475 (1989) 283

**Oxidation–reduction train**

Method for radio-capillary GC employing a modified oxidation–reduction train and flow-through detector 500 (1990) 349

**Oxine-copper**

Determination of oxine-copper in orange by GC 474 (1989) 381

**Oxiracetam**

Determination of oxiracetam in plasma and urine by column-switching HPLC 497 (1989) 223

**Oxiranes**

Evaluation of nickel(II) bis[ $\alpha$ -(heptafluorobutanoyl)terpeneketonates] as chiral stationary phases for the enantiomer separation of alkyl-substituted cyclic ethers by complexation GC 475 (1989) 23

**7-Oxo alcohols**

HPLC of long chain 7-oxo alcohols, acids and their esters 475 (1989) 426

**Oxocarboxylic acids**

Methylation of  $\omega$ -oxocarboxylic acids with diazomethane: effect of solvent on by-product formation 467 (1989) 279

GC determination of oxo- and hydroxycarboxylic acids in serum and urine of diabetic and normal subjects 468 (1989) 157

**Oxo compounds**

Liquid column chromatography of oxo compounds as their 2,4-dinitrophenylhydrazones with special reference to glucose-glycine Maillard reaction products 500 (1990) 607

**Oxolinic acid**

Improvement of chemical analysis of antibiotics. XVI. Simple and rapid determination of residual pyridonecarboxylic acid antibacterials in fish using a prepacked amino cartridge 477 (1989) 397

Rapid HPLC method for the determination of oxolinic acid in fish serum employing solid-phase extraction 494 (1989) 335

Solid-phase extraction and HPLC determination of flumequine and oxolinic acid in salmon plasma 496 (1989) 355

**6-Oxoprostaglandin F<sub>1 $\alpha$</sub>** 

Simultaneous determination of the primary prostanoids prostaglandin E<sub>2</sub>, prostaglandin F<sub>2 $\alpha$</sub>  and 6-oxoprostaglandin F<sub>1 $\alpha$</sub>  by immunoaffinity chromatography in combination with negative ion chemical ionization GC-tandem MS 494 (1989) 13

**17-Oxosteroid sulphates**

Determination of 17-oxosteroid sulphates in serum by ion-pair extraction, prelabelling with dansylhydrazine and HPLC with fluorescence detection 474 (1989) 363

**Oxybenzone**

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

**Oxybutynin**

GC-MS analysis of plasma oxybutynin using a deuterated internal standard 487 (1989) 91

**Oxygen flask combustion**

Determination of selenium in drugs by oxygen flask combustion and ion chromatography 463 (1989) 147

**Oxygen, singlet**

HPLC-electrochemical detection of singlet oxygen by reaction with 2,2,6,6-tetramethyl-4-piperidone 465 (1989) 417

**Oxymetholone**

Effect of extended use of single anabolic steroids on urinary steroid excretion and metabolism 489 (1989) 121

**Oxy radicals**

HPLC method for the direct quantitation of oxy radicals in myocardium and blood by means of 1,3-dimethylthiourea and dimethylsulfoxide 459 (1988) 269

**Oxytetracycline**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

Determination of oxytetracycline in plasma from rainbow trout using HPLC with UV detection 493 (1989) 217

**Ozone**

Improved HPLC method for artifact-free measurements of aldehydes in the presence of ozone using 2,4-dinitrophenylhydrazine 483 (1989) 431

**P****Packed-bed column adsorption**

Modelling methods to aid the design and optimisation of batch stirred-tank and packed-bed column adsorption and chromatography units 484 (1989) 187

**Packed-bed reactors**

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

**Packing technology**

Packing technology, column bed structure and chromatographic performance of 1–2- $\mu$ m non-porous silicas in HPLC 465 (1989) 39

**PACS-1**

Extraction of butyltin species and their GC determination as chlorides in a sediment certified reference material for trace metals, PACS-1 475 (1989) 373

**Paeonol**

Simple method for the determination of paeonol in human and rabbit plasma by HPLC using solid-phase extraction and UV detection 489 (1989) 432

**Pamidronate disodium**

Determination of the bisphosphonate pamidronate disodium in urine by pre-column derivatization with fluorescamine, HPLC and fluorescence detection 489 (1989) 446

**Panaxxytriol**

Determination of panaxytriol, a new type of tumour growth inhibitor from Panax ginseng, by capillary GC 481 (1989) 368

**Pancreatic stone protein**

Purification of the pancreatic stone protein by HPLC 493 (1989) 164

**Pantothenic acid**

Determination of optical purity by HPLC on chiral stationary phases: pantothenic acid and related compounds 474 (1989) 405

**Papaveraldinium**

Indirect detection of inorganic anions by HPLC: use of papaveraldinium as an UV absorbing agent 478 (1989) 131

**Papaverine**

Programmable temperature vaporizer applications in an high-resolution GC method for the quantitation of impurities in illicit heroin 466 (1989) 384

**Paracelsin peptides**

Retention behaviour of paracelsin peptides on reversed-phase silicas with varying *n*-alkyl chain length and ligand density 476 (1989) 135

**Paracetamol**

Simultaneous HPLC determination of propoxyphene and acetaminophen in pharmaceutical preparations 455 (1988) 279

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

Utility of solution electrochemistry MS for investigating the formation and detection of biologically important conjugates of acetaminophen 474 (1989) 245

**Paraffins**

Organic solutes in paraffin solvents. Influence of the size of the solvent molecule on solution data 500 (1990) 139

**Paraquat**

High-sensitivity HPLC analysis of diquat and paraquat with confirmation 479 (1989) 153

GC determination of diquat and paraquat in crops 479 (1989) 243

Rapid quantification of paraquat and diquat in serum and urine using HPLC with automated sample pretreatment 481 (1989) 434

**Parathion-methyl**

Identification of organophosphorus insecticides and their hydrolysis products by liquid chromatography in combination with UV and thermospray-MS detection 455 (1988) 163

**Parsol 1789**

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

**Parsol MCX**

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

**Partial molar free energies of mixing**

Solubility parameters of GC mixed stationary phases 457 (1988) 55

**Partial molar volume**

Effect of the partial molar volume of the solute in the stationary phase on retention in SFC 459 (1988) 183

**Particle beam-type interface**

Particle beam LC-electron impact MS of dyes 482 (1989) 75

**Particle size**

- Contemporary LC column design 468 (1989) 99
- Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85
- Preparative packing utility as a function of particle size 484 (1989) 267

**Partition coefficients**

Contribution of electronic effects to the lipophilicity determined by comparison of values of log *P* obtained by HPLC and calculation 452 (1988) 227

Correlations between octanol–water partition coefficients and reversed-phase HPLC capacity factors. Chlorobiphenyls and alkylbenzenes 454 (1988) 37

Determination of partition coefficients by headspace GC 455 (1988) 45

Modeling octanol–water partition coefficients by reversed-phase LC 461 (1989) 177

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

Some factors in solute partitioning between water and micelles or polymeric micelle analogues 463 (1989) 73

Partition of hydrophobic compounds between two liquid phases of similar hydrophobicity 464 (1989) 49

Prediction of alkane–water partition coefficients using a C<sub>18</sub> derivatized polystyrene–divinylbenzene stationary phase 464 (1989) 400

Use of centrifugal partition chromatography for assessing partition coefficients in various solvent systems 469 (1989) 91

Comparison of various non-polar stationary phases used for assessing lipophilicity 473 (1989) 115

Prediction of retention in GLC using the UNIFAC group contribution method. I. Low-molecular-weight stationary phases 483 (1989) 1

Rapid headspace GC method for the determination of liquid/gas partition coefficients 491 (1989) 271

Study of the lipophilic character of xanthine and adenosine derivatives. I. *R<sub>M</sub>* and log *P* values 498 (1990) 179

Limiting activity coefficients and gas–liquid partition coefficients of alkylbenzenes in hydro–organic solvents 500 (1990) 215

**Partitioning**

Studies of adsorption and partition effects in LC with mixed mobile phases 452 (1988) 131

Partition of hydrophobic compounds between two liquid phases of similar hydrophobicity 464 (1989) 49

Analysis of density-fractionated rat red blood cells of different ages by partitioning in two-polymer aqueous phase systems 479 (1989) 307

**Partition models**

Study of partition models in reversed-phase LC based on measured mobile phase solute activity coefficients 499 (1990) 373

**Patulin**

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

**PCF 39**

HPLC evaluation of PCF 39, a new immunomodulator agent 465 (1989) 95

**PD117302**

HPLC assay of k-opioid selective benzeneacetamide derivatives (U50488, U69593 and PD 117302) in rat plasma and brain 491 (1989) 481

**Peak, mathematical modelling**

Mathematical modelling of the peak in LC 469 (1989) 29

**Peak-area measurements**

Determination of the absolute number of moles of an analyte in a flow-through system from peak-area measurements 482 (1989) 207

**Peak asymmetry**

Effect of random noise and peak asymmetry on the precision and accuracy of measurements of the column efficiency in chromatography 457 (1988) 1

Correction of the resolution function for non-ideal peaks 458 (1988) 355

**Peak capacity**

Optimization of basic parameters in temperature-programmed GC separations of multi-component samples within a given time 463 (1989) 235

**Peak compression**

Belt-speed programming, a new technique for peak compression in LC–MS and supercritical-

fluid chromatography–mass spectrometry with moving-belt interfaces 474 (1989) 275

### **Peak distortion**

Injection of elutes in solvents stronger than the mobile phase in reversed-phase LC 465 (1989) 189

### **Peak excess**

Measurement of statistical moments of resolved and overlapping chromatographic peaks 461 (1989) 149

### **Peak height**

Measurement of statistical moments of resolved and overlapping chromatographic peaks 461 (1989) 149

Comparison of manual and exponentially modified gaussian based methods for the determination of the peak heights of selected-ion current profiles acquired in a mass spectral drug assay 472 (1989) 250

### **Peak homogeneity**

Artificial intelligence techniques for peak homogeneity validation in LC 465 (1989) 59

### **Peak overlap**

Resolution of a coeluting chromatographic pair using Kalman filtering 469 (1989) 77

### **Peak profiles**

see Elution band profiles

### **Peak recognition**

Strategies for automated optimisation of HPLC separations incorporating diode-array detection 458 (1988) 335

### **Peak skew**

Measurement of statistical moments of resolved and overlapping chromatographic peaks 461 (1989) 149

### **Peak splitting**

Slow isomerization of some proline-containing peptides inducing peak splitting during reversed-phase HPLC 478 (1989) 121

### **Peak tailing**

Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65

Effects of peak tailing on computer optimisation procedures for HPLC. II. An optimisation routine for tailed peaks 459 (1988) 79

Optimization strategies for solutes exhibiting peak tailing. Comparison of two approaches 485 (1989) 501

### **Peak tracking**

Selection of mobile phase parameters and their optimization in reversed-phase LC (Review) 485 (1989) 27

Recent advances in fuzzy peak tracking in HPLC 485 (1989) 557

Peak tracking in HPLC based on normalized band areas. A ribosomal protein sample as an example 485 (1989) 569

Strategy for peak tracking in LC on the basis of a multivariate analysis of spectral data 499 (1990) 499

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

### **Pectin**

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

### **Peltier thermoelectric devices**

Use of Peltier thermoelectric devices to control column temperature in high-performance capillary electrophoresis 480 (1989) 111

### **Penicillamine**

Separation and detection of bis(alkylthio)selenides of penicillamine and glutathione by LC with electrochemical detection 465 (1989) 359

Determination of penicillamine, penicillamine disulfide and penicillamine–glutathione mixed disulfide by HPLC with electrochemical detection 491 (1989) 341

### **Penicillamine disulphide**

Determination of penicillamine, penicillamine disulfide and penicillamine–glutathione mixed disulfide by HPLC with electrochemical detection 491 (1989) 341

### **Penicillamine–glutathione mixed disulphide**

Determination of penicillamine, penicillamine disulfide and penicillamine–glutathione mixed disulfide by HPLC with electrochemical detection 491 (1989) 341

**Penicillin G**

Development of an analytical method for penicillin G in bovine milk by LC with UV-visible detection and confirmation by MS detection 490 (1989) 101

**Penicillin N**

On-line HPLC for the determination of cephalosporin C and by-products in complex fermentation broths 499 (1990) 609

**Pentaerythritoltetranitrate**

Packed-column SFC separation of highly explosive compounds 467 (1989) 423

**Pentafluorobenzenesulphonates**

Changes in retention and polarity accompanying the replacement of hydrogen by fluorine in tetraalkylammonium alkyl- and arylsulfonate salts used as stationary phases in GC 468 (1989) 261

**Pentafluorobenzoic anhydride**

Pentafluorobenzoic anhydride as a derivatizing agent for alcohols and hydroxy fatty acid methyl esters detected by electron capture in GC 466 (1989) 251

**Pentafluorobenzoyloxime acetates**

GC determination of glycoprotein amino sugars as O-pentafluorobenzoyloxime acetates 467 (1989) 315

**2-Pentafluoroethylalanine**

Milligram-scale separation of optical isomers of 2-pentafluoroethylalanine and 2-trifluoromethylalanine by medium-performance reversed-phase chromatography 469 (1989) 434

**Pentamethylparosaniline**

HPLC of Gentian Violet, its demethylated metabolites, Leucogentian Violet and Methylene Blue with electrochemical detection 467 (1989) 259

**Pentamidine**

HPLC method for the quantification of several diamidine compounds with potential chemotherapeutic value 494 (1989) 191

**1-Pentanol**

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

**Pentoxifylline**

Determination of pentoxifylline and its 5-hydroxy metabolite in human plasma by solid-

phase extraction and HPLC with UV detection 495 (1989) 215

**Pepsins**

Improved separation of human pepsins from gastric juice by high-performance ion-exchange chromatography 476 (1989) 291

Heterogeneity of human pepsin 1, as shown by high-performance ion-exchange chromatography 476 (1989) 491

Fractionation of human gastric proteinases by immobilized metal chelate ( $\text{Fe}^{3+}$ ) affinity chromatography 489 (1989) 390

**Peptide chain length**

Effect of peptide chain length on peptide retention behaviour in reversed-phase chromatography 458 (1988) 193

**Peptide leukotrienes**

Rapid and simple assay method to study the content and the biosynthesis of peptide leukotrienes in whole blood 491 (1989) 193

**Peptide M**

Scale-up methodology for the preparative purification of peptide M 459 (1988) 361

**Peptide mapping**

Formic acid as a milder alternative to trifluoroacetic acid and phosphoric acid in two-dimensional peptide mapping 469 (1989) 231

Peptide mapping and internal sequencing of proteins electroblotted from two-dimensional gels onto polyvinylidene difluoride membranes. A chromatographic procedure for separating proteins from detergents 476 (1989) 345

Factors influencing the performance of peptide mapping by reversed-phase HPLC 499 (1990) 125

**Peptides**

Determination of impurity profiles in drugs and related materials. II. Detection and quantification of a diastereomeric impurity in the peptide RGH-0205 (Arg-Lys-Asp) 452 (1988) 317

Development of a solid-phase extraction technique for  $\alpha$ -human atrial natriuretic peptide in human plasma 452 (1988) 469

HPLC separation of peptides on a diol-Gly-Phe-Phe tripeptide-bonded phase 458 (1988) 129

- Computer simulation of HPLC separations of peptide and protein digests for development of size-exclusion, ion-exchange and reversed-phase chromatographic methods 458 (1988) 147
- On-line capillary zone electrophoresis-ion spray tandem MS for the determination of dynorphins 458 (1988) 313
- Scale-up methodology for the preparative purification of peptide M 459 (1988) 361
- Thermospray HPLC-MS characterization of biological macromolecules. I. Analysis of acid hydrolysate of peptides 463 (1989) 95
- Isotachophoretic analysis of peptides. Selection of electrolyte systems and determination of purity 470 (1989) 209
- Some new by-products in primary structure analysis with dimethylaminoazobenzene isothiocyanate as an aid in the TLC identification of residues 472 (1989) 318
- LC separation of acidic phosphoserine peptides on macroporous copoly(styrene-divinylbenzene) using amines to regulate retention 473 (1989) 63
- Micropreparative separation of peptides derived from sodium dodecyl sulphate-solubilized proteins 473 (1989) 71
- Application of reversed-phase HPLC to the separation of peptides from phosphorylated and dephosphorylated casein hydrolysates 473 (1989) 189
- Optical resolution of amino acids, peptides and hydroxycarboxylic acids using a new chiral column for ligand-exchange chromatography 473 (1989) 241
- Optimisation of continuous flow fast atom bombardment MS for bioanalysis 474 (1989) 51
- Simultaneous analysis of different species involved in hexaglycine hydrolysis 475 (1989) 416
- Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3
- HPLC of amino acids, peptides and proteins. XC. Investigations into the relationship between structure and reversed-phase HPLC retention behaviour of peptides related to human growth hormone 476 (1989) 113
- HPLC of amino acids, peptides and proteins. XCI. The influence of temperature on the chromatographic behaviour of peptides related to human growth hormone 476 (1989) 125
- Retention behaviour of paracelsin peptides on reversed-phase silicas with varying *n*-alkyl chain length and ligand density 476 (1989) 135
- Stereochemical recognition of enantiomeric and diastereomeric dipeptides by HPLC on a chiral stationary phase based upon immobilized  $\alpha$ -chymotrypsin 476 (1989) 165
- Strong cation-exchange HPLC of peptides. Effect of non-specific hydrophobic interactions and linearization of peptide retention behaviour 476 (1989) 377
- HPLC monitoring of transpeptidation reactions in analogues of gonadotropin releasing hormone containing aspartic acid derivatives in position six 477 (1989) 377
- Slow isomerization of some proline-containing peptides inducing peak splitting during reversed-phase HPLC 478 (1989) 121
- Coupling capillary zone electrophoresis and continuous-flow fast atom bombardment MS for the analysis of peptide mixtures 480 (1989) 247
- Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311
- Capillary zone electrophoresis of peptide fragments from trypsin digestion of biosynthetic human growth hormone 480 (1989) 393
- Identification of peptides, from a peptic haemoglobin hydrolysate produced at pilot-plant scale, by HPLC and MS 481 (1989) 221
- Recovery of proteins and peptides with nanogram loads on non-porous packings 481 (1989) 391
- Synthetic peptide purification by application of linear solvent strength gradient theory 483 (1989) 131
- Displacement chromatography of biomolecules with large particle diameter systems 484 (1989) 225
- Preparative reversed-phase HPLC in the synthesis of viscosin, a cyclic depsipeptide 484 (1989) 293
- Purification of synthetic peptides on a high-resolution preparative reversed-phase column 484 (1989) 299
- Preparative-scale synthesis and reversed-phase purification of a gonadotropin-releasing hormone antagonist 484 (1989) 307
- Chromatography of peptides on a multi-coil counter-current chromatograph 484 (1989) 319

Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Reversed-phase chromatographic method development for peptide separations using the computer simulation program ProDigest-LC 485 (1989) 365

Prediction of retention times in ion-exchange chromatography 485 (1989) 533

Separation of peptides from sodium dodecyl sulphate by HPLC 487 (1989) 450

Application of analytical isotachopheresis in the study of platelet membrane proteins in patients with chronic myeloproliferative disorders 490 (1989) 53

*Clostridium difficile* toxin B: characterization and sequence of three peptides 490 (1989) 91

Elimination of contaminating *Escherichia coli* peptides in the purification of *Escherichia coli*-derived recombinant human interferon- $\beta$ 1 by zinc chelate affinity chromatography 490 (1989) 193

HPLC determination of substance P-like arginine-containing peptide in rat brain by on-line post-column fluorescence derivatization with benzoin 490 (1989) 301

Separation of synthetic cardiotocin/atrial natriuretic factor and related peptides by reversed-phase HPLC 490 (1989) 411

Peptide and protein hydrolysis by microwave irradiation 491 (1989) 424

Biochemical applications of LC-MS 492 (1989) 189

Applications of preparative HPLC to the separation and purification of peptides and proteins (Review) 492 (1989) 431

High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585

Measurement of methionine enkephalin and leucine enkephalin in rat brain regions by HPLC with coulometric electrochemical detection 494 (1989) 67

Simple apparatus for capillary zone electrophoresis and its application to protein analysis 494 (1989) 87

Multi-dimensional HPLC of opioid peptides following pre-column derivatization with naphthalene-2,3-dicarboxaldehyde in the presence of cyanide ion. Preliminary results on the determination of leucine- and methionine-enkephalin-like fluorescence in the striatum region of the rat brain 496 (1989) 55

Effect of stationary and mobile phases on hydrophobic interaction chromatography of proteins and peptides 496 (1989) 71

Direct LC separation of enantiomers on immobilized protein stationary phases. VIII. A comparison of a series of sorbents based on bovine serum albumin and its fragments 498 (1990) 81

Physicochemical studies of biologically active peptides by low-temperature reversed-phase HPLC 499 (1990) 79

Unexpected elution behaviour of peptides with various reversed-phase columns 499 (1990) 165

Hydrophilic-interaction chromatography for the separation of peptides, nucleic acids and other polar compounds 499 (1990) 177

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

Differential interaction of peptides and protein surface structures with free metal ions and surface-immobilized metal ions 500 (1990) 531

### Peptides, protected

Separation of diastereomers of protected dipeptides by normal-phase HPLC 472 (1989) 336

### Peptides, self-associating

New HPLC-based methodology for monitoring the conformational transitions of self-associating hydrophobic peptides, incorporated into liposomes 458 (1988) 105

### Peptidoglycans

Two-dimensional GC with electron-capture detection used in the determination of specific peptidoglycan and lipopolysaccharide constituents of Gram-negative bacteria in infected human urine 490 (1989) 71

### Peramine

Detection and measurement of the alkaloid peramine in endophyte-infected grasses 463 (1989) 133

**Perchloric acid**

Influence of perchloric acid on ion-pair HPLC of nucleotides 496 (1989) 441

**Perfluoroalkanesulphonates**

Changes in retention and polarity accompanying the replacement of hydrogen by fluorine in tetraalkylammonium alkyl- and arylsulfonate salts used as stationary phases in GC 468 (1989) 261

GC study of the solution thermodynamics of organic solutes in tetraalkylammonium alkanesulfonate and perfluoroalkanesulfonate solvents 499 (1990) 749

**Perfluoroalkyl acrylate**

Totally organic stationary phase from perfluoroalkyl acrylate for LC 465 (1989) 241

**Perindopril**

GC-MS of perindopril and its active free metabolite, an angiotensin convertase inhibitor: choice of derivatives and ionization modes 488 (1989) 249

**Periodate**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

**Perlolirine**

Separation and determination of  $8\beta$ -hydroxyasterolid and perlolirine in *Codonopsis pilosula* by reversed-phase HPLC 477 (1989) 458

**Permanent gases**

New solid adsorbents for the separation of lower hydrocarbons and permanent gases. I. Ammonium tungstophosphate 498 (1990) 349

**Permeability**

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

**Perovskite**

Superconductor metal oxide catalyst in a chemiluminescence chromatography detector 452 (1988) 75

**Peroxidase**

Post-column co-immobilized galactose oxidase/peroxidase reactor for fluorometric detection of saccharides in an LC system 463 (1989) 183

Application of autofocusing in the isolation of peroxidase 474 (1989) 430

**Peroxides**

Damage to GC columns caused by peroxides in LC eluents for coupled LC-GC 455 (1988) 297

Industrial applications of SFC-MS involving oligomeric materials of low volatility and thermally labile materials 474 (1989) 97

**Peroxyoxalate chemiluminescence detection**

Rhodamine labelling reagent for the determination of chlorophenols by LC with peroxyoxalate chemiluminescence detection 459 (1988) 139

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

Chemiluminescence detection for HPLC of biomedical samples (Review) 492 (1989) 319

**Perphenazine**

Determination of perphenazine in serum by LC (in French) 487 (1989) 215

**Pesticides**

Performance of graphitized carbon black cartridges in the extraction of some organic priority pollutants from water 452 (1988) 527

HPLC method for determining triazine herbicide residues in soil 454 (1988) 233

Determination of organophosphorus acids by thermospray LC-MS 454 (1988) 261

Chiral HPLC analysis of phenoxy herbicide mixtures 454 (1988) 450

Identification of organophosphorus insecticides and their hydrolysis products by liquid chromatography in combination with UV and thermospray-MS detection 455 (1988) 163

GC determination of chloroacetamide herbicides in plants and soil 455 (1988) 391

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

Selective, on-column extraction of organochlorine pesticide residues from milk 456 (1988) 143

Single-step solid matrix clean-up of vegetable extracts for organophosphorus pesticide residue determination 456 (1988) 149

Simultaneous XAD-2 resin extraction and high-resolution electron-capture GC of chlorine-containing herbicides in water samples 456 (1988) 382

- HPLC determination of carbaryl in fruit juices 457 (1988) 437
- Oxidative detection of coulometrically reduced organonitro pesticides in reversed-phase HPLC 459 (1988) 151
- HPLC and GC of dialkylphosphates, dialkylthiophosphates and dialkyldithiophosphates as their pentafluorobenzyl derivatives 462 (1989) 233
- HPLC determination of ethiofencarb and its metabolic products 462 (1989) 430
- Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448
- Automated on-line trace enrichment and determination of organic compounds in ground and tap water by HPLC 465 (1989) 410
- Application of capillary GC with mass selective detection to pesticide residue analysis 467 (1989) 85
- Determination of diisobutyl- and diisopropyl-naphthalenesulphonates in pesticide wettable powders and dispersible granules by HPLC 467 (1989) 177
- Rapid HPLC method for the determination of benctonium chloride residues in fish products; confirmation by TLC 467 (1989) 321
- Chromatographic approaches to the quality control of chiral propionate anti-inflammatory drugs and herbicides 469 (1989) 183
- Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293
- Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351
- Large-volume spotting apparatus and its application to the semi-quantitative determination of organochlorine pesticides in tea 469 (1989) 403
- Study of alkaline hydrolysis of the insecticide alphas-methrine by isotachophoretic determination of decomposition products 470 (1989) 235
- Sample preparation by means of a supported liquid membrane for the determination of chlorophenoxyalkanoic acids 471 (1989) 151
- Isolation and concentration of organophosphorus pesticides from water using a C<sub>18</sub> reversed phase 472 (1989) 365
- LC separation and behaviour of some triazines on styrene-divinylbenzene columns 472 (1989) 406
- HPLC determination of the herbicide terbutylazine and its dealkylated metabolites in soil 472 (1989) 411
- Multiresidue method for fungicide residues in fruit and vegetables 472 (1989) 416
- Analysis of dicamba in tobacco by on-line coupled LC-GC 473 (1989) 353
- Microcolumn LC-MS using moving belt and continuous flow fast atom bombardment interfaces 474 (1989) 39
- Characterization of organophosphorus compounds and phenylurea herbicides by positive and negative ion thermospray LC-MS 474 (1989) 163
- Thermospray LC-MS of pesticides in river water using reversed-phase chromatography 474 (1989) 175
- Determination of oxine-copper in orange by GC 474 (1989) 381
- Residue analysis of the herbicides cyanazine and bentazone in sugar maize and surface water using HPLC and an on-line clean-up column-switching procedure 475 (1989) 432
- Coupled HPLC-GC for the determination of pesticide residues in biological matrices 477 (1989) 359
- Separation of pirimicarb and its metabolites by HPLC 478 (1989) 250
- High-sensitivity HPLC analysis of diquat and paraquat with confirmation 479 (1989) 153
- Supercritical fluid extraction of *s*-triazine herbicides from sediment 479 (1989) 200
- GC determination of diquat and paraquat in crops 479 (1989) 243
- Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. I. Evaluation of the system for organophosphorus pesticides 481 (1989) 27
- Conversion of a conventional packed-column gas chromatograph to accommodate megabore columns. II. Determination of organophosphorus pesticides in environmental water 481 (1989) 37
- Determination of phenoxyacid herbicides in water. Polymeric pre-column preconcentration and tetrabutylammonium ion-pair separation on a PRP-1 column 481 (1989) 275

Rapid quantification of paraquat and diquat in serum and urine using HPLC with automated sample pretreatment 481 (1989) 434

HPLC determination of phenoxyalkanoic acid herbicides using iron(II) 1,10-phenanthroline as a mobile phase additive 481 (1989) 439

LC determination of N-methylcarbamate pesticides using a single-stage post-column derivatization reaction and fluorescence detection 481 (1989) 445

HPLC separation of indandione rodenticides 481 (1989) 458

Rapid determination of seven herbicides in water or isooctane using C<sub>18</sub> and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

Proposed primary reference methods for the determination of some commercially important chiral aryloxypropionate herbicides in both free acid and ester forms 483 (1989) 349

Development of HPLC method for fluroxypyr herbicide and metabolites using computer simulation with DryLab G software 485 (1989) 581

GC-MS method to assess residues of 2-methyl-4-chlorophenoxyacetic acid in human urine 489 (1989) 404

### **Petroporphyrins**

Computerised GC-MS and HPLC analysis of sedimentary benzoporphyrins 473 (1989) 135

### **pH effects**

Effect of pH on the reaction of 2,4-dinitrophenylhydrazine with formaldehyde and acetaldehyde 455 (1988) 310

Studies on the stability of *n*-alkyl-bonded silica gels under basic pH conditions 499 (1990) 317

### **pH gradients**

Charge heterogeneity of recombinant pro-urokinase and urinary urokinase, as revealed by isoelectric focusing in immobilized pH gradients 470 (1989) 337

Simple method for generation of a dynamic pH gradient in capillary zone electrophoresis 480 (1989) 271

Open-channel isoelectric focusing in thermally engendered pH gradients 480 (1989) 293

Peculiar features of application of pH gradients formed in borate buffer with a polyhydroxy compound for separation of proteins in a free-flow electrophoretic apparatus 496 (1989) 121

### **pH programming**

Dynamic programming of pH—a new option in analytical capillary electrophoresis 470 (1989) 309

### **pH stability**

Stability of silica packing materials towards a mixed aqueous-organic eluent at alkaline pH 467 (1989) 267

### **Phallotoxins**

Assay for the main phallotoxins in *Amanita phalloides* Fr. by direct fluorimetry on thin-layer plates 462 (1989) 442

### **Pharmaceuticals**

Computer-aided optimization of HPLC in the pharmaceutical industry (Review) 485 (1989) 183

Expert system for the selection of HPLC methods for the analysis of drugs 485 (1989) 237

Expert system for the selection of initial HPLC conditions for the analysis of pharmaceuticals 485 (1989) 255

Optimization of selectivity, detectability and analysis time in HPLC 499 (1990) 489

Separation of ionic drug substances by SFC 500 (1990) 469

### **Phase-heterogeneous zones**

Phase-heterogeneous zones in capillary isotachopheresis of low-solubility bases 470 (1989) 263

### **Phase loading**

GLC in qualitative analysis. XVIII. Study of the dependence of the retention behaviour of polyoxyethylene glycol columns on the nature of the support and phase loading 500 (1990) 355

### **Phase separators**

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

### **Phase-system switching**

Phase-system switching as an on-line sample pretreatment in the bioanalysis of mitomycin C using supercritical fluid chromatography 454 (1988) 243

Coupled column chromatography-MS. Thermospray LC-MS and LC-tandem MS analysis of metoprolol enantiomers in plasma using phase-system switching 474 (1989) 257

### Phenacetin

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

### Phenanthrene

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

### 9-Phenanthreneboronic acid

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

### Phenobarbital

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

Simultaneous quantitation of salivary carbamazepine, carbamazepine-10,11-epoxide, phenytoin and phenobarbitone by HPLC 496 (1989) 147

Measurement of low (sub-therapeutic) phenobarbitone levels in plasma by HPLC: application to patient compliance studies 497 (1989) 308

### Phenol

Model compound sorption by the resins XAD-2, XAD-8 and diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

### Phenol-formaldehyde resins

Separation of prepolymers of phenol-formaldehyde resins by SFC 478 (1989) 181

### Phenol glucuronides

Separation of phenols and their glucuronide and sulfate conjugates by anion-exchange LC 479 (1989) 441

### Phenolic acids

The use of new chromatographic techniques for the isolation and purification of phenolic acids from *Indigofera heterantha* 466 (1989) 399

Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149

Manual automated enrichment procedures for biological samples using lipophilic gels 488 (1989) 87

### Phenolic compounds

Preparative separation by HPLC of an extract of oak wood and determination of the composition of each fraction 457 (1988) 431

Characterization of oakmoss products used in perfumery by HPLC 466 (1989) 301

Capillary column GC of methyl and trimethylsilyl derivatives of some naturally occurring flavonoid aglycones and other phenolics 478 (1989) 415

### Phenols

Determination of phenols by LC using reductive electrochemical detection via precolumn derivatization 455 (1988) 241

GC determination of phenols in waste water-oil emulsions 462 (1989) 392

Optimization of mobile phase composition for HPLC analysis of eleven priority substituted phenols 464 (1989) 405

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

Analysis of phenols from lignin depolymerization by capillary GC 467 (1989) 441

Selectivity of an octadecyl-modified vinyl alcohol copolymer gel for the retention of polar compounds 468 (1989) 191

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

Separation of phenols and their glucuronide and sulfate conjugates by anion-exchange LC 479 (1989) 441

Correlation between chromatography and  $^1\text{H}$  NMR parameters in sterically substituted phenols 483 (1989) 390

GC of simple phenols in biological fluids 497 (1989) 159

### Phenol sulphates

Separation of phenols and their glucuronide and sulfate conjugates by anion-exchange LC 479 (1989) 441

**Phenothiazines**

Use of cyclodextrins in isotachopheresis. VII. Resolution of structurally related and chiral phenothiazines 464 (1989) 139

**Phenoxyacetic acid**

Analysis of vanilla essences by HPLC 462 (1989) 461

Chromatographic approaches to the quality control of chiral proprionate anti-inflammatory drugs and herbicides 469 (1989) 183

**Phenoxyalkanoic acids**

Determination of phenoxyacid herbicides in water. Polymeric pre-column preconcentration and tetrabutylammonium ion-pair separation on a PRP-1 column 481 (1989) 275

HPLC determination of phenoxyalkanoic acid herbicides using iron(II) 1,10-phenanthroline as a mobile phase additive 481 (1989) 439

**Phenoxybenzoic acid**

Study of alkaline hydrolysis of the insecticide alphamethrine by isotachopheretic determination of decomposition products 470 (1989) 235

**Phenoxypropionates**

Proposed primary reference methods for the determination of some commercially important chiral aryloxypropionate herbicides in both free acid and ester forms 483 (1989) 349

**Phenprocoumon**

Separation of the enantiomers of phenprocoumon and warfarin by HPLC using a chiral stationary phase. Determination of the enantiomeric ratio of phenprocoumon in human plasma and urine 493 (1989) 149

**Phentermine**

Positive confirmation of identity of doping agents using GC-MS with Fourier transform IR spectrometry 489 (1989) 51

**Phenyl acetates**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

**Phenylacetic mustard**

GC assay for chlorambucil and phenylacetic mustard in plasma 495 (1989) 281

**L-Phenylalaninamide**

Occurrence of D-amino acids in food. Detection by capillary GC and by reversed-phase HPLC with L-phenylalaninamides as chiral selectors 475 (1989) 45

**Phenylalanine**

Determination of phenylalanine in river water by HPLC 461 (1989) 277

Determination of plasma concentrations and <sup>3</sup>H-specific activity of phenylalanine in plasma using HPLC 491 (1989) 410

**Phenylalkanols**

Injection of eluents in solvents stronger than the mobile phase in reversed-phase LC 465 (1989) 189

**Phenylbutazone**

Determination of binding equilibrium constants by numerical simulation in zonal high-performance affinity chromatography 458 (1988) 13

**1-Phenylethylamine**

HPLC separation of enantiomers on axially chiral binaphthalene dicarboxylic acid-chiral phenylethylamine bonded to silica gel 464 (1989) 411

**Phenylethylamines**

$\pi$ -Acceptor amide group for LC chiral separations with special emphasis on the 3,5-dinitrobenzoyl amide 469 (1989) 101

Isolation, separation and analysis in neurochemistry: trace amines and acids as an illustrative example 488 (1989) 129

**1-Phenylethyl-3,5-dinitrobenzamide**

Mobile phase optimization of a urea-linked chiral stationary phase for the HPLC separation of optical isomers 461 (1989) 407

**4-(2'-Phenylisopropyl)phenol esters**

Evaluation of 4-(2'-phenylisopropyl)phenol esters as stationary phases for GLC 483 (1989) 33

**Phenylmercury salts**

HPLC of mercury and phenylmercury as the N-disubstituted dithiocarbamate complexes 472 (1989) 401

**1-Phenyl-3-methyl-4-benzoyl-5-pyrazolone**

Reversed-phase HPLC of aluminium(III) and indium(III) with 1-phenyl-3-methyl-4-benzoyl-5-pyrazolone 478 (1989) 408

**Phenyl naphthalenes**

HPLC of alkyl naphthalenes and phenyl naphthalenes on alumina 498 (1990) 248

**Phenylpolysiloxanes**

Preparation and retention characteristics of different phenylpolysiloxane phases for reversed-phase LC 463 (1989) 345

**Phenyl-Sepharose CL-4B**

Comparison of phenyl- and octyl-Sepharose CL-4B in the hydrophobic interaction chromatography of simple aliphatic and aromatic compounds 498 (1990) 237

**Phenylureas**

Characterization of organophosphorus compounds and phenylurea herbicides by positive and negative ion thermospray LC-MS 474 (1989) 163

**Phenytoin**

Simultaneous quantitation of salivary carbamazepine, carbamazepine-10,11-epoxide, phenytoin and phenobarbitone by HPLC 496 (1989) 147

**Pheophorbide *a***

Reversed-phase HPTLC and column LC of metal complexes of pheophorbide *a* 457 (1988) 99

**Phoedrine**

Separation of hordenine and N-methyl derivatives from germinating barley by LC with dual-electrode coulometric detection 498 (1990) 241

**Phosgene**

Determination of tropospheric phosgene and other halocarbons by capillary GC 481 (1989) 373

**Phosphate**

Determination of phosphate and phosphite in plant material by GC-MS and ion chromatography 455 (1988) 253

Adsorbability to and desorbability from Sephadex G-15 of sodium and phosphate ions 475 (1989) 412

Capillary isotachophoretic separation of phosphate, arsenate, germanate, silicate and molybdate ions using complex-forming equilibria 478 (1989) 238

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

**Phosphatidylcholine**

HPLC determination of some polar phospholipids in serum 495 (1989) 61

**Phosphatidylethanolamine**

HPLC determination of some polar phospholipids in serum 495 (1989) 61

**Phosphite**

Determination of phosphate and phosphite in plant material by GC-MS and ion chromatography 455 (1988) 253

**Phosphocellulose**

Co-operative cluster model for multivalent affinity interactions involving rigid matrices 457 (1988) 13

**Phosphoenolpyruvate**

Isocratic HPLC determination of the concentration and specific radioactivity of phosphoenolpyruvate and uridine diphosphate glucose in tissue extracts 497 (1989) 69

**Phosphoethanolamine**

Determination of phosphoethanolamine in animal tissues by GC with flame photometric detection 494 (1989) 283

**Phosphofructokinase**

Purification of phosphofructokinase using transition-state analogue affinity chromatography 455 (1988) 291

Partial purification of glucose 6-phosphate dehydrogenase and phosphofructokinase from rat erythrocyte haemolysate by partitioning in aqueous two-phase systems 498 (1990) 159

**Phosphoglycerate kinase**

Synthesis of ATP-polyethylene glycol and ATP-dextran and their use in the purification of phosphoglycerate kinase from spinach chloroplasts using affinity partitioning 457 (1988) 183

**Phosphoglycerate mutase**

Purification of human muscle phosphoglycerate mutase by fast protein LC based on hydrophobic interactions 490 (1989) 424

**Phospholipids**

On-line HPLC-post-column reaction-capillary GC analysis of lipids in biological samples 454 (1988) 157

Two-dimensional TLC separation of phospholipid molecular species using plates with both reversed-phase and argentation zones 454 (1988) 425

*In situ* mineralization and determination of phosphorus in phospholipids on silica gel sintered TLC plates 454 (1988) 432

Separation of major phospholipid classes by HPLC and subsequent analysis of phospholipid-bound fatty acids using GC 469 (1989) 271

Sensitive method for the analysis of phospholipid subclasses and molecular species as 1-anthroyl derivatives of their diglycerides 491 (1989) 37

Biochemical applications of LC-MS 492 (1989) 189

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

HPLC determination of some polar phospholipids in serum 495 (1989) 61

A new rapid method for phospholipid separation by HPLC with light-scattering detection 497 (1989) 243

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

#### **Phosphonic acid angiotensin-converting enzyme inhibitor**

Body fluid analysis of a phosphonic acid angiotensin-converting enzyme inhibitor using HPLC and post-column derivatization with *o*-phthalaldehyde 487 (1989) 135

#### **Phosphonoacetic acid**

Anion-exchange HPLC of technetium-labeled phosphonoacetic acid skeletal imaging agent preparations 488 (1989) 463

#### **Phosphonoformate**

Determination of phosphonoformate (foscarnet) in biological fluids by ion-pair reversed-phase LC 488 (1989) 447

#### **Phosphonolipids**

Silicic acid column chromatography of phosphonolipids. X. Some phosphono analogues of 1-O-alkylethylene glycol 454 (1988) 420

#### **Phosphoric acid-modified amino bonded phase**

Phosphoric acid-modified amino bonded stationary phase for HPLC chemical class separation 457 (1988) 215

#### **Phosphoric acid phenyl ester diamide**

Use of HPLC in the study of metal-ion-catalysed methanolysis of phosphoric acid phenyl ester diamide (in German) 467 (1989) 304

#### **Phosphorus**

*In situ* mineralization and determination of phosphorus in phospholipids on silica gel sintered TLC plates 454 (1988) 432

#### **Phosphoserine peptides**

LC separation of acidic phosphoserine peptides on macroporous copoly(styrene-divinylbenzene) using amines to regulate retention 473 (1989) 63

#### **Photochemical reaction, on-line**

Enhanced UV detection in HPLC analysis of drugs by "on-line" photochemical reaction 478 (1989) 369

#### **Photochemical reaction detection**

Optimization in photochemical reaction detection. Application to HPLC-photolysis-electrochemical detection 481 (1989) 121

#### **Photodiode array detector**

Photodiode array detection in high-performance capillary electrophoresis 480 (1989) 179

#### **Photolysis, on-line**

Determination of nitrite and nitrate by reversed-phase HPLC using on-line post-column photolysis with UV absorbance and electrochemical detection 452 (1988) 295

#### **Photometric detector**

Photometric and electron-capture modes in a dual-channel sensor 457 (1988) 149

Indirect photometric detection in capillary zone electrophoresis 470 (1989) 299

#### **Photo-thermal deflection spectroscopy**

Ultra-thin electrophoretic gel densitometry using photo-thermal deflection spectroscopy 472 (1989) 331

#### ***o*-Phthalaldehyde**

HPLC of the antitumour agent triethylenethiophosphoramidate and its metabolite triethylenephosphoramidate with sodium sulphide, taurine and *o*-phthalaldehyde as pre-column fluorescent derivatization reagents 458 (1988) 295

Reaction of *o*-phthalaldehyde with amino acids and glutathione. Application to HPLC determination 467 (1989) 209

**Phthalates**

Performance of graphitized carbon black cartridges in the extraction of some organic priority pollutants from water 452 (1988) 527

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

***o*-Phthalic acid**

TLC of some metals on silica gel layers impregnated with salicylic, syringic and *o*-phthalic acid 498 (1990) 428

**Phylloquinone**

Measurement of vitamin K in human liver by gradient elution HPLC using platinum-black catalyst reduction and fluorimetric detection 489 (1989) 291

Measurement of K vitamins in animal tissues by HPLC with fluorimetric detection 497 (1989) 131

**Physostigmine**

Application of a new radiometric HPLC assay to define physostigmine pharmacokinetics in guinea pigs 493 (1989) 117

**Phytoalexins**

Efficient clean up of non-aqueous plant extracts using reversed-phase cartridges. Applications to the determination of phytoalexins from *Brassica* spp. by HPLC 473 (1989) 293

**Phytoecdysteroids**

Packed column SFC and linked SFC-MS for the analysis of phytoecdysteroids from *Silene nutans* and *Silene otites* 467 (1989) 292

 **$\pi$ -Acid chiral stationary phases**

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

**Picolinic acid**

Picolinic acid: a mobile phase additive for improved chromatography of metal-chelating heterocyclic acids and  $\beta$ -diketones 471 (1989) 437

**Picric acid**

The separation process in isotachopheresis. I. A 32-channel UV-photometric zone detector 463 (1989) 39

The separation process in isotachopheresis. II. Binary mixtures and transient state models 463 (1989) 51

TLC decomposition of the picrates and trinitrobenzoates of polycyclic hydrocarbons and other organic compounds 463 (1989) 452

Separation process in isotachopheresis. III. Transient state models for a three-component system 470 (1989) 21

**Pictet-Spengler condensation**

Method for the identification of tetrahydropapaveroline using the Pictet-Spengler condensation reaction and HPLC 489 (1989) 399

**Pindolol**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Stereoselective determination of plasma pindolol in endotoxin-pretreated rats by HPLC 494 (1989) 381

**Pindone**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

HPLC separation of indandione rodenticides 481 (1989) 458

 **$\beta$ -Pinene**

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile oil constituents with short GC retention times 467 (1989) 272

**Pinobanksin-3-acetate**

Series of novel flavanones identified by GC-MS in bud exudate of *Populus fremontii* and *Populus maximowiczii* 481 (1989) 352

**Pioglitazone**

Determination of pioglitazone in dog serum using solid-phase extraction and HPLC with UV (229 nm) detection 490 (1989) 377

**Pipamperone**

MS characterization of urinary pipamperone metabolites and HPLC assay for pipamperone plasma levels 491 (1989) 422

**Piperacillin**

Determination of tazobactam and piperacillin in human plasma, serum, bile and urine by gradient elution reversed-phase HPLC 496 (1989) 167

**Piperine**

Quantitative microscale LC of piperine in pepper and pepper extracts 471 (1989) 335

**Piperonyl butoxide**

Determination of pyrethroid residues on paddy rice by reversed-phase HPLC 461 (1989) 337

Determination of dihydrosafrole in piperonyl butoxide by HPLC (in French) 462 (1989) 435

 **$\pi$ - $\pi$  Interactions**

$\pi$ -Acceptor amide group for LC chiral separations with special emphasis on the 3,5-dinitrobenzoyl amide 469 (1989) 101

**Pirimicarb**

Separation of pirimicarb and its metabolites by HPLC 478 (1989) 250

**Piromidic acid**

Improvement of chemical analysis of antibiotics. XVI. Simple and rapid determination of residual pyridonecarboxylic acid antibacterials in fish using a prepacked amino cartridge 477 (1989) 397

**Piroxicam**

Rapid analysis of piroxicam in dog, rat and human plasma by HPLC 487 (1989) 332

Rapid HPLC methods for the determination of overdose concentrations of some non-steroidal anti-inflammatory drugs in plasma or serum 495 (1989) 179

**Pirprofen**

HPLC determination of pirprofen and five of its metabolites in human plasma without hydrolysis and in human urine before and after chemical hydrolysis 495 (1989) 195

**Plant hormones**

see also Indoles and Auxines

Separation of gibberellins by normal-phase HPLC 464 (1989) 195

**Plasmalogen**

Separation of the molecular species of diacyl and alkenylacyl subclasses of the methyl ester of dinitrophenylethanolamine glycerophospholipid by HPLC 487 (1989) 239

**Plasmas**

Non-extractable stationary phases for GC cross-linked by exposure to low-temperature plasmas 473 (1989) 79

**Plasmid fragments**

Application of an asymmetrical flow field-flow fractionation channel to the separation and

characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

**Plasmids**

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

Gradient elution in hollow-fibre flow field-flow fractionation 461 (1989) 89

**Plasminogen**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

**Plasminogen activator**

Study of the primary structure of recombinant tissue plasminogen activator by reversed-phase HPLC tryptic mapping 463 (1989) 375

***Plasmodium falciparum* circumsporozoite protein**

Preparative purification of *Plasmodium falciparum* circumsporozoite protein synthetic polypeptides by displacement chromatography 482 (1989) 99

**Plasticizers**

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

**Platelet membrane proteins**

Application of analytical isotachopheresis in the study of platelet membrane proteins in patients with chronic myeloproliferative disorders 490 (1989) 53

**Platinum-black catalyst reduction**

Measurement of vitamin K in human liver by gradient elution HPLC using platinum-black catalyst reduction and fluorimetric detection 489 (1989) 291

**Platinum complexes**

Determination of cisplatin and related platinum complexes in plasma ultrafiltrate and urine by HPLC with on-line radioactivity detection 491 (1989) 163

**Plutonium**

Quantitative analysis of thorium in plutonium using reversed-phase LC and spectrophotometric detection 469 (1989) 369

**Polarity**

Measurement of the polarity of alkyl derivatives of diazopolyoxyethylene ethers by GC 454 (1988) 51

Influence of experimental conditions upon polarity parameters as measured by GC 457 (1988) 73

Retention in reversed-phase LC: solvatochromic investigation of homologous alcohol–water binary mobile phases 457 (1988) 85

Microcomputer-aided characterization of mobile phases for normal-phase LSC based on Snyder's theory and data 477 (1989) 235

Temperature-induced changes in reversed-phase chromatographic surfaces.  $C_8$  and  $C_9$  polymeric ligands 481 (1989) 135

Effect of alcohol chain length, concentration and polarity on separations in HPLC using bonded cyclodextrin columns 499 (1990) 477

**Polarizable liquid phases**

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

**Poliovirus**

Use of high-performance SEC for the separation of poliovirus and subviral particles 498 (1990) 105

**Polyacrolein**

Affinity separation with polyaldehyde microsphere beads 462 (1989) 177

**Polyacrylamide**

Enantiomer separation of  $\alpha$ -substituted  $\gamma$ -butyrolactones on the chiral polyacrylamide resin ChiraSpher<sup>®</sup> 481 (1989) 387

**Polyacrylamide, silica bonded**

Analytical resolution of 4(5)-alkylated  $\gamma$ ( $\delta$ )-lactones by HPLC on a silica-bonded chiral polyacrylamide sorbent. Chromatographic characterization of a stationary phase 469 (1989) 137

**Polyacrylamide-based packing, ODS**

Reversed-phase HPLC with a  $C_{18}$  polyacrylamide-based packing 452 (1988) 145

**Polyacrylonitrile**

TLC on polyacrylonitrile. I. Effect of the *cis*–*trans* configuration of cobalt(III) complexes on their  $R_f$  values 481 (1989) 465

**Polyaldehyde**

Affinity separation with polyaldehyde microsphere beads 462 (1989) 177

**Poly(alkyl methacrylate)**

Polymer-based packing materials with alkyl backbones for reversed-phase LC. Performance and retention selectivity 475 (1989) 195

**Polyamides**

GC analysis of thermoplastic aromatic polyamides after alkali fusion 477 (1989) 53

**Polyamines**

Polymeric benzotriazole reagent for the off-line HPLC derivatization of polyamines and related nucleophiles in biological fluids 454 (1988) 169

**Poly(A) · Poly(U)**

Analysis of double-stranded poly(A) · poly(U) molecules by reversed-phase HPLC 454 (1988) 195

**Polyarenes**

Optimization of the GC separation of five-membered ring polyarenes with an admixed BPhBT liquid crystal–Dexsil 300 stationary phase 469 (1989) 43

**Polycarbonate**

Analysis of polycarbonate–polydimethylsiloxane block copolymers 500 (1990) 367

**Polychlorinated biphenyls**

Selective enrichment procedures for the determination of polychlorinated biphenyls and polycyclic aromatic hydrocarbons in environmental samples by GPC 456 (1988) 155

**Polychlorinated dibenzodioxins**

Formation of polychlorinated dibenzo-*p*-dioxin from 2,4,4'-trichloro-2'-hydroxydiphenyl ether (Irgasan<sup>®</sup> DP300) and its chlorinated derivatives by exposure to sunlight 454 (1988) 145

GLC analyses. XLIX. Polychlorinated dibenzo-*p*-dioxins and dibenzofurans on low-polarity NB-54 and NB-1701 capillary columns 473 (1989) 153

GLC analyses. L. Retention, dispersion and selectivity indices of polychlorinated dibenzo-*p*-dioxins and dibenzofurans 477 (1989) 327

Multiresidue procedures for the determination of chlorinated dibenzodioxins and dibenzofurans in a variety of foods using capillary GC–electron-capture detection 478 (1989) 349

**Polychlorinated dibenzofurans**

GLC analyses. XLIX. Polychlorinated dibenzo-*p*-dioxins and dibenzofurans on low-polarity NB-54 and NB-1701 capillary columns 473 (1989) 153

GLC analyses. L. Retention, dispersion and selectivity indices of polychlorinated dibenzo-*p*-dioxins and dibenzofurans 477 (1989) 327

Multiresidue procedures for the determination of chlorinated dibenzodioxins and dibenzofurans in a variety of foods using capillary GC–electron-capture detection 478 (1989) 349

**Polycyclic aromatic sulphur heterocycles**

LC determination of planar aromatic sulphur compounds in crude oil 475 (1989) 421

**Polycytidines**

Capillary zone electrophoresis of oligonucleotides. Factors affecting separation 480 (1989) 321

**Polydimethylsiloxane**

Quantitation of polydimethylsiloxane in pharmaceutical formulations by GPC 477 (1989) 474

Analysis of polycarbonate–polydimethylsiloxane block copolymers 500 (1990) 367

**Polydivinylidene difluoride membranes**

Peptide mapping and internal sequencing of proteins electroblotted from two-dimensional gels onto polyvinylidene difluoride membranes. A chromatographic procedure for separating proteins from detergents 476 (1989) 345

**Polyelectrolytes, cationic**

SEC of cationic polyelectrolytes on Superose gel 463 (1989) 165

**Polyether**

Application of inverse GC to solid propellants 457 (1988) 354

**Polyethylene**

Hot TLC fractionation of polyethylene 456 (1988) 440

**Polyethylene glycols**

Interchangeable use of aqueous and organic solvents in a hydrophilic poly(vinyl alcohol) gel column 452 (1988) 137

Synthesis of ATP–polyethylene glycol and ATP–dextran and their use in the purification of

phosphoglycerate kinase from spinach chloroplasts using affinity partitioning 457 (1988) 183

Heat of solution in a polyethylene glycol stationary phase of several cyclic and bicyclic compounds 463 (1989) 441

Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429

Observations with high-molecular-weight polyethylene glycol stationary phases in capillary GC. I. Adsorption *versus* partitioning chromatography 477 (1989) 63

**Polyethylene terephthalate**

High-performance SEC of poly- and oligoethylene terephthalate using a mixture of hexafluoroisopropanol and chloroform as the mobile phase 479 (1989) 85

**Polygalacturonase**

Activity stain for polygalacturonase 455 (1988) 376

**Polyglutaraldehyde**

Affinity separation with polyaldehyde microsphere beads 462 (1989) 177

**Polygodial**

Characterisation of products formed by condensations of primary amines with polygodial, and their scope for enantiomer analyses 468 (1989) 201

**Polyhydroxy compounds**

Peculiar features of application of pH gradients formed in borate buffer with a polyhydroxy compound for separation of proteins in a free-flow electrophoretic apparatus 496 (1989) 121

**Polyimide sorbents**

Characterization of polyimide sorbents by using tracer pulse chromatography 498 (1990) 41

**Polyions**

Solution properties of polyelectrolytes. IV. Use of a new hydrophilic SEC packing for the separation of anionic and cationic polyions 461 (1989) 229

**Polymeric resins**

Comparison of retention behavior on polymeric resins and an alkyl-bonded silica phase in reversed-phase HPLC 499 (1990) 279

**Polymers**

Increasing the reliability of the identification of polymers by pyrolysis GC 454 (1988) 367

Determination of the solubility of vapours in polymers by automated headspace GC 455 (1988) 67

Sample size and retention values in HPLC of biological and synthetic polymers 458 (1988) 79

SEC of cationic polyelectrolytes on Superose gel 463 (1989) 165

Alkaline SEC of lignins and coal extracts using cross-linked dextran gels 467 (1989) 309

Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367

Ion-exchange chromatography of proteins. The effect of neutral polymers in the mobile phase 482 (1989) 133

Selected-ion monitoring of 4-vinyl-1-cyclohexene in acrylonitrile-butadiene-styrene polymer products and food simulants 482 (1989) 246

Effect of operating parameters on polymer molecular weight accuracy with time-delay, exponential-decay thermal field flow fractionation 499 (1990) 655

**Polymethylenic linking bridges**

Reversed-phase HPLC, a tool for the study of bichromophoric systems including polymethylenic linking bridges 481 (1989) 461

**Polymethylhydrosiloxane**

Deactivation with polymethylhydrosiloxane. A comparative study with capillary GC and solid-state <sup>29</sup>Si nuclear magnetic resonance spectroscopy 477 (1989) 3

**Polymyxin B**

Efficient endotoxin removal with a new sanitizable affinity column: Affi-Prep Polymyxin 476 (1989) 175

**Polynuclear aromatic hydrocarbons**

Performance of graphitized carbon black cartridges in the extraction of some organic priority pollutants from water 452 (1988) 527

GC retention on carbon adsorbents coated with monolayers of polynuclear aromatic hydrocarbons 454 (1988) 73

Retention behaviour of polycyclic aromatic hydrocarbons in SFC on various chemically bonded stationary phases with carbon dioxide as a mobile phase 455 (1988) 29

Isothiocyanate as a liquid crystalline stationary phase in capillary GC for the separation of polyaromatic hydrocarbons 455 (1988) 323

High-sensitivity laser-induced fluorescence-HPLC studies of polyaromatic hydrocarbons using the argon ion laser-Young detector cell configuration 455 (1988) 332

Selective enrichment procedures for the determination of polychlorinated biphenyls and polycyclic aromatic hydrocarbons in environmental samples by GPC 456 (1988) 155

Design of optimized HPLC gradients for the separation of either small or large molecules. III. An overall strategy and its application to several examples 459 (1988) 43

Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209

Hydrocarbon group type analysis of petroleum products by HPLC on organometallic donor/acceptor-bonded silica 461 (1989) 347

Improved enantiomeric separation of dihydrodiols of polycyclic aromatic hydrocarbons on chiral stationary phases by derivatization to O-methyl ethers 461 (1989) 377

TLC decomposition of the picrates and trinitrobenzoates of polycyclic hydrocarbons and other organic compounds 463 (1989) 452

Determination of some polynuclear aromatic hydrocarbons in new, used and regenerated oils 464 (1989) 333

Splitting control and solvent effects in SFC with fused-silica capillary columns 465 (1989) 17

Capillary GC of some polycyclic aromatic compounds on several stationary phases 465 (1989) 378

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

SFC-MS of polycyclic aromatic hydrocarbons with a simple capillary direct interface 468 (1989) 115

Determination of polycyclic aromatic hydrocarbons in lubricating oil base stocks using HPLC and GC-MS 469 (1989) 241

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

Reversed-phase LC retention behaviour of dimethylphenanthrene isomers 473 (1989) 207

Comparison of LC selectivity for polycyclic aromatic hydrocarbons on cyclodextrin and C<sub>18</sub> bonded phases 477 (1989) 277

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Investigation into the factors affecting performance in the determination of polycyclic aromatic hydrocarbons using capillary GC-MS with splitless injection 498 (1990) 11

Separation and identification of monomethylated polycyclic aromatic hydrocarbons in heavy oil 498 (1990) 25

### **Polynuclear aromatic hydrocarbons, nitro derivatives**

Computer-assisted development of an HPLC method for fractionating selected nitro derivatives of polyaromatic hydrocarbons 485 (1989) 607

### **Polynucleotides**

Prediction of retention times in ion-exchange chromatography 485 (1989) 533

### **Polyols**

Quantitative determination of dicarboxylic acids and polyols in silicone-polyester resins 452 (1988) 37

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

### **Polyoxyethylene 4-alkylphenylamines**

Analysis and molar mass distribution of polyoxyethylene 4-alkylphenylamines 462 (1989) 39

### **Polyoxyethylene glycol monoalkyl ethers**

Increments of the arithmetic retention index for polyoxyethylene glycol monoalkyl ethers and their degradation products 477 (1989) 407

### **Polyoxyethylene glycols**

Chemical degradation and analysis of polyoxyethylene glycols and ethylene oxide- $\alpha$ -butylene oxide block copolymers 455 (1988) 131

Polyoxyalkyleneglycols immobilized on Sepharose 6B for the sequential extraction of three enzymes from a crude extract of *Pseudomonas testosteroni* 474 (1989) 396

GLC in qualitative analysis. XVIII. Study of the dependence of the retention behaviour of polyoxyethylene glycol columns on the nature of the support and phase loading 500 (1990) 355

### **Polyoxyethylene monoalkyl ethers**

Degradation and analysis of polyoxyethylene monoalkyl ethers in the presence of acetyl chloride 455 (1988) 119

Degradation and analysis of polyoxyethylene monoalkyl ethers in the presence of acetyl chloride and ferric chloride 469 (1989) 197

### **Polyoxyethylene surfactants**

Analytical study of non-ionic surfactants used in enhanced oil recovery. Optimization of analytical conditions in reversed-phase partition chromatography 461 (1989) 305

Polarographic detection of non-ionic surfactants analyzed by reversed-phase partition chromatography 465 (1989) 69

### **Polypeptide chain length**

Correlation of protein retention times in reversed-phase chromatography with polypeptide chain length and hydrophobicity 476 (1989) 363

### **Polypeptides**

Isolation of recombinant hirudin by preparative HPLC 476 (1989) 245

Capillary zone electrophoresis and isotachopheresis-MS of polypeptides and proteins based upon an electrospray ionization interface 480 (1989) 211

Preparative purification of *Plasmodium falciparum* circumsporozoite protein synthetic polypeptides by displacement chromatography 482 (1989) 99

Rapid chromatographic isolation and immunoblot characterization of immunoreactive fibroblast growth factor-related polypeptides from various tissues 491 (1989) 49

Reversed-phase HPLC of proteins and polypeptides on polystyrene-coated silica supports 500 (1990) 519

### **Polyphenols**

Chromatography of tannins. IV. Separation of labile oligomeric hydrolysable tannins and related polyphenols by centrifugal partition chromatography 467 (1989) 139

**Polysaccharides**

Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73

High-performance anion-exchange chromatography of homogeneous D-gluco-oligosaccharides and -polysaccharides (polymerization degree  $\geq 50$ ) with pulsed amperometric detection 464 (1989) 365

Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367

High-performance GPC of meningococcal polysaccharides 483 (1989) 406

Prediction of retention times in ion-exchange chromatography 485 (1989) 533

Electrophoretic separation of sugars and hydrolysates of polysaccharides on silylated glass-fibre paper 498 (1990) 213

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

**Polysiloxanes**

Synthesis and structural considerations of oligoethylene oxide-containing polysiloxane stationary phases in capillary GC and SFC 473 (1989) 103

Low-temperature side-chain liquid crystalline polysiloxanes used as stationary phases for capillary GC 483 (1989) 394

**Polystyrene-coated silica**

Reversed-phase HPLC of proteins and polypeptides on polystyrene-coated silica supports 500 (1990) 519

**Poly(styrene-divinylbenzene)**

Polymer-based packing materials with alkyl backbones for reversed-phase LC. Performance and retention selectivity 475 (1989) 195

Comparison of retention behavior on polymeric resins and an alkyl-bonded silica phase in reversed-phase HPLC 499 (1990) 279

**Polystyrene-divinylbenzene, C<sub>18</sub> derivatized**

Prediction of alkane-water partition coefficients using a C<sub>18</sub> derivatized polystyrene-divinylbenzene stationary phase 464 (1989) 400

**Polystyrene latex beads**

Gradient elution in hollow-fibre flow field-flow fractionation 461 (1989) 89

**Polystyrenes**

Interchangeable use of aqueous and organic solvents in a hydrophilic poly(vinyl alcohol) gel column 452 (1988) 137

Hydrolyzed macroporous glycidyl methacrylate-ethylene dimethacrylate copolymer with narrow pore size distribution. A novel packing for size-exclusion HPLC 475 (1989) 187

**Polysulphide**

Ion-pair chromatographic separation of inorganic sulphur anions including polysulphide 475 (1989) 442

**Polyunsaturated fatty acid ethyl esters,  $\omega$ -3**

Preparative-scale HPLC of omega-3 polyunsaturated fatty acid esters derived from fish oil 459 (1988) 369

**Polyunsaturated fatty acids**

Separation of polyunsaturated fatty acid radicals by HPLC with electron spin resonance and UV detection 487 (1989) 9

**Polyurethane foams**

Determination of toluenediamines in polyurethane foams by HPLC with electrochemical detection 477 (1989) 387

**Poly(vinyl alcohol)**

Interchangeable use of aqueous and organic solvents in a hydrophilic poly(vinyl alcohol) gel column 452 (1988) 137

Polymer-based packing materials with alkyl backbones for reversed-phase LC. Performance and retention selectivity 475 (1989) 195

**Poly(vinylidene difluoride)**

Dot immunobinding assay of HPLC fractions on poly(vinylidene difluoride) membranes 472 (1989) 445

**Porfiromycin**

LC-thermospray MS of DNA adducts formed with mitomycin C, porfiromycin and thiotepa 474 (1989) 197

**Porosity**

New method for measuring obstructive factors and porosity using GC instrumentation 471 (1989) 123

**Porous graphitic carbon**

Retention mechanisms on metallic stationary phases 461 (1989) 139

**Porous organic microspheres**

New porous organic microspheres for HPLC 476 (1989) 21

**Porphyrinogens**

Preparation, HPLC separation and characterization of hexacarboxylic porphyrinogens 461 (1989) 353

**Porphyrins**

Characterization and purification of iron porphyrins by HPLC and CC 462 (1989) 411

Separation of nickel(II) alkylporphyrins by reversed-phase HPLC. Methodology and application 467 (1989) 195

Isocratic ion-pair HPLC methods for the determination of uroporphyrin and coproporphyrin type II and IV isomers in human urine 468 (1989) 329

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Separation of porphyrin isomers by HPLC 493 (1989) 53

**Positional isomers**

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

**Position sensitive detector**

Microbore LC and refractive index gradient detection of low-nanogram and low-ppm quantities of carbohydrates 464 (1989) 83

**Post-column reactors**

On-line HPLC-post-column reaction-capillary GC analysis of lipids in biological samples 454 (1988) 157

Improved HPLC method with fluorimetric detection for the determination of glycerol using an immobilized enzyme column reactor 456 (1988) 398

Use of a post-column reaction and a spectrophotometric detector for the LC determination of water 462 (1989) 323

Post-column immobilized leucine dehydrogenase reactor for determination of branched chain

amino acids by HPLC with fluorescence detection 463 (1989) 177

Post-column co-immobilized galactose oxidase/peroxidase reactor for fluorometric detection of saccharides in an LC system 463 (1989) 183

Simultaneous HPLC determination of catecholamine-related compounds by post-column derivatization involving coulometric oxidation followed by fluorescence reaction 467 (1989) 237

Quantitative analysis of thorium in plutonium using reversed-phase LC and spectrophotometric detection 469 (1989) 369

Fluorimetric determination of vitamin K<sub>3</sub> (menadiolone sodium bisulfite) in synthetic animal feed by HPLC using a post-column zinc reducer 472 (1989) 371

Characterization of a post-column reaction-laser-induced fluorescence detector for capillary zone electrophoresis 480 (1989) 157

LC determination of N-methylcarbamate pesticides using a single-stage post-column derivatization reaction and fluorescence detection 481 (1989) 445

Determination of Pb<sup>II</sup>, Cd<sup>II</sup> and Bi<sup>III</sup> by reversed-phase liquid chromatography of their diethyldithiocarbamate complexes with post-column ligand exchange and selective spectrophotometric detection 482 (1989) 317

Fluorimetric determination of indomethacin in human serum by HPLC coupled with post-column photochemical reaction with hydrogen peroxide 491 (1989) 389

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

Development of an HPLC post-column fluorogenic assay for digoxin in serum 496 (1989) 321

HPLC determination of branched-chain  $\alpha$ -keto acids in serum using immobilized leucine dehydrogenase as post-column reactor 497 (1989) 236

Determination of D-*myo*-1,2,6-inositol trisphosphate by ion-pair reversed-phase LC with post-column ligand exchange and fluorescence detection 499 (1990) 617

Determination of inorganic anions by flow injection analysis and HPLC combined with photolytic-electrochemical detection 499 (1990) 685

### **Potassium**

Isocratic elution of sodium, ammonium, potassium, magnesium and calcium ions by ion-exchange chromatography 469 (1989) 339

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

### **Potassium chloride**

Exchange of the cation and anion of the sample (sodium or potassium chloride) with the cation and anion of the eluent (sodium or potassium phosphate buffer) and their elution, from a Sephadex G-15 column, in separate fractions 481 (1989) 299

### **Potassium phosphate**

Exchange of the cation and anion of the sample (sodium or potassium chloride) with the cation and anion of the eluent (sodium or potassium phosphate buffer) and their elution, from a Sephadex G-15 column, in separate fractions 481 (1989) 299

### **Precipitation**

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

### **Precipitation samples**

Determination of organic and inorganic acids in precipitation samples 482 (1989) 381

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

### **Pre-columns**

Immunoaffinity pre-column for selective on-line sample pre-treatment in HPLC determination of 19-nortestosterone 452 (1988) 419

Recovery of organic compounds from large-volume aqueous samples using on-line LC preconcentration techniques 456 (1988) 121

Modified column system for pyrolysis capillary GC 462 (1989) 376

Introduction of water and water-containing solvent mixtures in capillary GC. I. Failure to produce water-wettable precolumns (retention gaps) 473 (1989) 381

Introduction of water and water-containing solvent mixtures in capillary GC. II. Wettability of precolumns by mixtures of organic solvents and water; retention gap techniques 473 (1989) 391

Introduction of water and water-containing solvent mixtures in capillary GC. III. Water-resistant deactivation of uncoated precolumns? 473 (1989) 401

Trace-level determination of 3'-azido-3'-deoxythymidine in human plasma by preconcentration on a silver (I)-thiol stationary phase with on-line reversed-phase HPLC 491 (1989) 321

### **Preconcentration**

Preconcentration and analysis of atmospheric isoprene and monoterpenes. System automation 456 (1988) 165

On-line preconcentration and elution of trace metals by ion chromatography 482 (1989) 335

### **Preconcentration, on-line**

Recovery of organic compounds from large-volume aqueous samples using on-line LC preconcentration techniques 456 (1988) 121

### **Prednisolone**

Chromatographic determination of percutaneous absorption of topical non-radiolabelled prednisolone in vivo, and preliminary application to transdermal pharmacokinetics 493 (1989) 373

Simultaneous measurement of prednisone, prednisolone and 6 $\beta$ -hydroxyprednisolone in urine by HPLC using dexamethasone as the internal standard 493 (1989) 421

### **Prednisone**

Simultaneous measurement of prednisone, prednisolone and 6 $\beta$ -hydroxyprednisolone in urine by HPLC using dexamethasone as the internal standard 493 (1989) 421

### **Preparative chromatography**

Effect of mobile phase flow-rate on the recoveries and production rates in overloaded elution chromatography. A theoretical study 452 (1988) 209

Preliminary applications of cross-axis synchronous flow-through coil planet centrifuge for large-scale preparative counter-current chromatography 454 (1988) 185

- Cross-axis synchronous flow-through coil planet centrifuge for large-scale preparative counter-current chromatography. III. Performance of large-bore coils in slow planetary motion 455 (1988) 151
- Large-scale purification of the chromosomal  $\beta$ -lactamase from *Enterobacter cloacae* P99 457 (1988) 317
- Preparative separation by HPLC of an extract of oak wood and determination of the composition of each fraction 457 (1988) 431
- Rapid isolation of thymosin  $\beta_4$  from thymosin fraction 5 by preparative HPLC 459 (1988) 291
- Scale-up methodology for the preparative purification of peptide M 459 (1988) 361
- Preparative-scale HPLC of omega-3 polyunsaturated fatty acid esters derived from fish oil 459 (1988) 369
- Dioxanyl hydroperoxide in preparative LC 461 (1989) 35
- Production scale purification of biosynthetic human insulin by reversed-phase HPLC 461 (1989) 45
- Analytical performance of process-scale LC columns 461 (1989) 63
- External recycle chromatography: a practical method for preparative purifications 462 (1989) 85
- Preparative separation of the enantiomers of the cholecystokinin antagonist (3S)-( $\pm$ )-N-(2,3-dihydro-1-([ $^3$ H $_3$ ]methyl)-2-oxo-5-phenyl-1H-1,4-benzodiazepine-3-yl)-1H-indole-2-carboxamide by HPLC 462 (1989) 454
- Improved cross-axis synchronous flow-through coil planet centrifuge for performing counter-current chromatography. II. Studies on retention of stationary phase in short coils and preparative separations in multilayer coils 463 (1989) 317
- Ideal mixed cells model of multi-component preparative LC 464 (1989) 1
- Preparative LC with analytical separation quality. Interval injection/displacement reversed-phase HPLC 464 (1989) 103
- Study of the representation of competitive isotherms and of the intersection between adsorption isotherms 475 (1989) 1
- Improved high-speed counter-current chromatograph with three multilayer coils connected in series. I. Design of the apparatus and performance of semipreparative columns in 2,4-dinitrophenyl amino acid separation 475 (1989) 219
- Isolation of recombinant hirudin by preparative HPLC 476 (1989) 245
- Quantitative extraction of thymine-thymine dimer from a large excess of thymine by preparative LC 477 (1989) 119
- Column performance of Q-Sepharose HP in analytical- and preparative-scale chromatography 477 (1989) 337
- Preparative HPLC using detection by thermospray MS 478 (1989) 429
- Isolation of off-flavour compounds in water by chromatographic sniffing and preparative GC 482 (1989) 23
- Preparative purification of *Plasmodium falciparum* circumsporozoite protein synthetic polypeptides by displacement chromatography 482 (1989) 99
- Preparative HPLC under isocratic conditions. I Craig simulations for heavily overloaded separations 483 (1989) 63
- Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85
- Preparative HPLC under isocratic conditions. III. The consequences of two adjacent bands having unequal column capacities 483 (1989) 95
- Gradient elution in non-linear preparative LC 484 (1989) 1
- Mass transfer effects in isocratic non-linear elution chromatography 484 (1989) 29
- Study of preparative reversed-phase chromatography by application of kinetic and equilibrium models of column overload 484 (1989) 61
- Influence of calculation errors in the numerical simulation of chromatographic elution band profiles using an ideal or semi-ideal model 484 (1989) 83
- Theoretical study of multi-component interferences in non-linear chromatography 484 (1989) 103
- Experimental utilization of a displacement effect for the optimization of the separation of a two-component mixture 484 (1989) 153
- Rapid method for determining multicomponent Langmuir parameters for displacement chromatography 484 (1989) 167

Modelling methods to aid the design and optimisation of batch stirred-tank and packed-bed column adsorption and chromatography units 484 (1989) 187

Scale-up and optimization in production LC 484 (1989) 211

Displacement chromatography of biomolecules with large particle diameter systems 484 (1989) 225

Displacement chromatography on cyclodextrin-silicas. I. Separation of positional and geometrical isomers in the reversed-phase mode 484 (1989) 237

Displacement chromatography on cyclodextrin-silicas. II. Separation of *cis-trans* isomers in the reversed-phase mode on  $\alpha$ -cyclodextrin-silica 484 (1989) 251

Solid injection, a new technique for application of insoluble samples in preparative LC 484 (1989) 259

Preparative packing utility as a function of particle size 484 (1989) 267

Preparative reversed-phase HPLC in the synthesis of viscosin, a cyclic depsipeptide 484 (1989) 293

Purification of synthetic peptides on a high-resolution preparative reversed-phase column 484 (1989) 299

Preparative-scale synthesis and reversed-phase purification of a gonadotropin-releasing hormone antagonist 484 (1989) 307

Chromatography of peptides on a multi-coil counter-current chromatograph 484 (1989) 319

Preparative isolation of glycoproteins from plasma membranes of different rat organs 484 (1989) 327

Preparative resolution of enantiomers of prostaglandin precursors by LC on a chiral stationary phase 484 (1989) 337

Purification of radiolabeled pharmaceuticals 484 (1989) 347

Preparative LC of hop and beer bitter acids 484 (1989) 361

Strategy for the preparative-scale HPLC isolation of kadsurenone and futoquinol from the medicinal plant *Piper futokadsura* 484 (1989) 369

Process-scale reversed-phase HPLC purification of LL-E19020 $\alpha$ , a growth promoting antibiotic produced by *Streptomyces lydicus* ssp. *tanzanius* 484 (1989) 381

Preparative and automated compound class separation of Venezuelan vacuum residua by HPLC 484 (1989) 399

Preparative HPLC under gradient conditions. I. Band broadening in gradient elution as a function of sample size 484 (1989) 409

Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425

Preparative HPLC under gradient conditions. III. Craig simulations for heavily overloaded separations 484 (1989) 437

Analytical and preparative HPLC separation of the enantiomers of ifosfamide, cyclophosphamide and trofosfamide and their determination in plasma 490 (1989) 133

Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377

Applications of preparative HPLC to the separation and purification of peptides and proteins (Review) 492 (1989) 431

Determination of competitive adsorption isotherms for modeling large-scale separations in LC 499 (1990) 5

Quantitative comparison between the experimental band profiles of binary mixtures in overloaded elution chromatography and their profiles predicted by the semi-ideal model 499 (1990) 21

Scaling-up procedure from the range of milligrams to grams for the purification of amino acid derivatives in displacement chromatography 499 (1990) 37

Purification of monoclonal antibodies by complex-displacement chromatography on CM-cellulose 499 (1990) 47

Preparative-scale HPLC separation and purification of 3'-azido-3'-deoxythymidine-5'-phosphate 499 (1990) 55

Theoretical analysis of non-linear preparative LC 500 (1990) 185

### **Preparative electrophoresis**

Purification of lentil lectins using preparative electrophoresis 455 (1988) 225

**Preparative isotachopheresis**

Automated recycling free fluid isotachopheresis. Principle, instrumentation and first results 457 (1988) 137

**Prepolymers**

Separation of prepolymers of phenol-formaldehyde resins by SFC 478 (1989) 181

**Preservatives**

Determination of preservatives in cosmetic products. II. HPLC identification 469 (1989) 317

**Pressure drop**

Column pressure drop in capillary SFC 465 (1989) 169

Effect of pressure drop across the column on average densities and capacity factors in SFC 471 (1989) 347

Band broadening in HPLC separations of enantiomers with swollen microcrystalline cellulose triacetate packings. II. Influence of eluent composition, temperature and pressure 478 (1989) 87

**Pressure profiles**

Non-steady pressure profiles in chromatographic columns 463 (1989) 153

**Pressure programming**

Programming of pressure and mobile phase composition at constant flow-rate using a self-adjusting valve in SFC 475 (1989) 85

**Pressurized liquid injection**

Automatic on-line pressurized liquid injection in GC 483 (1989) 111

**Principal component analysis**

Mechanism of retention in HPLC on porous graphitic carbon as revealed by principal component analysis of structural descriptors of solutes 499 (1990) 333

**Proanthocyanidins**

Chemical reaction detection of catechins and proanthocyanidins with 4-dimethylaminocinnamaldehyde 467 (1989) 185

**Probenecid**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

**Probucof**

Automated column LC determination of probucof in human serum and lipoprotein fractions 490 (1989) 230

**Procainamide**

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

**Procaine**

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

**Procarboxypeptidases**

The separation of pancreatic procarboxypeptidases by HPLC and chromatofocusing 481 (1989) 233

**Process columns**

Analytical performance of process-scale LC columns 461 (1989) 63

**Processing, automation**

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

**Prochloraz**

Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293

**Procion Red HE3B**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

**Procion Red MX5B**

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

**Procyanidine gallates**

Gallic acid esters of procyanidines of vines *Vitis vinifera*. Separation and identification by HPLC and GC (in French) 455 (1988) 406

**Procyclidine**

Capillary GC of trihexyphenidyl, procyclidine and cycrimine in biological fluids 494 (1989) 135

**Pro Digest-LC**

Computer simulation of HPLC separations of peptide and protein digests for development of size-exclusion, ion-exchange and reversed-phase chromatographic methods 458 (1988) 147

Reversed-phase chromatographic method development for peptide separations using the computer simulation program ProDigest-LC 485 (1989) 365

**Production rate**

Effect of mobile phase flow-rate on the recoveries and production rates in overloaded elution chromatography. A theoretical study 452 (1988) 209

Preparative HPLC under isocratic conditions. I. Craig simulations for heavily overloaded separations 483 (1989) 63

Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85

**Progesterone receptor**

High performance affinity chromatography of human progesterone receptor 455 (1988) 434

**Programmable temperature vaporizer**

Programmable temperature vaporizer applications in an high-resolution GC method for the quantitation of impurities in illicit heroin 466 (1989) 384

**Programmed-temperature vaporizer**

Capillary GC determination of volatiles in solid matrices by direct introduction using a programmable-temperature vaporizer 483 (1989) 43

**Prolamin**

Normalisation of HPLC peak retention times for computerised comparison of wheat prolamin chromatograms 469 (1989) 127

**Prolidase**

Separation of two erythrocyte prolidase isoforms by fast protein LC; application to prolidase deficiency 493 (1989) 170

**Proline**

Determination of radiolabelled proline and hydroxyproline in collagen hydrolysates by HPLC with on-line radiometric detection 488 (1989) 267

**Proline-containing peptides**

Slow isomerization of some proline-containing peptides inducing peak splitting during reversed-phase HPLC 478 (1989) 121

**Propachlor**

GC determination of chloroacetamide herbicides in plants and soil 455 (1988) 391

**Propadiene**

Isomerisation of propyne to propadiene. Studies by GC 471 (1989) 145

**1-Propanol**

Limiting activity coefficients of aliphatic alcohols in phthalates 472 (1989) 163

**Propellants**

Application of inverse GC to solid propellants 457 (1988) 354

**Propionyl-L-carnitine**

Application of HPLC to the analysis of propionyl-L-carnitine by a stereospecific enzyme assay 459 (1988) 313

**Propionylpromazine**

Determination of residues of carazolol and a number of tranquillizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

Metabolism and pharmacokinetic studies of propionylpromazine in horses 489 (1989) 313

**Propoxyphene**

Simultaneous HPLC determination of propoxyphene and acetaminophen in pharmaceutical preparations 455 (1988) 279

Simultaneous determination of propoxyphene and norpropoxyphene in biological samples by GC using an on-column injection technique with a fused-silica capillary column 491 (1989) 448

**Propranolol**

HPLC on chiral packed microbore columns with the 3,5-dinitrobenzoyl derivative of *trans*-1,2-diaminocyclohexane as selector 457 (1988) 235

Enantioselective drug monitoring of (*R*)- and (*S*)-propranolol in human plasma via derivatization with optically active (*R,R*)-*O,O*-diacetyl tartaric acid anhydride 487 (1989) 375

Stereoselective HPLC assay for propranolol enantiomers in serum 488 (1989) 407

Quantification of propranolol enantiomers in small blood samples from rats by reversed-phase HPLC after chiral derivatization 489 (1989) 333

Ion-exchange HPLC in drug assay in biological fluids. V. Propranolol and metabolites 491 (1989) 507

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (–)-menthyl chloroformate 493 (1989) 402

Determination of (*R*)- and (*S*)-propranolol in plasma by HPLC using *N*-benzoxycarbonylglycyl-L-proline as chiral selector in the mobile phase 494 (1989) 157

**Propionate**

Chromatographic approaches to the quality control of chiral propionate anti-inflammatory drugs and herbicides 469 (1989) 183

**Propylhexedrine**

Positive confirmation of identity of doping agents using GC-MS with Fourier transform IR spectrometry 489 (1989) 51

**N-*n*-Propylnorapomorphine**

Determination of N-*n*-propylnorapomorphine in serum and brain tissue by GC-negative ion chemical ionization MS 457 (1988) 257

**3-(2-Propylphenyl)-4-methyl-4-thiazolin-2-one**

Example of the concentration dependence of elution order in the resolution of enantiomers on microcrystalline triacetylcellulose chiral stationary phase 462 (1989) 95

**2-(N-Propyl-N-2-thienylethylamino)-5-hydroxytetralin**

Determination of enantiomeric purity of the new D-2 dopamine agonist 2-(N-propyl-N-2-thienylethylamino)-5-hydroxytetralin (N-0437) by reversed-phase HPLC after pre-column derivatization with D(+)-glucuronic acid 487 (1989) 125

Analysis of the dopamine agonist N-0437 in rat serum using reversed-phase HPLC with electrochemical detection 487 (1989) 210

**Propylthiouracil**

Screening and confirmation of thyreostatics in urine by GC with nitrogen-phosphorus detection and GC-MS after sample clean-up with a mercurated affinity column 489 (1989) 127

**Propyne**

Isomerisation of propyne to propadiene. Studies by GC 471 (1989) 145

**Prostacyclin**

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

**Prostaglandin precursors**

Preparative resolution of enantiomers of prostaglandin precursors by LC on a chiral stationary phase 484 (1989) 337

**Prostaglandins**

Separation and molecular weight determination of prostaglandin B<sub>1</sub> oligomers by SEC 466 (1989) 339

Identification of reaction products from the pyridinium dichromate derivatization of prostaglandins by HPLC and direct chemical ionization MS 477 (1989) 345

Separation of <sup>125</sup>I-labelled prostanoid derivatives by reversed-phase HPLC 483 (1989) 419

Isotope dilution GC-MS for the study of eicosanoid metabolism in human blood platelets 488 (1989) 283

Solid-phase sample preparation method for prostaglandins: integration of procedures for isolation and derivatization for GC determination 489 (1989) 263

Specific radioactivity determination of labeled eicosanoids 489 (1989) 359

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

Simultaneous determination of the primary prostanoids prostaglandin E<sub>2</sub>, prostaglandin F<sub>2α</sub> and 6-oxoprostaglandin F<sub>1α</sub> by immunoaffinity chromatography in combination with negative ion chemical ionization GC-tandem MS 494 (1989) 13

Quantitative profiling of 6-ketoprostaglandin F<sub>1α</sub>, 2,3-dinor-6-ketoprostaglandin F<sub>1α</sub>, thromboxane B<sub>2</sub> and 2,3-dinor-thromboxane B<sub>2</sub> in human and rat urine by immunoaffinity extraction with GC-MS 495 (1989) 1

**Prostanoids, <sup>125</sup>I-labelled**

Separation of <sup>125</sup>I-labelled prostanoid derivatives by reversed-phase HPLC 483 (1989) 419

**Proteases**

Detection of trypsin- and chymotrypsin-like proteases using *p*-nitroanilide substrates after sodium dodecyl sulphate polyacrylamide gel electrophoresis 470 (1989) 401

**Protein A**

Rapid high-performance affinity chromatography on micropellicular sorbents 458 (1988) 207

Protein A, hydroxyapatite and diethylaminoethyl: evaluation of three procedures for the preparative purification of monoclonal antibodies by HPLC 465 (1989) 101

### Protein adsorption

Modelling single-component protein adsorption to the cation exchanger S Sepharose® FF 498 (1990) 113

### Proteinases

Detection of proteolytic enzymes in fractions after LC 463 (1989) 212

Fractionation of human gastric proteinases by immobilized metal chelate (Fe<sup>3+</sup>) affinity chromatography 489 (1989) 390

### Protein A Superose

Comparison of protein A, protein G and copolymerized hydroxyapatite for the purification of human monoclonal antibodies 476 (1989) 257

### Protein binding

$\alpha_1$ -Acid glycoprotein HPLC column (Enantiopac) as a screening tool for protein binding 487 (1989) 257

Determination of drug protein-binding by HPLC using a chemically bonded bovine albumin stationary phase 496 (1989) 291

### Protein binding, drugs

Determination of highly protein bound drugs in plasma using HPLC and column switching, exemplified by the retinoids 456 (1988) 33

### Protein conformation

Protein conformation changes as the result of binding to reversed-phase chromatography column materials 476 (1989) 159

### Protein focusing dynamics

Experimental and theoretical dynamics of isoelectric focusing. III. Transient multi-peak approach to equilibrium of proteins in simple buffers 478 (1989) 39

### Protein G Sepharose

Comparison of protein A, protein G and copolymerized hydroxyapatite for the purification of human monoclonal antibodies 476 (1989) 257

### Protein immobilization

Protein immobilization on silica supports. A ligand density study 458 (1988) 169

### Protein kinase

Microheterogeneity of the growth-associated neuronal protein B-50 (GAP-43). Contribution of phosphorylation by protein kinase C 483 (1989) 301

### Protein precipitation

Sample preparation for biomedical analysis (Review) 492 (1989) 3

### Protein refolding

Characterization of reversed-phase HPLC stationary phases using ribonuclease A 498 (1990) 281

### Proteins

Mixed-bed ion-exchange columns for protein HPLC 452 (1988) 331

Hydrophobic interaction of Alcian Blue with soluble and erythrocyte membrane proteins 452 (1988) 347

Structural characterization of recombinant consensus interferon- $\alpha$  454 (1988) 205

High performance affinity chromatography of human progesterone receptor 455 (1988) 434

Co-operative cluster model for multivalent affinity interactions involving rigid matrices 457 (1988) 13

HPLC of proteins on compressed, non-porous agarose beads. I. Hydrophobic-interaction chromatography 457 (1988) 165

HPLC of proteins on compressed, non-porous agarose beads. II. Anion-exchange chromatography 457 (1988) 175

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

Elution behaviour of some proteins on fresh, acid- or base-treated Sephacryl S-200 HR 457 (1988) 205

Horizontal flow-through coil planet centrifuge equipped with a set of multilayer coils around the column holder. Counter-current chromatography of proteins with a polymer-phase system 457 (1988) 393

HPLC of amino acids, peptides and proteins. LXXXVII. Comparison of retention and bandwidth properties of proteins eluted by gradient and isocratic anion-exchange chromatography 458 (1988) 27

- High-performance liquid chromatography of amino acids, peptides and proteins. LXXXVIII. Calculation of the average distance between protein solutes and the stationary phase during isocratic anion-exchange chromatography 458 (1988) 45
- Salt-binding effects in hydrophobic-interaction chromatography 458 (1988) 57
- Computer simulation of HPLC separations of peptide and protein digests for development of size-exclusion, ion-exchange and reversed-phase chromatographic methods 458 (1988) 147
- Design of optimized HPLC gradients for the separation of either small or large molecules. I. Minimizing errors in computer simulations 459 (1988) 1
- Design of optimized HPLC gradients for the separation of either small or large molecules. III. An overall strategy and its application to several examples 459 (1988) 43
- Separation of fatty acid binding protein by high-performance mixed-mode chromatography 459 (1988) 221
- Application of an asymmetrical flow field-flow fractionation channel to the separation and characterization of proteins, plasmids, plasmid fragments, polysaccharides and unicellular algae 461 (1989) 73
- HPLC separation of membrane proteins isolated from erythrocyte ghosts 462 (1989) 255
- High-performance anion-exchange chromatography of proteins using aza-ether bonded silica-based phases 463 (1989) 329
- Use of the surfactant 3-(3-cholamidopropyl)-dimethylammonio propane sulfonate in hydrophobic interaction chromatography of proteins 464 (1989) 61
- Ion-exchange equilibria of lysozyme, myoglobin and bovine serum albumin. Effective valence and exchanger capacity 465 (1989) 137
- Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315
- HPLC separation of variants of chromosomal proteins from prokaryotes 466 (1989) 331
- Interplay of hydrophobic and electrostatic interactions in biopolymer chromatography. Effect of salts on the retention of proteins 469 (1989) 3
- Spacer performance in the cationic isotachopheresis of proteins 470 (1989) 201
- Has immunoblotting replaced electroimmunoprecipitation? Examples from the analysis of autoantigens and transglutaminase-induced polymers of the human erythrocyte membrane 470 (1989) 351
- Isotachopheresis of proteins 470 (1989) 407
- Overpressured multi-layer chromatography 471 (1989) 375
- Capillary zone electrophoretic separations of proteins in polyethylene glycol-modified capillaries 471 (1989) 429
- Ultra-thin electrophoretic gel densitometry using photo-thermal deflection spectroscopy 472 (1989) 331
- Accuracy and precision in the determination of Stokes radii and molecular masses of proteins by gel filtration chromatography 472 (1989) 347
- Chromatographic fractionation of proteins at high organic solvent modifier concentrations 474 (1989) 418
- Isolation and purification of a fibrinogenolysin from the venom of the saw-scaled viper (*Echis carinatus*) by HPLC 474 (1989) 424
- High-performance chromatofocusing of proteins on agarose columns. I. Macroporous 15–20  $\mu\text{m}$  beads 475 (1989) 167
- High-performance chromatofocusing of proteins on agarose columns. II. Deformed non-porous 12–15  $\mu\text{m}$  beads 475 (1989) 177
- Carrier ampholyte-mediated oxidation of proteins in isoelectric focusing 475 (1989) 283
- Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3
- Evaluation of advanced silica packings for the separation of biopolymers by HPLC. VI. Design, chromatographic performance and application of non-porous silica-based anion exchangers 476 (1989) 37
- Blotting of proteins onto Immobilon membranes. *In situ* characterization and comparison with HPLC 476 (1989) 59
- Isolation of recombinant partial *gag* gene product p18 (HIV-1<sub>BrU</sub>) from *Escherichia coli* 476 (1989) 99

- Sodium dodecyl sulphate-protein complexes. Changes in size or shape below the critical micelle concentration, as monitored by high performance agarose gel chromatography 476 (1989) 147
- Protein conformation changes as the result of binding to reversed-phase chromatography column materials 476 (1989) 159
- Coated silica supports for high-performance affinity chromatography of proteins 476 (1989) 195
- HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205
- Separation and purification of component proteins of the cytochrome P-450-dependent microsomal monooxygenase system by HPLC 476 (1989) 299
- Crown ethers as ligands for HPLC of proteins and nucleic acids 476 (1989) 309
- Comparison of non-ionic detergents for extraction and ion-exchange HPLC of Sendai virus integral membrane proteins 476 (1989) 319
- Peptide mapping and internal sequencing of proteins electroblotted from two-dimensional gels onto polyvinylidene difluoride membranes. A chromatographic procedure for separating proteins from detergents 476 (1989) 345
- Correlation of protein retention times in reversed-phase chromatography with polypeptide chain length and hydrophobicity 476 (1989) 363
- HPLC of amino acids, peptides and proteins. LXXXIX. The influence of different displacer salts on the retention properties of proteins separated by gradient anion-exchange chromatography 476 (1989) 391
- Improved separation speed and efficiency for proteins, nucleic acids and viruses in asymmetrical flow field flow fractionation 476 (1989) 413
- Separation of two molecular forms of human estrogen receptor by hydrophobic interaction chromatography. Gradient optimization and tissue comparison 476 (1989) 455
- High-performance liquid chromatofocusing and column affinity chromatography of *in vitro* <sup>14</sup>C-glycated human serum albumin. Demonstration of a glycation-induced anionic heterogeneity 476 (1989) 467
- Comparison of ion-exchange HPLC columns for purification of Sendai virus integral membrane proteins 476 (1989) 477
- Reversed-phase LC of proteins with strong acids 476 (1989) 499
- Limitations of high-speed reversed-phase HPLC observed with integral membrane proteins 477 (1989) 131
- Separation by HPLC of the ferredoxin-thioredoxin system proteins 477 (1989) 305
- Mathematical modelling of the continuous affinity-recycle extraction purification technique 478 (1989) 1
- Experimental and theoretical dynamics of isoelectric focusing. III. Transient multi-peak approach to equilibrium of proteins in simple buffers 478 (1989) 39
- Minimizing adsorption of proteins on fused silica in capillary zone electrophoresis by the addition of alkali metal salts to the buffers 478 (1989) 63
- Optimization of size-exclusion separation of proteins on a Superose column 479 (1989) 159
- Hydrophobic interaction chromatography of proteins on Separon HEMA. I. The effect of an initial salt concentration on the separation of proteins 479 (1989) 327
- Capillary zone electrophoresis and isotachopheresis-MS of polypeptides and proteins based upon an electrospray ionization interface 480 (1989) 211
- GPC combined with capillary electrophoresis for microanalysis of proteins 480 (1989) 277
- Factors affecting free zone electrophoresis and isoelectric focusing in capillary electrophoresis 480 (1989) 311
- Performance of carbohydrate-modified fused-silica capillaries for the separation of proteins by zone electrophoresis 480 (1989) 339
- High-resolution two-dimensional electrophoresis of wheat proteins 480 (1989) 359
- Separation of collagens by capillary zone electrophoresis 480 (1989) 371
- Sensitive resolution of *Giardia lamblia* membrane antigens 480 (1989) 421
- High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. I. Coating: ferric oxyhydroxide with stoichiometrically bound phosphate 481 (1989) 175

- High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II. Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187
- Application of free flow electrophoresis to the preparative purification of basic proteins from an *E. coli* cell extract 481 (1989) 343
- Recovery of proteins and peptides with nanogram loads on non-porous packings 481 (1989) 391
- Separation of rat liver HSP70 and HSP71 by HPLC with a hydroxylapatite column 481 (1989) 403
- Role of association on protein adsorption isotherms.  $\beta$ -Lactoglobulin A adsorbed on a weakly hydrophobic surface 482 (1989) 1
- Chromatographic method for the preparation of apo-cellular retinol-binding protein and apo-cellular retinoic acid-binding protein from their holo-types 482 (1989) 107
- TSK-Toyopearl gels for the preparative separation of sterol carrier protein<sub>2</sub> from rat liver 482 (1989) 117
- Dye ligand chromatography and two-dimensional electrophoresis of complex protein extracts from mouse tissue 482 (1989) 125
- Ion-exchange chromatography of proteins. The effect of neutral polymers in the mobile phase 482 (1989) 133
- Determination of diffusion coefficients of proteins in beaded agarose by gel filtration 483 (1989) 221
- Determination of ion-exchange equilibrium parameters of amino acid and protein systems by an impulse response technique 483 (1989) 263
- Microheterogeneity of the growth-associated neuronal protein B-50 (GAP-43). Contribution of phosphorylation by protein kinase C 483 (1989) 301
- Preparative purification of functional bacteriorhodopsin by high performance SEC 483 (1989) 331
- High-performance hydrophobic interaction chromatography of proteins on a pellicular support based on hydrophilic resin 483 (1989) 401
- Displacement chromatography of biomolecules with large particle diameter systems 484 (1989) 225
- Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425
- Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91
- Peak tracking in HPLC based on normalized band areas. A ribosomal protein sample as an example 485 (1989) 569
- Separation of vitamin K-dependent coagulation factors on sulphated cellulose 487 (1989) 173
- Quantitation of hemoglobins Bart's, H, Portland-I, Portland-II and Constant Spring by anion-exchange HPLC 487 (1989) 265
- Bioaffinity chromatography: synergy between interactive chromatography and molecular recognition for the separation and analysis of macromolecules 488 (1989) 145
- Determination of sodium azide in the presence of proteins by HPLC 488 (1989) 506
- Application of analytical isotachopheresis in the study of platelet membrane proteins in patients with chronic myeloproliferative disorders 490 (1989) 53
- High-performance ion-exchange chromatography of myosin using a DEAE-5PW column 491 (1989) 61
- Peptide and protein hydrolysis by microwave irradiation 491 (1989) 424
- Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377
- Applications of preparative HPLC to the separation and purification of peptides and proteins (Review) 492 (1989) 431
- High-performance capillary electrophoresis in the biological sciences (Review) 492 (1989) 585
- Efficient HPLC system for protein purification 493 (1989) 27
- Purification of the pancreatic stone protein by HPLC 493 (1989) 164
- Simultaneous determination of L-homoserine and L-homoserine lactone by reversed-phase LC in acid hydrolysates of proteins after cyanogen bromide treatment 493 (1989) 380

Simple apparatus for capillary zone electrophoresis and its application to protein analysis 494 (1989) 87

Purification of the isolated  $\beta$ -chain of adult human haemoglobin from its post-translational modification 494 (1989) 310

Effect of stationary and mobile phases on hydrophobic interaction chromatography of proteins and peptides 496 (1989) 71

Application of HPLC methodology to the analysis of hemoglobins synthesized in erythroid progenitor cells 496 (1989) 83

Peculiar features of application of pH gradients formed in borate buffer with a polyhydroxy compound for separation of proteins in a free-flow electrophoretic apparatus 496 (1989) 121

Selective removal of  $\beta 2$ -microglobulin from human plasma by high-performance immunoaffinity chromatography 496 (1989) 194

Modelling single-component protein adsorption to the cation exchanger S Sepharose<sup>®</sup> FF 498 (1990) 113

Purification of core salt-extracted *E. coli* 30S ribosomal proteins by HPLC under non-denaturing conditions 498 (1990) 417

Determination of competitive adsorption isotherms for modeling large-scale separations in LC 499 (1990) 5

Thermodynamic model for electrostatic-interaction chromatography of proteins 499 (1990) 63

Reversed-phase chromatographic behavior of proteins in different unfolded states 499 (1990) 89

HPLC of amino acids, peptides and proteins. XCV. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes: comparison of thermodynamic parameters and the adsorption behaviour of proteins evaluated from bath and frontal analysis experiments 499 (1990) 103

Binary and ternary salt gradients in hydrophobic-interaction chromatography of proteins 499 (1990) 141

Automated evaluation of tryptic digest from recombinant human growth hormone using UV spectra and numeric peak information 499 (1990) 221

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

Micropellicular stationary phases for rapid protein analysis by HPLC 499 (1990) 267

Intrinsic fluorescence studies of the kinetic mechanism of unfolding of  $\alpha$ -lactalbumin on weakly hydrophobic chromatographic surfaces 500 (1990) 481

Reversed-phase HPLC of proteins and polypeptides on polystyrene-coated silica supports 500 (1990) 519

Differential interaction of peptides and protein surface structures with free metal ions and surface-immobilized metal ions 500 (1990) 531

HPLC of proteins on deformed non-porous agarose beads. Fast boronate affinity chromatography of haemoglobin at neutral pH 500 (1990) 543

Preparative purification of human monoclonal antibody isoforms in a multi-compartment electrolyser with Immobiline membranes 500 (1990) 681

### **Proteolytic enzymes**

Application of enzyme purification processes to proteolytic enzymes (Review) 473 (1989) 1

### **Proteolytic quenching**

Coupling of proteolytic quenching and HPLC to enzyme reactions. Application to bovine pancreatic ribonuclease 473 (1989) 281

### **Pro-urokinase**

Charge heterogeneity of recombinant pro-urokinase and urinary urokinase, as revealed by isoelectric focusing in immobilized pH gradients 470 (1989) 337

### **Proxiphylline**

HPLC determination of (*R*)- and (*S*)-proxiphylline in human plasma 491 (1989) 355

### **PS-255**

Preparation of silicone-coated 5–25- $\mu$ m I.D. fused-silica capillary columns for open-tubular LC 499 (1990) 345

### **PS-264**

Preparation of silicone-coated 5–25- $\mu$ m I.D. fused-silica capillary columns for open-tubular LC 499 (1990) 345

**Pseudoisoeugenyl-(2-methylbutyrate)**

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

**Pseudophases**

Micellar, inclusion and metal-complex enantioselective pseudophases in high-performance electromigration methods (Review) 452 (1988) 571

**Pseudouridine**

Simultaneous determination of pseudouridine and creatinine in untreated urine by ion-pair LC with diode-array UV detection 493 (1989) 35

**Psicose**

GC retention of carbohydrate trimethylsilyl ethers. III. Ketoheptoses 471 (1989) 205

**Psilocin**

HPLC determination of some psychotropic indole derivatives 464 (1989) 434

**Psilocybin**

HPLC determination of some psychotropic indole derivatives 464 (1989) 434

**Pterins**

Determination of pterins in urine by HPLC on C<sub>18</sub> columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

Rapid and sensitive method for HPLC analysis of pterins in biological fluids 459 (1988) 319

**PU-122**

Assay of a calcium antagonist (PU 122) in plasma by GC 497 (1989) 296

**Pullulan**

Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367

**Pullulanases**

Rapid HPLC separation of barley malt  $\alpha$ -amylase on Cyclobond columns 469 (1989) 361

**Pulsed amperometric detector**

High-performance anion-exchange chromatography of homogeneous D-gluco-oligosaccharides and -polysaccharides (polymerization degree  $\geq 50$ ) with pulsed amperometric detection 464 (1989) 365

**Pulsed-field gel electrophoresis**

Separation of large DNA molecules by pulsed-field gel electrophoresis. A review of the basic phenomenology 470 (1989) 377

**Pulsed field-gradient gel electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

**Purge-and-trap methods**

Determination of benzenes and naphthalenes in water by purge and trap isolation and capillary column chromatography 466 (1989) 271

Modified analytical technique for the determination of trace organics in water using dynamic headspace and GC-MS 467 (1989) 111

**Purine nucleotides**

Interrelationships between purine nucleotide degradation and radical formation during intestinal ischaemia and reperfusion: an application of ion-pair HPLC of nucleotides, nucleosides and nucleobases 491 (1989) 77

**Purines**

Resolution of the intermediates of *de novo* purine biosynthesis by ion-pair reversed-phase HPLC 455 (1988) 217

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

**Purines, methylated**

Measurement of methylated DNA purines by reversed-phase HPLC and fluorimetric detection 455 (1988) 364

**Putrescine**

Polymeric benzotriazole reagent for the off-line HPLC derivatization of polyamines and related nucleophiles in biological fluids 454 (1988) 169

Identification of nicotine biosynthetic intermediates in tobacco roots by LC-MS 474 (1989) 329

Assay of ornithine decarboxylase activity by reversed-phase HPLC 496 (1989) 101

**Pyrene**

Temperature-induced changes in reversed-phase chromatographic surfaces. C<sub>8</sub> and C<sub>9</sub> polymeric ligands 481 (1989) 135

**1-Pyrenyldiazomethane**

LC determination of biotin by using 1-pyrenyldiazomethane as a pre-column fluorescent labelling reagent 456 (1988) 421

**Pyrethroids**

Determination of pyrethroid residues on paddy rice by reversed-phase HPLC 461 (1989) 337

**Pyridine**

TLC behaviour of some styryl cyanine dyes derived from pyridine 481 (1989) 331

**Pyridine agarose gels**

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

**Pyridinium dichromate**

Identification of reaction products from the pyridinium dichromate derivatization of prostaglandins by HPLC and direct chemical ionization MS 477 (1989) 345

**Pyridoxal**

Analysis of vitamin B<sub>6</sub> vitamers in human tissue by cation-exchange HPLC 491 (1989) 226

**Pyridoxamine**

Analysis of vitamin B<sub>6</sub> vitamers in human tissue by cation-exchange HPLC 491 (1989) 226

**Pyridoxic acid**

Analysis of vitamin B<sub>6</sub> vitamers in human tissue by cation-exchange HPLC 491 (1989) 226

**Pyridoxine**

Analysis of vitamin B<sub>6</sub> vitamers in human tissue by cation-exchange HPLC 491 (1989) 226

**4(2-Pyridylazo)resorcinolato (par) chelates**

Separation of 4-(2-pyridylazo)resorcinolato metal chelates by micellar electrokinetic capillary chromatography 469 (1989) 175

**Pyrimethamine**

Simultaneous determination of pyrimethamine and mefloquine in human plasma by HPLC with UV detection 494 (1989) 219

**Pyrimidines**

Rapid and sensitive method for the determination of 5-fluorocytosine in human plasma by ion-pair HPLC 487 (1989) 183

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

**1-(2-Pyrimidinyl)piperazine**

Determination of buspirone and 1-(2-pyrimidinyl)piperazine in plasma samples by HPLC 490 (1989) 470

**Pyrolysis**

Increasing the reliability of the identification of polymers by pyrolysis GC 454 (1988) 367

Modified column system for pyrolysis capillary GC 462 (1989) 376

Pyrolysis GLC of N,N-dimethylalkylamine N-oxides and their mixtures 466 (1989) 347

Analysis of *in situ* methylated microbial fatty acid constituents by Curie-point pyrolysis-GC-MS 468 (1989) 181

**Pyrolysis products**

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

**Pyrophosphate compounds**

Identification of tabun impurities by combined capillary column GC-MS 465 (1989) 271

**Pyrroles**

Characterisation of products formed by condensations of primary amines with polygodial, and their scope for enantiomer analyses 468 (1989) 201

Chromatographic analysis, isolation and partial characterization of two photocatalysed reaction products of haem and quinone 490 (1989) 311

**Pyrrolidonecarboxylic acid**

HPLC determination of metabolic products for fermentation control of mammalian cell culture: analysis of carbohydrates, organic acids and orthophosphate using refractive index and UV detectors 497 (1989) 59

**Pyrrolizidine alkaloids**

Capillary GC-Fourier transform IR spectroscopy of pyrrolizidine alkaloids of *Senecio inaequidens* DC 473 (1989) 161

**Pyrrolizidines**

Comparison of capillary GC with <sup>1</sup>H and <sup>13</sup>C nuclear magnetic resonance spectroscopy for the quantitation of pyrrolizidine alkaloids from *Senecio vernalis* 462 (1989) 387

**Pyroloquinoline quinone**

Practical use of an optimization strategy in reversed-phase HPLC for the separation of a limited subset of components in a reaction mixture 464 (1989) 225

HPLC determination of pyroloquinoline quinone with electrochemical detection and its application to bacterial samples 483 (1989) 448

**Pyruvate dehydrogenase**

Determination of lipoyllysine derived from enzymes by LC 490 (1989) 33

**Pyruvate esters**

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

**Q****Quadrol**

Resolution of diastereomers of N,N,N',N'-tetrakis(2-hydroxypropyl)ethylenediamine (Quadrol) by reversed-phase HPLC 455 (1988) 183

**Quaternary phosphonium resins, low-capacity**

Low-capacity quaternary phosphonium resins for anion chromatography 479 (1989) 401

**Quinamine**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**Quinethazone**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

**Quinidine**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**Quinine**

Reversed-phase HPLC separation of some indole and quinoline alkaloids from *Cinchona* 479 (1989) 39

**8-Quinolinol-bonded silica**

On-line preconcentration and elution of trace metals by ion chromatography 482 (1989) 335

**8-Quinolinol silica gel**

LC separation of several classes of acidic and basic aromatic compounds on silica-bonded 8-quinolinol stationary phases 465 (1989) 249

**Quinones**

Chemical changes of organic compounds in chlorinated water. XVI. GC-MS studies of

reactions of tricyclic aromatic hydrocarbons with hypochlorite in dilute aqueous solution 466 (1989) 233

Chromatographic analysis, isolation and partial characterization of two photocatalysed reaction products of haem and quinone 490 (1989) 311

**Quinonoid dihydrobiopterin**

Determination of quinonoid dihydrobiopterin by HPLC and electrochemical detection 494 (1989) 77

**Quinoxalinols**

Separation of  $\alpha$ -keto acids by capillary SFC as their quinoxalinol derivatives 452 (1988) 623

**R****RA 642**

HPLC assay for RA 642, a compound with cardiovascular effect, in human and rabbit serum 491 (1989) 513

**Racemase**

Confirming chiral HPLC separations with stereospecific enzymes 468 (1989) 359

**Racemization test**

HPLC improvement of the Young racemization test 477 (1989) 454

**Radioactivity monitor**

Method for radio-capillary GC employing a modified oxidation-reduction train and flow-through detector 500 (1990) 349

**Radiochromatography**

Highly sensitive on-line radioassay of HPLC effluents 468 (1989) 279

**Radio-gas chromatography**

Radio-GC (Review) 492 (1989) 137

**Radioimmunoassay**

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

**Radiolabeled pharmaceuticals**

Purification of radiolabeled pharmaceuticals 484 (1989) 347

**Radiolytic synthesis**

Radiolytic synthesis of high-molecular-weight alkanes for chromatographic characterization and identification purposes 475 (1989) 247

**Radiometric detector**

On-column radiometric detector for capillary isotachopheresis and its use in the analysis of  $^{14}\text{C}$ -labelled constituents 470 (1989) 139

**Radionuclides**

Electromigration of carrier-free radionuclides. IX. Protolysis of [ $^{131}\text{I}$ ]iodate in aqueous solutions 457 (1988) 362

**Ramrod**

Rapid determination of seven herbicides in water or isoctane using  $\text{C}_{18}$  and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

**Random noise**

Effect of random noise and peak asymmetry on the precision and accuracy of measurements of the column efficiency in chromatography 457 (1988) 1

**Ranitidine**

Simultaneous determination of ranitidine and its metabolites in human plasma and urine by HPLC 490 (1989) 175

**Ranitidine oxides**

Simultaneous determination of ranitidine and its metabolites in human plasma and urine by HPLC 490 (1989) 175

**Reaction kinetics**

Theoretical aspects of the application of head-space analysis to the investigation of reaction kinetics in solutions 454 (1988) 327

**C.I. Reactive Blue 2 analogues**

Design and applications of biomimetic anthraquinone dyes. II. The interaction of C.I. Reactive Blue 2 analogues bearing terminal ring modifications with horse liver alcohol dehydrogenase 455 (1988) 201

Design and applications of biomimetic anthraquinone dyes. Purification of calf intestinal alkaline phosphatase with immobilised terminal ring analogues of C.I. Reactive Blue 2 473 (1989) 227

**Rebaudiosides**

Simultaneous determination of stevioside, rebaudioside A and C and dulcoside A in foods by HPLC 474 (1989) 447

**Recovery**

Effect of mobile phase flow-rate on the recoveries and production rates in overloaded elution chromatography. A theoretical study 452 (1988) 209

Recovery of proteins and peptides with nanogram loads on non-porous packings 481 (1989) 391

**Recycle gas chromatography**

Practical aspects of recycle GC with capillary columns 477 (1989) 59

**Recycle ion chromatography**

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

**Recycling free fluid isotachopheresis**

Automated recycling free fluid isotachopheresis. Principle, instrumentation and first results 457 (1988) 137

**Recycling isoelectric focusing**

Recycling isoelectric focusing and isotachopheresis 470 (1989) 369

**Redox reactions**

Characterization of solution-phase and gas-phase reactions in on-line electrochemistry-thermospray tandem MS 474 (1989) 231

**Reduced chromatogram**

Contemporary LC column design 468 (1989) 99

**Reference methods**

Proposed primary reference methods for the determination of some commercially important chiral aryloxypropionate herbicides in both free acid and ester forms 483 (1989) 349

**Refractive index artifacts**

Experimental and theoretical model of refractive index artifacts in absorbance detection 459 (1988) 119

**Refractive index gradient detector**

Microbore LC and refractive index gradient detection of low-nanogram and low-ppm quantities of carbohydrates 464 (1989) 83

**Relative retention**

Relative retention and column selectivity for the common polar bonded-phase columns. The diol-silica column in normal-phase HPLC 498 (1990) 55

**Removable probe interface**

Design and industrial applications of a removable probe interface for direct capillary SFC-MS 474 (1989) 69

**Renin**

Determination of renin activity in human-plasma by column-switching HPLC with fluorescence detection 490 (1989) 43

**Repeller effects**

Repeller effects in discharge ionization in LC and SFC-MS using a thermospray interface. II. Changes in some analyte spectra 478 (1989) 325

**Repeller position**

Effects of repeller position and voltage in thermospray MS 474 (1989) 139

**Repeller voltage**

Repeller effects in discharge ionization in combined LC or SFC-MS using a thermospray interface. I. Changes in the reagent gas spectrum 474 (1989) 113

Effects of repeller position and voltage in thermospray MS 474 (1989) 139

**Replenishment system**

Performance of an automated injection and replenishment system for capillary electrophoresis 480 (1989) 129

**Residue analysis, forensic**

Molecular spectroscopy in forensic residue analysis: a general overview of reliability, applicability and cost effectiveness 489 (1989) 3

**Resin acids**

GC and MS determination of some resin and fatty acids in pulpmill effluents as their pentafluorobenzyl ester derivatives 498 (1990) 367

**Resolution**

Correction of the resolution function for non-ideal peaks 458 (1988) 355

Design of optimized HPLC gradients for the separation of either small or large molecules. II. Background and theory 459 (1988) 25

Effects of peak tailing on computer optimisation procedures for HPLC. II. An optimisation routine for tailed peaks 459 (1988) 79

Selection of HPLC methods in pharmaceutical analysis. III. Method validation 464 (1989) 265

Selection of HPLC methods in pharmaceutical analysis. IV. Selection of most applicable separation system 464 (1989) 279

Effect of electrolyte and sample concentration on the relationship between sensitivity and resolution in capillary zone electrophoresis using conductivity detection 480 (1989) 285

Factors influencing the performance of peptide mapping by reversed-phase HPLC 499 (1990) 125

**Response factor**

Concept of response factor in capillary isotachopheresis. Determination of drugs in solution for intravenous injection 470 (1989) 105

Determination of the specific zone resistance and calculation of the response factor in isotachopheresis 470 (1989) 277

**Response functions**

Computer-assisted optimization with NEMROD software 485 (1989) 433

**Response surface mapping**

Development and optimisation of an HPLC assay for tioconazole and its potential impurities. I. Selection of separation conditions 464 (1989) 27

**Response surface modeling**

Computer-assisted optimization of an HPLC separation for chlorpromazine and thirteen metabolites 485 (1989) 585

Reversed-phase LC retention and selectivity surfaces. II. Deoxyribonucleosides 485 (1989) 617

**Restrictor temperature programming**

Linear velocity control in capillary SFC by restrictor temperature programming 465 (1989) 157

**Retention**

Sample size and retention values in HPLC of biological and synthetic polymers 458 (1988) 79

**Retention gap techniques**

Introduction of water and water-containing solvent mixtures in capillary GC. I. Failure to produce water-wettable precolumns (retention gaps) 473 (1989) 381

Introduction of water and water-containing solvent mixtures in capillary GC. II. Wettability of precolumns by mixtures of organic solvents and water; retention gap techniques 473 (1989) 391

### Retention indices

Dispersion and selectivity indices of alkyl and alkenyl benzenes 452 (1988) 31

Automated analysis of various compounds with a wide range of boiling points by capillary GC based on retention indices 454 (1988) 109

Nitroalkanes as a multidetector retention index scale for drug identification in GC 454 (1988) 345

Identification of alkylbenzenes up to C<sub>12</sub> by capillary GC and combined GC-MS. I. OV-101 as stationary phase 455 (1988) 301

Dispersion and selectivity indices in GC. III. Alkyl, ω-chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

Analysis and molar mass distribution of polyoxyethylene 4-alkylphenylamines 462 (1989) 39

Precalculation of GC retention indices of linear 1-halogenoalkanes 463 (1989) 159

Optimization of selectivity by tuning column temperatures for series-coupled capillary columns in dual-oven GC systems 463 (1989) 243

Relationships between structure and retention index for N-substituted amides of aliphatic acids on a non-polar column 463 (1989) 297

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

Non-linearity of the plot of log (adjusted retention time) versus carbon number for n-alkanes in series-coupled GC columns 471 (1989) 245

Interface adsorption and reproducibility of retention indices in glass capillary columns with dimethylpolysiloxane stationary phases cross-linked by γ-irradiation 471 (1989) 251

Thirtieth anniversary of the retention index according to Kováts in GLC (Review) 472 (1989) 1

Recent developments in the GC retention index scheme (Review) 472 (1989) 93

Interactive retention index database for compound identification in temperature-programmed capillary GC 472 (1989) 129

Some factors affecting the precision in the determination of retention indices on polar capillary columns for GC 473 (1989) 37

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. I. Monosubstituted aromatic compounds 475 (1989) 57

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. II. Long term reproducibility of capacity factors and retention indices 475 (1989) 75

Identification of alkylbenzenes up to C<sub>12</sub> by capillary GC and GC-MS. II. Retention indices on OV-101 columns and retention-molecular structure correlations 475 (1989) 113

GLC analyses. L. Retention, dispersion and selectivity indices of polychlorinated dibenzo-*p*-dioxins and dibenzofurans 477 (1989) 327

Increments of the arithmetic retention index for polyoxyethylene glycol monoalkyl ethers and their degradation products 477 (1989) 407

GC retention indices of tear gases on capillary columns 479 (1989) 165

Correlation for Kováts retention index of C<sub>9</sub>-C<sub>26</sub> monoalkyl and polymethyl alkanes and alkenes 481 (1989) 1

SFC of barbiturates 481 (1989) 63

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. III. Monosubstituted aliphatic compounds 481 (1989) 71

Gradient HPLC using alkylphenone retention indices of insecticidal extracts of *Penicillium* strains 483 (1989) 153

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. V. CRIPES (chromatographic retention index prediction expert system) 485 (1989) 325

Programmed-temperature retention indices. A survey of calculation methods 498 (1990) 1

Relationships between GC retention indices and molecular structure of aromatic hydrocarbons 498 (1990) 357

Computerized capillary GC analysis of hydrocarbon mixtures in workplace air 498 (1990) 381

Organic solutes in paraffin solvents. Influence of the size of the solvent molecule on solution data 500 (1990) 139

GLC in qualitative analysis. XVIII. Study of the dependence of the retention behaviour of polyoxyethylene glycol columns on the nature of the support and phase loading 500 (1990) 355

### Retention mapping

Method development in HPLC using retention mapping and experimental design techniques (Review) 485 (1989) 51

### Retention mechanisms

Comparison of retention mechanisms of homologous series and triglycerides in non-aqueous reversed-phase LC 452 (1988) 157

Dual retention mechanism on commercial acetylcellulose as a stationary phase in planar chromatography 454 (1988) 352

Retention in reversed-phase LC: solvatochromic investigation of homologous alcohol-water binary mobile phases 457 (1988) 85

Effect of sample size on retention in packed column SFC. A method for characterizing stationary phase homogeneity 459 (1988) 201

Retention mechanisms on metallic stationary phases 461 (1989) 139

Retention mechanisms in reversed-phase chromatography. Stationary phase bonding density and solute selectivity 461 (1989) 193

Retention behaviour of large polycyclic aromatic hydrocarbons in reversed-phase LC on a polymeric octadecylsilica stationary phase 461 (1989) 209

Retention behaviour of  $\beta$ -carbolines in normal-phase chromatography. Silica and amino phases in HPLC and TLC 471 (1989) 407

Effect of coverage density on the retention mechanism in reversed-phase HPLC 499 (1990) 305

Mechanism of retention in HPLC on porous graphitic carbon as revealed by principal component analysis of structural descriptors of solutes 499 (1990) 333

Retention characteristics of several compound classes in reversed-phase LC with  $\beta$ -cyclodextrin as a mobile phase modifier 499 (1990) 395

Reversed-phase LC studies on non-ionic surfactants and related solutes 499 (1990) 469

### Retention models

Interplay of hydrophobic and electrostatic interactions in biopolymer chromatography. Effect of salts on the retention of proteins 469 (1989) 3

Study of partition models in reversed-phase LC based on measured mobile phase solute activity coefficients 499 (1990) 373

Modelling of cation retention in ion chromatography using fixed-site and dynamically coated ion-exchange columns 500 (1990) 301

### Retention prediction

Effect of peptide chain length on peptide retention behaviour in reversed-phase chromatography 458 (1988) 193

Computer-assisted retention prediction system for oligonucleotides in gradient anion-exchange chromatography 458 (1988) 385

Algorithms to correct gradient scan and transfer rule predictions of isocratic retention in reversed-phase LC 463 (1989) 1

Calculation of programmed temperature GC characteristics from isothermal data. II. Predicted retention times and elution temperatures 463 (1989) 271

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. I. Monosubstituted aromatic compounds 475 (1989) 57

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. II. Long term reproducibility of capacity factors and retention indices 475 (1989) 75

Correlation of protein retention times in reversed-phase chromatography with polypeptide chain length and hydrophobicity 476 (1989) 363

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. III. Monosubstituted aliphatic compounds 481 (1989) 71

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. IV. Branched and unsaturated alkylbenzenes 481 (1989) 85

Ion chromatographic elution behaviour and prediction of the retention of inorganic monovalent anions using a phosphate eluent 481 (1989) 315

Prediction of retention in GLC using the UNIFAC group contribution method. I. Low-molecular-weight stationary phases 483 (1989) 1

Computer-assisted retention prediction for HPLC in the ion-exchange mode (Review) 485 (1989) 143

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. V. CRIPES (chromatographic retention index prediction expert system) 485 (1989) 325

Prediction of retention of metabolites in HPLC by an expert system approach 485 (1989) 349

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

Prediction of retention times in ion-exchange chromatography 485 (1989) 533

Optimization of gradients in anion-exchange separations of oligonucleotides using computer-assisted retention prediction and an HPLC simulation system 485 (1989) 647

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

Prediction of retention times of hydroxylated triacylglycerols in reversed-phase HPLC 498 (1990) 410

Possibilities of determination and prediction of solute capacity factors in reversed-phase systems with pure water as the mobile phase 500 (1990) 281

### Retention processes, secondary

Performance of polymer-coated silica C<sub>18</sub> packing materials prepared from high-purity silica gel. The suppression of undesirable secondary retention processes 481 (1989) 147

### Retention reproducibility

Retention reproducibility of basic drugs in HPLC on a silica column with a methanol-ammonium nitrate eluent. Batch-to-batch reproducibility of the stationary phase 455 (1988) 77

Problems with the reproducibility of retention data on capillary columns with hydrocarbon C<sub>8</sub>7 as the stationary phase 454 (1988) 65

### Retention time

Calculation of programmed temperature GC characteristics from isothermal data. II. Predicted retention times and elution temperatures 463 (1989) 271

Prediction of retention times of hydroxylated triacylglycerols in reversed-phase HPLC 498 (1990) 410

### Retention time normalisation

Normalisation of HPLC peak retention times for computerised comparison of wheat prolamin chromatograms 469 (1989) 127

### Retention volumes

Prediction of retention in GLC using the UNIFAC group contribution method. I. Low-molecular-weight stationary phases 483 (1989) 1

### Retinoic acid

Separation and identification of retinoic acid photoisomers 481 (1989) 255

### Retinoids

Determination of highly protein bound drugs in plasma using HPLC and column switching, exemplified by the retinoids 456 (1988) 33

Separation of carotenes on cyclodextrin-bonded phases 499 (1990) 627

### Retinol-binding protein

Chromatographic method for the preparation of apo-cellular retinol-binding protein and apo-cellular retinoic acid-binding protein from their holo-types 482 (1989) 107

### Retronecine

Capillary GC-Fourier transform IR spectroscopy of pyrrolizidine alkaloids of *Senecio inaequidens* DC 473 (1989) 161

### Reversed-phase chromatography

On some nomenclature in chromatography 471 (1989) 447

### Reversed-polarity chromatography

On some nomenclature in chromatography 471 (1989) 447

### R<sub>F</sub> values

Effect of the central ion of octahedral transition metal complexes on their TLC R<sub>F</sub> values 466 (1989) 227

### RGH-0205

Determination of impurity profiles in drugs and related materials. II. Detection and quantification of a diastereomeric impurity in the peptide RGH-0205 (Arg-Lys-Asp) 452 (1988) 317

### Rhodamine B

HPLC determination of rhodamine B in rabbit and human plasma 491 (1989) 468

### Ribitol

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

**Ribonuclease**

Coupling of proteolytic quenching and HPLC to enzyme reactions. Application to bovine pancreatic ribonuclease 473 (1989) 281

Characterization of reversed-phase HPLC stationary phases using ribonuclease A 498 (1990) 281

**Ribonucleosides**

On-line sample processing and analysis of diol compounds in biological fluids 456 (1988) 93

Ribonucleoside analysis by reversed-phase HPLC 471 (1989) 3

**Ribonucleotides**

Isocratic reversed-phase HPLC of ribonucleotides, deoxynucleotides, cyclic nucleotides and deoxycyclic nucleotides 461 (1989) 259

**Ribosomal proteins**

Peak tracking in HPLC based on normalized band areas. A ribosomal protein sample as an example 485 (1989) 569

Purification of core salt-extracted *E. coli* 30S ribosomal proteins by HPLC under non-denaturing conditions 498 (1990) 417

**Rifampicin**

LC-MS studies on rifampicin antibiotics 474 (1989) 317

**Rifamycins**

LC-MS studies on rifamycin antibiotics 474 (1989) 317

Identification and quantitation of rifamycins by reversed-phase HPLC 477 (1989) 463

**Rifapentine**

LC-MS studies on rifamycin antibiotics 474 (1989) 317

**Rimantadine**

Determination of rimantadine and its hydroxylated metabolites in human plasma and urine 497 (1989) 147

 **$R_M$  values**

Study of the lipophilic character of xanthine and adenosine derivatives. I.  $R_M$  and  $\log P$  values 498 (1990) 179

**RNA**

Separation of RNA and DNA by histone affinity HPLC 455 (1988) 401

High-performance hydroxyapatite chromatography of nucleic acids 467 (1989) 299

Quantitation of 5-fluorouracil incorporation into RNA by HPLC without the use of radioactive precursors 496 (1989) 450

**tRNA**

Micropreparative separation of transfer ribonucleic acids by HPLC 463 (1989) 409

Microcolumn LC of small nucleic acid constituents 475 (1989) 13

High-performance adsorption chromatography of transfer ribonucleic acids and proteins on 2- $\mu$ m spherical beads of hydroxyapatite. Influence of sodium chloride and magnesium ions on the resolution 499 (1990) 153

**Robotics**

Automated sequential trace enrichment of dialysates and robotics. A technique for the preparation of biological samples prior to HPLC 456 (1988) 53

Simplified procedures for the determination of fenoldopam and its metabolites in human plasma by HPLC with electrochemical detection: comparison of manual and robotic sample preparation methods 487 (1989) 385

Robotics in biomedical chromatography and electrophoresis (Review) 492 (1989) 85

**Rotating face-seal**

Centrifugal counter-current partition chromatography with helical coil rotor. Simplified counter-current chromatography with a rotating face-seal 483 (1989) 359

**Rotating gel electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

**Roxithromycin**

Micro-method for the determination of roxithromycin in human plasma and urine by HPLC using electrochemical detection 490 (1989) 115

**RPC-5-like resins**

Preparation of several types of RPC-5-like resins and their use for the separation of oligonucleotides and mononucleotides by HPLC 481 (1989) 201

**RS-93522-004**

Separation of the four optical isomers of a dihydropyridine calcium channel antagonist 478 (1989) 169

**Rubidium**

Determination of rubidium, sodium, calcium and thiamine in a pharmaceutical preparation by capillary isotachopheresis 472 (1989) 441

**Rule-based evaluation strategy**

Rule-based approach for the determination of solute types in unknown sample mixtures as a first step of optimization parameter selection in reversed-phase ion-pair chromatography 485 (1989) 383

**Run time**

Preparative HPLC under isocratic conditions. II. The role of column variables 483 (1989) 85

**Ruthenium clusters**

HPLC of triangular ruthenium clusters containing bidentate group-15 donor ligands 483 (1989) 443

**Rutin**

Model compound sorption by the resins XAD-2, XAD-8 and diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

**S****Saccharides**

Evaluation of the liquid chromatographic separation of monosaccharides, disaccharides, trisaccharides, tetrasaccharides, deoxysaccharides and sugar alcohols with stable cyclodextrin bonded phase columns 462 (1989) 219

Post-column co-immobilized galactose oxidase/peroxidase reactor for fluorometric detection of saccharides in an LC system 463 (1989) 183

**Saccharin**

Simultaneous determination of nine food additives using HPLC 457 (1988) 333

Analysis of saccharin, acesulfame-K and sodium cyclamate by high-performance ion chromatography 463 (1989) 463

Advances in the use of computerized GC-MS and HPLC with rapid scanning detection for clinical diagnosis 468 (1989) 43

**Safrole**

Separation of non-polar compounds by droplet counter-current chromatography 478 (1989) 433

**Salicyl acyl glucuronide**

HPLC method for the determination of salicylic acid and its metabolites in urine by direct injection 493 (1989) 93

**Salicylamide**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**Salicylhydroxamic acid**

HPLC method for the determination of salicylic acid and its metabolites in urine by direct injection 493 (1989) 93

**Salicylic acid**

HPLC evaluation of salicyloyl pyridinol and systemic metabolites in biological samples 459 (1988) 325

Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

Direct serum injection in micellar liquid chromatography. Recovery of serum proteins and assay of hydrophilic drugs 488 (1989) 341

HPLC method for the determination of salicylic acid and its metabolites in urine by direct injection 493 (1989) 93

TLC of some metals on silica gel layers impregnated with salicylic, syringic and *o*-phthalic acid 498 (1990) 428

**Salicyloyl pyridinol**

HPLC evaluation of salicyloyl pyridinol and systemic metabolites in biological samples 459 (1988) 325

**Salicyl phenolic glucuronide**

HPLC method for the determination of salicylic acid and its metabolites in urine by direct injection 493 (1989) 93

**Salicyluric acid**

HPLC method for the determination of salicylic acid and its metabolites in urine by direct injection 493 (1989) 93

**Salsolinol**

Determination of salsolinol by ion-exchange chromatography with glycylglycine as the post-derivatizing agent 459 (1988) 245

Determination of the enantiomeric composition of salsolinol in biological samples by HPLC with electrochemical detection 495 (1989) 205

**Salt-binding effects**

Salt-binding effects in hydrophobic-interaction chromatography 458 (1988) 57

**Salt concentration**

Hydrophobic interaction chromatography of proteins on Separon HEMA. I. The effect of an initial salt concentration on the separation of proteins 479 (1989) 327

**Salt gradients**

High-performance ion-exchange chromatography of oligoribonucleotides using linear and hyperbolic salt gradients 465 (1989) 325

Binary and ternary salt gradients in hydrophobic-interaction chromatography of proteins 499 (1990) 141

**Salting-out extraction**

Determination of cadralazine in human whole blood using reversed-phase HPLC: utilizing a salting-out extraction procedure 489 (1989) 345

**Salts**

Interplay of hydrophobic and electrostatic interactions in biopolymer chromatography. Effect of salts on the retention of proteins 469 (1989) 3

**Salutaridine**

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

**Sample introduction, axial**

Evaluation of direct axial sample introduction for ion mobility detection after capillary GC 479 (1989) 221

**Sample matrix**

Effect of eluent impurities and sample matrix on quantitative analysis by ion chromatography 482 (1989) 393

**Sample peaks**

Theoretical considerations on the appearance of sample and system peaks in ion chromatography with photometric detection 482 (1989) 145

**Sample preparation**

Group fractionation of free and conjugated steroids by means of disposable silica-based anion-exchange columns 456 (1988) 175

HPLC determination of mitoxantrone in plasma utilizing non-bonded silica gel for solid-phase isolation to reduce adsorptive losses on glass during sample preparation 465 (1989) 75

Automated zone-electrophoretic sample treatment for the analysis of biological samples by HPLC 465 (1989) 315

Sample preparation by means of a supported liquid membrane for the determination of chlorophenoxyalkanoic acids 471 (1989) 151

Manual automated enrichment procedures for biological samples using lipophilic gels 488 (1989) 87

Sample preparation for biomedical analysis (Review) 492 (1989) 3

On-line combination of dialysis and column-switching LC as a fully automated sample preparation technique for biological samples. Determination of nitrofurans residues in edible products 500 (1990) 453

**Sample preparation, automation**

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

Robotics in biomedical chromatography and electrophoresis (Review) 492 (1989) 85

**Sample processing, on-line**

On-line sample processing and analysis of diol compounds in biological fluids 456 (1988) 93

**Sample self-displacement**

Experimental utilization of a displacement effect for the optimization of the separation of a two-component mixture 484 (1989) 153

**Sample size**

Sample size and retention values in HPLC of biological and synthetic polymers 458 (1988) 79

Effect of sample size on retention in packed column SFC. A method for characterizing stationary phase homogeneity 459 (1988) 201

Preparative HPLC under gradient conditions. I. Band broadening in gradient elution as a function of sample size 484 (1989) 409

**Sample-solvent interactions**

Inaccuracies due to sample-solvent interactions in HPLC 465 (1989) 201

**Sampling**

Capillary zone electrophoresis. Quantitative study of the effects of some dispersive processes on the separation efficiency 452 (1988) 601

**Sampling device**

Simple sampling device for capillary isotachopheresis and capillary zone electrophoresis 452 (1988) 615

**Sampling systems**

Determination of sensorial active trace compounds by multi-dimensional GC combined with different enrichment techniques 471 (1989) 173

**Sapogenins**

Comparison of the chromatographic properties of sterols, select additional steroids and triterpenoids: gravity-flow column LC, TLC, GLC and HPLC 452 (1988) 377

**Saponification**

Sample preparation for biomedical analysis (Review) 492 (1989) 3

**Saponins**

HPLC analysis of naturally occurring glycosides and saponins 466 (1989) 390

**Saterinone**

Determination of saterinone in plasma by HPLC 497 (1989) 342

**Schisanhenol**

Application of analytical high-speed counter-current chromatography to the isolation of bioactive natural products 477 (1989) 434

**Schisanhenol acetate**

Application of analytical high-speed counter-current chromatography to the isolation of bioactive natural products 477 (1989) 434

**Scoparone**

Application of HPLC analysis of scoparone and its metabolites in the study of cytochrome P 450 differentiation in vitro 487 (1989) 489

**Scopolamine**

Reversed-phase ion-pair HPLC separation and determination of tropane alkaloids in Chinese solanaceous plants 481 (1989) 428

**Scopoletin**

Application of HPLC analysis of scoparone and its metabolites in the study of cytochrome P 450 differentiation in vitro 487 (1989) 489

**SE-54**

Effect of repeated cross-linking of SE-54 stationary phase film on the chromatographic properties of capillary columns 471 (1989) 237

**Sedimentation field-flow fractionation**

Resolution of colloidal latex aggregates by sedimentation field-flow fractionation 455 (1988) 1

Sedimentation field-flow fractionation of colloidal metal hydrosols 461 (1989) 103

**Sedimentation-flotation focusing field-flow fractionation**

Retention in sedimentation-flotation focusing field-flow fractionation using a step density gradient 452 (1988) 549

**Sedimentation focusing field-flow fractionation**

Sedimentation focusing field-flow fractionation in channels of triangular cross-section 454 (1988) 335

**Segmented-stream reactors**

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

**Selected-ion current profiles**

Comparison of manual and exponentially modified gaussian based methods for the determination of the peak heights of selected-ion current profiles acquired in a mass spectral drug assay 472 (1989) 250

**Selectivity**

Selection of HPLC methods in pharmaceutical analysis. I. Optimization for selectivity in reversed-phase chromatography 454 (1988) 83

Selection of HPLC methods in pharmaceutical analysis. II. Optimization for selectivity in normal-phase systems 454 (1988) 95

Retention mechanisms in reversed-phase chromatography. Stationary phase bonding density and solute selectivity 461 (1989) 193

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

Optimization of selectivity by tuning column temperatures for series-coupled capillary columns in dual-oven GC systems 463 (1989) 243

Practical use of an optimization strategy in reversed-phase HPLC for the separation of a limited subset of components in a reaction mixture 464 (1989) 225

Selection of HPLC methods in pharmaceutical analysis. III. Method validation 464 (1989) 265

Selection of HPLC methods in pharmaceutical analysis. IV. Selection of most applicable separation system 464 (1989) 279

Comparison of the selectivity of cyano-bonded silica stationary phases in reversed-phase LC 464 (1989) 297

Solvent strength and selectivity properties of supercritical carbon dioxide relative to liquid hexane 465 (1989) 177

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

Comparison of solvent models for characterizing stationary phase selectivity in GC 471 (1989) 91

Comparison of LC selectivity for polycyclic aromatic hydrocarbons on cyclodextrin and C<sub>18</sub> bonded phases 477 (1989) 277

Rule-based approach for the determination of solute types in unknown sample mixtures as a first step of optimization parameter selection in reversed-phase ion-pair chromatography 485 (1989) 383

Rationalization of the selection of the type of the organic modifier(s) for selectivity optimization in reversed-phase ion-pair chromatography 485 (1989) 403

Relative retention and column selectivity for the common polar bonded-phase columns. The diol-silica column in normal-phase HPLC 498 (1990) 55

Optimization of selectivity, detectability and analysis time in HPLC 499 (1990) 489

Experimental protocol for the assessment of solvent strength and selectivity of liquid phases used in GC 500 (1990) 329

### **Selectivity indices**

Dispersion and selectivity indices of alkyl and alkenyl benzenes 452 (1988) 31

Dispersion and selectivity indices in GC. III. Alkyl,  $\omega$ -chloroethyl and alkenyl benzoate and chlorobenzoate esters 462 (1989) 31

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

GLC analyses. L. Retention, dispersion and selectivity indices of polychlorinated dibenzo-*p*-dioxins and dibenzofurans 477 (1989) 327

### **Selenite**

Determination of <sup>75</sup>Se-labelled selenite and metabolites in plasma and urine by HPLC with on-line radioactivity detection 496 (1989) 111

### **Selenium**

Determination of selenium in drugs by oxygen flask combustion and ion chromatography 463 (1989) 147

### **Semiconductor radioisotope detector**

Semiconductor radioisotope detector for capillary electrophoresis 480 (1989) 259

### **Sendai virus proteins**

Comparison of non-ionic detergents for extraction and ion-exchange HPLC of Sendai virus integral membrane proteins 476 (1989) 319

Comparison of ion-exchange HPLC columns for purification of Sendai virus integral membrane proteins 476 (1989) 477

### **Senecionine**

Capillary GC-Fourier transform IR spectroscopy of pyrrolizidine alkaloids of *Senecio inaequidens* DC 473 (1989) 161

### **Sensitivity**

Effect of electrolyte and sample concentration on the relationship between sensitivity and resolution in capillary zone electrophoresis using conductivity detection 480 (1989) 285

Factors influencing the performance of peptide mapping by reversed-phase HPLC 499 (1990) 125

### **Sensor, dual-channel**

Photometric and electron-capture modes in a dual-channel sensor 457 (1988) 149

### **Sensorial active compounds**

Determination of sensorial active trace compounds by multi-dimensional GC combined with different enrichment techniques 471 (1989) 173

**Sensors**

High-speed analytical sensor for in-line monitoring of dissolved analytes flowing in a tube employing a combination of limited diffusion, laminar flow and plug solvent injections 481 (1989) 111

**Separation system selection**

Selection of HPLC methods in pharmaceutical analysis. IV. Selection of most applicable separation system 464 (1989) 279

**Separon HEMA 1000**

Hydrophobic interaction chromatography of proteins on Separon HEMA. I. The effect of an initial salt concentration on the separation of proteins 479 (1989) 327

**Sephacryl HR**

Properties, in theory and practice, of novel gel filtration media for standard LC 476 (1989) 329

**Sephacryl S-200 HR**

Elution behaviour of some proteins on fresh, acid- or base-treated Sephacryl S-200 HR 457 (1988) 205

**Sephadex G-15**

Adsorbability to and desorbability from Sephadex G-15 of sodium and phosphate ions 475 (1989) 412

**Sepharose, sulphated**

Sulphated Sepharose—a strong cation exchanger 472 (1989) 261

**Q-Sepharose HP**

Column performance of Q-Sepharose HP in analytical- and preparative-scale chromatography 477 (1989) 337

**Sequencing**

Peptide mapping and internal sequencing of proteins electroblotted from two-dimensional gels onto polyvinylidene difluoride membranes. A chromatographic procedure for separating proteins from detergents 476 (1989) 345

**Serotonin**

LC procedures for the analysis of compounds in the serotonergic and octopamine pathways of lobster hemolymph 452 (1988) 491

Effect of chemically bonded alkyl chain length on the recovery of serotonin and its metabolite from urine by a solid extraction clean-up procedure 456 (1988) 219

Determination of 5-hydroxytryptamine and 5-hydroxyindoleacetic acid in plasma by direct injection in coupled-column LC with electrochemical detection 459 (1988) 351

Reduced variation in retention times of biogenic amines by temperature control in LC with electrochemical detection 479 (1989) 216

Microassay for N-acetyltransferase activity using HPLC with electrochemical detection 487 (1989) 287

Analysis of biogenic amines in the brain of the american cockroach (*Periplaneta americana*) by GC-negative ion chemical ionisation MS 490 (1989) 9

Simple HPLC method with electrochemical detection for the determination of indoleamines in tissue and plasma 491 (1989) 221

Highly sensitive determination of catecholamine and serotonin concentrations in plasma by LC electrochemistry 493 (1989) 157

Simultaneous determination of biogenic amines, their precursors and metabolites in a single brain of the cricket using HPLC with amperometric detection 496 (1989) 39

**Serpentine**

Thermospray LC-MS analysis of *Catharanthus* alkaloids 474 (1989) 181

**Sertraline**

Automated GC-electron-capture assay for the selective serotonin uptake blocker sertraline 496 (1989) 423

**Sesquiterpene hydrocarbons**

SFC of sesquiterpene hydrocarbons on silica packed columns with on-line Fourier transform IR detection 464 (1989) 125

**Sesquiterpene lactones**

Determination of molluscicidal sesquiterpene lactones from *Ambrosia maritima* (Compositae) 457 (1988) 325

**Sesquiterpene olefins**

Method for radio-capillary GC employing a modified oxidation-reduction train and flow-through detector 500 (1990) 349

**Sialoglycoproteins**

Combined lectin-affinity and metal-interaction chromatography for the separation of glycoproteins by HPLC 458 (1988) 1

**Sialooligosaccharides**

HPLC of sialooligosaccharides and gangliosides 488 (1989) 229

**Silanediol groups**

Silanediol groups of the silica gel Nucleosil: active sites involved in the chromatographic behaviour of bases 468 (1989) 67

**Silanols**

Role of unreacted silanols in the adsorption properties of derivatized silica 461 (1989) 243

Investigation of small populations of reactive silanols on silica surfaces 467 (1989) 31

**Silica gel, chemically modified**

Electron spin resonance studies under dynamic mobile phase conditions on chemically modified silica 458 (1988) 255

**Silica gel, iron-modified**

Silanediol groups of the silica gel Nucleosil: active sites involved in the chromatographic behaviour of bases 468 (1989) 67

**Silica gel, non-porous surface-coated**

Polymer support synthesis. XV. Behaviour of non-porous surface-coated silica gel microbeads in oligonucleotide synthesis 476 (1989) 49

**Silica gel, pH stability**

Stability of silica packing materials towards a mixed aqueous-organic eluent at alkaline pH 467 (1989) 267

**Silica gel, porous layer**

Performance of porous silica layers in open-tubular columns for LC 477 (1989) 95

**Silica supports**

High-speed size characterization of chromatographic silica by flow/hyperlayer field-flow fractionation 467 (1989) 341

**Silicate**

Capillary isotachophoretic separation of phosphate, arsenate, germanate, silicate and molybdate ions using complex-forming equilibria 478 (1989) 238

**Silicone-polyester resins**

Quantitative determination of dicarboxylic acids and polyols in silicone-polyester resins 452 (1988) 37

**Silver electrode**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

**Silver ion chromatography**

Separation of *cis* and *trans* isomers of unsaturated fatty acids by HPLC in the silver ion mode 469 (1989) 261

**Silver ion column**

Separation of molecular species of triacylglycerols by HPLC with a silver ion column 454 (1988) 273

**Silver-loaded thiol stationary phase**

Trace-level determination of 3'-azido-3'-deoxythymidine in human plasma by preconcentration on a silver (I)-thiol stationary phase with on-line reversed-phase HPLC 491 (1989) 321

**Silvex methyl ester**

Rapid determination of seven herbicides in water or isooctane using C<sub>18</sub> and Florisil Sep-Pak cartridges and GC with electron-capture detection 483 (1989) 121

**Silylaldonitriles**

Silylaldonitrile derivatives for the determination of sugars by GC-MS 473 (1989) 125

**Simplex lattice mixture design**

Strategies for automated optimisation of HPLC separations incorporating diode-array detection 458 (1988) 335

**Simplex optimization**

Simplex optimization of HPLC separations (Review) 485 (1989) 3

**Sinapic acid**

Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149

**Sisomicin**

Determination of the aminoglycoside antibiotics sisomicin and netilmicin in dried blood spots on filter discs, by HPLC with pre-column derivatization and fluorimetric detection 490 (1989) 125

**Size characterization**

High-speed size characterization of chromatographic silica by flow/hyperlayer field-flow fractionation 467 (1989) 341

**SK&F 101 926**

Determination of a disulfide-containing octapeptide antagonist of vasopressin in human plasma utilizing HPLC with fluorescence detection 488 (1989) 456

**Slurry packing**

Insights into the slurry packing and bed structure of capillary LC columns 458 (1988) 267

**Sodium**

Isochratic elution of sodium, ammonium, potassium, magnesium and calcium ions by ion-exchange chromatography 469 (1989) 339

Determination of rubidium, sodium, calcium and thiamine in a pharmaceutical preparation by capillary isotachopheresis 472 (1989) 441

Adsorbability to and desorbability from Sephadex G-15 of sodium and phosphate ions 475 (1989) 412

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

**Sodium azide**

Determination of sodium azide in the presence of proteins by HPLC 488 (1989) 506

**Sodium bisulphite**

Determination of quinonoid dihydrobiopterin by HPLC and electrochemical detection 494 (1989) 77

**Sodium chloride**

Exchange of the cation and anion of the sample (sodium or potassium chloride) with the cation and anion of the eluent (sodium or potassium phosphate buffer) and their elution, from a Sephadex G-15 column, in separate fractions 481 (1989) 299

High-performance adsorption chromatography of transfer ribonucleic acids and proteins on 2- $\mu$ m spherical beads of hydroxyapatite. Influence of sodium chloride and magnesium ions on the resolution 499 (1990) 153

**Sodium chromate**

Anion-exchange HPLC determination of ascorbic acid and hexavalent chromium in rat lung preparations after treatment with sodium chromate in vitro and in vivo 489 (1989) 283

**Sodium cyclamate**

Analysis of saccharin, acesulfame-K and sodium cyclamate by high-performance ion chromatography 463 (1989) 463

**Sodium dodecyl sulphate**

Micropreparative separation of peptides derived from sodium dodecyl sulphate-solubilized proteins 473 (1989) 71

Sodium dodecyl sulphate-protein complexes. Changes in size or shape below the critical micelle concentration, as monitored by high performance agarose gel chromatography 476 (1989) 147

Separation of peptides from sodium dodecyl sulphate by HPLC 487 (1989) 450

**Sodium monofluoroacetate**

Determination of sodium monofluoroacetate in soil and biological samples as the dichloroanilide derivative 473 (1989) 251

**Sodium nitrite**

Non-suppressed ion chromatography of arsenic anions using sodium nitrite solutions as eluents 457 (1988) 415

**Sodium phosphate**

Exchange of the cation and anion of the sample (sodium or potassium chloride) with the cation and anion of the eluent (sodium or potassium phosphate buffer) and their elution, from a Sephadex G-15 column, in separate fractions 481 (1989) 299

**Sodium polystyrenesulphonates**

Solution properties of polyelectrolytes. IV. Use of a new hydrophilic SEC packing for the separation of anionic and cationic polyions 461 (1989) 229

Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367

**Sodium sulphacetamide**

Quantitative determination of sulfanilamide in sodium sulphacetamide raw material and ophthalmic solutions by HPLC 478 (1989) 438

**Sodium sulphide**

HPLC of the antitumour agent triethylenethiophosphoramidate and its metabolite triethylenephosphoramidate with sodium sulphide, taurine and *o*-phthalaldehyde as pre-column fluorescent derivatization reagents 458 (1988) 295

**Software**

Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

Drylab<sup>®</sup> computer simulation for HPLC method development. II. Gradient elution (Review) 485 (1989) 91

Predictive calculation methods for optimization of gradient elution using binary and ternary solvent gradients 485 (1989) 113

Computer-assisted retention prediction for HPLC in the ion-exchange mode (Review) 485 (1989) 143

Computer-aided optimization of HPLC in the pharmaceutical industry (Review) 485 (1989) 183

Predicting reversed-phase gradient elution separations by computer simulation. A comparison of two different programs 485 (1989) 421

Computer-assisted optimization with NEMROD software 485 (1989) 433

Computer-assisted selection of the optimum gradient programme in TLC 485 (1989) 517

Development of HPLC method for fluroxypyr herbicide and metabolites using computer simulation with DryLab G software 485 (1989) 581

Practical approach for HPLC method development: assaying synthetic intermediates of a leukotriene inhibitor 485 (1989) 597

Computer-assisted development of an HPLC method for fractionating selected nitro derivatives of polyaromatic hydrocarbons 485 (1989) 607

Separation of mixtures of *o*-phthalaldehyde-derivatized amino acids by reversed-phase gradient elution. Accuracy of computer simulation for predicting retention and band width 485 (1989) 657

**Software, GC-FTIR coupling**

GC with Fourier transform IR spectrometry for biomedical applications 492 (1989) 109

**Solanidine**

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

 **$\alpha$ -Solanine**

HPLC method for the simultaneous analysis of  $\alpha$ -solanine and  $\alpha$ -chaconine in potato plants cultured *in vitro* 462 (1989) 357

**Solasodine**

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

**Solid injection**

Solid injection, a new technique for application of insoluble samples in preparative LC 484 (1989) 259

**Solid-phase dispersion**

Isolation of drug residues from tissues by solid phase dispersion 475 (1989) 353

**Solid-phase extraction**

Improved solid-phase extraction and LC with electrochemical detection of urinary catecholamines and 5-S-L-cysteinyl-L-DOPA 452 (1988) 409

Development of a solid-phase extraction technique for  $\alpha$ -human atrial natriuretic peptide in human plasma 452 (1988) 469

Determination of  $\Delta^9$ -tetrahydrocannabinol in plasma using solid-phase extraction and HPLC with electrochemical detection 456 (1988) 83

HPLC determination of mitoxantrone in plasma utilizing non-bonded silica gel for solid-phase isolation to reduce adsorptive losses on glass during sample preparation 465 (1989) 75

Simultaneous GC of volatile and non-volatile carboxylic acids as *tert*.-butyldimethylsilyl derivatives 468 (1989) 289

Isotachophoretic determination of short-chain fatty acids in drinking water after solid-phase extraction with a carbonaceous sorbent 470 (1989) 223

Multiresidue method for fungicide residues in fruit and vegetables 472 (1989) 416

Sample preparation for biomedical analysis (Review) 492 (1989) 3

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

**Solid-phase reactors**

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

**Solid-phase sample preparation**

Solid-phase sample preparation method for prostaglandins: integration of procedures for isolation and derivatization for GC determination 489 (1989) 263

**Solubility coefficients**

Determination of the solubility of vapours in polymers by automated headspace GC 455 (1988) 67

**Solubility parameters**

Solubility parameters of GC mixed stationary phases 457 (1988) 55

**Solute characterization**

Systematic procedure for the determination of the nature of the solutes prior to the selection of the mobile phase parameters for optimization of reversed-phase ion-pair chromatographic separations 478 (1989) 21

**Solute focussing**

Comparison between the conditions for solute focussing by the static and dynamic solvent effects under ideal conditions 471 (1989) 81

**Solute-solvent interactions**

Solute-solvent interactions of macroporous methacrylate ion exchangers in salt form studied by GC 462 (1989) 61

**Solute type identification**

Rule-based approach for the determination of solute types in unknown sample mixtures as a first step of optimization parameter selection in reversed-phase ion-pair chromatography 485 (1989) 383

**Solution properties at ideal dilution**

Organic solutes in paraffin solvents. Influence of the size of the solvent molecule on solution data 500 (1990) 139

**Solvatochromic parameters**

Retention in reversed-phase LC: solvatochromic investigation of homologous alcohol-water binary mobile phases 457 (1988) 85

Interpretation of normal-phase solvent strength scales based on linear solvation energy relationships using the solvatochromic parameters  $\pi^*$ ,  $\alpha$  and  $\beta$  465 (1989) 123

Comparison of retention behavior on polymeric resins and an alkyl-bonded silica phase in reversed-phase HPLC 499 (1990) 279

Estimation of the reversed-phase LC lipophilicity parameter  $\log k'_w$  using ET-30 solvatochromism 499 (1990) 435

**Solvent composition effects**

Solvent composition effects on the retention characteristics of aromatic hydroxyl compounds with silica and polar mobile phases and interpretation by the Snyder model 474 (1989) 347

**Solvent delivery system**

Instrumental developments in micellar electrokinetic capillary chromatography 480 (1989) 185

**Solvent effects**

Comparison between the conditions for solute focussing by the static and dynamic solvent effects under ideal conditions 471 (1989) 81

**Solvent evaporation**

Introduction of water and water-containing solvent mixtures in capillary GC. IV. Principles of concurrent solvent evaporation with co-solvent trapping 473 (1989) 411

**Solvent-generated liquid-liquid chromatography**

Selection of the solid support—a crucial step for the realization of solvent generated liquid-liquid chromatography 500 (1990) 257

**Solvent models**

Comparison of solvent models for characterizing stationary phase selectivity in GC 471 (1989) 91

**Solvent modulation**

Solvent modulation in LC: optimization strategies 485 (1989) 541

**Solvent non-excitation**

Reversed-phase HPLC-NMR on-line coupling with solvent non-excitation 463 (1989) 355

**Solvent residues**

Analysis of solvent residues in pharmaceutical bulk drugs by wall-coated open tubular GC 469 (1989) 161

**Solvents**

Application of deactivated metal capillaries to the analysis of solvents in varnish 464 (1989) 172

**Solvent selectivity effects**

Solvent selectivity effects in reversed-phase HPLC of flavonoid compounds 461 (1989) 281

**Solvent selectivity triangle**

Considerations for using the solvent selectivity triangle approach for stationary phase characterization 452 (1988) 191

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

**Solvent strength**

Selection of HPLC methods in pharmaceutical analysis. I. Optimization for selectivity in reversed-phase chromatography 454 (1988) 83

Selection of HPLC methods in pharmaceutical analysis. II. Optimization for selectivity in normal-phase systems 454 (1988) 95

Re-evaluation of the solvent triangle and comparison to solvatochromic based scales of solvent strength and selectivity 463 (1989) 21

Solvent strength and selectivity properties of supercritical carbon dioxide relative to liquid hexane 465 (1989) 177

Injection of elutes in solvents stronger than the mobile phase in reversed-phase LC 465 (1989) 189

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

Microcomputer-aided characterization of mobile phases for normal-phase LSC based on Snyder's theory and data 477 (1989) 235

Mobile phase effects on aromatic hydroxyl compounds with an aminopropyl column and interpretation by the Snyder model 479 (1989) 5

Experimental protocol for the assessment of solvent strength and selectivity of liquid phases used in GC 500 (1990) 329

**Solvent strength scales**

Interpretation of normal-phase solvent strength scales based on linear solvation energy relationships using the solvatochromic parameters  $\pi^*$ ,  $\alpha$  and  $\beta$  465 (1989) 123

**Solvent systems, droplet counter-current chromatography**

Physical-chemical parameters of some chloroform-containing solvent systems in droplet counter-current chromatography (in German) 498 (1990) 303

**Solvent type**

Selection of HPLC methods in pharmaceutical analysis. I. Optimization for selectivity in reversed-phase chromatography 454 (1988) 83

Selection of HPLC methods in pharmaceutical analysis. II. Optimization for selectivity in normal-phase systems 454 (1988) 95

**Somatotropin**

Ion-exchange chromatography of proteins. The effect of neutral polymers in the mobile phase 482 (1989) 133

**Sorbic acid**

Simultaneous determination of nine food additives using HPLC 457 (1988) 333

**Sorbitol**

Rapid analysis of sorbitol, galactitol, mannitol and myoinositol mixtures from biological sources 490 (1989) 1

**Sorbose**

GC retention of carbohydrate trimethylsilyl ethers. III. Ketohexoses 471 (1989) 205

**Sorption isotherms**

Determination of the solubility of vapours in polymers by automated headspace GC 455 (1988) 67

**Sorption kinetics**

Chromatographic evaluation of sorption and diffusion characteristics of glucose, maltose and maltotriose in silica gels 463 (1989) 261

**Sotalol**

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (-)-menthyl chloroformate 493 (1989) 402

Rapid and sensitive column LC determination of sotalol in plasma 493 (1989) 409

**Spacer performance**

Spacer performance in the cationic isotachopheresis of proteins 470 (1989) 201

**Specific retention volumes**

GLC in qualitative analysis. XVIII. Study of the dependence of the retention behaviour of polyoxyethylene glycol columns on the nature of the support and phase loading 500 (1990) 355

**Specific zone resistance**

Determination of the specific zone resistance and calculation of the response factor in isotachopheresis 470 (1989) 277

General mathematical model for the steady state in isotachopheresis. Calculation of the effective mobility of terminating  $H^+$  ions and two-buffer electrolyte systems 480 (1989) 69

### **Spectral match factors**

Automated evaluation of tryptic digest from recombinant human growth hormone using UV spectra and numeric peak information 499 (1990) 221

### **Spermine**

Capillary zone electrophoresis of oligonucleotides. Factors affecting separation 480 (1989) 321

### **Sphingolipids**

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

### **Sphingomyelin**

HPLC determination of some polar phospholipids in serum 495 (1989) 61

### **Spirolactones**

Heat of solution in a polyethylene glycol stationary phase of several cyclic and bicyclic compounds 463 (1989) 441

### **Spironolactone**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

### **Split-flow thin-cell separation**

Harnessing electrical forces for separation. Capillary zone electrophoresis, isoelectric focusing, field-flow fractionation, split-flow thin-cell continuous-separation and other techniques 480 (1989) 21

### **Split injection port**

Study of the injection process in a gas chromatograph split injection port 454 (1988) 23

### **Splitting device**

Splitting control and solvent effects in SFC with fused-silica capillary columns 465 (1989) 17

### **Spotting apparatus, large-volume**

Large-volume spotting apparatus and its application to the semi-quantitative determination of organochlorine pesticides in tea 469 (1989) 403

### **Stability constants**

Stability constants of hydracid-tributyl phosphate complexes in alkane solution:

hydrochloric acid and hydrogen cyanide 468 (1989) 73

### **Standard chemical potential differences**

Organic solutes in paraffin solvents. Influence of the size of the solvent molecule on solution data 500 (1990) 139

### **Stanozolol**

Studies on anabolic steroids. I. Integrated methodological approach to the GC-MS analysis of anabolic steroid metabolites in urine 489 (1989) 23

Studies on anabolic steroids. III. Detection and characterization of stanozolol urinary metabolites in humans by GC-MS 497 (1990) 17

### **Static solvent effect**

Comparison between the conditions for solute focussing by the static and dynamic solvent effects under ideal conditions 471 (1989) 81

### **Stationary phase bonding density**

Retention mechanisms in reversed-phase chromatography. Stationary phase bonding density and solute selectivity 461 (1989) 193

### **Stationary phases, GC**

Considerations for using the solvent selectivity triangle approach for stationary phase characterization 452 (1988) 191

Problems with the reproducibility of retention data on capillary columns with hydrocarbon  $C_{87}$  as the stationary phase 454 (1988) 65

Isothiocyanate as a liquid crystalline stationary phase in capillary GC for the separation of polyaromatic hydrocarbons 455 (1988) 323

Synthesis of bonded layers from cyclic organosilicons in the gas phase 456 (1988) 337

GC of organic compounds using inorganic salts as components of the stationary liquid phase and steam as a carrier gas 456 (1988) 351

Solubility parameters of GC mixed stationary phases 457 (1988) 55

Application of metal  $\beta$ -diketonate polymers as selective sorbents in complex mixture analysis and for sulfur-containing compounds 463 (1989) 171

Thermodynamics of adsorption of organics on a cobalt-modified solid obtained from colloidal silica 463 (1989) 281

Heat of solution in a polyethylene glycol stationary phase of several cyclic and bicyclic compounds 463 (1989) 441

Capillary GC of some polycyclic aromatic compounds on several stationary phases 465 (1989) 378

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile oil constituents with short GC retention times 467 (1989) 272

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

Changes in retention and polarity accompanying the replacement of hydrogen by fluorine in tetraalkylammonium alkyl- and arylsulfonate salts used as stationary phases in GC 468 (1989) 261

Wall-coated adsorbent open-tubular fused-silica columns for the separation of complex pyrolysis products 468 (1989) 365

Optimization of the GC separation of five-membered ring polyarenes with an admixed BPhBT liquid crystal–Dexsil 300 stationary phase 469 (1989) 43

GC and sorption properties of macroporous methacrylate copolymers 469 (1989) 143

Use of crown ethers in GC 469 (1989) 153

Comparison of solvent models for characterizing stationary phase selectivity in GC 471 (1989) 91

Determination of the GC performance characteristics of several graphitized carbon blacks 471 (1989) 105

Characteristics of glass based packings as a support in chromatography 471 (1989) 113

Quantitative relationships between the structure of alkylbenzenes and their GC retention on stationary phases with different polarity 471 (1989) 227

Effect of repeated cross-linking of SE-54 stationary phase film on the chromatographic properties of capillary columns 471 (1989) 237

Interface adsorption and reproducibility of retention indices in glass capillary columns with dimethylpolysiloxane stationary phases cross-linked by  $\gamma$ -irradiation 471 (1989) 251

Non-extractable stationary phases for GC cross-linked by exposure to low-temperature plasmas 473 (1989) 79

Synthesis and structural considerations of oligoethylene oxide-containing polysiloxane stationary phases in capillary GC and SFC 473 (1989) 103

Deactivation with polymethylhydrosiloxane. A comparative study with capillary GC and solid-state  $^{29}\text{Si}$  nuclear magnetic resonance spectroscopy 477 (1989) 3

Observations with high-molecular-weight polyethylene glycol stationary phases in capillary GC. I. Adsorption *versus* partitioning chromatography 477 (1989) 63

Prediction of retention in GLC using the UNIFAC group contribution method. I. Low-molecular-weight stationary phases 483 (1989) 1

Evaluation of 4-(2'-phenylisopropyl)phenol esters as stationary phases for GLC 483 (1989) 33

Low-temperature side-chain liquid crystalline polysiloxanes used as stationary phases for capillary GC 483 (1989) 394

Experimental protocol for the assessment of solvent strength and selectivity of liquid phases used in GC 500 (1990) 329

GLC in qualitative analysis. XVIII. Study of the dependence of the retention behaviour of polyoxyethylene glycol columns on the nature of the support and phase loading 500 (1990) 355

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

### Stationary phases, LC

Analysis of short alkylsilane bonded silica gel HPLC stationary phases using hydrofluoric acid digestion and headspace analysis by capillary GC 452 (1988) 43

Interchangeable use of aqueous and organic solvents in a hydrophilic poly(vinyl alcohol) gel column 452 (1988) 137

Reversed-phase HPLC with a  $\text{C}_{18}$  polyacrylamide-based packing 452 (1988) 145

Methyl green-coated column for separation of inorganic anions by ion chromatography 452 (1988) 283

Mixed-bed ion-exchange columns for protein HPLC 452 (1988) 331

- Retention reproducibility of basic drugs in HPLC on a silica column with a methanol–ammonium nitrate eluent. Batch-to-batch reproducibility of the stationary phase 455 (1988) 77
- Ultrasound driven synthesis of reversed-phase stationary phases for LC using 4-dimethyl-aminopyridine as acid-acceptor 455 (1988) 95
- Gas phase silylation, a rapid method for preparation of HPLC supports 455 (1988) 105
- HPLC of proteins on compressed, non-porous agarose beads. I. Hydrophobic-interaction chromatography 457 (1988) 165
- HPLC of proteins on compressed, non-porous agarose beads. II. Anion-exchange chromatography 457 (1988) 175
- Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195
- Elution behaviour of some proteins on fresh, acid- or base-treated Sephacryl S-200 HR 457 (1988) 205
- Phosphoric acid-modified amino bonded stationary phase for HPLC chemical class separation 457 (1988) 215
- Characteristics of an avidin-conjugated column in direct LC resolution of racemic compounds 457 (1988) 227
- Strategy for the immobilization of monoclonal antibodies on solid-phase supports 458 (1988) 67
- Thermodynamics of  $\alpha$ -lactalbumin denaturation in hydrophobic-interaction chromatography and stationary phases comparison 458 (1988) 93
- HPLC separation of peptides on a diol-Gly-Phe-Phe tripeptide-bonded phase 458 (1988) 129
- Protein immobilization on silica supports. A ligand density study 458 (1988) 169
- Rapid high-performance affinity chromatography on micropellicular sorbents 458 (1988) 207
- Stabilization of reversed phases for LC. Application of IR spectroscopy for the study of bonded-phase stability 458 (1988) 225
- Electron spin resonance studies under dynamic mobile phase conditions on chemically modified silica 458 (1988) 255
- Insights into the slurry packing and bed structure of capillary LC columns 458 (1988) 267
- New packing and column for fast protein HPLC 458 (1988) 281
- Retention mechanisms on metallic stationary phases 461 (1989) 139
- Solution properties of polyelectrolytes. IV. Use of a new hydrophilic SEC packing for the separation of anionic and cationic polyions 461 (1989) 229
- Role of unreacted silanols in the adsorption properties of derivatized silica 461 (1989) 243
- Analytical study of non-ionic surfactants used in enhanced oil recovery. Optimization of analytical conditions in reversed-phase partition chromatography 461 (1989) 305
- Hydrocarbon group type analysis of petroleum products by HPLC on organometallic donor/acceptor-bonded silica 461 (1989) 347
- Chromatographic properties of a vinyl alcohol copolymer gel column for the analysis of non-ionic surfactants 461 (1989) 365
- Preparation and use of latex-coated resins for anion chromatography 462 (1989) 165
- Affinity separation with polyaldehyde microsphere beads 462 (1989) 177
- Evaluation of the liquid chromatographic separation of monosaccharides, disaccharides, trisaccharides, tetrasaccharides, deoxysaccharides and sugar alcohols with stable cyclodextrin bonded phase columns 462 (1989) 219
- High-performance anion-exchange chromatography of proteins using aza-ether bonded silica-based phases 463 (1989) 329
- Preparation and retention characteristics of different phenylpolysiloxane phases for reversed-phase LC 463 (1989) 345
- Effect of the structure and density of chemically bonded  $C_{18}$  phase on the recovery of tryptophan and its metabolites from human urine 464 (1989) 73
- Factor analysis and experiment design in HPLC. VIII. Charge-transfer *versus* standard stationary phases in normal-phase HPLC 464 (1989) 237
- Comparison of the selectivity of cyano-bonded silica stationary phases in reversed-phase LC 464 (1989) 297
- Prediction of alkane–water partition coefficients using a  $C_{18}$  derivatized polystyrene–divinylbenzene stationary phase 464 (1989) 400
- Packing technology, column bed structure and chromatographic performance of 1–2- $\mu$ m non-porous silicas in HPLC 465 (1989) 39

- Protein A, hydroxyapatite and diethylaminoethyl: evaluation of three procedures for the preparative purification of monoclonal antibodies by HPLC 465 (1989) 101
- Calculation of the characteristics of the bonded layers of reversed stationary phases 465 (1989) 233
- Totally organic stationary phase from perfluoroalkyl acrylate for LC 465 (1989) 241
- LC separation of positional isomers of suprofen on a cyclodextrin-bonded phase 465 (1989) 422
- Anion-cation separations on a mixed bed alumina-silica column 466 (1989) 291
- Affinity chromatography of bovine heart lactate dehydrogenase using dye ligands linked directly or spacer-mediated to bead cellulose 466 (1989) 319
- Investigation of small populations of reactive silanols on silica surfaces 467 (1989) 31
- Stability of silica packing materials towards a mixed aqueous-organic eluent at alkaline pH 467 (1989) 267
- High-performance hydroxyapatite chromatography of nucleic acids 467 (1989) 299
- High-speed size characterization of chromatographic silica by flow/hyperlayer field-flow fractionation 467 (1989) 341
- Silanediol groups of the silica gel Nucleosil: active sites involved in the chromatographic behaviour of bases 468 (1989) 67
- Selectivity of an octadecyl-modified vinyl alcohol copolymer gel for the retention of polar compounds 468 (1989) 191
- Ionization of DEAE-cellulose. Dependence of  $pK$  on ionic strength 469 (1989) 111
- Chromatographic evaluation of oligomeric  $C_8$  reversed phases for use in HPLC 471 (1989) 283
- Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321
- Aqueous SEC of anionic and non-ionic water-soluble polymers on silica gel with bonded hydrophilic groups 471 (1989) 367
- Sulphated Sepharose—a strong cation exchanger 472 (1989) 261
- HPLC of proteins on N-methylpyridinium polymer columns 472 (1989) 357
- Retention characteristics in HPLC of basic drugs and plasma extracts on an alumina column 473 (1989) 53
- Comparison of various non-polar stationary phases used for assessing lipophilicity 473 (1989) 115
- HPLC on continuous polymer beds 473 (1989) 273
- High-performance chromatofocusing of proteins on agarose columns. I. Macroporous 15–20  $\mu\text{m}$  beads 475 (1989) 167
- High-performance chromatofocusing of proteins on agarose columns. II. Deformed non-porous 12–15  $\mu\text{m}$  beads 475 (1989) 177
- Hydrolyzed macroporous glycidyl methacrylate-ethylene dimethacrylate copolymer with narrow pore size distribution. A novel packing for size-exclusion HPLC 475 (1989) 187
- Polymer-based packing materials with alkyl backbones for reversed-phase LC. Performance and retention selectivity 475 (1989) 195
- Ion chromatography on methacrylate ion exchangers 475 (1989) 209
- Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3
- New porous organic microspheres for HPLC 476 (1989) 21
- Evaluation of advanced silica packings for the separation of biopolymers by HPLC. VI. Design, chromatographic performance and application of non-porous silica-based anion exchangers 476 (1989) 37
- Retention behaviour of paracelsin peptides on reversed-phase silicas with varying  $n$ -alkyl chain length and ligand density 476 (1989) 135
- Efficient endotoxin removal with a new sanitizable affinity column: Affi-Prep Polymyxin 476 (1989) 175
- Coated silica supports for high-performance affinity chromatography of proteins 476 (1989) 195
- HPLC of amino acids, peptides and proteins. XCII. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes 476 (1989) 205
- Affinity chromatography of recombinant *Rhizomucor miehei* aspartic proteinase on Si-300 bacitracin 476 (1989) 227

- Comparison of protein A, protein G and copolymerized hydroxyapatite for the purification of human monoclonal antibodies 476 (1989) 257
- Crown ethers as ligands for HPLC of proteins and nucleic acids 476 (1989) 309
- Properties, in theory and practice, of novel gel filtration media for standard LC 476 (1989) 329
- Performance of porous silica layers in open-tubular columns for LC 477 (1989) 95
- Comparison of LC selectivity for polycyclic aromatic hydrocarbons on cyclodextrin and  $C_{18}$  bonded phases 477 (1989) 277
- Column performance of Q-Sepharose HP in analytical- and preparative-scale chromatography 477 (1989) 337
- Preparation of adsorbents for affinity chromatography using TSK gel Tresyl-Toyopearl 650M 478 (1989) 159
- Chromatographic separation of the heavier lanthanoids on the spherical cation exchanger OSTION with  $\alpha$ -hydroxy- $\alpha$ -methylbutyrate 478 (1989) 446
- Study of the changes in mono-, di- and trifunctional octadecyl-modified packings for reversed-phase HPLC with different eluent compositions 479 (1989) 269
- Low-capacity quaternary phosphonium resins for anion chromatography 479 (1989) 401
- Temperature-induced changes in reversed-phase chromatographic surfaces.  $C_8$  and  $C_9$  polymeric ligands 481 (1989) 135
- Performance of polymer-coated silica  $C_{18}$  packing materials prepared from high-purity silica gel. The suppression of undesirable secondary retention processes 481 (1989) 147
- Preparation and characterization of adsorbents for use in high-performance liquid affinity chromatography 481 (1989) 159
- High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. I. Coating: ferric oxyhydroxide with stoichiometrically bound phosphate 481 (1989) 175
- High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II. Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187
- Preparation of several types of RPC-5-like resins and their use for the separation of oligonucleotides and mononucleotides by HPLC 481 (1989) 201
- Recovery of proteins and peptides with nanogram loads on non-porous packings 481 (1989) 391
- Purification of argininosuccinase by high-pressure immunoaffinity chromatography on monoclonal anti-argininosuccinase-silica 482 (1989) 252
- Chemically suppressed anion chromatography based on macrocycle-cation complexation 482 (1989) 367
- Alumina as stationary phase for ion chromatography and column-coupling techniques 482 (1989) 401
- Dyestuff-coated HPLC resins for the ion-exchange and chelating-exchange separation of metal ions 482 (1989) 325
- Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145
- Spectroscopic investigation of the hydrolysis of  $\gamma$ -glycidoxypropylsilane bound to silica surfaces 483 (1989) 209
- High-performance hydrophobic interaction chromatography of proteins on a pellicular support based on hydrophilic resin 483 (1989) 401
- Preparative packing utility as a function of particle size 484 (1989) 267
- Preparation and evaluation of a polymer-coated zirconia reversed-phase chromatographic support 484 (1989) 273
- Multivariate calibration strategy for reversed-phase chromatography systems based on the characterization of stationary-mobile phase combinations with markers 485 (1989) 169
- $\alpha_1$ -Acid glycoprotein HPLC column (Enantiopac) as a screening tool for protein binding 487 (1989) 257
- Biospecific interactions: their quantitative characterization and use for solute purification (Review) 492 (1989) 377
- Effect of stationary and mobile phases on hydrophobic interaction chromatography of proteins and peptides 496 (1989) 71

Relative retention and column selectivity for the common polar bonded-phase columns. The diol-silica column in normal-phase HPLC 498 (1990) 55

Modelling single-component protein adsorption to the cation exchanger S Sepharose® FF 498 (1990) 113

Comparison of phenyl- and octyl-Sepharose CL-4B in the hydrophobic interaction chromatography of simple aliphatic and aromatic compounds 498 (1990) 237

Characterization of reversed-phase HPLC stationary phases using ribonuclease A 498 (1990) 281

HPLC of amino acids, peptides and proteins. XCV. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes: comparison of thermodynamic parameters and the adsorption behaviour of proteins evaluated from bath and frontal analysis experiments 499 (1990) 103

High-performance adsorption chromatography of transfer ribonucleic acids and proteins on 2- $\mu$ m spherical beads of hydroxyapatite. Influence of sodium chloride and magnesium ions on the resolution 499 (1990) 153

Unexpected elution behaviour of peptides with various reversed-phase columns 499 (1990) 165

Protein chromatography with pyridine- and alkylthioether-based agarose adsorbents 499 (1990) 235

New latex-bonded pellicular anion exchangers with multi-phase selectivity for HPLC separations 499 (1990) 249

Micropellicular stationary phases for rapid protein analysis by HPLC 499 (1990) 267

Comparison of retention behavior on polymeric resins and an alkyl-bonded silica phase in reversed-phase HPLC 499 (1990) 279

Physical and chemical characterization of microporous zirconia 499 (1990) 311

Effect of coverage density on the retention mechanism in reversed-phase HPLC 499 (1990) 305

Studies on the stability of *n*-alkyl-bonded silica gels under basic pH conditions 499 (1990) 317

Mechanism of retention in HPLC on porous graphitic carbon as revealed by principal

component analysis of structural descriptors of solutes 499 (1990) 333

Preparation of silicone-coated 5–25- $\mu$ m I.D. fused-silica capillary columns for open-tubular LC 499 (1990) 345

Effect of alcohol chain length, concentration and polarity on separations in HPLC using bonded cyclodextrin columns 499 (1990) 477

Ion chromatography of transition metals on an iminodiacetic acid bonded stationary phase 499 (1990) 669

Reversed-phase HPLC of proteins and polypeptides on polystyrene-coated silica supports 500 (1990) 519

HPLC of proteins on deformed non-porous agarose beads. Fast boronate affinity chromatography of haemoglobin at neutral pH 500 (1990) 543

Carbohydrates as a tool for oriented immobilization of antigens and antibodies 500 (1990) 585

Application of high-performance hydrophobic-interaction chromatography to the characterization of recombinant DNA-derived human growth hormone 500 (1990) 595

### Stationary phases, SFC

Retention behaviour of polycyclic aromatic hydrocarbons in SFC on various chemically bonded stationary phases with carbon dioxide as a mobile phase 455 (1988) 29

Effect of sample size on retention in packed column SFC. A method for characterizing stationary phase homogeneity 459 (1988) 201

HPLC columns and stationary phases in SFC 477 (1989) 169

High-pressure adsorption of carbon dioxide on SFC adsorbents 479 (1989) 251

### Stationary phases, TLC

Dual retention mechanism on commercial acetylcellulose as a stationary phase in planar chromatography 454 (1988) 352

Retention behaviour of some classes of pharmaceutical products on chemically modified TLC plates 475 (1989) 95

Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471

**Statistical mixture design**

Development and optimisation of an HPLC assay for tioconazole and its potential impurities. I. Selection of separation conditions 464 (1989) 27

**Statistical moments**

Measurement of statistical moments of resolved and overlapping chromatographic peaks 461 (1989) 149

**Steam**

GC of organic compounds using inorganic salts as components of the stationary liquid phase and steam as a carrier gas 456 (1988) 351

**Stereochemical recognition**

Stereochemical recognition of enantiomeric and diastereomeric dipeptides by HPLC on a chiral stationary phase based upon immobilized  $\alpha$ -chymotrypsin 476 (1989) 165

**Sterigmatocystins**

Chromatographic and spectroscopic properties of hemiacetals of aflatoxin and sterigmatocystin metabolites 462 (1989) 269

**Steroidal alkaloids**

Comparison of the chromatographic properties of sterols, select additional steroids and triterpenoids: gravity-flow column LC, TLC, GLC and HPLC 452 (1988) 377

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

Characterization of novel steroidal alkaloids from tubers of *Solanum* species by combined GC-MS. Implications for potato breeding 482 (1989) 13

**Steroid receptors**

High performance affinity chromatography of human progesterone receptor 455 (1988) 434

Separation of two molecular forms of human estrogen receptor by hydrophobic interaction chromatography. Gradient optimization and tissue comparison 476 (1989) 455

**Steroids**

Studies on steroids. CCXXXVIII. Determination of bile acids in liver tissue by GC-MS with negative ion chemical ionization detection 452 (1988) 119

Use of hydroxypropyl- and hydroxyethyl-derivatized  $\beta$ -cyclodextrins for the TLC separation of enantiomers and diastereomers 452 (1988) 323

Comparison of the chromatographic properties of sterols, select additional steroids and triterpenoids: gravity-flow column LC, TLC, GLC and HPLC 452 (1988) 377

Temperature programming in HPLC 455 (1988) 327

Group fractionation of free and conjugated steroids by means of disposable silica-based anion-exchange columns 456 (1988) 175

HPLC analysis of the by-products of the synthesis of ethynylestradiol, mestranol, 17 $\alpha$ -hydroxyprogesterone caproate and 17 $\alpha$ -hydroxy-6-dehydroprogesterone acetate 456 (1988) 427

Analysis of steroids by capillary SFC with phosphorus-selective detection 461 (1989) 111

Selection of HPLC methods in pharmaceutical analysis. III. Method validation 464 (1989) 265

Selection of HPLC methods in pharmaceutical analysis. IV. Selection of most applicable separation system 464 (1989) 279

Packed column SFC and linked SFC-MS for the analysis of phytoecdysteroids from *Silene nutans* and *Silene otites* 467 (1989) 292

HPLC of brassinosteroids in plants with derivatization using 9-phenanthreneboronic acid 469 (1989) 424

Determination of 17-oxosteroid sulphates in serum by ion-pair extraction, prelabelling with dansylhydrazine and HPLC with fluorescence detection 474 (1989) 363

Retention behaviour of cardiac steroids using cyclodextrin in the mobile phase in HPLC 478 (1989) 339

Screening of steroids in horse urine and plasma by using electron impact and chemical ionization GC-MS 479 (1989) 233

Purification of radiolabeled pharmaceuticals 484 (1989) 347

Drylab<sup>®</sup> computer simulation for HPLC method development. I. Isocratic elution (Review) 485 (1989) 65

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

Manual automated enrichment procedures for biological samples using lipophilic gels 488 (1989) 87

- Determination of melengestrol acetate in bovine tissues by automated coupled-column normal-phase HPLC 488 (1989) 389
- Metabolism of some anabolic agents: toxicological and analytical aspects 489 (1989) 11
- Studies on anabolic steroids. I. Integrated methodological approach to the GC-MS analysis of anabolic steroid metabolites in urine 489 (1989) 23
- Application of optimization procedures for the separation of anabolic compounds by HPLC 489 (1989) 57
- Effective monitoring of residues of nortestosterone and its major metabolite in bovine urine and bile 489 (1989) 95
- Biotransformation of  $\beta$ -nortestosterone by cultured porcine hepatocytes 489 (1989) 105
- Multi-immunoaffinity chromatography: a simple and highly selective clean-up method for multi-anabolic residue analysis of meat 489 (1989) 111
- Effect of extended use of single anabolic steroids on urinary steroid excretion and metabolism 489 (1989) 121
- On-line HPLC diode array spectrophotometric analysis of steroidal hormones in illegal preparations 489 (1989) 139
- Determination of  $\beta$ -19-nortestosterone and its metabolite  $\alpha$ -19-nortestosterone in biological samples at the sub parts per billion level by HPLC with on-line immunoaffinity sample pretreatment 489 (1989) 157
- Distinction between oral and parenteral application of 19-nortestosterone by residue analysis in kidney fat from veal calves using HPLC and enzyme immunoassay 489 (1989) 173
- Determination of hormone contaminants in milk replacers by HPLC and immunoassay 489 (1989) 181
- Application of sorbent extraction chromatography to the purification of diethylstilboestrol extracted from muscle tissue and determined by radioimmunoassay 489 (1989) 199
- Quantitative analysis of anabolics on TLC plates using image analysis techniques 489 (1989) 205
- TLC method for the detection of anabolics in fatty tissues 489 (1990) 213
- Chemiluminescence immunoassay for the detection and quantification of methyltestosterone residues in muscle tissue 489 (1989) 219
- Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225
- Enzyme immunoassay screening procedure for the synthetic anabolic estrogens and androgens diethylstilbestrol, nortestosterone, methyltestosterone and trenbolone in bovine urine 489 (1989) 235
- Fast detection of homogeneous chemiluminescent immunoassays with a sensitive photoplate 489 (1989) 245
- Measurement of 21-hydroxycorticosteroids in human and rat sera by HPLC with fluorimetric detection 489 (1989) 364
- Ultramicro determination of 7-dehydrocholesterol in rat skin by HPLC with fluorescence detection 491 (1989) 404
- Biochemical applications of LC-MS 492 (1989) 189
- Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345
- Planar chromatographic techniques in biomedicine: current status (Review) 492 (1989) 471
- Studies on steroids. CCXXXXV. Determination of 5 $\beta$ -cholestanic acids in human urine by GC-MS with negative ion chemical ionization detection 493 (1989) 245
- Separation of C-17 fatty acid esters of 17 $\beta$ -estradiol by reversed-phase HPLC 493 (1989) 367
- Chromatographic determination of percutaneous absorption of topical non-radiolabelled prednisolone in vivo, and preliminary application to transdermal pharmacokinetics 493 (1989) 373
- Simultaneous measurement of prednisone, prednisolone and 6 $\beta$ -hydroxyprednisolone in urine by HPLC using dexamethasone as the internal standard 493 (1989) 421
- Long-chain fatty acids and alcohols from gerbil meibomian lipids 494 (1989) 23
- Separation and quantitation of free cholesterol and cholesteryl esters in a macrophage cell line by HPLC 494 (1989) 43

Specific and sensitive quantitation of medroxyprogesterone acetate in human serum by GC-MS 495 (1989) 13

Simultaneous determination of methylprednisolone and methylprednisolone-21-[8-[methyl-(2-sulfoethyl)amino]-8-oxooctanoate] sodium salt in human urine by HPLC with UV detection 496 (1989) 245

Studies on anabolic steroids. III. Detection and characterization of stanozolol urinary metabolites in humans by GC-MS 497 (1990) 17

Rapid determination of methandrostenolone in equine urine by isotope dilution LC-tandem MS 497 (1989) 49

### **Steroids, fluorinated**

Totally organic stationary phase from perfluoroalkyl acrylate for LC 465 (1989) 241

### **Sterol carrier protein<sub>2</sub>**

TSK-Toyopearl gels for the preparative separation of sterol carrier protein<sub>2</sub> from rat liver 482 (1989) 117

### **Sterols**

Comparison of the chromatographic properties of sterols, select additional steroids and triterpenoids: gravity-flow column LC, TLC, GLC and HPLC 452 (1988) 377

Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293

Determination of free and esterified sterols and of wax esters in oils and fats by coupled LC-GC 471 (1989) 397

HPLC method for isolating coprostanol from sediment extracts 481 (1989) 263

Immobilized enzyme reactors for detection systems in HPLC (Review) 492 (1989) 345

### **Stevioside**

Simultaneous determination of stevioside, rebaudioside A and C and dulcoside A in foods by HPLC 474 (1989) 447

### **Stilbenes**

Application of optimization procedures for the separation of anabolic compounds by HPLC 489 (1989) 57

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

### **Stimulants**

Headspace GC of stimulants in urine by in-column trifluoroacetyl derivatization method 467 (1989) 227

### **Stokes radius**

Determination of Stokes radii of hyaluronate oligosaccharides by Sephadex gel chromatography 472 (1989) 145

Accuracy and precision in the determination of Stokes radii and molecular masses of proteins by gel filtration chromatography 472 (1989) 347

### **Stop-flow analysis**

Use of a stop-flow technique to study on-column decomposition in SFC 479 (1989) 170

### **Strontium-90**

Determination of mono-, bi- and trivalent cations using non-suppressed ion chromatography 482 (1989) 289

### **Strospeside**

HPLC determination of secondary cardiac glycosides in *Digitalis purpurea* leaves 479 (1989) 319

### **Structure**

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. II. Long term reproducibility of capacity factors and retention indices 475 (1989) 75

### **Structure-activity relationships**

Determination of hydrophobicity parameters on polybutadiene-coated alumina and their application in quantitative structure-activity relationships analysis 458 (1988) 395

Chromatography beyond analytical chemistry 488 (1989) 25

### **Structure-function relationships**

Bioaffinity chromatography: synergy between interactive chromatography and molecular recognition for the separation and analysis of macromolecules 488 (1989) 145

### **Structure-retention relationships**

Correlations between octanol-water partition coefficients and reversed-phase HPLC capacity factors. Chlorobiphenyls and alkylbenzenes 454 (1988) 37

Dependence of  $R_F$  values of cobalt(III) complexes on the size of diamine chelate ligands on silica gel thin layers 454 (1988) 362

Effect of the composition of coordinated  $\beta$ -diketonato ligands on  $R_F$  values of transition metal complexes obtained by TLC on silica gel 456 (1988) 346

Effect of peptide chain length on peptide retention behaviour in reversed-phase chromatography 458 (1988) 193

Comparison of reversed-phase TLC and HPLC of flavonoid compounds 462 (1989) 205

Relationships between structure and retention index for N-substituted amides of aliphatic acids on a non-polar column 463 (1989) 297

Study of the lipophilic character of a series of  $\beta$ -carbolines 469 (1989) 121

Dispersion and selectivity indices in GC. Part II. Studies of homologous carbonyl and carboxyl compounds 471 (1989) 217

Quantitative relationships between the structure of alkylbenzenes and their GC retention on stationary phases with different polarity 471 (1989) 227

Retention behaviour of  $\beta$ -carbolines in normal-phase chromatography. Silica and amino phases in HPLC and TLC 471 (1989) 407

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. I. Monosubstituted aromatic compounds 475 (1989) 57

Identification of alkylbenzenes up to  $C_{12}$  by capillary GC and GC-MS. II. Retention indices on OV-101 columns and retention-molecular structure correlations 475 (1989) 113

HPLC of amino acids, peptides and proteins. XC. Investigations into the relationship between structure and reversed-phase HPLC retention behaviour of peptides related to human growth hormone 476 (1989) 113

Hydrophobic interaction chromatography of small molecules: characterization of the retention of acyl coenzyme A homologues 477 (1989) 249

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. III. Monosubstituted aliphatic compounds 481 (1989) 71

Retention prediction of analytes in reversed-phase HPLC based on molecular structure. IV. Branched and unsaturated alkylbenzenes 481 (1989) 85

TLC behaviour of some styryl cyanine dyes derived from pyridine 481 (1989) 331

TLC on polyacrylonitrile. I. Effect of the *cis-trans* configuration of cobalt(III) complexes on their  $R_F$  values 481 (1989) 465

Effect of the chelate ring size of diamine cobalt(III) complexes on their  $R_F$  values obtained by PC 481 (1989) 471

Some new observations on the equivalent carbon numbers of triglycerides and relationship between changes in equivalent carbon number and molecular structure 482 (1989) 215

HPLC of alkylnaphthalenes and phenylnaphthalenes on alumina 498 (1990) 248

Correlation analysis in LC of metal chelates. I. One-dimensional retention-structure models in reversed-phase TLC 498 (1990) 337

Relationships between GC retention indices and molecular structure of aromatic hydrocarbons 498 (1990) 357

Mechanism of retention in HPLC on porous graphitic carbon as revealed by principal component analysis of structural descriptors of solutes 499 (1990) 333

Estimation of the reversed-phase LC lipophilicity parameter  $\log k'_w$  using ET-30 solvatochromism 499 (1990) 435

### Styrene

Determination of styrene and 2-vinylpyridine monomers in poly(2-vinylpyridine-styrene) 463 (1989) 127

Use of HPLC for the characterization of synthetic copolymers 499 (1990) 645

### Styrene oligomers

Programming of pressure and mobile phase composition at constant flow-rate using a self-adjusting valve in SFC 475 (1989) 85

### Styryl cyanine iodides

TLC behaviour of some styryl cyanine dyes derived from pyridine 481 (1989) 331

### Subcritical fluid chromatography

Resolution of  $\pi$ -acid racemates on  $\pi$ -acid chiral stationary phases in normal-phase liquid and subcritical fluid chromatographic modes. A unique reversal of elution order on changing the nature of the achiral modifier 467 (1989) 357

**Substance P**

HPLC determination of substance P-like arginine-containing peptide in rat brain by on-line post-column fluorescence derivatization with benzoin 490 (1989) 301

Opioid and tachykinin peptides, and their precursors and precursor-processing enzymes, in human cerebrospinal fluid 500 (1990) 395

**Subtilisin**

Microenvironmental contributions to the chromatographic behavior of subtilisin in hydrophobic-interaction and reversed-phase chromatography 500 (1990) 503

**Subviral particles**

Use of high-performance SEC for the separation of poliovirus and subviral particles 498 (1990) 105

**N-Succinimidyl 3-ferrocenylpropionate**

Sensitive ferrocene reagents for derivatization of amines for HPLC with electrochemical detection 487 (1989) 247

**Sucrose**

Developments of micro LC-MS with gradient elution. Improvements to obtain less thermal decomposition of labile compounds 474 (1989) 285

**Sucrose esters**

Quantitative TLC of *Nicotiana tabacum* leaf surface components 463 (1989) 429

**Sudan I**

Determination of Methyl Yellow, Sudan I and Sudan II in water by HPLC 465 (1989) 434

**Sudan II**

Determination of Methyl Yellow, Sudan I and Sudan II in water by HPLC 465 (1989) 434

**Sugar alcohols**

Evaluation of the liquid chromatographic separation of monosaccharides, disaccharides, trisaccharides, tetrasaccharides, deoxysaccharides and sugar alcohols with stable cyclodextrin bonded phase columns 462 (1989) 219

**Sugars**

see also Carbohydrates and saccharides

Silylaldonitrile derivatives for the determination of sugars by GC-MS 473 (1989) 125

Determination of sugars in polysaccharide hydrolysates by anion-exchange chromatography 473 (1989) 305

Rapid analysis of sorbitol, galactitol, mannitol and myoinositol mixtures from biological sources 490 (1989) 1

Quantitative analysis of polyols in human plasma and cerebrospinal fluid 497 (1989) 39

Electrophoretic separation of sugars and hydrolysates of polysaccharides on silylated glass-fibre paper 498 (1990) 213

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

**Sugars, phosphorylated**

GC determination of (phosphorylated) 2-keto-3-deoxyoctonic acid, heptoses and glucosamine in bacterial lipopolysaccharides after treatment with hydrofluoric acid, methanolysis and trifluoroacetylation 487 (1989) 1

**Sulbactam**

Isotachopheric determination of sulbactam in rat serum 495 (1989) 338

**Sulfathiazole**

Spectrometric and TLC quantification of sulfathiazole residues in honey 463 (1989) 229

**Sulfinpyrazone**

Selection of HPLC methods in pharmaceutical analysis. IV. Selection of most applicable separation system 464 (1989) 279

**Sulpha drugs**

LC separation of several classes of acidic and basic aromatic compounds on silica-bonded 8-quinolinol stationary phases 465 (1989) 249

**Sulphanilamide**

Quantitative determination of sulfanilamide in sodium sulfacetamide raw material and ophthalmic solutions by HPLC 478 (1989) 438

**Sulphapyridine**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**Sulphapyridine O-glucuronide**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**Sulphasalazine**

Simple rapid method for the simultaneous determination of the eight main metabolites and conjugates of sulphasalazine in human plasma, urine and faeces using dynamically modified silica 491 (1989) 175

**Sulphate**

Retention and separation of inorganic anions by reversed-phase ion-interaction chromatography on octadecyl silica 456 (1988) 267

Determination of trace anionic impurities in concentrated inorganic acids by recycle ion chromatography 466 (1989) 355

Precision and accuracy of ion chromatography in dry deposition measurements 482 (1989) 297

Modification of a Dionex system 12 ion chromatograph for sequential determination of the main components in atmospheric precipitation 482 (1989) 413

Separation of inorganic anions by ion chromatography on dye-coated silica gel RP-18 483 (1989) 145

**Sulphatide**

Gangliosides and sulphatide in human cerebrospinal fluid: quantitation with immunoaffinity techniques 496 (1989) 279

**Sulphide**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

**Sulphite**

Ion-pair chromatographic separation of inorganic sulphur anions including polysulphide 475 (1989) 442

**Sulphobetaine detergent**

Potential of the sulfobetaine detergent Zwittergent 3-12 as a desorbing agent in biospecific and bioselective affinity chromatography 497 (1989) 87

**Sulphonamides**

Narrow-bore HPLC separations of 22 sulfonamides 478 (1989) 422

**Sulphonic acids**

GC analysis of sulphonic acids as their sulphonamide derivatives 473 (1989) 276

**Sulphonium salts**

Sulfonium salts as derivatizing agents. 2. Determination of theophylline in plasma by automated GC 494 (1989) 109

**Sulphonylureas**

Determination of serum sulphonylureas by HPLC with fluorimetric detection 493 (1989) 222

**Sulphur**

Determination of the total amount sulfur in petroleum fractions by capillary GC in combination with cold trapping and a total sulfur analyzer 468 (1989) 345

**Sulphur anions, inorganic**

Ion-pair chromatographic separation of inorganic sulphur anions including polysulphide 475 (1989) 442

**Sulphur chemiluminescence detector**

SFC with sulfur chemiluminescence detection 465 (1989) 23

**Sulphur-containing compounds**

Application of metal  $\beta$ -diketonate polymers as selective sorbents in complex mixture analysis and for sulfur-containing compounds 463 (1989) 171

Improved flame photometric detector for the analysis of sulfur compounds by GC 468 (1989) 303

LC determination of planar aromatic sulphur compounds in crude oil 475 (1989) 421

**Sulphur hexafluoride**

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

Comparative SFC properties of carbon dioxide and sulphur hexafluoride-ammonia mixtures with packed columns 499 (1990) 637

**Sulphuric acid**

Comparison of sulphuric acid treatment and column chromatographic clean-up procedures for the GC determination of organochlorine compounds in some food commodities 457 (1988) 387

**Sumatriptan**

Development and validation of an LC-MS assay for the determination of sumatriptan in plasma 496 (1989) 137

**Sun-screen agents**

Determination of sun-screen agents in cosmetic products by reversed-phase HPLC. Part II 464 (1989) 428

Determination of sunscreen agents in cosmetic products by reversed-phase HPLC 482 (1989) 240

### **Superconductor metal oxide catalyst**

Superconductor metal oxide catalyst in a chemiluminescence chromatography detector 452 (1988) 75

### **Supercritical fluid chromatography**

Separation of  $\alpha$ -keto acids by capillary SFC as their quinoxalinol derivatives 452 (1988) 623

Phase-system switching as an on-line sample pretreatment in the bioanalysis of mitomycin C using supercritical fluid chromatography 454 (1988) 243

Gradient elution with normal phases on silica. A comparison between HPLC and SFC 454 (1988) 253

Consecutive gradients in chromatography.

Gradients under sub- and supercritical conditions including composition gradients and multiple gradients 455 (1988) 17

Retention behaviour of polycyclic aromatic hydrocarbons in SFC on various chemically bonded stationary phases with carbon dioxide as a mobile phase 455 (1988) 29

Water as a stationary phase modifier in packed-column SFC. I. Separation of free fatty acids 459 (1988) 173

Effect of the partial molar volume of the solute in the stationary phase on retention in SFC 459 (1988) 183

Use of two simultaneous detectors in capillary SFC 459 (1988) 193

Effect of sample size on retention in packed column SFC. A method for characterizing stationary phase homogeneity 459 (1988) 201

Analysis of steroids by capillary SFC with phosphorus-selective detection 461 (1989) 111

Enantiomer resolution of D- and L- $\alpha$ -amino acid derivatives by SFC on novel chiral diamide phases with carbon dioxide 461 (1989) 121

SFC of sesquiterpene hydrocarbons on silica packed columns with on-line Fourier transform IR detection 464 (1989) 125

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

Reproducibility of packed-column SFC with helium head-pressure carbon dioxide 465 (1989) 11

Splitting control and solvent effects in SFC with fused-silica capillary columns 465 (1989) 17

Linear velocity control in capillary SFC by restrictor temperature programming 465 (1989) 157

Column pressure drop in capillary SFC 465 (1989) 169

Solvent strength and selectivity properties of supercritical carbon dioxide relative to liquid hexane 465 (1989) 177

Improved evaporative light-scattering detection for SFC with carbon dioxide-methanol mobile phases 467 (1989) 49

Determination of nitrogen compounds by SFC using nitrous oxide as the mobile phase and nitrogen-sensitive detection 467 (1989) 61

Packed column SFC and linked SFC-MS for the analysis of phytoecdysteroids from *Silene nutans* and *Silene otites* 467 (1989) 292

Packed-column SFC separation of highly explosive compounds 467 (1989) 423

SFC-MS of polycyclic aromatic hydrocarbons with a simple capillary direct interface 468 (1989) 115

Some practical aspects of column design for packed-column SFC 468 (1989) 127

Effect of pressure drop across the column on average densities and capacity factors in SFC 471 (1989) 347

Adsorption isotherms on silica for methanol and 1-hexanol modifiers from supercritical carbon dioxide 471 (1989) 357

Analysis of organic isocyanates using capillary supercritical-fluid chromatography 472 (1989) 175

Evaluation of supercritical sulfur hexafluoride as a mobile phase for polar and non-polar compounds 472 (1989) 197

Programming of pressure and mobile phase composition at constant flow-rate using a self-adjusting valve in SFC 475 (1989) 85

Supercritical-fluid extraction of aqueous samples and on-line coupling to SFC 477 (1989) 151

Multidimensional packed capillary column SFC using a flow-switching interface 477 (1989) 161

HPLC columns and stationary phases in SFC 477 (1989) 169

Separation of prepolymers of phenol-formaldehyde resins by SFC 478 (1989) 181

Effects of temperature and density on retention in capillary SFC 478 (1989) 311

Use of a stop-flow technique to study on-column decomposition in SFC 479 (1989) 170

High-pressure adsorption of carbon dioxide on SFC adsorbents 479 (1989) 251

HPLC and capillary SFC separation of vegetable carotenoids and carotenoid isomers 479 (1989) 261

SFC of barbiturates 481 (1989) 63

Packed-column SFC of benzodiazepines 483 (1989) 51

Bioanalytical applications of SFC (Review) 492 (1989) 167

Comparative SFC properties of carbon dioxide and sulphur hexafluoride-ammonia mixtures with packed columns 499 (1990) 637

Separation of ionic drug substances by SFC 500 (1990) 469

### **Supercritical fluid chromatography-mass spectrometry**

Design and industrial applications of a removable probe interface for direct capillary SFC-MS 474 (1989) 69

SFC-MS of high-molecular-weight biopolymers. Instrumental considerations and recent progress 474 (1989) 83

Industrial applications of SFC-MS involving oligomeric materials of low volatility and thermally labile materials 474 (1989) 97

Repeller effects in discharge ionization in combined LC or SFC-MS using a thermospray interface. I. Changes in the reagent gas spectrum 474 (1989) 113

Belt-speed programming, a new technique for peak compression in LC-MS and supercritical-fluid chromatography-mass spectrometry with moving-belt interfaces 474 (1989) 275

Repeller effects in discharge ionization in LC and SFC-MS using a thermospray interface. II. Changes in some analyte spectra 478 (1989) 325

### **Supercritical fluid extraction**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

On-line system for supercritical fluid extraction and capillary GC with electron-capture detection 474 (1989) 388

Supercritical-fluid extraction of aqueous samples and on-line coupling to SFC 477 (1989) 151

Supercritical fluid extraction of *s*-triazine herbicides from sediment 479 (1989) 200

Sample preparation for biomedical analysis (Review) 492 (1989) 3

### **Supports**

Selection of the solid support—a crucial step for the realization of solvent generated liquid-liquid chromatography 500 (1990) 257

### **Suprofen**

LC separation of positional isomers of suprofen on a cyclodextrin-bonded phase 465 (1989) 422

### **Surface characterization**

New method for surface characterization by GC 477 (1989) 291

### **Surface ionization detection**

Studies on 1-(2-phenethyl)-4-(N-propionylanilino)piperidine (fentanyl) and related compounds. III. Effect of methyl group introduction into fentanyl on sensitivity enhancement in GC with surface ionization detection 475 (1989) 400

### **Surfactants**

Universal detection and quantitation of surfactants by HPLC by means of the evaporative light-scattering detector 459 (1988) 91

Analytical study of non-ionic surfactants used in enhanced oil recovery. Optimization of analytical conditions in reversed-phase partition chromatography 461 (1989) 305

Chromatographic properties of a vinyl alcohol copolymer gel column for the analysis of non-ionic surfactants 461 (1989) 365

Polarographic detection of non-ionic surfactants analyzed by reversed-phase partition chromatography 465 (1989) 69

### **Surfactants, non-ionic**

Reversed-phase LC studies on non-ionic surfactants and related solutes 499 (1990) 469

### **Sweetening agents**

Separation of natural product sweetening agents using overpressured layer chromatography 464 (1989) 213

**Synchronized accumulating radioisotope detector**

Improved synchronized accumulating radioisotope detector for GC 489 (1989) 255

Radio-GC on wide-bore capillary columns equipped with a synchronized accumulating radioisotope detector 490 (1989) 21

Radio-GC (Review) 492 (1989) 137

**Syringic acid**

Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149

TLC of some metals on silica gel layers impregnated with salicylic, syringic and *o*-phthalic acid 498 (1990) 428

**Syringin**

HPLC separation of *E*- and *Z*-monolignols and their glucosides 479 (1989) 345

**System peaks**

Effects of system peaks in ion-pair reversed-phase LC for nescapine and metabolites 452 (1988) 241

Theoretical study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 1

Experimental study of system peaks and elution profiles for large concentration bands in the case of a binary eluent containing a strongly sorbed additive 461 (1989) 19

Theoretical considerations on the appearance of sample and system peaks in ion chromatography with photometric detection 482 (1989) 145

**System reproducibility**

Factors influencing the performance of peptide mapping by reversed-phase HPLC 499 (1990) 125

**T****T-2 toxin**

Bioautographic detection of T-2 and HT-2 toxins 463 (1989) 457

**Tabersonine**

Thermospray LC-MS analysis of *Catharanthus* alkaloids 474 (1989) 181

**Tabun**

Identification of tabun impurities by combined capillary column GC-MS 465 (1989) 271

**Tacrine**

Identification of 9-hydroxylamine-1,2,3,4-tetrahydroacridine as a hepatic microsomal metabolite of tacrine by HPLC and electrochemistry 487 (1989) 401

Determination of tacrine and its 1-hydroxy metabolite in plasma using column LC with UV detection 494 (1989) 397

**“Tag-along” effect**

Theoretical study of multi-component interferences in non-linear chromatography 484 (1989) 103

Quantitative comparison between the experimental band profiles of binary mixtures in overloaded elution chromatography and their profiles predicted by the semi-ideal model 499 (1990) 21

**Tagatose**

GC retention of carbohydrate trimethylsilyl ethers. III. Ketohexoses 471 (1989) 205

**Tailing**

see Peak tailing

**Talampicillin embonate**

Identification and purity determination of benzathine and embonate salts of some  $\beta$ -lactam antibiotics by TLC 463 (1989) 469

**Tall oil**

Analysis of volatiles in tall oil by GC flame-photometric detection, flame-ionization detection and MS 468 (1989) 145

**Tamoxifen**

Determination of 2-methyl derivatives of tamoxifen in cell culture medium using HPLC and electrochemical detection 496 (1989) 365

**Tandem mass spectrometry**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

Determination of methandrostenolone and its metabolites in equine plasma and urine by coupled-column LC with UV detection and confirmation by tandem MS 487 (1989) 341

**Tannins**

Chromatography of tannins. IV. Separation of labile oligomeric hydrolysable tannins and related polyphenols by centrifugal partition chromatography 467 (1989) 139

**Taurine**

Reversed-phase HPLC technique for taurine quantitation 454 (1988) 311

HPLC of the antitumour agent triethylenephosphoramidate and its metabolite triethylenephosphoramidate with sodium sulphide, taurine and *o*-phthalaldehyde as pre-column fluorescent derivatization reagents 458 (1988) 295

Determination of taurine: influence of the coil temperature on the taurine peak purity (in German) 462 (1989) 105

$\gamma$ -Aminobutyric acid, glutamate, glycine and taurine analysis using reversed-phase HPLC and UV detection of dansyl chloride derivatives 487 (1989) 167

**Taurodeoxycholate**

Chiral separation by electrokinetic chromatography with bile salt micelles 480 (1989) 403

**Taxes**

Tswett's letter to Claparède on tropisms and taxes 452 (1988) 5

**Tazobactam**

Determination of tazobactam and piperacillin in human plasma, serum, bile and urine by gradient elution reversed-phase HPLC 496 (1989) 167

**Tear fluid**

Determination of cations in tear fluid samples by non-suppressed ion chromatography with indirect UV detection 482 (1989) 407

**Technetium**

Anion-exchange HPLC of technetium-labeled phosphonoacetic acid skeletal imaging agent preparations 488 (1989) 463

**Technetium-99m amine complexes**

Separation of cationic technetium-99m amine complexes on porous graphitic carbon 479 (1989) 212

**Teicoplanin**

HPLC determination of teicoplanin in plasma: comparison with a microbiological assay 494 (1989) 340

**Temafloxacin**

HPLC for the determination of three new fluoroquinolones fleroxacin, temafloxacin and A-64730, in biological fluids 491 (1989) 379

**Temperature effects**

Effect of temperature difference between pump and column in molecular weight determination by GPC 454 (1988) 357

HPLC of amino acids, peptides and proteins. XCI. The influence of temperature on the chromatographic behaviour of peptides related to human growth hormone 476 (1989) 125

Effects of temperature and density on retention in capillary SFC 478 (1989) 311

Temperature-induced changes in reversed-phase chromatographic surfaces. C<sub>8</sub> and C<sub>9</sub> polymeric ligands 481 (1989) 135

Physicochemical studies of biologically active peptides by low-temperature reversed-phase HPLC 499 (1990) 79

**Temperature gradients**

Nature of temperature gradients in capillary zone electrophoresis 466 (1989) 219

**Temperature programming**

Temperature programming in HPLC 455 (1988) 327

Optimization of basic parameters in temperature-programmed GC separations of multi-component samples within a given time 463 (1989) 235

Calculation of programmed temperature GC characteristics from isothermal data. II. Predicted retention times and elution temperatures 463 (1989) 271

**Temperature tuning**

Optimization of selectivity by tuning column temperatures for series-coupled capillary columns in dual-oven GC systems 463 (1989) 243

**Tenax**

Sorption of *n*-alkanes on Tenax 464 (1989) 394

**Teniposide**

Automated reversed-phase chromatographic analysis of etoposide and teniposide in plasma by using on-line surfactant-mediated sample clean-up and column-switching 495 (1989) 139

**Tenuazonic acid**

Ion-pair, anion-exchange and ligand-exchange HPLC of tenuazonic acid and 3-acetyl 5-substituted pyrrolidine-2,4-diones 464 (1989) 307

**Terbutaline**

Coupled-column chromatography on immobilized protein phases for direct separation and determination of drug enantiomers in plasma 473 (1989) 371

**Terbutylazine**

HPLC determination of the herbicide terbutylazine and its dealkylated metabolites in soil 472 (1989) 411

**Terephthalates**

High-performance SEC of poly- and oligoethylene terephthalate using a mixture of hexafluoroisopropanol and chloroform as the mobile phase 479 (1989) 85

**Terminating electrolyte**

Inverse electrolyte systems in isotachopheresis. Impact of the terminating electrolyte on the migrating zones in cationic analysis 470 (1989) 3

**Terpenes**

Applications of GC to the study of terpenoid metabolism 452 (1988) 61

Preconcentration and analysis of atmospheric isoprene and monoterpenes. System automation 456 (1988) 165

Determination of terpenic compounds in the essential oil from *Satureja thymbra* L. growing in Sardinia 457 (1988) 427

**17 $\beta$ -Testosterone**

Fast detection of homogeneous chemiluminescent immunoassays with a sensitive photoplate 489 (1989) 245

**Tetrabenazine**

MS determination of tetrabenazine using a stable isotope-labeled analogue as an internal standard 493 (1989) 392

**1,1,1,2-Tetrabromoethane**

Comments on a paper describing elution order shifts of halogenated compounds 474 (1989)

**Tetrabutylammonium**

Use of free-flow electrophoresis for the purification of components separated by ion-pair chromatography 469 (1989) 444

**Tetracaine**

Peak tracking and subsequent choice of optimization parameters for the separation of a mixture of local anaesthetics by HPLC 499 (1990) 523

**Tetracyclines**

HPLC as an alternative to microbiological measurements in the assay of tetracyclines 467 (1989) 430

Automated HPLC analysis of tetracycline in urine 490 (1989) 474

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various biological samples with a semipreparative column 498 (1990) 169

 **$\Delta^9$ -Tetrahydrocannabinol**

Determination of  $\Delta^9$ -tetrahydrocannabinol in plasma using solid-phase extraction and HPLC with electrochemical detection 456 (1988) 83

**Tetrahydrofuran**

Effects of peak tailing on computer optimisation procedures for HPLC. I. Characteristics of tailed peaks under optimisation conditions 459 (1988) 65

**Tetrahydroisoquinoline**

Migration of tetrahydroisoquinoline, a possible parkinsonian neurotoxin, into monkey brain from blood as proved GC-MS 452 (1988) 85

Detection of tetrahydroisoquinoline in parkinsonian brain as an endogenous amine by use of GC-MS 491 (1989) 397

Presence of tetrahydroisoquinoline, a parkinsonism-related compound, in foods 493 (1989) 347

**Tetrahydropapaveroline**

Method for the identification of tetrahydropapaveroline using the Pictet-Spengler condensation reaction and HPLC 489 (1989) 399

**N,N,N',N'-Tetrakis(2-hydroxypropyl)ethylenediamine**

Resolution of diastereomers of N,N,N',N'-tetrakis(2-hydroxypropyl)ethylenediamine (Quadrol) by reversed-phase HPLC 455 (1988) 183

**N,N,N',N'-Tetrakis(2-hydroxypropyl)ethylenediamine**

Quantitation of N,N,N',N'-tetrakis(2-hydroxypropyl)ethylenediamine in plasma by GC 488 (1989) 369

**Tetramethylnaphthalenes**

Identification and analysis of tetramethylnaphthalenes in petroleum 483 (1989) 384

**Tetramethylpararosanine**

HPLC of Gentian Violet, its demethylated metabolites, Leucogentian Violet and Methylene Blue with electrochemical detection 467 (1989) 259

**2,2,6,6-Tetramethyl-4-piperidone**

HPLC–electrochemical detection of singlet oxygen by reaction with 2,2,6,6-tetramethyl-4-piperidone 465 (1989) 417

**Thearubigins**

Separation of derivatized black tea thearubigins by HPLC 478 (1989) 217

**Thebaine**

HPLC analysis of the alkaloid spectrum in the roots and capsules of the species and hybrids of *Papaver* section *Oxytona* 452 (1988) 563

**Theophylline**

Analysis of theophylline and sodium (or potassium) anisate in pharmaceutical preparations by ultra-fast HPLC (in French) 479 (1989) 430

Capillary GC–MS determination of stable isotopically labelled and unlabelled theophylline in serum and urine and of 1,3-dimethyluric acid in urine 494 (1989) 101

Sulfonium salts as derivatizing agents. 2. Determination of theophylline in plasma by automated GC 494 (1989) 109

**Thermal desorption**

Thermal desorption–capillary GC for the quantitative analysis of dimethyl sulphate, diethyl sulphate and ethylene oxide in the workplace 456 (1988) 233

Simple sample preparation for the quantitative multiple-headspace analysis of volatile components using adsorption patterns (in German) 456 (1988) 417

**Thermal desorption modulation**

Determination of activity coefficients of binary liquids by capillary GC with thermal desorption modulation for direct headspace sampling 478 (1989) 141

**Thermal energy analyzer**

Dynamic headspace method for the improved clean-up of gunshot residues prior to the detection of nitroglycerine by capillary column GC with thermal energy analysis detection 464 (1989) 178

Modification to a thermal energy analyzer with associated electronic filtering for improved GC analysis of explosives traces 483 (1989) 379

**Thermodynamic parameters**

Thermodynamic approach to the practical characterization of solvent strength and selectivity of commonly used stationary phases in GC 468 (1989) 235

HPLC of amino acids, peptides and proteins. XCV. Thermodynamic and kinetic investigations on rigid and soft affinity gels with varying particle and pore sizes: comparison of thermodynamic parameters and the adsorption behaviour of proteins evaluated from bath and frontal analysis experiments 499 (1990) 103

GC study of the solution thermodynamics of organic solutes in tetraalkylammonium alkanesulfonate and perfluoroalkanesulfonate solvents 499 (1990) 749

**Thermospray interface**

Repeller effects in discharge ionization in combined LC or SFC–MS using a thermospray interface. I. Changes in the reagent gas spectrum 474 (1989) 113

Application of thermospray LC–MS and LC–tandem MS for the identification of cynomolgus monkey and human metabolites of SK & F 101468, a dopamine D<sub>2</sub> receptor agonist 474 (1989) 123

Effects of repeller position and voltage in thermospray MS 474 (1989) 139

Improving the ion current stability of a thermospray source by improving the control of the vaporizer temperature and solvent flow-rate 474 (1989) 145

Development of optimization strategies in thermospray LC–MS 474 (1989) 149

**Thiamine**

Determination of rubidium, sodium, calcium and thiamine in a pharmaceutical preparation by capillary isotachopheresis 472 (1989) 441

Optimized determination of thiochrome derivatives of thiamine and thiamine phosphates in whole blood by reversed-phase LC with precolumn derivatization 491 (1989) 89

**Thiamine phosphates**

Optimized determination of thiochrome derivatives of thiamine and thiamine phosphates in whole blood by reversed-phase LC with precolumn derivatization 491 (1989) 89

**Thiamylal**

Measurement of thiamylal in human plasma using reversed-phase HPLC 487 (1989) 204

**Thiocarbamates**

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

**Thiocarbohydrazide**

LC determination of hydrazine, carbohydrazide and thiocarbohydrazide in aqueous solutions 464 (1989) 208

**Thiochrome derivatives**

Optimized determination of thiochrome derivatives of thiamine and thiamine phosphates in whole blood by reversed-phase LC with precolumn derivatization 491 (1989) 89

**Thiocyanate**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

**Thiodiglycol polyethers**

Separation of thiodiglycol polyethers and related compounds by reversed-phase HPLC 461 (1989) 293

**7 $\alpha$ -Thiohydroxycholesterol**

Synthesis of 7 $\alpha$ -thiohydroxycholesterol involving the resolution of epimeric thiocholesterols by HPLC 483 (1989) 454

**Thiols**

Effect of differing thiols on the reversed-phase HPLC behaviour of *o*-phthaldialdehyde-thiol-amino acids 454 (1988) 398

Simultaneous determination of thiols and corresponding disulphides in mixtures by HPLC with polarographic detection using a Dual-Tast Analyser 455 (1988) 336

Separation of thiols on Spheron Ara activated with 2-nitrophenylhydrazonopropandinitrile ligand 455 (1988) 344

Separation of hydrophilic thiols using reversed-phase chromatography with trihaloacetate buffers 457 (1988) 111

Separation and detection of bis(alkylthio)selenides of penicillamine and glutathione by LC with electrochemical detection 465 (1989) 359

GLC-MS of mono- and dithiols as their *tert*-butyldimethylsilyl derivatives 483 (1989) 21

Study of the chromatographic behaviour and resolution of  $\alpha$ -amino acid enantiomers by HPLC utilizing pre-column derivatization with *o*-phthaldialdehyde and new chiral thiols 483 (1989) 239

Determination of penicillamine, penicillamine disulfide and penicillamine-glutathione mixed disulfide by HPLC with electrochemical detection 491 (1989) 341

**Thiol stationary phase, silver-loaded**

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

**Thiopental**

HPLC method for determining thiopental concentrations in twelve rat tissues: application to physiologic modeling of disposition of barbiturate 490 (1989) 339

**6-Thiopurine**

Characterization of solution-phase and gas-phase reactions in on-line electrochemistry-thermospray tandem MS 474 (1989) 231

**Thioredoxin**

Separation by HPLC of the ferredoxin-thioredoxin system proteins 477 (1989) 305

**Thiosulphate**

Electrosorptive detection based on double-layer capacitance for selected ion monitoring in ion chromatography. II. Silver 456 (1988) 307

Ion-pair chromatographic separation of inorganic sulphur anions including polysulphide 475 (1989) 442

**Thiotepa**

LC-thermospray MS of DNA adducts formed with mitomycin C, porfiromycin and thiotepa 474 (1989) 197

**Thiouracil**

Screening and confirmation of thyreostatics in urine by GC with nitrogen-phosphorus detection and GC-MS after sample clean-up with a mercurated affinity column 489 (1989) 127

**Thorium**

Quantitative analysis of thorium in plutonium using reversed-phase LC and spectrophometric detection 469 (1989) 369

**Thromboxane B<sub>2</sub>**

Isotope dilution GC-MS for the study of eicosanoid metabolism in human blood platelets 488 (1989) 283

Specific radioactivity determination of labeled eicosanoids 489 (1989) 359

Modern HPLC radioimmunoassay strategies for the study of eicosanoids in biological samples (Review) 492 (1989) 223

Quantitative profiling of 6-ketoprostaglandin F<sub>1 $\alpha$</sub> , 2,3-dinor-6-ketoprostaglandin F<sub>1 $\alpha$</sub> , thromboxane B<sub>2</sub> and 2,3-dinor-thromboxane B<sub>2</sub> in human and rat urine by immunoaffinity extraction with GC-MS 495 (1989) 1

Measurement of plasma thromboxane B<sub>2</sub> by GC-MS using <sup>18</sup>O<sub>2</sub>-labelled thromboxane B<sub>2</sub> as the internal standard 496 (1989) 180

Analysis of the major urinary thromboxane metabolites, 2,3-dinor-thromboxane B<sub>2</sub> and 11-dehydrothromboxane B<sub>2</sub>, by GC-MS and GC-tandem MS 497 (1990) 1

**Thymidine**

Measurement of deoxyguanosine/thymidine ratios in complex mixtures by HPLC for determination of the mole percentage guanine + cytosine of DNA 479 (1989) 297

**Thymidylate synthase**

HPLC assay for thymidylate synthase from the human malaria parasite, *Plasmodium falciparum* 487 (1989) 51

**Thymine**

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

Quantitative extraction of thymine-thymine dimer from a large excess of thymine by preparative LC 477 (1989) 119

**Thymine-thymine dimer**

Quantitative extraction of thymine-thymine dimer from a large excess of thymine by preparative LC 477 (1989) 119

**Thymosin  $\beta_4$** 

Rapid isolation of thymosin  $\beta_4$  from thymosin fraction 5 by preparative HPLC 459 (1988) 291

**Thyreostatics**

Screening and confirmation of thyreostatics in urine by GC with nitrogen-phosphorus detection

and GC-MS after sample clean-up with a mercurated affinity column 489 (1989) 127

**Thyroid hormones**

Analysis of term human milk concentrations of 3,5,3'-triiodo-L-thyronine by HPLC and radioimmunoassay: correlation with circulating serum levels in lactating women 487 (1989) 445

**Thyrotropin-releasing hormone**

Rapid separation of tritiated thyrotropin-releasing hormone and its catabolic products from mouse and human central nervous system tissues by HPLC with radioactive flow detection 487 (1989) 275

**Tiemonium iodide**

Reversed-phase ion-pair LC separation of weak analgesics and related drugs 465 (1989) 402

**Time-delay, exponential-decay thermal field flow fractionation**

Effect of operating parameters on polymer molecular weight accuracy with time-delay, exponential-decay thermal field flow fractionation 499 (1990) 655

**Time-delay / decay time constant**

Effect of operating parameters on polymer molecular weight accuracy with time-delay, exponential-decay thermal field flow fractionation 499 (1990) 655

**Timolol**

HPLC assay for timolol in the aqueous humor of the eye 494 (1989) 368

**Tioconazole**

Development and optimisation of an HPLC assay for tioconazole and its potential impurities. I. Selection of separation conditions 464 (1989) 27

**Tissue plasminogen activator**

Study of the primary structure of recombinant tissue plasminogen activator by reversed-phase HPLC tryptic mapping 463 (1989) 375

**Titan's atmosphere**

Gas chromatography of Titan's atmosphere. I. Analysis of low-molecular-weight hydrocarbons and nitriles with a PoraPLOT Q porous polymer coated open-tubular capillary column 481 (1989) 45

**2,4,5-T methyl ester**

Rapid determination of seven herbicides in water or isooctane using C<sub>18</sub> and Florisil Sep-Pak

cartridges and GC with electron-capture detection 483 (1989) 121

### **$\alpha$ -Tocopherol**

Measurement of vitamin E in premature infants by reversed-phase HPLC 490 (1989) 432

Improved HPLC technique for the determination of hepatic  $\alpha$ -tocopherol 495 (1989) 269

### **Tolbutamide**

Simple HPLC method for the determination of tolbutamide and its metabolites in human plasma and urine using photodiode-array detection 490 (1989) 355

### **Toliprolol**

Stereospecific LC analysis of racemic adrenergic drugs utilizing precolumn derivatization with (–)-menthyl chloroformate 493 (1989) 402

### **Tolnaftate**

Separation of fungal sterols by normal-phase HPLC. Application to the evaluation of ergosterol biosynthesis inhibitors 469 (1989) 293

### **Toloxatone**

Simple HPLC method for the measurement of tolaxatone in rabbit cerebrospinal fluid and plasma 490 (1989) 387

### **Toluene**

Industrial applications of chromatography. I. Determination of methanol, *n*-butanol and toluene by direct aqueous injection GC 457 (1988) 372

Simultaneous determination of benzene and toluene in the blood using head-space GC 491 (1989) 309

### **Toluenediamines**

Determination of toluenediamines in polyurethane foams by HPLC with electrochemical detection 477 (1989) 387

Chromatographic determination of amines in biological fluids with special reference to the biological monitoring of isocyanates and amines. II. Determination of 2,4- and 2,6-toluenediamine using glass capillary GC and selected ion monitoring 479 (1989) 135

### **5-Tomatidenol**

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

### **Tomatidine**

HPLC analysis of *Solanum* steroidal alkaloids 479 (1989) 189

### **Topological indices**

Properties of topological indices as structural parameters for compounds containing oligooxyethylene chain(s) 464 (1989) 251

### **Toremifene**

LC-atmospheric pressure ionization MS analysis of toremifene metabolites in human urine 497 (1989) 169

### **Total carbonate-carbon**

Determination of trace levels of total carbonate-carbon by indirect photometric ion chromatography with nitrogen purging 481 (1989) 323

### **“Touching-band” separations**

Preparative HPLC under gradient conditions. II. A computer program for the design of reversed-phase gradient-elution separations of peptide and protein samples 484 (1989) 425

### **Toxaphene**

Quantitative high-resolution GC and MS of toxaphene residues in fish samples 471 (1989) 161

### **Toxicological analysis**

Modern chromatographic procedures in systematic toxicological analysis 488 (1989) 199

### **Toxin B**

*Clostridium difficile* toxin B: characterization and sequence of three peptides 490 (1989) 91

### **Toxin KT28**

Purification of yeast killer toxin KT28 by receptor-mediated affinity chromatography 469 (1989) 448

### **Toxins**

Purification of yeast killer toxin KT28 by receptor-mediated affinity chromatography 469 (1989) 448

### **Trace analysis**

General evaluation and application to trace analysis of a chiral column for ligand-exchange chromatography 461 (1989) 397

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

High boiling organic traces in drinking water. Quantitative analysis by liquid-liquid enrichment within the analytical glass capillary 477 (1989) 49

Post-column reactors for sensitive and selective detection in HPLC: categorization and applications (Review) 492 (1989) 251

### Trace enrichment

Automated sequential trace enrichment of dialysates and robotics. A technique for the preparation of biological samples prior to HPLC 456 (1988) 53

Preparative LC with analytical separation quality. Interval injection/displacement reversed-phase HPLC 464 (1989) 103

Automated on-line trace enrichment and determination of organic compounds in ground and tap water by HPLC 465 (1989) 410

Determination of sensorial active trace compounds by multi-dimensional GC combined with different enrichment techniques 471 (1989) 173

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

Determination of phenoxyacid herbicides in water. Polymeric pre-column preconcentration and tetrabutylammonium ion-pair separation on a PRP-1 column 481 (1989) 275

On-line combination of dialysis and column-switching LC as a fully automated sample preparation technique for biological samples. Determination of nitrofurans residues in edible products 500 (1990) 453

### Trace metals

On-line preconcentration and elution of trace metals by ion chromatography 482 (1989) 335

### Trace organics

Freon FC-133, an alternative to methylene chloride for liquid-liquid extraction of trace organics from chlorinated drinking water 454 (1988) 217

Modified analytical technique for the determination of trace organics in water using dynamic headspace and GC-MS 467 (1989) 111

### Tracer pulse chromatography

Characterization of polyimide sorbents by using tracer pulse chromatography 498 (1990) 41

### Transferrin

Separation of the human transferrin isoforms by carrier-free high-performance zone electrophoresis and isoelectric focusing 480 (1989) 351

### Transfer rule equations

Algorithms to correct gradient scan and transfer rule predictions of isocratic retention in reversed-phase LC 463 (1989) 1

### Transformer oils

Quantitative analysis by HPLC of 2,6-di-*tert*-butyl-*para*-cresol in transformer oils (in French) 464 (1989) 448

### Transient ionic matrix

New option in capillary zone electrophoresis. Use of a transient ionic matrix (dynamic pulse) 500 (1990) 673

### Transient state models

The separation process in isotachopheresis. II. Binary mixtures and transient state models 463 (1989) 51

Separation process in isotachopheresis. III. Transient state models for a three-component system 470 (1989) 21

### Transition-state analogue affinity chromatography

Purification of phosphofructokinase using transition-state analogue affinity chromatography 455 (1988) 291

### Transition metal complexes

Effect of the composition of coordinated  $\beta$ -diketonato ligands on  $R_F$  values of transition metal complexes obtained by TLC on silica gel 456 (1988) 346

Effect of the central ion of octahedral transition metal complexes on their TLC  $R_F$  values 466 (1989) 227

### Transition metals

Ion chromatography of transition metals on an iminodiacetic acid bonded stationary phase 499 (1990) 669

### Transport detector

Novel transport detector for LC. I. Preliminary experiments 482 (1989) 53

### Transport differential equation

Mathematical modelling of the peak in LC 469 (1989) 29

**Transverse alternating field electrophoresis**

Large DNA separation using field alternation agar gel electrophoresis (Review) 492 (1989) 615

**Trenbolone**

Determination of  $\beta$ -19-nortestosterone and its metabolite  $\alpha$ -19-nortestosterone in biological samples at the sub parts per billion level by HPLC with on-line immunoaffinity sample pretreatment 489 (1989) 157

Enzyme immunoassay screening procedure for the synthetic anabolic estrogens and androgens diethylstilbestrol, nortestosterone, methyltestosterone and trenbolone in bovine urine 489 (1989) 235

**17 $\beta$ -Trenbolone**

Metabolism of some anabolic agents: toxicological and analytical aspects 489 (1989) 11

**Triacetylcellulose**

Example of the concentration dependence of elution order in the resolution of enantiomers on microcrystalline triacetylcellulose chiral stationary phase 462 (1989) 95

Chemometric approach to explain the LC retention of some chiral indoles on swollen microcrystalline triacetylcellulose 466 (1989) 364

Triacetylcellulose as a chiral stationary phase for HPLC 498 (1990) 257

**Triacylglycerols**

Identification of the more complex triacylglycerols in bovine milk fat by GC-MS using polar capillary columns 452 (1988) 93

Comparison of retention mechanisms of homologous series and triglycerides in non-aqueous reversed-phase LC 452 (1988) 157

On-line HPLC-post-column reaction-capillary GC analysis of lipids in biological samples 454 (1988) 157

Separation of molecular species of triacylglycerols by HPLC with a silver ion column 454 (1988) 273

Rapid analysis of triacylglycerols using HPLC with light scattering detection 465 (1989) 369

Some new observations on the equivalent carbon numbers of triglycerides and relationship between changes in equivalent carbon number and molecular structure 482 (1989) 215

Three-step one-dimensional TLC separation of neutral lipids 498 (1990) 423

GLC profiling of plasma lipids using high-temperature-polarizable capillary columns 500 (1990) 427

**Triacylglycerols, hydroxylated**

Prediction of retention times of hydroxylated triacylglycerols in reversed-phase HPLC 498 (1990) 410

**Trialkyl phosphates**

Characterization of organophosphorus compounds and phenylurea herbicides by positive and negative ion thermospray LC-MS 474 (1989) 163

**Triamterene**

Comprehensive screening procedure for diuretics in urine by HPLC 489 (1989) 65

**Triazines**

HPLC method for determining triazine herbicide residues in soil 454 (1988) 233

Affinity chromatography with triazine dyes immobilized onto activated non-porous monodisperse silicas 457 (1988) 195

LC separation and behaviour of some triazines on styrene-divinylbenzene columns 472 (1989) 406

Supercritical fluid extraction of *s*-triazine herbicides from sediment 479 (1989) 200

Interaction of lactate dehydrogenase with structurally related triazine dyes using affinity partitioning and affinity chromatography 483 (1989) 289

**Triazolam**

Capillary GC-MS method for the identification and quantification of some benzodiazepines and their unconjugated metabolites in plasma 487 (1989) 295

**Tribenzopyridine-21-crown-7**

Use of GC for a study of crown ethers 471 (1989) 139

**Tributylphosphate**

Stability constants of hydracid-tributyl phosphate complexes in alkane solution: hydrochloric acid and hydrogen cyanide 468 (1989) 73

**2,3,6-Trichlorobenzoic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

**Trichloroethanol**

Determination of trichloroethanol, the active metabolite of chloral hydrate, in plasma by LC 500 (1990) 655

**2,4,4'-Trichloro-2'-hydroxydiphenyl ether**

Formation of polychlorinated dibenzo-*p*-dioxin from 2,4,4'-trichloro-2'-hydroxydiphenyl ether (Irgasan® DP300) and its chlorinated derivatives by exposure to sunlight 454 (1988) 145

**Trichloromethane**

Comments on a paper describing elution order shifts of halogenated compounds 474 (1989)

**2-Trichloromethylbenzimidazole**

2-Trichloromethylbenzimidazole, a selective chromogenic reagent for the detection of some azines on thin-layer plates. Addendum 481 (1989) 477

**2,4,5-Trichlorophenoxyacetic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

**3,5,6-Trichloro-2-pyridyloxyacetic acid**

Capillary GC-MS determination of acid herbicides in soils and sediments 469 (1989) 351

**1,1,2-Trichloro-1,2,2-trifluoroethane**

Freon FC-133, an alternative to methylene chloride for liquid-liquid extraction of trace organics from chlorinated drinking water 454 (1988) 217

**Trichomycin**

Isolation of the aromatic heptaenic antibiotics trichomycin A-F by HPLC 481 (1989) 416

**Trichothecenes**

Bioautographic detection of T-2 and HT-2 toxins 463 (1989) 457

MS investigations on trichothecene mycotoxins. VII. LC-thermospray mass spectrometric analysis of macrocyclic trichothecenes 469 (1989) 209

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

**Tricyclic antidepressants**

Analysis of benzodiazepines and tricyclic antidepressants in serum using a common solid-phase clean-up and a common mobile phase 497 (1989) 201

**Tridecenes**

Pyrolysis GLC of N,N-dimethylalkylamine N-oxides and their mixtures 466 (1989) 347

**Triethanolamine**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

**Triethylenephosphoramidate**

HPLC of the antitumour agent triethylenephosphoramidate and its metabolite triethylenephosphoramidate with sodium sulphide, taurine and *o*-phthalaldehyde as pre-column fluorescent derivatization reagents 458 (1988) 295

**Triethylenethiophosphoramidate**

HPLC of the antitumour agent triethylenethiophosphoramidate and its metabolite triethylenephosphoramidate with sodium sulphide, taurine and *o*-phthalaldehyde as pre-column fluorescent derivatization reagents 458 (1988) 295

**N,N',N''-Triethylenethiophosphoramidate**

HPLC analysis of N,N',N''-triethylenethiophosphoramidate in human plasma 495 (1989) 318

**Triethylsulphonium hydroxide**

Sulfonium salts as derivatizing agents. 2. Determination of theophylline in plasma by automated GC 494 (1989) 109

**Trifluoroacetic acid**

Reversed-phase LC of proteins with strong acids 476 (1989) 499

**Trifluoroacetic anhydride-sodium iodide**

Trifluoroacetic anhydride-sodium iodide as a reagent for the selective detection of nitrones and nitroxide radicals by TLC 473 (1989) 287

**Trifluoroacetylacetonates**

LC analysis of bromination reactions of metal trifluoroacetylacetonates 479 (1989) 181

**2-Trifluoromethylalanine**

Milligram-scale separation of optical isomers of 2-pentafluoroethylalanine and 2-trifluoromethylalanine by medium-performance reversed-phase chromatography 469 (1989) 434

**Triglycerides**

see Triacylglycerols

**Trihaloacetate buffers**

Separation of hydrophilic thiols using reversed-phase chromatography with trihaloacetate buffers 457 (1988) 111

**Trihexyphenidyl**

Capillary GC of trihexyphenidyl, procyclidine and cyrmine in biological fluids 494 (1989) 135

 **$\alpha$ ,3,4-Trihydroxybenzeneacetic acid**

HPLC of mixtures of catechol and its reaction products with glyoxylic acid 472 (1989) 381

**3 $\alpha$ ,7 $\alpha$ ,12 $\alpha$ -Trihydroxy-5 $\beta$ -cholestanic acid**

Studies on steroids. CCXXXV. Determination of 5 $\beta$ -cholestanic acids in human urine by GC-MS with negative ion chemical ionization detection 493 (1989) 245

**Triiodothyronine**

Analysis of term human milk concentrations of 3,5,3'-triiodo-L-thyronine by HPLC and radioimmunoassay: correlation with circulating serum levels in lactating women 487 (1989) 445

**Trimetazidine**

Determination of trimetazidine in biological fluids by GC-MS 490 (1989) 198

**Trimethoprim**

Analysis of drug residues in tissue by combined supercritical-fluid extraction-SFC-MS-MS 464 (1989) 353

**Trimethylamine**

Identification of methyl diethanolamine degradation products by GC and GC-MS 457 (1988) 287

**Trimethylphenylammonium hydroxide**

GC determination of methylphosphonic acids by methylation with trimethylphenylammonium hydroxide 467 (1989) 129

**Trimetrexate**

Stability of trimetrexate, a new non-classical antifolate, in infusion solutions 464 (1989) 163

**Trinitrobenzolates**

TLC decomposition of the picrates and trinitrobenzolates of polycyclic hydrocarbons and other organic compounds 463 (1989) 452

**Tripeptide-bonded phase**

HPLC separation of peptides on a diol-Gly-Phe-Phe tripeptide-bonded phase 458 (1988) 129

**Triterpenic acids**

Improved high-speed counter-current chromatograph with three multilayer coils connected in series. II. Separation of various biological samples with a semipreparative column 498 (1990) 169

**Triterpenoids**

Comparison of the chromatographic properties of sterols, select additional steroids and triterpenoids: gravity-flow column LC, TLC, GLC and HPLC 452 (1988) 377

**Trofosamide**

Analytical and preparative HPLC separation of the enantiomers of ifosfamide, cyclophosphamide and trofosamide and their determination in plasma 490 (1989) 133

**Tropane alkaloids**

Reversed-phase ion-pair HPLC separation and determination of tropane alkaloids in Chinese solanaceous plants 481 (1989) 428

**Tropisms**

Tswett's letter to Claparède on tropisms and taxes 452 (1988) 5

**Troubleshooting**

Knowledge-based expert system for troubleshooting HPLC assay methods 485 (1989) 297

**Truxillic N,N-dimethylamides**

Retention behaviour of diastereomeric truxillic and truxinic diamides and separation of an enantiomeric pair in HPLC 457 (1988) 366

**Truxinic N,N-dimethylamides**

Retention behaviour of diastereomeric truxillic and truxinic diamides and separation of an enantiomeric pair in HPLC 457 (1988) 366

**Tryptamine**

LC procedures for the analysis of compounds in the serotonergic and octoptamine pathways of lobster hemolymph 452 (1988) 491

Isolation, separation and analysis in neurochemistry: trace amines and acids as an illustrative example 488 (1989) 129

**Tryptic mapping**

Study of the primary structure of recombinant tissue plasminogen activator by reversed-phase HPLC tryptic mapping 463 (1989) 375

**Tryptophan**

LC procedures for the analysis of compounds in the serotonergic and octoptamine pathways of lobster hemolymph 452 (1988) 491

Determination of binding affinity of enantiomers to albumin by LC 456 (1988) 323

Effect of the structure and density of chemically bonded C<sub>18</sub> phase on the recovery of tryptophan and its metabolites from human urine 464 (1989) 73

Adsorption chromatography on cellulose. IV. Separation of D- and L-tryptophan and D- and L-methyltryptophan on cellulose with aqueous solvents 469 (1989) 253

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

### **Tryptophan decarboxylase**

Purification of tryptophan decarboxylase from a *Catharanthus roseus* cell suspension culture 483 (1989) 311

### **TSKgel Butyl-NPR**

High-performance hydrophobic interaction chromatography of proteins on a pellicular support based on hydrophilic resin 483 (1989) 401

### **TSKgel NPR-C<sub>18</sub>**

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

### **TSKgel NPR-DEAE**

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

### **TSKgel NPR-SP**

Fast separation of biological macromolecules on non-porous, microparticulate columns 476 (1989) 3

### **TSKgel Tresyl-Toyopearl 650M**

Preparation of adsorbents for affinity chromatography using TSK gel Tresyl-Toyopearl 650M 478 (1989) 159

### **TSK-Toyopearl gels**

TSK-Toyopearl gels for the preparative separation of sterol carrier protein<sub>2</sub> from rat liver 482 (1989) 117

### **Tung's dispersion equation**

Chromatographic dispersion corrections utilizing the generalized exponential function 462 (1989) 3

### **Turbulent flow**

Turbulent flow in capillary GC 477 (1989) 39

### **Two-dimensional chromatography**

Cluster analysis in the comparison of two dimensional chromatograms 466 (1989) 371

### **Tyramine**

Analysis of biogenic amines in the brain of the american cockroach (*Periplaneta americana*) by GC-negative ion chemical ionisation MS 490 (1989) 9

Separation of hordenine and N-methyl derivatives from germinating barley by LC with dual-electrode coulometric detection 498 (1990) 241

### **Tyrosines**

LC procedures for the analysis of compounds in the serotonergic and octopamine pathways of lobster hemolymph 452 (1988) 491

Resolution of a coeluting chromatographic pair using Kalman filtering 469 (1989) 77

HPLC determination of *m*-tyrosine and *o*-tyrosine in rat urine 489 (1989) 377

Production of tyrosine isomers in mice by therapeutic doses of <sup>60</sup>Co irradiation 497 (1989) 360

## **U**

### **U50488**

HPLC assay of k-opioid selective benzenacetamide derivatives (U50488, U69593 and PD 117302) in rat plasma and brain 491 (1989) 481

### **U69593**

HPLC assay of k-opioid selective benzenacetamide derivatives (U50488, U69593 and PD 117302) in rat plasma and brain 491 (1989) 481

### **U-78 608**

Development of a polymer-based reversed-phase HPLC stability indicating assay for U-78 608, an iron complexing monocarbam antibiotic 477 (1989) 427

**UK-61 260**

Analysis of a novel cardiac stimulant, UK-61 260, in human plasma by GC-MS with selected-ion monitoring 491 (1989) 439

**Ultrafiltration**

Sample preparation for biomedical analysis (Review) 492 (1989) 3

Automation of LC techniques for biomedical analysis (Review) 492 (1989) 59

**Ultraviolet absorption detector**

High-sensitivity micro UV absorption detector for HPLC 465 (1989) 227

**Ultraviolet labelling agents**

New UV labelling agents for HPLC determination of monocarboxylic acids 481 (1989) 211

**Ultraviolet monitoring, continuous**

Improved method for continuous UV monitoring in high-speed counter-current chromatography 475 (1989) 229

**Undecylenic acid**

Study of the influence of aqueous micellar systems on the derivatization of undecylenic acid with 4-bromomethyl-2-methoxycoumarin 456 (1988) 201

**Unfolding, kinetic mechanism**

Intrinsic fluorescence studies of the kinetic mechanism of unfolding of  $\alpha$ -lactalbumin on weakly hydrophobic chromatographic surfaces 500 (1990) 481

**UNIFAC group contribution method**

Prediction of retention in GLC using the UNIFAC group contribution method. I. Low-molecular-weight stationary phases 483 (1989) 1

**Universal calibration, GPC**

Molecular weight distribution of aspen lignins from conventional GPC, universal calibration and sedimentation equilibrium 498 (1990) 93

**Uracil**

Totally organic stationary phase from perfluoroalkyl acrylate for LC 465 (1989) 241

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

**Uracil arabinoside**

Determination of  $^3\text{H}$ -labelled cytosine arabinoside and eight metabolites in cell extracts by HPLC and scintillation spectrometry 491 (1989) 331

HPLC assay for cytosine arabinoside and uracil arabinoside in cerebrospinal fluid and plasma 497 (1989) 302

**Urea-formaldehyde polymer**

New porous organic microspheres for HPLC 476 (1989) 21

**Ureas**

Determination of cholinesterase-inhibiting pesticides and some of their metabolites in cases of animal poisoning using TLC 462 (1989) 448

**Uric acid**

Liquid chromatographic determination of common water-soluble antioxidants in biological samples 487 (1989) 463

**Uricase**

Purification of microbial uricase 497 (1989) 268

**Uridine**

Trace enrichment of pyrimidine nucleobases, 5-fluorouracil and bromacil on a silver-loaded thiol stationary phase with on-line reversed-phase HPLC 471 (1989) 321

Determination of serum cytidine deaminase activity using ion-pair reversed-phase LC 495 (1989) 105

**Uridine diphosphate glucose**

Isocratic HPLC determination of the concentration and specific radioactivity of phosphoenolpyruvate and uridine diphosphate glucose in tissue extracts 497 (1989) 69

**Uridine 5'-triphosphate**

Method for the determination of the specific activities of UTP and CTP in mouse kidney by HPLC 495 (1989) 249

**Urine Protein 1**

Purification and partial amino acid sequence of human urine protein 1. Evidence for homology with rabbit uteroglobin 452 (1988) 359

**Urokinase**

Charge heterogeneity of recombinant pro-urokinase and urinary urokinase, as revealed by isoelectric focusing in immobilized pH gradients 470 (1989) 337

**Uronic acids**

Electrophoresis of uronic acids, neutral sugars and hydrolysates of acidic polysaccharides on silylated glass-fibre paper in electrolytes of bivalent cations 498 (1990) 223

**Uroporphyrins**

Isocratic ion-pair HPLC methods for the determination of uroporphyrin and coproporphyrin type II and IV isomers in human urine 468 (1989) 329

Separation of porphyrin isomers by HPLC 493 (1989) 53

**Uteroglobin**

Purification and partial amino acid sequence of human urine protein 1. Evidence for homology with rabbit uteroglobin 452 (1988) 359

**V****Validation**

Selection of HPLC methods in pharmaceutical analysis. III. Method validation 464 (1989) 265

Expert system for method validation in chromatography 485 (1989) 283

Validation of an amperometric HPLC determination of epinephrine in bupivacaine and epinephrine injection 498 (1990) 402

**Valone**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

HPLC separation of indandione rodenticides 481 (1989) 458

**Valproic acid**

HPLC determination of valproic acid in plasma using a micelle-mediated pre-column derivatization 456 (1988) 191

Automated analysis procedure for valproic acid in blood, serum and brain dialysate by HPLC with bromomethylmethoxycoumarin as fluorescent label 487 (1989) 496

**Vanadium complexes**

Selection of conditions for the molecular size speciation of vanadium and nickel complexes in oil by SEC coupled with inductively coupled plasma-atomic emission spectrometry 462 (1989) 115

**Vancomycin**

Inaccuracies due to sample-solvent interactions in HPLC 465 (1989) 201

Rapid and specific method for the determination of vancomycin in plasma by HPLC on an aminopropyl column 487 (1989) 421

**Vanilla compounds**

Computer-assisted optimization with NEMROD software 485 (1989) 433

**Vanilla essences**

Analysis of vanilla essences by HPLC 462 (1989) 461

**Vanillic acid**

Combined monitoring of UV absorbance and fluorescence intensity as a diagnostic criterion in reversed-phase HPLC separations of natural phenolic acids 467 (1989) 149

**Vanillin**

Analysis of vanilla essences by HPLC 462 (1989) 461

**Vanillylmandelic acid**

Measurement of catecholamines, their precursor and metabolites in human urine and plasma by solid-phase extraction followed by HPLC with fluorescence derivatization 493 (1989) 15

**Vaporizer temperature**

Improving the ion current stability of a thermospray source by improving the control of the vaporizer temperature and solvent flow-rate 474 (1989) 145

**Vapour pressure**

Vapor-pressure measurement of complex hydrocarbon mixtures by headspace GC 455 (1988) 53

**Vapours**

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

**Varnish**

Application of deactivated metal capillaries to the analysis of solvents in varnish 464 (1989) 172

**Vasopressin antagonist, disulphide-containing octapeptide**

Determination of a disulfide-containing octapeptide antagonist of vasopressin in human plasma utilizing HPLC with fluorescence detection 488 (1989) 456

**Velnacrine**

Determination of velnacrine in plasma and urine by HPLC 494 (1989) 347

**Verapamil**

Determination of the enantiomers of verapamil and norverapamil in serum using coupled achiral–chiral HPLC 497 (1989) 191

**Veratroles**

Dispersion and selectivity indices in GC. IV. Chlorinated aromatic compounds 468 (1989) 373

**Very-long-chain fatty acids**

Improved determination of very-long-chain fatty acids in plasma and cultured skin fibroblasts: applications to the diagnosis of peroxisomal disorders 494 (1989) 31

**Vinblastine**

Inaccuracies due to sample–solvent interactions in HPLC 465 (1989) 201

Thermospray LC–MS analysis of *Catharanthus* alkaloids 474 (1989) 181

**Vinyl alcohol copolymer, ODS-modified**

Selectivity of an octadecyl-modified vinyl alcohol copolymer gel for the retention of polar compounds 468 (1989) 191

**Vinyl alcohol copolymer gel**

Chromatographic properties of a vinyl alcohol copolymer gel column for the analysis of non-ionic surfactants 461 (1989) 365

**4-Vinyl-1-cyclohexene**

Selected-ion monitoring of 4-vinyl-1-cyclohexene in acrylonitrile–butadiene–styrene polymer products and food simulants 482 (1989) 246

**2-Vinylpyridine**

Determination of styrene and 2-vinylpyridine monomers in poly(2-vinylpyridine–styrene) 463 (1989) 127

**Virginiamycin**

Isolation of virginiamycin- $M_1$  by droplet counter-current chromatography 454 (1988) 387

**Viruses**

Improved separation speed and efficiency for proteins, nucleic acids and viruses in asymmetrical flow field flow fractionation 476 (1989) 413

Use of high-performance SEC for the separation of poliovirus and subviral particles 498 (1990) 105

**Viscosin**

Preparative reversed-phase HPLC in the synthesis of viscosin, a cyclic depsipeptide 484 (1989) 293

**Vitamin B<sub>6</sub>**

Analysis of B<sub>6</sub> vitamers in foods using a modified HPLC method 463 (1989) 207

Analysis of vitamin B<sub>6</sub> vitamers in human tissue by cation-exchange HPLC 491 (1989) 226

**Vitamin C**

Liquid chromatographic determination of common water-soluble antioxidants in biological samples 487 (1989) 463

Anion-exchange HPLC determination of ascorbic acid and hexavalent chromium in rat lung preparations after treatment with sodium chromate in vitro and in vivo 489 (1989) 283

Determination of ascorbic acid and dehydroascorbic acid in plasma and cerebrospinal fluid by LC with electrochemical detection 497 (1989) 276

**Vitamin D<sub>3</sub>**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

Identification and determination of 1 $\alpha$ ,25-dihydroxyvitamin D<sub>3</sub> in rat skin by HPLC and radioreceptor assay 493 (1989) 63

TLC as an efficient alternative to HPLC in the assay of plasma vitamin D<sub>3</sub> metabolites 496 (1989) 242

**Vitamin E**

Measurement of vitamin E in premature infants by reversed-phase HPLC 490 (1989) 432

Improved HPLC technique for the determination of hepatic  $\alpha$ -tocopherol 495 (1989) 269

**Vitamin K**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

Fluorimetric determination of vitamin K<sub>3</sub> (menadione sodium bisulfite) in synthetic animal feed by HPLC using a post-column zinc reducer 472 (1989) 371

Measurement of vitamin K in human liver by gradient elution HPLC using platinum-black catalyst reduction and fluorimetric detection 489 (1989) 291

Measurement of K vitamins in animal tissues by HPLC with fluorimetric detection 497 (1989) 131

**Vitamins**

Separation of water-soluble vitamins by micellar electrokinetic chromatography 465 (1989) 331

**Vitamin U**

Determination of vitamin U and its degradation products by HPLC with fluorescence detection 479 (1989) 361

**Vitellogenin**

Isolation of turbot (*Scophthalmus maximum*) vitellogenin by high-performance anion-exchange chromatography 478 (1989) 387

**Volatile compounds**

Simple sample preparation for the quantitative multiple-headspace analysis of volatile components using adsorption patterns (in German) 456 (1988) 417

Analysis of volatiles in tall oil by GC flame-photometric detection, flame-ionization detection and MS 468 (1989) 145

Method for analysis of dilute vapours in flue gases and working atmospheres 468 (1989) 339

Isolation of off-flavour compounds in water by chromatographic sniffing and preparative GC 482 (1989) 23

Capillary GC determination of volatiles in solid matrices by direct introduction using a programmable-temperature vaporizer 483 (1989) 43

**Volatile fatty acids**

GC-MS studies after methylation of metabolites produced by some anaerobic bacteria in spent media 493 (1989) 257

**Volatile oils**

Use of an inexpensive low-temperature liquid crystal stationary phase for the study of volatile oil constituents with short GC retention times 467 (1989) 272

**W****Warfarin**

Separation of some rodenticides and related compounds by TLC 455 (1988) 439

Analysis of warfarin and its metabolites by reversed-phase ion-pair LC with fluorescence detection 469 (1989) 281

Separation of the enantiomers of phenprocoumon and warfarin by HPLC using a chiral stationary phase. Determination of the enantiomeric ratio of phenprocoumon in human plasma and urine 493 (1989) 149

**Water**

Indirect method for the determination of water using headspace GC 457 (1988) 247

Water as a stationary phase modifier in packed-column SFC. I. Separation of free fatty acids 459 (1988) 173

Use of a post-column reaction and a spectrophotometric detector for the LC determination of water 462 (1989) 323

Determination of water in solid samples using headspace GC 463 (1989) 365

Modified analytical technique for the determination of trace organics in water using dynamic headspace and GC-MS 467 (1989) 111

Characterization of indirect photometry for the determination of inorganic anions in natural water by ion chromatography 469 (1989) 329

Introduction of water and water-containing solvent mixtures in capillary GC. I. Failure to produce water-wettable precolumns (retention gaps) 473 (1989) 381

Introduction of water and water-containing solvent mixtures in capillary GC. II. Wettability of precolumns by mixtures of organic solvents and water; retention gap techniques 473 (1989) 391

Introduction of water and water-containing solvent mixtures in capillary GC. III. Water-resistant deactivation of uncoated precolumns? 473 (1989) 401

Introduction of water and water-containing solvent mixtures in capillary GC. IV. Principles of concurrent solvent evaporation with co-solvent trapping 473 (1989) 411

High boiling organic traces in drinking water. Quantitative analysis by liquid-liquid enrichment within the analytical glass capillary 477 (1989) 49

Foam counter-current chromatography of bacitracin. I. Batch separation with nitrogen and water free of additives 482 (1989) 197

Chromatographic determination of water using spectrophotometric detection 482 (1989) 279

Possibilities of determination and prediction of solute capacity factors in reversed-phase systems with pure water as the mobile phase 500 (1990) 281

### **Water-containing solvent mixtures**

Introduction of water and water-containing solvent mixtures in capillary GC. I. Failure to produce water-wettable precolumns (retention gaps) 473 (1989) 381

Introduction of water and water-containing solvent mixtures in capillary GC. II. Wettability of precolumns by mixtures of organic solvents and water; retention gap techniques 473 (1989) 391

Introduction of water and water-containing solvent mixtures in capillary GC. III. Water-resistant deactivation of uncoated precolumns? 473 (1989) 401

Introduction of water and water-containing solvent mixtures in capillary GC. IV. Principles of concurrent solvent evaporation with co-solvent trapping 473 (1989) 411

### **Water-resistant deactivation**

Introduction of water and water-containing solvent mixtures in capillary GC. III. Water-resistant deactivation of uncoated precolumns? 473 (1989) 401

### **Water vapour**

Chromatographic method for studying the hygroscopic qualities of solids 457 (1988) 159

### **Wax esters**

Determination of free and esterified sterols and of wax esters in oils and fats by coupled LC-GC 471 (1989) 397

### **Wettability**

Introduction of water and water-containing solvent mixtures in capillary GC. I. Failure to produce water-wettable precolumns (retention gaps) 473 (1989) 381

Introduction of water and water-containing solvent mixtures in capillary GC. II. Wettability of precolumns by mixtures of organic solvents and water; retention gap techniques 473 (1989) 391

### **Wheat proteins**

High-resolution two-dimensional electrophoresis of wheat proteins 480 (1989) 359

### **White spirit vapours**

Computerized capillary GC analysis of hydrocarbon mixtures in workplace air 498 (1990) 381

### **Wide-bore columns**

Potential of wide bore open tubular columns in GC analysis of drugs (Review) 494 (1989) 1

### **Window diagrams**

Optimization of the GC separation of five-membered ring polyarenes with an admixed BPhBT liquid crystal-Dexsil 300 stationary phase 469 (1989) 43

### **Wines**

Application of correlation chromatography to the investigation of biopolymers in wines 469 (1989) 420

# **X**

### **XAD-2**

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

**XAD-8**

Model compound sorption by the resins XAD-2, XAD-8 an diethylaminoethylcellulose. An useful application to flavonoids isolation 478 (1989) 225

**Xanthines**

Study of the lipophilic character of xanthine and adenosine derivatives. I.  $R_M$  and log  $P$  values 498 (1990) 179

**Xanthopterin**

Determination of pterins in urine by HPLC on  $C_{18}$  columns conditioned with cetyltrimethylammonium bromide 458 (1988) 217

**Xanturenic acid**

Separation of tryptophan metabolites by reversed-phase HPLC with amperometric and fluorescence detection 495 (1989) 71

**Xenon-133**

Chromatographic separation and purification of xenon-133 462 (1989) 191

**Ximoprofen**

Determination of ximoprofen in human plasma by GC 495 (1989) 275

**Xylazine**

Determination of residues of carazolol and a number of tranquillizers in swine kidney by HPLC with UV and fluorescence detection 464 (1989) 149

Rapid extraction and determination of xylazine in greyhound urine using HPLC 491 (1989) 519

**Xylem sap**

Determination of cations in xylem sap by ion-exchange HPLC with UV detection (in French) 462 (1989) 303

**Xylenol orange**

Photometric detection of metal cations in capillary isotachopheresis based on complex equilibria 470 (1989) 155

**Xylometazoline**

Determination of xylometazoline in plasma and urine by GC using a fused-silica capillary column and an electron-capture detector 487 (1989) 81

**D-Xylose**

Scale-up and optimization in production LC 484 (1989) 211

**Y****Yangonin**

Identification of some human urinary metabolites of the intoxicating beverage kava 475 (1989) 273

**Young racemization test**

HPLC improvement of the Young racemization test 477 (1989) 454

**Z****Zearalenol**

Sensitive analysis of the mycotoxin zearalenone and its metabolites in biological fluids by HPLC 494 (1989) 267

**Zearalenone**

Chromatographic methods as tools in the field of mycotoxins (Review) 477 (1989) 187

HPLC determination of zearalenone and ochratoxin A in cereals and feed 478 (1989) 269

Sensitive analysis of the mycotoxin zearalenone and its metabolites in biological fluids by HPLC 494 (1989) 267

**Zeranol**

Use of LC in the synthesis of isoluminol-labelled medroxyprogesterone acetate and zeranol 469 (1989) 305

Metabolism of some anabolic agents: toxicological and analytical aspects 489 (1989) 11  
Application of optimization procedures for the separation of anabolic compounds by HPLC 489 (1989) 57

Profiling of free and conjugated [ $^3\text{H}$ ]zeranol metabolites in pig plasma 489 (1989) 191

Multi-residue screening of bovine urine on xenobiotic oestrogens with an oestrogen radioreceptor assay 489 (1989) 225

### **Zinc hydroxo complexes**

Determination of metal ion complexes in electroplating solutions using capillary zone electrophoresis with UV detection 480 (1989) 427

### **Zinc reduction**

Fluorimetric determination of vitamin K<sub>3</sub> (menadione sodium bisulfite) in synthetic animal feed by HPLC using a post-column zinc reducer 472 (1989) 371

### **Zipeprol**

Measurement of zipeprol in rat plasma by GC with nitrogen–phosphorus detection 493 (1989) 398

### **Zirconia, polymer-coated**

Preparation and evaluation of a polymer-coated zirconia reversed-phase chromatographic support 484 (1989) 273

### **Zirconium hydroxide**

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II.

Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187

Physical and chemical characterization of microporous zirconia 499 (1990) 291

### **Zirconium oxide**

High-performance adsorption chromatography of proteins on deformed non-porous agarose beads coated with insoluble metal compounds. II. Coating: aluminium and zirconium (hydr)oxide with stoichiometrically bound phosphate 481 (1989) 187

### **Zone broadening**

Zone broadening due to sample injection in capillary zone electrophoresis 471 (1989) 421

### **Zwittergent 3-12**

Potential of the sulfobetaine detergent Zwittergent 3-12 as a desorbing agent in biospecific and bioselective affinity chromatography 497 (1989) 87

### **Zwitterion-containing buffers**

Capillary electrophoresis of proteins in buffers containing high concentrations of zwitterionic salts 480 (1989) 301
