

## COMPOUND INDEX

## J. CHROMATOGR. A VOLS. 702–750

## A

- Abscisic acid**  
Monitoring of hapten–protein coupling reactions by capillary zone electrophoresis: improvement of abscisic acid–bovine serum albumin coupling and determination of molar coupling ratios 723(1996)381
- Abscisic acid glucosyl ester**  
Liquid chromatography–electrospray ionization mass spectrometry for analysing plant hormone conjugates 728(1996)371
- Acenaphthene-5-sulphonyl chloride**  
Acenaphthene fluorescence derivatisation reagents for use in high-performance liquid chromatography 715(1995)201
- Acenaphthene-5-sulphonyl hydrazine**  
Acenaphthene fluorescence derivatisation reagents for use in high-performance liquid chromatography 715(1995)201
- Acenocoumarol**  
Separation of diastereomers by capillary zone electrophoresis in free solution with polymer additive and organic solvent component. Effect of pH and solvent composition 719(1996)411
- Acesulphame-K**  
Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203
- Acetaldehyde**  
Elucidation of the degradation mechanism of 2-chloroethanol by hydrogen peroxide under ultraviolet irradiation 706(1995)345
- Acetaminophen**  
see also Paracetamol  
Comparison of softwares used for the detection of analytes present at low levels in liquid chromatographic–mass spectrometric experiments 712(1995)31
- Liquid chromatographic determination of cephalexin preparations: interlaboratory validation 727(1996)239
- Acetate**  
Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571
- Acetic acid**  
Elucidation of the degradation mechanism of 2-chloroethanol by hydrogen peroxide under ultraviolet irradiation 706(1995)345  
Use of ion chromatography for the measurement of organic acids in fruit juices 706(1995)395  
Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27
- Acetic acid, chlorinated**  
Analysis of chlorinated acetic and propionic acids as their pentafluorobenzyl derivatives. I. Preparation of the derivatives 718(1995)391
- Acetonitrile**  
Experiences with HPLC-grade solvents 715(1995)199  
Peptide stacking by acetonitrile–salt mixtures for capillary zone electrophoresis 744(1996)231  
Systematic approach to the treatment of enantiomeric separations in capillary electrophoresis and liquid chromatography. III. A binding constant-retention factor relationship and effects of acetonitrile on the chiral separation of tioconazole 745(1996)25
- Acetophenone**  
Quantitative structure–retention relationships (QSRR) of congeneric aromatics series studied on phenyl OV phases in gas chromatography 723(1996)77  
Counter-current chromatography using supercritical fluid carbon dioxide as mobile phase 724(1996)91
- Acetylation**  
Separation of acetylated core histones by hydrophilic-interaction liquid chromatography 743(1996)137

**Acetylcholine**

Application of a novel, plastic formed carbon as a precolumn packing material for the liquid chromatographic determination of acetylcholine and choline in biological samples 718(1995)267

**Acetylcholine esterase**

Perfusion immunoassay for acetylcholinesterase: analyte detection based on intrinsic activity 711(1995)23

**Acetylneuraminic acid**

Interaction mechanisms between insulin and N-acetylneuraminic acid in affinity chromatography 711(1995)93

Determination of cytidine 5'-monophospho-N-acetylneuraminic acid pool size in cell culture scale using high-performance anion-exchange chromatography with pulsed amperometric detection 727(1996)223

**Acetylsalicylic acid**

Application of high-performance liquid chromatography with diode-array detection and on-line post-column photochemical derivatization to the determination of analgesics 729(1996)355

Analysis of oligo- and poly-N-acetylneuraminic acids and their lactones by capillary electrophoresis 741(1996)295

**Acid Alizarin Violet N**

Retention model for singly and doubly charged analytes in ion-interaction chromatography 728(1996)55

**Acid chlorides**

Direct determination of 4-nitrobenzoyl chloride by high-performance liquid chromatography based on silanophilic interaction 710(1995)347

**Acids**

see also Carboxylic acids

Gas chromatography of petroleum-derived waxes and high-molecular-mass linear alcohols and acids 718(1995)119

High-performance liquid chromatographic-electrospray mass spectrometric analysis of phenolic acids and aldehydes 730(1996)31

Preparative regime for the purification of bitter acids derived from hops (*Humulus lupulus* L.) 731(1996)327

**Acrylates**

Application of solid sorbents to the trace analysis of alkyl esters of acrylic acid in air 710(1995)167

**Actinides**

Determination of lanthanides and actinides in uranium materials by high-performance liquid chromatography with inductively coupled plasma mass spectrometric detection 739(1996)139

**Acuminatopyrone**

Simultaneous high-performance liquid chromatographic determination of visoltricin, acuminatopyrone and chlamydosporols in *Fusarium* cultures on maize 730(1996)69

**Acyclovir**

Quantitative structure-retention relationships of acyclovir esters using immobilised albumin high-performance liquid chromatography and reversed-phase high-performance liquid chromatography 707(1995)367

**Acyl-coenzyme A**

Performance of an electrospray-interfaced thermospray ion source in hyphenated techniques 712(1995)211

**Adamantanes**

Capillary electrophoresis of cationic surfactants with tetrazolium violet and of anionic surfactants with adenosine monophosphate and indirect photometric detection 739(1996)405

**Adamsite**

Derivatization of 10-chloro-5,10-dihydrophenarsazine (Adamsite) for gas chromatographic analysis 719(1996)401

**Adenosine deaminase**

Study of the competitive inhibition of adenosine deaminase by erythro-9-(2-hydroxy-3-nonyl)adenine using capillary zone electrophoresis 745(1996)293

**Adenosine monophosphate**

Capillary electrophoresis of phosphate ester surfactants with adenosine monophosphate and indirect photometric detection 737(1996)315

Capillary electrophoresis of cationic surfactants with tetrazolium violet and of anionic surfactants with adenosine monophosphate and indirect photometric detection 739(1996)405

**Adenosine 5'-triphosphate**

Separation of polyphosphates and polycarboxylates by capillary electrophoresis in a carrier electrolyte containing adenosine 5'-triphosphate and cetyltrimethylammonium bromide with indirect UV detection 723(1996)197

**Adipic acid polyesters**

Characterization of low-molar-mass polymers by gradient polymer elution chromatography 746(1996)211

**Adrenergic antagonists**

Capillary electrophoresis of cardiovascular drugs 735(1996)123

**Aflatoxins**

Determination of aflatoxins in airborne dust from feed factories by automated immunoaffinity column clean-up and liquid chromatography 708(1995)55

Postcolumn excitation of aflatoxins using cyclodextrins in liquid chromatography for food analysis 721(1996)69

- Agarose**  
Thiophilic nature of divinylsulphone cross-linked agarose 734(1996)241
- Aglycons**  
Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography–chemical ionization mass spectrometry 736(1996)195
- Albendazole**  
Simple, robust and accurate high-performance liquid chromatography method for the analysis of several anthelmintics in veterinary formulations 729(1996)267
- Albumin**  
“Perfusion chromatography”. The effects of intra-particle convective velocity and microsphere size on column performance 702(1995)45  
High-performance capillary electrophoretic separation of human serum albumin using a neutral coated capillary 705(1995)335  
Perfusion chromatography: performance of periodic countercurrent column operation and its comparison with fixed-bed operation 711(1995)3  
Preparation of a hydrophobic porous membrane containing phenyl groups and its protein adsorption performance 718(1995)27  
Quantification of the major bovine whey proteins using capillary zone electrophoresis 723(1996)371  
Monitoring of hapten–protein coupling reactions by capillary zone electrophoresis: improvement of abscisic acid–bovine serum albumin coupling and determination of molar coupling ratios 723(1996)381  
Modelling and analysis of the elution stage of “perfusion chromatography”. Effects of intraparticle convective velocity and microsphere size on system performance 724(1996)13  
Role of binding capacity versus binding strength in the separation of chiral compounds on protein-based high-performance liquid chromatography columns 725(1996)273  
Preparative membrane adsorber chromatography for the isolation of cow milk components 729(1996)87  
Perfusion liquid chromatography of whey proteins 729(1996)99  
Congo Red and Cu(II) carrying poly(ethylene glycol dimethacrylate–hydroxyethyl methacrylate) microbeads as specific sorbents. Albumin adsorption/desorption 731(1996)57  
Adsorption isotherms in protein chromatography. Combined influence of protein and salt concentration on adsorption isotherm 734(1996)183  
Isolation by gel-permeation chromatography of a non-covalent complex of Cibacron Blue F3G-A with human serum albumin 736(1996)115  
Determination of amino acids in the foods by reversed-phase high-performance liquid chromatography with a new precolumn derivative, butylthiocarbamyl amino acid, compared to the conventional phenylthiocarbamyl derivatives and ion-exchange chromatography 740(1996)31  
Determination of protein amino acids as benzylthiocarbamyl derivatives compared with phenylthiocarbamyl derivatives by reversed-phase high-performance liquid chromatography, ultraviolet detection and precolumn derivatization 740(1996)41  
Effects of organic modifiers on the chiral recognition by different types of silica-immobilized bovine serum albumin 740(1996)207  
Effects of structural and kinetic parameters on the performance of chromatographic columns packed with perfusive and purely diffusive adsorbent particles 743(1996)3  
Influence of column type and chromatographic conditions on the ion-exchange chromatography of immunoglobulins 743(1996)171  
Characterization of protein adsorption by composite silica–polyacrylamide gel anion exchangers 746(1996)169  
Characterization of protein adsorption by composite silica–polyacrylamide gel anion exchangers 746(1996)185
- Alcohol dehydrogenase**  
Preparation and characterization of isozymes and isoforms of horse liver alcohol dehydrogenase 711(1995)105
- Alcohol ethoxylates**  
Homologue separation of linear alcohol ethoxylates by high-performance liquid chromatography 732(1996)299  
Chromatographic tools for analyzing and tracking non-ionic surfactants in the aquatic environment 733(1996)185
- Alcohol polyethoxylates**  
Chromatographic determination of non-ionic aliphatic surfactants of the alcohol polyethoxylate type in the environment (Review) 733(1996)193
- Alcohols**  
Capillary electrophoresis of hair proteins modified by alcohol intake in laboratory rats 709(1995)111  
Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309  
Nickel(II) chelates of some tetradentate Schiff bases as stationary phases for gas chromatography 715(1995)366

Capillary electrochromatography of small molecules in polyacrylamide gels with electroosmotic flow 716(1995)107

Gas chromatography of petroleum-derived waxes and high-molecular-mass linear alcohols and acids 718(1995)119

Determination of alcohols by high-performance liquid chromatography with fluorimetric detection after precolumn derivatization with 2-(4-carboxyphenyl)-6-methoxybenzofuran 724(1996)107

Membrane characterisation and performance of microdialysis probes intended for use as bioprocess sampling units 725(1996)41

High-sensitivity fluorescence derivatization for the determination of hydroxy compounds in aqueous solution by high-performance liquid chromatography 728(1996)333

Prefractionation of aroma extracts from fat-containing food by high-performance size-exclusion chromatography 729(1996)371

Diphenylethanediamine derivatives as chiral selectors 732(1996)215

Comparative study of high-performance liquid chromatography and micellar electrokinetic capillary chromatography applied to the analysis of different mixtures of pesticides 737(1996)109

Surface ionization detector with a supersonic free jet for gas chromatography. Some applications 750(1996)335

### **Aldehydes**

see also Carbonyl compounds

Determination of aliphatic aldehydes as their thiazolidine derivatives in foods by gas chromatography with flame photometric detection 709(1995)303

Determination of aldehydes in basic medium by gas chromatography using O-benzylhydroxylamine derivatization 709(1995)387

Derivatization and chromatographic determination of aldehydes in gaseous and air samples 710(1995)159

Nickel(II) chelates of some tetradentate Schiff bases as stationary phases for gas chromatography 715(1995)366

Gas chromatographic determination of vapour pressures of pheromone-like compounds. III. Aldehydes 719(1996)391

Determination of 4-hydroxy-2-nonenal by precolumn derivatization and liquid chromatography with laser fluorescence detection 719(1996)450

Selection of column and gradient for the separation of polyphenols in sherry wine by high-performance liquid chromatography incorporating internal standards 724(1996)117

High-performance liquid chromatographic–electrospray mass spectrometric analysis of phenolic acids and aldehydes 730(1996)31

Chromatographic and related spot tests for the detection of water pollutants 733(1996)5

New gas chromatographic–electron-capture detection method for the determination of atmospheric aldehydes and ketones based on cartridge sampling and derivatization with 2,4,6-trichlorophenylhydrazine 740(1996)71

Analysis of single raindrops in the nl range by capillary electrophoresis 745(1996)209

High-performance liquid chromatographic determination of 2-furaldehyde and 5-hydroxymethyl-2-furaldehyde in honey 749(1996)95

Optimization of solid-phase extraction method for analysis of low-ppb amounts of aldehydes-ozonation by-products 749(1996)157

### **Alditol acetates**

Recent progress in the analysis of sugar monomers from complex matrices using chromatography in conjunction with mass spectrometry or stand-alone tandem mass spectrometry 720(1996)51

### **Alendronate sodium**

Determination of alendronate sodium by ion chromatography with refractive index detection 719(1996)345

### **Alitame**

Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203

### **Alkadienes**

Assessment by gas chromatography and gas chromatography–mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

### **Alkali metals**

Selectivity of chemically bonded zwitterion-exchange stationary phases in ion chromatography 706(1995)59

Cation analysis on a new poly(butadiene–maleic acid)-based column 706(1995)99

Selectivity enhancement on a poly(butadiene–maleic acid)-coated cation phase induced by ethylene oxide-based complexing agents 706(1995)103

Ion chromatographic separation of alkali metals in organic solvents 706(1995)149

Application of capillary electrophoresis in atmospheric aerosol analysis: determination of cations 706(1995)527

Effect of the concentration of 18-crown-6 added to the electrolyte upon the separation of ammonium, alkali and alkaline-earth cations by capillary electrophoresis 706(1995)535

Migration behaviour of alkali and alkaline-earth metal ion-EDTA complexes and quantitative analysis of magnesium in real samples by capillary electrophoresis with indirect ultraviolet detection 707(1995)343

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

Silica-bonded calixarenes in chromatography 731(1996)47

Coated versus fused-silica capillaries for the separation of inorganic and organic cations by capillary zone electrophoresis 736(1996)265

Separation of alkali and alkaline-earth metal and ammonium cations by capillary electrophoresis using poly(ethylene glycol) and tartaric acid 742(1996)281

Capillary electrophoretic estimation of sulfate stability constants of metal ions and determination of alkali and alkaline earth metals in waters 745(1996)127

Control of separation selectivity and electroosmotic flow in nonaqueous capillary electrophoretic separations of alkali and alkaline earth metal ions 749(1996)279

#### **Alkaline-earth metals**

Selectivity of chemically bonded zwitterion-exchange stationary phases in ion chromatography 706(1995)59

Cation analysis on a new poly(butadiene-maleic acid)-based column 706(1995)99

Selectivity enhancement on a poly(butadiene-maleic acid)-coated cation phase induced by ethylene oxide-based complexing agents 706(1995)103

Determination of aluminium in natural waters by single-column ion chromatography with indirect UV detection 706(1995)307

Ion chromatographic determination of beryllium in rock and waste waters with a chelating sorbent and conductimetric detection 706(1995)315

Application of capillary electrophoresis in atmospheric aerosol analysis: determination of cations 706(1995)527

Effect of the concentration of 18-crown-6 added to the electrolyte upon the separation of ammonium, alkali and alkaline-earth cations by capillary electrophoresis 706(1995)535

Migration behaviour of alkali and alkaline-earth metal ion-EDTA complexes and quantitative analysis of magnesium in real samples by capillary electrophoresis with indirect ultraviolet detection 707(1995)343

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

Silica-bonded calixarenes in chromatography 731(1996)47

Coated versus fused-silica capillaries for the separation of inorganic and organic cations by capillary zone electrophoresis 736(1996)265

Comparison of the chelating ion exchange properties of dye coated cellulose and polystyrene substrates for the separation and determination of trace metals from aqueous media 739(1996)81

Separation of alkali and alkaline-earth metal and ammonium cations by capillary electrophoresis using poly(ethylene glycol) and tartaric acid 742(1996)281

Capillary electrophoretic estimation of sulfate stability constants of metal ions and determination of alkali and alkaline earth metals in waters 745(1996)127

Control of separation selectivity and electroosmotic flow in nonaqueous capillary electrophoretic separations of alkali and alkaline earth metal ions 749(1996)279

#### **Alkali salts**

Design and optimization of a novel type nitrogen-phosphorus detector for capillary gas chromatography 732(1996)51

#### **Alkaloid N-oxides**

Reversed-phase high-performance liquid chromatographic separation of epimeric alkaloid N-oxides from *Thalictrum simplex* L. 730(1996)63

#### **Alkaloids**

Endogenous alkaloids in man. XXI. Analysis of glyoxylate-derived 1,3-thiazolidines and their precursors after trimethylsilylation by gas chromatography-mass spectrometry 707(1995)267

Application of  $\beta$ -cyclodextrin for the analysis of the main alkaloids from *Chelidonium majus* by capillary electrophoresis 717(1995)271

Determination of morphine and related alkaloids in crude morphine, poppy straw and opium preparations by micellar electrokinetic capillary chromatography 718(1995)217

Variation in the alkaloid content of different subspecies of *Chamaecytisus proliferus* from the Canary Islands 719(1996)237

Determination of ibogaine in plasma by gas chromatography-chemical ionization mass spectrometry 723(1996)101

Separation of *E-Z* isomeric macrocyclic spermine alkaloids of *Verbascum pseudonobile* and *Verbascum phoeniceum* and of their derivatives using thin-layer chromatography 724(1996)416

Determination of the alkaloids in *Evodiae Fructus* by high-performance liquid chromatography 727(1996)317

Preparative separation of pyrrolizidine alkaloids by high-speed counter-current chromatography 732(1996)43

End-capping of octadecylsilylated silica gels by high-temperature silylation 737(1996)139

Evaluation of micellar electrokinetic capillary chromatography for the analysis of selected tobacco alkaloids 746(1996)131

Integrated derivatization-chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

Lesser alkaloids of cocaine-bearing plants 749(1996)173

#### Alkanes

Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography-mass spectrometry 712(1995)321

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

Thermodynamic consideration of the retention mechanism in a poly(perfluoroalkyl ether) gas chromatographic stationary phase used in packed columns 715(1995)299

Large-volume injection in capillary gas chromatography using a programmed-temperature vaporizing injector in the on-column or solvent-vent injection mode 724(1996)384

Detectability enhancement by the use of large-volume injections in gas chromatography-cryotrapping-Fourier transform infrared spectrometry 732(1996)75

New approach to the characterization of pyrolysis coal products by gas chromatography-mass spectrometry 736(1996)185

Variable flow control and collection device for use with supercritical fluids 738(1996)241

Comparison of two azobenzene liquid crystal stationary phases in open tubular column gas chromatography 746(1996)247

New method for estimating vapor pressure by the use of gas chromatography 749(1996)123

On-line high-performance liquid chromatography-solvent evaporation-high-performance liquid chromatography-capillary gas chromatography-flame ionisation detection for the analysis of mineral oil polyaromatic hydrocarbons in fatty foods 750(1996)361

#### Alkanesulphonates

Separation of anionic surfactants on anion exchangers 706(1995)327

Utilization of fluorescein sodium salt in laser-induced indirect fluorimetric detection. II. Application to organic anions 716(1995)279

#### Alkenes

Assessment by gas chromatography and gas chromatography-mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

Thermodynamic consideration of the retention mechanism in a poly(perfluoroalkyl ether) gas chromatographic stationary phase used in packed columns 715(1995)299

#### Alkenones

Pitfalls in the chromatographic determination of the alkenone  $U_{37}^k$  index for paleotemperature estimation 723(1996)285

#### Alkylamines

Effects of alkylamines on electroosmotic flow and protein migration behaviour in capillary electrophoresis 709(1995)127

#### Alkylammonium ions

Maximization of separation efficiency in capillary electrophoretic chiral separations by means of mobility-matching background electrolytes 730(1996)273

#### Alkylation

Pyrolytic alkylation-gas chromatography-mass spectrometry of model polymers. Further insights into the mechanism and scope of the technique 750(1996)155

#### Alkylbenzenes

Determination of benzene and alkylated benzenes in ambient and exhaled air by microwave desorption coupled with gas chromatography-mass spectrometry 719(1996)383

Using topological indices in the prediction of gas chromatographic retention indices of linear alkylbenzene isomers 719(1996)462

Alkylbenzenes as a retention-index scale in reversed-phase high-performance liquid chromatography 722(1996)59

Novel additives for the separation of organic compounds by high-performance liquid chromatography 728(1996)235

High-performance liquid chromatography with non-aqueous solvents. Relative elution strength on a polystyrene-divinylbenzene column 728(1996)271

#### Alkylbenzene sulphonates

Separation of anionic surfactants on anion exchangers 706(1995)327

Methods of analysis of polar aromatic sulfonates from aquatic environments 733(1996)473

**Alkylbenzene sulfonates, linear**

Capillary electrophoresis methods development and sensitivity enhancement strategies for the separation of industrial and environmental chemicals 744(1996)123

Separation of ionic and neutral surfactants by capillary electrophoresis and high-performance liquid chromatography 745(1996)281

**Alkyl benzoates**

Evaluation of the parameters determining the performance of electrochromatography in packed capillary columns 716(1995)207

**Alkylbenzyl quaternary ammonium compounds**

Capillary zone electrophoretic separation of alkylbenzyl quaternary ammonium compounds: effect of organic modifier 722(1996)345

**Alkylbetaine**

Determination of amphoteric surfactants in cosmetic cleansing products by high-performance liquid chromatography on a cation-exchange column 715(1995)195

**Alkylbis(2-benzothiazolylsulfen)amides**

Reversed-phase high-performance liquid chromatographic method for the quantitative determination of alkylbis(2-benzothiazolylsulfen)amides 710(1995)351

**Alkylbis(trifluoromethyl)phosphine sulphides**

Comparison of four homologous retention index standard series for qualitative gas chromatography of nitrogenous acidic and neutral drugs 738(1996)233

**Alkylhydantoins**

Comparison of four homologous retention index standard series for qualitative gas chromatography of nitrogenous acidic and neutral drugs 738(1996)233

**Alkylmaleimides**

Comparison of four homologous retention index standard series for qualitative gas chromatography of nitrogenous acidic and neutral drugs 738(1996)233

**Alkylmethylhydantoins**

Comparison of four homologous retention index standard series for qualitative gas chromatography of nitrogenous acidic and neutral drugs 738(1996)233

**Alkyl methylphosphonic acids**

Atomic emission detection for the quantitation of trimethylsilyl derivatives of chemical-warfare-agent related compounds in environmental samples 709(1995)333

**Alkylphenol ethoxylate surfactants**

Oligomeric separation of alkylphenol ethoxylate surfactants on silica using aqueous acetonitrile eluents 731(1996)171

Chromatographic tools for analyzing and tracking non-ionic surfactants in the aquatic environment 733(1996)185

Determination of surfactants in surface water by solid-phase extraction, liquid chromatography and liquid chromatography-mass spectrometry 733(1996)207

**Alkylphenols**

Novel additives for the separation of organic compounds by high-performance liquid chromatography 728(1996)235

High-performance liquid chromatography with non-aqueous solvents. Relative elution strength on a polystyrene-divinylbenzene column 728(1996)271

Separation of structural homologues of alkylphenols and isomers of 4-nonylphenol by cyclodextrin-modified micellar electrokinetic chromatography 749(1996)227

**Alkyl phenyl ketones**

Polymer-supported pseudo-stationary phase for electrokinetic chromatography. Electrokinetic chromatography in a full range of methanol-water mixtures with alkylated starburst dendrimers 716(1995)57

**Alkyl phosphates**

Sample preparation techniques for determining semi-volatile organic compounds in nuclear defense materials production waste 738(1996)215

**Alkylphosphonic acids**

Capillary electrophoresis analysis of chemical warfare agent breakdown products 741(1996)279

**Alkylpolyoxyethylene glycols**

Capillary gas chromatography of higher alkylpolyoxyethylene glycols with an even number of carbon atoms in the alkyl group. Influence of type of derivatizing agent, alcohol chain length and oxyethylene chain length on the retention indices with a linear temperature increase 727(1996)131

**Alkylsulfonates**

Mixed micelles of short chain alkyl surfactants and bile salts in electrokinetic chromatography: Enhanced separation of corticosteroids 738(1996)275

**Alkylsulfonic acids**

Determination of alkyl sulfonic acids in pharmaceuticals by ion chromatography 724(1996)199

**Alkyl sulphates**

Separation of anionic surfactants on anion exchangers 706(1995)327

**Allyl *p*-nitrophenyl sulfoxide**

Enantioselective chromatography on brush-type chiral stationary phases containing totally synthetic selectors. Theoretical aspects and practical applications 724(1996)79

**Aloe-emodin**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Aloenin**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Aloeresin A**

High-performance liquid chromatographic profiles of aloe constituents and determination of aloin in beverages, with reference to the EEC regulation for flavouring substances 718(1995)99

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Aloeresin E**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Aloesin**

High-performance liquid chromatographic profiles of aloe constituents and determination of aloin in beverages, with reference to the EEC regulation for flavouring substances 718(1995)99

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Aloinosides**

High-performance liquid chromatographic profiles of aloe constituents and determination of aloin in beverages, with reference to the EEC regulation for flavouring substances 718(1995)99

**Aloins**

High-performance liquid chromatographic profiles of aloe constituents and determination of aloin in beverages, with reference to the EEC regulation for flavouring substances 718(1995)99

**Alprenolol**

Enantiomeric separation of basic drugs using N-benzyloxycarbonylglycyl-L-proline as counter ion in methanol 705(1995)275

**Alternariol**

Determination of alternariol and alternariol methyl ether in apple juice using solid-phase extraction and high-performance liquid chromatography 731(1996)109

**Alumina**

Comparison of an ordered mesoporous aluminosilicate, silica, alumina, titania and zirconia in normal-phase high-performance liquid chromatography 740(1996)1

**Aluminium**

Determination of aluminium in natural waters by single-column ion chromatography with indirect UV detection 706(1995)307

**Aluminium alloys**

Sources of variability in cation analysis for a quantitative exfoliation corrosion resistance test 739(1996)183

**Aluminosilicate**

Comparison of an ordered mesoporous aluminosilicate, silica, alumina, titania and zirconia in normal-phase high-performance liquid chromatography 740(1996)1

**Alytesin**

Investigation of crudes of synthesis of neuropeptide Y by high-performance liquid chromatography–electrospray mass spectrometry 715(1995)227

**Amanitins**

Analysis of amatoxins  $\alpha$ -amanitin and  $\beta$ -amanitin in toadstool extracts and body fluids by capillary zone electrophoresis with photodiode array detection 744(1996)167

**Amaranth**

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

**Amatoxins**

Analysis of amatoxins  $\alpha$ -amanitin and  $\beta$ -amanitin in toadstool extracts and body fluids by capillary zone electrophoresis with photodiode array detection 744(1996)167

**Ametryne**

On-line partial filling micellar electrokinetic chromatography–electrospray ionization mass spectrometry 749(1996)219

**Amides**

Solubility and polarity parameters for pyridinecarboxamides and their complexes with copper(II) as determined by inverse gas chromatography 740(1996)253

**2-Amine-5-nitro-2'-chlorobenzophenone**

Separation and structural elucidation of the hydrolysis compounds of loprazolam 721(1996)123

**Amines**

see also Biogenic amines and Catecholamines

Determination of anions in amine solutions for sour gas treatment 706(1995)339

Determination of biogenic amines and their precursor amino acids in wines of the Vallée du Rhône by high-performance liquid chromatography with precolumn derivatization and fluorimetric detection 707(1995)373

Direct separation of carboxylic acid and amine enantiomers by high-performance liquid chromatography on reversed-phase silica gels coated with chiral copper(II) complexes 707(1995)380

Simultaneous determination of amino acids and biogenic amines by reversed-phase high-performance liquid chromatography of the dabsyl derivatives 715(1995)67

Solid-phase extraction for the selective isolation of polycyclic aromatic hydrocarbons, azaarenes and heterocyclic aromatic amines in charcoal-grilled meat 731(1996)85

**4-Amino-3-(5-chlorothien-2-yl)butyric acid**

GABA-B agonists: enantiomeric resolution of 4-amino-3-(5-chlorothien-2-yl)butyric acid and analogues on chiral crown ether stationary phase 715(1995)361

**4-Amino-4'-nitrostilbene-2,2'-disulfonic acid**

Determination of 4,4'-diaminostilbene-2,2'-disulfonic acid by thin-layer chromatography and densitometry 727(1996)324

**Amino acid ester hydrochlorides**

Silica-bonded calixarenes in chromatography 731(1996)47

**Amino acids**

Separation of peptide derivatives by pH-zone-refining counter-current chromatography 702(1995)197

Selective determination of peptides containing specific amino acid residues by high-performance liquid chromatography and capillary electrophoresis 704(1995)27

Cationic  $\beta$ -cyclodextrin: a new versatile chiral additive for separation of drug enantiomers by high-performance liquid chromatography 704(1995)67

Validation of quantitative chromatographic analysis on laboratory-prepared thin layers 704(1995)173

Direct and indirect chiral separation of amino acids by capillary electrophoresis 704(1995)179

Monitoring of optical isomers of some conformationally constrained amino acids with tetrahydroisoquinoline or tetraline ring structures. Part II 705(1995)257

Determination of amino acids in biomass and protein samples by microwave hydrolysis and ion-exchange chromatography 706(1995)421

Peptide chiral purity determination: hydrolysis in deuterated acid, derivatization with Marfey's reagent and analysis using high-performance liquid chromatography-electrospray ionization-mass spectrometry 707(1995)233

Free-solution capillary electrophoretic resolution of chiral amino acids via derivatization with homochiral isothiocyanates. Part I 707(1995)355

Determination of biogenic amines and their precursor amino acids in wines of the Vallée du Rhône by high-performance liquid chromatography with precolumn derivatization and fluorimetric detection 707(1995)373

Rapid gas chromatographic screening of edible seeds, nuts and beans for non-protein and protein amino acids 708(1995)131

Optimization of the determination of amino acids in parenteral solutions by high-performance liquid chromatography with precolumn derivatization using 9-fluorenylmethyl chloroformate 708(1995)203

Diode laser-induced fluorescence detection in capillary electrophoresis after pre-column derivatization of amino acids and small peptides 708(1995)309

Separation of precolumn-labelled D- and L-amino acids by micellar electrokinetic chromatography with UV and fluorescence detection 708(1995)323

Micellar electrokinetic chromatography using high-molecular-mass surfactants: comparison between anionic and cationic surfactants and effects of modifiers 709(1995)3

Enantiomeric resolution of derivatized DL-amino acids by high-performance liquid chromatography using a  $\beta$ -cyclodextrin chiral stationary phase: A comparison between derivatization labels 710(1995)287

Quantitative analysis of fluorinated ethylchloroformate derivatives of non-protein amino acids using positive and negative chemical ionization gas chromatography-mass spectrometry 710(1995)303

Measurement of desmosine and isodesmosine by capillary zone electrophoresis 710(1995)357

Identification of a new genetic variant of bovine  $\beta$ -casein using reversed-phase high-performance liquid chromatography and mass spectrometric analysis 711(1995)141

Liquid chromatographic determination of D- and L-amino acids by derivatization with *o*-phthalaldehyde and N-isobutyryl-L-cysteine. Applications with reference to the analysis of peptidic antibiotics, toxins, drugs and pharmaceutically used amino acids 711(1995)201

Simultaneous determination of amino acids and biogenic amines by reversed-phase high-performance liquid chromatography of the dabsyl derivatives 715(1995)67

GABA-B agonists: enantiomeric resolution of 4-amino-3-(5-chlorothien-2-yl)butyric acid and analogues on chiral crown ether stationary phase 715(1995)361

Capillary electrochromatography of small molecules in polyacrylamide gels with electroosmotic flow 716(1995)107

Post-column reaction system for fluorescence detection in capillary electrophoresis 716(1995)123

Optical resolution of amino acid derivatives by micellar electrokinetic chromatography with sodium N-tetradecanoyl-L-glutamate 716(1995)319

Capillary electrophoretic methods for a clear identification of selenoamino acids in complex matrices such as human milk 716(1995)323

Study of the racemization of L-serine by cyclodextrin-modified micellar electrokinetic chromatography and laser-induced fluorescence detection 716(1995)331

- Capillary electrophoretic determination of amino acids  
Improvement by cyclodextrin additives 716(1995)335
- Determination of  $\alpha$ -difluoromethylornithine in blood by  
microdialysis sampling and capillary electrophoresis with UV  
detection 716(1995)381
- Child cerebrospinal fluid analysis by capillary electrophoresis  
and laser-induced fluorescence detection 717(1995)293
- Ball-lens laser-induced fluorescence detector as an easy-to-use  
highly sensitive detector for capillary electrophoresis.  
Application to the identification of biogenic amines in dairy  
products 717(1995)335
- Amino acid and amino sugar determination by derivatization  
with 6-aminoquinolyl-N-hydroxysuccinimidyl carbamate  
followed by high-performance liquid chromatography and  
fluorescence detection 719(1996)171
- Isocratic high-performance liquid chromatographic method for  
quantitative determination of lysine, histidine and tyrosine in  
foods 719(1996)195
- Separation of diastereomers by capillary zone electrophoresis in  
free solution with polymer additive and organic solvent  
component. Effect of pH and solvent composition  
719(1996)411
- Multifunctional ion-exchange stationary phases for high-  
performance liquid chromatography 722(1996)87
- Enantioseparation of amino acids and amino alcohols on chiral  
stationary phases derived from  $\alpha$ -amino acid- and pyrrolidinyl-  
disubstituted cyanuric chloride 722(1996)189
- Enantioseparation and recognition mechanisms of  
dinitrobenzoyl-derivatized amino acids and amino alcohols on  
chiral stationary phases consisting of cyanuric chloride with (*S*  
or *R*)-phenylalanyl-(*S* or *R*)-1-(1-naphthyl)ethylamide substituent  
722(1996)199
- Evaluation of new chiral stationary phases of bonded cyanuric  
chloride with amino acid and naphthylalkylamine substituents  
for liquid chromatographic separation of amino acids and amino  
alcohols as dinitrobenzoyl derivatives 722(1996)211
- Rapid analysis of amino acid enantiomers by chiral-phase  
capillary gas chromatography 722(1996)221
- Gas chromatographic amino acid profiling of wine samples for  
pattern recognition 722(1996)303
- High-performance liquid chromatography of amino acids in  
copper(II) complex form: application to valine fermentation  
samples 722(1996)311
- Reversed-phase high-performance liquid chromatography  
coupled with second-order derivative spectroscopy for the  
quantitation of aromatic amino acids in peptides: application to  
hemorphins 723(1996)35
- Improved high-performance liquid chromatography of amino  
acids derivatised with 9-fluorenylmethyl chloroformate  
723(1996)219
- Determination of amino acids using *o*-phthalaldehyde-2-  
mercaptoethanol derivatization 724(1996)159
- Determination of amino acids by pre-column fluorescence  
derivatization with 1-methoxycarbonylindolizine-3,5-  
dicarbaldehyde 724(1996)169
- Micellar electrokinetic capillary chromatography with in-situ  
charged micelles 724(1996)285
- Identification of the thermal degradation products of G-  
triiodothyronine sodium (liothyronine sodium) by reversed-phase  
high-performance liquid chromatography with photodiode-array  
UV and mass spectrometric detection 725(1996)287
- Computer-aided optimization of gradient multiple development  
thin-layer chromatography. III. Multi-stage development over a  
constant distance 726(1996)185
- Characterization of wide-pore reversed-phase columns for  
biopolymer separations. I. Single-parametric evaluation  
728(1996)179
- Reversed-phase liquid chromatography on a microspherical  
carbon column at high temperature 728(1996)189
- Liquid chromatographic separation of amino acid enantiomers  
on a silica-bonded chiral *s*-triazine column 728(1996)447
- Temperature-induced changes in the bandwidth behaviour of  
proteins separated with cation-exchange adsorbents  
729(1996)67
- Automated method for the measurement of amino acids in urine  
by high-performance liquid chromatography 729(1996)173
- Reference values of neuroactive amino acids in the  
cerebrospinal fluid by high-performance liquid chromatography  
with electrochemical and fluorescence detection 729(1996)181
- Automated determination of polyamines by high-performance  
liquid chromatography with simple sample preparation  
730(1996)115
- Facile liquid chromatographic enantioresolution of native amino  
acids and peptides using a teicoplanin chiral stationary phase  
731(1996)123
- Gas chromatographic-mass spectrometric approach to the  
problem of characterizing binding media in paintings  
731(1996)237
- Direct chiral separation of amino acids derivatized with  
2-(9-anthryl)ethyl chloroformate by capillary electrophoresis  
using cyclodextrins as chiral selectors 731(1996)283
- Capillary electrophoresis of Cheddar cheese 731(1996)305

- Amino acid separation by preparative temperature-swing chromatography with flow reversal 732(1996)1
- Improved rapid method for the isolation, purification and identification of collagen glycosides 732(1996)385
- Postcolumn reactor in capillary electrophoresis for laser-induced fluorescence detection 734(1996)331
- Micellar electrokinetic chromatography. Perspectives in drug analysis 735(1996)3
- Improved reproducibility in capillary electrophoresis through the use of mobility and migration time ratios 735(1996)209
- Precolumn fluorescence derivatization of the antagonist [Arg<sup>6</sup>,D-Trp<sup>7,9</sup>,MePhe<sup>8</sup>]-Substance P{6-11} with benzoin in high-performance liquid chromatography and selective detection of arginine-containing fragments in its degradation products 736(1996)91
- Thin-layer chromatographic separation of enantiomeric dansylamino acids using a macrocyclic antibiotic as a chiral selector 736(1996)235
- Evaluation of extended light path capillaries for use in capillary electrophoresis with laser-induced fluorescence detection 736(1996)239
- Indirect chemiluminescence detection of amino acids separated by capillary electrophoresis 736(1996)247
- Large-scale amino-acid analysis for proteome studies 736(1996)291
- Electrophoretic study of the interaction of *p*-boronophenylserine with carboxylic acids by the three-spot method 738(1996)305
- Separation and determination of amino acids, creatinine, bioactive amines and nucleic acid bases by dual-mode gradient ion-pair chromatography 739(1996)333
- Chromatographic determination of amino acids by pre-column derivatization using 1,2-naphthoquinone-4-sulfonate as reagent 740(1996)21
- Determination of amino acids in the foods by reversed-phase high-performance liquid chromatography with a new precolumn derivative, butylthiocarbamyl amino acid, compared to the conventional phenylthiocarbamyl derivatives and ion-exchange chromatography 740(1996)31
- Determination of protein amino acids as benzylthiocarbamyl derivatives compared with phenylthiocarbamyl derivatives by reversed-phase high-performance liquid chromatography, ultraviolet detection and precolumn derivatization 740(1996)41
- Comparison of the chiral resolution on *cis-trans* isomeric chiral stationary phases derived from (*S*)-1-(1-naphthyl)ethylamine 740(1996)183
- Effects of organic modifiers on the chiral recognition by different types of silica-immobilized bovine serum albumin 740(1996)207
- Derivatization at capillary inlet in high-performance capillary electrophoresis 742(1996)243
- Planar chromatographic direct separation of some aromatic amino acids and aromatic amino alcohols into enantiomers using cyclodextrin mobile phase additives 742(1996)289
- Hydrolytically stable amino-silica glass coating material for manipulation of the electroosmotic flow in capillary electrophoresis 744(1996)17
- Enantiomeric separation of *N-tert.*-butoxycarbonyl amino acids by capillary electrophoresis using hydroxypropyl-substituted cyclodextrins 745(1996)73
- Gas chromatographic enantiomer separation on a chiral self-associating selector 746(1996)53
- Utilization of *n*-alkyl- $\beta$ -D-glucopyranosides in enantiomeric separation by micellar electrokinetic chromatography 749(1996)257
- Amino acids, 6-aminoquinolyl urea derivatives**  
Electrochemical activity of 6-aminoquinolyl urea derivatives of amino acids and peptides. Application to high-performance liquid chromatography with electrochemical detection 724(1996)147
- Amino acids, branched-chain**  
Postcolumn co-immobilized leucine dehydrogenase-NADH oxidase reactor for the determination of branched-chain amino acids by high-performance liquid chromatography with chemiluminescence detection 724(1996)354
- Amino acids, DNB derivatives**  
Resolution of gram quantities of racemates by high-speed counter-current chromatography 704(1995)75
- Quinine and quinidine derivatives as chiral selectors 741(1996)33
- Amino acids, Dns derivatives**  
Effect of urea addition on chiral separation of dansylamino acids by capillary zone electrophoresis with cyclodextrins 710(1995)331
- Chiral separation of dansyl-amino acids in a nonaqueous medium by capillary electrophoresis 737(1996)263
- Amino acids, FMOc derivatives**  
Investigation on enantiomeric separations of fluorenylmethoxycarbonyl amino acids and peptides by high-performance liquid chromatography using native cyclodextrins as chiral stationary phases 743(1996)261

**Amino acids,  $\beta$ -methyl**

Separation of enantiomeric  $\beta$ -methyl amino acids and of  $\beta$ -methyl amino acid containing peptides 728(1996)455

**Amino alcohols**

High-performance liquid chromatographic separation of  $\beta$ -amino alcohols. II. Separation of *trans*-2-(dialkylamino)cyclohexanols on an amylose-based chiral stationary phase 719(1996)315

Enantioseparation of amino acids and amino alcohols on chiral stationary phases derived from  $\alpha$ -amino acid- and pyrrolidinyldisubstituted cyanuric chloride 722(1996)189

Enantioseparation and recognition mechanisms of dinitrobenzoyl-derivatized amino acids and amino alcohols on chiral stationary phases consisting of cyanuric chloride with (*S* or *R*)-phenylalanyl-(*S* or *R*)-1-(1-naphthyl)ethylamide substituent 722(1996)199

Evaluation of new chiral stationary phases of bonded cyanuric chloride with amino acid and naphthylalkylamine substituents for liquid chromatographic separation of amino acids and amino alcohols as dinitrobenzoyl derivatives 722(1996)211

Synthesis and application of a new isothiocyanate as a chiral derivatizing agent for the indirect resolution of chiral amino alcohols and amines 729(1996)33

Reversed-phase chiral ion-pair chromatography at a column temperature below 0°C using three generations of Hypercarb as solid-phase 732(1996)245

Comparison of the chiral resolution on *cis*-*trans* isomeric chiral stationary phases derived from (*S*)-1-(1-naphthyl)ethylamine 740(1996)183

Planar chromatographic direct separation of some aromatic amino acids and aromatic amino alcohols into enantiomers using cyclodextrin mobile phase additives 742(1996)289

Chiral separation in non-aqueous media by capillary electrophoresis using the ion-pair principle 745(1996)37

**4-Aminoantipyrine**

Determination of aminopyrine and its metabolite by capillary electrophoresis-electrochemical detection 715(1995)355

**Aminoaromatic compounds**

High-performance liquid chromatographic analysis with electrochemical detection for residues of explosives in water samples around a former ammunition plant 730(1996)161

**Aminobutylphosphonic acid**

Simple and rapid determination of the herbicides glyphosate and glufosinate in river water, soil and carrot samples by gas chromatography with flame photometric detection 726(1996)253

 **$\gamma$ -Aminobutyric acid**

Capillary zone electrophoresis of serum proteins: study of separation variables 709(1995)99

 **$\gamma$ -Aminobutyric acid-B agonists**

GABA-B agonists: enantiomeric resolution of 4-amino-3-(5-chlorothien-2-yl)butyric acid and analogues on chiral crown ether stationary phase 715(1995)361

**Aminocaproic acid**

Capillary zone electrophoresis of serum proteins: study of separation variables 709(1995)99

Polyethylene glycol monomethyl ether sulfate-based background electrolytes in capillary electrophoresis 744(1996)75

**2-Aminocyclopentane-1-carboxylic acid**

High-performance liquid chromatographic method for the separation of isomers of *cis*- and *trans*-2-amino-cyclopentane-1-carboxylic acid 715(1995)219

**Amino esters**

Improved chiral stationary phase derived from (*S*)-naproxen for the liquid chromatographic resolution of enantiomers 732(1996)209

**Aminoglutethimide**

Separation of stereoisomers of aminoglutethimide using three capillary electrophoretic techniques 705(1995)343

**3-Amino-1-hydroxypropylidene-1,1-bisphosphonate**

Gas chromatographic analysis of 3-amino-1-hydroxypropylidene-1,1-bisphosphonate and related bisphosphonate as their N-isobutoxycarbonyl methyl ester derivatives 724(1996)279

**5-Aminolaevulinic acid**

Determination of 5-aminolaevulinic acid dehydratase activity in erythrocytes and porphobilinogen in urine by micellar electrokinetic capillary chromatography 722(1996)353

**Aminomethylphosphonic acid**

Simple and rapid determination of the herbicides glyphosate and glufosinate in river water, soil and carrot samples by gas chromatography with flame photometric detection 726(1996)253

Rapid determination of glufosinate, glyphosate and aminomethylphosphonic acid in environmental water samples using precolumn fluorogenic labeling and coupled-column liquid chromatography 737(1996)75

Analysis of glyphosate using capillary electrophoresis with indirect detection 745(1996)189

**Aminopeptidases**

Dynamic modeling of electrophoretically mediated microanalysis 732(1996)119

**Aminophenols**

Separation of phenylenediamine, phenol and aminophenol derivatives by micellar electrokinetic chromatography. Comparison of the role of anionic and cationic surfactants 717(1995)167

**Aminopolycarboxylates**

Ion chromatographic cation analysis of effluent waters from scale dissolver treatments 739(1996)265

**Aminopolycarboxylic acids**

Ion chromatographic determination of chelating ligands based on the postcolumn formation of ternary fluorescent complexes 739(1996)307

**3-Aminopropenyl-7-fluoromethoxyiminothiadiazolylcephem**

Scale-up of liquid chromatography for industrial production of parenteral antibiotic E1077 707(1995)117

**Aminopropyltriethoxysilane**

Synthesis of silica-based heparin-affinity adsorbents 728(1996)149

**Aminopyrene trisulfonate**

Reductive amination of N-linked oligosaccharides using organic acid catalysts 745(1996)273

**Aminopyrine**

Determination of aminopyrine and its metabolite by capillary electrophoresis–electrochemical detection 715(1995)355

Microemulsion electrokinetic chromatographic separation of antipyretic analgesic ingredients 735(1996)353

**6-Aminoquinoline**

Capillary electrophoresis of triorganotin compounds with indirect fluorescence detection 746(1996)269

**Aminoquinolyhydroxysuccinimidyl carbamate**

Electrochemical activity of 6-aminoquinolyl urea derivatives of amino acids and peptides. Application to high-performance liquid chromatography with electrochemical detection 724(1996)147

High-sensitivity fluorescence derivatization for the determination of hydroxy compounds in aqueous solution by high-performance liquid chromatography 728(1996)333

Determination of biogenic amines in wine after precolumn derivatization with 6-aminoquinolyl-N-hydroxysuccinimidyl carbamate 737(1996)205

**Aminoquinuclidine**

Optimization of chiral selectivity on cellulose-based high-performance liquid chromatographic columns using aprotic mobile-phase modifiers 718(1995)9

**Aminosalicilic acid**

Laser induced resonance energy transfer – a novel approach towards achieving high sensitivity in capillary electrophoresis. Clinical diagnostic application 744(1996)37

**Amino sugar alcohols**

High-performance liquid chromatographic analysis of hexosamines, hexosaminitols, N-acetylhexosamines and N-acetylhexosaminitols by ultraviolet and fluorescence detection at picomole levels 730(1996)107

**Amino sugars**

Amino acid and amino sugar determination by derivatization with 6-aminoquinolyl-N-hydroxysuccinimidyl carbamate followed by high-performance liquid chromatography and fluorescence detection 719(1996)171

High-performance liquid chromatographic analysis of hexosamines, hexosaminitols, N-acetylhexosamines and N-acetylhexosaminitols by ultraviolet and fluorescence detection at picomole levels 730(1996)107

**Aminotetralin**

Optimization of chiral selectivity on cellulose-based high-performance liquid chromatographic columns using aprotic mobile-phase modifiers 718(1995)9

**Amiodarone**

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

Stepwise binary gradient high-performance liquid chromatographic system for routine drug monitoring 728(1996)307

**Ammelide**

Comparison of sorbents for the solid-phase extraction of the highly polar degradation products of atrazine (including ammeline, ammelide and cyanuric acid) 711(1995)257

**Ammeline**

Comparison of sorbents for the solid-phase extraction of the highly polar degradation products of atrazine (including ammeline, ammelide and cyanuric acid) 711(1995)257

**Ammonia**

Derivatization reactions for the determination of amines by gas chromatography and their applications in environmental analysis 733(1996)19

**Ammonium**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Cation trace analysis of snow and firn samples from high-alpine sites by ion chromatography 706(1995)249

Application of capillary electrophoresis in atmospheric aerosol analysis: determination of cations 706(1995)527

Effect of the concentration of 18-crown-6 added to the electrolyte upon the separation of ammonium, alkali and alkaline-earth cations by capillary electrophoresis 706(1995)535

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

**Ammonium molybdophosphate**

Determination of Cs-137 in environmental water by ion-exchange chromatography (Review) 733(1996)57

**Ammonium tungstate**

Controlled changes in selectivity of cation separations by capillary electrophoresis using various crown-ether additives 745(1996)87

**Amoxicillin**

Improved high-performance liquid chromatographic determination of amoxicillin in human plasma by means of column switching 729(1996)259

**Amphetamines**

Analysis of illicit amphetamine seizures by capillary electrophoresis 708(1995)169

Enantiomeric separation of amphetamine related drugs by capillary zone electrophoresis using native and derivatized  $\beta$ -cyclodextrin as chiral additives 710(1995)339

Headspace sampling and gas chromatographic-mass spectrometric determination of amphetamine and methamphetamine in betel 715(1995)325

Chiral separation of amphetamines by high-performance capillary electrophoresis 717(1995)219

Separation and identification of designer drugs with capillary electrophoresis and on-line connection with ionspray mass spectrometry 735(1996)221

Capillary electrophoresis-laser-induced fluorescence detection of amphetamine in the brain 735(1996)263

Enantiomeric separation of amphetamine and phenylephrine by cyclodextrin-mediated capillary zone electrophoresis 735(1996)295

Determination of morphine analogues, caffeine and amphetamine in biological fluids by capillary electrophoresis with the marker technique 735(1996)439

**Ampholytes**

Automated instrumentation for miniaturized displacement electrophoresis with on-column photometric detection 730(1996)261

Comparison of ampholytes used for slab gel and capillary isoelectric focusing of recombinant tissue-type plasminogen activator glycoforms 744(1996)279

**Amylamine**

Ion chromatography of amylamine and *tert*-butylamine in pharmaceuticals 739(1996)343

 **$\alpha$ -Amylase**

Mathematical modelling and computer simulation of aqueous two-phase continuous protein extraction 741(1996)151

**Amyloid P**

Demonstration of a heparin-binding site in serum amyloid P component using affinity capillary electrophoresis as an adjunct technique 717(1995)83

**Amylopectin**

Improvement of a method for chain-length distribution analysis of wheat amylopectin 732(1996)255

**Amylose tris(3,5-dimethylphenylcarbamate)**

Investigation of the enantioselective separations of  $\alpha$ -alkylarylcarboxylic acids on an amylose tris(3,5-dimethylphenylcarbamate) chiral stationary phase using quantitative structure-enantioselective retention relationships 737(1996)157

Mechanistic investigation into the enantioselective separation of mexiletine and related compounds, chromatographed on an amylose tris(3,5-dimethylphenylcarbamate) chiral stationary phase 741(1996)205

**Anabasine**

Evaluation of micellar electrokinetic capillary chromatography for the analysis of selected tobacco alkaloids 746(1996)131

**Anabolic agents**

Comparison of the possibilities of gas chromatography-mass spectrometry and tandem mass spectrometry systems for the analysis of anabolics in biological material 750(1996)105

**Anatabine**

Evaluation of micellar electrokinetic capillary chromatography for the analysis of selected tobacco alkaloids 746(1996)131

**Anethole**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas-liquid chromatography 715(1995)309

**Angiotensin**

Peptide stacking by acetonitrile-salt mixtures for capillary zone electrophoresis 744(1996)231

**Angiotensin-converting enzyme**

Purification and assay methods for angiotensin-converting enzyme (Review) 743(1996)105

**Anilines**

Development and application of radio-size-exclusion chromatography 727(1996)61

End-capping of octadecylsilylated silica gels by high-temperature silylation 737(1996)139

Effect of alkyl chain length of sodium N-acyl sarcosinates on migration behavior in micellar electrokinetic chromatography 744(1996)135

Analysis of chloro- and nitroanilines and -benzenes in soils by headspace solid-phase microextraction 746(1996)71

**Anions**

see also Inorganic anions

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Determinations of trace anions in hydrogen peroxide 706(1995)191

Control of errors in anion chromatography applied to environmental research 706(1995)229

Ion chromatographic determination of major ions in fog samples 706(1995)241

Oxidative decomposition of organic water pollutants with UV-activated hydrogen peroxide. Determination of anionic products by ion chromatography 706(1995)253

Simultaneous determination of small organic and inorganic anions in environmental water samples by ion-exchange chromatography 706(1995)259

Ion chromatography of organic-rich natural waters from peatlands. III. Improvements for measuring anions and cations 706(1995)281

Determination of anions in amine solutions for sour gas treatment 706(1995)339

Use of  $\beta$ -diketonate anions as eluent in non-suppressed ion chromatography: 1,3-cyclohexanedionate as acidic eluent 707(1995)384

Buffer effects in the desionoselective/ionoselective/duoselective separation selectivity model-assisted optimization of the capillary electrophoretic separation of enantiomers. I. Low-pH phosphate buffers 716(1995)197

Capillary zone electrophoresis in organic solvents: separation of anions in methanolic buffer solutions 716(1995)303

Determination of inorganic and small organic anions in pure boric acid using capillary zone electrophoresis 716(1995)311

Determination of thiocyanate, iodide, nitrate and nitrite in biological samples by micellar electrokinetic capillary chromatography 717(1995)409

Simple double-beam absorption detection systems for capillary electrophoresis based on diode lasers and light-emitting diodes 718(1995)177

Significant reduction of the detection limit in ion chromatography by relative analyte enrichment with column switching 723(1996)11

New approach for controlling the partitioning of analyte ions in ion chromatography with a water mobile phase 723(1996)251

Non-suppressed ion chromatography of inorganic anions, magnesium and calcium ions using a pyromellitate eluent and its application in evaluating environmental water quality 731(1996)179

Suppressed ion chromatographic analysis of anions in environmental waters containing high salt concentrations (Review) 733(1996)73

Analysis of anions in drinking water by capillary ion electrophoresis 733(1996)101

Teaching a computer ion chromatography from a database of published methods 739(1996)15

Quantitation of anions at parts-per-trillion levels in semiconductor pure water by means of a laboratory ion chromatograph 739(1996)199

Buffer capacity, ionic strength and heat dissipation in capillary electrophoresis 744(1996)147

Analysis of low-level anions in water extracts of hard disk drive heads by capillary electrophoresis 745(1996)81

Analysis of single raindrops in the nl range by capillary electrophoresis 745(1996)209

**Anions, inorganic**

Retention mechanism of anions in micellar chromatography: Interpretation of retention data on the basis of an ion-exchange model 706(1995)37

**Anions, multivalent organic**

Ionic strength and charge number correction for mobilities of multivalent organic anions in capillary electrophoresis 709(1995)163

**Anisole**

Determination of azadirachtin by reversed-phase high-performance liquid chromatography using anisole as internal standard 705(1995)374

**Annatto**

High-performance liquid chromatographic separation of carminic acid,  $\alpha$ - and  $\beta$ -bixin, and  $\alpha$ - and  $\beta$ -norbixin, and the determination of carminic acid in foods 732(1996)394

**Ansamycins**

Enantiomeric resolution using the macrocyclic antibiotics rifamycin B and rifamycin SV as chiral selectors for capillary electrophoresis 715(1995)337

**Antagonist G**

Precolumn fluorescence derivatization of the antagonist [Arg<sup>6</sup>,D-Trp<sup>7,9</sup>,MePhe<sup>8</sup>]-Substance P{6-11} with benzoin in high-performance liquid chromatography and selective detection of arginine-containing fragments in its degradation products 736(1996)91

**Anthelmintics**

Simple, robust and accurate high-performance liquid chromatography method for the analysis of several anthelmintics in veterinary formulations 729(1996)267

**Anthranoids**

Determination of 1,8-dihydroxyanthranoids in senna 740(1996)133

**Anthraquinoids**

Simultaneous determination of twelve constituents of I-tzu-tang, a Chinese herbal preparation, by high-performance liquid chromatography and capillary electrophoresis 704(1995)141

**Anthraquinones**

Determination of 9,10-dihydroxyanthracene and anthraquinone in Kraft pulping liquors by high-performance liquid chromatography 712(1995)372

High-performance liquid chromatographic separation of some naturally occurring naphthoquinones and anthraquinones 723(1996)206

Determination of 1,8-dihydroxyanthranoids in senna 740(1996)133

**9-Anthroyl chloride**

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

**2-(9-Anthryl)ethyl chloroformate**

High-performance liquid chromatographic separation and detection of phenols using 2-(9-anthrylethyl) chloroformate as a fluorophoric derivatizing reagent 718(1995)45

Direct chiral separation of amino acids derivatized with 2-(9-anthryl)ethyl chloroformate by capillary electrophoresis using cyclodextrins as chiral selectors 731(1996)283

**9-Anthryldiazomethane**

Quantitation of choline glycerophospholipids that contain carboxylate residues by fluorometric high-performance liquid chromatography 724(1996)131

**Antibacterial agents**

Determination of peptidoglycan-associated protein in *Escherichia coli* NCIB 8545 by capillary zone electrophoresis 740(1996)273

**Antibiotics**

High-performance liquid chromatographic separation and determination of small amounts of process impurities of ciprofloxacin in bulk drugs and formulations 705(1995)380

Antibiotics as low-molecular-mass displacers in ion-exchange displacement chromatography 707(1995)57

Scale-up of liquid chromatography for industrial production of parenteral antibiotic E1077 707(1995)117

Liquid chromatographic determination of D- and L-amino acids by derivatization with *o*-phthaldialdehyde and N-isobutyryl-L-cysteine. Applications with reference to the analysis of peptidic antibiotics, toxins, drugs and pharmaceutically used amino acids 711(1995)201

Validation of a capillary electrophoresis method for the determination of cephadrine and its related impurities 711(1995)339

Liquid chromatographic determination of the antibiotic fumagillin in fish meat samples 712(1995)378

Enantiomeric resolution using the macrocyclic antibiotics rifamycin B and rifamycin SV as chiral selectors for capillary electrophoresis 715(1995)337

Synthesis and characterization of polymer-coated mixed-functional stationary phases with several different hydrophobic groups for direct analysis of biological samples by liquid chromatography 722(1996)115

Chromatographic purification and characterization of synthetic tryptophan-substituted gramicidin A analogues 725(1996)315

High-performance liquid chromatographic determination of vancomycin in rabbit serum, vitreous and aqueous humour after intravitreal injection of the drug 727(1996)231

Liquid chromatographic determination of cephalexin preparations: interlaboratory validation 727(1996)239

High-performance liquid chromatographic determination of penicillins by means of automated solid-phase extraction and photochemical degradation with electrochemical detection 729(1996)229

Improved high-performance liquid chromatographic determination of amoxicillin in human plasma by means of column switching 729(1996)259

Purity control of oxytetracycline by capillary electrophoresis 730(1996)305

Identification of chiral drug isomers by capillary electrophoresis (Review) 735(1996)77

Studies of the degradation products of nisin, a peptide antibiotic, using capillary electrophoresis with off-line mass spectrometry 735(1996)375

Thin-layer chromatographic separation of enantiomeric dansylamino acids using a macrocyclic antibiotic as a chiral selector 736(1996)235

Electrochromatography in chemically modified etched fused-silica capillaries 736(1996)255

Investigation of enantioselective separation of quinolonocarboxylic acids by capillary zone electrophoresis using vancomycin as a chiral selector 736(1996)303

Separation of tetracyclines by high-performance capillary electrophoresis and capillary electrochromatography 736(1996)313

Determination of impurities in tetracycline hydrochloride by non-aqueous capillary electrophoresis 737(1996)291

Analysis of demeclocycline by capillary electrophoresis 740(1996)119

Determination of neomycin sulfate by liquid chromatography with pulsed electrochemical detection 741(1996)233

Determination of ceftazidime concentration in Mueller Hinton agar by high-performance liquid chromatography 742(1996)121

#### **Antibodies**

see also Monoclonal antibodies

Processing of C-terminal lysine and arginine residues of proteins isolated from mammalian cell culture 705(1995)129

Purification of antibody Fab fragments by cation-exchange chromatography and pH gradient elution 707(1995)225

Development and monitoring of purification process for nerve growth factor fusion antibody 708(1995)61

Inhibition of dipeptidyl peptidase IV (DP IV) by anti-DP IV antibodies and non-substrate X-X-Pro- oligopeptides ascertained by capillary electrophoresis 716(1995)355

Selective trace enrichment on immunosorbents for the multiresidue analysis of phenylurea and triazine pesticides 725(1996)107

Capillary isoelectric focusing as a tool in the examination of antibodies, peptides and proteins of pharmaceutical interest 735(1996)165

Fast, reproducible size-exclusion chromatography of biological macromolecules 743(1996)43

Influence of column type and chromatographic conditions on the ion-exchange chromatography of immunoglobulins 743(1996)171

Immunochromatographic analysis of bovine growth hormone releasing factor involving reversed-phase high-performance liquid chromatography-immunodetection 743(1996)181

Critical evaluation of the applicability of capillary zone electrophoresis for the study of hapten-antibody complex formation 744(1996)195

Capillary electrophoretic examination of underivatized oligosaccharide mixtures released from immunoglobulin G antibodies and CTLA4lg fusion protein 749(1996)237

#### **Antidepressants**

Retention studies on mixed-mode columns in high-performance liquid chromatography 708(1995)31

#### **Antiepileptics**

Synthesis and characterization of polymer-coated mixed-functional stationary phases with several different hydrophobic groups for direct analysis of biological samples by liquid chromatography 722(1996)115

#### **Antigens**

Immunochromatographic analysis of bovine growth hormone releasing factor involving reversed-phase high-performance liquid chromatography-immunodetection 743(1996)181

#### **Antihistamines**

Quantitative structure-retention relationships in the examination of the topography of the binding site of antihistamine drugs on  $\alpha_1$ -acid glycoprotein 722(1996)25

Simultaneous determination of chlorpheniramine and maleate by high-performance liquid chromatography using tetra-*n*-butylammonium phosphate as an ion-pair reagent 731(1996)346

Determination of structurally related phenothiazines by capillary zone electrophoresis and micellar electrokinetic chromatography 735(1996)395

Separation of basic drugs with non-aqueous capillary electrophoresis 738(1996)141

#### **Anti-inflammatory drugs**

Detection of non-steroidal anti-inflammatory drugs in equine plasma and urine by gas chromatography-mass spectrometry 719(1996)251

Adaptation of high-performance liquid chromatographic methods to multiple spectral analyses 728(1996)351

Improved chiral stationary phase derived from (*S*)-naproxen for the liquid chromatographic resolution of enantiomers 732(1996)209

#### **Anti-inflammatory drugs, non-steroidal**

Resolution of ( $\pm$ )-ibuprofen using L-arginine-impregnated thin-layer chromatography 721(1996)369

Chiral separations of underivatized arylpropionic acids by capillary zone electrophoresis with various cyclodextrins. Acidity and inclusion constant determinations 735(1996)311

Incremental development of chiral selectors for underivatized profens 736(1996)31

#### **Antioxidants**

Wastewater from the manufacture of rubber vulcanization accelerators: characterization, downstream monitoring and chemical treatment 733(1996)511

#### **Antisense oligonucleotides**

Capillary gel electrophoresis and antisense therapeutics (Review) 735(1996)191

#### **Antrenyl**

Analysis of quaternary ammonium drugs by thermospray liquid chromatography–mass spectrometry using a resin-based stationary phase 741(1996)75

#### **Anxiolytics**

Initial experiments in high-performance liquid chromatographic method development. I. Use of a starting gradient run 721(1996)3

#### **Apolipoproteins**

Capillary electrophoresis, a rapid and sensitive method for routine analysis of apolipoprotein A-I in clinical samples 717(1995)25

Elution of lipoprotein fractions containing apolipoproteins E and A-I in size exclusion on Superose 6 columns is sensitive to mobile phase pH and ionic strength 718(1995)59

Screening and identification of familial defective apolipoprotein B-100 in clinical samples by capillary gel electrophoresis 744(1996)187

#### **Aprotinin**

Studies of complexes between proteases, substrates and the protease inhibitor  $\alpha_2$ -macroglobulin using capillary electrophoresis with laser-induced fluorescence detection 716(1995)363

#### **Aquachromium(III)–isothiocyanato complexes**

Complete chromatographic separation of aquachromium(III)–isothiocyanato successive complexes including geometric isomers using cross-linked dextran and poly(vinyl alcohol) gel columns 719(1996)365

#### **$\alpha$ -L-Arabinofuranosidase**

Purification of  $\alpha$ -L-arabinofuranosidase using a single-column mini-scale isoelectric focusing unit 705(1995)400

#### **Arachidic acid**

Estimate of gas chromatographic blanks 726(1996)133

#### **Arachidonic acid**

Subcellular localization of docosahexaenoic acid and arachidonic acid  $\omega$ -hydroxylation activity in the brain, liver and colonic adenocarcinoma 730(1996)91

Distinction between enzymic and nonenzymic lipid peroxidation 743(1996)293

#### **Arginine**

Selective determination of peptides containing specific amino acid residues by high-performance liquid chromatography and capillary electrophoresis 704(1995)27

Precolumn fluorescence derivatization of the antagonist [Arg<sup>6</sup>,D-Trp<sup>7,9</sup>,MePhe<sup>8</sup>]-Substance P{6–11} with benzoin in high-performance liquid chromatography and selective detection of arginine-containing fragments in its degradation products 736(1996)91

#### **Arginine residues**

Processing of C-terminal lysine and arginine residues of proteins isolated from mammalian cell culture 705(1995)129

#### **Aromatic anions**

Buffer effects in the desionoselective/ionoselective/duoselective separation selectivity model-assisted optimization of the capillary electrophoretic separation of enantiomers. I. Low-pH phosphate buffers 716(1995)197

#### **Aromatic compounds**

see also Hydrocarbons, aromatic

Use of a trio of modified cyclodextrin gas chromatographic phases to provide structural information on some constituents of volatile oils 707(1995)390

Separation of aromatic sulphonic acid dye intermediates by high-performance liquid chromatography and capillary zone electrophoresis 738(1996)201

Sample preparation techniques for determining semi-volatile organic compounds in nuclear defense materials production waste 738(1996)215

Method development for trace analysis of heteroaromatic compounds in contaminated groundwater 738(1996)295

On-line preconcentration and separation of neutral and charged aromatic compounds by ion interaction chromatography 739(1996)63

Correlation between the logarithm of capacity factors for aromatic compounds in micellar electrokinetic chromatography and their octanol–water partition coefficients 742(1996)251

Planar chromatographic direct separation of some aromatic amino acids and aromatic amino alcohols into enantiomers using cyclodextrin mobile phase additives 742(1996)289

Comparison of two azobenzene liquid crystal stationary phases in open tubular column gas chromatography 746(1996)247

#### **Aromatic compounds, nitro**

Comparison of the extraction of phenolic and nitroaromatic pollutants using supercritical and enhanced-fluidity liquid methanol–CO<sub>2</sub> mixtures 737(1996)233

**Aroyl compounds**

Filterless, full spectral range, compound-specific detection in dual-channel photometry 742(1996)143

**Arsenates**

Separation of thio- and oxothioarsenates by capillary zone electrophoresis and ion chromatography 736(1996)341

**Arsenic**

Applications of liquid chromatography–mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

Element-sensitive X-ray detection for capillary electrophoresis 727(1996)301

**Arsenic compounds**

Retention behavior of arsenobetaine, arsenocholine, trimethylarsine oxide and tetramethylarsonium iodide on a styrene–divinylbenzene column with benzenesulfonates as ion-pairing reagents 730(1996)219

Simultaneous determination of arsenic species by ion chromatography–inductively coupled plasma mass spectrometry 750(1996)83

**Artificial sweeteners**

see also Aspartame and Cyclamate

Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203

**Arylalkylcarbinols**

Diphenylethanediamine derivatives as chiral selectors 732(1996)215

**N-Aryl- $\alpha$ -aminophosphonic acid esters**

Facile separation of the enantiomers of diethyl N-(aryl)-1-amino-1-arylmethanephosphonates on a rationally designed chiral stationary phase 721(1996)241

**Aryl carbamate**

Optimization of chiral selectivity on cellulose-based high-performance liquid chromatographic columns using aprotic mobile-phase modifiers 718(1995)9

**Arylcyclohexanols**

Diphenylethanediamine derivatives as chiral selectors 732(1996)215

**Aryl hydrocarbon hydrolase**

Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107

**N-Aryloxazolinones**

High-performance liquid chromatographic separation of the enantiomers of N-aryloxazolinones, N-aryl thiazolinones and their sulfur derivatives on a synthetic chiral stationary phase 726(1996)91

**Aryloxy propionate “ester”**

Optimization of chiral selectivity on cellulose-based high-performance liquid chromatographic columns using aprotic mobile-phase modifiers 718(1995)9

**Arylpropionic acids**

Chiral separations of underivatized arylpropionic acids by capillary zone electrophoresis with various cyclodextrins. Acidity and inclusion constant determinations 735(1996)311

Chromatographic separation of enantiomers on N,N'-diallyl-L-tartardiamide-based network–polymeric chiral stationary phases 741(1996)23

**Aryltetrahydronaphthalene lignans**

Analysis of aryltetrahydronaphthalene lignans and their glucoside conjugates in podophyllin resin by high-performance liquid chromatography 722(1996)267

**N-Arylthiazolin-2-(thi)ones**

Factorial design approach to studying the high-performance liquid chromatographic chiral separation of N-arylthiazolin-2-(thi)one atropisomers on CHIRALCEL OJ 722(1996)177

**N-Arylthiazolinones**

High-performance liquid chromatographic separation of the enantiomers of N-aryloxazolinones, N-aryl thiazolinones and their sulfur derivatives on a synthetic chiral stationary phase 726(1996)91

**Ascorbate**

Galvanic decoupling of a postcolumn amperometric detector in capillary electrophoresis 709(1995)69

**Ascorbic acid**

see also Vitamins

Application and optimization of capillary zone electrophoresis in vitamin analysis 717(1995)255

Dehydroascorbic acid undergoes hydrolysis on solubilization which can be reversed with mercaptoethanol 724(1996)271

Comparison of two azobenzene liquid crystal stationary phases in open tubular column gas chromatography 746(1996)247

**Ascorbyl phosphate**

High-performance liquid chromatographic determination of ionic compounds in cosmetic emulsions: application to magnesium ascorbyl phosphate 705(1995)385

**Asiatic acid**

Determination of biologically active constituents in *Centella asiatica* 742(1996)127

**Asiaticoside**

Determination of biologically active constituents in *Centella asiatica* 742(1996)127

**Aspartame**

Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203

Simple and rapid high-performance liquid chromatographic method for the determination of aspartame and its metabolites in foods 725(1996)372

High-performance liquid chromatography with electrochemical detection of aspartame with a post-column photochemical reactor 729(1996)393

**Atosiban**

Hydrophilic interaction chromatography on amino-silica phases complements reversed-phase high-performance liquid chromatography and capillary electrophoresis for peptide analysis 724(1996)378

**Atrazine**

Capillary electrophoretic study of atrazine photolysis 709(1995)215

Comparison of sorbents for the solid-phase extraction of the highly polar degradation products of atrazine (including ammeline, ammelide and cyanuric acid) 711(1995)257

Determining the characteristics of water pollutants by neural sensors and pattern recognition methods 722(1996)233

On-line partial filling micellar electrokinetic chromatography–electrospray ionization mass spectrometry 749(1996)219

**Avermectins**

Separation of ivermectin components by high-speed counter-current chromatography 723(1996)61

**Azaarenes**

Solid-phase extraction for the selective isolation of polycyclic aromatic hydrocarbons, azaarenes and heterocyclic aromatic amines in charcoal-grilled meat 731(1996)85

**Azadirachtin**

Determination of azadirachtin by reversed-phase high-performance liquid chromatography using anisole as internal standard 705(1995)374

**3'-Azido-3'-deoxythymidine**

Rapid and sensitive determination of zidovudine and zidovudine glucuronide in human plasma by ion-pair high-performance liquid chromatography 721(1996)127

**Aziridinecarboxylic acid derivatives**

Influence of the kind of the alcoholic modifier on chiral separation on a Chiralpak AD column 728(1996)249

**Azobenzene**

Design and optimization of a novel type nitrogen–phosphorus detector for capillary gas chromatography 732(1996)51

**Azo dyes**

see also Dyes

Linear polymers applied as pseudo-phases in capillary zone electrophoresis of azo compounds used as textile dyes 717(1995)157

Adsorption chromatography on cellulose. XIV. Some results using aqueous solutions of soluble cyclodextrin polymers as eluents 723(1996)405

**B****Baccatin III**

Analysis of taxol, 10-deacetylbaaccatin III and related compounds in *Taxus baccata* 712(1995)303

**Baclofen**

GABA-B agonists: enantiomeric resolution of 4-amino-3-(5-chlorothien-2-yl)butyric acid and analogues on chiral crown ether stationary phase 715(1995)361

High-performance liquid chromatographic determination of baclofen in human plasma 729(1996)309

**Baicalin**

Determination of gentiopicroside, mangiferin, palmatine, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

**Barbaloin**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Barbiturates**

Comparison of direct deposition and flow-cell gas chromatography–Fourier transform infrared spectrometry of barbiturates 703(1995)383

Retention studies on mixed-mode columns in high-performance liquid chromatography 708(1995)31

Molecular recognition of phenobarbital in plasticizers. Equilibrium investigations on the solubility of the barbiturate artificial receptor and its binding to phenobarbital in plasticizers 722(1996)47

**Barium**

Approaches to sample preparation for ion chromatography 739(1996)49

**Basic compounds**

Influence of organic solvent modifier and solvent strength on peak shape of some basic compounds in high-performance liquid chromatography using a reversed-phase column 708(1995)185

Enantiomeric separation by capillary electrophoresis using a soluble neutral  $\beta$ -cyclodextrin polymer 709(1995)89

Flash chiral chromatography with cellulose tris(3,5-dimethylphenylcarbamate)-coated phases 728(1996)195

Effect of organic solvent modifier and nature of solute on the performance of bonded silica reversed-phase columns for the analysis of strongly basic compounds by high-performance liquid chromatography 738(1996)169

**Basic drugs**

see also Drugs, basic

Ultra-fast chiral separation of basic drugs by capillary electrophoresis 717(1995)229

End-capping of octadecylsilylated silica gels by high-temperature silylation 737(1996)139

Separation of basic drugs with non-aqueous capillary electrophoresis 738(1996)141

Chiral separation in non-aqueous media by capillary electrophoresis using the ion-pair principle 745(1996)37

**Basic fibroblast growth factor**

Purification of recombinant human basic fibroblast growth factor: stability of selective sorbents under cleaning in place conditions 711(1995)129

**Basic proteins**

Epoxy resin coatings for capillary zone electrophoretic separation of basic proteins 723(1996)157

**Bayer liquor**

Quantitative determination of oxalate in Bayer liquor by capillary zone electrophoresis 739(1996)399

**Beauvericin**

Determination of the *Fusarium* mycotoxin beauvericin at  $\mu\text{g}/\text{kg}$  levels in corn by high-performance liquid chromatography with diode-array detection 746(1996)233

**Benoxaprofen**

Investigation of the enantioselective separations of  $\alpha$ -alkylarylcarboxylic acids on an amylose tris(3,5-dimethylphenylcarbamate) chiral stationary phase using quantitative structure–enantioselective retention relationships 737(1996)157

**Benz[c]acridines**

Chromatographic determination of benz[c]acridines and related compounds in airborne carcinogens 710(1995)117

**Benzaldehydes**

Quantitative structure–retention relationships (QSRR) of congeneric aromatics series studied on phenyl OV phases in gas chromatography 723(1996)77

**Benz[a]anthracene**

Preliminary experiments for the analysis of tetrahydrotetrols of benz[a]anthracene and benzo[a]pyrene derived from their hemoglobin adducts using a coupled-column high-performance liquid chromatographic system 730(1996)153

**Benzanthrone**

Determination of benzanthrone in environmental samples 710(1995)109

**Benzenechromium tricarbonyl**

Phase-shift-free subtraction chromatograms from a dual-channel detector 719(1996)468

**Benzenes**

Assessment by gas chromatography and gas chromatography–mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

Retention behaviour of polar compounds using porous graphitic carbon with water-rich mobile phases 712(1995)287

Polymer-supported pseudo-stationary phase for electrokinetic chromatography. Electrokinetic chromatography in a full range of methanol–water mixtures with alkylated starburst dendrimers 716(1995)57

Determination of benzene and alkylated benzenes in ambient and exhaled air by microwave desorption coupled with gas chromatography–mass spectrometry 719(1996)383

Initial experiments in high-performance liquid chromatographic method development. I. Use of a starting gradient run 721(1996)3

Quantitative structure–retention relationships (QSRR) of congeneric aromatics series studied on phenyl OV phases in gas chromatography 723(1996)77

Characterization of wide-pore reversed-phase columns for biopolymer separations. I. Single-parametric evaluation 728(1996)179

High-performance liquid chromatography with non-aqueous solvents. Relative elution strength on a polystyrene–divinylbenzene column 728(1996)271

Effects of high-frequency electromagnetic treatment on the solid-phase extraction of aqueous benzene, naphthalene and phenol 731(1996)65

Quantification of toxic hydrocarbon target compounds in engine exhaust and air by aluminum oxide porous-layer open-tubular capillary gas chromatography–mass spectrometry using isotopically labeled internal standards 731(1996)217

Determination of solute–micelle association constants for a group of benzene derivatives and polycyclic aromatic hydrocarbons with sodium dodecyl sulphate by micellar electrokinetic chromatography 732(1996)345

Determination of monocyclic aromatic hydrocarbons in fruit and vegetables by gas chromatography–mass spectrometry 734(1996)297

New approach to the characterization of pyrolysis coal products by gas chromatography–mass spectrometry 736(1996)185

Hydrogen-bonding interaction-assisted micellar electrokinetic chromatography using mixed surfactant systems 736(1996)273

On-line preconcentration and separation of neutral and charged aromatic compounds by ion interaction chromatography 739(1996)63

Correlation between the logarithm of capacity factors for aromatic compounds in micellar electrokinetic chromatography and their octanol–water partition coefficients 742(1996)251

Analysis of chloro- and nitroanilines and -benzenes in soils by headspace solid-phase microextraction 746(1996)71

Experimental and theoretical relative response factors for a pulsed discharge krypton photoionization detector 749(1996)149

#### **Benzenesulfonates**

Retention behavior of arsenobetaine, arsenocholine, trimethylarsine oxide and tetramethylarsonium iodide on a styrene–divinylbenzene column with benzenesulfonates as ion-pairing reagents 730(1996)219

Methods of analysis of polar aromatic sulfonates from aquatic environments 733(1996)473

#### **Benzimidazoles**

Direct on-column derivatisation in gas chromatography 738(1996)43

#### **Benzodiazepines**

Retention studies on mixed-mode columns in high-performance liquid chromatography 708(1995)31

Separation of enantiomers of benzodiazepines on the Chiral-AGP column 709(1995)265

Separation and structural elucidation of the hydrolysis compounds of loprazolam 721(1996)123

Study of the capillary zone electrophoretic behaviour of selected drugs, and its comparison with other analytical techniques for their formulation assay 735(1996)237

Optimized micellar electrokinetic chromatographic separation of benzodiazepines 735(1996)249

Regioselective carbamoylated and benzoylated cellulose for the separation of enantiomers in high-performance liquid chromatography 738(1996)157

#### **Benzoic acids**

Hydrogen-bonding interaction in capillary electrophoresis using polyether matrices 711(1995)305

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

#### **Benzoin**

Precolumn fluorescence derivatization of the antagonist [Arg<sup>6</sup>,D-Trp<sup>7,9</sup>,MePhe<sup>8</sup>]-Substance P{6–11} with benzoin in high-performance liquid chromatography and selective detection of arginine-containing fragments in its degradation products 736(1996)91

#### **Benzophenone**

Counter-current chromatography using supercritical fluid carbon dioxide as mobile phase 724(1996)91

#### **Benzoylalanine**

Investigation of chiral resolution using displacement interactions with polymer networks in capillary affinity zone electrophoresis 745(1996)1

#### **2'-Benzoylbenzoic acid derivatives**

High-performance liquid chromatographic separation of some 2- and 4-hydroxy derivatives of 2'-benzoylbenzoic acid on Florisil and silica gel columns 730(1996)195

#### **N-Benzoyl-N-phenylhydroxylamine**

Simultaneous determination of vanadium and molybdenum as N-benzoyl-N-phenylhydroxamate complexes by combining solvent extraction and liquid chromatography 730(1996)241

#### **Benzo[a]pyrene**

Separation of <sup>32</sup>P-labeled 3',5'-bisphosphate nucleotides of polycyclic aromatic hydrocarbon *anti*-diol-epoxides and derivatives 710(1995)149

Preliminary experiments for the analysis of tetrahydroretrols of benz[*a*]anthracene and benzo[*a*]pyrene derived from their hemoglobin adducts using a coupled-column high-performance liquid chromatographic system 730(1996)153

#### **Benzyl cyanide**

Characterization of cyano-functionalized stationary gas chromatographic phases by linear solvation energy relationships 718(1995)357

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

**Benzylidene cyclohexane derivatives**

Enantiomeric resolution of axially chiral compounds and interconvertible enantiomers by high-performance liquid chromatography 728(1996)433

**Benzylisothiocyanate**

Determination of protein amino acids as benzylthiocarbamyl derivatives compared with phenylthiocarbamyl derivatives by reversed-phase high-performance liquid chromatography, ultraviolet detection and precolumn derivatization 740(1996)41

**Benzyl phenyl selenoxide**

Enantioselective chromatography on brush-type chiral stationary phases containing totally synthetic selectors. Theoretical aspects and practical applications 724(1996)79

**Berberine**

Determination of gentiopicoside, mangiferin, palmatine, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

**Beryllium**

Ion chromatographic determination of beryllium in rock and waste waters with a chelating sorbent and conductimetric detection 706(1995)315

 **$\beta$ -Adrenoceptor antagonists**

Chloroformates and isothiocyanates derived from 2-arylpropionic acids as chiral reagents: synthetic routes and chromatographic behaviour of the derivatives 725(1996)323

 **$\beta$ -Agonists**

Rapid analysis of  $\beta$ -agonists in urine by thermospray tandem mass spectrometry 712(1995)67

Gas and liquid chromatography coupled to tandem mass spectrometry for the multiresidue analysis of  $\beta$ -agonists in biological matrices 750(1996)43

Gas chromatographic-tandem mass spectrometric analysis of clenbuterol residues in faeces 750(1996)133

 **$\beta$ -Blockers**

Chiral separations of  $\beta$ -blocking drug substances using chiral stationary phases 708(1995)253

Enantiomeric purity determination of propranolol by cyclodextrin-modified capillary electrophoresis 717(1995)203

Ion-pair chromatography and micellar electrokinetic capillary chromatography in analyzing beta-adrenergic blocking agents from human biological fluids 717(1995)211

Re-evaluation of strong cation-exchange high-performance liquid chromatography for the analysis of basic drugs 725(1996)335

Flash chiral chromatography with cellulose tris(3,5-dimethylphenylcarbamate)-coated phases 728(1996)195

Bonded cellulose-derived high-performance liquid chromatography chiral stationary phases. I. Influence of the degree of fixation on selectivity 728(1996)407

Synthesis and application of a new isothiocyanate as a chiral derivatizing agent for the indirect resolution of chiral amino alcohols and amines 729(1996)33

Capillary electrophoresis of cardiovascular drugs 735(1996)123

Determination of some cardiovascular drugs in serum and urine by capillary isotachopheresis 735(1996)403

Regioselective carbamoylated and benzooylated cellulose for the separation of enantiomers in high-performance liquid chromatography 738(1996)157

Efficient high-performance liquid chromatographic enantioseparation of five-membered aryl-substituted lactones and cyclic carbamates on a (*R,R*)-diaminodihydroethanoanthracene-derived chiral stationary phase 740(1996)11

Selectivity of capillary electrophoresis for the analysis of cardiovascular drugs 745(1996)145

**Betalains**

Application of capillary zone electrophoresis to the analysis of betalains from *Beta vulgaris* 735(1996)409

**Betanin**

Application of capillary zone electrophoresis to the analysis of betalains from *Beta vulgaris* 735(1996)409

**Betulin**

Isolation of cholesterol oxidation products from animal fat using aminopropyl solid-phase extraction 736(1996)205

**Bianthranyl**

Determination of 1,8-dihydroxyanthranoids in senna 740(1996)133

**Bile acids, 6-hydroxylated**

Capillary gas-liquid chromatography of 6-hydroxylated bile acids 704(1995)228

**Bile acid sulphates**

Microbore high-performance liquid chromatography-electrospray ionisation mass spectrometry of steroid sulphates 738(1996)191

**Bile salts**

Suppression of chiral recognition of 3-hydroxy-1,4-benzodiazepines during micellar electrokinetic capillary chromatography with bile salts 704(1995)238

Quantitative structure-activity relationships studies with micellar electrokinetic chromatography. Influence of surfactant type and mixed micelles on estimation of hydrophobicity and bioavailability 721(1996)323

Mixed micelles of short chain alkyl surfactants and bile salts in electrokinetic chromatography. Enhanced separation of corticosteroids 738(1996)275

Application of capillary electrophoresis for characterizing interactions between drugs and bile salts. Part I 745(1996)135

### **Binaphthols**

Combined polymerized chiral micelle and  $\gamma$ -cyclodextrin for chiral separation in capillary electrophoresis 711(1995)297

Chiral separation of verapamil and related compounds using micellar electrokinetic capillary chromatography with mixed micelles of bile salt and polyoxyethylene ethers 723(1996)179

Preparation and enantioselectivity of (*S*)-binaphthol-bonded phase for high-performance liquid chromatography 736(1996)39

### **Binaphthyl**

Micellar electrokinetic capillary chromatography with in-situ charged micelles 724(1996)285

### **Binaphthyl derivatives**

Capillary electrophoresis and  $^1\text{H}$  NMR studies on chiral recognition of atropisomeric binaphthyl derivatives by cyclodextrin hosts 732(1996)143

### **Binaphthylidyl hydrogenphosphate**

Enantiomeric resolution of anionic *R/S*-1,1'-binaphthyl-2,2'-diyl hydrogen phosphate by capillary electrophoresis using anionic cyclodextrin derivatives as chiral selectors 704(1995)234

Combined polymerized chiral micelle and  $\gamma$ -cyclodextrin for chiral separation in capillary electrophoresis 711(1995)297

Reversal of enantiomer elution order in capillary electrophoresis using charged and neutral cyclodextrins 732(1996)183

### **Biogenic amines**

see also Amines and Catecholamines

Ball-lens laser-induced fluorescence detector as an easy-to-use highly sensitive detector for capillary electrophoresis.

Application to the identification of biogenic amines in dairy products 717(1995)335

Determination of biogenic amines in wine after precolumn derivatization with 6-aminoquinolyl-*N*-hydroxysuccinimidyl carbamate 737(1996)205

Separation of biogenic amines by micellar electrokinetic chromatography 745(1996)255

### **Biotin**

Application and optimization of capillary zone electrophoresis in vitamin analysis 717(1995)255

**Bis(acetato)amminedichloro(cyclohexylamine) platinum(VI)**  
Metabolic studies of an orally active platinum anticancer drug by liquid chromatography–electrospray ionization mass spectrometry 712(1995)61

### **Bisdemethoxycurcumin**

Characterization of powdered turmeric by liquid chromatography–mass spectrometry and gas chromatography–mass spectrometry 740(1996)51

### **5,12-Bis(dodecyloxymethyl)-4,7,10,13-tetraoxa-1,16-hexadecanedisulfonate**

Double-chain surfactants with two sulfonate groups as micelle-forming reagents in micellar electrokinetic chromatography of naphthalene derivatives 715(1995)135

### **5,13-Bis(dodecyloxymethyl)-4,7,11,14-tetraoxa-1,17-heptadecanedisulfonate**

Double-chain surfactants with two sulfonate groups as micelle-forming reagents in micellar electrokinetic chromatography of naphthalene derivatives 715(1995)135

### **5,13-Bis(dodecyloxymethyl)-4,7,11,14-tetraoxa-9,9-dimethyl-1,17-heptadecanedisulfonate**

Double-chain surfactants with two sulfonate groups as micelle-forming reagents in micellar electrokinetic chromatography of naphthalene derivatives 715(1995)135

### ***N,N'*-Bis(2-hydroxybenzyl)ethylenediamine-*N,N'*-diacetic acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

### ***N,N'*-Bis(2-hydroxybenzyl)ethylenediamine-*N,N'*-dipropionic acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

### **Bisphenol-A diglycidyl ether**

Development and application of radio-size-exclusion chromatography 727(1996)61

### **Bisphenol-A, dipropoxylated, polyesters**

Characterization of low-molar-mass polymers by gradient polymer elution chromatography 746(1996)211

### **3',5'-Bisphosphate nucleotides**

Separation of  $^{32}\text{P}$ -labeled 3',5'-bisphosphate nucleotides of polycyclic aromatic hydrocarbon *anti*-diol-epoxides and derivatives 710(1995)149

### **Bisphosphonate**

Gas chromatographic analysis of 3-amino-1-hydroxypropylidene-1,1-bisphosphonate and related bisphosphonate as their *N*-isobutoxycarbonyl methyl ester derivatives 724(1996)279

### **Bis(trifluoromethyl)benzylidimethylphenylammonium fluoride**

Direct on-column derivatisation in gas chromatography 738(1996)57

**Bitter peptides**

Isolation of low-molecular-mass hydrophobic bitter peptides in soybean protein hydrolysates by reversed-phase high-performance liquid chromatography 704(1995)113

**Bixins**

High-performance liquid chromatographic separation of carminic acid,  $\alpha$ - and  $\beta$ -bixin, and  $\alpha$ - and  $\beta$ -norbixin, and the determination of carminic acid in foods 732(1996)394

**Boldenone**

Comparison of the possibilities of gas chromatography–mass spectrometry and tandem mass spectrometry systems for the analysis of anabolics in biological material 750(1996)105

**Bombesin**

Investigation of crudes of synthesis of neuropeptide Y by high-performance liquid chromatography–electrospray mass spectrometry 715(1995)227

**Borate**

Peak splitting observed during capillary electrophoresis of  $\alpha$ - and  $\beta$ -naphthols in borate buffer 745(1996)225

**Boric acid**

Determination of inorganic and small organic anions in pure boric acid using capillary zone electrophoresis 716(1995)311

**Boronic acid**

Reversed-phase affinity chromatography of ecdysteroids with boronic acid-containing eluents 730(1996)147

**Boronophenylserine**

Electrophoretic study of the interaction of *p*-boronophenylserine with carboxylic acids by the three-spot method 738(1996)305

**Bosentan**

Determination of an endothelin receptor antagonist in human plasma by narrow-bore liquid chromatography and ionspray tandem mass spectrometry 712(1995)75

**Bradykinin**

Electrochromatography in chemically modified etched fused-silica capillaries 736(1996)255

**Bretylium**

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

**Brevetoxins**

On-line liquid chromatography–electrospray ionization mass spectrometry for determination of the brevetoxin profile in natural “red tide” algae blooms 750(1996)115

**Brilliant blue**

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

**Bromate**

Stationary phase for the determination of fluoride and other inorganic anions 706(1995)81

Quantitative thin-layer chromatography of perbromate 712(1995)382

**Bromide**

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Ion chromatographic determination of nutrients in sea water 706(1995)277

Determination of anions in oilfield waters by ion chromatography 706(1995)301

High-sensitivity conductivity detection in non-suppressed ion chromatography using sulfoisophthalic acid as eluent 727(1996)311

Determination of bromide in complex matrices by pre-column derivatization linked to solid-phase extraction and high-performance liquid chromatography 746(1996)31

**5-Bromoacetyl acenaphthene**

Acenaphthene fluorescence derivatisation reagents for use in high-performance liquid chromatography 715(1995)201

**1-Bromoacetylpyrene**

Isolation of dinophysistoxin-2 and the high-performance liquid chromatographic analysis of diarrhetic shellfish toxins using derivatisation with 1-bromoacetylpyrene 749(1996)33

**Bromotetrachlorofluorescein**

Isolation of 4'-bromo-4,5,6,7-tetrachlorofluorescein from a synthetic mixture by pH-zone-refining counter-current chromatography with continuous pH monitoring 732(1996)283

**Bromothymol blue**

Simple double-beam absorption detection systems for capillary electrophoresis based on diode lasers and light-emitting diodes 718(1995)177

**Budesonide**

Trifluoromethanesulfonic acid as a catalyst for the formation of dansylhydrazone derivatives 740(1996)279

**Bupivacaine**

Direct injection of large volumes of plasma in a column-switching system for the analysis of local anaesthetics 725(1996)137

Direct injection of large volumes of plasma in a column-switching system for the analysis of local anaesthetics. II. Determination of bupivacaine in human plasma with an alkyl-diol silica precolumn 725(1996)149

**Butadienes**

Assessment by gas chromatography and gas chromatography–mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

Sampling and analysis of 1,3-butadiene in air by gas chromatography on a porous-layer open-tubular fused-silica column 710(1995)237

Quantification of toxic hydrocarbon target compounds in engine exhaust and air by aluminum oxide porous-layer open-tubular capillary gas chromatography–mass spectrometry using isotopically labeled internal standards 731(1996)217

Determination of the chemical composition distribution of copolymers of styrene and butadiene by gradient polymer elution chromatography 736(1996)125

Analysis of chlorinated 1,3-butadienes by solid-phase microextraction and gas chromatography–mass spectrometry 737(1996)85

#### **Butanediglycidyl ether**

Synthesis and chromatographic characterization of dextran-coated zirconia high-performance liquid chromatographic stationary phases 746(1996)199

#### **1,4-Butanedisulphonate**

Plasma level determination of 1,4-butanedisulphonate by ion chromatography and conductimetric detection 706(1995)451

#### **1-Butanol**

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

#### **Butylamine**

Ion chromatography of amylamine and *tert.*-butylamine in pharmaceuticals 739(1996)343

#### ***p*-*tert.*-Butylcalixarenes**

Gas chromatographic study of the inclusion properties of calixarenes 732(1996)63

#### **Butyldisulfide**

Accurate spectral scans of single chromatographic peaks 746(1996)43

#### **Butylisothiocyanate**

Determination of amino acids in the foods by reversed-phase high-performance liquid chromatography with a new precolumn derivative, butylthiocarbamyl amino acid, compared to the conventional phenylthiocarbamyl derivatives and ion-exchange chromatography 740(1996)31

#### **(*S*)-(+)-2-*tert.*-Butyl-2-methyl-1,3-benzodioxole-4-carboxylic acid**

Highly sensitive high-performance liquid chromatographic method to discriminate enantiomeric monoacylglycerols based on fluorescent chiral derivatization with (*S*)-(+)-2-*tert.*-butyl-2-methyl-1,3-benzodioxole-4-carboxylic acid 709(1995)375

#### **1-(4-*tert.*-Butylphenyl)-4-(4-hydroxypiperidinyl)butan-1-one**

Separation of 1-(4-*tert.*-butylphenyl)-4-(4-hydroxypiperidinyl)-butan-1-one and its O-alkylated isomer by capillary zone electrophoresis 742(1996)275

#### **1-(4-*tert.*-Butylphenyl)-4-(piperidinyl-4-yloxy)butan-1-one**

Separation of 1-(4-*tert.*-butylphenyl)-4-(4-hydroxypiperidinyl)-butan-1-one and its O-alkylated isomer by capillary zone electrophoresis 742(1996)275

#### **Butyltin compounds**

Determination of butyl- and phenyltin compounds in biological material by gas chromatography–flame photometric detection after ethylation with sodium tetraethylborate 750(1996)317

#### **Butyric acid**

Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27

## C

#### **Cadmium**

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

#### **Cadmium sulfide**

Analysis of colloids. VIII. Concentration- and memory effects in size exclusion chromatography of colloidal inorganic nanometer-particles 707(1995)189

#### **Cadmium–chloride system**

Preliminary tests to select operating conditions for the accurate determination of stability constants by cation-exchange chromatography: the  $\text{Cd}^{2+}-\text{Cl}^-$  and  $\text{Cd}^{2+}-\text{NO}_3^-$  systems 706(1995)43

#### **Cadmium–nitrate system**

Preliminary tests to select operating conditions for the accurate determination of stability constants by cation-exchange chromatography: the  $\text{Cd}^{2+}-\text{Cl}^-$  and  $\text{Cd}^{2+}-\text{NO}_3^-$  systems 706(1995)43

#### **Caesium-137**

Determination of Cs-137 in environmental water by ion-exchange chromatography (Review) 733(1996)57

#### **Caffeic acid**

Analysis of the components of *Lycopus europaeus* L. in body fluids during metabolism studies. Comparison of capillary electrophoresis and high-performance liquid chromatography 717(1995)261

Determination of some pharmacologically active phenolic acids in juices by high-performance liquid chromatography 741(1996)223

**Caffeine**

Performance characteristics of a real-time direct deposition supercritical fluid chromatography–Fourier transform infrared spectrophotometry system 703(1995)503

Use of 3-(1,8-naphthalimido)propyl-modified silyl silica gel as a stationary phase for the high-performance liquid chromatographic separation of purine derivatives 722(1996)107

Application of high-performance liquid chromatography with diode-array detection and on-line post-column photochemical derivatization to the determination of analgesics 729(1996)355

Feasibility of supercritical fluid chromatography–chemiluminescent nitrogen detection with open tubular columns 734(1996)303

Microemulsion electrokinetic chromatographic separation of antipyretic analgesic ingredients 735(1996)353

Determination of morphine analogues, caffeine and amphetamine in biological fluids by capillary electrophoresis with the marker technique 735(1996)439

Simultaneous analysis of individual catechins and caffeine in green tea 749(1996)295

**Calcium**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Cation trace analysis of snow and firn samples from high-alpine sites by ion chromatography 706(1995)249

Non-suppressed ion chromatography of inorganic anions, magnesium and calcium ions using a pyromellitate eluent and its application in evaluating environmental water quality 731(1996)179

**Calcium-binding proteins**

Isolation of calcium-binding proteins on selective adsorbents 732(1996)261

**Calcium channel antagonists**

Selectivity of capillary electrophoresis for the analysis of cardiovascular drugs 745(1996)145

**Calcium channel blockers**

Capillary electrophoresis of cardiovascular drugs 735(1996)123

**Calixarenes**

Silica-bonded calixarenes in chromatography 731(1996)41

Gas chromatographic study of the inclusion properties of calixarenes 732(1996)63

**Calmodulin**

Isolation of calcium-binding proteins on selective adsorbents 732(1996)261

**Camphorsulfonate**

Chiral separation in non-aqueous media by capillary electrophoresis using the ion-pair principle 745(1996)37

**Camptothecin**

Simultaneous determination of a camptothecin derivative, used as an anticancer drug, and its photodegradation products by high-performance liquid chromatography 734(1996)401

**Capsular polysaccharide**

Purification of preparative quantities of group B *Streptococcus* type III oligosaccharides 705(1995)363

**Captopril**

Determination of captopril and its disulphides in whole human blood and urine by high-performance liquid chromatography with ultraviolet detection and precolumn derivatization 729(1996)335

Rational experimental design for bioanalytical methods validation. Illustration using an assay method for total captopril in plasma 730(1996)381

**Carbamates**

Column liquid chromatography–mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

Packed column supercritical fluid chromatography–mass spectrometry with particle beam interface aided with particle forming solvent 703(1995)489

Effect of ion source pressure on ion formation of carbamates in particle-beam chemical-ionisation mass spectrometry 712(1995)21

Determination of ten carbamate pesticides in aquatic and sediment samples by liquid chromatography–ionspray and thermospray mass spectrometry 733(1996)283

Gas chromatographic–mass spectrometric study of photodegradation of carbamate pesticides 738(1996)225

Decay study of pesticide residues in apple samples 740(1996)146

Utilization of *n*-alkyl- $\beta$ -D-glucopyranosides in enantiomeric separation by micellar electrokinetic chromatography 749(1996)257

**Carbaryl**

Chromatographic and related spot tests for the detection of water pollutants 733(1996)5

**4-(2-Carbazoylpyrrolidin-1-yl)-7-nitro-2,1,3-benzoxadiazole**  
Determination of 4-hydroxy-2-nonenal by precolumn derivatization and liquid chromatography with laser fluorescence detection 719(1996)450

#### **Carbendazim**

Determination of carbendazim in water by high-performance immunoaffinity chromatography on-line with high-performance liquid chromatography with diode-array or mass spectrometric detection 724(1996)207

#### **Carbene complexes**

Characterization of chromium–carbene complexes by high-performance liquid chromatography–mass spectrometry with particle beam interface 730(1996)231

#### **Carbinols**

Diphenylethanediamine derivatives as chiral selectors 732(1996)215

#### **Carbohydrate, persulfated**

Quantitative determination of heparinoid mimetics in human and rat plasma by micellar electrokinetic chromatography 730(1996)297

#### **Carbohydrates**

Simultaneous determination of twelve constituents of I-tzu-tang, a Chinese herbal preparation, by high-performance liquid chromatography and capillary electrophoresis 704(1995)141

Determination of monomeric sugar and carboxylic acids by ion-exclusion chromatography 706(1995)361

Direct separation of carboxylic acid and amine enantiomers by high-performance liquid chromatography on reversed-phase silica gels coated with chiral copper(II) complexes 707(1995)380

Acenaphthene fluorescence derivatisation reagents for use in high-performance liquid chromatography 715(1995)201

Utilization of fluorescein sodium salt in laser-induced indirect fluorimetric detection. II. Application to organic anions 716(1995)279

Determination of mono-, poly- and hydroxy-carboxylic acid profiles of beverages as their 2-nitrophenylhydrazides by reversed-phase ion-pair chromatography 721(1996)261

Liquid membrane enrichment for the ion chromatographic determination of carboxylic acids in soil samples 725(1996)189

Retention of pyridinecarboxylic acids on monomeric and polymeric alkylamide phases 728(1996)213

Chromatographic and related spot tests for the detection of water pollutants 733(1996)5

Investigation of enantioselective separation of quinolonecarboxylic acids by capillary zone electrophoresis using vancomycin as a chiral selector 736(1996)303

Capillary zone electrophoretic and micellar electrokinetic capillary chromatographic separations of polyaminopolycarboxylic acids as their copper complexes 736(1996)333

Determination of carboxylic acids and inorganic anions in wines by ion-exchange chromatography 736(1996)351

Retention models for the ion chromatographic separations of metals in the presence of complexing agents 737(1996)129

Direct on-column derivatisation in gas chromatography 738(1996)57

Electrophoretic study of the interaction of *p*-boronophenylserine with carboxylic acids by the three-spot method 738(1996)305

Ion-exclusion chromatography of aliphatic carboxylic acids on an unmodified silica gel column 739(1996)359

Optimization of the separation of polycarboxylic acids by capillary zone electrophoresis 739(1996)389

#### **Carboxylic acids, aliphatic**

Ion-exclusion chromatography with conductimetric detection of aliphatic carboxylic acids on an H<sup>+</sup>-form cation-exchange resin column by elution with polyols and sugars 706(1995)385

#### **Carboxyphenylbenzofuran**

Determination of alcohols by high-performance liquid chromatography with fluorimetric detection after precolumn derivatization with 2-(4-carboxyphenyl)-6-methoxybenzofuran 724(1996)107

#### **Carcinogens**

Chromatographic determination of benz[*c*]acridines and related compounds in airborne carcinogens 710(1995)117

#### **Cardenolides**

Liquid chromatography combined with thermospray and continuous-flow fast atom bombardment mass spectrometry of glycosides in crude plant extracts 712(1995)155

#### **Cardiac glycosides**

Capillary electrophoresis of cardiovascular drugs 735(1996)123

#### **Cardiolipin**

A high-performance liquid chromatographic method for the analysis of lipids from lyophilized formulations 724(1996)343

#### **Carminic acid**

High-performance liquid chromatographic separation of carminic acid,  $\alpha$ - and  $\beta$ -bixin, and  $\alpha$ - and  $\beta$ -norbixin, and the determination of carminic acid in foods 732(1996)394

#### **Carnitine**

Separation of *D/L*-carnitine enantiomers by capillary electrophoresis 745(1996)53

#### **$\alpha$ -Carotene**

Isolation and structural elucidation of the predominant geometrical isomers of  $\alpha$ -carotene 719(1996)333

#### **$\beta$ -Carotene**

Rapid high-performance liquid chromatographic method for determination of  $\beta$ -carotene in milk 721(1996)355

#### **Carotenoids**

Capability of a polymeric C<sub>30</sub> stationary phase to resolve *cis-trans* carotenoid isomers in reversed-phase liquid chromatography 707(1995)205

#### **Caseinomacropptide**

Reversed-phase high-performance liquid chromatographic separation of bovine  $\kappa$ -casein macropptide and characterization of isolated fractions 743(1996)123

#### **Caseins**

Heterogeneity of the bovine  $\kappa$ -casein caseinomacropptide, resolved by liquid chromatography on-line with electrospray ionization mass spectrometry 708(1995)223

Identification of a new genetic variant of bovine  $\beta$ -casein using reversed-phase high-performance liquid chromatography and mass spectrometric analysis 711(1995)141

Characterization of ewe's milk by capillary zone electrophoresis 721(1996)345

Separation of small cationic bioactive peptides by strong ion-exchange chromatography 724(1996)137

Capillary electrophoresis of Cheddar cheese 731(1996)305

Reversed-phase high-performance liquid chromatographic separation of bovine  $\kappa$ -casein macropeptide and characterization of isolated fractions 743(1996)123

#### **$\beta$ -Casomorphin-5**

Isolation and identification of peptide conformers by reversed-phase high-performance liquid chromatography and NMR at low temperature 729(1996)155

#### **Catechins**

Preparative separation of phenolic compounds from *Picea abies* by high-speed counter-current chromatography 719(1996)438

Selection of column and gradient for the separation of polyphenols in sherry wine by high-performance liquid chromatography incorporating internal standards 724(1996)117

Simultaneous analysis of individual catechins and caffeine in green tea 749(1996)295

#### **Catecholamines**

see also Amines

Modification of a tunable UV-visible capillary electrophoresis detector for simultaneous absorbance and fluorescence detection: profiling of body fluids for drugs and endogenous compounds 709(1995)147

Simultaneous determination of amino acids and biogenic amines by reversed-phase high-performance liquid chromatography of the dabsyl derivatives 715(1995)67

Application of a novel, plastic formed carbon as a precolumn packing material for the liquid chromatographic determination of acetylcholine and choline in biological samples 718(1995)267

pH-Zone refining counter-current chromatography of polar catecholamines using di-(2-ethylhexyl)phosphoric acid as a ligand 724(1996)348

Study of a new solid carbon paste tyrosinase-modified amperometric biosensor for the determination of catecholamines by high-performance liquid chromatography 727(1996)47

#### **Cations**

Ion-pair adsorption chromatography for process purposes 741(1996)185

**Chinese crude drugs**

Micellar electrokinetic chromatography. Perspectives in drug analysis 735(1996)3

**Chitosan**

Affinity chromatography of trypsin using chitosan as ligand support 742(1996)107

**Chlamydospordioid**

Simultaneous high-performance liquid chromatographic determination of visoltricin, acuminatopyrone and chlamydosporols in *Fusarium* cultures on maize 730(1996)69

**Chlamydosporol**

Simultaneous high-performance liquid chromatographic determination of visoltricin, acuminatopyrone and chlamydosporols in *Fusarium* cultures on maize 730(1996)69

**Chloramine-T**

Industrial applications of capillary zone electrophoresis-mass spectrometry 712(1995)269

**Chlorate**

Stationary phase for the determination of fluoride and other inorganic anions 706(1995)81

**Chloride**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Evaluation of 1,2-diaminocyclohexanetetraacetic acid as eluent in the determination of inorganic anions and cations by ion chromatography 706(1995)115

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Determination of anions in human and animal tear fluid and blood serum by ion chromatography 706(1995)183

Determinations of trace anions in hydrogen peroxide 706(1995)191

Control of errors in anion chromatography applied to environmental research 706(1995)229

Determination of anions in oilfield waters by ion chromatography 706(1995)301

Determination of chloride in the leachates of stabilised waste by ion chromatography and by a volumetric method. Analysis and comparison 706(1995)321

Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571

Determination of chloride complex of Au(III) by capillary zone electrophoresis with direct UV detection 718(1995)227

High-sensitivity conductivity detection in non-suppressed ion chromatography using sulfoisophthalic acid as eluent 727(1996)311

Influence of the sample matrix composition on the accuracy of the ion chromatographic determination of anions 739(1996)35

Determination of trace level ions by high-volume direct-injection ion chromatography 739(1996)71

**Chlorinated acids**

Analysis of chlorinated acetic and propionic acids as their pentafluorobenzyl derivatives. I. Preparation of the derivatives 718(1995)391

**Chlorinated butadienes**

Analysis of chlorinated 1,3-butadienes by solid-phase microextraction and gas chromatography–mass spectrometry 737(1996)85

**Chlorinated fatty acids**

Enrichment of chlorinated fatty acids in fish lipids prior to analysis by capillary gas chromatography with electrolytic conductivity detection and mass spectrometry 731(1996)225

**Chlorinated phenoxyacetic acids**

Column liquid chromatography–mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

**Chlorinated phenoxy acids**

Chlorinated acid herbicides in water by strong anion-exchange disk extraction and in-vial elution and derivatization 741(1996)85

**Chlorite**

Stationary phase for the determination of fluoride and other inorganic anions 706(1995)81

**Chloroanilines**

Determination of chloroanilines in antibacterial soaps using cation-exchange chromatography with UV detection 719(1996)434

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

Analysis of chloro- and nitroanilines and -benzenes in soils by headspace solid-phase microextraction 746(1996)71

**Chloroauric acid**

Adsorption chromatography on cellulose. XIV. Some results using aqueous solutions of soluble cyclodextrin polymers as eluents 723(1996)405

**Chlorobenzenes**

Characterization of organic micropollutants in the River Cinca (Spain) by using granular activated carbon and liquid–liquid extraction 733(1996)159

Structure–retention correlations of chlorobenzenes as a method for the comparison of the behaviour of gas–liquid–solid and gas–liquid capillary columns of various polarities 734(1996)277

Analysis of chloro- and nitroanilines and -benzenes in soils by headspace solid-phase microextraction 746(1996)71

Simultaneous determination of chlorophenols, chlorobenzenes and chlorobenzoates in microbial solutions using pentafluorobenzylbromide derivatization and analysis by gas chromatography with electron-capture detection 749(1996)165

**Chlorobenzoates**

Simultaneous determination of chlorophenols, chlorobenzenes and chlorobenzoates in microbial solutions using pentafluorobenzylbromide derivatization and analysis by gas chromatography with electron-capture detection 749(1996)165

**Chlorobiphenyls**

Critical review of the analysis of non- and mono-*ortho*-chlorobiphenyls 703(1995)417

Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107

**5-Chloro-2-(2,4-dichlorophenoxy)phenol**

Gas chromatographic determination of 5-chloro-2-(2,4-dichlorophenoxy)-phenol in the waste water of a slaughterhouse 705(1995)313

**10-Chloro-5,10-dihydrophenarsazine**

Derivatization of 10-chloro-5,10-dihydrophenarsazine (Adamsite) for gas chromatographic analysis 719(1996)401

**2-Chloroethanol**

Elucidation of the degradation mechanism of 2-chloroethanol by hydrogen peroxide under ultraviolet irradiation 706(1995)345

**Chlorofluorocarbons**

Simple method of electron capture detector calibration for quantitative measurements of F-11 and F-12 freons in the atmosphere 724(1996)265

**Chloroform**

Environmental and biological monitoring of chloroform in indoor swimming pools 710(1995)181

**Chlorogenic acid**

Determination of some pharmacologically active phenolic acids in juices by high-performance liquid chromatography 741(1996)223

**Chloronitrobenzofurazan**

Argon-laser-induced fluorescence detection in sodium dodecyl sulfate-capillary gel electrophoretic separations of proteins 746(1996)109

**Chlorophenols**

Column liquid chromatography–mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

Chemically removable derivatization reagent for liquid chromatography. I. 2-(*N*-Phthalimido)ethyl 2-(dimethylamino)ethanesulfonate 710(1995)267

Determination of chlorophenols at the sub-ppb level in tap water using derivatization, solid-phase extraction and gas chromatography with plasma atomic emission detection 721(1996)297

Migration behaviour and selectivity of dichlorophenols in micellar electrokinetic capillary chromatography. Influence of micelle concentration and buffer pH 722(1996)333

Determination of pentachlorophenol in water samples by capillary zone electrophoresis 733(1996)395

Analysis of structural isomers of polychlorinated phenols in water by liquid-nitrogen-trapping gas chromatography–Fourier transform infrared spectroscopy 733(1996)405

Direct on-column derivatisation in gas chromatography 738(1996)43

Direct on-column derivatisation in gas chromatography 738(1996)57

Sample preparation techniques for determining semi-volatile organic compounds in nuclear defense materials production waste 738(1996)215

Determination of chlorophenols in drinking water with high resolution gas chromatography–tandem mass spectrometry 743(1996)283

Migration behavior and separation of trichlorophenols by capillary zone electrophoresis 746(1996)295

Simultaneous determination of chlorophenols, chlorobenzenes and chlorobenzoates in microbial solutions using pentafluorobenzylbromide derivatization and analysis by gas chromatography with electron-capture detection 749(1996)165

Quantification of two chromatographic unresolved dichlorophenols using gas chromatography–direct deposition–Fourier transform infrared spectrometry and multivariate calibration 750(1996)341

#### **Chlorophenoxy acids**

On-line preconcentration, cleanup and high-performance liquid chromatographic determination of chlorophenoxy acid herbicides in water 731(1996)115

Analysis of chlorophenoxy acid herbicides by cyclodextrin-modified capillary electrophoresis 745(1996)217

#### **Chlorophenyls**

Enhanced selectivity in the analysis of chlorobiphenyls on a carborane phenylmethylsiloxane copolymer gas chromatography phase (HT-8) 708(1995)115

#### **Chlorophyllins**

High-performance liquid chromatographic separation of iron(III) chlorophyllin 721(1996)350

#### **Chlorophylls**

Preparation of Cu(II) complexes of oxidized chlorophylls and their determination by thin-layer and high-performance liquid chromatography 731(1996)261

Ion-pair reversed-phase high-performance liquid chromatography of algal chlorophylls 738(1996)285

#### **Chlorothalidone**

Covalently bonded permethylated cyclodextrins, new selectors for enantiomeric separations by liquid chromatography 728(1996)171

Determination of enantiomerization barriers by computer simulation of experimental elution profiles obtained by high-performance liquid chromatography on a chiral stationary phase 731(1996)315

#### **Chlorowarfarin**

Detection of non-UV-absorbing chiral compounds by high-performance liquid chromatography–mass spectrometry 746(1996)9

#### **Chlorpheniramine**

Application of high-performance liquid chromatography with diode-array detection and on-line post-column photochemical derivatization to the determination of analgesics 729(1996)355

#### **Chlorpheniramine maleate**

Simultaneous determination of chlorpheniramine and maleate by high-performance liquid chromatography using tetra-*n*-butylammonium phosphate as an ion-pair reagent 731(1996)346

#### **Chlorprothixene**

Stability-indicating high-performance liquid chromatographic assay for the simultaneous determination of dixyrazine and chlorprothixene in intravenous admixtures 729(1996)201

#### **Chlorthalidone**

Cationic  $\beta$ -cyclodextrin: a new versatile chiral additive for separation of drug enantiomers by high-performance liquid chromatography 704(1995)67

#### **5 $\alpha$ -Cholestane**

Adsorption of oxysterols on different microtube materials during silanylation prior to gas chromatographic determination 705(1995)396

#### **Cholesterol**

Comparison of three methods for the determination of oxysterols in spray-dried egg 705(1995)289

Adsorption of oxysterols on different microtube materials during silanylation prior to gas chromatographic determination 705(1995)396

Determination of cholesterol in milk fat by supercritical fluid chromatography 715(1995)333

Automated sample preparation for cholesterol determination in foods 718(1995)371

Gas chromatographic determination of cholesterol and tocopherols in edible oils and fats with automatic removal of interfering triglycerides 719(1996)221

A high-performance liquid chromatographic method for the analysis of lipids from lyophilized formulations 724(1996)343

Isolation of cholesterol oxidation products from animal fat using aminopropyl solid-phase extraction 736(1996)205

#### **Cholesterol oxides**

Isolation of cholesterol oxidation products from animal fat using aminopropyl solid-phase extraction 736(1996)205

#### **Cholesteryl palmitate**

Stability and purity of low-polarity adsorbents for coupled supercritical fluid extraction–supercritical fluid chromatography–flame ionization detection 734(1996)311

#### **Choline**

Application of a novel, plastic formed carbon as a precolumn packing material for the liquid chromatographic determination of acetylcholine and choline in biological samples 718(1995)267

Determination of choline in pharmaceutical formulations by reversed-phase high-performance liquid chromatography and postcolumn suppression conductivity detection 739(1996)351

#### **Choline glycerophospholipids**

Quantitation of choline glycerophospholipids that contain carboxylate residues by fluorometric high-performance liquid chromatography 724(1996)131

#### **Cholinesterase**

Toxicological evaluation of harmful substances by in situ enzymatic and biological detection in high-performance thin-layer chromatography 750(1996)403

#### **Chondroitin sulfate**

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

#### **Chromate**

Separation of chromate and tungstate by reversed-phase high-performance chromatography using rutin as chelating reagent 709(1995)381

#### **Chromium**

On-line thermal lens spectrometric detection of Cr(III) and Cr(VI) after separation by ion chromatography 706(1995)121

Simultaneous determination of chromium(III) and chromium(VI) by ion chromatography with inductively coupled plasma mass spectrometry 706(1995)127

Chromium speciation by anion-exchange high-performance liquid chromatography with both inductively coupled plasma atomic emission spectroscopic and inductively coupled plasma mass spectrometric detection 712(1995)311

Ion chromatographic speciation of chromium with diphenylcarbazide-based spectrophotometric detection 736(1996)141

Speciation of chromium in waste waters by coupled column ion chromatography–inductively coupled plasma mass spectrometry 750(1996)89

#### **Chromium complexes**

Complete chromatographic separation of aquachromium(III)–isothiocyanato successive complexes including geometric isomers using cross-linked dextran and poly(vinyl alcohol) gel columns 719(1996)365

Characterization of chromium–carbene complexes by high-performance liquid chromatography–mass spectrometry with particle beam interface 730(1996)231

#### **Chrysanthemic acid**

Enantiomer separation by gas and high-performance liquid chromatography with tripeptide derivatives as chiral stationary phases 722(1996)229

#### **Chymopapain**

Thiol pegylation facilitates purification of chymopapain leading to diffraction studies at 1.4 Å resolution 749(1996)69

#### **$\alpha$ -Chymotrypsin**

Studies of complexes between proteases, substrates and the protease inhibitor  $\alpha_2$ -macroglobulin using capillary electrophoresis with laser-induced fluorescence detection 716(1995)363

Continuous biospecific affinity purification of enzymes by simulated moving-bed chromatography. Theoretical description and experimental results 719(1996)267

Liquid chromatography studies on the enzymatic degradation of luteinizing hormone-releasing hormone analogues with off-line identification by mass spectrometry 729(1996)137

#### **$\alpha$ -Chymotrypsinogen A**

Pre-column derivatization of proteins to enhance detection sensitivity for sodium dodecyl sulfate non-gel sieving capillary electrophoresis 715(1995)167

#### **Cibacron Blue F36-A**

Isolation by gel-permeation chromatography of a non-covalent complex of Cibacron Blue F3G-A with human serum albumin 736(1996)115

#### **Cimaterol**

Rapid analysis of  $\beta$ -agonists in urine by thermospray tandem mass spectrometry 712(1995)67

Gas and liquid chromatography coupled to tandem mass spectrometry for the multiresidue analysis of  $\beta$ -agonists in biological matrices 750(1996)43

#### **Cinchonan carbamates**

Quinine and quinidine derivatives as chiral selectors 741(1996)33

**Ciprofibrate**

Covalently bonded permethylated cyclodextrins, new selectors for enantiomeric separations by liquid chromatography 728(1996)171

**Ciprofloxacin**

High-performance liquid chromatographic separation and determination of small amounts of process impurities of ciprofloxacin in bulk drugs and formulations 705(1995)380

**Cisapride**

Chiral separation in non-aqueous media by capillary electrophoresis using the ion-pair principle 745(1996)37

**Cispentacin**

High-performance liquid chromatographic method for the separation of isomers of *cis*- and *trans*-2-amino-cyclopentane-1-carboxylic acid 715(1995)219

**Cisplatin**

Separation of platinum(II) anti-tumour drugs by micellar electrokinetic capillary chromatography 724(1996)317

**Citric acid**

Use of ion chromatography for the measurement of organic acids in fruit juices 706(1995)395

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

**Citrinin**

Simple and sensitive high-performance liquid chromatography-fluorescence method for the determination of citrinin. Application to the analysis of fungal cultures and cheese extracts 723(1996)69

Simultaneous high-performance liquid chromatographic determination of ochratoxin A and citrinin in cheese by time-resolved luminescence using terbium 727(1996)185

**Clavulanic acid**

Ion-pair adsorption chromatography for process purposes 741(1996)185

**Clenbuterol**

Ion-pair-supercritical fluid extraction of clenbuterol from food samples 711(1995)269

Rapid analysis of  $\beta$ -agonists in urine by thermospray tandem mass spectrometry 712(1995)67

Combined liquid-liquid electroextraction-isotachopheresis for loadability enhancement in capillary zone electrophoresis-mass spectrometry 712(1995)227

Application of extraction disks in dissolution tests of clenbuterol and levothyroxine tablets by capillary electrophoresis 730(1996)313

Gas and liquid chromatography coupled to tandem mass spectrometry for the multiresidue analysis of  $\beta$ -agonists in biological matrices 750(1996)43

Gas chromatographic-tandem mass spectrometric analysis of clenbuterol residues in faeces 750(1996)133

**Clonazepam**

Separation and structural elucidation of the hydrolysis compounds of loprozalam 721(1996)123

**Cobalt**

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

High-performance liquid chromatographic characterization of dissolved organic matter from low-level radioactive waste leachates 739(1996)281

**Cobalt complexes**

Retention model for singly and doubly charged analytes in ion-interaction chromatography 728(1996)55

**Cocaine**

Determination of a trace amount of cocaine on a bank note by gas chromatography-positive-ion chemical-ionization mass spectrometry 731(1996)355

Lesser alkaloids of cocaine-bearing plants 749(1996)173

**Cocamidopropylbetaine**

Determination of amphoteric surfactants in cosmetic cleansing products by high-performance liquid chromatography on a cation-exchange column 715(1995)195

**Codeine**

Determination of morphine analogues, caffeine and amphetamine in biological fluids by capillary electrophoresis with the marker technique 735(1996)439

**Collagen**

In vivo microdialysis determination of collagen-induced serotonin release in rat blood 730(1996)121

**Colominic acid**

Analysis of oligo- and poly-N-acetylneuraminic acids and their lactones by capillary electrophoresis 741(1996)295

**Color additives**

Isolation of 4'-bromo-4,5,6,7-tetrachlorofluorescein from a synthetic mixture by pH-zone-refining counter-current chromatography with continuous pH monitoring 732(1996)283

**Colourants**

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

**Conalbumin**

Pre-column derivatization of proteins to enhance detection sensitivity for sodium dodecyl sulfate non-gel sieving capillary electrophoresis 715(1995)167

**Concanavalin A**

Surface modification of microporous polyamide membranes with hydroxyethyl cellulose and their application as affinity membranes 715(1995)49

**Congo Red**

Congo Red and Cu(II) carrying poly(ethylene glycol dimethacrylate-hydroxyethyl methacrylate) microbeads as specific sorbents. Albumin adsorption/desorption 731(1996)57

**Copper**

Separation of Pd(II) and Cu(II) in chloride solutions on a glycol methacrylate gel derivatized with 8-hydroxyquinoline 706(1995)159

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

High-performance liquid chromatography of amino acids in copper(II) complex form: application to valine fermentation samples 722(1996)311

Congo Red and Cu(II) carrying poly(ethylene glycol dimethacrylate-hydroxyethyl methacrylate) microbeads as specific sorbents. Albumin adsorption/desorption 731(1996)57

Indirect chemiluminescence detection of amino acids separated by capillary electrophoresis 736(1996)247

Solubility and polarity parameters for pyridinecarboxamides and their complexes with copper(II) as determined by inverse gas chromatography 740(1996)253

Simultaneous solvent extraction and high-performance liquid chromatographic determination of uranium, iron, nickel and copper in mineral ore samples and phosphate rock residues using N,N'-ethylenebis(salicylaldimine) as complexing reagent 740(1996)296

**Copper complexes**

Retention model for singly and doubly charged analytes in ion-interaction chromatography 728(1996)55

Preparation of Cu(II) complexes of oxidized chlorophylls and their determination by thin-layer and high-performance liquid chromatography 731(1996)261

Capillary zone electrophoretic and micellar electrokinetic capillary chromatographic separations of polyaminopolycarboxylic acids as their copper complexes 736(1996)333

**Copper powder**

Enantioselective analysis of chiral polychlorinated biphenyls in sediment samples by multidimensional gas chromatography-electron-capture detection after steam distillation-solvent extraction and sulfur removal 723(1996)399

**Coprostanol**

Use of capillary gas chromatography for measuring fecal-derived sterols. Application to stormwater, the sea-surface microlayer, beach greases, regional studies, and distinguishing algal blooms and human and non-human sources of sewage pollution 733(1996)497

**Coronene**

Direct determination of coronene in heavy oil fraction by high-performance liquid chromatography 724(1996)337

**Corticosteroids**

see also Steroids

Mixed micelles of short chain alkyl surfactants and bile salts in electrokinetic chromatography. Enhanced separation of corticosteroids 738(1996)275

**Coumarins**

Determination of coumarins from *Chrysanthemum segetum* L. by capillary electrophoresis 709(1995)197

Separation of coumarins by micellar electrokinetic capillary chromatography 710(1995)323

Identification of nonvolatile components in lemon peel by high-performance liquid chromatography with confirmation by mass spectrometry and diode-array detection 718(1995)89

**CPT-11**

Simultaneous determination of a camptothecin derivative, used as an anticancer drug, and its photodegradation products by high-performance liquid chromatography 734(1996)401

**Creatinine**

Simultaneous determination of uric acid and creatinine in biological fluids by column-switching liquid chromatography with ultraviolet detection 730(1996)139

Separation and determination of amino acids, creatinine, bioactive amines and nucleic acid bases by dual-mode gradient ion-pair chromatography 739(1996)333

**Creosote**

Method development for trace analysis of heteroaromatic compounds in contaminated groundwater 738(1996)295

**Cresols**

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

Optimization of supercritical fluid extraction of phenol and cresols in soil samples 723(1996)123

H-Point standard additions method for resolution of overlapping chromatographic peaks with diode array detection by using area measurements 726(1996)57

Capillary electrophoresis of Cheddar cheese 731(1996)305

**Crown ethers**

Selectivity enhancement on a poly(butadiene–maleic acid)-coated cation phase induced by ethylene oxide-based complexing agents 706(1995)103

Ion chromatographic separation of alkali metals in organic solvents 706(1995)149

Effect of the concentration of 18-crown-6 added to the electrolyte upon the separation of ammonium, alkali and alkaline-earth cations by capillary electrophoresis 706(1995)535

Determination of the enantiomeric purity of 5,6-dihydroxy-2-aminotetralin by high-performance capillary electrophoresis with crown ether as chiral selector 715(1995)143

GABA-B agonists: enantiomeric resolution of 4-amino-3-(5-chlorothien-2-yl)butyric acid and analogues on chiral crown ether stationary phase 715(1995)361

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

Identification of chiral drug isomers by capillary electrophoresis (Review) 735(1996)77

Preparation and enantioselectivity of (*S*)-binaphthol-bonded phase for high-performance liquid chromatography 736(1996)39

Controlled changes in selectivity of cation separations by capillary electrophoresis using various crown-ether additives 745(1996)87

**18-Crown-6-tetracarboxylic acid**

Capillary zone electrophoretic separation of the enantiomers of dipeptides based on host–guest complexation with a chiral crown ether 709(1995)81

**Curcumin**

Characterization of powdered turmeric by liquid chromatography–mass spectrometry and gas chromatography–mass spectrometry 740(1996)51

**Cyanide**

Indirect fluorescence detection of free cyanide and related compounds by capillary electrophoresis 709(1995)367

High-performance liquid chromatographic determination of cyanide using a pre-column conversion to a transition metal complex 739(1996)229

**Cyanuric acid**

Comparison of sorbents for the solid-phase extraction of the highly polar degradation products of atrazine (including ammeline, ammeline and cyanuric acid) 711(1995)257

**Cyanuric chloride derivatives**

Enantioseparation and recognition mechanisms of dinitrobenzoyl-derivatized amino acids and amino alcohols on chiral stationary phases consisting of cyanuric chloride with (*S* or *R*)-phenylalanyl-(*S* or *R*)-1-(1-naphthyl)ethylamide substituent 722(1996)199

**Cyclamate**

Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203

Quantification of cyclamate and cyclohexylamine in urine samples using high-performance liquid chromatography with trinitrobenzenesulfonic acid pre-column derivatization 750(1996)397

 **$\beta$ -Cyclodextrin polymer**

Enantiomeric separation by capillary electrophoresis using a soluble neutral  $\beta$ -cyclodextrin polymer 709(1995)89

**Cyclodextrins**

Cationic  $\beta$ -cyclodextrin: a new versatile chiral additive for separation of drug enantiomers by high-performance liquid chromatography 704(1995)67

Separation of stereoisomers of aminoglutethimide using three capillary electrophoretic techniques 705(1995)343

Application of modified cyclodextrins in capillary electrophoresis for enantiomeric resolution of propranolol and analogues 705(1995)351

Determination of  $\beta$ -cyclodextrin inclusion complex constants for 3,4-dihydro-2-*H*-1-benzopyran enantiomers by capillary electrophoresis 707(1995)311

Effect of urea addition on chiral separation of dansylamino acids by capillary zone electrophoresis with cyclodextrins 710(1995)331

Enantiomeric separation of amphetamine related drugs by capillary zone electrophoresis using native and derivatized  $\beta$ -cyclodextrin as chiral additives 710(1995)339

Separation of formoterol enantiomers and detection of zeptomolar amounts by capillary electrophoresis using laser-induced fluorescence 715(1995)159

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309

Capillary electrophoretic determination of amino acids Improvement by cyclodextrin additives 716(1995)335

Separation of enantiomers of drugs by capillary electrophoresis. I.  $\gamma$ -Cyclodextrin as chiral solvating agent 717(1995)181

- High-performance liquid chromatographic separation of carbohydrates on graphitized carbon columns 720(1996)119
- Postcolumn excitation of aflatoxins using cyclodextrins in liquid chromatography for food analysis 721(1996)69
- Adsorption chromatography on cellulose. XIV. Some results using aqueous solutions of soluble cyclodextrin polymers as eluents 723(1996)405
- Indications of the chemical structure of oxygen-containing constituents of volatile oils by capillary gas chromatography using one or two modified  $\beta$ - and  $\alpha$ -cyclodextrin phases 724(1996)403
- Selective immobilization on silica gel of permethylated  $\beta$ -cyclodextrin for liquid chromatography 727(1996)195
- Use of principal component analysis for the study of the retention behaviour of anticancer drugs on a  $\beta$ -cyclodextrin polymer-coated silica column 728(1996)67
- Thermodynamic parameters of the formation of a complex between cyclodextrins and steroid hormones 728(1996)89
- Effect of the degree of substitution of cyclodextrin derivatives on chiral separations by high-performance liquid chromatography and capillary electrophoresis 728(1996)423
- Influence of different types of cyclodextrins on the racemization of scopolamine-N-butylbromide 728(1996)441
- Enantiomeric separation of zopiclone, its metabolites and products of degradation on a  $\beta$ -cyclodextrin bonded phase 729(1996)19
- Direct chiral separation of amino acids derivatized with 2-(9-anthryl)ethyl chloroformate by capillary electrophoresis using cyclodextrins as chiral selectors 731(1996)283
- Comparative capillary electrophoretic and nuclear magnetic resonance studies of the chiral recognition of racemic metomidate with cyclodextrin hosts 732(1996)133
- Capillary electrophoresis and  $^1\text{H}$  NMR studies on chiral recognition of atropisomeric binaphthyl derivatives by cyclodextrin hosts 732(1996)143
- Reversal of enantiomer elution order in capillary electrophoresis using charged and neutral cyclodextrins 732(1996)183
- Identification of chiral drug isomers by capillary electrophoresis (Review) 735(1996)77
- Optimized micellar electrokinetic chromatographic separation of benzodiazepines 735(1996)249
- Enantiomeric separation of amphetamine and phenylephrine by cyclodextrin-mediated capillary zone electrophoresis 735(1996)295
- Chiral separations of underivatized arylpropionic acids by capillary zone electrophoresis with various cyclodextrins. Acidity and inclusion constant determinations 735(1996)311
- Determination of the binding constant of salbutamol to unmodified and ethylated cyclodextrins by affinity capillary electrophoresis 735(1996)321
- Separation of enantiomers of drugs by capillary electrophoresis 735(1996)333
- Determination of stoichiometric coefficients and apparent formation constants for  $\alpha$ - and  $\beta$ -CD complexes of terpenes using reversed-phase liquid chromatography 736(1996)1
- Systematic modification of the separation selectivity of cyclodextrin-based gas chromatographic stationary phases by varying the size of the 6-O-substituents 738(1996)31
- Mixed micelles of short chain alkyl surfactants and bile salts in electrokinetic chromatography. Enhanced separation of corticosteroids 738(1996)275
- Chiral separation of muscarinic antagonists by capillary zone electrophoresis with cyclodextrin additives 741(1996)287
- Use of heptakis(2,6-di-O-methyl)- $\beta$ -cyclodextrin in on-line capillary zone electrophoresis-mass spectrometry for the chiral separation of ropivacaine 742(1996)235
- Planar chromatographic direct separation of some aromatic amino acids and aromatic amino alcohols into enantiomers using cyclodextrin mobile phase additives 742(1996)289
- Separation of positional and structural isomers by cyclodextrin-mediated capillary zone electrophoresis 745(1996)9
- Use of cyclodextrins in the capillary electrophoretic separation of *erythro*- and *threo*-mefloquine enantiomers 745(1996)17
- Systematic approach to the treatment of enantiomeric separations in capillary electrophoresis and liquid chromatography. III. A binding constant-retention factor relationship and effects of acetonitrile on the chiral separation of tioconazole 745(1996)25
- Influence of the nature of the buffer on chiral separation in capillary electrophoresis 745(1996)61
- Comparison of liquid and supercritical fluid chromatography using naphthylethylcarbamoylated- $\beta$ -cyclodextrin chiral stationary phases 746(1996)91
- Cyclodextrins, methylated**  
Analysis of partially methylated cyclodextrins by subcritical fluid and liquid chromatography 746(1996)103
- Cyclodienes**  
Analysis of organochlorine pesticides using solid-phase microextraction 723(1996)111

**trans-1,2-Cyclohexanediaminetetraacetic acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

**1,3-Cyclohexanedionate**

Use of  $\beta$ -diketonate anions as eluent in non-suppressed ion chromatography: 1,3-cyclohexanedionate as acidic eluent 707(1995)384

**1,2-Cyclohexanedione and oximes**

Determination of the impurity profile of 1,2-cyclohexanedione dioxime by high-performance liquid chromatography 719(1996)307

**Cyclohexanol**

Control of selectivity in micellar electrokinetic chromatography by modification of sodium dodecyl sulfate micelles with organic hydroxy compounds 705(1995)319

Analyte preconcentration procedure based on parallel-current open-tubular liquid chromatography 728(1996)311

**Cyclohexanone**

High-performance liquid chromatographic determination of cyclohexylhydantoin and cyclohexylidenehydantoin formed during the synthesis of phenylhydantoin from hydantoin and cyclohexanone 740(1996)284

**Cyclohexanone monoxime**

Determination of the impurity profile of 1,2-cyclohexanedione dioxime by high-performance liquid chromatography 719(1996)307

**Cyclohexylamine**

Quantification of cyclamate and cyclohexylamine in urine samples using high-performance liquid chromatography with trinitrobenzenesulfonic acid pre-column derivatization 750(1996)397

**Cyclohexylhydantoin**

High-performance liquid chromatographic determination of cyclohexylhydantoin and cyclohexylidenehydantoin formed during the synthesis of phenylhydantoin from hydantoin and cyclohexanone 740(1996)284

**Cyclohexylidenehydantoin**

High-performance liquid chromatographic determination of cyclohexylhydantoin and cyclohexylidenehydantoin formed during the synthesis of phenylhydantoin from hydantoin and cyclohexanone 740(1996)284

**Cyclopentenones**

Enantiomeric enrichment of partially resolved 4-hydroxy-2-carboxymethylcyclopentanone derivatives by achiral phase chromatography 708(1995)231

**Cyclophosphamide**

Trace analysis of the antineoplastics ifosfamide and cyclophosphamide in sewage water by two-step solid-phase extraction and gas chromatography-mass spectrometry 726(1996)179

**Cyclosiloxanes**

Chemically bonded phenylsilicone stationary phases for the liquid chromatographic separation of polycyclic aromatic hydrocarbons and cyclosiloxanes 722(1996)97

**Cyclothiazide**

Preparative isolation of the eutomer of cyclothiazide by high-performance liquid chromatography on a cellulose-derived chiral stationary phase with toluene-acetone as the mobile phase 729(1996)29

**Cyfluthrin**

Determination of permethrin and cyfluthrin in water and sediment by gas chromatography-mass spectrometry operated in the negative chemical ionization mode 707(1995)293

**Cypermethrin**

Partial least-squares and principal component regression of multi-analyte high-performance liquid chromatography with diode-array detection 727(1996)27

Determination of cypermethrin, fenvalerate and *cis*- and *trans*-permethrin in soil and groundwater by high-performance liquid chromatography using partial least-squares regression 727(1996)39

**Cysteine**

Selective determination of peptides containing specific amino acid residues by high-performance liquid chromatography and capillary electrophoresis 704(1995)27

Determination of thiols by capillary electrophoresis with electrochemical detection using a palladium field-decoupler and chemically modified electrodes 716(1995)347

Capillary electrophoresis of methylmercury with injection by sample stacking 730(1996)345

**Cysteine-containing peptides**

Purification of cysteine-containing synthetic peptides via selective binding of the  $\alpha$ -amino group to immobilised  $\text{Cu}^{2+}$  and  $\text{Ni}^{2+}$  ions 723(1996)51

**Cytidine 5'-monophospho-N-acetylneuraminic acid**

Determination of cytidine 5'-monophospho-N-acetylneuraminic acid pool size in cell culture scale using high-performance anion-exchange chromatography with pulsed amperometric detection 727(1996)223

**Cytochrome  $b_5$** 

Microcalorimetric characterization of the anion-exchange adsorption of recombinant cytochrome  $b_5$  and its surface-charge mutants 715(1995)81

**Cytochrome c**

Modeling non-linear elution of proteins in ion-exchange chromatography 702(1995)125

Optimization of conditions for the analysis of a peptide mixture and a tryptic digest of cytochrome *c* by capillary electrophoresis–electrospray-ionization mass spectrometry with an improved liquid-sheath probe 712(1995)245

Multipoint binding in metal-affinity chromatography 725(1996)225

Retention behaviour of proteins under conditions of column overload in hydrophobic interaction chromatography 729(1996)43

**D****Daminozide**

Determination of daminozide residues in apples using gas chromatography with nitrogen–phosphorus detection 723(1996)355

**Dansylhydrazones**

Trifluoromethanesulfonic acid as a catalyst for the formation of dansylhydrazone derivatives 740(1996)279

**DDT**

Determination of DDT and related compounds in blood samples from agricultural workers 719(1996)141

Gas chromatographic determination of liquid vapour pressure and heat of vaporization of tetrachlorobenzyltoluenes 727(1996)265

**10-Deacetylbaccatin III**

Analysis of taxol, 10-deacetylbaccatin III and related compounds in *Taxus baccata* 712(1995)303

**Decalins**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309

**Decane**

High-performance liquid chromatographic separation of pairs of isotopic labeled (deuterium/protium) molecules 731(1996)351

**Dehydroascorbic acid**

Dehydroascorbic acid undergoes hydrolysis on solubilization which can be reversed with mercaptoethanol 724(1996)271

**Deltorphan C**

Chromatographic behaviour of opioid peptides containing  $\beta$ -methylphenylalanine isomers 705(1995)267

**Demeclocycline**

Analysis of demeclocycline by capillary electrophoresis 740(1996)119

**Demethoxycurcumin**

Characterization of powdered turmeric by liquid chromatography–mass spectrometry and gas chromatography–mass spectrometry 740(1996)51

**Denatonium benzoate**

High-performance liquid chromatographic determination of denatonium benzoate in ethanol with 5% polyvinylpyrrolidone 715(1995)189

**Dendrimers**

Exclusion chromatography of polypropylenamine dendrimers 730(1996)75

**Dendrimers, starburst**

Polymer-supported pseudo-stationary phase for electrokinetic chromatography. Electrokinetic chromatography in a full range of methanol–water mixtures with alkylated starburst dendrimers 716(1995)57

**Denopamine**

Free-solution electrophoresis with amplification of small mobility differences by helical flow 707(1995)87

**Deoxyepinephrine**

Analysis of overlapped chromatographic peaks by multi-channel electrochemical detection 722(1996)151

Quantitation of unresolved chromatographic peak using overlapping ratio of profiles of standard chromatographic peaks 746(1996)161

**Deoxyribonucleotides**

Separation of twenty isomers of ribonucleotides and deoxyribonucleotides by reversed-phase ion-pairing high-performance liquid chromatography 732(1996)271

**Deprenyl**

Chiral separation of deprenyl and its major metabolites using cyclodextrin-modified capillary zone electrophoresis 709(1995)157

**Dermatan sulfate**

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

**Dermatan sulphate disaccharides**

Capillary electrophoresis of heparin and dermatan sulfate unsaturated disaccharides with triethylamine and acetonitrile as electrolyte additives 735(1996)367

**Desacetyldiltiazem**

Development and validation of a bioanalytical method for the quantification of diltiazem and desacetyldiltiazem in plasma by capillary zone electrophoresis 717(1995)235

**Desipramine**

High-performance liquid chromatographic assay for diltiazem in small-volume blood specimens and application to pharmacokinetic studies in rats 729(1996)297

**Desmosine**

Measurement of desmosine and isodesmosine by capillary zone electrophoresis 710(1995)357

**Destruxins**

Studies on the dynamics of the production of destruxins by *Metarhizium anisopliae* 738(1996)181

**Desulfoglucosinolates**

Separation of desulphoglucosinolates by micellar electrokinetic capillary chromatography based on a bile salt 717(1995)325

Simultaneous analysis of intact and desulfated glucosinolates with a porous graphitized carbon column 727(1996)71

**Detergents**

see also Surfactants

Unusual chromatographic behaviour and one-step purification of a novel membrane proteinase from *Bacillus cereus* 715(1995)247

Capillary zone electrophoretic and micellar electrokinetic capillary chromatographic separations of polyaminopolycarboxylic acids as their copper complexes 736(1996)333

**Dexfenfluramine**

Direct high-performance liquid chromatography resolution on a chiral column of dexfenfluramine and its impurities, in bulk raw drug and pharmaceutical formulations 731(1996)340

Determination of the enantiomeric purity of dexfenfluramine by capillary electrophoresis: use of a Plackett–Burman design for the optimization of the separation 736(1996)281

**Dextrans**

Apparent pore size distributions of chromatography media 743(1996)33

**Dextrin**

Study of aroma compound–natural polymer interactions by dynamic coupled column liquid chromatography 707(1995)181

**DFP**

Capillary gas chromatographic analysis of nerve agents using large volume injections 723(1996)210

**Diacylglycerols**

Determination of diacylglycerol isomers in vegetable oils by solid-phase extraction followed by gas chromatography on a polar phase 721(1996)305

Analysis of fatty acid mono- and diacylglycerol positional isomers by silver ion high-performance liquid chromatography 741(1996)135

***trans*-2-(Dialkylamino)cyclohexanols**

High-performance liquid chromatographic separation of  $\beta$ -amino alcohols. II. Separation of *trans*-2-(dialkylamino)cyclohexanols on an amylose-based chiral stationary phase 719(1996)315

**Dialkyldithiophosphates**

Separation of zinc dialkyldithiophosphates in lubricating oil additives by normal-phase high-performance liquid chromatography 749(1996)87

**Dialkylphosphates**

Gas chromatographic determination and gas chromatographic–mass spectrometric determination of dialkyl phosphates via extractive pentafluorobenzoylation using a polymeric phase-transfer catalyst 718(1995)383

**Dialkyl phthalates**

Effect of silver-modified silica on retention and selectivity in normal-phase liquid chromatography 722(1996)81

**N,N'-Diallyl-L-tartardiamide**

Chromatographic separation of enantiomers on N,N'-diallyl-L-tartardiamide-based network–polymeric chiral stationary phases 741(1996)23

**Diaminodihydroethanoanthracene**

Efficient high-performance liquid chromatographic enantioseparation of five-membered aryl-substituted lactones and cyclic carbamates on a (*R,R*)-diaminodihydroethanoanthracene-derived chiral stationary phase 740(1996)11

**Diaminonaphthalenes**

Molecularly imprinted uniform-size polymer-based stationary phase for high-performance liquid chromatography 728(1996)139

**4,4'-Diaminostilbene-2,2'-disulfonic acid**

Determination of 4,4'-diaminostilbene-2,2'-disulfonic acid by thin-layer chromatography and densitometry 727(1996)324

**Dianilinoethane**

Development and application of radio-size-exclusion chromatography 727(1996)61

**Dibromopropamide isethionate**

Determination of peptidoglycan-associated protein in *Escherichia coli* NCIB 8545 by capillary zone electrophoresis 740(1996)273

**$\gamma,\gamma'$ -Di-*tert.*-butyl-D,L- $\gamma$ -carboxyglutamic acid**

High-performance liquid chromatographic method for the separation of the optical isomers of  $\gamma,\gamma'$ -di-*tert.*-butyl-D,L- $\gamma$ -carboxyglutamic acid and D,L- $\gamma$ -carboxyglutamic acid 710(1995)297

**Di-*n*-butyl ether**

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

**Dibutyl phthalate**

Analysis of poly(vinyl chloride) additives by supercritical fluid extraction and gas chromatography 750(1996)183

**3,4-Dichloroaniline**

High-performance size-exclusion chromatographic characterization of water-soluble polymeric substances produced by *Phanerochaete chrysosporium* from free and wheat cell wall bound 3,4-dichloroaniline 708(1995)273

**1,4-Dichlorobenzene**

Development of gas standards from solid 1,4-dichlorobenzene 710(1995)229

**Dichlorobenzophenone**

Characterization of organic micropollutants in the River Cinca (Spain) by using granular activated carbon and liquid-liquid extraction 733(1996)159

**Dichloromethane**

Combined continuous and preparative chromatographic separation 707(1995)105

Experiences with HPLC-grade solvents 715(1995)199

Simulation of the combined continuous and preparative gas-liquid chromatographic separation of three close-boiling components 734(1996)145

Method development for trace analysis of heteroaromatic compounds in contaminated groundwater 738(1996)295

**Dichlorophenols**

Migration behaviour and optimization of selectivity of dichlorophenols in capillary zone electrophoresis 705(1995)325

Migration behavior of dichlorophenols for replicate separations without replenishment of buffer electrolyte in micellar electrokinetic capillary chromatography 732(1996)361

Quantification of two chromatographic unresolved dichlorophenols using gas chromatography-direct deposition-Fourier transform infrared spectrometry and multivariate calibration 750(1996)341

**2,4-Dichlorophenoxyacetic acid**

Oxidative decomposition of organic water pollutants with UV-activated hydrogen peroxide. Determination of anionic products by ion chromatography 706(1995)253

**Dicyandiamide**

Rapid quantification of the nitrification inhibitor dicyandiamide in soil samples, nutrient media and bacterial cell-free extracts 732(1996)390

**Dicyclohexylamine**

Preparative regime for the purification of bitter acids derived from hops (*Humulus lupulus* L.) 731(1996)327

**Dienes**

Rapid detection of high-molecular-mass dienes in beeswax 704(1995)224

Sampling and analysis of 1,3-butadiene in air by gas chromatography on a porous-layer open-tubular fused-silica column 710(1995)237

Gas chromatographic properties of cyclic dienoic fatty acids formed in heated linseed oil 723(1996)349

**Dienoic fatty acids, cyclic**

Gas chromatographic properties of cyclic dienoic fatty acids formed in heated linseed oil 723(1996)349

**Diethylenetriaminepentaacetic acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

Determination of nitrilotriacetic, ethylenediaminetetraacetic and diethylenetriaminepentaacetic acids in sewage treatment plant and paper mill effluents 738(1996)91

**Diethylethanolamine**

Rapid ion chromatographic method for the quantitative determination of ligand leakage from ion-exchange media 742(1996)79

**Diethyl ether**

Combined continuous and preparative chromatographic separation 707(1995)105

Simulation of the combined continuous and preparative gas-liquid chromatographic separation of three close-boiling components 734(1996)145

Method development for trace analysis of heteroaromatic compounds in contaminated groundwater 738(1996)295

**Di-(2-ethylhexyl)phosphoric acid**

pH-Zone refining counter-current chromatography of polar catecholamines using di-(2-ethylhexyl)phosphoric acid as a ligand 724(1996)348

**Diethyl N-(aryl)-1-amino-1-arylmethanephosphonates**

Facile separation of the enantiomers of diethyl N-(aryl)-1-amino-1-arylmethanephosphonates on a rationally designed chiral stationary phase 721(1996)241

**Difenzoquat**

Influence of organic matter and surfactants on solid-phase extraction of diquat, paraquat and difenzoquat from waters 727(1996)245

On-line liquid chromatographic trace enrichment and high-performance liquid chromatographic determination of diquat, paraquat and difenzoquat in water 728(1996)325

**Diflubenzuron**

Determination of the pesticide diflubenzuron in mushrooms by high-performance liquid chromatography–atmospheric pressure chemical ionisation mass spectrometry 712(1995)85

Identification of diflubenzuron by packed-capillary supercritical fluid chromatography–mass spectrometry with electron-capture negative ionization 712(1995)95

 **$\alpha$ -Difluoromethylornithine**

Determination of  $\alpha$ -difluoromethylornithine in blood by microdialysis sampling and capillary electrophoresis with UV detection 716(1995)381

**Digitoxigenin**

Quantitation of digitoxin, digoxin, and their metabolites by high-performance liquid chromatography using pulsed amperometric detection 711(1995)289

**Digitoxin**

Quantitation of digitoxin, digoxin, and their metabolites by high-performance liquid chromatography using pulsed amperometric detection 711(1995)289

**Diglucosyldiacylglycerols**

Chromatographic resolution of partially perdeuterated diglucosyldiacylglycerols from *Acholeplasma laidlawii* 736(1996)83

**Diglycerides**

Rapid, quantitative determination of polar compounds in fats and oils by solid-phase extraction and size-exclusion chromatography using monostearin as internal standard 749(1996)55

**Digoxigenin**

Quantitation of digitoxin, digoxin, and their metabolites by high-performance liquid chromatography using pulsed amperometric detection 711(1995)289

**Digoxin**

Quantitation of digitoxin, digoxin, and their metabolites by high-performance liquid chromatography using pulsed amperometric detection 711(1995)289

**3,4-Dihydro-2H-1-benzopyran derivatives**

Determination of  $\beta$ -cyclodextrin inclusion complex constants for 3,4-dihydro-2-*H*-1-benzopyran enantiomers by capillary electrophoresis 707(1995)311

**3,4-Dihydro-3-(dipropylamino)-2H-1-benzopyrans**

Direct high-performance liquid chromatographic separation of the enantiomers of methoxy and hydroxy derivatives of 3,4-dihydro-3-(dipropylamino)-2H-1-benzopyrans with dopaminergic activity 704(1995)83

**3,4-Dihydrophenylacetic acid**

Study of a new solid carbon paste tyrosinase-modified amperometric biosensor for the determination of catecholamines by high-performance liquid chromatography 727(1996)47

**Dihydropyridines**

Packed-column supercritical fluid chromatography of a new dihydropyridine drug based on direct injection of emulsion samples 749(1996)193

**Dihydroxyacetone**

Determination of formaldehyde by capillary electrophoresis in the presence of a dihydroxyacetone matrix 730(1996)333

**5,6-Dihydroxy-2-aminotetralin**

Determination of the enantiomeric purity of 5,6-dihydroxy-2-aminotetralin by high-performance capillary electrophoresis with crown ether as chiral selector 715(1995)143

**9,10-Dihydroxyanthracene**

Determination of 9,10-dihydroxyanthracene and anthraquinone in Kraft pulping liquors by high-performance liquid chromatography 712(1995)372

**Dihydroxyhydrocinnamic acid**

Quantitation of unresolved chromatographic peak using overlapping ratio of profiles of standard chromatographic peaks 746(1996)161

**3,4-Dihydroxyhydrocinnamic acid**

Analysis of overlapped chromatographic peaks by multi-channel electrochemical detection 722(1996)151

**Dihydroxypropyltrimethylammonium chloride**

Rapid ion chromatographic method for the quantitative determination of ligand leakage from ion-exchange media 742(1996)79

**Diisopropylphosphorylthreonine**

Analysis of the reaction products of N-(O,O-diisopropyl)phosphorylthreonine with uridine by capillary zone electrophoresis with diode array detection and capillary electrophoresis–mass spectrometry 745(1996)263

 **$\beta$ -Diketonate anions**

Use of  $\beta$ -diketonate anions as eluent in non-suppressed ion chromatography: 1,3-cyclohexanedionate as acidic eluent 707(1995)384

**Diltiazem**

Development and validation of a bioanalytical method for the quantification of diltiazem and desacetyldiltiazem in plasma by capillary zone electrophoresis 717(1995)235

High-performance liquid chromatographic assay for diltiazem in small-volume blood specimens and application to pharmacokinetic studies in rats 729(1996)297

#### **Dimethoxybenzaldehyde**

Simultaneous determination of 3,4-dimethoxybenzaldehyde and 3,4-dimethoxyphenylacetone in industrial waste waters by high-performance liquid chromatography–diode array detection 750(1996)257

#### **Dimethoxymethane**

Simulation of the combined continuous and preparative gas–liquid chromatographic separation of three close-boiling components 734(1996)145

#### **Dimethoxyphenylacetone**

Simultaneous determination of 3,4-dimethoxybenzaldehyde and 3,4-dimethoxyphenylacetone in industrial waste waters by high-performance liquid chromatography–diode array detection 750(1996)257

#### **Dimethylamine**

Determination of dimethylamine in groundwater by liquid chromatography and precolumn derivatization with 9-fluorenylmethylchloroformate 721(1996)231

#### **({Dimethyl-[amino(methylsulfonyl)butyramido]-bicycloheptanyl)methanesulfonyl(methylphenyl)piperazine**

High-performance, purity-indicating liquid chromatographic method for the oxytocin antagonist, L-368,899 731(1996)331

#### **1,1-Dimethylhydrazine**

Determination of daminozide residues in apples using gas chromatography with nitrogen–phosphorus detection 723(1996)355

#### **Dimethylpolysiloxane**

Two-stage resolution of mixtures by supercritical fluid chromatography 722(1996)317

#### **Dimethylpyridines**

Optimisation of the separation of the dimethylpyridines by capillary electrophoresis 730(1996)321

#### **Dimethyl sulphides**

Determination of volatile sulphur species in soil samples of interest for prospecting for metal sulphide deposits 726(1996)161

#### **1,7-Dimethylxanthine**

Use of 3-(1,8-naphthalimido)propyl-modified silyl silica gel as a stationary phase for the high-performance liquid chromatographic separation of purine derivatives 722(1996)107

#### **Dimetridazole**

High-performance thin-layer chromatographic method for the fluorescence detection of three nitroimidazole residues in pork and poultry tissue 737(1996)343

#### **Dinitroaniline**

Analyte preconcentration procedure based on parallel-current open-tubular liquid chromatography 728(1996)311

#### **Dinitrobenzamidophenylalanine**

Polyethylene glycol monomethyl ether sulfate-based background electrolytes in capillary electrophoresis 744(1996)75

#### **4,4'-Dinitrostilbene-2,2'-disulfonic acid**

Determination of 4,4'-diaminostilbene-2,2'-disulfonic acid by thin-layer chromatography and densitometry 727(1996)324

#### **Dinophysistoxins**

Liquid chromatographic determination of okadaic acid and dinophysistoxin-1 in shellfish after derivatization with 9-chloromethylanthracene 721(1996)359

Fluorimetric determination of diarrhetic shellfish toxins in scallops and mussels by high-performance liquid chromatography 729(1996)381

Automatic high-performance liquid chromatographic method for the determination of diarrhetic shellfish poison 729(1996)387

Isolation of dinophysistoxin-2 and the high-performance liquid chromatographic analysis of diarrhetic shellfish toxins using derivatisation with 1-bromoacetylpyrene 749(1996)33

#### **Dioctyl phthalate**

Molecular recognition of phenobarbital in plasticizers. Equilibrium investigations on the solubility of the barbiturate artificial receptor and its binding to phenobarbital in plasticizers 722(1996)47

Solvation in weak complexing *n*-octyl phthalate and *n*-octyl tetrachlorophthalate solvents by gas chromatography 726(1996)141

Analysis of poly(vinyl chloride) additives by supercritical fluid extraction and gas chromatography 750(1996)183

#### **Di-*n*-octyl tetrachlorophthalate**

Solvation in weak complexing *n*-octyl phthalate and *n*-octyl tetrachlorophthalate solvents by gas chromatography 726(1996)141

#### **1,2-Dioleoylglycerol**

Identification of the lipids and the ant attractant 1,2-dioleoylglycerol in the arils of *Commiphora guillaumini* Perr. (Burseraeae) by supercritical fluid chromatography–atmospheric pressure chemical ionisation mass spectrometry 727(1996)139

#### **1,4-Dioxane**

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

#### **Dioxypromethazine**

Chiral separation of dioxypromethazine enantiomers by capillary electrophoresis using  $\beta$ -cyclodextrin as a chiral selector 732(1996)175

**Dipeptides**

Separation and purification of peptides by high-speed counter-current chromatography 702(1995)207

Optimization of a modified electrode for the sensitive and selective detection of  $\alpha$ -dipeptides 705(1995)171

Capillary zone electrophoretic separation of the enantiomers of dipeptides based on host-guest complexation with a chiral crown ether 709(1995)81

Determination of chiral reagent purity by capillary electrophoresis 715(1995)151

Derivatization of dipeptides with 4-fluoro-7-nitro-2,1,3-benzoxadiazole for laser-induced fluorescence and separation by micellar electrokinetic chromatography 716(1995)389

**Dipeptidyl aminopeptidase IV**

Characterization of molecular aggregates of  $\alpha_1\beta_1$ -integrin and other rat liver membrane proteins by combination of size-exclusion chromatography and chemical cross-linking 711(1995)187

**Dipeptidyl peptidase IV**

Inhibition of dipeptidyl peptidase IV (DP IV) by anti-DP IV antibodies and non-substrate X-X-Pro- oligopeptides ascertained by capillary electrophoresis 716(1995)355

**Diphenyl aliphatics**

Analysis of organochlorine pesticides using solid-phase microextraction 723(1996)111

**Diphenylamine**

Feasibility of supercritical fluid chromatography-chemiluminescent nitrogen detection with open tubular columns 734(1996)303

**Diphenylboric acid 2-aminoethyl ester**

Effect of fluorescence intensifiers on the fluorodensitometric determination of flavones and flavonols after detection with diphenylboric acid 2-aminoethyl ester 740(1996)99

**Diphenylcarbazine**

Ion chromatographic speciation of chromium with diphenylcarbazine-based spectrophotometric detection 736(1996)141

**Diphenylethanediamine**

Diphenylethanediamine derivatives as chiral selectors 732(1996)215

**Diphenylmethane**

Gas chromatographic determination of liquid vapour pressure and heat of vaporization of tetrachlorobenzyltoluenes 727(1996)265

**4,4'-Diphenylmethane diisocyanate**

Gas chromatography of 4,4'-diphenylmethane diisocyanate in the workplace atmosphere 718(1995)141

**Diquat**

Influence of organic matter and surfactants on solid-phase extraction of diquat, paraquat and difenzoquat from waters 727(1996)245

On-line liquid chromatographic trace enrichment and high-performance liquid chromatographic determination of diquat, paraquat and difenzoquat in water 728(1996)325

**Disaccharides**

High-performance liquid chromatographic separation of carbohydrates on graphitized carbon columns 720(1996)119

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

Capillary electrophoresis of heparin and dermatan sulfate unsaturated disaccharides with triethylamine and acetonitrile as electrolyte additives 735(1996)367

Identification of disaccharides by gas chromatography-Fourier transform infrared spectroscopy 750(1996)311

**Disaccharides, heparin-derived**

Separation of hydroxyl protected heparin derived disaccharides using reversed-phase high-performance liquid chromatography 705(1995)369

**Disopyramide**

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

**Distamycin A derivative**

Determination of FCE 26644, a new polysulphonated derivative of distamycin A, in monkey plasma by reversed-phase ion-pair high-performance liquid chromatography with ultraviolet detection 729(1996)237

**1,4-Dithiane**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

**Dithio-bis(2-nitrobenzoic acid)**

Absolute on-line molecular mass analysis of basic fibroblast growth factor and its multimers by reversed-phase liquid chromatography with multi-angle laser light scattering detection 740(1996)215

**Diuretics**

Improved electrochemical detection of diuretics in high-performance liquid chromatographic analysis by postcolumn on-line photolysis 709(1995)257

Capillary electrophoresis of cardiovascular drugs 735(1996)123

Capillary electrophoresis of diuretics (Review) 735(1996)151

Determination of some cardiovascular drugs in serum and urine by capillary isotachopheresis 735(1996)403

**Diuron**

Separation of phenylurea pesticides by ion-interaction reversed-phase high-performance liquid chromatography. Diuron determination in lagoon water 718(1995)81

**Divinylsulfone**

Thiophilic nature of divinylsulphone cross-linked agarose 734(1996)241

**Dixyrazine**

Stability-indicating high-performance liquid chromatographic assay for the simultaneous determination of dixyrazine and chlorprothixene in intravenous admixtures 729(1996)201

**DNA**

Efficiency of chemical oligonucleotide synthesis evaluated by ion-exchange high-performance liquid chromatography 706(1995)405

Preparation of cDNA-silica using reverse transcriptase and its DNA sequence determination 708(1995)13

Systematic study of field and concentration effects in capillary electrophoresis of DNA in polymer solutions 710(1995)309

General method for determining ethylene oxide and related N<sup>7</sup>-guanine DNA adducts by gas chromatography-electron capture mass spectrometry 712(1995)345

Effect of the age of non-cross-linked polyacrylamide on the separation of DNA sequencing samples 717(1995)105

Multiple separations of DNA sequencing fragments with a non-cross-linked polyacrylamide-filled capillary: capillary electrophoresis at 300 V/cm 717(1995)113

Capillary electrophoresis of DNA. Potential utility for clinical diagnoses 717(1995)127

Intrinsic isotachophoretic preconcentration in capillary gel electrophoresis of DNA restriction fragments 717(1995)139

Gene dosage in capillary electrophoresis: pre-natal diagnosis of Down's syndrome 718(1995)405

2-Phosphoglycolate and glycolate-electrophore detection, including detection of 87 zeptomoles of the latter by gas chromatography-electron-capture mass spectrometry 721(1996)289

Applied slalom chromatography. Improved DNA separation by the use of columns developed for reversed-phase chromatography 722(1996)135

Analysis of single-strand DNA conformation polymorphism by capillary electrophoresis 722(1996)359

Salt-induced immobilizations of DNA oligonucleotides on an epoxide-activated high-performance liquid chromatographic affinity support 726(1996)77

Analysis of ligase chain reaction products amplified in a silicon-glass chip using capillary electrophoresis 732(1996)151

Capillary gel electrophoresis and antisense therapeutics (Review) 735(1996)191

Fractals for multicyclic synthesis conditions of biopolymers 739(1996)431

Immuno-capillary electrophoresis for the characterization of a monoclonal antibody against DNA 744(1996)285

DNA sequence analysis of *Prinker*-modified restriction fragments after collection from capillary electrophoresis with replaceable matrices 744(1996)303

Fluorescence-based polymerase chain reaction-single-strand conformation polymorphism analysis of p53 gene by capillary electrophoresis 744(1996)311

Capillary gel electrophoretic separation of DNA restriction fragments in a discontinuous buffer system 744(1996)321

Pseudo-coulometric loading in capillary electrophoresis DNA sequencing 744(1996)325

**DNA, molecular diagnostics**

Screening and identification of familial defective apolipoprotein B-100 in clinical samples by capillary gel electrophoresis 744(1996)187

**DNA adducts**

Separation of <sup>32</sup>P-labeled 3',5'-bisphosphate nucleotides of polycyclic aromatic hydrocarbon *anti*-diol-epoxides and derivatives 710(1995)149

Determination of styrene oxide adducts in DNA and DNA components 717(1995)117

**DNA fragments**

CAG triplet analysis in families with androgen insensitivity syndrome by capillary electrophoresis in polymer networks 706(1995)463

**Docosahexaenoic acid**

Subcellular localization of docosahexaenoic acid and arachidonic acid  $\omega$ -hydroxylation activity in the brain, liver and colonic adenocarcinoma 730(1996)91

**N-Dodecanoyl-L-proline-3,5-dimethylanilide**

Resolution of gram quantities of racemates by high-speed counter-current chromatography 704(1995)75

**Dodecynyl methacrylate**

Development and application of radio-size-exclusion chromatography 727(1996)61

**DOPA**

Determination of  $\alpha$ -methyl-dopa in human plasma by validated high-performance liquid chromatography with fluorescence detection 730(1996)125

Improved end-column amperometric detection for capillary electrophoresis 742(1996)229

### Dopamine

Study of a new solid carbon paste tyrosinase-modified amperometric biosensor for the determination of catecholamines by high-performance liquid chromatography 727(1996)47

### Dopamine- $\beta$ -hydroxylase

New approaches to chromatographic purification of bovine dopamine- $\beta$ -hydroxylase 711(1995)113

### Doxorubicin

Analysis of monoclonal antibody and immunoconjugate digests by capillary electrophoresis and capillary liquid chromatography 735(1996)357

### Drugs

see also Special Issue Index

Planar chromatography coupled with spectroscopic techniques 703(1995)613

Concentration and separation of hypoglycemic drugs using solid-phase extraction-capillary electrophoresis 717(1995)279

Importance of stereospecific bioanalytical monitoring in drug development 719(1996)3

Applications of liquid chromatography-mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

Use of principal component analysis for the study of the retention behaviour of anticancer drugs on a  $\beta$ -cyclodextrin polymer-coated silica column 728(1996)67

Application of high-performance liquid chromatography with diode-array detection and on-line post-column photochemical derivatization to the determination of analgesics 729(1996)355

Capillary electrophoretic analyses of drugs in body fluids: sample pretreatment and methods for direct injection of biofluids (Review) 735(1996)29

Determination of drug-related impurities by capillary electrophoresis 735(1996)43

Enantiomer separation of drugs by electrokinetic chromatography 735(1996)57

Identification of chiral drug isomers by capillary electrophoresis (Review) 735(1996)77

Capillary electrophoresis of cardiovascular drugs 735(1996)123

Separation and identification of designer drugs with capillary electrophoresis and on-line connection with ionspray mass spectrometry 735(1996)221

Complementary use of capillary zone electrophoresis and micellar electrokinetic capillary chromatography for mutual confirmation of results in forensic drug analysis 735(1996)227

Separation of enantiomers of drugs by capillary electrophoresis 735(1996)333

Determination of some cardiovascular drugs in serum and urine by capillary isotachopheresis 735(1996)403

Application of capillary electrophoresis and related techniques to drug metabolism studies 735(1996)415

Comparison of four homologous retention index standard series for qualitative gas chromatography of nitrogenous acidic and neutral drugs 738(1996)233

Application of capillary electrophoresis for characterizing interactions between drugs and bile salts. Part I 745(1996)135

Determination of binding constants and the influence of methanol on the separation of drug enantiomers in cyclodextrin modified capillary electrophoresis 745(1996)181

Immobilized liposome chromatography of drugs on capillary continuous beds for model analysis of drug-membrane interactions 749(1996)13

### Drugs, basic

see also Basic drugs

Enantiomeric separation of basic drugs using N-benzyloxycarbonylglycyl-L-proline as counter ion in methanol 705(1995)275

Re-evaluation of strong cation-exchange high-performance liquid chromatography for the analysis of basic drugs 725(1996)335

Chiral analysis of basic drugs by oligosaccharide-mediated capillary electrophoresis 735(1996)283

Enantiomer separation of basic drugs by capillary electrophoresis using ionic and neutral polysaccharides as chiral selectors 735(1996)345

### Drugs, cardiovascular

Selectivity of capillary electrophoresis for the analysis of cardiovascular drugs 745(1996)145

### Drugs, chiral

Separation of enantiomers of drugs by capillary electrophoresis. I.  $\gamma$ -Cyclodextrin as chiral solvating agent 717(1995)181

### Drugs, illicit

Determination of illicit drugs and related substances by high-performance liquid chromatography with an electrochemical coulometric-array detector 729(1996)273

**DU-6859**

Investigation of enantioselective separation of quinolonecarboxylic acids by capillary zone electrophoresis using vancomycin as a chiral selector 736(1996)303

**Dyes**

Lectin–glycoenzyme column chromatography monitored by enzyme flow microcalorimetry 722(1996)143

S-Pegylthiopapain, a versatile intermediate for the preparation of the fully active form of the cysteine proteinase archetype 724(1996)185

On-line quantitation of enzymatic mannan hydrolysates in small-volume bioreactors by microdialysis sampling and column liquid chromatography–integrated pulsed electrochemical detection 725(1996)165

Moving boundary electrophoretically mediated microanalysis 726(1996)193

Liquid chromatography studies on the enzymatic degradation of luteinizing hormone-releasing hormone analogues with off-line identification by mass spectrometry 729(1996)137

Affinity purification of phospholipase A<sub>2</sub> on immobilized artificial membranes containing and lacking the glycerol backbone 731(1996)139

Fast and sensitive staining technique for glucose oxidase in polyacrylamide gel 731(1996)293

Application of high-performance liquid chromatography–electrospray ionization mass spectrometry and matrix-assisted laser-desorption ionization time-of-flight mass spectrometry in combination with selective enzymatic modifications in the characterization of glycosylation patterns in single-chain plasminogen activator 732(1996)27

Dynamic modeling of electrophoretically mediated microanalysis 732(1996)119

Hydrophobic interaction chromatography of *Chromobacterium viscosum* lipase on polyethylene glycol immobilized on Sepharose 734(1996)213

Purification and assay methods for angiotensin-converting enzyme (Review) 743(1996)105

Reversed-phase high-performance liquid chromatographic separation of bovine  $\kappa$ -casein macropeptide and characterization of isolated fractions 743(1996)123

Reversed-phase high-performance liquid chromatography combined with tandem mass spectrometry in studies of a substance P-converting enzyme from human cerebrospinal fluid 743(1996)213

Preconcentration and microreaction technology on-line with capillary electrophoresis 744(1996)3

DNA sequence analysis of *Prinker*-modified restriction fragments after collection from capillary electrophoresis with replaceable matrices 744(1996)303

Study of the competitive inhibition of adenosine deaminase by *erythro*-9-(2-hydroxy-3-nonyl)adenine using capillary zone electrophoresis 745(1996)293

Thiol pegylation facilitates purification of chymopapain leading to diffraction studies at 1.4 Å resolution 749(1996)69

#### **Ephedrine**

Validation of enantiomeric separations by micellar electrokinetic capillary chromatography using synthetic chiral surfactants 735(1996)303

#### **Epicatechin**

Selection of column and gradient for the separation of polyphenols in sherry wine by high-performance liquid chromatography incorporating internal standards 724(1996)117

#### **Epinephrine**

Enantiomeric resolution using the macrocyclic antibiotics rifamycin B and rifamycin SV as chiral selectors for capillary electrophoresis 715(1995)337

In vivo microdialysis determination of collagen-induced serotonin release in rat blood 730(1996)121

Hydrolytically stable amino-silica glass coating material for manipulation of the electroosmotic flow in capillary electrophoresis 744(1996)17

#### **Epirubicin hydrochloride**

Simultaneous high-performance liquid chromatographic determination of carboplatin, epirubicin hydrochloride and mitomycin C in a Lipiodol emulsion 726(1996)241

#### **Epoxy resins**

Applications of liquid chromatography–mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

Poly(ethylene–propylene glycol)-modified fused-silica columns for capillary electrophoresis using epoxy resin as intermediate coating 741(1996)115

#### **Erythromycin**

Thin-layer chromatographic separation of enantiomeric dansylamino acids using a macrocyclic antibiotic as a chiral selector 736(1996)235

#### **Erythropoetin**

Non-native capillary isoelectric focusing for the analysis of the microheterogeneity of glycoproteins 737(1996)281

#### **Erythrosine**

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

#### **Estrogens**

Separation of pharmaceutically important estrogens by micellar electrokinetic chromatography 749(1996)247

#### **Ethambutol**

Determination of ethambutol in human plasma and urine by high-performance liquid chromatography with fluorescence detection 729(1996)301

#### **Ethane**

Determination of adsorption equilibrium constants by reversed-flow gas chromatography 736(1996)151

#### **Ethanol**

Dynamic modeling of electrophoretically mediated microanalysis 732(1996)119

Quantitative thin layer chromatography on cellulose 746(1996)261

#### **Ethanolamines**

Ion-exclusion chromatography of ethanolamines on an anion-exchange resin by elution with polyols and sugars 739(1996)317

#### **Ethene**

Assessment by gas chromatography and gas chromatography–mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

Determination of adsorption equilibrium constants by reversed-flow gas chromatography 736(1996)151

**Ethoxycoumarin**

Evaluation of extended light path capillaries for use in capillary electrophoresis with laser-induced fluorescence detection 736(1996)239

**Ethoxylates**

Oligomeric separation of alkylphenol ethoxylate surfactants on silica using aqueous acetonitrile eluents 731(1996)171

Homologue separation of linear alcohol ethoxylates by high-performance liquid chromatography 732(1996)299

Determination of surfactants in surface water by solid-phase extraction, liquid chromatography and liquid chromatography–mass spectrometry 733(1996)207

**Ethoxyresorufin-*o*-deethylase**

Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107

**Ethylanilines**

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

**Ethylbenzene**

Determination of monocyclic aromatic hydrocarbons in fruit and vegetables by gas chromatography–mass spectrometry 734(1996)297

**Ethylenebis(salicylaldimine)**

Simultaneous solvent extraction and high-performance liquid chromatographic determination of uranium, iron, nickel and copper in mineral ore samples and phosphate rock residues using N,N'-ethylenebis(salicylaldimine) as complexing reagent 740(1996)296

**Ethylenediaminedi(*o*-hydroxy-*p*-methylphenylacetic) acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

**Ethylenediaminedi(*o*-hydroxyphenylacetic) acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

**Ethylenediamines**

Retention behavior of methylamines, ethylenediamine and N-methyl-substituted ethylenediamines on a cation-exchange resin having a polycarboxylic acid as the functional group 739(1996)327

**Ethylenediaminetetraacetic acid**

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

Determination of nitrilotriacetic, ethylenediaminetetraacetic and diethylenetriaminepentaacetic acids in sewage treatment plant and paper mill effluents 738(1996)91

Direct determination of iron(II), iron(III) and total iron as UV-absorbing complexes by capillary electrophoresis 740(1996)151

Capillary electrophoretic separation of metal ions using complex forming equilibria of different stabilities 745(1996)103

**Ethylene glycol**

Dynamically generated stationary liquid phase systems with silica and ternary mobile phases containing ethylene glycol and formamide 732(1996)231

**Ethylene–maleic anhydride**

Solid-phase extraction and subsequent gas chromatography–mass spectrometry analysis for identification of complex mixtures of degradation products in starch-based polymers 741(1996)251

**Ethylene oxide**

Separation of broadly distributed nonylphenol ethoxylates and determination of ethylene oxide oligomers in textile lubricants and emulsions by high-performance liquid chromatography 731(1996)161

**Ethylene oxide DNA adducts**

General method for determining ethylene oxide and related N<sup>7</sup>-guanine DNA adducts by gas chromatography–electron capture mass spectrometry 712(1995)345

**Ethylene oxide–propylene oxide copolymers**

Effects of salts and the surface hydrophobicity of proteins on partitioning in aqueous two-phase systems containing thermoseparating ethylene oxide–propylene oxide copolymers 718(1995)67

**Ethylene–vinyl acetate–maleic anhydride**

Solid-phase extraction and subsequent gas chromatography–mass spectrometry analysis for identification of complex mixtures of degradation products in starch-based polymers 741(1996)251

**2-Ethylhexyl-*p*-methoxycinnamate**

Capillary supercritical fluid chromatography combined with atmospheric pressure chemical ionisation mass spectrometry for the investigation of photoproduct formation in the sunscreen absorber 2-ethylhexyl-*p*-methoxycinnamate 732(1996)101

**Ethyl laureate**

Simultaneous quantitation of lauric acid and ethyl laureate in *Sabal serrulata* by capillary gas chromatography and derivatisation with trimethyl sulphoniumhydroxide 719(1996)479

**N-Ethyl-N-[2-(1-isobutoxyethoxy)ethyl](4-phenylazophenyl)amine**

Liquid chromatographic method for analysing the colour marker Solvent Yellow 124, N-ethyl-N-[2-(1-isobutoxyethoxy)ethyl](4-phenylazophenyl)amine, in diesel fuels 723(1996)395

**3-[N-[(5-Ethyl-2-methoxy-6-methyl-3-pyridyl)methyl]amino]-5-ethyl-6-methylpyridin-2(1H)-one**

Simultaneous determination of L-702,007, a HIV-1 reverse transcriptase inhibitor, and its 6-hydroxy metabolite in human plasma by column-switching high-performance liquid chromatography with fluorescence detection 729(1996)211

**O-Ethyl methylphosphonothioic acid**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

**Ethyl phthalate**

Application of on-line capillary high-performance liquid chromatography–nuclear magnetic resonance spectrometry coupling for the analysis of vitamin A derivatives 750(1996)303

**Ethyne**

Determination of adsorption equilibrium constants by reversed-flow gas chromatography 736(1996)151

**Exoglycosidases**

Oligosaccharide sequencing based on exo- and endoglycosidase digestion and liquid chromatographic analysis of the products 720(1996)263

**Explosives**

Micellar electrokinetic capillary chromatography of high explosives utilising indirect fluorescence detection 726(1996)211

High-performance liquid chromatographic analysis with electrochemical detection for residues of explosives in water samples around a former ammunition plant 730(1996)161

Trace analysis of explosives in water by gas chromatography–mass spectrometry with a temperature-programmed injector 742(1996)205

Analysis of nitramine and nitroaromatic explosives by capillary electrophoresis 745(1996)233

**Explosives, polynitro**

Portable liquid chromatograph for mobile laboratories. I. Aims 728(1996)387

**F****Factor VIIa**

Analysis of the glycoforms of human recombinant factor VIIa by capillary electrophoresis and high-performance liquid chromatography 718(1995)195

**Famciclovir**

Determination of liquid chromatographic peak purity by electrospray ionization mass spectrometry 721(1996)41

**Famotidine**

High-performance liquid chromatographic separation and determination of small amounts of process impurities of famotidine in bulk drugs and formulations 743(1996)328

**Fast Green FCF**

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

**Fats**

Applications of thin-layer chromatography to process control in the pulp and paper field 730(1996)373

Fat content for nutritional labeling by supercritical fluid extraction and an on-line lipase catalyzed reaction 750(1996)201

**Fatty acid methyl esters**

Two-dimensional separation of fatty acids by thin-layer chromatography on urea and silver nitrate silica gel plates 727(1996)147

Stability and purity of low-polarity adsorbents for coupled supercritical fluid extraction–supercritical fluid chromatography–flame ionization detection 734(1996)311

Fat content for nutritional labeling by supercritical fluid extraction and an on-line lipase catalyzed reaction 750(1996)201

**Fatty acid methyl esters, chlorinated**

Enrichment of chlorinated fatty acids in fish lipids prior to analysis by capillary gas chromatography with electrolytic conductivity detection and mass spectrometry 731(1996)225

**Fatty acids**

see also Carboxylic acids and Organic acids

Preparative-scale liquid chromatographic separation of  $\omega$ -3 fatty acids from fish oil sources 702(1995)215

Counter-current chromatographic separation of polyunsaturated fatty acids 704(1995)211

Capillary zone electrophoretic determination of C<sub>2</sub>–C<sub>18</sub> linear saturated free fatty acids with indirect absorbance detection 708(1995)339

Gas chromatographic–mass spectrometric characterization of some fatty acids from white and interior spruce 715(1995)317

Identification of fatty acids in edible wild plants by gas chromatography 719(1996)229

Simultaneous quantitation of lauric acid and ethyl laurate in *Sabal serrulata* by capillary gas chromatography and derivatisation with trimethyl sulphoniumhydroxide 719(1996)479

Gas chromatographic properties of cyclic dienoic fatty acids formed in heated linseed oil 723(1996)349

Preparative separation of the diastereomers of methyl branched-chain phosphatidylcholines 724(1996)367

Analysis of mixtures containing free fatty acids and mono-, di- and triglycerides by high-performance liquid chromatography coupled with evaporative light-scattering detection 730(1996)83

Subcellular localization of docosahexaenoic acid and arachidonic acid  $\omega$ -hydroxylation activity in the brain, liver and colonic adenocarcinoma 730(1996)91

Applications of thin-layer chromatography to process control in the pulp and paper field 730(1996)373

Gas chromatographic-mass spectrometric approach to the problem of characterizing binding media in paintings 731(1996)237

Direct on-column derivatisation in gas chromatography 738(1996)43

Mechanistic aspects of fatty acid retention in silver ion chromatography 749(1996)47

Rapid, quantitative determination of polar compounds in fats and oils by solid-phase extraction and size-exclusion chromatography using monostearin as internal standard 749(1996)55

#### **Fatty acids, unsaturated**

Effect of silver-modified silica on retention and selectivity in normal-phase liquid chromatography 722(1996)81

#### **Felodipine**

Simultaneous determination of enalapril, felodipine and their degradation products in the dosage formulation by reversed-phase high-performance liquid chromatography using a Spherisorb C<sub>8</sub> column 707(1995)245

#### **Fenbendazole**

Simple, robust and accurate high-performance liquid chromatography method for the analysis of several anthelmintics in veterinary formulations 729(1996)267

#### **Fenfluramine**

Direct high-performance liquid chromatography resolution on a chiral column of dexfenfluramine and its impurities, in bulk raw drug and pharmaceutical formulations 731(1996)340

#### **Fenoterol**

Combined liquid-liquid electroextraction-isotachopheresis for loadability enhancement in capillary zone electrophoresis-mass spectrometry 712(1995)227

#### **Fenvalerate**

Partial least-squares and principal component regression of multi-analyte high-performance liquid chromatography with diode-array detection 727(1996)27

Determination of cypermethrin, fenvalerate and *cis*- and *trans*-permethrin in soil and groundwater by high-performance liquid chromatography using partial least-squares regression 727(1996)39

#### **Ferritin**

Influence of injected mass and ionic strength on retention of water-soluble polymers and proteins in hollow-fibre flow field-flow fractionation 732(1996)307

#### **Ferrocene**

Accurate spectral scans of single chromatographic peaks 746(1996)43

#### **Ferulic acid**

Determination of some pharmacologically active phenolic acids in juices by high-performance liquid chromatography 741(1996)223

#### **2'-O-Feruloylloesin**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

#### **Fibric acid**

Capillary electrophoresis of cardiovascular drugs 735(1996)123

#### **Fibroblast growth factor**

Absolute on-line molecular mass analysis of basic fibroblast growth factor and its multimers by reversed-phase liquid chromatography with multi-angle laser light scattering detection 740(1996)215

Two-step chromatographic procedure for purification of basic fibroblast growth factor from recombinant *Escherichia coli* and characterization of the equilibrium parameters of adsorption 746(1996)17

#### **Flavones**

Simultaneous determination of twelve constituents of I-tzu-tang, a Chinese herbal preparation, by high-performance liquid chromatography and capillary electrophoresis 704(1995)141

Determination of isoflavones using capillary electrophoresis in combination with electrospray mass spectrometry 707(1995)327

Determination of ipriflavone and its synthetic impurities by high-performance liquid chromatography using diode-array detection 719(1996)245

Effect of fluorescence intensifiers on the fluorodensitometric determination of flavones and flavonols after detection with diphenylboric acid 2-aminoethyl ester 740(1996)99

Analysis of 5-hydroxy-7-methoxyflavones by normal-phase high-performance liquid chromatography 740(1996)201

#### Flavonoids

Extraction and measurement of prominent flavonoids in orange and grapefruit juice concentrates 705(1995)247

Identification of nonvolatile components in lemon peel by high-performance liquid chromatography with confirmation by mass spectrometry and diode-array detection 718(1995)89

Solid-phase extraction and high-performance liquid chromatographic determination of polyphenols in apple musts and ciders 727(1996)203

High-performance liquid chromatography of flavonoids from *Sideritis* species 731(1996)103

Optimized separation of pharmacologically active flavonoids from *Epimedium* species by capillary electrophoresis 746(1996)123

#### Flavonols

Preparative separation of phenolic compounds from *Picea abies* by high-speed counter-current chromatography 719(1996)438

Effect of fluorescence intensifiers on the fluorodensitometric determination of flavones and flavonols after detection with diphenylboric acid 2-aminoethyl ester 740(1996)99

#### Florenicol

Simultaneous extraction and determination of florfenicol and the metabolite florfenicol amine in sediment by high-performance liquid chromatography 724(1996)364

#### Florenicol amine

Simultaneous extraction and determination of florfenicol and the metabolite florfenicol amine in sediment by high-performance liquid chromatography 724(1996)364

#### Fluconazole

Determination of fluconazole in human plasma by micellar electrokinetic capillary chromatography with detection at 190 nm 745(1996)165

#### Flumetsulam

High-performance liquid chromatographic determination of flumetsulam, a newly developed sulfonamide herbicide in soil 746(1996)25

#### Fluoranthene

Analyte preconcentration procedure based on parallel-current open-tubular liquid chromatography 728(1996)311

#### 9-Fluorenyl chloride

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

#### 1-(9-Fluorenyl)ethyl chloroformate

Determination of chiral reagent purity by capillary electrophoresis 715(1995)151

#### 9-Fluorenylmethoxycarbonyl hydrazide

Analysis of the 9-fluorenylmethoxycarbonyl hydrazide labelling of neutral and sialic acid-containing oligosaccharides by reversed-phase high-performance liquid chromatography 728(1996)343

#### Fluorescein

Evaluation of the potential usefulness of in situ fiber optic sensors for column monitoring in chromatographic separations and purifications 736(1996)51

#### Fluorescein derivatives

Trace analysis of fluorescein-derivatized phenoxy acid herbicides by micellar electrokinetic chromatography with laser-induced fluorescence detection 717(1995)299

#### Fluorescein isothiocyanate

Child cerebrospinal fluid analysis by capillary electrophoresis and laser-induced fluorescence detection 717(1995)293

#### Fluorescein sodium salt

Utilization of fluorescein sodium salt in laser-induced indirect fluorimetric detection. II. Application to organic anions 716(1995)279

#### Fluoride

Stationary phase for the determination of fluoride and other inorganic anions 706(1995)81

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571

Manipulation of separation selectivity for inorganic anions in capillary zone electrophoresis using control of electrolyte pH 734(1996)416

Analysis of fluoride in rain water 739(1996)241

#### Fluoroacetate

Determination of fluoroacetate in aqueous samples by headspace gas chromatography 736(1996)229

#### Fluorobenzaldehydes

Quantitation of perfectly co-eluting analytes on dual-channel-subtraction chromatograms 727(1996)101

**(±)-(RS)-4-[1-(2-Fluoro-4-biphenyl)ethyl]-2-methylaminothiazole**

Enantiomeric separation of a thiazole derivative by high-performance liquid chromatography and micellar electrokinetic chromatography 708(1995)245

**Fluoroethers**

Retention of halocarbons on a hexafluoropropylene epoxide modified graphitized carbon black 736(1996)175

**Fluoronitrobenzofurazan**

Argon-laser-induced fluorescence detection in sodium dodecyl sulfate-capillary gel electrophoretic separations of proteins 746(1996)109

**4-Fluoro-7-nitro-2,1,3-benzoxadiazole**

Derivatization of dipeptides with 4-fluoro-7-nitro-2,1,3-benzoxadiazole for laser-induced fluorescence and separation by micellar electrokinetic chromatography 716(1995)389

**Fluvastatin**

Determination of fluvastatin enantiomers and the racemate in human blood plasma by liquid chromatography and fluorometric detection 729(1996)13

**Folinic acid**

Investigation of chiral resolution using displacement interactions with polymer networks in capillary affinity zone electrophoresis 745(1996)1

**Fombin Y HVAC 140/13**

Thermodynamic consideration of the retention mechanism in a poly(perfluoroalkyl ether) gas chromatographic stationary phase used in packed columns 715(1995)299

**Food colourants**

Separation of synthetic food colourants by capillary zone electrophoresis in a hydrodynamically closed separation compartment 724(1996)327

**Formaldehyde**

Determination of formaldehyde by capillary electrophoresis in the presence of a dihydroxyacetone matrix 730(1996)333

**Formamide**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas-liquid chromatography 715(1995)309

**Formate**

Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571

**Formic acids**

Elucidation of the degradation mechanism of 2-chloroethanol by hydrogen peroxide under ultraviolet irradiation 706(1995)345

Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

Purification of hydrophobic integral membrane proteins from *Mycoplasma hyopneumoniae* by reversed-phase high-performance liquid chromatography 737(1996)273

**Formoterol**

Separation of formoterol enantiomers and detection of zeptomolar amounts by capillary electrophoresis using laser-induced fluorescence 715(1995)159

**Fructose**

Sensitive determination of sugars by capillary zone electrophoresis with indirect UV detection under highly alkaline conditions 716(1995)231

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

**Fullerenes**

High-performance liquid chromatography of  $C_{60}$ ,  $C_{70}$ , and higher fullerenes on tetraphenylporphyrin-silica stationary phases using strong mobile phase solvents 715(1995)19

**Fulvic acid**

Capillary electrophoresis for a "finger-print" characterization of fulvic and humic acids 723(1996)215

Simple removal of humic and fulvic acid interferences using polymeric sorbents for the simultaneous solid-phase extraction of polar acidic, neutral and basic pesticides 737(1996)25

Study of metal-fulvic acid interactions by capillary electrophoresis 739(1996)421

Hyphenated techniques for characterizing coal wastewaters and associated sediments 750(1996)287

**Fumagillin**

Liquid chromatographic determination of the antibiotic fumagillin in fish meat samples 712(1995)378

**Fumaric acid**

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

**Furaldehyde**

High-performance liquid chromatographic determination of 2-furaldehyde and 5-hydroxymethyl-2-furaldehyde in honey 749(1996)95

**Fusion protein CTLA4Ig**

Liquid chromatographic and capillary electrophoretic examination of intact and degraded fusion protein CTLA4Ig and kinetics of conformational transition 723(1996)273

# G

## Gadolinium

NMR imaging of the chromatographic process. Deposition and removal of gadolinium ions on a reversed-phase liquid chromatographic column 704(1995)37

## Galactono-1,4 $\beta$ -lactone

Determination of cytidine 5'-monophospho-N-acetylneuraminic acid pool size in cell culture scale using high-performance anion-exchange chromatography with pulsed amperometric detection 727(1996)223

## Galactose

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

## $\alpha$ -Galactosides

Improved method for the analysis of  $\alpha$ -galactosides in pea seeds by capillary zone electrophoresis. Comparison with high-performance liquid chromatography-triple-pulsed amperometric detection 719(1996)213

## Galactosyl hydroxylysine

Improved rapid method for the isolation, purification and identification of collagen glycosides 732(1996)385

## Gallic acid

Determination of some pharmacologically active phenolic acids in juices by high-performance liquid chromatography 741(1996)223

## Gallium

Liquid chromatographic determination of gallium and indium with fluorimetric detection 746(1996)239

## Gallopamil

Chiral separation of verapamil and related compounds using micellar electrokinetic capillary chromatography with mixed micelles of bile salt and polyoxyethylene ethers 723(1996)179

Automated determination of verapamil and norverapamil in human plasma with on-line coupling of dialysis to high-performance liquid chromatography and fluorometric detection 750(1996)351

## Ganciclovir nucleotides

Sample preparation for the determination of purine nucleotide analogues in tissues 729(1996)197

## Gangliosides

High-resolution thin-layer chromatography of gangliosides 720(1996)3

## Gasoline

Correlation chromatograms from a triple-detector system 737(1996)223

## Gentiopicroside

Determination of gentiopicroside, mangiferin, palmatine, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

## Gentisic acid

Laser induced resonance energy transfer – a novel approach towards achieving high sensitivity in capillary electrophoresis. Clinical diagnostic application 744(1996)37

## Geothermal brines

Suppressed ion chromatographic analysis of anions in environmental waters containing high salt concentrations (Review) 733(1996)73

## Germanium

Rapid determination of germanium and tin by ion chromatography 708(1995)99

## Germicides

Determination of glutaraldehyde and phenol in germicide products by capillary gas chromatography 724(1996)398

## Gibberellin glycosyl esters

Liquid chromatography-electrospray ionization mass spectrometry for analysing plant hormone conjugates 728(1996)371

## *Ginkgo biloba*

Supercritical fluid chromatography of ginkgolides A, B, C and J and bilobalide 738(1996)115

## Ginsenosides

High-performance liquid chromatographic analysis of ginseng saponins using evaporative light scattering detection 736(1996)77

## Glucans

Determination of  $\beta$ -(1-3),(1-4)-D-glucans in barley by reversed-phase high-performance liquid chromatography 718(1995)291

Rapid method for the determination of the substitution pattern of O-methylated 1,4-glucans by high-pH anion-exchange chromatography with pulsed amperometric detection 749(1996)41

## Glucoiridoids

Systematic analysis of glucoiridoids from *Penstemon serrulatus* Menz. by high-performance liquid chromatography with pre-column solid-phase extraction 725(1996)177

## Glucolipids

Chromatographic resolution of partially perdeuterated diglucosyldiacylglycerols from *Acholeplasma laidlawii* 736(1996)83

**Glucose**

Sensitive determination of sugars by capillary zone electrophoresis with indirect UV detection under highly alkaline conditions 716(1995)231

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

Copper electrodes for stable subpicomole detection of carbohydrates in high-performance liquid chromatography 721(1996)53

**Glucose oxidase**

Fast and sensitive staining technique for glucose oxidase in polyacrylamide gel 731(1996)293

**Glucose transport**

Quantitative micellar chromatographic analysis of interaction between peptides and sodium dodecyl sulfate micelles 741(1996)49

**Glucosides**

Micellar electrokinetic capillary chromatography of limonoid glucosides from citrus seeds 718(1995)187

Preparative separation of phenolic compounds from *Picea abies* by high-speed counter-current chromatography 719(1996)438

Optimized separation of pharmacologically active flavonoids from *Epimedium* species by capillary electrophoresis 746(1996)123

**Glucosinolates**

Simultaneous analysis of intact and desulfated glucosinolates with a porous graphitized carbon column 727(1996)71

**Glucosylgalactosyl hydroxylysine**

Improved rapid method for the isolation, purification and identification of collagen glycosides 732(1996)385

**Glucosylglycerol**

Determination of the cyanobacterial osmolyte glucosylglycerol by high-performance liquid chromatography 704(1995)89

**8-C-Glucosyl-7-O-methyl-(S)-aloesol**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Glucuronate**

Determination of cytidine 5'-monophospho-N-acetylneuraminic acid pool size in cell culture scale using high-performance anion-exchange chromatography with pulsed amperometric detection 727(1996)223

**Glucuronides**

Determination of morphine, morphine-3-glucuronide and morphine-6-glucuronide in human serum by solid-phase extraction and liquid chromatography-mass spectrometry with electrospray ionisation 729(1996)279

Determination of phase II drug metabolites in equine urine by micellar electrokinetic capillary chromatography 745(1996)155

**Glufosinate**

Simple and rapid determination of the herbicides glyphosate and glufosinate in river water, soil and carrot samples by gas chromatography with flame photometric detection 726(1996)253

Rapid determination of glufosinate, glyphosate and aminomethylphosphonic acid in environmental water samples using precolumn fluorogenic labeling and coupled-column liquid chromatography 737(1996)75

**Glutamic acid**

Fluorimetric method of analysis for D-norpseudoephedrine hydrochloride, glycine and L-glutamic acid by reversed-phase high-performance liquid chromatography 729(1996)287

**Glutaraldehyde**

Laboratory validation of a diffusive sampler for the determination of glutaraldehyde in air 710(1995)175

Determination of glutaraldehyde and phenol in germicide products by capillary gas chromatography 724(1996)398

**Glutathione**

Determination of thiols by capillary electrophoresis with electrochemical detection using a palladium field-decoupler and chemically modified electrodes 716(1995)347

Hyphenation of capillary electrophoresis to inductively coupled plasma mass spectrometry as an element-specific detection method for metal speciation 750(1996)51

**Glycans**

New, stable halogenated derivative suitable for the gas chromatographic determination of muramic acid 726(1996)246

**Glycerides**

Analysis of mixtures containing free fatty acids and mono-, di- and triglycerides by high-performance liquid chromatography coupled with evaporative light-scattering detection 730(1996)83

**Glycerolipids**

Determination of glycolipids by Chromarod thin-layer chromatography with Iatroscan flame ionization detection 741(1996)91

**Glycerols**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas-liquid chromatography 715(1995)309

Preparative separation of the diastereomers of methyl branched-chain phosphatidylcholines 724(1996)367

Identification of the lipids and the ant attractant 1,2-dioleoylglycerol in the arils of *Commiphora guillaumini* Perr. (Bursaceae) by supercritical fluid chromatography–atmospheric pressure chemical ionisation mass spectrometry 727(1996)139

Composition analysis of normal plant triacylglycerols and hydroperoxidized *rac*-1-stearoyl-2-oleoyl-3-linoleoyl-*sn*-glycerols by liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 730(1996)1

Chromatographic resolution of partially perdeuterated diglucosyldiacylglycerols from *Acholeplasma laidlawii* 736(1996)83

#### **Glycerophosphocholines**

Preparative separation of the diastereomers of methyl branched-chain phosphatidylcholines 724(1996)367

#### **Glycerophospholipids**

Quantitation of choline glycerophospholipids that contain carboxylate residues by fluorometric high-performance liquid chromatography 724(1996)131

#### **Glycine**

Fluorimetric method of analysis for *D*-norpseudoephedrine hydrochloride, glycine and *L*-glutamic acid by reversed-phase high-performance liquid chromatography 729(1996)287

#### **Glycoamidases**

Enzymatic release of oligosaccharides from glycoproteins for chromatographic and electrophoretic analysis 720(1996)201

#### **Glycoconjugates**

Ligand-exchange chromatography of carbohydrates and glycoconjugates 720(1996)127

Recent progress in carbohydrate separation by high-performance liquid chromatography based on size exclusion 720(1996)151

Detection of carbohydrates in capillary electrophoresis 720(1996)353

Matrix-assisted laser desorption/ionisation mass spectrometry of oligosaccharides and glycoconjugates 720(1996)429

#### **Glycoenzymes**

Lectin–glycoenzyme column chromatography monitored by enzyme flow microcalorimetry 722(1996)143

#### **Glycoglycerolipids**

Determination of glycoglycerolipids by Chromarod thin-layer chromatography with Iatroscan flame ionization detection 741(1996)91

#### **Glycolate**

2-Phosphoglycolate and glycolate-electrophore detection, including detection of 87 zeptomoles of the latter by gas chromatography–electron-capture mass spectrometry 721(1996)289

#### **Glycolic acid**

Elucidation of the degradation mechanism of 2-chloroethanol by hydrogen peroxide under ultraviolet irradiation 706(1995)345

Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27

Retention behaviour of thorium(IV) and uranyl on a reversed-phase column with glycolate and mandelate as eluents 739(1996)151

Rapid ion chromatographic method for the quantitative determination of ligand leakage from ion-exchange media 742(1996)79

#### **Glycolipids**

Separation and detection of 4-hexadecylaniline maltooligosaccharide derivatives with packed capillary liquid chromatography–frit fast atom bombardment–mass spectrometry 712(1995)149

Fluorophore-assisted carbohydrate electrophoresis in the separation, analysis, and sequencing of carbohydrates 720(1996)295

#### **Glycols**

Capillary gas chromatography of higher alkylpolyoxyethylene glycols with an even number of carbon atoms in the alkyl group. Influence of type of derivatizing agent, alcohol chain length and oxyethylene chain length on the retention indices with a linear temperature increase 727(1996)131

#### **Glycopeptides**

Recent progress in reversed-phase and hydrophobic interaction chromatography of carbohydrate species 720(1996)93

High-performance liquid chromatographic separation of carbohydrates on graphitized carbon columns 720(1996)119

Analysis of glycoproteins, glycopeptides and glycoprotein-derived oligosaccharides by high-performance capillary electrophoresis 720(1996)377

Development of electrophoretic conditions for the characterization of protein glycoforms by capillary electrophoresis–electrospray mass spectrometry 720(1996)409

#### **Glycoprotein oligosaccharide-releasing enzymes**

Enzymatic release of oligosaccharides from glycoproteins for chromatographic and electrophoretic analysis 720(1996)201

#### **Glycoproteins**

Effect of glycosylation on the heparin-binding capability of boar and stallion seminal plasma proteins 711(1995)167

Separation of 8-aminonaphthalene-1,3,6-trisulfonic acid-labelled neutral and sialylated N-linked complex oligosaccharides by capillary electrophoresis 716(1995)241

Capillary zone electrophoretic resolution of recombinant human bone morphogenetic protein 2 glycoforms. An investigation into the separation mechanisms for an exquisite separation 716(1995)401

Application of capillary electrophoresis, high-performance liquid chromatography, on-line electrospray mass spectrometry and matrix-assisted laser desorption ionization–time of flight mass spectrometry to the characterization of single-chain plasminogen activator 717(1995)41

Rapid one-step capillary isoelectric focusing method to monitor charged glycoforms of recombinant human tissue-type plasminogen activator 717(1995)61

Analysis of the glycoforms of human recombinant factor VIIa by capillary electrophoresis and high-performance liquid chromatography 718(1995)195

Effect of polyamines on the separation of ovalbumin glycoforms by capillary electrophoresis 719(1996)159

Recent progress in reversed-phase and hydrophobic interaction chromatography of carbohydrate species 720(1996)93

Enzymatic release of oligosaccharides from glycoproteins for chromatographic and electrophoretic analysis 720(1996)201

Comparison of separation modes of high-performance liquid chromatography for the analysis of glycoprotein- and proteoglycan-derived oligosaccharides 720(1996)227

Fractionation of glycoprotein-derived oligosaccharides by affinity chromatography using immobilized lectin columns 720(1996)251

Fluorophore-assisted carbohydrate electrophoresis in the separation, analysis, and sequencing of carbohydrates 720(1996)295

Analysis of glycoproteins, glycopeptides and glycoprotein-derived oligosaccharides by high-performance capillary electrophoresis 720(1996)377

Development of electrophoretic conditions for the characterization of protein glycoforms by capillary electrophoresis–electrospray mass spectrometry 720(1996)409

Application of high-performance liquid chromatography–electrospray ionization mass spectrometry and matrix-assisted laser-desorption ionization time-of-flight mass spectrometry in combination with selective enzymatic modifications in the characterization of glycosylation patterns in single-chain plasminogen activator 732(1996)27

Non-native capillary isoelectric focusing for the analysis of the microheterogeneity of glycoproteins 737(1996)281

Capillary electrophoresis of glycosylated proteins performed on a conventional capillary gas chromatographic column 741(1996)139

Examination of capillary zone electrophoresis, capillary isoelectric focusing and sodium dodecyl sulfate capillary electrophoresis for the analysis of recombinant tissue plasminogen activator 744(1996)155

Comparison of ampholytes used for slab gel and capillary isoelectric focusing of recombinant tissue-type plasminogen activator glycoforms 744(1996)279

Application of multidimensional affinity high-performance liquid chromatography and electrospray ionization liquid chromatography–mass spectrometry to the characterization of glycosylation in single-chain plasminogen activator 750(1996)35

### **Glycosaminoglycans**

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

Fluorophore-assisted carbohydrate electrophoresis in the separation, analysis, and sequencing of carbohydrates 720(1996)295

Separation of negatively charged carbohydrates by capillary electrophoresis 720(1996)323

### **Glycosides**

Assay of resveratrol glucosides and isomers in wine by direct-injection high-performance liquid chromatography 708(1995)89

Liquid chromatography combined with thermospray and continuous-flow fast atom bombardment mass spectrometry of glycosides in crude plant extracts 712(1995)155

Improved rapid method for the isolation, purification and identification of collagen glycosides 732(1996)385

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography–chemical ionization mass spectrometry 736(1996)195

Quantitative determination of cardiac glycosides in *Digitalis lanata* leaves by reversed-phase thin-layer chromatography 746(1996)255

### **Glycyrrhizin**

Determination of gentiopicroside, mangiferin, palmitate, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

### **Glyoxylate**

Endogenous alkaloids in man. XXI. Analysis of glyoxylate-derived 1,3-thiazolidines and their precursors after trimethylsilylation by gas chromatography–mass spectrometry 707(1995)267

**Glyphosate**

Simple and rapid determination of the herbicides glyphosate and glufosinate in river water, soil and carrot samples by gas chromatography with flame photometric detection 726(1996)253

Rapid determination of glufosinate, glyphosate and aminomethylphosphonic acid in environmental water samples using precolumn fluorogenic labeling and coupled-column liquid chromatography 737(1996)75

Analysis of glyphosate using capillary electrophoresis with indirect detection 745(1996)189

**Gold**

Determination of chloride complex of Au(III) by capillary zone electrophoresis with direct UV detection 718(1995)227

Quantitative thin layer chromatography on cellulose 746(1996)261

**Gallium**

Liquid chromatographic determination of gallium and indium with fluorimetric detection 746(1996)239

**Gramicidin A analogues**

Chromatographic purification and characterization of synthetic tryptophan-substituted gramicidin A analogues 725(1996)315

**Growth hormones**

Analysis of recombinant human growth hormone and its related impurities by capillary electrophoresis 707(1995)396

Immunochromatographic analysis of bovine growth hormone releasing factor involving reversed-phase high-performance liquid chromatography-immunodetection 743(1996)181

Separation of recombinant human growth hormone from *Escherichia coli* cell pellet extract by capillary zone electrophoresis 744(1996)223

**N<sup>7</sup>-Guanine DNA adducts**

General method for determining ethylene oxide and related N<sup>7</sup>-guanine DNA adducts by gas chromatography-electron capture mass spectrometry 712(1995)345

**H****Haemoglobin**

Haemoglobin analysis by capillary zone electrophoresis 709(1995)121

Analysis of protein fractions by micropreparative capillary isoelectric focusing and matrix-assisted laser desorption time-of-flight mass spectrometry 716(1995)157

Separation of hemoglobin variants in single human erythrocytes by capillary electrophoresis with laser-induced native fluorescence detection 718(1995)397

Preliminary experiments for the analysis of tetrahydrotetraols of benz[a]anthracene and benzo[a]pyrene derived from their hemoglobin adducts using a coupled-column high-performance liquid chromatographic system 730(1996)153

Capillary isoelectric focusing as a tool in the examination of antibodies, peptides and proteins of pharmaceutical interest 735(1996)165

**Haemoglobin, glycosylated**

Novel magnetic microspheres on the basis of poly(vinyl alcohol) as affinity medium for quantitative detection of glycosylated haemoglobin 711(1995)53

**Haemophilus influenzae A<sub>2</sub> LOS**

Application of a new atmospheric pressure ionization source for double focusing sector instruments 712(1995)3

**Haemorphins**

Isolation of haemorphin-related peptides from filter membranes collected in connection with haemofiltration of human subjects 723(1996)43

**Hair proteins**

Capillary electrophoresis of hair proteins modified by alcohol intake in laboratory rats 709(1995)111

**Halazepam**

Determination of a trace amount of cocaine on a bank note by gas chromatography-positive-ion chemical-ionization mass spectrometry 731(1996)355

**Halides**

Analysis of halides, oxyhalides and metal oxoacids by capillary electrophoresis with suppressed electroosmotic flow 718(1995)421

**Halocarbons**

see also Organochlorine compounds and Organohalogen compounds

Carbon sorbents and their utilization for the preconcentration of organic pollutants in environmental samples 707(1995)145

Investigation of the use of oxygen doping of the electron-capture detection for determination of atmospheric halocarbons 707(1995)255

Retention of halocarbons on a hexafluoropropylene epoxide-modified graphitized carbon black. IV. Propane-based compounds 708(1995)293

Uniform-sized polymer-based separation media prepared using vinyl methacrylate as a cross-linking agent. Possible powerful adsorbent for solid-phase extraction of halogenated organic solvents in an aqueous environment 711(1995)247

Retention of halocarbons on a hexafluoropropylene-epoxide modified graphitized carbon black. Part 5: heavier ethane- and ethene-based compounds 723(1996)325

Retention of halocarbons on a hexafluoropropylene epoxide modified graphitized carbon black 736(1996)175

Screening method for the determination of 28 volatile organic compounds in indoor and outdoor air at environmental concentrations using dual-column capillary gas chromatography with tandem electron-capture-flame ionization detection 749(1996)181

#### **Halofantrine**

Flash chiral chromatography with cellulose tris(3,5-dimethylphenylcarbamate)-coated phases 728(1996)195

#### **Halogenated compounds**

Calculation of elemental ratios by on-column radiofrequency plasma atomic emission detection coupled with capillary gas chromatography 736(1996)157

Solid sorbent method for the collection and analysis of volatile halogenated organic compounds in soil gas 738(1996)73

#### **Halogen-containing compounds, inorganic**

Applications of liquid chromatography-mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

#### **Haloperidol**

Application of capillary electrophoresis and related techniques to drug metabolism studies 735(1996)415

#### **Halophilic proteins**

Purification of unstable proteins from *Halobacterium salinarium* crude cell extracts: combined cell disruption and desalting by a hollow-fiber membrane module as an access to perform ion-exchange chromatography 711(1995)175

#### **Haptens**

Optimization of hapten-protein conjugation by high-performance capillary electrophoresis 717(1995)75

Monitoring of hapten-protein coupling reactions by capillary zone electrophoresis: improvement of abscisic acid-bovine serum albumin coupling and determination of molar coupling ratios 723(1996)381

Critical evaluation of the applicability of capillary zone electrophoresis for the study of hapten-antibody complex formation 744(1996)195

#### **Harmaline**

Integrated derivatization-chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

#### **Harmalol**

Integrated derivatization-chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

#### **Harmane**

Integrated derivatization-chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

#### **Harmine**

Integrated derivatization-chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

#### **Harmol**

Integrated derivatization-chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

#### **Heavy metals**

see also Metals

Element-sensitive X-ray detection for capillary electrophoresis 727(1996)301

Application of thermal lens spectrometric detection to the determination of heavy metals by ion chromatography 739(1996)111

Determination of heavy metals in air particulate matter by ion chromatography 739(1996)233

#### **Hemicelluloses**

Efficient capillary zone electrophoretic separation of wood-derived neutral and acidic mono- and oligosaccharides 738(1996)129

#### **Hemorphins**

Reversed-phase high-performance liquid chromatography coupled with second-order derivative spectroscopy for the quantitation of aromatic amino acids in peptides: application to hemorphins 723(1996)35

In vitro metabolism of LVV-hemorphin-7 in human plasma studied by reversed-phase high-performance liquid chromatography and micro-electrospray mass spectrometry 743(1996)207

#### **Heparan sulfate**

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

**Heparin**

Separation of hydroxyl protected heparin derived disaccharides using reversed-phase high-performance liquid chromatography 705(1995)369

High-resolution capillary electrophoresis and polyacrylamide gel electrophoresis of heparins 716(1995)259

Demonstration of a heparin-binding site in serum amyloid P component using affinity capillary electrophoresis as an adjunct technique 717(1995)83

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

Synthesis of silica-based heparin-affinity adsorbents 728(1996)149

Purification of the monoclonal heparin antibody H-1.18 744(1996)215

**Heparin-binding proteins**

Effect of glycosylation on the heparin-binding capability of boar and stallion seminal plasma proteins 711(1995)167

**Heparin disaccharides**

Capillary electrophoresis of heparin and dermatan sulfate unsaturated disaccharides with triethylamine and acetonitrile as electrolyte additives 735(1996)367

**Heparinoid mimetics**

Quantitative determination of heparinoid mimetics in human and rat plasma by micellar electrokinetic chromatography 730(1996)297

**Heptakis(2,6-di-O-methyl)- $\beta$ -cyclodextrin**

Use of heptakis(2,6-di-O-methyl)- $\beta$ -cyclodextrin in on-line capillary zone electrophoresis-mass spectrometry for the chiral separation of ropivacaine 742(1996)235

Analysis of partially methylated cyclodextrins by subcritical fluid and liquid chromatography 746(1996)103

**Heptane**

Computer program for simulating the performance of thick-bed diffusive samplers: predicted and experimental sample loss due to reversible adsorption 709(1995)283

**Heroin**

Determination of morphine analogues, caffeine and amphetamine in biological fluids by capillary electrophoresis with the marker technique 735(1996)439

**Heteroaromatic compounds**

Method development for trace analysis of heteroaromatic compounds in contaminated groundwater 738(1996)295

**Hexachlorocyclohexanes**

Analysis of organochlorine pesticides using solid-phase microextraction 723(1996)111

**Hexadecyltrimethylammonium bromide**

Separation of chromate and tungstate by reversed-phase high-performance chromatography using rutin as chelating reagent 709(1995)381

**Hexamethylindodicarbocyanine iodide**

Application of an avalanche photodiode in a near-Geiger operation as a fluorescence detector for capillary electrophoresis 744(1996)31

**Hexane**

Computer program for simulating the performance of thick-bed diffusive samplers: predicted and experimental sample loss due to reversible adsorption 709(1995)283

**Hexanesulfonic acid**

Determination of choline in pharmaceutical formulations by reversed-phase high-performance liquid chromatography and postcolumn suppression conductivity detection 739(1996)351

**1-Hexanol**

Control of selectivity in micellar electrokinetic chromatography by modification of sodium dodecyl sulfate micelles with organic hydroxy compounds 705(1995)319

**Hexazinone**

Thermospray ionization liquid chromatography-mass spectrometry and chemical ionization gas chromatography-mass spectrometry of hexazinone metabolites in soil and vegetation extracts 704(1995)131

**Hexenal**

What is the true odour of cut *Allium*? Complementarity of various hyphenated methods: gas chromatography-mass spectrometry and high-performance liquid chromatography-mass spectrometry with particle beam and atmospheric pressure ionization interfaces in sulphenic acids rearrangement components discrimination 750(1996)63

**Hexobarbital**

Cationic  $\beta$ -cyclodextrin: a new versatile chiral additive for separation of drug enantiomers by high-performance liquid chromatography 704(1995)67

Enantiomeric resolution using the macrocyclic antibiotics rifamycin B and rifamycin SV as chiral selectors for capillary electrophoresis 715(1995)337

Enantiomer separation by gas and high-performance liquid chromatography with tripeptide derivatives as chiral stationary phases 722(1996)229

Covalently bonded permethylated cyclodextrins, new selectors for enantiomeric separations by liquid chromatography 728(1996)171

**Hexosamines**

High-performance liquid chromatographic analysis of hexosamines, hexosaminotols, N-acetylhexosamines and N-acetylhexosaminotols by ultraviolet and fluorescence detection at picomole levels 730(1996)107

**Hexosaminitols**

High-performance liquid chromatographic analysis of hexosamines, hexosaminitols, N-acetylhexosamines and N-acetylhexosaminitols by ultraviolet and fluorescence detection at picomole levels 730(1996)107

**Histamine**

Quality control of histamine and methacholine in diagnostic solutions with capillary electrophoresis 735(1996)387

**Histidine**

Multipoint binding in metal-affinity chromatography 725(1996)225

**Histones**

Separation and characterisation of bovine histone H1 subtypes by combined ion-exchange and reversed-phase chromatography and mass spectrometry 711(1995)159

Separation of acetylated core histones by hydrophilic-interaction liquid chromatography 743(1996)137

**HIV-1 reverse transcriptase inhibitor**

High-performance liquid chromatographic separation of an HIV-1 reverse transcriptase inhibitor and its enantiomer 738(1996)290

**Homocysteine**

Determination of thiols by capillary electrophoresis with electrochemical detection using a palladium field-decoupler and chemically modified electrodes 716(1995)347

**Homooligodeoxyribonucleotides**

Capillary gel electrophoresis and antisense therapeutics (Review) 735(1996)191

**Homovanillic acid**

Study of a new solid carbon paste tyrosinase-modified amperometric biosensor for the determination of catecholamines by high-performance liquid chromatography 727(1996)47

Improved end-column amperometric detection for capillary electrophoresis 742(1996)229

**Hopanes**

Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography–mass spectrometry 712(1995)321

**Hormones**

Analysis of recombinant human growth hormone and its related impurities by capillary electrophoresis 707(1995)396

Identification of the thermal degradation products of G-triiodothyronine sodium (lithothyronine sodium) by reversed-phase high-performance liquid chromatography with photodiode-array UV and mass spectrometric detection 725(1996)287

Structure–retention relationships of steroid hormones in reversed-phase liquid chromatography and micellar electrokinetic capillary chromatography 728(1996)83

Thermodynamic parameters of the formation of a complex between cyclodextrins and steroid hormones 728(1996)89

High-performance, purity-indicating liquid chromatographic method for the oxytocin antagonist, L-368,899 731(1996)331

Enzyme-linked immunosorbent assays in a chromatographic format 743(1996)195

**Horseradish peroxidase**

Development of electrophoretic conditions for the characterization of protein glycoforms by capillary electrophoresis–electrospray mass spectrometry 720(1996)409

**Host cell proteins**

Host cell contaminant protein assay development for recombinant biopharmaceuticals 705(1995)105

**5HT<sub>1D</sub> Agonists**

Quantitation of the 5HT<sub>1D</sub> agonists MK-462 and sumatriptan in plasma by liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 726(1996)115

Optimization of the separation of  $\beta$ -agonists by capillary electrophoresis on untreated and C<sub>18</sub> bonded silica capillaries 715(1995)345

**Humic acids**

Adsorbents for the removal of humic acid from surface water based on modified porous zirconia and silica 711(1995)223

Capillary electrophoresis for a "finger-print" characterization of fulvic and humic acids 723(1996)215

Simple removal of humic and fulvic acid interferences using polymeric sorbents for the simultaneous solid-phase extraction of polar acidic, neutral and basic pesticides 737(1996)25

Hyphenated techniques for characterizing coal wastewaters and associated sediments 750(1996)287

**Humic substances**

Ion chromatography of organic-rich natural waters from peatlands. V. Fe<sup>2+</sup> and Fe<sup>3+</sup> 706(1995)293

Capillary electrophoretic study of atrazine photolysis 709(1995)215

Capillary electrophoresis for a "finger-print" characterization of fulvic and humic acids 723(1996)215

Study of metal–fulvic acid interactions by capillary electrophoresis 739(1996)421

**Hyaluronan**

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

**Hydantoins**

High-performance liquid chromatographic determination of cyclohexylhydantoin and cyclohexylidenehydantoin formed during the synthesis of phenylhydantoin from hydantoin and cyclohexanone 740(1996)284

**Hydrazone**

Analysis of monoclonal antibody and immunoconjugate digests by capillary electrophoresis and capillary liquid chromatography 735(1996)357

**Hydrocarbons**

Permeation tube approach to long-term use of automatic sampler retention index standards 704(1995)157

Carbon sorbents and their utilization for the preconcentration of organic pollutants in environmental samples 707(1995)145

Gas chromatography of Titan's atmosphere. VI. Analysis of low-molecular-mass hydrocarbons and nitriles with BPX5 capillary columns 708(1995)283

Characterization of micropacked alkyl-bonded silica columns for gas chromatographic analyses of light hydrocarbons in planetary atmospheres 709(1995)291

Detection methods for the analysis of biogenic non-methane hydrocarbons in air 710(1995)39

Assessment by gas chromatography and gas chromatography-mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography-mass spectrometry 712(1995)321

Nickel(II) chelates of some tetradentate Schiff bases as stationary phases for gas chromatography 715(1995)366

Chemically bonded chelates as selective complexing sorbents for gas chromatography. IV. Silica surfaces modified with Co(II) and Ni(II) complexes 723(1996)313

Large-volume injection in residue analysis with capillary gas chromatography using a conventional autosampler and injection by programmed-temperature vaporization with solvent venting 727(1996)275

Simultaneous identification of different classes of hydrocarbons and determination of nitro-polycyclic aromatic hydrocarbons by means of particle beam liquid chromatography-mass spectrometry 728(1996)359

Prefractionation of aroma extracts from fat-containing food by high-performance size-exclusion chromatography 729(1996)371

Quantification of toxic hydrocarbon target compounds in engine exhaust and air by aluminum oxide porous-layer open-tubular capillary gas chromatography-mass spectrometry using isotopically labeled internal standards 731(1996)217

Gas-solid retention volumes of organic compounds on styrene-divinylbenzene and ethylvinylbenzene-divinylbenzene copolymer sorbent beads 732(1996)317

Sample preparation techniques for determining semi-volatile organic compounds in nuclear defense materials production waste 738(1996)215

Determination of elemental sulfur by size-exclusion chromatography 740(1996)237

Gas chromatography of Titan's atmosphere 746(1996)63

Screening method for the determination of 28 volatile organic compounds in indoor and outdoor air at environmental concentrations using dual-column capillary gas chromatography with tandem electron-capture-flame ionization detection 749(1996)181

**Hydrocarbons, aromatic**

Polymer-supported pseudo-stationary phase for electrokinetic chromatography. Electrokinetic chromatography in a full range of methanol-water mixtures with alkylated starburst dendrimers 716(1995)57

Novel additives for the separation of organic compounds by high-performance liquid chromatography 728(1996)235

Solid-phase microextraction coupled to gas chromatography: a new method for the analysis of organics in water 733(1996)143

Optimizing split/splitless injection port parameters for solid-phase microextraction 740(1996)139

**Hydrocarbons, volatile**

Occurrence and determination of organic pollutants in tap and surface waters of the Gdańsk district 733(1996)171

**Hydrochlorothiazide**

New sensitive method for the determination of hydrochlorothiazide in human serum by high-performance liquid chromatography with electrochemical detection 729(1996)293

**Hydrogen carbonate**

Determination of anions in oilfield waters by ion chromatography 706(1995)301

**Hydrogen peroxide**

Determinations of trace anions in hydrogen peroxide 706(1995)191

Oxidative decomposition of organic water pollutants with UV-activated hydrogen peroxide. Determination of anionic products by ion chromatography 706(1995)253

Elucidation of the degradation mechanism of 2-chloroethanol by hydrogen peroxide under ultraviolet irradiation 706(1995)345

Indirect chemiluminescence detection of amino acids separated by capillary electrophoresis 736(1996)247

**Hydroperoxides**

Postcolumn chemiluminescence, ultraviolet and evaporative light-scattering detectors in high-performance liquid chromatographic determination of triacylglycerol oxidation products 734(1996)221

**Hydroquinone**

Examination of the origin, variation, and proper use of expressions for the estimation of association constants by capillary electrophoresis 721(1996)173

**Hydroxy acids**

Gas chromatographic enantiomer separation on a chiral self-associating selector 746(1996)53

**Hydroxyaloin**

High-performance liquid chromatographic profiles of aloin constituents and determination of aloin in beverages, with reference to the EEC regulation for flavouring substances 718(1995)99

**Hydroxyanthranoids**

Determination of 1,8-dihydroxyanthranoids in senna 740(1996)133

**Hydroxybenzoates**

Capillary electrochromatography – a high-efficiency micro-separation technique 744(1996)63

**3-Hydroxy-1,4-benzodiazepines**

Suppression of chiral recognition of 3-hydroxy-1,4-benzodiazepines during micellar electrokinetic capillary chromatography with bile salts 704(1995)238

***p*-Hydroxybenzoic esters**

Method to study the separation of eight *p*-hydroxybenzoic esters by gas chromatography 727(1996)93

 **$\beta$ -Hydroxybutyric acid**

Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27

**Hydroxybutyridine**

Separation of 1-(4-*tert.*-butylphenyl)-4-(4-hydroxypiperidinyl)-butan-1-one and its *O*-alkylated isomer by capillary zone electrophoresis 742(1996)275

**Hydroxydimetridazole**

High-performance thin-layer chromatographic method for the fluorescence detection of three nitroimidazole residues in pork and poultry tissue 737(1996)343

**Hydroxyethyl cellulose**

Surface modification of microporous polyamide membranes with hydroxyethyl cellulose and their application as affinity membranes 715(1995)49

Capillary electrophoresis of oligonucleotides using a replaceable sieving buffer with low viscosity-grade hydroxyethyl cellulose 742(1996)267

 **$N^7$ -(2'-Hydroxyethyl)guanine**

General method for determining ethylene oxide and related  $N^7$ -guanine DNA adducts by gas chromatography–electron capture mass spectrometry 712(1995)345

**2-Hydroxy-9-fluorenone**

Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41

**5-Hydroxyindane**

Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41

**5-Hydroxyindole**

Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41

**Hydroxyindoleacetic acid**

Analysis of overlapped chromatographic peaks by multi-channel electrochemical detection 722(1996)151

In vivo microdialysis determination of collagen-induced serotonin release in rat blood 730(1996)121

Quantitation of unresolved chromatographic peak using overlapping ratio of profiles of standard chromatographic peaks 746(1996)161

**Hydroxyisobutyric acid**

Capillary electrophoretic separation of metal ions using complex forming equilibria of different stabilities 745(1996)103

 **$\beta$ -Hydroxy lauric acid**

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

**Hydroxylysine**

Improved rapid method for the isolation, purification and identification of collagen glycosides 732(1996)385

**Hydroxymethoxyflavones**

Analysis of 5-hydroxy-7-methoxyflavones by normal-phase high-performance liquid chromatography 740(1996)201

**Hydroxymethylfuraldehyde**

High-performance liquid chromatographic determination of 2-furaldehyde and 5-hydroxymethyl-2-furaldehyde in honey 749(1996)95

 **$\beta$ -Hydroxymyristic acid**

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

**Hydroxynaphthoquinones**

Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41

**4-Hydroxy-2-nonenal**

Determination of 4-hydroxy-2-nonenal by precolumn derivatization and liquid chromatography with laser fluorescence detection 719(1996)450

**Hydroxynonyladenine**

Study of the competitive inhibition of adenosine deaminase by erythro-9-(2-hydroxy-3-nonyl)adenine using capillary zone electrophoresis 745(1996)293

**9-Hydroxyphenanthrene**

Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41

**Hydroxyquinolinesulfonic acid**

Capillary electrophoretic separation of metal ions using complex forming equilibria of different stabilities 745(1996)103

**Hydroxysaclofen**

Preparative resolution of saclofen and hydroxysaclofen with analytical-scale high-performance liquid chromatography 732(1996)239

**Hydroxytriazines**

Capillary electrophoretic study of atrazine photolysis 709(1995)215

**Hydroxytyrosol**

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography-chemical ionization mass spectrometry 736(1996)195

**Hypericin**

High-performance liquid chromatographic determination of the biologically active principle hypericin in phytotherapeutic vegetable extracts and alcoholic beverages 731(1996)336

**Hypoxanthine**

Comparison of capillary electrophoretic and liquid chromatographic determination of hypoxanthine and xanthine for the diagnosis of xanthinuria 730(1996)329

**I****Ibogaine**

Determination of ibogaine in plasma by gas chromatography-chemical ionization mass spectrometry 723(1996)101

**Ibuprofen**

Resolution of ( $\pm$ )-ibuprofen using L-arginine-impregnated thin-layer chromatography 721(1996)369

Comparison of the chiral resolution on *cis-trans* isomeric chiral stationary phases derived from (*S*)-1-(1-naphthyl)ethylamine 740(1996)183

**Ifosfamide**

Trace analysis of the antineoplastics ifosfamide and cyclophosphamide in sewage water by two-step solid-phase extraction and gas chromatography-mass spectrometry 726(1996)179

**Imazamethabenz-methyl**

Comparative study of three extraction procedures for imazamethabenz-methyl in agricultural soil 721(1996)113

**Imidacloprid**

Determination of imidacloprid in vegetables by high-performance liquid chromatography with diode-array detection 721(1996)97

Determination of imidacloprid in water and soil samples by gas chromatography-mass spectrometry 746(1996)289

**Imidazoles**

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

Multipoint binding in metal-affinity chromatography 725(1996)225

Chromatographic resolution and pharmacological investigation of some imidazole derivatives 729(1996)1

**Imino acids**

Facile liquid chromatographic enantioresolution of native amino acids and peptides using a teicoplanin chiral stationary phase 731(1996)123

**Imipramine derivatives**

Comparison of separation selectivity in aqueous and non-aqueous capillary electrophoresis 711(1995)313

**Immunoglobulin fusion protein**

Liquid chromatographic and capillary electrophoretic examination of intact and degraded fusion protein CTLA4Ig and kinetics of conformational transition 723(1996)273

**Immunoglobulin G**

Computer aided desk-top scale-up and optimisation of chromatographic processes 702(1995)81

**Immunoglobulins**

Quantitation of monoclonal antibodies by perfusion chromatography-immunodetection 715(1995)241

Quantification of the major bovine whey proteins using capillary zone electrophoresis 723(1996)371

Chromatography of bovine lactoserum on the immobilized metallized dye Drimarene Rubine R/K 5BL. Modulation of selectivity by metal exchange and application to purification of milk immunoglobulins 725(1996)237

Thiophilic nature of divinylsulphone cross-linked agarose 734(1996)241

Rapid purification and monitoring of immunoglobulin M from ascites by perfusion ion-exchange chromatography 743(1996)163

Influence of column type and chromatographic conditions on the ion-exchange chromatography of immunoglobulins 743(1996)171

#### **Indigo carmine**

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

#### **Indium**

Liquid chromatographic determination of gallium and indium with fluorimetric detection 746(1996)239

#### **Indoles**

Modification of a tunable UV-visible capillary electrophoresis detector for simultaneous absorbance and fluorescence detection: profiling of body fluids for drugs and endogenous compounds 709(1995)147

Separation of tryptophan and related indoles by micellar electrokinetic chromatography with KrF laser-induced fluorescence detection 718(1995)203

Micellar liquid chromatography of plant growth regulators detected by derivative fluorometry 723(1996)227

Capillary electrophoresis of Cheddar cheese 731(1996)305

Feasibility of supercritical fluid chromatography-chemiluminescent nitrogen detection with open tubular columns 734(1996)303

#### **Indolylacrylic acid**

High-performance liquid chromatographic profiling of indolylacryloylglycine and its possible precursors in body fluids 730(1996)133

#### **Indolylacryloylglycine**

High-performance liquid chromatographic profiling of indolylacryloylglycine and its possible precursors in body fluids 730(1996)133

#### **Indolylcarbinol**

Kinetic investigation of the transformations of indol-3-ylcarbinol into oligomeric indolyl compounds based on micellar electrokinetic capillary chromatography 745(1996)239

#### **Indolylglucosinolates**

Kinetic investigation of the transformations of indol-3-ylcarbinol into oligomeric indolyl compounds based on micellar electrokinetic capillary chromatography 745(1996)239

#### **Indolylactic acid**

High-performance liquid chromatographic profiling of indolylacryloylglycine and its possible precursors in body fluids 730(1996)133

#### **Indolylpropionic acid**

High-performance liquid chromatographic profiling of indolylacryloylglycine and its possible precursors in body fluids 730(1996)133

#### **Indometacine**

Stepwise binary gradient high-performance liquid chromatographic system for routine drug monitoring 728(1996)307

#### **Indomethacin**

Analyte adsorption in liquid chromatography valve injectors for samples in non-eluting solvents 726(1996)67

#### **Inorganic anions**

see also Anions and Inorganic ions

Stationary phase for the determination of fluoride and other inorganic anions 706(1995)81

Evaluation of 1,2-diaminocyclohexanetetraacetic acid as eluent in the determination of inorganic anions and cations by ion chromatography 706(1995)115

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Comparison of capillary zone electrophoresis with ion chromatography and standard photometric methods for the determination of inorganic anions in atmospheric aerosols 706(1995)469

Capillary electrophoresis of inorganic anions and organic acids using suppressed conductivity detection. Strategies for selectivity control 717(1995)371

Portable liquid chromatograph for mobile laboratories. I. Aims 728(1996)387

Non-suppressed ion chromatography of inorganic anions, magnesium and calcium ions using a pyromellitate eluent and its application in evaluating environmental water quality 731(1996)179

Comparison of different electroosmotic flow modifiers in the analysis of inorganic anions by capillary electrophoresis 732(1996)167

Capillary electrophoresis applied to the determination of some seleno compounds 732(1996)369

- Determination of sulphite and sulphate by ion chromatography using a weakly basic phthalate eluent 732(1996)403
- Investigation of matrix effects in capillary zone electrophoresis 734(1996)319
- Manipulation of separation selectivity for inorganic anions in capillary zone electrophoresis using control of electrolyte pH 734(1996)416
- Separation of thio- and oxothioarsenates by capillary zone electrophoresis and ion chromatography 736(1996)341

Rapid determination of germanium and tin by ion chromatography 708(1995)99

Determination of trace elements in sea water by ion chromatography–inductively coupled plasma mass spectrometry 709(1995)275

Retention behavior of arsenobetaine, arsenocholine, trimethylarsine oxide and tetramethylarsonium iodide on a styrene–divinylbenzene column with benzenesulfonates as ion-pairing reagents 730(1996)219

Approaches to sample preparation for ion chromatography 739(1996)49

Sample pretreatment by UV photolysis for the ion chromatographic analysis of plant material 739(1996)167

High-performance liquid chromatographic determination of cyanide using a pre-column conversion to a transition metal complex 739(1996)229

Method for the separation of uranium(IV) and (VI) oxidation states in natural waters 743(1996)335

Hyphenation of capillary electrophoresis to inductively coupled plasma mass spectrometry as an element-specific detection method for metal speciation 750(1996)51

Speciation of chromium in waste waters by coupled column ion chromatography–inductively coupled plasma mass spectrometry 750(1996)89

**Inositol phosphates**

Performance of an electrospray-interfaced thermospray ion source in hyphenated techniques 712(1995)211

Analysis of inositol phosphates and derivatives using capillary zone electrophoresis–mass spectrometry 712(1995)235

Determination of 1,2,6-inositol trisphosphate (derivatives) in plasma using iron(III)-loaded adsorbents and capillary zone electrophoresis–(indirect) UV detection 718(1995)413

**Insulin**

Conformational effects in reversed-phase high-performance liquid chromatography of polypeptides. I. Resolution of insulin variants 711(1995)61

Conformational effects in reversed-phase high-performance liquid chromatography of polypeptides. II. The role of insulin A and B chains in the chromatographic behaviour of insulin 711(1995)71

Interaction mechanisms between insulin and N-acetylneuraminic acid in affinity chromatography 711(1995)93

Separation of B-3 monodesamidoinulin from human insulin by high-performance liquid chromatography under alkaline conditions 721(1996)89

Peptide stacking by acetonitrile–salt mixtures for capillary zone electrophoresis 744(1996)231

 **$\alpha_1\beta_1$ -Integrin**

Characterization of molecular aggregates of  $\alpha_1\beta_1$ -integrin and other rat liver membrane proteins by combination of size-exclusion chromatography and chemical cross-linking 711(1995)187

**Interleukin-6 mutein**

Detection of traces of a trisulphide derivative in the preparation of a recombinant truncated interleukin-6 mutein 709(1995)135

**Interleukins**

Differences between natural and recombinant interleukin-2 revealed by gel electrophoresis and capillary electrophoresis 717(1995)71

Analysis of recombinant human interleukin-11 fusion protein derived from *Escherichia coli* lysate by combined size-exclusion and reversed-phase liquid chromatography 729(1996)113

Potential of on-line isotachopheresis–capillary zone electrophoresis with hydrodynamic counterflow in the analysis of various basic proteins and recombinant human interleukin-3 734(1996)381

**Invertase**

Lectin–glycoenzyme column chromatography monitored by enzyme flow microcalorimetry 722(1996)143

**Iodate**

Trace level determination of iodide, iodine and iodate by gas chromatography–mass spectrometry 732(1996)327

**Iodide**

Detection of iodide in geologic materials by high-performance liquid chromatography 706(1995)215

Matrix-elimination ion chromatography with post-column reaction detection for the determination of iodide in saline waters 706(1995)271

Determination of anions in oilfield waters by ion chromatography 706(1995)301

Determination of thiocyanate, iodide, nitrate and nitrite in biological samples by micellar electrokinetic capillary chromatography 717(1995)409

Trace level determination of iodide, iodine and iodate by gas chromatography–mass spectrometry 732(1996)327

**Iodine**

Trace level determination of iodide, iodine and iodate by gas chromatography–mass spectrometry 732(1996)327

**Iodofluoroalkanes**

Retention of halocarbons on a hexafluoropropylene epoxide modified graphitized carbon black 736(1996)175

 **$\beta$ -Ionone**

Study of aroma compound–natural polymer interactions by dynamic coupled column liquid chromatography 707(1995)181

**Ipriflavone**

Determination of ipriflavone and its synthetic impurities by high-performance liquid chromatography using diode-array detection 719(1996)245

**Irgasan DP 300**

Gas chromatographic determination of 5-chloro-2-(2,4-dichlorophenoxy)-phenol in the waste water of a slaughterhouse 705(1995)313

**Iron**

Investigations into the epimerisation of tixedane ethylsulphoxide diastereoisomers during chromatographic analysis on reversed-phase silica. I. Investigations into the reaction mechanism 705(1995)219

Investigations into the epimerisation of tixedane ethylsulphoxide diastereoisomers during chromatographic analysis on reversed-phase silica. II. The involvement of metals in commercially available C<sub>18</sub> silicas 705(1995)229

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

Ion chromatography of organic-rich natural waters from peatlands. V. Fe<sup>2+</sup> and Fe<sup>3+</sup> 706(1995)293

Isotachophoretic separation of Fe(II) and Fe(III) by using 1,10-phenanthroline as a complex-forming agent 723(1996)389

Isocratic ion-pair high-performance liquid chromatographic method for the determination of various iron(III) chelates 727(1996)253

Direct determination of iron(II), iron(III) and total iron as UV-absorbing complexes by capillary electrophoresis 740(1996)151

Simultaneous solvent extraction and high-performance liquid chromatographic determination of uranium, iron, nickel and copper in mineral ore samples and phosphate rock residues using N,N'-ethylenebis(salicylaldimine) as complexing reagent 740(1996)296

More sensitive way to determine iron using an iron(II)–1,10-phenanthroline complex and capillary electrophoresis 749(1996)287

**Iron(III) chlorophyllin**

High-performance liquid chromatographic separation of iron(III) chlorophyllin 721(1996)350

**Isethionic acid**

Rapid ion chromatographic method for the quantitative determination of ligand leakage from ion-exchange media 742(1996)79

**Isoadhumulone**

Preparative regime for the purification of bitter acids derived from hops (*Humulus lupulus* L.) 731(1996)327

**Isoaloesin D**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Isobarbaloin**

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

**Isobetainin**

Application of capillary zone electrophoresis to the analysis of betalains from *Beta vulgaris* 735(1996)409

**O-Isobutyl methylphosphonothioic acid**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

**N-Isobutyryl-L-cysteine**

Liquid chromatographic determination of D- and L-amino acids by derivatization with *o*-phthalaldehyde and N-isobutyryl-L-cysteine. Applications with reference to the analysis of peptidic antibiotics, toxins, drugs and pharmaceutically used amino acids 711(1995)201

**Isochlamyosporol**

Simultaneous high-performance liquid chromatographic determination of visoltricin, acuminatopyrone and chlamyosporols in *Fusarium* cultures on maize 730(1996)69

**Isocitric acid**

Use of ion chromatography for the measurement of organic acids in fruit juices 706(1995)395

**Isocohumulone**

Preparative regime for the purification of bitter acids derived from hops (*Humulus lupulus* L.) 731(1996)327

**Isodermosine**

Measurement of desmosine and isodesmosine by capillary zone electrophoresis 710(1995)357

**Isoeugenol**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309

**Isoflavones**

Determination of isoflavones using capillary electrophoresis in combination with electrospray mass spectrometry 707(1995)327

Determination of ipriflavone and its synthetic impurities by high-performance liquid chromatography using diode-array detection 719(1996)245

#### **Isoflurane**

Systematic modification of the separation selectivity of cyclodextrin-based gas chromatographic stationary phases by varying the size of the 6-O-substituents 738(1996)31

#### **Isohumulone**

Preparative regime for the purification of bitter acids derived from hops (*Humulus lupulus* L.) 731(1996)327

#### **Isoleucine**

Postcolumn co-immobilized leucine dehydrogenase–NADH oxidase reactor for the determination of branched-chain amino acids by high-performance liquid chromatography with chemiluminescence detection 724(1996)354

#### **Isophthalic acid polyesters**

Characterization of low-molar-mass polymers by gradient polymer elution chromatography 746(1996)211

#### **Isopilocarpine**

Improved high-performance liquid chromatographic determination of pilocarpine and its degradation products in ophthalmic solutions 740(1996)289

#### **Isoprenoid phosphates**

Analysis of isoprenoid phosphates and oligophosphates by capillary zone electrophoresis 737(1996)325

#### **Isoprenoids**

Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography–mass spectrometry 712(1995)321

#### **Isopropanol**

Effects of organic modifiers on the chiral recognition by different types of silica-immobilized bovine serum albumin 740(1996)207

#### **Isoproterenol**

Enantiomeric resolution using the macrocyclic antibiotics rifamycin B and rifamycin SV as chiral selectors for capillary electrophoresis 715(1995)337

Ultra-fast chiral separation of basic drugs by capillary electrophoresis 717(1995)229

#### **Isoproterenol sulfate**

Determination of isoproterenol sulfate on surfaces using high-performance liquid chromatography with electrochemical detection 723(1996)235

#### **Isosafrol**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309

#### **Isosorbide**

Gas chromatography–mass spectrometry study of isosorbide 5-mononitrate stability 746(1996)286

#### **Isosorbide mononitrate**

Gas chromatography–mass spectrometry study of isosorbide 5-mononitrate stability 746(1996)286

#### **Isothiocyanates**

Free-solution capillary electrophoretic resolution of chiral amino acids via derivatization with homochiral isothiocyanates. Part I 707(1995)355

Synthesis and application of a new isothiocyanate as a chiral derivatizing agent for the indirect resolution of chiral amino alcohols and amines 729(1996)33

Determination of amino acids in the foods by reversed-phase high-performance liquid chromatography with a new precolumn derivative, butylthiocarbamyl amino acid, compared to the conventional phenylthiocarbamyl derivatives and ion-exchange chromatography 740(1996)31

Determination of protein amino acids as benzylthiocarbamyl derivatives compared with phenylthiocarbamyl derivatives by reversed-phase high-performance liquid chromatography, ultraviolet detection and precolumn derivatization 740(1996)41

#### **Isozymes**

Preparation and characterization of isozymes and isoforms of horse liver alcohol dehydrogenase 711(1995)105

#### **Ivermectins**

Separation of ivermectin components by high-speed counter-current chromatography 723(1996)61

## **K**

#### **Keratan sulfate**

High-performance liquid chromatographic analysis of glycosaminoglycan-derived oligosaccharides 720(1996)275

#### **$\alpha$ -Ketobutyric acid**

Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27

#### **Ketogluconic acids**

Determination of 2-keto-L-gulonic, 2-keto-D-gluconic and 2,5-diketo-D-gluconic acids by capillary zone electrophoresis 745(1996)249

**Ketogulonic acid**

Determination of 2-keto-L-gulonic, 2-keto-D-gluconic and 2,5-diketo-D-gluconic acids by capillary zone electrophoresis 745(1996)249

**Ketones**

see also Carbonyl compounds

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas-liquid chromatography 715(1995)309

Nickel(II) chelates of some tetradentate Schiff bases as stationary phases for gas chromatography 715(1995)366

Capillary electrochromatography of small molecules in polyacrylamide gels with electroosmotic flow 716(1995)107

Pitfalls in the chromatographic determination of the alkenone  $U_{37}^k$  index for paleotemperature estimation 723(1996)285

New gas chromatographic-electron-capture detection method for the determination of atmospheric aldehydes and ketones based on cartridge sampling and derivatization with 2,4,6-trichlorophenylhydrazine 740(1996)71

**Krypton**

Experimental and theoretical relative response factors for a pulsed discharge krypton photoionization detector 749(1996)149

**L****L-738,372**

High-performance liquid chromatographic separation of an HIV-1 reverse transcriptase inhibitor and its enantiomer 738(1996)290

**Labeled proteins**

Separation of biotin labeled proteins from their unlabeled counterparts using immobilized platinum affinity chromatography 702(1995)173

**Lactalbumin**

Quantification of the major bovine whey proteins using capillary zone electrophoresis 723(1996)371

Perfusion liquid chromatography of whey proteins 729(1996)99

Preparative membrane adsorber chromatography for the isolation of cow milk components 729(1996)87

Characterization of protein adsorption by composite silica-polyacrylamide gel anion exchangers 746(1996)169

Characterization of protein adsorption by composite silica-polyacrylamide gel anion exchangers 746(1996)185

**Lactate**

Analysis of the acidic microenvironment in murine tumours by high-performance ion chromatography 706(1995)459

Monitoring of the poly(D,L-lactic acid) degradation by-products by capillary zone electrophoresis 711(1995)323

**Lactate dehydrogenase**

Polymer displacement in dye-affinity chromatography 710(1995)259

Biomimetic dye affinity chromatography for the purification of bovine heart lactate dehydrogenase 718(1995)35

**Lactic acid**

Determination of some organic acids in sugar factory products 706(1995)375

Use of ion chromatography for the measurement of organic acids in fruit juices 706(1995)395

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

Novel approach to the measurement of enantiomeric purity by high-performance liquid chromatography using a polarized photometric detector equipped with a split cell 727(1996)55

Determination of anionic feed additives by two-dimensional capillary isotachophoresis 737(1996)255

**Lactic acid oligomers**

Monitoring of the poly(D,L-lactic acid) degradation by-products by capillary zone electrophoresis 711(1995)323

**Lactoglobulins**

Towards an electrochemically modulated chromatographic stationary phase 707(1995)29

Free-solution electrophoresis with amplification of small mobility differences by helical flow 707(1995)87

Analysis of protein fractions by micropreparative capillary isoelectric focusing and matrix-assisted laser desorption time-of-flight mass spectrometry 716(1995)157

Quantification of the major bovine whey proteins using capillary zone electrophoresis 723(1996)371

Preparative membrane adsorber chromatography for the isolation of cow milk components 729(1996)87

Perfusion liquid chromatography of whey proteins 729(1996)99

**Lactones**

Determination of monomeric sugar and carboxylic acids by ion-exclusion chromatography 706(1995)361

High-performance liquid chromatographic–particle beam mass spectrometric analysis of sesquiterpene lactones with different carbon skeletons 727(1996)211

Analysis of oligo- and poly-N-acetylneuraminic acids and their lactones by capillary electrophoresis 741(1996)295

**Lactoyllactate**

Monitoring of the poly(D,L-lactic acid) degradation by-products by capillary zone electrophoresis 711(1995)323

**Lactulose**

Simple and sensitive multi-sugar-probe gut permeability test by high-performance liquid chromatography with fluorescence labelling 730(1996)99

**Lanthanides**

Determination of lanthanides and actinides in uranium materials by high-performance liquid chromatography with inductively coupled plasma mass spectrometric detection 739(1996)139

**Laudanosine**

Combined polymerized chiral micelle and  $\gamma$ -cyclodextrin for chiral separation in capillary electrophoresis 711(1995)297

**Lauric acid**

Simultaneous quantitation of lauric acid and ethyl laureate in *Sabal serrulata* by capillary gas chromatography and derivatisation with trimethyl sulphoniumhydroxide 719(1996)479

Estimate of gas chromatographic blanks 726(1996)133

**Lead**

Element-sensitive X-ray detection for capillary electrophoresis 727(1996)301

**Leather**

Determination of sulfide in the leather industry by capillary electrophoresis 740(1996)125

**Lecithins**

Analysis of phospholipids in lecithins 738(1996)25

**Lectin**

Development of electrophoretic conditions for the characterization of protein glycoforms by capillary electrophoresis–electrospray mass spectrometry 720(1996)409

**Leucine**

Postcolumn co-immobilized leucine dehydrogenase–NADH oxidase reactor for the determination of branched-chain amino acids by high-performance liquid chromatography with chemiluminescence detection 724(1996)354

**Leucine aminopeptidase**

Moving boundary electrophoretically mediated microanalysis 726(1996)193

Dynamic modeling of electrophoretically mediated microanalysis 732(1996)119

**Leukotrienes**

Analytical methods for the measurement of leukotrienes and other eicosanoids in biological samples from asthmatic subjects (Review) 725(1996)29

**Levothyroxine**

Identification of the thermal degradation products of G-triiodothyronine sodium (lithothyronine sodium) by reversed-phase high-performance liquid chromatography with photodiode-array UV and mass spectrometric detection 725(1996)287

Application of extraction disks in dissolution tests of clenbuterol and levothyroxine tablets by capillary electrophoresis 730(1996)313

**Lidocaine**

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

**Light Green SF Yellow**

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

**Lignans**

Isolation of anti-HIV-1 lignans from *Larrea tridentata* by counter-current chromatography 719(1996)353

Analysis of aryltetrahydronaphthalene lignans and their glucoside conjugates in podophyllin resin by high-performance liquid chromatography 722(1996)267

**Lignin**

High-performance size-exclusion chromatographic characterization of water-soluble polymeric substances produced by *Phanerochaete chrysosporium* from free and wheat cell wall bound 3,4-dichloroaniline 708(1995)273

On-line Curie-point pyrolysis–high-performance liquid chromatographic–mass spectrometric analysis of lignin polymers 736(1996)61

Size-exclusion chromatography of lignin- and carbohydrate-containing samples using alkaline eluents 737(1996)193

**Lignin dehydrogenase polymer**

Pyrolytic alkylation–gas chromatography–mass spectrometry of model polymers. Further insights into the mechanism and scope of the technique 750(1996)155

**Ligstroside**

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography–chemical ionization mass spectrometry 736(1996)195

**Limoid glucosides**

Micellar electrokinetic capillary chromatography of limonoid glucosides from citrus seeds 718(1995)187

**Limonene**

Study of aroma compound-natural polymer interactions by dynamic coupled column liquid chromatography 707(1995)181

**Limonoids**

Identification of nonvolatile components in lemon peel by high-performance liquid chromatography with confirmation by mass spectrometry and diode-array detection 718(1995)89

**Linoleic acid**

Distinction between enzymic and nonenzymic lipid peroxidation 743(1996)293

**Linolenic acids**

Stereospecific analysis of the major triacylglycerol species containing  $\gamma$ -linolenic acid in Evening Primrose oil and borage oil 704(1995)99

Distinction between enzymic and nonenzymic lipid peroxidation 743(1996)293

**Liothyronine**

Identification of the thermal degradation products of G-triiodothyronine sodium (liothyronine sodium) by reversed-phase high-performance liquid chromatography with photodiode-array UV and mass spectrometric detection 725(1996)287

**Lipase**

Hydrophobic interaction chromatography of *Chromobacterium viscosum* lipase 707(1995)137

Differences in the glycosylation of recombinant and native human milk bile salt-stimulated lipase revealed by peptide mapping 718(1995)53

Hydrophobic interaction chromatography of *Chromobacterium viscosum* lipase on polyethylene glycol immobilized on Sepharose 734(1996)213

**Lipid A**

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

**Lipids**

Quantitation of choline glycerophospholipids that contain carboxylate residues by fluorometric high-performance liquid chromatography 724(1996)131

A high-performance liquid chromatographic method for the analysis of lipids from lyophilized formulations 724(1996)343

Identification of the lipids and the ant attractant 1,2-dioleoylglycerol in the arils of *Commiphora guillaumini* Perr. (Burseraceae) by supercritical fluid chromatography-atmospheric pressure chemical ionisation mass spectrometry 727(1996)139

Enrichment of chlorinated fatty acids in fish lipids prior to analysis by capillary gas chromatography with electrolytic conductivity detection and mass spectrometry 731(1996)225

Postcolumn chemiluminescence, ultraviolet and evaporative light-scattering detectors in high-performance liquid chromatographic determination of triacylglycerol oxidation products 734(1996)221

Chromatographic resolution of partially perdeuterated diglucosyldiacylglycerols from *Acholeplasma laidlawii* 736(1996)83

Determination of glycolipids by Chromarod thin-layer chromatography with Iatroscan flame ionization detection 741(1996)91

Analysis of fatty acid mono- and diacylglycerol positional isomers by silver ion high-performance liquid chromatography 741(1996)135

Fat content for nutritional labeling by supercritical fluid extraction and an on-line lipase catalyzed reaction 750(1996)201

**Lipophilicity**

Solute effects on reversed-phase thin-layer chromatography 749(1996)201

**Lipopolysaccharides**

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

**Lipoprotein a**

Characterization of lipoprotein a by capillary zone electrophoresis 717(1995)33

**Lipoproteins**

Capillary electrophoresis, a rapid and sensitive method for routine analysis of apolipoprotein A-I in clinical samples 717(1995)25

Elution of lipoprotein fractions containing apolipoproteins E and A-I in size exclusion on Superose 6 columns is sensitive to mobile phase pH and ionic strength 718(1995)59

Screening and identification of familial defective apolipoprotein B-100 in clinical samples by capillary gel electrophoresis 744(1996)187

**Litracene**

Comparison of separation selectivity in aqueous and non-aqueous capillary electrophoresis 711(1995)313

**Lobaplatin**

Separation of platinum(II) anti-tumour drugs by micellar electrokinetic capillary chromatography 724(1996)317

**Loprazolam**

Separation and structural elucidation of the hydrolysis compounds of loprazolam 721(1996)123

**Lorazepam**

Suppression of chiral recognition of 3-hydroxy-1,4-benzodiazepines during micellar electrokinetic capillary chromatography with bile salts 704(1995)238

Bonded cellulose-derived high-performance liquid chromatography chiral stationary phases. I. Influence of the degree of fixation on selectivity 728(1996)407

**Lormetazepam**

Suppression of chiral recognition of 3-hydroxy-1,4-benzodiazepines during micellar electrokinetic capillary chromatography with bile salts 704(1995)238

**Luminol**

Indirect chemiluminescence detection of amino acids separated by capillary electrophoresis 736(1996)247

**Luteinizing hormone-releasing hormone**

Liquid chromatography studies on the enzymatic degradation of luteinizing hormone-releasing hormone analogues with off-line identification by mass spectrometry 729(1996)137

**Luteolin-7-glucoside**

Analysis of the components of *Lycopus europaeus* L. in body fluids during metabolism studies. Comparison of capillary electrophoresis and high-performance liquid chromatography 717(1995)261

**Lutetium**

Ion chromatographic determination of chelating ligands based on the postcolumn formation of ternary fluorescent complexes 739(1996)307

**LY231514**

Development and validation of a combined potency assay and enantiomeric purity method for a chiral pharmaceutical compound using capillary electrophoresis 745(1996)45

**Lysozyme**

Antibiotics as low-molecular-mass displacers in ion-exchange displacement chromatography 707(1995)57

Surface modification of microporous polyamide membranes with hydroxyethyl cellulose and their application as affinity membranes 715(1995)49

Simple two-step procedure for the preparation of highly active pure equine milk lysozyme 719(1996)327

Retention behaviour of proteins under conditions of column overload in hydrophobic interaction chromatography 729(1996)43

Solute retention of lysozyme in hydrophobic interaction perfusion chromatography 734(1996)205

**M****Mabuterol**

Gas and liquid chromatography coupled to tandem mass spectrometry for the multiresidue analysis of  $\beta$ -agonists in biological matrices 750(1996)43

 **$\alpha_2$ -Macroglobulin**

Studies of complexes between proteases, substrates and the protease inhibitor  $\alpha_2$ -macroglobulin using capillary electrophoresis with laser-induced fluorescence detection 716(1995)363

**Madecassic acid**

Determination of biologically active constituents in *Centella asiatica* 742(1996)127

**Madecassoside**

Determination of biologically active constituents in *Centella asiatica* 742(1996)127

**Mafenide acetate**

Ion-pair chromatographic method for the analysis of mafenide acetate 708(1995)83

**Magnesium**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Cation trace analysis of snow and firn samples from high-alpine sites by ion chromatography 706(1995)249

Migration behaviour of alkali and alkaline-earth metal ion-EDTA complexes and quantitative analysis of magnesium in real samples by capillary electrophoresis with indirect ultraviolet detection 707(1995)343

Non-suppressed ion chromatography of inorganic anions, magnesium and calcium ions using a pyromellitate eluent and its application in evaluating environmental water quality 731(1996)179

**Magnesium ascorbyl phosphate**

High-performance liquid chromatographic determination of ionic compounds in cosmetic emulsions: application to magnesium ascorbyl phosphate 705(1995)385

**Malathion**

Design and optimization of a novel type nitrogen-phosphorus detector for capillary gas chromatography 732(1996)51

**Maleic acid**

Salt effect on size-exclusion chromatography of partially sulfonated alternating copolymers of maleic acid and styrene in a polar solvent 704(1995)149

Simultaneous determination of chlorpheniramine and maleate by high-performance liquid chromatography using tetra-*n*-butylammonium phosphate as an ion-pair reagent 731(1996)346

**Maleic anhydride**

Determination of cholecalciferol and related substances by calcium phosphate hydroxyapatite and calcium phosphate fluoroapatite high-performance liquid chromatography 731(1996)153

**Maleic hydrazide**

Extraction of maleic hydrazide residues from potato crisps and their determination using high-performance liquid chromatography with UV and atmospheric pressure chemical ionisation mass spectrometric detection 750(1996)391

**Malic acid**

Use of ion chromatography for the measurement of organic acids in fruit juices 706(1995)395

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

**Malonate**

Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571

**Malondialdehyde**

Automated high-performance liquid chromatographic separation with spectrofluorometric detection of a malondialdehyde-thiobarbituric acid adduct in plasma 729(1996)207

**Maltodextrin**

Chiral analysis of basic drugs by oligosaccharide-mediated capillary electrophoresis 735(1996)283

**Maltoheptaose**

Analysis of the 9-fluorenylmethoxycarbonyl hydrazide labelling of neutral and sialic acid-containing oligosaccharides by reversed-phase high-performance liquid chromatography 728(1996)343

**Maltooligosaccharides**

Concentration dependence of the distribution coefficient of maltooligosaccharides on a cation-exchange resin 708(1995)177

Improvement of a method for chain-length distribution analysis of wheat amylopectin 732(1996)255

**Maltose**

Sensitive determination of sugars by capillary zone electrophoresis with indirect UV detection under highly alkaline conditions 716(1995)231

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

**Mandelic acid**

Retention behaviour of thorium(IV) and uranyl on a reversed-phase column with glycolate and mandelate as eluents 739(1996)151

Investigation of chiral resolution using displacement interactions with polymer networks in capillary affinity zone electrophoresis 745(1996)1

**Manganese**

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

High-performance liquid chromatography of the coordination isomers of triphenylphosphine-substituted homo- and hetero-bimetallic carbonyl complexes of manganese and rhenium 740(1996)231

**Mangiferin**

Determination of gentiopicroside, mangiferin, palmatine, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

**Mannan**

On-line quantitation of enzymatic mannan hydrolysates in small-volume bioreactors by microdialysis sampling and column liquid chromatography-integrated pulsed electrochemical detection 725(1996)165

 **$\beta$ -Mannanase**

On-line quantitation of enzymatic mannan hydrolysates in small-volume bioreactors by microdialysis sampling and column liquid chromatography-integrated pulsed electrochemical detection 725(1996)165

**Mannoses**

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

On-line quantitation of enzymatic mannan hydrolysates in small-volume bioreactors by microdialysis sampling and column liquid chromatography-integrated pulsed electrochemical detection 725(1996)165

**Maprotiline**

Comparison of separation selectivity in aqueous and non-aqueous capillary electrophoresis 711(1995)313

**MCM-41**

Comparison of an ordered mesoporous aluminosilicate, silica, alumina, titania and zirconia in normal-phase high-performance liquid chromatography 740(1996)1

**Mebazepam**

Suppression of chiral recognition of 3-hydroxy-1,4-benzodiazepines during micellar electrokinetic capillary chromatography with bile salts 704(1995)238

**Meclofenamic acid**

Determination of phase II drug metabolites in equine urine by micellar electrokinetic capillary chromatography 745(1996)155

**Mefenamin**

Stepwise binary gradient high-performance liquid chromatographic system for routine drug monitoring 728(1996)307

**Mefloquine**

Use of cyclodextrins in the capillary electrophoretic separation of *erythro*- and *threo*-mefloquine enantiomers 745(1996)17

**Membrane proteinases**

Unusual chromatographic behaviour and one-step purification of a novel membrane proteinase from *Bacillus cereus* 715(1995)247

**Membrane proteins**

Ultra-fast chiral separation of basic drugs by capillary electrophoresis 717(1995)229

**Methabenzthiazuron**

Liquid chromatographic determination of methabenzthiazuron in soil aqueous solutions with photodiode-array detection 733(1996)367

**Methacryloyl phosphoryl choline**

Development and application of radio-size-exclusion chromatography 727(1996)61

**Methamphetamine**

Enantiomeric separation of amphetamine related drugs by capillary zone electrophoresis using native and derivatized  $\beta$ -cyclodextrin as chiral additives 710(1995)339

Headspace sampling and gas chromatographic-mass spectrometric determination of amphetamine and methamphetamine in betel 715(1995)325

Enantiomeric separation of amphetamine and phenylephrine by cyclodextrin-mediated capillary zone electrophoresis 735(1996)295

**Methanes, halogenated**

Destruction of halogenated methanes by non-electron capture processes within an electron capture detector 742(1996)135

**Methanesulfonic acid**

Determination of alkyl sulfonic acids in pharmaceuticals by ion chromatography 724(1996)199

**Methanol**

Capillary zone electrophoresis in organic solvents: separation of anions in methanolic buffer solutions 716(1995)303

On-line monitoring of the catalytic conversion of methyl formate to methanol and carbon monoxide by gas chromatography 740(1996)65

Quantitative thin layer chromatography on cellulose 746(1996)261

**Methionine**

Ionophoretic technique for the determination of stability constants of metal-nitrilotriacetate-methionine mixed complexes 718(1995)454

**Methionine enkephalin**

High-sensitivity peptide mapping using packed-capillary liquid chromatography and electrospray ionization mass spectrometry 743(1996)99

**Methotrexate**

Ion-pair chromatography of methotrexate in a column-switching system using an alkyl-diol silica precolumn for direct injection of plasma 742(1996)113

**1-Methoxycarbonylindolizine-3,5-dicarbaldehyde**

Determination of amino acids by pre-column fluorescence derivatization with 1-methoxycarbonylindolizine-3,5-dicarbaldehyde 724(1996)169

 **$\alpha$ -Methoxyl- $\alpha$ -trifluoromethylphenylacetic acid**

Buffer effects in the desionoselective/ionoselective/duoselective separation selectivity model-assisted optimization of the capillary electrophoretic separation of enantiomers. I. Low-pH phosphate buffers 716(1995)197

**1-(6-Methoxy-2-naphthyl)ethyl isothiocyanate**

Chloroformates and isothiocyanates derived from 2-arylpropionic acids as chiral reagents: synthetic routes and chromatographic behaviour of the derivatives 725(1996)323

**2-(6-Methoxy-2-naphthyl)-1-propyl chloroformate**

Chloroformates and isothiocyanates derived from 2-arylpropionic acids as chiral reagents: synthetic routes and chromatographic behaviour of the derivatives 725(1996)323

**Methylamines**

Retention behavior of methylamines, ethylenediamine and N-methyl-substituted ethylenediamines on a cation-exchange resin having a polycarboxylic acid as the functional group 739(1996)327

***m*-Methylbenzoyl cellulose**

Supramolecular effects in the chiral discrimination of *meta*-methylbenzoyl cellulose in high-performance liquid chromatography 718(1995)257

**Methylbenzylamines**

Molecularly imprinted uniform-size polymer-based stationary phase for high-performance liquid chromatography 728(1996)139

**Methyl *tert*.-butyl ether**

Complementarity of purge-and-trap and head-space capillary gas chromatographic methods for determination of methyl-*tert*.-butyl ether in water 726(1996)153

**Methyl chloropropionates**

Preparative gas chromatographic separation of the enantiomers of methyl 2-chloropropionate using a cyclodextrin-based stationary phase 702(1995)251

Determination of the gas-liquid partition isotherms of the enantiomers of methyl 2-chloropropionate on trichloroacetyl pentyl  $\beta$ -cyclodextrin using the elution by characteristic points method 734(1996)155

Use of the equilibrium-dispersive model of nonlinear gas chromatography for the modelling of the elution band profiles in the preparative-scale gas chromatographic separation of enantiomers 734(1996)289

**Methylcyclopentadienylmanganese tricarbonyl**

Correlation chromatograms from a triple-detector system 737(1996)223

**Methyldopa**

Determination of  $\alpha$ -methyldopa in human plasma by validated high-performance liquid chromatography with fluorescence detection 730(1996)125

**Methylene blue**

Application of an avalanche photodiode in a near-Geiger operation as a fluorescence detector for capillary electrophoresis 744(1996)31

**Methylenedioxyamphetamines**

Separation and identification of designer drugs with capillary electrophoresis and on-line connection with ionspray mass spectrometry 735(1996)221

**N-Methylformamide**

Chiral separation of dansyl-amino acids in a nonaqueous medium by capillary electrophoresis 737(1996)263

**Methyl formate**

On-line monitoring of the catalytic conversion of methyl formate to methanol and carbon monoxide by gas chromatography 740(1996)65

**Methylglucamine**

Capillary zone electrophoresis of serum proteins: study of separation variables 709(1995)99

**3-O-Methyl-D-glucose**

Simple and sensitive multi-sugar-probe gut permeability test by high-performance liquid chromatography with fluorescence labelling 730(1996)99

 **$\alpha$ -Methylglucoside**

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

**Methylmercury**

Capillary electrophoresis of methylmercury with injection by sample stacking 730(1996)345

Optimization of supercritical fluid extraction-gas chromatography of methylmercury in marine samples 750(1996)191

**3'-O-Methylnordihydroguaiaretic acid**

Isolation of anti-HIV-1 lignans from *Larrea tridentata* by counter-current chromatography 719(1996)353

 **$\beta$ -Methylphenylalanine isomers**

Chromatographic behaviour of opioid peptides containing  $\beta$ -methylphenylalanine isomers 705(1995)267

**Methyl red**

Colour-indication suppressor for anion chromatography 706(1995)55

**Methylthiouracil**

Rapid and high-performance analysis of thyrostatic drug residues in urine using gas chromatography–mass spectrometry 750(1996)127

**Methyl-*p*-tolyl sulfide/sulfoxide**

Rapid high-performance liquid chromatographic method for the determination of peroxyacetic acid 730(1996)203

**Methyl yellow**

Colour-indication suppressor for anion chromatography 706(1995)55

**Metolachlor**

Solid-phase microextraction of the herbicide metolachlor in runoff and tile-drainage water samples 725(1996)129

**Metomidate**

Comparative capillary electrophoretic and nuclear magnetic resonance studies of the chiral recognition of racemic metomidate with cyclodextrin hosts 732(1996)133

**Mexiletine**

Mechanistic investigation into the enantioselective separation of mexiletine and related compounds, chromatographed on an amylose tris(3,5-dimethylphenylcarbamate) chiral stationary phase 741(1996)205

**Mianserine**

Enantioseparation of mianserine analogues using capillary electrophoresis with neutral and charged cyclodextrin buffer modifiers. <sup>13</sup>C NMR study of the chiral recognition mechanism 717(1995)245

**Microcystins**

Mass spectral analyses of microcystins from toxic cyanobacteria using on-line chromatographic and electrophoretic separations 712(1995)253

Laboratory-scale purification of microcystins using flash chromatography and reversed-phase high-performance liquid chromatography 734(1996)163

Automated purification of microcystins 734(1996)175

Separation of toxic peptides (microcystins) in capillary electrophoresis, with the aid of organic mobile phase modifiers 749(1996)271

 **$\alpha_1$ -Microglobulin**

Spectroscopic characterization by photodiode array detection of human urinary and amniotic protein HC subpopulations fractionated by anion-exchange and size-exclusion high-performance liquid chromatography 719(1996)149

**Micropollutants**

Trace level analysis of micropollutants in aqueous samples using gas chromatography with on-line sample enrichment and large volume injection 703(1995)277

**Mitomycin C**

Simultaneous high-performance liquid chromatographic determination of carboplatin, epirubicin hydrochloride and mitomycin C in a Lipiodol emulsion 726(1996)241

**MK-462**

Quantitation of the 5HT<sub>1D</sub> agonists MK-462 and sumatriptan in plasma by liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 726(1996)115

**Molybdenum**

Simultaneous determination of vanadium and molybdenum as N-benzoyl-N-phenylhydroxamate complexes by combining solvent extraction and liquid chromatography 730(1996)241

**Moniliformin**

Determination of the mycotoxin moniliformin in cereals by high-performance liquid chromatography and fluorescence detection 732(1996)291

**Monoacylglycerols**

Highly sensitive high-performance liquid chromatographic method to discriminate enantiomeric monoacylglycerols based on fluorescent chiral derivatization with (*S*)-(+)-2-*tert*-butyl-2-methyl-1,3-benzodioxole-4-carboxylic acid 709(1995)375

Analysis of fatty acid mono- and diacylglycerol positional isomers by silver ion high-performance liquid chromatography 741(1996)135

**Monoclonal antibodies**

see also Antibodies

Purification of monoclonal antibodies on dextran-coated silica support grafted by thiophilic ligand 711(1995)151

Quantitation of monoclonal antibodies by perfusion chromatography–immunodetection 715(1995)241

Analysis of monoclonal antibody and immunoconjugate digests by capillary electrophoresis and capillary liquid chromatography 735(1995)357

Rapid purification and monitoring of immunoglobulin M from ascites by perfusion ion-exchange chromatography 743(1996)163

Purification of the monoclonal heparin antibody H-1.18 744(1996)215

Immuno-capillary electrophoresis for the characterization of a monoclonal antibody against DNA 744(1996)285

Capillary isoelectric focusing and sodium dodecyl sulfate–capillary gel electrophoresis of recombinant humanized monoclonal antibody HER2 744(1996)295

**Monodesamidoinsulin**

Separation of B-3 monodesamidoinsulin from human insulin by high-performance liquid chromatography under alkaline conditions 721(1996)89

**Monodeuteriophenol**

Studies of hydrogen/deuterium exchange of monodeuteriophenol in fused-silica capillary columns using gas chromatography–mass spectrometry 719(1996)474

**Monosaccharides**

see also Saccharides

Determination of marine monosaccharides by high-pH anion-exchange chromatography with pulsed amperometric detection 718(1995)283

High-performance liquid chromatographic separation of carbohydrates on graphitized carbon columns 720(1996)119

On-column isomerization of sugars during high-performance liquid chromatography: analysis of the elution profile 720(1996)167

Identification of monosaccharides and related compounds by gas chromatography–Fourier transform infrared spectroscopy of their trimethylsilyl ethers 721(1996)165

Efficient capillary zone electrophoretic separation of wood-derived neutral and acidic mono- and oligosaccharides 738(1996)129

**Monostearin**

Rapid, quantitative determination of polar compounds in fats and oils by solid-phase extraction and size-exclusion chromatography using monostearin as internal standard 749(1996)55

**Monoterpenes**

Improved method for computing temperature programmed retention indices from isothermal data 725(1996)343

**Monoterpenoids**

Systematic analysis of glucoiridoids from *Penstemon serrulatus* Menz. by high-performance liquid chromatography with pre-column solid-phase extraction 725(1996)177

**Morphine**

Determination of morphine and related alkaloids in crude morphine, poppy straw and opium preparations by micellar electrokinetic capillary chromatography 718(1995)217

Determination of morphine, morphine-3-glucuronide and morphine-6-glucuronide in human serum by solid-phase extraction and liquid chromatography–mass spectrometry with electrospray ionisation 729(1996)279

Determination of morphine analogues, caffeine and amphetamine in biological fluids by capillary electrophoresis with the marker technique 735(1996)439

Determination of phase II drug metabolites in equine urine by micellar electrokinetic capillary chromatography 745(1996)155

**Morphine analogues**

Separation of basic drugs with non-aqueous capillary electrophoresis 738(1996)141

**Morphine glucuronide**

Determination of morphine, morphine-3-glucuronide and morphine-6-glucuronide in human serum by solid-phase extraction and liquid chromatography–mass spectrometry with electrospray ionisation 729(1996)279

**Morpholine**

Separation of basic proteins in free solution capillary electrophoresis: effect of additive, temperature and voltage 742(1996)257

**Mubuterol**

Rapid analysis of  $\beta$ -agonists in urine by thermospray tandem mass spectrometry 712(1995)67

**Mupirocin**

High-performance liquid chromatographic analysis of mupirocin in polyethylene glycols 400 and 3350 using dual ultraviolet and evaporative light scattering detection 732(1996)399

**Muramic acid**

Recent progress in the analysis of sugar monomers from complex matrices using chromatography in conjunction with mass spectrometry or stand-alone tandem mass spectrometry 720(1996)51

New, stable halogenated derivative suitable for the gas chromatographic determination of muramic acid 726(1996)246

**Muricholic acids**

Capillary gas–liquid chromatography of 6-hydroxylated bile acids 704(1995)228

**Muscarinic ligands**

Chiral separation of muscarinic antagonists by capillary zone electrophoresis with cyclodextrin additives 741(1996)287

**Mycotoxins**

see also Toxins

Micellar electrokinetic capillary chromatography of fungal metabolites. Resolution optimized by experimental design 721(1996)337

Simple and sensitive high-performance liquid chromatography–fluorescence method for the determination of citrinin. Application to the analysis of fungal cultures and cheese extracts 723(1996)69

Applications of liquid chromatography–mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

Simultaneous high-performance liquid chromatographic determination of ochratoxin A and citrinin in cheese by time-resolved luminescence using terbium 727(1996)185

Rapid reversed-phase liquid chromatographic determination of patulin in apple juice 730(1996)53

Simultaneous high-performance liquid chromatographic determination of visoltricin, acuminatopyrone and chlamydosporols in *Fusarium* cultures on maize 730(1996)69

Determination of alternariol and alternariol methyl ether in apple juice using solid-phase extraction and high-performance liquid chromatography 731(1996)109

Determination of the mycotoxin moniliformin in cereals by high-performance liquid chromatography and fluorescence detection 732(1996)291

Determination of the *Fusarium* mycotoxin beauvericin at  $\mu\text{g}/\text{kg}$  levels in corn by high-performance liquid chromatography with diode-array detection 746(1996)233

#### **Myoglobin**

Pre-column derivatization of proteins to enhance detection sensitivity for sodium dodecyl sulfate non-gel sieving capillary electrophoresis 715(1995)167

Analysis of protein fractions by micropreparative capillary isoelectric focusing and matrix-assisted laser desorption time-of-flight mass spectrometry 716(1995)157

Multiple-plug binding assays using affinity capillary electrophoresis 727(1996)291

Automated instrumentation for miniaturized displacement electrophoresis with on-column photometric detection 730(1996)261

High-sensitivity peptide mapping using packed-capillary liquid chromatography and electrospray ionization mass spectrometry 743(1996)99

Separation of myoglobin molecular mass markers using non-gel sieving capillary electrophoresis 744(1996)249

#### **Myosmine**

Evaluation of micellar electrokinetic capillary chromatography for the analysis of selected tobacco alkaloids 746(1996)131

#### **Myo-inositol phosphate**

Enantioseparation in the synthesis of *myo*-inositol phosphates by high-performance liquid chromatography using a  $\beta$ -cyclodextrin-bonded column 749(1996)25

## N

#### **Naphthalenes**

Double-chain surfactants with two sulfonate groups as micelle-forming reagents in micellar electrokinetic chromatography of naphthalene derivatives 715(1995)135

Polymer-supported pseudo-stationary phase for electrokinetic chromatography. Electrokinetic chromatography in a full range of methanol-water mixtures with alkylated starburst dendrimers 716(1995)57

Determination of critical micelle concentration by capillary electrophoresis. Theoretical approach and validation 718(1995)167

Examination of the origin, variation, and proper use of expressions for the estimation of association constants by capillary electrophoresis 721(1996)173

Intra-particle sorption rate and liquid chromatographic bandbroadening in porous polymer packings. II. Slow sorption rate on a microparticle packing 726(1996)25

Effects of high-frequency electromagnetic treatment on the solid-phase extraction of aqueous benzene, naphthalene and phenol 731(1996)65

On-line preconcentration and separation of neutral and charged aromatic compounds by ion interaction chromatography 739(1996)63

Determination of critical micelle concentration by capillary electrophoresis 743(1996)307

Coupling of high-performance liquid chromatography with Raman spectrometry 743(1996)323

#### **Naphthalenesulfonic acid, formaldehyde polymer**

Capillary electrophoretic analysis of the sodium salt of naphthalenesulfonic acid, formaldehyde polymer in waste water using a polyethylene glycol-coated capillary 717(1995)363

#### **Naphthalenesulphonates**

Methods of analysis of polar aromatic sulfonates from aquatic environments 733(1996)473

#### **Naphthols**

Peak splitting observed during capillary electrophoresis of  $\alpha$ - and  $\beta$ -naphthols in borate buffer 745(1996)225

**Naphthoquinones**

High-performance liquid chromatographic separation of some naturally occurring naphthoquinones and anthraquinones 723(1996)206

**Naphthoquinone sulfonate**

Chromatographic determination of amino acids by pre-column derivatization using 1,2-naphthoquinone-4-sulfonate as reagent 740(1996)21

**1-Naphthylamine**

Micellar electrokinetic chromatography–mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69

**Naproxen**

Modification of a tunable UV–visible capillary electrophoresis detector for simultaneous absorbance and fluorescence detection: profiling of body fluids for drugs and endogenous compounds 709(1995)147

Chloroformates and isothiocyanates derived from 2-arylpropionic acids as chiral reagents: synthetic routes and chromatographic behaviour of the derivatives 725(1996)323

Bonded cellulose-derived high-performance liquid chromatography chiral stationary phases. I. Influence of the degree of fixation on selectivity 728(1996)407

Improved chiral stationary phase derived from (*S*)-naproxen for the liquid chromatographic resolution of enantiomers 732(1996)209

**Natural products**

Planar chromatography coupled with spectroscopic techniques 703(1995)613

**Nebivolol**

Location of the hydroxyl functions in hydroxylated metabolites of nebivolol in different animal species and human subjects as determined by on-line high-performance liquid chromatography–diode-array detection 729(1996)341

**Neomycin sulfate**

Determination of neomycin sulfate by liquid chromatography with pulsed electrochemical detection 741(1996)233

**Neu differentiation factor**

Detection of neu differentiation factor with a biospecific affinity sensor during chromatography 705(1995)163

**Neuraminic acid**

Analysis of oligo- and poly-*N*-acetylneuraminic acids and their lactones by capillary electrophoresis 741(1996)295

**Neuraminidase**

Analysis of the glycoforms of human recombinant factor VIIa by capillary electrophoresis and high-performance liquid chromatography 718(1995)195

**Neuraminylactose**

Analysis of the 9-fluorenylmethoxycarbonyl hydrazide labelling of neutral and sialic acid-containing oligosaccharides by reversed-phase high-performance liquid chromatography 728(1996)343

**Neuropeptide Y**

Investigation of crudes of synthesis of neuropeptide Y by high-performance liquid chromatography–electrospray mass spectrometry 715(1995)227

**Neurotransmitters**

Reference values of neuroactive amino acids in the cerebrospinal fluid by high-performance liquid chromatography with electrochemical and fluorescence detection 729(1996)181

**New Coccine**

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

**Niacin derivatives**

Migration behavior of niacin derivatives in capillary electrophoresis 718(1995)233

**Nickel**

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

Simultaneous solvent extraction and high-performance liquid chromatographic determination of uranium, iron, nickel and copper in mineral ore samples and phosphate rock residues using *N,N'*-ethylenebis(salicylaldehyde) as complexing reagent 740(1996)296

**Nickel chelates**

Nickel(II) chelates of some tetradentate Schiff bases as stationary phases for gas chromatography 715(1995)366

**Nicosamide**

Simple, robust and accurate high-performance liquid chromatography method for the analysis of several anthelmintics in veterinary formulations 729(1996)267

**Nicotine**

Evaluation of micellar electrokinetic capillary chromatography for the analysis of selected tobacco alkaloids 746(1996)131

Liquid chromatographic method for the determination of nicotine in pharmaceutical formulations 749(1996)81

**Nicotinic acid**

High-performance liquid chromatographic and capillary electrophoretic determination of free nicotinic acid in human plasma and separation of its metabolites by capillary electrophoresis 709(1995)203

Migration behavior of niacin derivatives in capillary electrophoresis 718(1995)233

**Nimodipine**

Enantiospecific determination of nimodipine in human plasma by liquid chromatography–tandem mass spectrometry 712(1995)45

**Nisin**

Studies of the degradation products of nisin, a peptide antibiotic, using capillary electrophoresis with off-line mass spectrometry 735(1996)375

**Nitramines**

High-performance liquid chromatographic analysis with electrochemical detection for residues of explosives in water samples around a former ammunition plant 730(1996)161

Analysis of nitramine and nitroaromatic explosives by capillary electrophoresis 745(1996)233

**Nitrate**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Evaluation of 1,2-diaminocyclohexanetetraacetic acid as eluent in the determination of inorganic anions and cations by ion chromatography 706(1995)115

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Determinations of trace anions in hydrogen peroxide 706(1995)191

Determination of nitrate, phosphate and organically bound phosphorus in coral skeletons by ion chromatography 706(1995)209

Control of errors in anion chromatography applied to environmental research 706(1995)229

Ion chromatographic determination of nutrients in sea water 706(1995)277

Nitric oxide in biological fluids: analysis of nitrite and nitrate by high-performance ion chromatography 706(1995)437

Determination of nitrate and nitrite in vegetables by capillary electrophoresis with indirect detection 706(1995)479

Determination of the petroleum tracers nitrate and thiocyanate in subterranean waters by capillary ion electrophoresis 715(1995)376

Determination of thiocyanate, iodide, nitrate and nitrite in biological samples by micellar electrokinetic capillary chromatography 717(1995)409

Sensitive and selective method for direct determination of nitrite and nitrate by high-performance capillary electrophoresis 719(1996)427

High-sensitivity conductivity detection in non-suppressed ion chromatography using sulfoisophthalic acid as eluent 727(1996)311

Influence of the sample matrix composition on the accuracy of the ion chromatographic determination of anions 739(1996)35

**Nitric oxide**

Nitric oxide in biological fluids: analysis of nitrite and nitrate by high-performance ion chromatography 706(1995)437

**Nitriles**

Gas chromatography of Titan's atmosphere. VI. Analysis of low-molecular-mass hydrocarbons and nitriles with BPX5 capillary columns 708(1995)283

Chromatographic and related spot tests for the detection of water pollutants 733(1996)5

Gas chromatography of Titan's atmosphere 746(1996)63

**Nitrilotriacetate**

Ionophoretic technique for the determination of stability constants of metal–nitrilotriacetate–methionine mixed complexes 718(1995)454

**Nitrilotriacetic acid**

Determination of nitrilotriacetic, ethylenediaminetetraacetic and diethylenetriaminepentaacetic acids in sewage treatment plant and paper mill effluents 738(1996)91

**Nitrilotriacetic acid degradation products**

Capillary electrophoretic determination of degradation products of nitrilotriacetic acid used as a complexing agent in a desulphuration process 717(1995)351

**Nitrite**

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Determination of anions in human and animal tear fluid and blood serum by ion chromatography 706(1995)183

Determination of nitrite levels in refrigerated and frozen spinach by ion chromatography 706(1995)221

Nitric oxide in biological fluids: analysis of nitrite and nitrate by high-performance ion chromatography 706(1995)437

Determination of nitrate and nitrite in vegetables by capillary electrophoresis with indirect detection 706(1995)479

Galvanic decoupling of a postcolumn amperometric detector in capillary electrophoresis 709(1995)69

Determination of thiocyanate, iodide, nitrate and nitrite in biological samples by micellar electrokinetic capillary chromatography 717(1995)409

Sensitive and selective method for direct determination of nitrite and nitrate by high-performance capillary electrophoresis 719(1996)427

Influence of the sample matrix composition on the accuracy of the ion chromatographic determination of anions 739(1996)35

#### **Nitroanilines**

Examination of the origin, variation, and proper use of expressions for the estimation of association constants by capillary electrophoresis 721(1996)173

Use of porous polymers in off-line preconcentration of nitrobenzenes and their reduction products from water 733(1996)491

Analysis of chloro- and nitroanilines and -benzenes in soils by headspace solid-phase microextraction 746(1996)71

#### **Nitroaromatic compounds**

High-performance liquid chromatographic analysis with electrochemical detection for residues of explosives in water samples around a former ammunition plant 730(1996)161

Comparison of the extraction of phenolic and nitroaromatic pollutants using supercritical and enhanced-fluidity liquid methanol-CO<sub>2</sub> mixtures 737(1996)233

#### **Nitroaromatics**

Analysis of nitramine and nitroaromatic explosives by capillary electrophoresis 745(1996)233

#### **Nitrobenzenes**

Oxidative decomposition of organic water pollutants with UV-activated hydrogen peroxide. Determination of anionic products by ion chromatography 706(1995)253

Use of porous polymers in off-line preconcentration of nitrobenzenes and their reduction products from water 733(1996)491

Analysis of chloro- and nitroanilines and -benzenes in soils by headspace solid-phase microextraction 746(1996)71

#### **Nitrobenzoic acids**

Oxidative decomposition of organic water pollutants with UV-activated hydrogen peroxide. Determination of anionic products by ion chromatography 706(1995)253

Direct determination of 4-nitrobenzoyl chloride by high-performance liquid chromatography based on silanophilic interaction 710(1995)347

Polyethylene glycol monomethyl ether sulfate-based background electrolytes in capillary electrophoresis 744(1996)75

#### **Nitrobenzo[a]pyrene**

Separation of <sup>32</sup>P-labeled 3',5'-bisphosphate nucleotides of polycyclic aromatic hydrocarbon *anti*-diol-epoxides and derivatives 710(1995)149

#### **4-Nitrobenzoyl chloride**

Direct determination of 4-nitrobenzoyl chloride by high-performance liquid chromatography based on silanophilic interaction 710(1995)347

#### **Nitro compounds**

Capillary electrophoresis methods development and sensitivity enhancement strategies for the separation of industrial and environmental chemicals 744(1996)123

#### **Nitrofurantoin**

Sensitive determination of nitrofurantoin in human plasma and urine by high-performance liquid chromatography 729(1996)251

#### **Nitrogen-containing compounds**

Optimization of electron-capture detector when using packed-column supercritical fluid chromatography with modified carbon dioxide 723(1996)361

#### **Nitrogen oxides**

Ion chromatographic determination of nitrogen monoxide and nitrogen dioxide after collection in absorption bottles 739(1996)301

#### **Nitroglycerin**

Analysis of nitramine and nitroaromatic explosives by capillary electrophoresis 745(1996)233

#### **Nitroimidazoles**

High-performance thin-layer chromatographic method for the fluorescence detection of three nitroimidazole residues in pork and poultry tissue 737(1996)343

#### **2-Nitro-1-naphthol**

Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41

#### ***o*-Nitrophenol**

Improved reproducibility in capillary electrophoresis through the use of mobility and migration time ratios 735(1996)209

Examination of the origin, variation, and proper use of expressions for the estimation of association constants by capillary electrophoresis 721(1996)173

High-performance liquid chromatographic analysis with electrochemical detection for residues of explosives in water samples around a former ammunition plant 730(1996)161

Direct on-column derivatisation in gas chromatography 738(1996)43

Direct on-column derivatisation in gas chromatography 738(1996)57

Separation of positional and structural isomers by cyclodextrin-mediated capillary zone electrophoresis 745(1996)9

#### ***p*-Nitrophenyl- $\alpha$ -D-galactopyranoside**

Optimization of hapten-protein conjugation by high-performance capillary electrophoresis 717(1995)75

#### **Nitro-polynuclear aromatic hydrocarbons**

Application of chromatographic studies of air pollution in China 710(1995)21

#### **Nitrosamines**

Selective determination of volatile N-nitrosamines by derivatization with diethyl chlorothiophosphate and gas chromatography with flame photometric detection 723(1996)93

Analysis of N-nitrosamines by high-performance liquid chromatography with post-column photohydrolysis and colorimetric detection 727(1996)83

Derivatization reactions for the determination of amines by gas chromatography and their applications in environmental analysis 733(1996)19

#### **N-Nitrosodiethanolamine**

Determination of N-nitrosodiethanolamine as nitrite in ethanolamine derivative raw materials by high-performance liquid chromatography with fluorescence detection after alkaline denitrosation 721(1996)75

#### **N-Nitrosodimethylamine**

Determination of N-nitrosodimethylamine in beer by gas chromatography-stable isotope dilution chemical ionization mass spectrometry 708(1995)303

#### **Nitrotoluenes**

Optimization of resolution in micellar electrokinetic chromatography via computer-aided simultaneous variation of concentrations of sodium dodecyl sulfate and urea as modifier 716(1995)81

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

Feasibility of supercritical fluid chromatography-chemiluminescent nitrogen detection with open tubular columns 734(1996)303

#### **Nitroxyls**

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

#### **Non-ionic surfactants**

Polar organic pollutants in the Elbe river. Liquid chromatographic-mass spectrometric and flow-injection analysis-mass spectrometric analyses demonstrating changes in quality and concentration during the unification process in Germany 712(1995)123

#### **Non-steroidal anti-inflammatory drugs**

Detection of non-steroidal anti-inflammatory drugs in equine plasma and urine by gas chromatography-mass spectrometry 719(1996)251

Determination of phase II drug metabolites in equine urine by micellar electrokinetic capillary chromatography 745(1996)155

#### **Nonylphenol**

Separation of structural homologues of alkylphenols and isomers of 4-nonylphenol by cyclodextrin-modified micellar electrokinetic chromatography 749(1996)227

#### **Nonylphenol ethoxylates**

Polar organic pollutants in the Elbe river. Liquid chromatographic-mass spectrometric and flow-injection analysis-mass spectrometric analyses demonstrating changes in quality and concentration during the unification process in Germany 712(1995)123

Separation of broadly distributed nonylphenol ethoxylates and determination of ethylene oxide oligomers in textile lubricants and emulsions by high-performance liquid chromatography 731(1996)161

#### **Nonylphenol polyethoxylates**

Chromatographic determination of non-ionic aliphatic surfactants of the alcohol polyethoxylate type in the environment (Review) 733(1996)193

#### **Nonylphenylethylene oxide oligomers**

Reversed-phase chromatographic study of the interaction of non-ionic surfactants with sodium dodecyl sulfate 722(1996)33

#### **Norbixins**

High-performance liquid chromatographic separation of carminic acid,  $\alpha$ - and  $\beta$ -bixin, and  $\alpha$ - and  $\beta$ -norbixin, and the determination of carminic acid in foods 732(1996)394

#### **Norepinephrine**

Study of a new solid carbon paste tyrosinase-modified amperometric biosensor for the determination of catecholamines by high-performance liquid chromatography 727(1996)47

Hydrolytically stable amino-silica glass coating material for manipulation of the electroosmotic flow in capillary electrophoresis 744(1996)17

#### **Norethandrolone**

Comparison of the possibilities of gas chromatography-mass spectrometry and tandem mass spectrometry systems for the analysis of anabolics in biological material 750(1996)105

#### **Norethisterone acetate**

Quantitative determination of norethisterone acetate in human plasma by capillary gas chromatography with mass-selective detection 750(1996)75

**Norharmaline**

Integrated derivatization–chemiluminescence detection system for the determination of  $\beta$ -carboline alkaloids by high-performance liquid chromatography 749(1996)73

**Norleucine**

Isocratic high-performance liquid chromatographic determination of tryptophan in infant formulas 721(1996)83

**Nornicotine**

Evaluation of micellar electrokinetic capillary chromatography for the analysis of selected tobacco alkaloids 746(1996)131

**Norpseudoephedrine**

Fluorimetric method of analysis for D-norpseudoephedrine hydrochloride, glycine and L-glutamic acid by reversed-phase high-performance liquid chromatography 729(1996)287

**Norverapamil**

Chiral separation of verapamil and related compounds using micellar electrokinetic capillary chromatography with mixed micelles of bile salt and polyoxyethylene ethers 723(1996)179

Automated determination of verapamil and norverapamil in human plasma with on-line coupling of dialysis to high-performance liquid chromatography and fluorometric detection 750(1996)351

**Nuclease**

Capillary electrophoresis of *S. nuclease* mutants 705(1995)135

**Nucleic acid bases**

Separation and determination of amino acids, creatinine, bioactive amines and nucleic acid bases by dual-mode gradient ion-pair chromatography 739(1996)333

**Nucleosides**

New stationary phases for the high-performance liquid chromatographic separation of nucleosides and cyclic nucleotides 728(1996)201

Effect of the eluent pH on the thermospray molecular ion intensity of nucleosides 734(1996)271

**Nucleotides**

see also Special Issue Index

Separation of  $^{32}\text{P}$ -labeled 3',5'-bisphosphate nucleotides of polycyclic aromatic hydrocarbon *anti*-diol-epoxides and derivatives 710(1995)149

Determination of cytidine 5'-monophospho-N-acetylneuraminic acid pool size in cell culture scale using high-performance anion-exchange chromatography with pulsed amperometric detection 727(1996)223

Sample preparation for the determination of purine nucleotide analogues in tissues 729(1996)197

Separation of twenty isomers of ribonucleotides and deoxyribonucleotides by reversed-phase ion-pairing high-performance liquid chromatography 732(1996)271

Poly(ethylene–propylene glycol)-modified fused-silica columns for capillary electrophoresis using epoxy resin as intermediate coating 741(1996)115

Capillary electrophoresis of oligonucleotides using a replaceable sieving buffer with low viscosity-grade hydroxyethyl cellulose 742(1996)267

Analysis of the reaction products of N-(O,O-diisopropyl)phosphorylthreonine with uridine by capillary zone electrophoresis–mass spectrometry 745(1996)263

**Nucleotides, cyclic**

New stationary phases for the high-performance liquid chromatographic separation of nucleosides and cyclic nucleotides 728(1996)201

**O****Ochratoxin A**

Simultaneous high-performance liquid chromatographic determination of ochratoxin A and citrinin in cheese by time-resolved luminescence using terbium 727(1996)185

**Octadecane**

Design and optimization of a novel type nitrogen–phosphorus detector for capillary gas chromatography 732(1996)51

**Octaoxyethylenedodecanol**

Micellar electrokinetic chromatography–mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69

**Ofloxacin**

Investigation of enantioselective separation of quinolonecarboxylic acids by capillary zone electrophoresis using vancomycin as a chiral selector 736(1996)303

**Oils, vegetable**

Gel permeation chromatographic method for monitoring the transesterification reaction in a two-step chemoenzymatic synthesis of urethane oil based on vegetable oils 718(1995)299

**Okadaic acid**

Liquid chromatographic determination of okadaic acid and dinophysistoxin-1 in shellfish after derivatization with 9-chloromethylanthracene 721(1996)359

Fluorimetric determination of diarrhetic shellfish toxins in scallops and mussels by high-performance liquid chromatography 729(1996)381

Automatic high-performance liquid chromatographic method for the determination of diarrhetic shellfish poison 729(1996)387

#### Olefins

Chemically bonded chelates as selective complexing sorbents for gas chromatography. IV. Silica surfaces modified with Co(II) and Ni(II) complexes 723(1996)313

#### Oleuropeins

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography–chemical ionization mass spectrometry 736(1996)195

#### Oligoalanines

Self-consistent framework for standardising mobilities in free solution capillary electrophoresis: applications to oligoglycines and oligoalanines 741(1996)99

#### Oligodeoxyribonucleotides

Fractals for multicyclic synthesis conditions of biopolymers 739(1996)431

Base composition analysis of phosphorothioate oligomers by capillary gel electrophoresis 744(1996)341

#### Oligoethylene glycol nonylphenyl ethers

Chromatographic behaviour of oligoethylene glycol nonylphenyl ether anionic surfactants in normal-phase high-performance liquid chromatography 736(1996)131

#### Oligoglycines

Self-consistent framework for standardising mobilities in free solution capillary electrophoresis: applications to oligoglycines and oligoalanines 741(1996)99

Perfluorinated acid alternatives to trifluoroacetic acid for reversed-phase high-performance liquid chromatography 746(1996)277

#### Oligomers

Two-stage resolution of mixtures by supercritical fluid chromatography 722(1996)317

#### Oligonucleotides

Efficiency of chemical oligonucleotide synthesis evaluated by ion-exchange high-performance liquid chromatography 706(1995)405

Stability measurements of antisense oligonucleotides by capillary gel electrophoresis 709(1995)181

Salt-induced immobilizations of DNA oligonucleotides on an epoxide-activated high-performance liquid chromatographic affinity support 726(1996)77

Analysis of ligase chain reaction products amplified in a silicon–glass chip using capillary electrophoresis 732(1996)151

Analysis of modified oligonucleotides by capillary electrophoresis in a polyvinylpyrrolidone matrix coupled with electrospray mass spectrometry 732(1996)159

Capillary gel electrophoresis and antisense therapeutics (Review) 735(1996)191

Fractals for multicyclic synthesis conditions of biopolymers 739(1996)431

Capillary electrophoresis of oligonucleotides using a replaceable sieving buffer with low viscosity-grade hydroxyethyl cellulose 742(1996)267

Oligonucleotide analysis by capillary polymer sieving electrophoresis using acryloylaminoethoxyethanol-coated capillaries 744(1996)347

#### Oligophosphates

Analysis of isoprenoid phosphates and oligophosphates by capillary zone electrophoresis 737(1996)325

#### Oligoribonucleotides

Fractals for multicyclic synthesis conditions of biopolymers 739(1996)431

#### Oligosaccharides

see also Saccharides

Purification of preparative quantities of group B *Streptococcus* type III oligosaccharides 705(1995)363

Contribution of high-performance liquid chromatographic analysis of carbohydrates to authenticity testing of honey 706(1995)353

Concentration dependence of the distribution coefficient of maltooligosaccharides on a cation-exchange resin 708(1995)177

Separation and detection of 4-hexadecylaniline maltooligosaccharide derivatives with packed capillary liquid chromatography–frit fast atom bombardment–mass spectrometry 712(1995)149

Analysis by capillary electrophoresis–laser-induced fluorescence detection of oligosaccharides produced from enzyme reactions 716(1995)215

Separation of 8-aminonaphthalene-1,3,6-trisulfonic acid-labelled neutral and sialylated N-linked complex oligosaccharides by capillary electrophoresis 716(1995)241

Analysis of the glycoforms of human recombinant factor VIIa by capillary electrophoresis and high-performance liquid chromatography 718(1995)195

Determination of  $\beta$ -(1–3),(1–4)-D-glucans in barley by reversed-phase high-performance liquid chromatography 718(1995)291

- Improved method for the analysis of  $\alpha$ -galactosides in pea seeds by capillary zone electrophoresis. Comparison with high-performance liquid chromatography-triple-pulsed amperometric detection 719(1996)213
- Carbohydrate analyses with high-performance anion-exchange chromatography 720(1996)137
- Precolumn derivatization for chromatographic and electrophoretic analyses of carbohydrates 720(1996)173
- Enzymatic release of oligosaccharides from glycoproteins for chromatographic and electrophoretic analysis 720(1996)201
- Comparison of separation modes of high-performance liquid chromatography for the analysis of glycoprotein- and proteoglycan-derived oligosaccharides 720(1996)227

Cation analysis on a new poly(butadiene-maleic acid)-based column 706(1995)99

#### **Organic bases**

Multifunctional ion-exchange stationary phases for high-performance liquid chromatography 722(1996)87

#### **Organic cations**

Coated versus fused-silica capillaries for the separation of inorganic and organic cations by capillary zone electrophoresis 736(1996)265

#### **Organic modifiers**

Mixed micelles of short chain alkyl surfactants and bile salts in electrokinetic chromatography. Enhanced separation of corticosteroids 738(1996)275

#### **Organic pollutants**

Carbon sorbents and their utilization for the preconcentration of organic pollutants in environmental samples 707(1995)145

Hyphenated techniques for characterizing coal wastewaters and associated sediments 750(1996)287

#### **Organochlorides**

Characterization of organic micropollutants in the River Cinca (Spain) by using granular activated carbon and liquid-liquid extraction 733(1996)159

#### **Organochlorine compounds**

see also Halocarbons and Organohalogen compounds

Steam distillation-solvent extraction, a selective sample enrichment technique for the gas chromatographic-electron-capture detection of organochlorine compounds in milk powder and other milk products 712(1995)355

Analysis of organochlorine pesticides using solid-phase microextraction 723(1996)111

Enantioselective analysis of chiral polychlorinated biphenyls in sediment samples by multidimensional gas chromatography-electron-capture detection after steam distillation-solvent extraction and sulfur removal 723(1996)399

Comparison of the performance of solid-phase extraction techniques in recovering organophosphorus and organochlorine compounds from water 725(1996)93

Determination of organochlorine pesticides in water by membranous solid-phase extraction, and in sediment by microwave-assisted solvent extraction with gas chromatography and electron-capture and mass spectrometric detection 736(1996)211

Development of a prototype system for quasi-continuous analysis of organic contaminants in surface or sewage water based on in-line coupling of solid-phase microextraction to gas chromatography 737(1996)59

Simultaneous determination of chlorophenols, chlorobenzenes and chlorobenzoates in microbial solutions using pentafluorobenzylbromide derivatization and analysis by gas chromatography with electron-capture detection 749(1996)165

**Organogermanium compounds**

Optimization study for the speciation analysis of organotin and organogermanium compounds by on-column capillary gas chromatography with flame photometric detection using quartz surface-induced luminescence 727(1996)119

**Organohalogen compounds**

Occurrence and determination of organic pollutants in tap and surface waters of the Gdańsk district 733(1996)171

Methods of isolation and determination of volatile organohalogen compounds in natural and treated waters 733(1996)417

**Organolead compounds**

Improvement of quality control of speciation analysis using hyphenated techniques 750(1996)25

**Organomercury compounds**

Improvement of quality control of speciation analysis using hyphenated techniques 750(1996)25

**Organometallic compounds**

Characterization of chromium–carbene complexes by high-performance liquid chromatography–mass spectrometry with particle beam interface 730(1996)231

Capillary electrophoresis of methylmercury with injection by sample stacking 730(1996)345

**Organophosphate surfactants**

Capillary electrophoresis of phosphate ester surfactants with adenosine monophosphate and indirect photometric detection 737(1996)315

**Organophosphorus compounds**

Column liquid chromatography–mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

Determination of phosphorus by sample combustion followed by non-suppressed ion chromatography 706(1995)199

Capillary gas chromatographic analysis of nerve agents using large volume injections 723(1996)210

Comparison of the performance of solid-phase extraction techniques in recovering organophosphorus and organochlorine compounds from water 725(1996)93

Analysis of organophosphorus insecticides from environmental samples using solid-phase microextraction 736(1996)219

Automated sample preparation with extraction columns followed by liquid chromatography–ionspray mass spectrometry. Interferences, determination and degradation of polar organophosphorus pesticides in water samples 737(1996)47

Decay study of pesticide residues in apple samples 740(1996)146

Automated at-line solid-phase extraction–gas chromatographic analysis of micropollutants in water using the PrepStation 750(1996)161

Automated on-line gel permeation chromatography–gas chromatography for the determination of organophosphorus pesticides in olive oil 750(1996)275

**Organotin compounds**

Determination of triorganotin compounds by ion chromatography and capillary electrophoresis with preconcentration using solid-phase extraction 718(1995)329

Optimization study for the speciation analysis of organotin and organogermanium compounds by on-column capillary gas chromatography with flame photometric detection using quartz surface-induced luminescence 727(1996)119

Capillary electrophoresis of triorganotin compounds with indirect fluorescence detection 746(1996)269

Improvement of quality control of speciation analysis using hyphenated techniques (Review) 750(1996)25

Determination of butyl- and phenyltin compounds in biological material by gas chromatography–flame photometric detection after ethylation with sodium tetraethylborate 750(1996)317

**Orphenadrine**

Flash chiral chromatography with cellulose tris(3,5-dimethylphenylcarbamate)-coated phases 728(1996)195

**Ovalbumin**

Pre-column derivatization of proteins to enhance detection sensitivity for sodium dodecyl sulfate non-gel sieving capillary electrophoresis 715(1995)167

Effect of polyamines on the separation of ovalbumin glycoforms by capillary electrophoresis 719(1996)159

Development of electrophoretic conditions for the characterization of protein glycoforms by capillary electrophoresis–electrospray mass spectrometry 720(1996)409

Countercurrent chromatographic analysis of ovalbumin obtained from various sources using the cross-axis coil planet centrifuge 724(1996)179

Characterization of protein adsorption by composite silica–polyacrylamide gel anion exchangers 746(1996)169

Characterization of protein adsorption by composite silica–polyacrylamide gel anion exchangers 746(1996)185

**Ovomucoid**

Affinity chromatography of trypsin using chitosan as ligand support 742(1996)107

- Oxalate**  
Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571
- Quantitative determination of oxalate in Bayer liquor by capillary zone electrophoresis 739(1996)399
- Oxalic acid**  
Improved statistical analysis of ion chromatography data from acids for aluminum anodizing solutions 739(1996)163
- Oxazepam**  
Suppression of chiral recognition of 3-hydroxy-1,4-benzodiazepines during micellar electrokinetic capillary chromatography with bile salts 704(1995)238
- Determination of enantiomerization barriers by computer simulation of experimental elution profiles obtained by high-performance liquid chromatography on a chiral stationary phase 731(1996)315
- Oxazine**  
Application of an avalanche photodiode in a near-Geiger operation as a fluorescence detector for capillary electrophoresis 744(1996)31
- Oxazine-1**  
Simple double-beam absorption detection systems for capillary electrophoresis based on diode lasers and light-emitting diodes 718(1995)177
- Oxoacids**  
Analysis of halides, oxyhalides and metal oxoacids by capillary electrophoresis with suppressed electroosmotic flow 718(1995)421
- Oxothioarsenates**  
Separation of thio- and oxothioarsenates by capillary zone electrophoresis and ion chromatography 736(1996)341
- Oxyclozanide**  
Simple, robust and accurate high-performance liquid chromatography method for the analysis of several anthelmintics in veterinary formulations 729(1996)267
- Oxyhalides**  
Analysis of halides, oxyhalides and metal oxoacids by capillary electrophoresis with suppressed electroosmotic flow 718(1995)421
- Oxysterols**  
Comparison of three methods for the determination of oxysterols in spray-dried egg 705(1995)289
- Adsorption of oxysterols on different microtube materials during silanylation prior to gas chromatographic determination 705(1995)396
- Oxytocin antagonists**  
High-performance, purity-indicating liquid chromatographic method for the oxytocin antagonist, L-368,899 731(1996)331
- Ozone**  
New gas chromatographic-electron-capture detection method for the determination of atmospheric aldehydes and ketones based on cartridge sampling and derivatization with 2,4,6-trichlorophenylhydrazine 740(1996)71
- ## P
- Paclitaxel**  
Supercritical fluid chromatography of paclitaxel 721(1996)315
- Determination of paclitaxel in biological fluids by micellar electrokinetic chromatography 745(1996)173
- Palladium**  
Separation of Pd(II) and Cu(II) in chloride solutions on a glycol methacrylate gel derivatized with 8-hydroxyquinoline 706(1995)159
- Determination of chloride complex of Au(III) by capillary zone electrophoresis with direct UV detection 718(1995)227
- Palladium(II) chloro complex**  
Determination of palladium(II) as a chloro complex by capillary zone electrophoresis 704(1995)242
- Palmitine**  
Determination of gentiopicroside, mangiferin, palmitine, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17
- Papain**  
S-Pegylthiopapain, a versatile intermediate for the preparation of the fully active form of the cysteine proteinase archetype 724(1996)185
- Paracetamol**  
see also Acetaminophen
- Application of high-performance liquid chromatography with diode-array detection and on-line post-column photochemical derivatization to the determination of analgesics 729(1996)355
- Rational experimental design for bioanalytical methods validation. Illustration using an assay method for total captopril in plasma 730(1996)381

**Paraffins**

Characterization of technical waxes 732(1996)111

**Paraquat**

Influence of organic matter and surfactants on solid-phase extraction of diquat, paraquat and difenzoquat from waters 727(1996)245

On-line liquid chromatographic trace enrichment and high-performance liquid chromatographic determination of diquat, paraquat and difenzoquat in water 728(1996)325

**Paraxon**

Toxicological evaluation of harmful substances by in situ enzymatic and biological detection in high-performance thin-layer chromatography 750(1996)403

**Particles, inorganic**

Characterization and separation of inorganic fine particles by capillary electrophoresis with an indifferent electrolyte system 732(1996)377

**Patulin**

Rapid reversed-phase liquid chromatographic determination of patulin in apple juice 730(1996)53

**Pavine N-oxides**

Reversed-phase high-performance liquid chromatographic separation of epimeric alkaloid N-oxides from *Thalictrum simplex* L. 730(1996)63

**S-Pegylthiopapain**

S-Pegylthiopapain, a versatile intermediate for the preparation of the fully active form of the cysteine proteinase archetype 724(1996)185

**Peltatins**

Analysis of aryltetrahydronaphthalene lignans and their glucoside conjugates in podophyllin resin by high-performance liquid chromatography 722(1996)267

**Penicillamine**

Endogenous alkaloids in man. XXI. Analysis of glyoxylate-derived 1,3-thiazolidines and their precursors after trimethylsilylation by gas chromatography-mass spectrometry 707(1995)267

**Penicillins**

High-performance liquid chromatographic determination of penicillins by means of automated solid-phase extraction and photochemical degradation with electrochemical detection 729(1996)229

**Pentachlorophenol**

Determination of pentachlorophenol in leather using supercritical fluid extraction with in situ derivatization 718(1995)131

Determination of pentachlorophenol in water samples by capillary zone electrophoresis 733(1996)395

**Pentacosanoic acid methyl ester**

Stability and purity of low-polarity adsorbents for coupled supercritical fluid extraction-supercritical fluid chromatography-flame ionization detection 734(1996)311

**Pentaerythritol**

Analysis of nitramine and nitroaromatic explosives by capillary electrophoresis 745(1996)233

**Pentafluoroethane**

All-metal collection system for preparative-scale gas chromatography. Purification of low-boiling-point compounds 702(1995)243

**Pentamidine isethionate**

Gel electrophoretic analysis of cellular and secreted proteins from resting and activated rat alveolar macrophages treated with pentamidine isethionate 711(1995)331

**Pentane**

Computer program for simulating the performance of thick-bed diffusive samplers: predicted and experimental sample loss due to reversible adsorption 709(1995)283

Method development for trace analysis of heteroaromatic compounds in contaminated groundwater 738(1996)295

**Pepsin**

Separation of enantiomers on a pepsin-bonded column 708(1995)161

**Peptide antibiotics**

Liquid chromatographic determination of D- and L-amino acids by derivatization with *o*-phthalaldehyde and N-isobutyryl-L-cysteine. Applications with reference to the analysis of peptidic antibiotics, toxins, drugs and pharmaceutically used amino acids 711(1995)201

**Peptide conformers**

Isolation and identification of peptide conformers by reversed-phase high-performance liquid chromatography and NMR at low temperature 729(1996)155

**Peptides**

Comparative peptide mapping of a hepatitis C viral recombinant protein by capillary electrophoresis and matrix-assisted laser desorption time-of-flight mass spectrometry 744(1996)177

Peptide stacking by acetonitrile–salt mixtures for capillary zone electrophoresis 744(1996)231

Complete capillary electrophoretic separation of substance P and its metabolites at neutral pH using ionic run buffer additives 744(1996)241

Separation of myoglobin molecular mass markers using non-gel sieving capillary electrophoresis 744(1996)249

Kinetic study on the *cis*–*trans* isomerization of peptidyl–proline dipeptides 744(1996)259

Strategy for isolating and sequencing biologically derived MHC class I peptides 744(1996)273

Two-step chromatographic procedure for purification of basic fibroblast growth factor from recombinant *Escherichia coli* and characterization of the equilibrium parameters of adsorption 746(1996)17

Perfluorinated acid alternatives to trifluoroacetic acid for reversed-phase high-performance liquid chromatography 746(1996)277

Separation of toxic peptides (microcystins) in capillary electrophoresis, with the aid of organic mobile phase modifiers 749(1996)271

#### **Peptidoglutaminase**

High performance liquid chromatography of *Bacillus circulans* peptidoglutaminase for laboratory and industrial uses 702(1995)163

#### **Peptidoglycans**

New, stable halogenated derivative suitable for the gas chromatographic determination of muramic acid 726(1996)246

Determination of peptidoglycan-associated protein in *Escherichia coli* NCIB 8545 by capillary zone electrophoresis 740(1996)273

#### **Peptidyl–proline**

Kinetic study on the *cis*–*trans* isomerization of peptidyl–proline dipeptides 744(1996)259

#### **Perbromate**

Quantitative thin-layer chromatography of perbromate 712(1995)382

#### **Perchloric acid**

Separation and determination of amino acids, creatinine, bioactive amines and nucleic acid bases by dual-mode gradient ion-pair chromatography 739(1996)333

#### **Perfluorinated acids**

Perfluorinated acid alternatives to trifluoroacetic acid for reversed-phase high-performance liquid chromatography 746(1996)277

#### **Permethrin**

Determination of permethrin and cyfluthrin in water and sediment by gas chromatography–mass spectrometry operated in the negative chemical ionization mode 707(1995)293

Partial least-squares and principal component regression of multi-analyte high-performance liquid chromatography with diode-array detection 727(1996)27

Determination of cypermethrin, fenvalerate and *cis*- and *trans*-permethrin in soil and groundwater by high-performance liquid chromatography using partial least-squares regression 727(1996)39

#### **Peroxyacetic acid**

Rapid high-performance liquid chromatographic method for the determination of peroxyacetic acid 730(1996)203

#### **Pesticides**

- Steam distillation-solvent extraction, a selective sample enrichment technique for the gas chromatographic-electron-capture detection of organochlorine compounds in milk powder and other milk products 712(1995)355
- Optimization of resolution in micellar electrokinetic chromatography via computer-aided simultaneous variation of concentrations of sodium dodecyl sulfate and urea as modifier 716(1995)81
- Trace analysis of fluorescein-derivatized phenoxy acid herbicides by micellar electrokinetic chromatography with laser-induced fluorescence detection 717(1995)299
- Separation of phenylurea pesticides by ion-interaction reversed-phase high-performance liquid chromatography. Diuron determination in lagoon water 718(1995)81
- Determination of pentachlorophenol in leather using supercritical fluid extraction with in situ derivatization 718(1995)131
- Optimization of a solid-phase extraction technique for the extraction of pesticides from soil samples 719(1996)69
- Matrix solid-phase dispersion extraction procedure for multiresidue pesticide analysis in oranges 719(1996)95
- Determination of dinitroaniline herbicides in environmental samples by gas chromatography 719(1996)113
- Determination of DDT and related compounds in blood samples from agricultural workers 719(1996)141
- Sensitive and selective method for the determination of sodium monofluoroacetate by capillary zone electrophoresis 719(1996)421
- Initial experiments in high-performance liquid chromatographic method development. I. Use of a starting gradient run 721(1996)3
- Determination of imidacloprid in vegetables by high-performance liquid chromatography with diode-array detection 721(1996)97
- UV detection of triazine herbicides and their hydroxylated and dealkylated degradation products in well water 721(1996)107

- Comparative study of three extraction procedures for imazamethabenz-methyl in agricultural soil 721(1996)113
- Analysis of organochlorine pesticides using solid-phase microextraction 723(1996)111
- Separation of *s*-triazine herbicides and their metabolites by capillary zone electrophoresis as a function of pH 723(1996)169
- Optimization of electron-capture detector when using packed-column supercritical fluid chromatography with modified carbon dioxide 723(1996)361
- Prediction from liquid chromatographic data of obligatory backflush desorption from solid-phase extraction cartridges packed with porous graphitic carbon 725(1996)57
- Analysis of microcontaminants in aqueous samples by fully automated on-line solid-phase extraction-gas chromatography-mass selective detection 725(1996)67
- Improvements in the determination of organophosphorus pesticides in ground- and wastewater samples from interlaboratory studies by automated on-line liquid-solid extraction followed by liquid chromatography-diode array detection 725(1996)85
- Comparison of the performance of solid-phase extraction techniques in recovering organophosphorus and organochlorine compounds from water 725(1996)93
- Selective trace enrichment on immunosorbents for the multiresidue analysis of phenylurea and triazine pesticides 725(1996)107
- Determination of herbicides in surface water by means of a supported liquid membrane technique and high-performance liquid chromatography 725(1996)121
- Solid-phase microextraction of the herbicide metolachlor in runoff and tile-drainage water samples 725(1996)129
- Development of a semi-automated high-performance liquid chromatographic-diode array detection system for screening pesticides at track levels in aquatic systems of the Axios River basin 726(1996)99
- Qualitative analysis of contaminated environmental extracts by multidimensional gas chromatography with infrared and mass spectral detection (MDGC-IR-MS) 726(1996)167
- Simple and rapid determination of the herbicides glyphosate and glufosinate in river water, soil and carrot samples by gas chromatography with flame photometric detection 726(1996)253
- Partial least-squares and principal component regression of multi-analyte high-performance liquid chromatography with diode-array detection 727(1996)27
- Determination of cypermethrin, fenvalerate and *cis*- and *trans*-permethrin in soil and groundwater by high-performance liquid chromatography using partial least-squares regression 727(1996)39
- Applications of liquid chromatography-mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153
- Influence of organic matter and surfactants on solid-phase extraction of diquat, paraquat and difenzoquat from waters 727(1996)245
- Large-volume injection in residue analysis with capillary gas chromatography using a conventional autosampler and injection by programmed-temperature vaporization with solvent venting 727(1996)275
- Ion-pairing mechanism in the solid-phase extraction and reversed-phase high-performance liquid chromatographic determination of acidic herbicides in water 728(1996)319
- On-line liquid chromatographic trace enrichment and high-performance liquid chromatographic determination of diquat, paraquat and difenzoquat in water 728(1996)325
- Portable liquid chromatograph for mobile laboratories. I. Aims 728(1996)387
- Application of multivariate self-modeling curve resolution to the quantitation of trace levels of organophosphorus pesticides in natural waters from interlaboratory studies 730(1996)177
- Pesticide analysis by micellar electrokinetic capillary chromatography 730(1996)337
- Integrated system for on-line gas and liquid chromatography with a single mass spectrometric detector for the automated analysis of environmental samples 730(1996)353
- On-line preconcentration, cleanup and high-performance liquid chromatographic determination of chlorophenoxy acid herbicides in water 731(1996)115
- Use of immunoaffinity chromatography as a simplified cleanup technique for the liquid chromatographic determination of phenylurea herbicides in plant material 732(1996)277
- Chromatographic and related spot tests for the detection of water pollutants 733(1996)5
- Evaluation of two new examples of graphitized carbon blacks for use in solid-phase extraction cartridges 733(1996)41
- Solid-phase microextraction coupled to gas chromatography: a new method for the analysis of organics in water 733(1996)143
- Characterization of organic micropollutants in the River Cinca (Spain) by using granular activated carbon and liquid-liquid extraction 733(1996)159

- Occurrence and determination of organic pollutants in tap and surface waters of the Gdańsk district 733(1996)171
- Extraction methodology and chromatography for the determination of residual pesticides in water 733(1996)217
- Comparison of gas and liquid chromatography for analysing polar pesticides in water samples (Review) 733(1996)235
- Pesticide analysis by high-performance liquid chromatography using the direct injection method 733(1996)259
- Disks versus columns in the solid-phase extraction of pesticides from water 733(1996)267
- Influence of the solid-phase extraction process on calibration and performance parameters for the determination of pesticide residues in water by gas chromatography 733(1996)275
- Determination of ten carbamate pesticides in aquatic and sediment samples by liquid chromatography–ionspray and thermospray mass spectrometry 733(1996)283
- Determination of triazine herbicides in environmental samples 733(1996)295
- Monitoring of herbicide pollution in water by capillary electrophoresis 733(1996)337
- Determination of triazine herbicides in water by micellar electrokinetic capillary chromatography 733(1996)349
- Gas chromatographic determination of acid herbicides in surface water samples with electron-capture detection and mass spectrometric confirmation 733(1996)361
- Liquid chromatographic determination of methabenzthiazuron in soil aqueous solutions with photodiode-array detection 733(1996)367
- Capillary electrophoresis with detection by inverse UV spectroscopy and electrospray mass spectrometry for the examination of quaternary ammonium herbicides 734(1996)339
- Determination of polar pesticides in ground water using liquid chromatography–mass spectrometry with atmospheric pressure chemical ionization 736(1996)105
- Determination of organochlorine pesticides in water by membranous solid-phase extraction, and in sediment by microwave-assisted solvent extraction with gas chromatography and electron-capture and mass spectrometric detection 736(1996)211
- Analysis of organophosphorus insecticides from environmental samples using solid-phase microextraction 736(1996)219
- Determination of fluoroacetate in aqueous samples by headspace gas chromatography 736(1996)229
- Accreditation in the UK for pesticide residue analysis in foods 737(1996)3
- Gel permeation chromatography–high-performance liquid chromatography combination as an automated clean-up technique for the multiresidue analysis of fats 737(1996)9
- Evaluation of new polymeric sorbents with high specific surface areas using an on-line solid-phase extraction–liquid chromatographic system for the trace-level determination of polar pesticides 737(1996)15
- Simple removal of humic and fulvic acid interferences using polymeric sorbents for the simultaneous solid-phase extraction of polar acidic, neutral and basic pesticides 737(1996)25
- On-line solid-phase extraction in liquid chromatography using restricted access pre-columns for the analysis of *s*-triazines in humic-containing waters 737(1996)35
- Automated sample preparation with extraction columns followed by liquid chromatography–ionspray mass spectrometry. Interferences, determination and degradation of polar organophosphorus pesticides in water samples 737(1996)47
- Development of a prototype system for quasi-continuous analysis of organic contaminants in surface or sewage water based on in-line coupling of solid-phase microextraction to gas chromatography 737(1996)59
- Pesticide monitoring of drinking water with the help of solid-phase extraction and high-performance liquid chromatography 737(1996)67
- Rapid determination of glufosinate, glyphosate and aminomethylphosphonic acid in environmental water samples using precolumn fluorogenic labeling and coupled-column liquid chromatography 737(1996)75
- Determination and stability of pesticides in freeze-dried water samples by automated on-line solid-phase extraction followed by liquid chromatography with diode-array detection 737(1996)93
- High-performance liquid chromatographic determination of <sup>14</sup>C-labelled terbutylazine and principal degradates in percolation water and soil extracts from leaching experiments 737(1996)101
- Comparative study of high-performance liquid chromatography and micellar electrokinetic capillary chromatography applied to the analysis of different mixtures of pesticides 737(1996)109
- On-line and off-line solid–liquid extraction and liquid chromatographic analysis at trace levels, for monitoring of herbicides and their degradation products in river and fluvio–estuarine freshwater–seawater interfaces 737(1996)117
- Rapid multiresidue screening method for the determination of pesticides in plant materials 737(1996)215

Gas chromatographic–mass spectrometric study of photodegradation of carbamate pesticides 738(1996)225

Rapid method for the analysis of a variety of chemical classes of pesticides in surface and ground waters by off-line solid-phase extraction and gas chromatography–ion trap mass spectrometry 740(1996)83

Decay study of pesticide residues in apple samples 740(1996)146

Gas chromatographic system equipped with a mass detector and a selective nitrogen–phosphorous detector operating simultaneously in the analysis of pesticide residues 740(1996)263

Trace-level determination of pesticide residues using on-line solid-phase extraction–column liquid chromatography with atmospheric pressure ionization mass spectrometric and tandem mass spectrometric detection 741(1996)59

Chlorinated acid herbicides in water by strong anion-exchange disk extraction and in-vial elution and derivatization 741(1996)85

Enhanced detection sensitivity by large volume injection in reversed-phase micro-high-performance liquid chromatography 742(1996)69

Capillary electrophoresis methods development and sensitivity enhancement strategies for the separation of industrial and environmental chemicals 744(1996)123

Analysis of glyphosate using capillary electrophoresis with indirect detection 745(1996)189

Herbicide analysis by micellar electrokinetic capillary chromatography 745(1996)201

Analysis of chlorophenoxy acid herbicides by cyclodextrin-modified capillary electrophoresis 745(1996)217

High-performance liquid chromatographic determination of flumetsulam, a newly developed sulfonamide herbicide in soil 746(1996)25

Determination of imidacloprid in water and soil samples by gas chromatography–mass spectrometry 746(1996)289

New method for estimating vapor pressure by the use of gas chromatography 749(1996)123

On-line partial filling micellar electrokinetic chromatography–electrospray ionization mass spectrometry 749(1996)219

Automated at-line solid-phase extraction–gas chromatographic analysis of micropollutants in water using the PrepStation 750(1996)161

On-line coupled supercritical fluid extraction and chromatography for the determination of thiolcarbamate herbicides in soil matrix 750(1996)175

Solid-phase extraction of polar pesticides from environmental water samples on graphitized carbon and Empore-activated carbon disks and on-line coupling to octadecyl-bonded silica analytical columns 750(1996)227

Automated on-line gel permeation chromatography–gas chromatography for the determination of organophosphorus pesticides in olive oil 750(1996)275

Pesticide residue analysis in foodstuffs applying capillary gas chromatography with atomic emission detection 750(1996)369

Extraction of maleic hydrazide residues from potato crisps and their determination using high-performance liquid chromatography with UV and atmospheric pressure chemical ionisation mass spectrometric detection 750(1996)391

Toxicological evaluation of harmful substances by in situ enzymatic and biological detection in high-performance thin-layer chromatography 750(1996)403

#### **Phenacetin**

Determination of thiamine in dried yeast by high-performance liquid chromatography using a clean-up column of CM-cellulose 726(1996)237

Microemulsion electrokinetic chromatographic separation of antipyretic analgesic ingredients 735(1996)353

#### **Phenanthrenes**

Analyte preconcentration procedure based on parallel-current open-tubular liquid chromatography 728(1996)311

On the relevance of face-to-edge  $\pi$ – $\pi$  interactions to chiral recognition 749(1996)19

#### **1,10-Phenanthroline**

Isotachophoretic separation of Fe(II) and Fe(III) by using 1,10-phenanthroline as a complex-forming agent 723(1996)389

More sensitive way to determine iron using an iron(II)–1,10-phenanthroline complex and capillary electrophoresis 749(1996)287

#### **Phenazines**

Initial experiments in high-performance liquid chromatographic method development. I. Use of a starting gradient run 721(1996)3

#### **Phenobarbital**

Molecular recognition of phenobarbital in plasticizers. Equilibrium investigations on the solubility of the barbiturate artificial receptor and its binding to phenobarbital in plasticizers 722(1996)47

Microemulsion electrokinetic chromatographic separation of antipyretic analgesic ingredients 735(1996)353

**Phenol**

Control of selectivity in micellar electrokinetic chromatography by modification of sodium dodecyl sulfate micelles with organic hydroxy compounds 705(1995)319

Studies of hydrogen/deuterium exchange of monodeuteriophenol in fused-silica capillary columns using gas chromatography-mass spectrometry 719(1996)474

Optimization of supercritical fluid extraction of phenol and cresols in soil samples 723(1996)123

In situ silylation of silica-based packings using supercritical fluid as reaction medium 724(1996)373

Determination of glutaraldehyde and phenol in germicide products by capillary gas chromatography 724(1996)398

H-Point standard additions method for resolution of overlapping chromatographic peaks with diode array detection by using area measurements 726(1996)57

Analyte preconcentration procedure based on parallel-current open-tubular liquid chromatography 728(1996)311

Determination of serotonin released from coffee wax by liquid chromatography 730(1996)59

Effects of high-frequency electromagnetic treatment on the solid-phase extraction of aqueous benzene, naphthalene and phenol 731(1996)65

Mobile phase effects on single-component and competitive adsorption isotherms in reversed-phase systems 734(1996)125

End-capping of octadecylsilylated silica gels by high-temperature silylation 737(1996)139

**Phenolic acids**

Capillary electrophoretic separation of phenolic acids 709(1995)209

Selection of column and gradient for the separation of polyphenols in sherry wine by high-performance liquid chromatography incorporating internal standards 724(1996)117

Solid-phase extraction and high-performance liquid chromatographic determination of polyphenols in apple musts and ciders 727(1996)203

Solid-phase extraction and reversed-phase high-performance liquid chromatography of free phenolic acids in some *Echinacea* species 730(1996)25

Determination of some pharmacologically active phenolic acids in juices by high-performance liquid chromatography 741(1996)223

**Phenolic aldehydes**

Selectable-power photoreactor for flow-injection analysis systems and high-performance liquid chromatography post-column photochemical derivatization 724(1996)55

**Phenolic compounds**

Chromatographic and chemometric investigation of the chemical defence mechanism of poplar tree genotypes against a bark fungine parasite 715(1995)95

Prediction of chromatographic properties for a group of natural phenolic derivatives by molecular topology 719(1996)45

Determination of phenolic compounds at low  $\mu\text{g l}^{-1}$  levels by various solid-phase extractions followed by liquid chromatography and diode-array detection 719(1996)105

Preparative separation of phenolic compounds from *Picea abies* by high-speed counter-current chromatography 719(1996)438

High-performance liquid chromatographic separation and identification of phenolic compounds from leaves of *Betula pubescens* and *Betula pendula* 721(1996)59

High-performance liquid chromatographic-electrospray mass spectrometric analysis of phenolic acids and aldehydes 730(1996)31

Applications of thin-layer chromatography to process control in the pulp and paper field 730(1996)373

Comparison of different sorbent materials for on-line liquid-solid extraction followed by liquid chromatographic determination of priority phenolic compounds in environmental waters 733(1996)371

Separation of plant phenolic compounds by capillary zone electrophoresis 734(1996)375

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography-chemical ionization mass spectrometry 736(1996)195

Determination of phenolic compounds in natural waters by liquid chromatography with ultraviolet and electrochemical detection after on-line trace enrichment 738(1996)1

High-performance liquid chromatographic determination of phenolic compounds in *Aloe* species 746(1996)225

Automated on-line solid-phase extraction-high-performance liquid chromatography-diode array detection of phenolic compounds in sherry wine 750(1996)209

**Phenol-formaldehyde resols**

Size-exclusion chromatography on polyhydroxymethacrylate gel with dimethylformamide as eluent 722(1996)123

**Phenols**

Gas chromatographic determination of 5-chloro-2-(2,4-dichlorophenoxy)-phenol in the waste water of a slaughterhouse 705(1995)313

Separation of priority pollutant phenols on chemically modified poly(styrene-divinylbenzene) resins by high-performance liquid chromatography 715(1995)213

Separation of phenylenediamine, phenol and aminophenol derivatives by micellar electrokinetic chromatography. Comparison of the role of anionic and cationic surfactants 717(1995)167

High-performance liquid chromatographic separation and detection of phenols using 2-(9-anthrylethyl) chloroformate as a fluorophoric derivatizing reagent 718(1995)45

High-performance liquid chromatographic separation of phenols on a fluorocarbon-bonded silica gel column 722(1996)273

Novel additives for the separation of organic compounds by high-performance liquid chromatography 728(1996)235

Portable liquid chromatograph for mobile laboratories. I. Aims 728(1996)387

Resveratrol content of some wines obtained from dried Valpolicella grapes: Recioto and Amarone 730(1996)47

Determination of phenols in environmental waters using liquid chromatography with electrochemical detection 731(1996)95

Evaluation of two new examples of graphitized carbon blacks for use in solid-phase extraction cartridges 733(1996)41

Solid-phase microextraction coupled to gas chromatography: a new method for the analysis of organics in water 733(1996)143

Occurrence and determination of organic pollutants in tap and surface waters of the Gdańsk district 733(1996)171

Trace determination of phenols in natural waters. Extraction by a new graphitized carbon black cartridge followed by liquid chromatography and re-analysis after phenol derivatization 733(1996)383

Nonionic surfactants for improving resolution of the priority pollutant phenols by micelle-modified capillary electrophoresis 734(1996)357

Separation of eleven priority phenols by capillary zone electrophoresis with ultraviolet detection 734(1996)367

New approach to the characterization of pyrolysis coal products by gas chromatography-mass spectrometry 736(1996)185

Comparison of the extraction of phenolic and nitroaromatic pollutants using supercritical and enhanced-fluidity liquid methanol-CO<sub>2</sub> mixtures 737(1996)233

Direct on-column derivatisation in gas chromatography 738(1996)43

Direct on-column derivatisation in gas chromatography 738(1996)57

Sample preparation techniques for determining semi-volatile organic compounds in nuclear defense materials production waste 738(1996)215

Capillary zone electrophoresis/electrospray mass spectrometry of priority phenols 743(1996)315

Capillary electrophoresis methods development and sensitivity enhancement strategies for the separation of industrial and environmental chemicals 744(1996)123

Migration behavior and separation of trichlorophenols by capillary zone electrophoresis 746(1996)295

Novel computational methods for the determination of partition coefficients by planar chromatography 749(1996)211

Quantification of two chromatographic unresolved dichlorophenols using gas chromatography-direct deposition-Fourier transform infrared spectrometry and multivariate calibration 750(1996)341

**Phenothiazines**

Comparison of softwares used for the detection of analytes present at low levels in liquid chromatographic-mass spectrometric experiments 712(1995)31

Stability-indicating high-performance liquid chromatographic assay for the simultaneous determination of dixyrazine and chlorprothixene in intravenous admixtures 729(1996)201

Determination of structurally related phenothiazines by capillary zone electrophoresis and micellar electrokinetic chromatography 735(1996)395

**Phenoxyacetic acids, chlorinated**

Column liquid chromatography-mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

**Phenoxy acid herbicides**

Trace analysis of fluorescein-derivatized phenoxy acid herbicides by micellar electrokinetic chromatography with laser-induced fluorescence detection 717(1995)299

Chlorinated acid herbicides in water by strong anion-exchange disk extraction and in-vial elution and derivatization 741(1996)85

**3-Phenoxy-1,2-propanediols**

Influence of the kind of the alcoholic modifier on chiral separation on a Chiralpak AD column 728(1996)249

**Phenoxypropionic acids**

Examination of the origin, variation, and proper use of expressions for the estimation of association constants by capillary electrophoresis 721(1996)173

Covalently bonded permethylated cyclodextrins, new selectors for enantiomeric separations by liquid chromatography 728(1996)171

**Phenprocoumon**

Separation of diastereomers by capillary zone electrophoresis in free solution with polymer additive and organic solvent component. Effect of pH and solvent composition 719(1996)411

**Phenylalanine**

Evaluation of extended light path capillaries for use in capillary electrophoresis with laser-induced fluorescence detection 736(1996)239

**PTH-Phenylalanine**

Determination of enantiomerization barriers by computer simulation of experimental elution profiles obtained by high-performance liquid chromatography on a chiral stationary phase 731(1996)315

**Phenylalkylamines**

Determination of binding constants and the influence of methanol on the separation of drug enantiomers in cyclodextrin modified capillary electrophoresis 745(1996)181

**Phenyl butyrates**

Separation of positional and structural isomers by cyclodextrin-mediated capillary zone electrophoresis 745(1996)9

**Phenylenediamines**

Separation of phenylenediamine, phenol and aminophenol derivatives by micellar electrokinetic chromatography. Comparison of the role of anionic and cationic surfactants 717(1995)167

**Phenylephrine**

Enantiomeric separation of amphetamine and phenylephrine by cyclodextrin-mediated capillary zone electrophoresis 735(1996)295

**2-Phenylethanol**

Application of different isotherm models to the description of single-component and competitive adsorption data 734(1996)83

**Phenylethylamine**

Systematic modification of the separation selectivity of cyclodextrin-based gas chromatographic stationary phases by varying the size of the 6-O-substituents 738(1996)31

**Phenylethylimidazoles**

Chromatographic resolution and pharmacological investigation of some imidazole derivatives 729(1996)1

**Phenyl glycidyl ether**

Development and application of radio-size-exclusion chromatography 727(1996)61

**Phenylglycinols**

Molecularly imprinted uniform-size polymer-based stationary phase for high-performance liquid chromatography 728(1996)139

**Phenylhydantoin**

High-performance liquid chromatographic determination of cyclohexylhydantoin and cyclohexylidenehydantoin formed during the synthesis of phenylhydantoin from hydantoin and cyclohexanone 740(1996)284

**Phenylisothiocyanate**

Determination of amino acids in the foods by reversed-phase high-performance liquid chromatography with a new precolumn derivative, butylthiocarbamyl amino acid, compared to the conventional phenylthiocarbamyl derivatives and ion-exchange chromatography 740(1996)31

Determination of protein amino acids as benzylthiocarbamyl derivatives compared with phenylthiocarbamyl derivatives by reversed-phase high-performance liquid chromatography, ultraviolet detection and precolumn derivatization 740(1996)41

**Phenylphosphonic acid**

Determination of phosphorus by sample combustion followed by non-suppressed ion chromatography 706(1995)199

**Phenyl propanoid glycosides**

Identification of nonvolatile components in lemon peel by high-performance liquid chromatography with confirmation by mass spectrometry and diode-array detection 718(1995)89

**Phenylpropanol**

Effect of the packing pressure on the performance of C<sub>18</sub> reversed-phase liquid chromatographic columns 743(1996)247

**3-Phenylpropanol**

Application of different isotherm models to the description of single-component and competitive adsorption data 734(1996)83

**Phenyltin compounds**

Determination of butyl- and phenyltin compounds in biological material by gas chromatography-flame photometric detection after ethylation with sodium tetraethylborate 750(1996)317

**Phenyltrimethylammonium chloride**

Micellar electrokinetic chromatography-mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69

**Phenyltrimethylammonium salts**

Direct on-column derivatization in gas chromatography 738(1996)43

**Phenylureas**

Column liquid chromatography–mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

Trace determination of herbicides in estuarine waters by liquid chromatography–high-flow pneumatically assisted electrospray mass spectrometry 712(1995)113

Separation of phenylurea pesticides by ion-interaction reversed-phase high-performance liquid chromatography. Diuron determination in lagoon water 718(1995)81

Optimization of electron-capture detector when using packed-column supercritical fluid chromatography with modified carbon dioxide 723(1996)361

Selective trace enrichment on immunosorbents for the multiresidue analysis of phenylurea and triazine pesticides 725(1996)107

Determination of herbicides in surface water by means of a supported liquid membrane technique and high-performance liquid chromatography 725(1996)121

Use of immunoaffinity chromatography as a simplified cleanup technique for the liquid chromatographic determination of phenylurea herbicides in plant material 732(1996)277

**Phenytol**

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

**Pheophytins**

Preparation of Cu(II) complexes of oxidized chlorophylls and their determination by thin-layer and high-performance liquid chromatography 731(1996)261

**Pheromones**

Gas chromatographic determination of vapour pressures of pheromone-like compounds. III. Aldehydes 719(1996)391

**Phloridzin**

High-performance liquid chromatographic quantitation of phloridzin in apple seed, leaf and callus 719(1996)444

**Phosphate**

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Determination of anions in human and animal tear fluid and blood serum by ion chromatography 706(1995)183

Determinations of trace anions in hydrogen peroxide 706(1995)191

Determination of nitrate, phosphate and organically bound phosphorus in coral skeletons by ion chromatography 706(1995)209

Ion chromatographic determination of nutrients in sea water 706(1995)277

Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571

High-sensitivity conductivity detection in non-suppressed ion chromatography using sulfoisophthalic acid as eluent 727(1996)311

Manipulation of separation selectivity for inorganic anions in capillary zone electrophoresis using control of electrolyte pH 734(1996)416

Determination of phosphate and sulphite in natural waters in the presence of high sulphate concentrations by ion chromatography under isocratic conditions 739(1996)207

Determination of total phosphorus in sediments by means of high-pressure bombs and ion chromatography 739(1996)223

**Phosphate esters**

Capillary electrophoresis of phosphate ester surfactants with adenosine monophosphate and indirect photometric detection 737(1996)315

**Phosphates**

Analysis of isoprenoid phosphates and oligophosphates by capillary zone electrophoresis 737(1996)325

**Phosphatidic acid**

Reversed-phase high-performance liquid chromatography of molecular species of phospholipid derivatives 741(1996)213

**Phosphatidylcholines**

A high-performance liquid chromatographic method for the analysis of lipids from lyophilized formulations 724(1996)343

Preparative separation of the diastereomers of methyl branched-chain phosphatidylcholines 724(1996)367

Reversed-phase high-performance liquid chromatography of molecular species of phospholipid derivatives 741(1996)213

**Phosphatidylethanolamine**

Reversed-phase high-performance liquid chromatography of molecular species of phospholipid derivatives 741(1996)213

**Phosphocysteine**

Identification of phosphocysteine by electrospray mass spectrometry combined with Edman degradation 712(1995)141

**2-Phosphoglycolate**

2-Phosphoglycolate and glycolate-electrophore detection, including detection of 87 zeptomoles of the latter by gas chromatography–electron-capture mass spectrometry 721(1996)289

**Phospholipase A<sub>2</sub>**

Mobile phase effects on membrane protein elution during immobilized artificial membrane chromatography 721(1996)213

Affinity purification of phospholipase A<sub>2</sub> on immobilized artificial membranes containing and lacking the glycerol backbone 731(1996)139

**Phospholipids**

Quantitation of choline glycerophospholipids that contain carboxylate residues by fluorometric high-performance liquid chromatography 724(1996)131

Preparative separation of the diastereomers of methyl branched-chain phosphatidylcholines 724(1996)367

Affinity purification of phospholipase A<sub>2</sub> on immobilized artificial membranes containing and lacking the glycerol backbone 731(1996)139

Analysis of phospholipids in lecithins 738(1996)25

Reversed-phase high-performance liquid chromatography of molecular species of phospholipid derivatives 741(1996)213

Immobilized liposome chromatography of drugs on capillary continuous beds for model analysis of drug-membrane interactions 749(1996)13

**Phosphoric acid**

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

**Phosphorothioate oligomers**

Base composition analysis of phosphorothioate oligomers by capillary gel electrophoresis 744(1996)341

**Phosphorus**

Determination of phosphorus by sample combustion followed by non-suppressed ion chromatography 706(1995)199

Determination of nitrate, phosphate and organically bound phosphorus in coral skeletons by ion chromatography 706(1995)209

Determination of phosphate and sulphite in natural waters in the presence of high sulphate concentrations by ion chromatography under isocratic conditions 739(1996)207

Determination of total phosphorus in sediments by means of high-pressure bombs and ion chromatography 739(1996)223

**Phosphorus compounds**

Phosphorus speciation in nickel plating baths by ion chromatography 705(1995)390

**Phosphotyrosine residues**

Specific determination of tyrosine-phosphorylated proteins and peptides by differential iodination 743(1996)273

***o*-Phthalaldehyde**

Post-column reaction system for fluorescence detection in capillary electrophoresis 716(1995)123

Determination of amino acids using *o*-phthalaldehyde-2-mercaptoethanol derivatization 724(1996)159

**Phthalate esters**

Portable liquid chromatograph for mobile laboratories. I. Aims 728(1996)387

**Phthalates**

Polar organic pollutants in the Elbe river. Liquid chromatographic-mass spectrometric and flow-injection analysis-mass spectrometric analyses demonstrating changes in quality and concentration during the unification process in Germany 712(1995)123

Effect of alkyl chain length of sodium N-acyl sarcosinates on migration behavior in micellar electrokinetic chromatography 744(1996)135

Analysis of poly(vinyl chloride) additives by supercritical fluid extraction and gas chromatography 750(1996)183

***o*-Phthaldialdehyde**

Liquid chromatographic determination of D- and L-amino acids by derivatization with *o*-phthaldialdehyde and N-isobutyryl-L-cysteine. Applications with reference to the analysis of peptidic antibiotics, toxins, drugs and pharmaceutically used amino acids 711(1995)201

**Phthalides**

Efficient high-performance liquid chromatographic enantioseparation of five-membered aryl-substituted lactones and cyclic carbamates on a (*R,R*)-diaminodihydroethanoanthracene-derived chiral stationary phase 740(1996)11

**2-(*N*-Phthalimido)ethyl 2-(dimethylamino)ethanesulfonate**

Chemically removable derivatization reagent for liquid chromatography. I. 2-(*N*-Phthalimido)ethyl 2-(dimethylamino)ethanesulfonate 710(1995)267

**Phthalocyanine dyes**

Capillary electrophoretic analysis of the reactions of bifunctional reactive dyes under various conditions including a study of the analysis of the traditionally difficult to analyse phthalocyanine dyes 706(1995)555

**Phycotoxins**

Automatic high-performance liquid chromatographic method for the determination of diarrhetic shellfish poison 729(1996)387

**Phytic acid**

Improved peptide mapping using phytic acid as ion-pairing buffer additive in capillary electrophoresis 726(1996)223

**Phytoalexins**

Resveratrol content of some wines obtained from dried Valpolicella grapes: Recioto and Amarone 730(1996)47

**Pilocarpine**

Improved high-performance liquid chromatographic determination of pilocarpine and its degradation products in ophthalmic solutions 740(1996)289

**Pinacidil**

Cyclodextrins as buffer additives for the enantiomeric separation of pinacidil in capillary zone electrophoresis 749(1996)300

**Pinenes**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas-liquid chromatography 715(1995)309

Systematic modification of the separation selectivity of cyclodextrin-based gas chromatographic stationary phases by varying the size of the 6-O-substituents 738(1996)31

**Pipenzolate**

On-line coupling of micellar electrokinetic chromatography to electrospray mass spectrometry 712(1995)219

**Piperidine-2,6-dione compounds**

Separation of piperidine-2,6-dione drug enantiomers by micellar electrokinetic capillary chromatography using synthetic chiral surfactants 724(1996)307

**Plant hormones**

Micellar liquid chromatography of plant growth regulators detected by derivative fluorometry 723(1996)227

Liquid chromatography-electrospray ionization mass spectrometry for analysing plant hormone conjugates 728(1996)371

**Plasmin**

Studies of complexes between proteases, substrates and the protease inhibitor  $\alpha_2$ -macroglobulin using capillary electrophoresis with laser-induced fluorescence detection 716(1995)363

**Plasminogen activator**

Application of capillary electrophoresis, high-performance liquid chromatography, on-line electrospray mass spectrometry and matrix-assisted laser desorption ionization-time of flight mass spectrometry to the characterization of single-chain plasminogen activator 717(1995)41

Rapid one-step capillary isoelectric focusing method to monitor charged glycoforms of recombinant human tissue-type plasminogen activator 717(1995)61

Examination of capillary zone electrophoresis, capillary isoelectric focusing and sodium dodecyl sulfate capillary electrophoresis for the analysis of recombinant tissue plasminogen activator 744(1996)155

Application of multidimensional affinity high-performance liquid chromatography and electrospray ionization liquid chromatography-mass spectrometry to the characterization of glycosylation in single-chain plasminogen activator 750(1996)35

**Plasticizers**

Molecular recognition of phenobarbital in plasticizers. Equilibrium investigations on the solubility of the barbiturate artificial receptor and its binding to phenobarbital in plasticizers 722(1996)47

Determination of plasticisers in food by gas chromatography-mass spectrometry with ion-trap mass detection 737(1996)338

**Platinum**

Determination of chloride complex of Au(III) by capillary zone electrophoresis with direct UV detection 718(1995)227

Quantitative thin layer chromatography on cellulose 746(1996)261

Hyphenation of capillary electrophoresis to inductively coupled plasma mass spectrometry as an element-specific detection method for metal speciation 750(1996)51

**Platinum anti-tumour drugs**

Separation of platinum(II) anti-tumour drugs by micellar electrokinetic capillary chromatography 724(1996)317

**Podophyllotoxin**

Analysis of aryltetrahydronaphthalene lignans and their glucoside conjugates in podophyllin resin by high-performance liquid chromatography 722(1996)267

**Polar compounds**

Retention behaviour of polar compounds using porous graphitic carbon with water-rich mobile phases 712(1995)287

Rapid, quantitative determination of polar compounds in fats and oils by solid-phase extraction and size-exclusion chromatography using monostearin as internal standard 749(1996)55

**Polyacetylneuraminic acid**

Analysis of oligo- and poly-N-acetylneuraminic acids and their lactones by capillary electrophoresis 741(1996)295

**Polyamide**

Supercritical fluid extraction coupled directly with Fourier transform infrared spectrometry 703(1995)537

**Polyamines**

Determination of biogenic amines and their precursor amino acids in wines of the Vallée du Rhône by high-performance liquid chromatography with precolumn derivatization and fluorimetric detection 707(1995)373

Purification of plant polyamines with anion-exchange column clean-up prior to high-performance liquid chromatographic analysis 709(1995)241

Simultaneous determination of amino acids and biogenic amines by reversed-phase high-performance liquid chromatography of the dabsyl derivatives 715(1995)67

Determination of polyamines in serum by high-performance capillary zone electrophoresis with indirect ultraviolet detection 717(1995)345

Effect of polyamines on the separation of ovalbumin glycoforms by capillary electrophoresis 719(1996)159

Automated determination of polyamines by high-performance liquid chromatography with simple sample preparation 730(1996)115

#### **Polyaminopolycarboxylic acids**

Capillary zone electrophoretic and micellar electrokinetic capillary chromatographic separations of polyaminopolycarboxylic acids as their copper complexes 736(1996)333

#### **Polyanions**

Separation of polyphosphates and polycarboxylates by capillary electrophoresis in a carrier electrolyte containing adenosine 5'-triphosphate and cetyltrimethylammonium bromide with indirect UV detection 723(1996)197

#### **Polyaromatic hydrocarbons**

On-line high-performance liquid chromatography-solvent evaporation-high-performance liquid chromatography-capillary gas chromatography-flame ionisation detection for the analysis of mineral oil polyaromatic hydrocarbons in fatty foods 750(1996)361

#### **Poly(butylene glycol)**

High-performance liquid chromatography and detection of polyethers and their mono(carboxy)alkyl and -arylalkyl substituted derivatives (Review) 742(1996)1

#### **Poly(butylene terephthalate)**

Study of an appropriate procedure for the chromatographic analysis of poly(ethylene terephthalate), after melt processing with triphenyl phosphite 725(1996)367

#### **Polycarbonate**

Size-exclusion chromatography on polyhydroxymethacrylate gel with dimethylformamide as eluent 722(1996)123

#### **Polycarboxylates**

Separation of polyphosphates and polycarboxylates by capillary electrophoresis in a carrier electrolyte containing adenosine 5'-triphosphate and cetyltrimethylammonium bromide with indirect UV detection 723(1996)197

#### **Polycarboxylic acids**

Optimization of the separation of polycarboxylic acids by capillary zone electrophoresis 739(1996)389

#### **Polychlorinated biphenyls**

Enhanced selectivity in the analysis of chlorobiphenyls on a carborane phenylmethylsiloxane copolymer gas chromatography phase (HT-8) 708(1995)115

Application of experimental design approach to the optimization of supercritical fluid extraction of polychlorinated biphenyls and polycyclic aromatic hydrocarbons 719(1996)77

Extraction and clean-up methods for improvement of the chromatographic determination of polychlorinated biphenyls in sewage sludge-amended soils: elimination of lipids and sulphur 719(1996)121

Capillary gas chromatography combined with atomic emission detection for the analysis of polychlorinated biphenyls 723(1996)337

Enantioselective analysis of chiral polychlorinated biphenyls in sediment samples by multidimensional gas chromatography-electron-capture detection after steam distillation-solvent extraction and sulfur removal 723(1996)399

Enantioselective separation of polychlorinated biphenyl atropisomers using chiral high-performance liquid chromatography 724(1996)219

Retention index system for identification of polychlorinated biphenyl congeners in gas chromatographic analysis 724(1996)392

Current developments in the analysis of water pollution by polychlorinated biphenyls 733(1996)449

Gel permeation chromatography-high-performance liquid chromatography combination as an automated clean-up technique for the multiresidue analysis of fats 737(1996)9

Determination of retention indices of polychlorobiphenyls by using other compounds detectable by electron-capture detection or selected polychlorobiphenyls as the reference series 741(1996)241

A new fast method for field screening of polychlorinated biphenyls in air 750(1996)151

Application of <sup>13</sup>C-labelled polychlorinated biphenyl congener 153 as internal standard in the gas chromatographic-mass spectrometric analysis of polychlorinated biphenyls 750(1996)245

#### **Polychlorinated dibenzodioxins**

Derivation of solubility parameters of chlorinated dibenzofurans and dibenzo[*p*]dioxins from gas chromatographic retention parameters via SOFA 715(1995)267

Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107

**Polychlorinated dibenzofurans**

Derivation of solubility parameters of chlorinated dibenzofurans and dibenzo[*p*]dioxins from gas chromatographic retention parameters via SOFA 715(1995)267

Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107

**Polychlorinated naphthalenes**

Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107

**Polycitraconic acid**

Pyrolytic alkylation-gas chromatography-mass spectrometry of model polymers. Further insights into the mechanism and scope of the technique 750(1996)155

**Polycyclic aromatic hydrocarbons**

see Polynuclear aromatic hydrocarbons

**Polycyclic aromatic ketones**

Determination of benzanthrone in environmental samples 710(1995)109

**Polydimethylaminostyrene**

Size-exclusion chromatography on polyhydroxymethacrylate gel with dimethylformamide as eluent 722(1996)123

**Polydivinylbenzene**

Enhancing the anion separations on a polydivinylbenzene-based anion stationary phase 739(1996)99

**Polyelectrolytes**

Solution properties of polyelectrolytes. XII. Semi-quantitative approach to mixed electrostatic and hydrophobic polymer-gel interactions 721(1996)203

**Polyesters**

Supercritical fluid extraction coupled directly with Fourier transform infrared spectrometry 703(1995)537

Study of an appropriate procedure for the chromatographic analysis of poly(ethylene terephthalate), after melt processing with triphenyl phosphite 725(1996)367

Characterization of low-molar-mass polymers by gradient polymer elution chromatography 746(1996)211

**Polyethers**

High-performance liquid chromatography and detection of polyethers and their mono(carboxy)alkyl and -arylalkyl substituted derivatives (Review) 742(1996)1

**Polyethoxylated alkyl sulfate**

Industrial applications of capillary zone electrophoresis-mass spectrometry 712(1995)269

**Polyethoxylates**

Chromatographic determination of non-ionic aliphatic surfactants of the alcohol polyethoxylate type in the environment (Review) 733(1996)193

Separation of ionic and neutral surfactants by capillary electrophoresis and high-performance liquid chromatography 745(1996)281

**Poly(ethylene glycol)**

Hydrogen-bonding interaction in capillary electrophoresis using polyether matrices 711(1995)305

Two-stage resolution of mixtures by supercritical fluid chromatography 722(1996)317

Determination of polyethylene glycols in water by reversed-phase high-performance liquid chromatography 723(1996)243

High-performance liquid chromatographic analysis of mupirocin in polyethylene glycols 400 and 3350 using dual ultraviolet and evaporative light scattering detection 732(1996)399

Direct comparison of evaporative light-scattering and condensation nucleation light-scattering detection for liquid chromatography 736(1996)11

High-performance liquid chromatography and detection of polyethers and their mono(carboxy)alkyl and -arylalkyl substituted derivatives (Review) 742(1996)1

Separation of alkali and alkaline-earth metal and ammonium cations by capillary electrophoresis using poly(ethylene glycol) and tartaric acid 742(1996)281

Method for obtaining unique selectivities in ion-exchange chromatography by addition of organic polymers to the mobile phase 743(1996)51

Thiol pegylation facilitates purification of chymopapain leading to diffraction studies at 1.4 Å resolution 749(1996)69

**Poly(ethylene glycol dimethacrylate-hydroxyethyl methacrylate)**

Congo Red and Cu(II) carrying poly(ethylene glycol dimethacrylate-hydroxyethyl methacrylate) microbeads as specific sorbents. Albumin adsorption/desorption 731(1996)57

**[Poly(ethylene glycol monomethyl ether)] hydrogensulfates**

Polyethylene glycol monomethyl ether sulfate-based background electrolytes in capillary electrophoresis 744(1996)75

**Polyethyleneimine**

Separation of basic proteins in free solution capillary electrophoresis: effect of additive, temperature and voltage 742(1996)257

**Poly(ethylene oxides)**

Quantitative trace analysis of surfactant mixtures by reversed-phase high-performance liquid chromatography with refractometric detection 730(1996)209

Direct comparison of evaporative light-scattering and condensation nucleation light-scattering detection for liquid chromatography 736(1996)11

**Poly(ethylene-propylene glycol)**

Poly(ethylene-propylene glycol)-modified fused-silica columns for capillary electrophoresis using epoxy resin as intermediate coating 741(1996)115

**Poly(ethylene terephthalate)**

Qualitative liquid chromatographic-atmospheric-pressure chemical-ionisation mass spectrometric analysis of polyethylene terephthalate oligomers 712(1995)191

Study of an appropriate procedure for the chromatographic analysis of poly(ethylene terephthalate), after melt processing with triphenyl phosphite 725(1996)367

**Poly(glycidyl methacrylate-co-ethylene dimethacrylate)**

Modified poly(glycidyl methacrylate-co-ethylene dimethacrylate) continuous rod columns for preparative-scale ion-exchange chromatography of proteins 702(1995)89

**Poly(lactic acids)**

Monitoring of the poly(D,L-lactic acid) degradation by-products by capillary zone electrophoresis 711(1995)323

**Polymeric phase-transfer catalyst**

Gas chromatographic determination and gas chromatographic-mass spectrometric determination of dialkyl phosphates via extractive pentafluorobenzoylation using a polymeric phase-transfer catalyst 718(1995)383

**Polymeric samples**

Investigation of parameters affecting the on-line combination of supercritical fluid extraction with capillary gas chromatography 750(1996)215

**Polymers**

Determination of the compositional heterogeneity of polydisperse polymer samples by the coupling of size-exclusion chromatography and thermal field-flow fractionation 703(1995)245

Salt effect on size-exclusion chromatography of partially sulfonated alternating copolymers of maleic acid and styrene in a polar solvent 704(1995)149

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

Critical retention behaviour of polymers 727(1996)13

Influence of injected mass and ionic strength on retention of water-soluble polymers and proteins in hollow-fibre flow field-flow fractionation 732(1996)307

Determination of the chemical composition distribution of copolymers of styrene and butadiene by gradient polymer elution chromatography 736(1996)125

Packed-column hydrodynamic chromatography using 1- $\mu$ m non-porous silica particles 740(1996)159

Solid-phase extraction and subsequent gas chromatography-mass spectrometry analysis for identification of complex mixtures of degradation products in starch-based polymers 741(1996)251

Characterization of low-molar-mass polymers by gradient polymer elution chromatography 746(1996)211

Pyrolytic alkylation-gas chromatography-mass spectrometry of model polymers. Further insights into the mechanism and scope of the technique 750(1996)155

**Polymethane**

Supercritical fluid extraction coupled directly with Fourier transform infrared spectrometry 703(1995)537

**Poly(methyl methacrylate)**

Influence of bulk and surface composition on the retention of colloidal particles in thermal field-flow fractionation 715(1995)117

Packed-column hydrodynamic chromatography using 1- $\mu$ m non-porous silica particles 740(1996)159

**Polymethylphenylsiloxanes**

Chemically bonded phenylsilicone stationary phases for the liquid chromatographic separation of polycyclic aromatic hydrocarbons and cyclosiloxanes 722(1996)97

**Polynuclear aromatic hydrocarbons**

Selected applications of the use of supercritical fluids in coupled systems 703(1995)467

Packed column supercritical fluid chromatography-mass spectrometry with particle beam interface aided with particle forming solvent 703(1995)489

Performance characteristics of a real-time direct deposition supercritical fluid chromatography-Fourier transform infrared spectrophotometry system 703(1995)503

Fractionation by planar chromatography of a coal tar pitch for characterisation by size-exclusion chromatography, UV fluorescence and direct-probe mass spectrometry 708(1995)143

Application of chromatographic studies of air pollution in China 710(1995)21

Recent applications of gas and high-performance liquid chromatographic techniques to the analysis of polycyclic aromatic hydrocarbons in airborne particulates 710(1995)79

Air sampling and analysis of polycyclic aromatic hydrocarbons 710(1995)93

Monitoring polycyclic aromatic hydrocarbons in waste gases 710(1995)129

Pentafluorobenzyl derivatives for the gas chromatographic determination of hydroxy-polycyclic aromatic hydrocarbons in urban aerosols 710(1995)139

- Separation of  $^{32}\text{P}$ -labeled 3',5'-bisphosphate nucleotides of polycyclic aromatic hydrocarbon *anti*-diol-epoxides and derivatives 710(1995)149
- Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography–mass spectrometry 712(1995)321
- Determination of hydroxy-substituted polycyclic aromatic hydrocarbons by high-performance liquid chromatography with electrochemical detection 715(1995)41
- Determination of polycyclic aromatic hydrocarbons in soil samples by micellar electrokinetic capillary chromatography with photodiode-array detection 717(1995)309
- Separation of planar organic contaminants by pyrenyl-silica high-performance liquid chromatography 718(1995)107
- Application of experimental design approach to the optimization of supercritical fluid extraction of polychlorinated biphenyls and polycyclic aromatic hydrocarbons 719(1996)77
- Chromatographic evaluation of some selected polycyclic aromatic hydrocarbons of coal tars produced under different coking conditions and pitches derived from them 719(1996)181
- Initial experiments in high-performance liquid chromatographic method development. I. Use of a starting gradient run 721(1996)3
- Chemically bonded phenylsilicone stationary phases for the liquid chromatographic separation of polycyclic aromatic hydrocarbons and cyclosiloxanes 722(1996)97
- Optimization of microwave-assisted solvent extraction of polycyclic aromatic hydrocarbons in marine sediments using a microwave extraction system with high-performance liquid chromatography–fluorescence detection and gas chromatography–mass spectrometry 723(1996)259
- Direct determination of coronene in heavy oil fraction by high-performance liquid chromatography 724(1996)337
- Determination of polycyclic aromatic hydrocarbons in precipitation using solid-phase extraction and column liquid chromatography 725(1996)261
- Novel additives for the separation of organic compounds by high-performance liquid chromatography 728(1996)235
- High-performance liquid chromatography with non-aqueous solvents. Relative elution strength on a polystyrene–divinylbenzene column 728(1996)271
- Simultaneous identification of different classes of hydrocarbons and determination of nitro-polycyclic aromatic hydrocarbons by means of particle beam liquid chromatography–mass spectrometry 728(1996)359
- Portable liquid chromatograph for mobile laboratories. I. Aims 728(1996)387
- Preliminary experiments for the analysis of tetrahydrotetraols of benz[*a*]anthracene and benzo[*a*]pyrene derived from their hemoglobin adducts using a coupled-column high-performance liquid chromatographic system 730(1996)153
- Determination of polycyclic aromatic hydrocarbons in water samples using high-performance liquid chromatography with amperometric detection 730(1996)169
- Determination of hydroxy polycyclic aromatic hydrocarbons by liquid chromatography–mass spectrometry 731(1996)75
- Solid-phase extraction for the selective isolation of polycyclic aromatic hydrocarbons, azaarenes and heterocyclic aromatic amines in charcoal-grilled meat 731(1996)85
- Detectability enhancement by the use of large-volume injections in gas chromatography–cryotrapping–Fourier transform infrared spectrometry 732(1996)75
- Analysis of 23 polynuclear aromatic hydrocarbons from natural water at the sub-ng/l level using solid-phase disk extraction and mass-selective detection 732(1996)85
- Determination of solute–micelle association constants for a group of benzene derivatives and polycyclic aromatic hydrocarbons with sodium dodecyl sulphate by micellar electrokinetic chromatography 732(1996)345
- Solid-phase microextraction coupled to gas chromatography: a new method for the analysis of organics in water 733(1996)143
- Occurrence and determination of organic pollutants in tap and surface waters of the Gdańsk district 733(1996)171
- New approach to the characterization of pyrolysis coal products by gas chromatography–mass spectrometry 736(1996)185
- Application of radio-chromatographic techniques to diesel emissions research 737(1996)181
- Optimization of a drying method for filtered suspended solids from natural waters for supercritical fluid extraction analysis of hydrophobic organic compounds 738(1996)253
- Optimizing split/splitless injection port parameters for solid-phase microextraction 740(1996)139
- Correlation between the logarithm of capacity factors for aromatic compounds in micellar electrokinetic chromatography and their octanol–water partition coefficients 742(1996)251
- Capillary electrochromatography – a high-efficiency micro-separation technique 744(1996)63

Investigation of parameters affecting the on-line combination of supercritical fluid extraction with capillary gas chromatography 750(1996)215

Coupling of thermal desorption in modified closeable sampling columns with wide-bore capillary gas chromatography and mass spectrometric detection 750(1996)239

Determination of polycyclic aromatic hydrocarbons in edible oils and fats by on-line donor-acceptor complex chromatography and high-performance liquid chromatography with fluorescence detection 750(1996)263

Surface ionization detector with a supersonic free jet for gas chromatography. Some applications 750(1996)335

On-line high-performance liquid chromatography-solvent evaporation-high-performance liquid chromatography-capillary gas chromatography-flame ionisation detection for the analysis of mineral oil polyaromatic hydrocarbons in fatty foods 750(1996)361

#### **Polynucleotides**

see Special Issue Index

#### **Polyols**

Ion-exclusion chromatography of ethanolamines on an anion-exchange resin by elution with polyols and sugars 739(1996)317

#### **Poly(perfluoroalkyl ether)**

Thermodynamic consideration of the retention mechanism in a poly(perfluoroalkyl ether) gas chromatographic stationary phase used in packed columns 715(1995)299

#### **Polyphenolic compounds**

Automation of sample preparation as a preliminary stage in the high-performance liquid chromatographic determination of polyphenolic compounds in sherry wines 730(1996)39

#### **Polyphenols**

Resolution of complex mixtures of non-flavonoid polyphenols by column-switching high-performance liquid chromatography using octadecylsilica and graphitized carbon columns 724(1996)67

Selection of column and gradient for the separation of polyphenols in sherry wine by high-performance liquid chromatography incorporating internal standards 724(1996)117

Solid-phase extraction and high-performance liquid chromatographic determination of polyphenols in apple musts and ciders 727(1996)203

#### **Polyphosphates**

Separation of polyphosphates and polycarboxylates by capillary electrophoresis in a carrier electrolyte containing adenosine 5'-triphosphate and cetyltrimethylammonium bromide with indirect UV detection 723(1996)197

Comparison of polyphosphate analysis by ion chromatography and by modified end-group titration 739(1996)217

#### **Polypropylenamine dendrimers**

Exclusion chromatography of polypropylenamine dendrimers 730(1996)75

#### **Poly(propylene glycol)**

Two-stage resolution of mixtures by supercritical fluid chromatography 722(1996)317

High-performance liquid chromatography and detection of polyethers and their mono(carboxy)alkyl and -arylalkyl substituted derivatives (Review) 742(1996)1

#### **Polysaccharides**

see also Saccharides

Recent progress in carbohydrate separation by high-performance liquid chromatography based on size exclusion 720(1996)151

Fluorophore-assisted carbohydrate electrophoresis in the separation, analysis, and sequencing of carbohydrates 720(1996)295

Separation of negatively charged carbohydrates by capillary electrophoresis 720(1996)323

On-line quantitation of enzymatic mannan hydrolysates in small-volume bioreactors by microdialysis sampling and column liquid chromatography-integrated pulsed electrochemical detection 725(1996)165

Enantiomer separation of basic drugs by capillary electrophoresis using ionic and neutral polysaccharides as chiral selectors 735(1996)345

Purification of the monoclonal heparin antibody H-1.18 744(1996)215

#### **Poly(sodium N-undecyl valinate)**

Combined polymerized chiral micelle and  $\gamma$ -cyclodextrin for chiral separation in capillary electrophoresis 711(1995)297

#### **Polystyrene**

Influence of bulk and surface composition on the retention of colloidal particles in thermal field-flow fractionation 715(1995)117

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

Critical retention behaviour of polymers 727(1996)13

Development and application of radio-size-exclusion chromatography 727(1996)61

Packed-column hydrodynamic chromatography using 1- $\mu$ m non-porous silica particles 740(1996)159

**Polystyrene-butadiene**

Determination of the chemical composition distribution of copolymers of styrene and butadiene by gradient polymer elution chromatography 736(1996)125

**Polystyrene sulfonate**

Influence of injected mass and ionic strength on retention of water-soluble polymers and proteins in hollow-fibre flow field-flow fractionation 732(1996)307

**Polyunsaturated fatty acids**

Counter-current chromatographic separation of polyunsaturated fatty acids 704(1995)211

Distinction between enzymic and nonenzymic lipid peroxidation 743(1996)293

**Polyurethanes**

Gel permeation chromatographic method for monitoring the transesterification reaction in a two-step chemoenzymatic synthesis of urethane oil based on vegetable oils 718(1995)299

**Poly(vinyl alcohol)**

Separation of basic proteins in free solution capillary electrophoresis: effect of additive, temperature and voltage 742(1996)257

**Poly(vinyl chloride)**

Analysis of poly(vinyl chloride) additives by supercritical fluid extraction and gas chromatography 750(1996)183

**Ponceau 4R**

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

**Porphobilinogen**

Determination of 5-aminolaevulinic acid dehydratase activity in erythrocytes and porphobilinogen in urine by micellar electrokinetic capillary chromatography 722(1996)353

**Potassium**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Cation trace analysis of snow and firn samples from high-alpine sites by ion chromatography 706(1995)249

Ion chromatography as potential reference methodology for the determination of total sodium and potassium in human serum 706(1995)443

Controlled changes in selectivity of cation separations by capillary electrophoresis using various crown-ether additives 745(1996)87

**Potassium chloride**

Separation of basic proteins in free solution capillary electrophoresis: effect of additive, temperature and voltage 742(1996)257

**Potassium cobalt hexacyanoferrate**

Determination of Cs-137 in environmental water by ion-exchange chromatography (Review) 733(1996)57

**Praziquantel**

Preliminary design of a simulated counter-current chromatographic system for the separation of praziquantel enantiomers 734(1996)247

**Priority phenols**

Capillary zone electrophoresis/electrospray mass spectrometry of priority phenols 743(1996)315

**Priority pollutants**

Separation of priority pollutant phenols on chemically modified poly(styrene-divinylbenzene) resins by high-performance liquid chromatography 715(1995)213

**Probenecid**

Capillary electrophoresis of diuretics (Review) 735(1996)151

**Procyanidins**

Determination of some structural features of procyanidins and related compounds by photodiode-array detection 723(1996)19

**Profens**

Incremental development of chiral selectors for underivatized profens 736(1996)31

**Proline**

Selective determination of peptides containing specific amino acid residues by high-performance liquid chromatography and capillary electrophoresis 704(1995)27

Capillary zone electrophoresis at subzero temperatures. I. Separation of the *cis* and *trans* conformers of small peptides 716(1995)167

Kinetic study on the *cis-trans* isomerization of peptidyl-proline dipeptides 744(1996)259

**Proline peptides**

Isolation and identification of peptide conformers by reversed-phase high-performance liquid chromatography and NMR at low temperature 729(1996)155

**Promazin**

Stepwise binary gradient high-performance liquid chromatographic system for routine drug monitoring 728(1996)307

**Promethazine**

Preparation and enantioselectivity of (*S*)-binaphthol-bonded phase for high-performance liquid chromatography 736(1996)39

**Prometryne**

On-line partial filling micellar electrokinetic chromatography–electrospray ionization mass spectrometry 749(1996)219

**Propafenone**

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

**Propane-based halocarbons**

Retention of halocarbons on a hexafluoropropylene epoxide-modified graphitized carbon black. IV. Propane-based compounds 708(1995)293

**n-Propanethiol**

Calibration of the thermal desorption-gas chromatography–mass spectrometry system using standards generated in the process of thermal decomposition of chemically modified silica gel 742(1996)175

**Propazine**

On-line partial filling micellar electrokinetic chromatography–electrospray ionization mass spectrometry 749(1996)219

**Propellants**

Optimization of electron-capture detector when using packed-column supercritical fluid chromatography with modified carbon dioxide 723(1996)361

**Propene**

Assessment by gas chromatography and gas chromatography–mass spectrometry of volatile hydrocarbons from biomass burning 710(1995)71

Determination of adsorption equilibrium constants by reversed-flow gas chromatography 736(1996)151

**Propionic acid, chlorinated**

Analysis of chlorinated acetic and propionic acids as their pentafluorobenzyl derivatives. I. Preparation of the derivatives 718(1995)391

**Propranolol**

Application of modified cyclodextrins in capillary electrophoresis for enantiomeric resolution of propranolol and analogues 705(1995)351

Comparison of softwares used for the detection of analytes present at low levels in liquid chromatographic–mass spectrometric experiments 712(1995)31

Enantiomeric purity determination of propranolol by cyclodextrin-modified capillary electrophoresis 717(1995)203

Preparation and enantioselectivity of (*S*)-binaphthol-bonded phase for high-performance liquid chromatography 736(1996)39

**Propylparaben**

Determination of gentiopicoside, mangiferin, palmatine, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

**Propyphenazone**

Application of high-performance liquid chromatography with diode-array detection and on-line post-column photochemical derivatization to the determination of analgesics 729(1996)355

**Prostaglandin E<sub>1</sub>**

Method of increasing the sensitivity of liquid chromatography–atmospheric pressure chemical ionization mass spectrometry using a semi-micro column 715(1995)13

**Prostaglandins**

Enantiomeric enrichment of partially resolved 4-hydroxy-2-carboxymethylcyclopentanone derivatives by achiral phase chromatography 708(1995)231

**Protamine**

Development of protamine-bonded phase for separation of saccharides in liquid chromatography 737(1996)149

**Proteases**

Studies of complexes between proteases, substrates and the protease inhibitor  $\alpha_2$ -macroglobulin using capillary electrophoresis with laser-induced fluorescence detection 716(1995)363

**Protein A**

Confocal microscopy as a tool for studying protein adsorption to chromatographic matrices 743(1996)75

**Proteinases**

Unusual chromatographic behaviour and one-step purification of a novel membrane proteinase from *Bacillus cereus* 715(1995)247

**Protein HC**

Spectroscopic characterization by photodiode array detection of human urinary and amniotic protein HC subpopulations fractionated by anion-exchange and size-exclusion high-performance liquid chromatography 719(1996)149

**Protein modifications**

Separation of acetylated core histones by hydrophilic-interaction liquid chromatography 743(1996)137

**Proteins**

see also Antibodies, Enzymes, Monoclonal antibodies and Special Issue Index

Validation studies in the regeneration of ion-exchange celluloses 702(1995)59

Modified poly(glycidyl methacrylate–co-ethylene dimethacrylate) continuous rod columns for preparative-scale ion-exchange chromatography of proteins 702(1995)89

- Model for ion-exchange equilibria of macromolecules in preparative chromatography 702(1995)113
- Modeling non-linear elution of proteins in ion-exchange chromatography 702(1995)125
- Ion-exchange displacement chromatography of proteins. Dendritic polymers as novel displacers 702(1995)143
- Effect of stationary phase on preparative protein separation in reversed-phase chromatography 702(1995)157
- Separation of biotin labeled proteins from their unlabeled counterparts using immobilized platinum affinity chromatography 702(1995)173
- Egg yolk riboflavin binding protein as a new chiral stationary phase in high-performance liquid chromatography 704(1995)55
- High-speed high-performance liquid chromatography of peptides and proteins 705(1995)3
- Protein mass spectrometry: applications to analytical biotechnology 705(1995)21
- Chemical methods of protein sequence analysis 705(1995)47
- Isoelectric focusing as a tool for the investigation of post-translational processing and chemical modifications of proteins 705(1995)67
- Host cell contaminant protein assay development for recombinant biopharmaceuticals 705(1995)105
- Moisture content in proteins: its effects and measurement 705(1995)115
- Processing of C-terminal lysine and arginine residues of proteins isolated from mammalian cell culture 705(1995)129
- High-performance capillary electrophoretic separation of human serum albumin using a neutral coated capillary 705(1995)335
- Determination of amino acids in biomass and protein samples by microwave hydrolysis and ion-exchange chromatography 706(1995)421
- Nuclear magnetic resonance and the design of chromatographic separations 707(1995)45
- Antibiotics as low-molecular-mass displacers in ion-exchange displacement chromatography 707(1995)57
- Electrochromatographic separation of proteins 707(1995)69
- Free-solution electrophoresis of proteins in an improved density gradient column and by capillary electrophoresis 707(1995)77
- Purification of antibody Fab fragments by cation-exchange chromatography and pH gradient elution 707(1995)225
- Analysis of recombinant human growth hormone and its related impurities by capillary electrophoresis 707(1995)396
- Development and monitoring of purification process for nerve growth factor fusion antibody 708(1995)61
- Performance of a physically adsorbed high-molecular-mass polyethyleneimine layer as coating for the separation of basic proteins and peptides by capillary electrophoresis 708(1995)356
- Capillary zone electrophoresis of serum proteins: study of separation variables 709(1995)99

- Conformational effects in reversed-phase high-performance liquid chromatography of polypeptides. II. The role of insulin A and B chains in the chromatographic behaviour of insulin 711(1995)71
- Identification of a new genetic variant of bovine  $\beta$ -casein using reversed-phase high-performance liquid chromatography and mass spectrometric analysis 711(1995)141
- Purification of unstable proteins from *Halobacterium salinarum* crude cell extracts: combined cell disruption and desalting by a hollow-fiber membrane module as an access to perform ion-exchange chromatography 711(1995)175
- Characterization of molecular aggregates of  $\alpha_1\beta_1$ -integrin and other rat liver membrane proteins by combination of size-exclusion chromatography and chemical cross-linking 711(1995)187

- Capillary and rotating-tube isoelectric focusing of a transmembrane protein, the human red cell glucose transporter 711(1995)217
- Liquid chromatography–time-of-flight mass spectrometry with continuous-flow matrix-assisted laser desorption ionization 711(1995)235
- Gel electrophoretic analysis of cellular and secreted proteins from resting and activated rat alveolar macrophages treated with pentamidine isethionate 711(1995)331
- Surface modification of microporous polyamide membranes with hydroxyethyl cellulose and their application as affinity membranes 715(1995)49
- Pre-column derivatization of proteins to enhance detection sensitivity for sodium dodecyl sulfate non-gel sieving capillary electrophoresis 715(1995)167
- Preparation and stability tests for polyacrylamide-coated capillaries for capillary electrophoresis 716(1995)27
- Analysis of protein fractions by micropreparative capillary isoelectric focusing and matrix-assisted laser desorption time-of-flight mass spectrometry 716(1995)157
- Capillary zone electrophoretic resolution of recombinant human bone morphogenetic protein 2 glycoforms. An investigation into the separation mechanisms for an exquisite separation 716(1995)401
- Capillary electrophoretic separation of proteins using stable, hydrophilic poly(acryloylaminoethoxyethanol)-coated columns 717(1995)1
- Use of plate numbers achieved in capillary electrophoretic protein separations for characterization of capillary coatings 717(1995)15
- Capillary electrophoresis, a rapid and sensitive method for routine analysis of apolipoprotein A-I in clinical samples 717(1995)25
- Optimization of hapten–protein conjugation by high-performance capillary electrophoresis 717(1995)75
- Demonstration of a heparin-binding site in serum amyloid P component using affinity capillary electrophoresis as an adjunct technique 717(1995)83
- Preparation of a hydrophobic porous membrane containing phenyl groups and its protein adsorption performance 718(1995)27
- Differences in the glycosylation of recombinant and native human milk bile salt-stimulated lipase revealed by peptide mapping 718(1995)53
- Effects of salts and the surface hydrophobicity of proteins on partitioning in aqueous two-phase systems containing thermoseparating ethylene oxide–propylene oxide copolymers 718(1995)67
- Analysis of the glycoforms of human recombinant factor VIIa by capillary electrophoresis and high-performance liquid chromatography 718(1995)195
- Spectroscopic characterization by photodiode array detection of human urinary and amniotic protein HC subpopulations fractionated by anion-exchange and size-exclusion high-performance liquid chromatography 719(1996)149
- Effect of polyamines on the separation of ovalbumin glycoforms by capillary electrophoresis 719(1996)159
- Performance of pH elution in high-performance affinity chromatography of proteins using non-porous silica 721(1996)31
- Mobile phase effects on membrane protein elution during immobilized artificial membrane chromatography 721(1996)213
- Characterization of ewe's milk by capillary zone electrophoresis 721(1996)345
- Synthesis and characterization of polymer-coated mixed-functional stationary phases with several different hydrophobic groups for direct analysis of biological samples by liquid chromatography 722(1996)115
- Characterization of a novel stationary phase derived from a hydrophilic polystyrene-based resin for protein cation-exchange high-performance liquid chromatography 723(1996)1
- Epoxy resin coatings for capillary zone electrophoretic separation of basic proteins 723(1996)157
- Liquid chromatographic and capillary electrophoretic examination of intact and degraded fusion protein CTLA4lg and kinetics of conformational transition 723(1996)273
- Quantification of the major bovine whey proteins using capillary zone electrophoresis 723(1996)371
- Monitoring of hapten–protein coupling reactions by capillary zone electrophoresis: improvement of abscisic acid–bovine serum albumin coupling and determination of molar coupling ratios 723(1996)381
- Countercurrent chromatographic analysis of ovalbumin obtained from various sources using the cross-axis coil planet centrifuge 724(1996)179
- Multipoint binding in metal-affinity chromatography 725(1996)225
- Optimization of preparative ion-exchange chromatography of proteins: linear gradient separations 725(1996)295

- Mechanistic model of retention in protein ion-exchange chromatography 726(1996)45
- Multiple-plug binding assays using affinity capillary electrophoresis 727(1996)291
- Controlled mixed-mode interaction chromatography on membrane adsorbers 728(1996)129
- Characterization of wide-pore reversed-phase columns for biopolymer separations. I. Single-parametric evaluation 728(1996)179
- Retention behaviour of proteins under conditions of column overload in hydrophobic interaction chromatography 729(1996)43
- Influence of temperature on the retention behaviour of proteins in cation-exchange chromatography 729(1996)49
- Temperature-induced changes in the bandwidth behaviour of proteins separated with cation-exchange adsorbents 729(1996)67
- Rapid separation of peptides and proteins on 2- $\mu$ m porous microspherical reversed-phase silica material 729(1996)81
- Preparative membrane adsorber chromatography for the isolation of cow milk components 729(1996)87
- Perfusion liquid chromatography of whey proteins 729(1996)99
- Analysis of recombinant human interleukin-11 fusion protein derived from *Escherichia coli* lysate by combined size-exclusion and reversed-phase liquid chromatography 729(1996)113
- Capillary column high-performance liquid chromatographic–electrospray ionization triple-stage quadrupole mass spectrometric analysis of proteins separated by two-dimensional polyacrylamide gel electrophoresis. Application to cerebellar protein mapping 730(1996)279
- Separation of basic proteins by capillary zone electrophoresis with coatings of a copolymer of vinylpyrrolidone and vinylimidazole 730(1996)289
- Congo Red and Cu(II) carrying poly(ethylene glycol dimethacrylate–hydroxyethyl methacrylate) microbeads as specific sorbents. Albumin adsorption/desorption 731(1996)57
- Non-bonded poly(ethylene oxide) polymer-coated column for protein separation by capillary electrophoresis 731(1996)273
- Isolation of calcium-binding proteins on selective adsorbents 732(1996)261
- Influence of injected mass and ionic strength on retention of water-soluble polymers and proteins in hollow-fibre flow field-flow fractionation 732(1996)307
- Influence of flow-rate on the chromatographic performance of agarose- and cellulose-based anion-exchange media 734(1996)137
- Adsorption isotherms in protein chromatography. Combined influence of protein and salt concentration on adsorption isotherm 734(1996)183
- Separation and molecular mass distribution of rice proteins by size-exclusion high-performance liquid chromatography in a dissociating buffer 734(1996)195
- Solute retention of lysozyme in hydrophobic interaction perfusion chromatography 734(1996)205
- Postcolumn reactor in capillary electrophoresis for laser-induced fluorescence detection 734(1996)331
- Potential of on-line isotachopheresis–capillary zone electrophoresis with hydrodynamic counterflow in the analysis of various basic proteins and recombinant human interleukin-3 734(1996)381
- Capillary isoelectric focusing as a tool in the examination of antibodies, peptides and proteins of pharmaceutical interest 735(1996)165
- Improved potency assay for recombinant bovine somatotropin by high-performance size-exclusion chromatography 736(1996)97
- Isolation by gel-permeation chromatography of a non-covalent complex of Cibacron Blue F3G-A with human serum albumin 736(1996)115
- Electrochromatography in chemically modified etched fused-silica capillaries 736(1996)255
- Large-scale amino-acid analysis for proteome studies 736(1996)291
- Purification of hydrophobic integral membrane proteins from *Mycoplasma hyopneumoniae* by reversed-phase high-performance liquid chromatography 737(1996)273
- Dispersion effects accompanying pressurized zone mobilisation in capillary isoelectric focusing of proteins 738(1996)123
- Absolute on-line molecular mass analysis of basic fibroblast growth factor and its multimers by reversed-phase liquid chromatography with multi-angle laser light scattering detection 740(1996)215
- Determination of peptidoglycan-associated protein in *Escherichia coli* NCIB 8545 by capillary zone electrophoresis 740(1996)273
- Poly(ethylene–propylene glycol)-modified fused-silica columns for capillary electrophoresis using epoxy resin as intermediate coating 741(1996)115

- Capillary electrophoresis of glycosylated proteins performed on a conventional capillary gas chromatographic column 741(1996)139
- Mathematical modelling and computer simulation of aqueous two-phase continuous protein extraction 741(1996)151
- Fast large-scale purification of tetracycline repressor variants from overproducing *Escherichia coli* strains 742(1996)95
- Affinity chromatography of trypsin using chitosan as ligand support 742(1996)107
- Separation of basic proteins in free solution capillary electrophoresis: effect of additive, temperature and voltage 742(1996)257
- Study of protein binding to a silica support with a polymeric cation-exchange coating 743(1996)15
- Lateral interaction between electrostatically adsorbed and covalently immobilized proteins on the surface of cation-exchange sorbents 743(1996)25
- Fast, reproducible size-exclusion chromatography of biological macromolecules 743(1996)43
- Method for obtaining unique selectivities in ion-exchange chromatography by addition of organic polymers to the mobile phase 743(1996)51
- Studies on the expansion characteristics of fluidised beds with silica-based adsorbents used in protein purification 743(1996)57
- Confocal microscopy as a tool for studying protein adsorption to chromatographic matrices 743(1996)75
- Automated proteolytic mapping of proteins 743(1996)91
- Characterisation of silica-based heparin-affinity adsorbents through column chromatography of plasma fractions containing thrombin 743(1996)145
- Influence of column type and chromatographic conditions on the ion-exchange chromatography of immunoglobulins 743(1996)171
- Perfusion chromatography – characterization of column packings for chromatography of proteins 743(1996)221
- Specific determination of tyrosine-phosphorylated proteins and peptides by differential iodination 743(1996)273
- Hydrolytically stable amino-silica glass coating material for manipulation of the electroosmotic flow in capillary electrophoresis 744(1996)17
- Examination of capillary zone electrophoresis, capillary isoelectric focusing and sodium dodecyl sulfate capillary electrophoresis for the analysis of recombinant tissue plasminogen activator 744(1996)155
- Comparative peptide mapping of a hepatitis C viral recombinant protein by capillary electrophoresis and matrix-assisted laser desorption time-of-flight mass spectrometry 744(1996)177
- Screening and identification of familial defective apolipoprotein B-100 in clinical samples by capillary gel electrophoresis 744(1996)187
- Rapid capillary electrophoretic analysis of human serum proteins: qualitative comparison with high-throughput agarose gel electrophoresis 744(1996)205
- Comparison of ampholytes used for slab gel and capillary isoelectric focusing of recombinant tissue-type plasminogen activator glycoforms 744(1996)279
- Fluorescence-based polymerase chain reaction–single-strand conformation polymorphism analysis of p53 gene by capillary electrophoresis 744(1996)311
- Argon-laser-induced fluorescence detection in sodium dodecyl sulfate-capillary gel electrophoretic separations of proteins 746(1996)109
- Characterization of protein adsorption by composite silica-polyacrylamide gel anion exchangers 746(1996)169
- Characterization of protein adsorption by composite silica-polyacrylamide gel anion exchangers 746(1996)185
- Capillary electrophoretic examination of underivatized oligosaccharide mixtures released from immunoglobulin G antibodies and CTLA4Ig fusion protein 749(1996)237
- Application of multidimensional affinity high-performance liquid chromatography and electrospray ionization liquid chromatography–mass spectrometry to the characterization of glycosylation in single-chain plasminogen activator 750(1996)35
- Proteomes**  
Large-scale amino-acid analysis for proteome studies 736(1996)291
- Protocatechualdehyde**  
Analysis of the components of *Lycopus europaeus* L. in body fluids during metabolism studies. Comparison of capillary electrophoresis and high-performance liquid chromatography 717(1995)261
- Provitamin D<sub>3</sub>**  
Determination of cholecalciferol and related substances by calcium phosphate hydroxyapatite and calcium phosphate fluoroapatite high-performance liquid chromatography 731(1996)153

**Pseudoephedrine**

Validation of enantiomeric separations by micellar electrokinetic capillary chromatography using synthetic chiral surfactants 735(1996)303

**Pteridines**

Identification of pteridines in the firebug, *Pyrhocoris apterus* (L.) (Heteroptera, Pyrrhocoridae) by high-performance liquid chromatography 724(1996)193

**Pullulan**

Influence of injected mass and ionic strength on retention of water-soluble polymers and proteins in hollow-fibre flow field-flow fractionation 732(1996)307

**Purine nucleotides**

Sample preparation for the determination of purine nucleotide analogues in tissues 729(1996)197

**Purines**

Use of 3-(1,8-naphthalimido)propyl-modified silyl silica gel as a stationary phase for the high-performance liquid chromatographic separation of purine derivatives 722(1996)107

Comparison of capillary electrophoretic and liquid chromatographic determination of hypoxanthine and xanthine for the diagnosis of xanthinuria 730(1996)329

Dynamically generated stationary liquid phase systems with silica and ternary mobile phases containing ethylene glycol and formamide 732(1996)231

**Putrescine**

Determination of polyamines in serum by high-performance capillary zone electrophoresis with indirect ultraviolet detection 717(1995)345

**4-(1-Pyrenyl)butyryl chloride**

Lipopolysaccharide determination by reversed-phase high-performance liquid chromatography after fluorescence labeling 711(1995)277

**Pyrethroids**

Automated solid-phase extraction coupled to gas chromatography with electron-capture detection: a combination of extraction and clean-up of pyrethroids in the analysis of surface water 719(1996)59

Partial least-squares and principal component regression of multi-analyte high-performance liquid chromatography with diode-array detection 727(1996)27

Determination of cypermethrin, fenvalerate and *cis*- and *trans*-permethrin in soil and groundwater by high-performance liquid chromatography using partial least-squares regression 727(1996)39

**Pyridinecarboxamides**

Solubility and polarity parameters for pyridinecarboxamides and their complexes with copper(II) as determined by inverse gas chromatography 740(1996)253

**Pyridine carboxylic acids**

Retention of pyridinecarboxylic acids on monomeric and polymeric alkylamide phases 728(1996)213

**Pyridine-2,6-dicarboxylic acid**

Ion-exchange mechanisms of some transition metals on a mixed-bed resin with a complexing eluent 715(1995)105

**Pyridines**

In situ silylation of silica-based packings using supercritical fluid as reaction medium 724(1996)373

Determination of serotonin released from coffee wax by liquid chromatography 730(1996)59

Optimisation of the separation of the dimethylpyridines by capillary electrophoresis 730(1996)321

Feasibility of supercritical fluid chromatography-chemiluminescent nitrogen detection with open tubular columns 734(1996)303

End-capping of octadecylsilylated silica gels by high-temperature silylation 737(1996)139

**Pyridoxal-5-phosphate**

Highly sensitive and simple liquid chromatographic determination in plasma of B<sub>6</sub> vitamers, especially pyridoxal 5'-phosphate 722(1996)296

**Pyridylazoresorcinol**

Application of thermal lens spectrometric detection to the determination of heavy metals by ion chromatography 739(1996)111

Determination of heavy metals in air particulate matter by ion chromatography 739(1996)233

**Pyrimidines**

Dynamically generated stationary liquid phase systems with silica and ternary mobile phases containing ethylene glycol and formamide 732(1996)231

**Pyromellitate**

Non-suppressed ion chromatography of inorganic anions, magnesium and calcium ions using a pyromellitate eluent and its application in evaluating environmental water quality 731(1996)179

***Pyrhocoris apterus***

Identification of pteridines in the firebug, *Pyrhocoris apterus* (L.) (Heteroptera, Pyrrhocoridae) by high-performance liquid chromatography 724(1996)193

**Pyrrrolizidine alkaloids**

Preparative separation of pyrrrolizidine alkaloids by high-speed counter-current chromatography 732(1996)43

**Pyruvic acid**

Determination of short-chain aliphatic, oxo- and hydroxy- acids in drinking water at low microgram per liter concentrations 723(1996)27

**Q****Quaternary ammonium compounds**

Column liquid chromatography–mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

Capillary electrophoresis of cationic surfactants with tetrazolium violet and of anionic surfactants with adenosine monophosphate and indirect photometric detection 739(1996)405

Ion-pair adsorption chromatography for process purposes 741(1996)185

Reversed-phase high-performance liquid chromatography of molecular species of phospholipid derivatives 741(1996)213

Chiral separation of muscarinic antagonists by capillary zone electrophoresis with cyclodextrin additives 741(1996)287

**Quaternary ammonium compounds, alkylbenzyl**

Separation of alkylbenzyl quaternary ammonium compounds by capillary zone electrophoresis. Effect of organic solvent in sample solution 723(1996)189

**Quaternary ammonium drugs**

Analysis of quaternary ammonium drugs by thermospray liquid chromatography–mass spectrometry using a resin-based stationary phase 741(1996)75

**Quinidine**

Modification of a tunable UV–visible capillary electrophoresis detector for simultaneous absorbance and fluorescence detection: profiling of body fluids for drugs and endogenous compounds 709(1995)147

Investigation and optimisation of the use of organic modifiers in micellar electrokinetic chromatography 716(1995)49

**Quinidine carbamate**

Quinine and quinidine derivatives as chiral selectors 741(1996)33

**Quinine carbamate**

Quinine and quinidine derivatives as chiral selectors 741(1996)33

**Quinine sulfate**

Micellar electrokinetic chromatography–mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69

**Quinolin-8-ol-5-sulfonic acid**

Liquid chromatographic determination of gallium and indium with fluorimetric detection 746(1996)239

**Quinolonecarboxylic acids**

Investigation of enantioselective separation of quinolonecarboxylic acids by capillary zone electrophoresis using vancomycin as a chiral selector 736(1996)303

**Quinolones**

Solvatochromic parameter values and pH in aqueous–organic mixtures used in liquid chromatography Prediction of retention of a series of quinolones 719(1996)27

Retention behavior of quinolones in reversed-phase liquid chromatography 722(1996)69

**R****Ranolazine**

Estimation of ranolazine and eleven Phase I metabolites in human plasma by liquid chromatography–atmospheric pressure chemical ionisation mass spectrometry with selected-ion monitoring 712(1995)55

**Rare earth ions**

Application of Derringer's desirability function for the selection of optimum separation conditions in capillary zone electrophoresis 740(1996)109

**Rare-earth oxides**

Production of rare-earth oxides of high purity 707(1995)131

**Recombinant drugs**

Host cell contaminant protein assay development for recombinant biopharmaceuticals 705(1995)105

**Recombinant proteins**

Detection of traces of a trisulphide derivative in the preparation of a recombinant truncated interleukin-6 mutein 709(1995)135

Capillary zone electrophoretic resolution of recombinant human bone morphogenetic protein 2 glycoforms. An investigation into the separation mechanisms for an exquisite separation 716(1995)401

Improved potency assay for recombinant bovine somatotropin by high-performance size-exclusion chromatography 736(1996)97

#### **Red cell glucose transporter**

Capillary and rotating-tube isoelectric focusing of a transmembrane protein, the human red cell glucose transporter 711(1995)217

#### **Refrigerants**

Retention of halocarbons on a hexafluoropropylene epoxide-modified graphitized carbon black. IV. Propane-based compounds 708(1995)293

#### **Refrigerants, alternative**

Retention of halocarbons on a hexafluoropropylene-epoxide modified graphitized carbon black. Part 5: heavier ethane- and ethene-based compounds 723(1996)325

#### **Reserpine**

Application of liquid chromatography-atmospheric pressure chemical ionization mass spectrometry to a sector mass spectrometer 712(1995)17

#### **Resin acids**

Supercritical fluid chromatography of free resin acids on an ODS-silica gel column 709(1995)345

Applications of thin-layer chromatography to process control in the pulp and paper field 730(1996)373

#### **Resorcinol**

Mobile phase effects on single-component and competitive adsorption isotherms in reversed-phase systems 734(1996)125

#### **Resveratrol**

Resveratrol content of some wines obtained from dried Valpolicella grapes: Recioto and Amarone 730(1996)47

#### **Resveratrol glycosides**

Assay of resveratrol glucosides and isomers in wine by direct-injection high-performance liquid chromatography 708(1995)89

#### **Retinal**

High-performance liquid chromatographic analysis of retinal and retinol isomers 721(1996)247

#### **Retinoids**

Fully automated determination of selective retinoic acid receptor ligands in mouse plasma and tissue by reversed-phase liquid chromatography coupled on-line with solid-phase extraction 729(1996)125

#### **Retinol**

see also Vitamins

High-performance liquid chromatographic analysis of retinal and retinol isomers 721(1996)247

Fully automated determination of selective retinoic acid receptor ligands in mouse plasma and tissue by reversed-phase liquid chromatography coupled on-line with solid-phase extraction 729(1996)125

#### **Rhamnose**

Simple and sensitive multi-sugar-probe gut permeability test by high-performance liquid chromatography with fluorescence labelling 730(1996)99

#### **Rhenium**

High-performance liquid chromatography of the coordination isomers of triphenylphosphine-substituted homo- and hetero-bimetallic carbonyl complexes of manganese and rhenium 740(1996)231

#### **Rhodamine B**

Sensitivity enhancement effect in off-column detection for capillary electrophoresis 726(1996)205

#### **Riboflavin**

Egg yolk riboflavin binding protein as a new chiral stationary phase in high-performance liquid chromatography 704(1995)55

#### **Ribonuclease B**

Development of electrophoretic conditions for the characterization of protein glycoforms by capillary electrophoresis-electrospray mass spectrometry 720(1996)409

#### **Ribonucleotides**

Separation of twenty isomers of ribonucleotides and deoxyribonucleotides by reversed-phase ion-pairing high-performance liquid chromatography 732(1996)271

Poly(ethylene-propylene glycol)-modified fused-silica columns for capillary electrophoresis using epoxy resin as intermediate coating 741(1996)115

#### **Rifamycins**

Enantiomeric resolution using the macrocyclic antibiotics rifamycin B and rifamycin SV as chiral selectors for capillary electrophoresis 715(1995)337

#### **RNA**

Preparation of cDNA-silica using reverse transcriptase and its DNA sequence determination 708(1995)13

Low-molecular-mass RNA fingerprinting of bacteria by capillary electrophoresis using entangled polymer solutions 717(1995)91

Capillary gel electrophoresis and antisense therapeutics (Review) 735(1996)191

#### **Ro 47-0203**

Determination of an endothelin receptor antagonist in human plasma by narrow-bore liquid chromatography and ionspray tandem mass spectrometry 712(1995)75

**Rolipram**

Influence of temperature on the enantioseparation of rolipram and structurally related racemates on Chiracel-OD 737(1996)333

**Ronidazole**

High-performance thin-layer chromatographic method for the fluorescence detection of three nitroimidazole residues in pork and poultry tissue 737(1996)343

**Ropinirole**

Determination of liquid chromatographic peak purity by electrospray ionization mass spectrometry 721(1996)41

**Ropivacaine**

Direct injection of large volumes of plasma in a column-switching system for the analysis of local anaesthetics 725(1996)137

Direct injection of large volumes of plasma in a column-switching system for the analysis of local anaesthetics. II. Determination of bupivacaine in human plasma with an alkyl-diol silica precolumn 725(1996)149

Use of heptakis(2,6-di-*O*-methyl)- $\beta$ -cyclodextrin in on-line capillary zone electrophoresis-mass spectrometry for the chiral separation of ropivacaine 742(1996)235

**Rosmarinic acid**

Analysis of the components of *Lycopus europaeus* L. in body fluids during metabolism studies. Comparison of capillary electrophoresis and high-performance liquid chromatography 717(1995)261

**Rubber additives**

Wastewater from the manufacture of rubber vulcanization accelerators: characterization, downstream monitoring and chemical treatment 733(1996)511

**Ruthenium complexes**

Development of DNA-immobilised chromatographic stationary phases for optical resolution and DNA-affinity comparison of metal complexes 718(1995)436

**Ruthenocene**

Phase-shift-free subtraction chromatograms from a dual-channel detector 719(1996)468

**Rutin**

Separation of chromate and tungstate by reversed-phase high-performance chromatography using rutin as chelating reagent 709(1995)381

**S****Saccharides**

see also Carbohydrates, Monosaccharides, Oligosaccharides, Polysaccharides and Sugars

Sampling and analytical strategies in on-line bioprocess monitoring and control (Review) 725(1996)13

Determination of cytidine 5'-monophospho-N-acetylneuraminic acid pool size in cell culture scale using high-performance anion-exchange chromatography with pulsed amperometric detection 727(1996)223

Simple and sensitive multi-sugar-probe gut permeability test by high-performance liquid chromatography with fluorescence labelling 730(1996)99

Improved rapid method for the isolation, purification and identification of collagen glycosides 732(1996)385

Development of protamine-bonded phase for separation of saccharides in liquid chromatography 737(1996)149

Efficient capillary zone electrophoretic separation of wood-derived neutral and acidic mono- and oligosaccharides 738(1996)129

Purification of the monoclonal heparin antibody H-1.18 744(1996)215

Capillary electrophoretic examination of underivatized oligosaccharide mixtures released from immunoglobulin G antibodies and CTLA4Ig fusion protein 749(1996)237

**Saccharin**

Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203

**Saclofen**

Preparative resolution of saclofen and hydroxysaclofen with analytical-scale high-performance liquid chromatography 732(1996)239

**Safranin O**

Sensitivity enhancement effect in off-column detection for capillary electrophoresis 726(1996)205

**Salbutamol**

Rapid analysis of  $\beta$ -agonists in urine by thermospray tandem mass spectrometry 712(1995)67

Combined liquid–liquid electroextraction–isotachopheresis for loadability enhancement in capillary zone electrophoresis–mass spectrometry 712(1995)227

Electrokinetic behaviour of salbutamol and its decomposition products and determination of salbutamol by micellar electrokinetic capillary chromatography 724(1996)297

Determination of the binding constant of salbutamol to unmodified and ethylated cyclodextrins by affinity capillary electrophoresis 735(1996)321

Gas and liquid chromatography coupled to tandem mass spectrometry for the multiresidue analysis of  $\beta$ -agonists in biological matrices 750(1996)43

#### Salicylate

Modification of a tunable UV–visible capillary electrophoresis detector for simultaneous absorbance and fluorescence detection: profiling of body fluids for drugs and endogenous compounds 709(1995)147

#### Salicylic acid

Reversed-phase high-performance liquid chromatographic study of thimerosal stability in Cuban recombinant hepatitis B vaccine 729(1996)219

Laser induced resonance energy transfer – a novel approach towards achieving high sensitivity in capillary electrophoresis. Clinical diagnostic application 744(1996)37

#### Salicyluric acid

Laser induced resonance energy transfer – a novel approach towards achieving high sensitivity in capillary electrophoresis. Clinical diagnostic application 744(1996)37

#### Salts

Peptide stacking by acetonitrile–salt mixtures for capillary zone electrophoresis 744(1996)231

#### Saponins

Simultaneous determination of twelve constituents of I-tzu-tang, a Chinese herbal preparation, by high-performance liquid chromatography and capillary electrophoresis 704(1995)141

Liquid chromatography combined with thermospray and continuous-flow fast atom bombardment mass spectrometry of glycosides in crude plant extracts 712(1995)155

Optimization of hapten–protein conjugation by high-performance capillary electrophoresis 717(1995)75

High-performance liquid chromatographic analysis of ginseng saponins using evaporative light scattering detection 736(1996)77

#### Sarcosinates

Effect of alkyl chain length of sodium N-acyl sarcosinates on migration behavior in micellar electrokinetic chromatography 744(1996)135

#### Sarin

Capillary gas chromatographic analysis of nerve agents using large volume injections 723(1996)210

#### Schiff bases, nickel chelates

Nickel(II) chelates of some tetradentate Schiff bases as stationary phases for gas chromatography 715(1995)366

#### Sclerin

High-performance liquid chromatography with photodiode array detection for analysis of the fungal metabolite sclerin 741(1996)131

#### Scopolamine-N-butylbromide

Influence of different types of cyclodextrins on the racemization of scopolamine-N-butylbromide 728(1996)441

#### Sebaconitrile

Characterization of cyano-functionalized stationary gas chromatographic phases by linear solvation energy relationships 718(1995)357

#### Secoiridoid

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography–chemical ionization mass spectrometry 736(1996)195

#### Selenate

Simultaneous analysis of selenate and selenite in bacterial suspensions by capillary electrophoresis 745(1996)111

Ion chromatographic separation of selenite and selenate using a polyanionic eluent 749(1996)115

Optimization of the determination of inorganic and organic selenium species using high-performance liquid chromatography–electrothermal atomic absorption spectrometry 750(1996)327

#### Selenite

Simultaneous analysis of selenate and selenite in bacterial suspensions by capillary electrophoresis 745(1996)111

Ion chromatographic separation of selenite and selenate using a polyanionic eluent 749(1996)115

Optimization of the determination of inorganic and organic selenium species using high-performance liquid chromatography–electrothermal atomic absorption spectrometry 750(1996)327

#### Selenium

Hyphenation of capillary electrophoresis to inductively coupled plasma mass spectrometry as an element-specific detection method for metal speciation 750(1996)51

#### Selenium, inorganic compounds

Capillary electrophoresis applied to the determination of some seleno compounds 732(1996)369

**Seleno amino acids**

Direct determination of seleno-amino acids in biological tissues by anion-exchange separation and electrochemical detection 706(1995)429

Capillary electrophoretic methods for a clear identification of selenoamino acids in complex matrices such as human milk 716(1995)323

Capillary electrophoresis applied to the determination of some seleno compounds 732(1996)369

Optimization of the determination of inorganic and organic selenium species using high-performance liquid chromatography–electrothermal atomic absorption spectrometry 750(1996)327

**Selenocystine**

Optimization of the determination of inorganic and organic selenium species using high-performance liquid chromatography–electrothermal atomic absorption spectrometry 750(1996)327

**Selenomethionine**

Optimization of the determination of inorganic and organic selenium species using high-performance liquid chromatography–electrothermal atomic absorption spectrometry 750(1996)327

**Seminal plasma proteins**

Effect of glycosylation on the heparin-binding capability of boar and stallion seminal plasma proteins 711(1995)167

**L-Serine**

Study of the racemization of L-serine by cyclodextrin-modified micellar electrokinetic chromatography and laser-induced fluorescence detection 716(1995)331

**Serotonergic compounds**

Study of lipophilic character of serotonergic ligands 723(1996)135

**Serotonin**

Study of lipophilic character of serotonergic ligands 723(1996)135

Determination of serotonin released from coffee wax by liquid chromatography 730(1996)59

In vivo microdialysis determination of collagen-induced serotonin release in rat blood 730(1996)121

Improved end-column amperometric detection for capillary electrophoresis 742(1996)229

**Serum proteins**

Capillary zone electrophoresis of serum proteins: study of separation variables 709(1995)99

**Sesquiterpenes**

Liquid chromatographic–thermospray mass spectrometric analysis of sesquiterpenes of *Armillaria* (Eumycota: Basidiomycotina) species 710(1995)273

**Sideritis**

High-performance liquid chromatography of flavonoids from *Sideritis* species 731(1996)103

**Silvex**

Micellar electrokinetic capillary chromatography with in-situ charged micelles 724(1996)285

**Skatole**

Capillary electrophoresis of Cheddar cheese 731(1996)305

**Sodium**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Cation trace analysis of snow and firn samples from high-alpine sites by ion chromatography 706(1995)249

Ion chromatography as potential reference methodology for the determination of total sodium and potassium in human serum 706(1995)443

**Sodium acyl sarcosinates**

Effect of alkyl chain length of sodium N-acyl sarcosinates on migration behavior in micellar electrokinetic chromatography 744(1996)135

**Sodium alkyl sulfate**

Industrial applications of capillary zone electrophoresis–mass spectrometry 712(1995)269

**Sodium channel blockers**

Capillary electrophoresis of cardiovascular drugs 735(1996)123

**Sodium cholate**

Separation of desulphoglucosinolates by micellar electrokinetic capillary chromatography based on a bile salt 717(1995)325

**Sodium chromate**

Analyte preconcentration procedure based on parallel-current open-tubular liquid chromatography 728(1996)311

**Sodium dodecyl sulphate**

Control of selectivity in micellar electrokinetic chromatography by modification of sodium dodecyl sulfate micelles with organic hydroxy compounds 705(1995)319

Microemulsion electrokinetic chromatography with different organic modifiers: separation of water- and lipid-soluble vitamins 709(1995)11

Optimization of resolution in micellar electrokinetic chromatography via computer-aided simultaneous variation of concentrations of sodium dodecyl sulfate and urea as modifier 716(1995)81

Determination of critical micelle concentration by capillary electrophoresis. Theoretical approach and validation 718(1995)167

Quantitative structure–activity relationships studies with micellar electrokinetic chromatography. Influence of surfactant type and mixed micelles on estimation of hydrophobicity and bioavailability 721(1996)323

Separation and determination of amino acids, creatinine, bioactive amines and nucleic acid bases by dual-mode gradient ion-pair chromatography 739(1996)333

Determination of critical micelle concentration by capillary electrophoresis 743(1996)307

#### **Sodium monofluoroacetate**

Sensitive and selective method for the determination of sodium monofluoroacetate by capillary zone electrophoresis 719(1996)421

#### **Sodium N-tetradecanoyl-L-glutamate**

Optical resolution of amino acid derivatives by micellar electrokinetic chromatography with sodium N-tetradecanoyl-L-glutamate 716(1995)319

#### **Sodium phosphate**

Systematic approach to generic matrix elimination via ‘‘heart-cut’’ column-switching techniques 739(1996)43

#### **Sodium tetraethylborate**

Determination of butyl- and phenyltin compounds in biological material by gas chromatography–flame photometric detection after ethylation with sodium tetraethylborate 750(1996)317

#### **Solvent Yellow 124**

Liquid chromatographic method for analysing the colour marker Solvent Yellow 124, N-ethyl-N-[2-(1-isobutoxyethoxy)ethyl](4-phenylazophenyl)amine, in diesel fuels 723(1996)395

#### **Soman**

Capillary gas chromatographic analysis of nerve agents using large volume injections 723(1996)210

#### **Somatotropin**

Improved potency assay for recombinant bovine somatotropin by high-performance size-exclusion chromatography 736(1996)97

#### **Sorbic acid**

Determination of cyclamate in low joule foods by capillary zone electrophoresis with indirect ultraviolet detection 704(1995)203

#### **Soyasaponin I**

Optimization of hapten–protein conjugation by high-performance capillary electrophoresis 717(1995)75

#### **Sparteine**

Variation in the alkaloid content of different subspecies of *Chamaecytisus proliferus* from the Canary Islands 719(1996)237

#### **Spermidine**

Determination of polyamines in serum by high-performance capillary zone electrophoresis with indirect ultraviolet detection 717(1995)345

#### **Spermine**

Determination of polyamines in serum by high-performance capillary zone electrophoresis with indirect ultraviolet detection 717(1995)345

#### **Spermine alkaloids**

Separation of *E–Z* isomeric macrocyclic spermine alkaloids of *Verbascum pseudonobile* and *Verbascum phoeniceum* and of their derivatives using thin-layer chromatography 724(1996)416

#### **Starch**

Improvement of a method for chain-length distribution analysis of wheat amylopectin 732(1996)255

Solid-phase extraction and subsequent gas chromatography–mass spectrometry analysis for identification of complex mixtures of degradation products in starch-based polymers 741(1996)251

#### **Stearic acid**

Estimate of gas chromatographic blanks 726(1996)133

#### **Stearic acid methyl ester**

Stability and purity of low-polarity adsorbents for coupled supercritical fluid extraction–supercritical fluid chromatography–flame ionization detection 734(1996)311

#### **Steranes**

Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography–mass spectrometry 712(1995)321

#### **Steroid drugs**

Relationship between the retention characteristics and physico-chemical parameters of some steroid drugs in reversed-phase high-performance liquid chromatography 728(1996)75

#### **Steroid hormones**

see also Hormones

Thermodynamic parameters of the formation of a complex between cyclodextrins and steroid hormones 728(1996)89

**Steroid sulphates**

Microbore high-performance liquid chromatography–electrospray ionisation mass spectrometry of steroid sulphates 738(1996)191

**Steroids**

see also Corticosteroids and Ecdysteroids

Application of liquid chromatography–atmospheric pressure chemical ionization mass spectrometry to a sector mass spectrometer 712(1995)17

Modified and convenient preparation of silica impregnated with silver nitrate and its application to the separation of steroids and triterpenes 715(1995)372

Structure–retention relationships of steroid hormones in reversed-phase liquid chromatography and micellar electrokinetic capillary chromatography 728(1996)83

Micellar electrokinetic chromatography. Perspectives in drug analysis 735(1996)3

Trifluoromethanesulfonic acid as a catalyst for the formation of dansylhydrazone derivatives 740(1996)279

Resolution of enantiomeric steroids by high-performance liquid chromatography on chiral stationary phases 749(1996)61

Separation of pharmaceutically important estrogens by micellar electrokinetic chromatography 749(1996)247

Comparison of the possibilities of gas chromatography–mass spectrometry and tandem mass spectrometry systems for the analysis of anabolics in biological material 750(1996)105

**Sterols**

Applications of thin-layer chromatography to process control in the pulp and paper field 730(1996)373

Use of capillary gas chromatography for measuring fecal-derived sterols. Application to stormwater, the sea-surface microlayer, beach greases, regional studies, and distinguishing algal blooms and human and non-human sources of sewage pollution 733(1996)497

**Stilbenes**

Preparative separation of phenolic compounds from *Picea abies* by high-speed counter-current chromatography 719(1996)438

Determination of 4,4'-diaminostilbene-2,2'-disulfonic acid by thin-layer chromatography and densitometry 727(1996)324

**Styrene**

Salt effect on size-exclusion chromatography of partially sulfonated alternating copolymers of maleic acid and styrene in a polar solvent 704(1995)149

Purge-and-trap method for the determination of styrene in urine 719(1996)53

Determination of the chemical composition distribution of copolymers of styrene and butadiene by gradient polymer elution chromatography 736(1996)125

**Styrene copolymers**

Solution properties of amorphous co- and terpolymers of styrene as examined by inverse gas chromatography 715(1995)127

**Styrene oxide**

Determination of styrene oxide adducts in DNA and DNA components 717(1995)117

**Suberin**

Pyrolytic alkylation–gas chromatography–mass spectrometry of model polymers. Further insights into the mechanism and scope of the technique 750(1996)155

**Substance P**

Reversed-phase high-performance liquid chromatography combined with tandem mass spectrometry in studies of a substance P-converting enzyme from human cerebrospinal fluid 743(1996)213

Complete capillary electrophoretic separation of substance P and its metabolites at neutral pH using ionic run buffer additives 744(1996)241

**Subtilisin**

Liquid chromatography studies on the enzymatic degradation of luteinizing hormone-releasing hormone analogues with off-line identification by mass spectrometry 729(1996)137

**Succinylcholine chloride**

Determination of choline in pharmaceutical formulations by reversed-phase high-performance liquid chromatography and postcolumn suppression conductivity detection 739(1996)351

**Sucrose**

Sensitive determination of sugars by capillary zone electrophoresis with indirect UV detection under highly alkaline conditions 716(1995)231

**Sugar acids**

Determination of monomeric sugar and carboxylic acids by ion-exclusion chromatography 706(1995)361

**Sugar alcohols**

Development of protamine-bonded phase for separation of saccharides in liquid chromatography 737(1996)149

**Sugars**

see also Carbohydrates and Saccharides

Nanomolar determination of aminated sugars by capillary electrophoresis 716(1995)221

Sensitive determination of sugars by capillary zone electrophoresis with indirect UV detection under highly alkaline conditions 716(1995)231

Chromatographic and related spot tests for the detection of water pollutants 733(1996)5

Ion-exclusion chromatography of ethanolamines on an anion-exchange resin by elution with polyols and sugars 739(1996)317

#### **Sulfadiazine**

Improved determination of sulfadiazine in human plasma and urine by high-performance liquid chromatography 729(1996)243

#### **Sulfamethazine**

Improved determination of sulfadiazine in human plasma and urine by high-performance liquid chromatography 729(1996)243

#### **Sulfamides**

Micellar electrokinetic chromatography–mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69

#### **Sulfate**

Precision of ion chromatographic analyses compared with that of other analytical techniques through intercomparison exercises 706(1995)13

Precision and linearity of inorganic analyses by ion chromatography 706(1995)21

Evaluation of 1,2-diaminocyclohexanetetraacetic acid as eluent in the determination of inorganic anions and cations by ion chromatography 706(1995)115

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Determination of anions in human and animal tear fluid and blood serum by ion chromatography 706(1995)183

Determinations of trace anions in hydrogen peroxide 706(1995)191

Determination of nitrate, phosphate and organically bound phosphorus in coral skeletons by ion chromatography 706(1995)209

Control of errors in anion chromatography applied to environmental research 706(1995)229

Determination of anions in oilfield waters by ion chromatography 706(1995)301

Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571

High-sensitivity conductivity detection in non-suppressed ion chromatography using sulfoisophthalic acid as eluent 727(1996)311

Determination of sulphite and sulphate by ion chromatography using a weakly basic phthalate eluent 732(1996)403

Systematic approach to generic matrix elimination via “heart-cut” column-switching techniques 739(1996)43

Approaches to sample preparation for ion chromatography 739(1996)49

Determination of phosphate and sulphite in natural waters in the presence of high sulphate concentrations by ion chromatography under isocratic conditions 739(1996)207

Determination of total phosphorus in sediments by means of high-pressure bombs and ion chromatography 739(1996)223

Capillary electrophoretic estimation of sulfate stability constants of metal ions and determination of alkali and alkaline earth metals in waters 745(1996)127

#### **Sulfides**

Ion chromatography of organic-rich natural waters from peatlands. IV. Dissolved free sulfide and acid-volatile sulfur 706(1995)287

Determination of volatile sulphur species in soil samples of interest for prospecting for metal sulphide deposits 726(1996)161

Determination of sulfide in the leather industry by capillary electrophoresis 740(1996)125

#### **2,2'-Sulfinyldiethanol**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

#### **Sulfite**

Determination of sulphite and sulphate by ion chromatography using a weakly basic phthalate eluent 732(1996)403

Systematic approach to generic matrix elimination via “heart-cut” column-switching techniques 739(1996)43

Determination of phosphate and sulphite in natural waters in the presence of high sulphate concentrations by ion chromatography under isocratic conditions 739(1996)207

#### **SulfobetainSB-12**

Unusual chromatographic behaviour and one-step purification of a novel membrane proteinase from *Bacillus cereus* 715(1995)247

#### **Sulfobutyl ether- $\beta$ -cyclodextrin**

Use of negatively charged sulfobutyl ether- $\beta$ -cyclodextrin for enantiomeric separation by capillary electrophoresis 716(1995)183

**Sulfoisophthalic acid**

High-sensitivity conductivity detection in non-suppressed ion chromatography using sulfoisophthalic acid as eluent 727(1996)311

**Sulfonamides**

Ion-pair chromatographic method for the analysis of mafenide acetate 708(1995)83

Development of an instrumental configuration for pseudo-electrochromatography–electrospray mass spectrometry 712(1995)201

Determination of sulphonamides in foods by liquid chromatography with postcolumn fluorescence derivatization 726(1996)125

Direct on-column derivatisation in gas chromatography 738(1996)43

Influence of the nature of the buffer on chiral separation in capillary electrophoresis 745(1996)61

High-performance liquid chromatographic determination of flumetsulam, a newly developed sulfonamide herbicide in soil 746(1996)25

**Sulfonates, aromatic**

Methods of analysis of polar aromatic sulfonates from aquatic environments 733(1996)473

**Sulfonic acids**

Clean-up procedure for the determination of inorganic anions by ion chromatography 706(1995)137

Linear polymers applied as pseudo-phases in capillary zone electrophoresis of azo compounds used as textile dyes 717(1995)157

Separation of aromatic sulphonic acid dye intermediates by high-performance liquid chromatography and capillary zone electrophoresis 738(1996)201

**Sulfonic acids, aromatic**

On-line preconcentration and separation of neutral and charged aromatic compounds by ion interaction chromatography 739(1996)63

**Sulfonylureas**

Concentration and separation of hypoglycemic drugs using solid-phase extraction–capillary electrophoresis 717(1995)279

**Sulfur**

Ion chromatography of organic-rich natural waters from peatlands. IV. Dissolved free sulfide and acid-volatile sulfur 706(1995)287

Enantioselective analysis of chiral polychlorinated biphenyls in sediment samples by multidimensional gas chromatography–electron-capture detection after steam distillation–solvent extraction and sulfur removal 723(1996)399

Determination of elemental sulfur by size-exclusion chromatography 740(1996)237

**Sulfur compounds, volatile**

What is the true odour of cut *Allium*? Complementarity of various hyphenated methods: gas chromatography–mass spectrometry and high-performance liquid chromatography–mass spectrometry with particle beam and atmospheric pressure ionization interfaces in sulphenic acids rearrangement components discrimination 750(1996)63

**Sulfur-containing compounds**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

**Sulfur dioxide**

Determination of atmospheric sulfur dioxide by ion chromatography in the city of Cabimas, Venezuela 739(1996)295

**Sulfur hexafluoride**

Analysis of the possibility of SF<sub>6</sub> detection by a solute switching method with a modulator containing a <sup>63</sup>Ni source 743(1996)301

**Sulfuric acid**

Improved statistical analysis of ion chromatography data from acids for aluminum anodizing solutions 739(1996)163

Ion-exclusion chromatography of aliphatic carboxylic acids on an unmodified silica gel column 739(1996)359

**Sunset yellow**

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

**Sunset Yellow FCF**

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

**Suprofen**

Detection of non-UV-absorbing chiral compounds by high-performance liquid chromatography–mass spectrometry 746(1996)9

**Suramin**

Precision in capillary electrophoresis with respect to quantitative analysis of suramin 717(1995)191

**Surfactant biointermediates**

Evaluation of two new examples of graphitized carbon blacks for use in solid-phase extraction cartridges 733(1996)41

**Surfactants**

Separation of anionic surfactants on anion exchangers 706(1995)327

- Separation of inorganic and organic anionic components of Bayer liquor by capillary zone electrophoresis. I. Optimisation of resolution with electrolyte-containing surfactant mixtures 706(1995)571
- Micellar electrokinetic chromatography using high-molecular-mass surfactants: comparison between anionic and cationic surfactants and effects of modifiers 709(1995)3
- Polar organic pollutants in the Elbe river. Liquid chromatographic–mass spectrometric and flow-injection analysis–mass spectrometric analyses demonstrating changes in quality and concentration during the unification process in Germany 712(1995)123
- Double-chain surfactants with two sulfonate groups as micelle-forming reagents in micellar electrokinetic chromatography of naphthalene derivatives 715(1995)135
- Determination of amphoteric surfactants in cosmetic cleansing products by high-performance liquid chromatography on a cation-exchange column 715(1995)195
- Micellar electrokinetic chromatography–mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69
- Separation of phenylenediamine, phenol and aminophenol derivatives by micellar electrokinetic chromatography. Comparison of the role of anionic and cationic surfactants 717(1995)167
- Capillary electrophoretic analysis of the sodium salt of naphthalenesulfonic acid, formaldehyde polymer in waste water using a polyethylene glycol-coated capillary 717(1995)363
- Quantitative structure–activity relationships studies with micellar electrokinetic chromatography. Influence of surfactant type and mixed micelles on estimation of hydrophobicity and bioavailability 721(1996)323
- Two-stage resolution of mixtures by supercritical fluid chromatography 722(1996)317
- Separation of alkylbenzyl quaternary ammonium compounds by capillary zone electrophoresis. Effect of organic solvent in sample solution 723(1996)189
- Capillary gas chromatography of higher alkylpolyoxyethylene glycols with an even number of carbon atoms in the alkyl group. Influence of type of derivatizing agent, alcohol chain length and oxyethylene chain length on the retention indices with a linear temperature increase 727(1996)131
- Novel additives for the separation of organic compounds by high-performance liquid chromatography 728(1996)235
- Chromatographic behaviour in reversed-phase high-performance liquid chromatography with micellar and submicellar mobile phases 728(1996)279
- Separation of broadly distributed nonylphenol ethoxylates and determination of ethylene oxide oligomers in textile lubricants and emulsions by high-performance liquid chromatography 731(1996)161
- Oligomeric separation of alkylphenol ethoxylate surfactants on silica using aqueous acetonitrile eluents 731(1996)171
- Homologue separation of linear alcohol ethoxylates by high-performance liquid chromatography 732(1996)299
- Chromatographic tools for analyzing and tracking non-ionic surfactants in the aquatic environment 733(1996)185
- Chromatographic determination of non-ionic aliphatic surfactants of the alcohol polyethoxylate type in the environment (Review) 733(1996)193
- Determination of surfactants in surface water by solid-phase extraction, liquid chromatography and liquid chromatography–mass spectrometry 733(1996)207
- Validation of enantiomeric separations by micellar electrokinetic capillary chromatography using synthetic chiral surfactants 735(1996)303
- Chromatographic behaviour of oligoethylene glycol nonylphenyl ether anionic surfactants in normal-phase high-performance liquid chromatography 736(1996)131
- Hydrogen-bonding interaction-assisted micellar electrokinetic chromatography using mixed surfactant systems 736(1996)273
- Capillary electrophoresis of phosphate ester surfactants with adenosine monophosphate and indirect photometric detection 737(1996)315
- Mixed micelles of short chain alkyl surfactants and bile salts in electrokinetic chromatography. Enhanced separation of corticosteroids 738(1996)275
- Capillary electrophoresis of cationic surfactants with tetrazolium violet and of anionic surfactants with adenosine monophosphate and indirect photometric detection 739(1996)405
- Determination of critical micelle concentration by capillary electrophoresis 743(1996)307
- Effect of alkyl chain length of sodium N-acyl sarcosinates on migration behavior in micellar electrokinetic chromatography 744(1996)135
- Separation of ionic and neutral surfactants by capillary electrophoresis and high-performance liquid chromatography 745(1996)281

**Surfactants, non-ionic**

Reversed-phase chromatographic study of the interaction of non-ionic surfactants with sodium dodecyl sulfate 722(1996)33

Determination of the retention behaviour of some non-ionic surfactants on reversed-phase high-performance liquid chromatography supports by spectral mapping in combination with cluster analysis or non-linear mapping 722(1996)281

Quantitative trace analysis of surfactant mixtures by reversed-phase high-performance liquid chromatography with refractometric detection 730(1996)209

Nonionic surfactants for improving resolution of the priority pollutant phenols by micelle-modified capillary electrophoresis 734(1996)357

#### Synthetic colours

Determination of synthetic colours in confectionery and cordials by micellar electrokinetic capillary chromatography 704(1995)195

#### Systemin

Monitoring of the purification of systemin by capillary electrophoresis 734(1996)410

## T

#### Tabun

Capillary gas chromatographic analysis of nerve agents using large volume injections 723(1996)210

#### Tachysterol

Determination of cholecalciferol and related substances by calcium phosphate hydroxyapatite and calcium phosphate fluoroapatite high-performance liquid chromatography 731(1996)153

#### Tamoxifen

On-line high-performance liquid chromatographic–electrospray ionization mass spectrometric method for the study of tamoxifen metabolism 722(1996)249

#### Tapazole

Rapid and high-performance analysis of thyrostatic drug residues in urine using gas chromatography–mass spectrometry 750(1996)127

#### Tartaric acid

Use of ion chromatography for the measurement of organic acids in fruit juices 706(1995)395

Determination of anionic feed additives by two-dimensional capillary isotachopheresis 737(1996)255

Separation of alkali and alkaline-earth metal and ammonium cations by capillary electrophoresis using poly(ethylene glycol) and tartaric acid 742(1996)281

#### Tartrazine

Improvement in the determination of food additive dyestuffs by capillary electrophoresis using  $\beta$ -cyclodextrin 715(1995)179

Determination of synthetic colourant food additives by capillary zone electrophoresis 718(1995)448

#### Taurodeoxycholate

Enantiomeric separation of local anaesthetic drugs by micellar electrokinetic capillary chromatography with taurodeoxycholate as chiral selector 000(1996)000

#### Taxanes

Supercritical fluid chromatography of paclitaxel 721(1996)315

#### Taxol

Preparative separation of taxol in normal- and reversed-phase operations 702(1995)233

Analysis of taxol, 10-deacetylbaccatin III and related compounds in *Taxus baccata* 712(1995)303

Supercritical fluid chromatography of paclitaxel 721(1996)315

Determination of paclitaxel in biological fluids by micellar electrokinetic chromatography 745(1996)173

Determination of taxol in *Taxus* species grown in Hungary by high-performance liquid chromatography–diode array detection 750(1996)253

#### Taxotere

Determination of paclitaxel in biological fluids by micellar electrokinetic chromatography 745(1996)173

#### Tebufenozide

Simultaneous determination of tebufenozide and five of its intact metabolites from forestry matrices by high-performance liquid chromatography 708(1995)71

#### Teicoplanin

Facile liquid chromatographic enantioresolution of native amino acids and peptides using a teicoplanin chiral stationary phase 731(1996)123

#### Terbium

Simultaneous high-performance liquid chromatographic determination of ochratoxin A and citrinin in cheese by time-resolved luminescence using terbium 727(1996)185

#### Terbutaline

Cationic  $\beta$ -cyclodextrin: a new versatile chiral additive for separation of drug enantiomers by high-performance liquid chromatography 704(1995)67

Rapid analysis of  $\beta$ -agonists in urine by thermospray tandem mass spectrometry 712(1995)67

Combined liquid–liquid electroextraction–isotachopheresis for loadability enhancement in capillary zone electrophoresis–mass spectrometry 712(1995)227

Gas and liquid chromatography coupled to tandem mass spectrometry for the multiresidue analysis of  $\beta$ -agonists in biological matrices 750(1996)43

#### **Terbutylazine**

High-performance liquid chromatographic determination of  $^{14}\text{C}$ -labelled terbutylazine and principal degradates in percolation water and soil extracts from leaching experiments 737(1996)101

#### **Terfenadine**

Investigation of the stereoselective metabolism of the chiral  $\text{H}_1$ -antihistaminic drug terfenadine by high-performance liquid chromatography 694(1995)219

#### **Terpanes**

Differentiation of the source of spilled oil and monitoring of the oil weathering process using gas chromatography–mass spectrometry 712(1995)321

#### **Terpene alcohols**

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309

#### **Terpenes**

Use of a trio of modified cyclodextrin gas chromatographic phases to provide structural information on some constituents of volatile oils 707(1995)390

Glycerol as a new dissolution medium for  $\alpha$ -,  $\beta$ - and  $\gamma$ -cyclodextrins for preparing stereoselective stationary phases for gas–liquid chromatography 715(1995)309

Improved method for computing temperature programmed retention indices from isothermal data 725(1996)343

Applications of thin-layer chromatography to process control in the pulp and paper field 730(1996)373

Determination of stoichiometric coefficients and apparent formation constants for  $\alpha$ - and  $\beta$ -CD complexes of terpenes using reversed-phase liquid chromatography 736(1996)1

Determination of biologically active constituents in *Centella asiatica* 742(1996)127

Surface ionization detector with a supersonic free jet for gas chromatography. Some applications 750(1996)335

#### **Terpenetrilactones**

Supercritical fluid chromatography of ginkgolides A, B, C and J and bilobalide 738(1996)115

#### **Tetrachlorobenzyltoluenes**

Gas chromatographic determination of liquid vapour pressure and heat of vaporization of tetrachlorobenzyltoluenes 727(1996)265

#### **Tetrachloromethane**

Solid sorbent method for the collection and analysis of volatile halogenated organic compounds in soil gas 738(1996)73

#### **Tetra(cyanoethoxy)pentaerythritol**

Characterization of cyano-functionalized stationary gas chromatographic phases by linear solvation energy relationships 718(1995)357

#### **Tetracyclines**

Electrochromatography in chemically modified etched fused-silica capillaries 736(1996)255

Separation of tetracyclines by high-performance capillary electrophoresis and capillary electrochromatography 736(1996)313

Determination of impurities in tetracycline hydrochloride by non-aqueous capillary electrophoresis 737(1996)291

Fast large-scale purification of tetracycline repressor variants from overproducing *Escherichia coli* strains 742(1996)95

#### **Tetradecyltrimethylammonium bromide**

Quantitative structure–activity relationships studies with micellar electrokinetic chromatography. Influence of surfactant type and mixed micelles on estimation of hydrophobicity and bioavailability 721(1996)323

#### **Tetradifon**

Characterization of organic micropollutants in the River Cinca (Spain) by using granular activated carbon and liquid–liquid extraction 733(1996)159

#### **1a,2,7,7a-Tetrahydro-3-methoxynaphtha-(2,3b)-oxirane**

Separation of enantiomers of 1a,2,7,7a-tetrahydro-3-methoxynaphtha-(2,3b)-oxirane by liquid chromatography: laboratory-scale elution chromatography and modelling of simulated moving bed 702(1995)223

#### **Tetrahydrotetrols**

Preliminary experiments for the analysis of tetrahydrotetrols of benz[*a*]anthracene and benzo[*a*]pyrene derived from their hemoglobin adducts using a coupled-column high-performance liquid chromatographic system 730(1996)153

#### **5,19,15,20-Tetra(*m*-hydroxyphenyl)chlorin**

Identification of photochemical oxidation products of 5,10,15,20-tetra(*m*-hydroxyphenyl)chlorin by on-line high-performance liquid chromatography–electrospray ionization tandem mass spectrometry 722(1996)257

**Tetraiodothyronine sodium**

Identification of the thermal degradation products of G-triiodothyronine sodium (liothyronine sodium) by reversed-phase high-performance liquid chromatography with photodiode-array UV and mass spectrometric detection 725(1996)287

**Tetraphenylphosphonium chloride**

Micellar electrokinetic chromatography–mass spectrometry using a high-molecular-mass surfactant. On-line coupling with an electrospray ionization interface 716(1995)69

**Tetrazolium violet**

Capillary electrophoresis of cationic surfactants with tetrazolium violet and of anionic surfactants with adenosine monophosphate and indirect photometric detection 739(1996)405

**Tet repressor**

Fast large-scale purification of tetracycline repressor variants from overproducing *Escherichia coli* strains 742(1996)95

**Textile fiber finishes**

Supercritical fluid extraction coupled directly with Fourier transform infrared spectrometry 703(1995)537

**Thalimonine N-oxides**

Reversed-phase high-performance liquid chromatographic separation of epimeric alkaloid N-oxides from *Thalictrum simplex* L 730(1996)63

**Thiamine**

Determination of thiamine in dried yeast by high-performance liquid chromatography using a clean-up column of CM-cellulose 726(1996)237

**Thiazole, [(fluorobiphenyl)ethyl]methylamino derivative**

Enantiomeric separation of a thiazole derivative by high-performance liquid chromatography and micellar electrokinetic chromatography 708(1995)245

**Thiazolidines**

Endogenous alkaloids in man. XXI. Analysis of glyoxylate-derived 1,3-thiazolidines and their precursors after trimethylsilylation by gas chromatography–mass spectrometry 707(1995)267

**Thimerosal**

Reversed-phase high-performance liquid chromatographic study of thimerosal stability in Cuban recombinant hepatitis B vaccine 729(1996)219

**Thioarsenates**

Separation of thio- and oxothioarsenates by capillary zone electrophoresis and ion chromatography 736(1996)341

**Thiobarbituric acid**

Automated high-performance liquid chromatographic separation with spectrofluorometric detection of a malondialdehyde–thiobarbituric acid adduct in plasma 729(1996)207

**Thiobutobarbital**

Stepwise binary gradient high-performance liquid chromatographic system for routine drug monitoring 728(1996)307

**Thiocyanates**

Determination of the petroleum tracers nitrate and thiocyanate in subterranean waters by capillary ion electrophoresis 715(1995)376

Determination of thiocyanate, iodide, nitrate and nitrite in biological samples by micellar electrokinetic capillary chromatography 717(1995)409

Feasibility of supercritical fluid chromatography–chemiluminescent nitrogen detection with open tubular columns 734(1996)303

**Thiodiglycol**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

**6-Thioguanosine monophosphate**

Sample preparation for the determination of purine nucleotide analogues in tissues 729(1996)197

**6-Thioinosinic acid**

Sample preparation for the determination of purine nucleotide analogues in tissues 729(1996)197

**Thiolcarbamates**

On-line coupled supercritical fluid extraction and chromatography for the determination of thiolcarbamate herbicides in soil matrix 750(1996)175

**Thiols**

Determination of thiols by capillary electrophoresis with electrochemical detection using a palladium field-decoupler and chemically modified electrodes 716(1995)347

**Thiopental**

Stepwise binary gradient high-performance liquid chromatographic system for routine drug monitoring 728(1996)307

**Thiopropional S-oxide**

What is the true odour of cut *Allium*? Complementarity of various hyphenated methods: gas chromatography–mass spectrometry and high-performance liquid chromatography–mass spectrometry with particle beam and atmospheric pressure ionization interfaces in sulphenic acids rearrangement components discrimination 750(1996)63

**Thiopurine nucleotides**

Sample preparation for the determination of purine nucleotide analogues in tissues 729(1996)197

**Thiosalicylic acids**

Reversed-phase high-performance liquid chromatographic study of thimerosal stability in Cuban recombinant hepatitis B vaccine 729(1996)219

**Thiosulfate**

New gas chromatographic–electron-capture detection method for the determination of atmospheric aldehydes and ketones based on cartridge sampling and derivatization with 2,4,6-trichlorophenylhydrazine 740(1996)71

**Thiosulfates**

What is the true odour of cut *Allium*? Complementarity of various hyphenated methods: gas chromatography–mass spectrometry and high-performance liquid chromatography–mass spectrometry with particle beam and atmospheric pressure ionization interfaces in sulphenic acids rearrangement components discrimination 750(1996)63

**Thiouracil**

Rapid and high-performance analysis of thyrostatic drug residues in urine using gas chromatography–mass spectrometry 750(1996)127

**1,4-Thioxane**

Separation of sulfur containing chemical warfare related compounds in aqueous samples by micellar electrokinetic chromatography 711(1995)347

**Thioxanthene**

Stability-indicating high-performance liquid chromatographic assay for the simultaneous determination of dixyrazine and chlorprothixene in intravenous admixtures 729(1996)201

**Thorium**

Determination of thorium and uranium in nitrophosphate fertilizer solution by ion chromatography 706(1995)175

Retention behaviour of thorium(IV) and uranyl on a reversed-phase column with glycolate and mandelate as eluents 739(1996)151

Determination of trace levels of thorium(IV) and uranyl by reversed-phase chromatography with on-line preconcentration and ligand exchange 749(1996)103

**Thrombin**

Characterisation of silica-based heparin-affinity adsorbents through column chromatography of plasma fractions containing thrombin 743(1996)145

**Thromboxanes**

Analytical methods for the measurement of leukotrienes and other eicosanoids in biological samples from asthmatic subjects (Review) 725(1996)29

**Thyrostatic drugs**

Rapid and high-performance analysis of thyrostatic drug residues in urine using gas chromatography–mass spectrometry 750(1996)127

**Thyronines**

Identification of the thermal degradation products of G-triiodothyronine sodium (liothyronine sodium) by reversed-phase high-performance liquid chromatography with photodiode-array UV and mass spectrometric detection 725(1996)287

**Tiaprofenic acid**

Direct high-performance liquid chromatography resolution on chiral columns of tiaprofenic acid and related compounds in bulk powder and pharmaceutical formulations 704(1995)217

**Tin**

Rapid determination of germanium and tin by ion chromatography 708(1995)99

Applications of liquid chromatography–mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

**Tioconazole**

Systematic approach to the treatment of enantiomeric separations in capillary electrophoresis and liquid chromatography. III. A binding constant-retention factor relationship and effects of acetonitrile on the chiral separation of tioconazole 745(1996)25

**Tipredane ethylsulfoxide**

Investigations into the epimerisation of tipredane ethylsulphoxide diastereoisomers during chromatographic analysis on reversed-phase silica. II. The involvement of metals in commercially available C<sub>18</sub> silicas 705(1995)229

**Tipredane sulphoxide**

Investigations into the epimerisation of tipredane ethylsulphoxide diastereoisomers during chromatographic analysis on reversed-phase silica. I. Investigations into the reaction mechanism 705(1995)219

**Tissue plasminogen activator**

Processing of C-terminal lysine and arginine residues of proteins isolated from mammalian cell culture 705(1995)129

Non-native capillary isoelectric focusing for the analysis of the microheterogeneity of glycoproteins 737(1996)281

Comparison of ampholytes used for slab gel and capillary isoelectric focusing of recombinant tissue-type plasminogen activator glycoforms 744(1996)279

**Titania**

Comparison of an ordered mesoporous aluminosilicate, silica, alumina, titania and zirconia in normal-phase high-performance liquid chromatography 740(1996)1

**Titanium**

Investigations into the epimerisation of tipredane ethylsulphoxide diastereoisomers during chromatographic analysis on reversed-phase silica. I. Investigations into the reaction mechanism 705(1995)219

Investigations into the epimerisation of tiredane ethylsulphoxide diastereoisomers during chromatographic analysis on reversed-phase silica. II. The involvement of metals in commercially available C<sub>18</sub> silicas 705(1995)229

#### **$\alpha$ -Tocopherol**

Gas chromatographic determination of cholesterol and tocopherols in edible oils and fats with automatic removal of interfering triglycerides 719(1996)221

Simultaneous determination of  $\alpha$ -tocopherol and  $\alpha$ -tocopherolquinone by high-performance liquid chromatography and coulometric detection in the redox mode 722(1996)287

#### **$\alpha$ -Tocopherol acetate**

Gas chromatographic determination of cholesterol and tocopherols in edible oils and fats with automatic removal of interfering triglycerides 719(1996)221

#### **$\alpha$ -Tocopherolquinone**

Simultaneous determination of  $\alpha$ -tocopherol and  $\alpha$ -tocopherolquinone by high-performance liquid chromatography and coulometric detection in the redox mode 722(1996)287

#### **Toluene**

Computer program for simulating the performance of thick-bed diffusive samplers: predicted and experimental sample loss due to reversible adsorption 709(1995)283

Initial experiments in high-performance liquid chromatographic method development. II. Recommended approach and conditions for isocratic separation 721(1996)15

Quantification of toxic hydrocarbon target compounds in engine exhaust and air by aluminum oxide porous-layer open-tubular capillary gas chromatography–mass spectrometry using isotopically labeled internal standards 731(1996)217

Determination of monocyclic aromatic hydrocarbons in fruit and vegetables by gas chromatography–mass spectrometry 734(1996)297

New approach to the characterization of pyrolysis coal products by gas chromatography–mass spectrometry 736(1996)185

Coupling of high-performance liquid chromatography with Raman spectrometry 743(1996)323

#### **Tolylpiperazine derivatives**

High-performance, purity-indicating liquid chromatographic method for the oxytocin antagonist, L-368,899 731(1996)331

#### **Toremifene**

Liquid chromatography–thermospray mass spectrometry of toremifene and its derivatives 724(1996)358

#### **Toxins**

see also Endotoxins, Mycotoxins

Liquid chromatographic determination of D- and L-amino acids by derivatization with *o*-phthalaldehyde and N-isobutyryl-L-cysteine. Applications with reference to the analysis of peptidic antibiotics, toxins, drugs and pharmaceutically used amino acids 711(1995)201

Applications of liquid chromatography–mass spectrometry interfacing systems in food analysis: pesticide, drug and toxic substance residues 727(1996)153

Simultaneous high-performance liquid chromatographic determination of ochratoxin A and citrinin in cheese by time-resolved luminescence using terbium 727(1996)185

Fluorimetric determination of diarrhetic shellfish toxins in scallops and mussels by high-performance liquid chromatography 729(1996)381

Automatic high-performance liquid chromatographic method for the determination of diarrhetic shellfish poison 729(1996)387

Determination of alternariol and alternariol methyl ether in apple juice using solid-phase extraction and high-performance liquid chromatography 731(1996)109

Automated purification of microcystins 734(1996)175

Studies on the dynamics of the production of destruxins by *Metarhizium anisopliae* 738(1996)181

Analysis of amatoxins  $\alpha$ -amanitin and  $\beta$ -amanitin in toadstool extracts and body fluids by capillary zone electrophoresis with photodiode array detection 744(1996)167

Isolation of dinophysistoxin-2 and the high-performance liquid chromatographic analysis of diarrhetic shellfish toxins using derivatisation with 1-bromoacetylpyrene 749(1996)33

On-line liquid chromatography–electrospray ionization mass spectrometry for determination of the brevetoxin profile in natural “red tide” algae blooms 750(1996)115

#### **Transferrin**

Capillary isoelectric focusing as a tool in the examination of antibodies, peptides and proteins of pharmaceutical interest 735(1996)165

#### **Transforming growth factor- $\beta$ 3**

Development of an analytical reversed-phase high-performance liquid chromatography assay for transforming growth factor  $\beta$ 3 709(1995)249

#### **Transition metals**

see also Metals

Ion-exchange mechanisms of some transition metals on a mixed-bed resin with a complexing eluent 715(1995)105

Separation of transition metal cations by capillary electrophoresis. Optimization of complexing agent concentrations (lactic acid and 18-crown-6) 717(1995)393

Coated versus fused-silica capillaries for the separation of inorganic and organic cations by capillary zone electrophoresis 736(1996)265

Simultaneous analysis of some transition metals at ultra-trace level by ion-exchange chromatography with on-line preconcentration 739(1996)119

High-performance liquid chromatographic determination of cyanide using a pre-column conversion to a transition metal complex 739(1996)229

#### **Transmembrane peptides**

High-performance liquid chromatographic purification of extremely hydrophobic peptides: transmembrane segments 711(1995)181

#### **Transmembrane proteins**

Capillary and rotating-tube isoelectric focusing of a transmembrane protein, the human red cell glucose transporter 711(1995)217

#### **Triacylglycerols**

Stereospecific analysis of the major triacylglycerol species containing  $\gamma$ -linolenic acid in Evening Primrose oil and borage oil 704(1995)99

Detection of olive oil adulteration by measuring its authenticity factor using reversed-phase high-performance liquid chromatography 708(1995)351

Composition analysis of normal plant triacylglycerols and hydroperoxidized *rac*-1-stearoyl-2-oleoyl-3-linoleoyl-*sn*-glycerols by liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 730(1996)1

Postcolumn chemiluminescence, ultraviolet and evaporative light-scattering detectors in high-performance liquid chromatographic determination of triacylglycerol oxidation products 734(1996)221

Analysis of fatty acid mono- and diacylglycerol positional isomers by silver ion high-performance liquid chromatography 741(1996)135

#### **Trianisoyldeoxycytidine**

Delayed adsorption on slowly accessible stationary phase surfaces in porous liquid chromatographic column packings 728(1996)97

#### **Triazines**

Column liquid chromatography-mass spectrometry: selected techniques in environmental applications for polar pesticides and related compounds 703(1995)81

Performance characteristics of a real-time direct deposition supercritical fluid chromatography-Fourier transform infrared spectrophotometry system 703(1995)503

Optimization of an analytical procedure for the determination of triazine herbicides in environmental samples 704(1995)121

Automated determination of *s*-triazine herbicides using solid-phase microextraction 705(1995)305

Capillary electrophoretic study of atrazine photolysis 709(1995)215

Trace determination of herbicides in estuarine waters by liquid chromatography-high-flow pneumatically assisted electrospray mass spectrometry 712(1995)113

Biomimetic dye affinity chromatography for the purification of bovine heart lactate dehydrogenase 718(1995)35

Initial experiments in high-performance liquid chromatographic method development. I. Use of a starting gradient run 721(1996)3

UV detection of triazine herbicides and their hydroxylated and dealkylated degradation products in well water 721(1996)107

Enantioseparation and recognition mechanisms of dinitrobenzoyl-derivatized amino acids and amino alcohols on chiral stationary phases consisting of cyanuric chloride with (*S* or *R*)-phenylalanyl-(*S* or *R*)-1-(1-naphthyl)ethylamide substituent 722(1996)199

Enantiomer separation by gas and high-performance liquid chromatography with tripeptide derivatives as chiral stationary phases 722(1996)229

Separation of *s*-triazine herbicides and their metabolites by capillary zone electrophoresis as a function of pH 723(1996)169

Selective trace enrichment on immunosorbents for the multiresidue analysis of phenylurea and triazine pesticides 725(1996)107

Determination of herbicides in surface water by means of a supported liquid membrane technique and high-performance liquid chromatography 725(1996)121

Liquid chromatographic separation of amino acid enantiomers on a silica-bonded chiral *s*-triazine column 728(1996)447

Determination of triazine herbicides in environmental samples 733(1996)295

Determination of triazine herbicides in water by micellar electrokinetic capillary chromatography 733(1996)349

On-line solid-phase extraction in liquid chromatography using restricted access pre-columns for the analysis of *s*-triazines in humic-containing waters 737(1996)35

Development of a prototype system for quasi-continuous analysis of organic contaminants in surface or sewage water based on in-line coupling of solid-phase microextraction to gas chromatography 737(1996)59

High-performance liquid chromatographic determination of  $^{14}\text{C}$ -labelled terbuthylazine and principal degradates in percolation water and soil extracts from leaching experiments 737(1996)101

On-line partial filling micellar electrokinetic chromatography–electrospray ionization mass spectrometry 749(1996)219

Automated at-line solid-phase extraction–gas chromatographic analysis of micropollutants in water using the PrepStation 750(1996)161

#### **Triazole antimycotics**

Separation of the four stereoisomers of Z11556A, intermediate in the synthesis of triazole antimycotics, by capillary electrophoresis 741(1996)123

#### **Triazoles**

Migration behavior and separation of aromatic triazole and thiazole compounds by capillary zone electrophoresis 731(1996)299

#### **Triazolophthalazines**

Liquid chromatographic separation of chiral triazolophthalazines 729(1996)5

#### **Tributylphenylethylene oxide oligomers**

Reversed-phase chromatographic study of the interaction of non-ionic surfactants with sodium dodecyl sulfate 722(1996)33

Determination of the retention behaviour of some non-ionic surfactants on reversed-phase high-performance liquid chromatography supports by spectral mapping in combination with cluster analysis or non-linear mapping 722(1996)281

#### **Trichloroacetic acid**

Analysis of trichloroacetic acid in the urine of workers occupationally exposed to trichloroethylene by capillary gas chromatography 709(1995)313

Determination of polycyclic aromatic hydrocarbons in water samples using high-performance liquid chromatography with amperometric detection 730(1996)169

#### **Trichloroethylene**

Analysis of trichloroacetic acid in the urine of workers occupationally exposed to trichloroethylene by capillary gas chromatography 709(1995)313

#### **Trichloromethane**

Rapid determination of residual trichloromethane in drugs 731(1996)361

Solid sorbent method for the collection and analysis of volatile halogenated organic compounds in soil gas 738(1996)73

#### **Trichlorophenols**

Migration behavior and separation of trichlorophenols by capillary zone electrophoresis 746(1996)295

#### **Tricyclic antidepressants**

Retention studies on mixed-mode columns in high-performance liquid chromatography 708(1995)31

#### **Triethanolamine**

Determination of aldehydes in basic medium by gas chromatography using O-benzylhydroxylamine derivatization 709(1995)387

Ion chromatographic determination of nitrogen monoxide and nitrogen dioxide after collection in absorption bottles 739(1996)301

#### **Triethylamine**

Ion-pairing mechanism in the solid-phase extraction and reversed-phase high-performance liquid chromatographic determination of acidic herbicides in water 728(1996)319

#### **Triethylenetetramine**

Galvanic decoupling of a postcolumn amperometric detector in capillary electrophoresis 709(1995)69

#### **Trifluoroacetic acid**

Enhanced sensitivity for peptide mapping with electrospray liquid chromatography–mass spectrometry in the presence of signal suppression due to trifluoroacetic acid-containing mobile phases 712(1995)177

#### **2,2,2-Trifluoroethanol**

Effect of 2,2,2-trifluoroethanol on capillary zone electrophoretic peptide separations 735(1996)271

#### **Trifluoromethanesulfonic acid**

Trifluoromethanesulfonic acid as a catalyst for the formation of dansylhydrazone derivatives 740(1996)279

#### **Trifluoromethylbenzoic acid ester glucuronide**

High-performance liquid chromatography directly coupled to  $^{19}\text{F}$  and  $^1\text{H}$  NMR for the analysis of mixtures of isomeric ester glucuronide conjugates of trifluoromethylbenzoic acids 728(1996)377

#### **Trifluoromethylbenzoic acids**

High-performance liquid chromatography directly coupled to  $^{19}\text{F}$  and  $^1\text{H}$  NMR for the analysis of mixtures of isomeric ester glucuronide conjugates of trifluoromethylbenzoic acids 728(1996)377

#### **Trifluralin**

Field comparison of polyurethane foam plugs and mini-tubes containing Tenax-TA resin as trapping media for the aerodynamic gradient measurement of trifluralin vapour fluxes 710(1995)251

#### **Triglycerides**

Prefractionation of aroma extracts from fat-containing food by high-performance size-exclusion chromatography 729(1996)371

Isolation of cholesterol oxidation products from animal fat using aminopropyl solid-phase extraction 736(1996)205

Rapid, quantitative determination of polar compounds in fats and oils by solid-phase extraction and size-exclusion chromatography using monostearin as internal standard 749(1996)55

#### **Trihalomethanes**

Determination of trihalomethanes in aqueous samples by means of a purge-and-trap system with on-sorbent focusing coupled to gas chromatography with electron-capture detection 725(1996)157

Occurrence and determination of organic pollutants in tap and surface waters of the Gdańsk district 733(1996)171

#### **Triiodothyronine sodium**

Identification of the thermal degradation products of G-triiodothyronine sodium (liothyronine sodium) by reversed-phase high-performance liquid chromatography with photodiode-array UV and mass spectrometric detection 725(1996)287

#### **Trilaurin**

Stability and purity of low-polarity adsorbents for coupled supercritical fluid extraction–supercritical fluid chromatography–flame ionization detection 734(1996)311

#### **Trimethylsulfonium salts**

Direct on-column derivatisation in gas chromatography 738(1996)43

#### **Trimethyltetradecylammonium bromide**

Microemulsion electrokinetic chromatography with different organic modifiers: separation of water- and lipid-soluble vitamins 709(1995)11

#### **Trinitrobenzenesulfonic acid**

Quantification of cyclamate and cyclohexylamine in urine samples using high-performance liquid chromatography with trinitrobenzenesulfonic acid pre-column derivatization 750(1996)397

#### **Trinitrotoluene**

Use of porous polymers in off-line preconcentration of nitrobenzenes and their reduction products from water 733(1996)491

#### **Triorganotin compounds**

Capillary electrophoresis of triorganotin compounds with indirect fluorescence detection 746(1996)269

#### **Triphenylphosphine compounds**

High-performance liquid chromatography of the coordination isomers of triphenylphosphine-substituted homo- and hetero-bimetallic carbonyl complexes of manganese and rhenium 740(1996)231

#### **Triphenyl phosphite**

Study of an appropriate procedure for the chromatographic analysis of poly(ethylene terephthalate), after melt processing with triphenyl phosphite 725(1996)367

#### **Triptyline derivatives**

Comparison of separation selectivity in aqueous and non-aqueous capillary electrophoresis 711(1995)313

#### **Tris(cyanoethoxy)propane**

Characterization of cyano-functionalized stationary gas chromatographic phases by linear solvation energy relationships 718(1995)357

#### **Tris(pentafluorophenyl)phosphine**

Dual-channel flame photometric detector for sensitive spectrum acquisition and variable-wavelength operation 734(1996)405

Accurate spectral scans of single chromatographic peaks 746(1996)43

#### **Triterpenes**

Modified and convenient preparation of silica impregnated with silver nitrate and its application to the separation of steroids and triterpenes 715(1995)372

#### **Triton X-100**

Oligomeric separation of alkylphenol ethoxylate surfactants on silica using aqueous acetonitrile eluents 731(1996)171

#### **Triton X-114**

Purification of hydrophobic integral membrane proteins from *Mycoplasma hyopneumoniae* by reversed-phase high-performance liquid chromatography 737(1996)273

#### **Troger's base**

Micellar electrokinetic capillary chromatography with in-situ charged micelles 724(1996)285

#### **Tromethamine**

Ion chromatographic method for rapid and quantitative determination of tromethamine 718(1995)305

#### **Tropane alkaloids**

Lesser alkaloids of cocaine-bearing plants 749(1996)173

#### **Tropic acid**

Influence of different types of cyclodextrins on the racemization of scopolamine-N-butylbromide 728(1996)441

#### **Trypsin**

Studies of complexes between proteases, substrates and the protease inhibitor  $\alpha_2$ -macroglobulin using capillary electrophoresis with laser-induced fluorescence detection 716(1995)363

Affinity chromatography of trypsin using chitosan as ligand support 742(1996)107

#### **Trypsin inhibitor, soybean**

Study of aroma compound–natural polymer interactions by dynamic coupled column liquid chromatography 707(1995)181

Optimization of hapten–protein conjugation by high-performance capillary electrophoresis 717(1995)75

Continuous biospecific affinity purification of enzymes by simulated moving-bed chromatography. Theoretical description and experimental results 719(1996)267

### **Tryptophan**

Selective determination of peptides containing specific amino acid residues by high-performance liquid chromatography and capillary electrophoresis 704(1995)27

Separation of tryptophan and related indoles by micellar electrokinetic chromatography with KrF laser-induced fluorescence detection 718(1995)203

Isocratic high-performance liquid chromatographic determination of tryptophan in infant formulas 721(1996)83

Adsorption chromatography on cellulose. XIV. Some results using aqueous solutions of soluble cyclodextrin polymers as eluents 723(1996)405

Role of binding capacity versus binding strength in the separation of chiral compounds on protein-based high-performance liquid chromatography columns 725(1996)273

High-performance liquid chromatographic profiling of indolyacryloylglycine and its possible precursors in body fluids 730(1996)133

Improved end-column amperometric detection for capillary electrophoresis 742(1996)229

Quantitative thin layer chromatography on cellulose 746(1996)261

### **Tungstate**

Separation of chromate and tungstate by reversed-phase high-performance chromatography using rutin as chelating reagent 709(1995)381

### **Tyramine**

Diode laser-induced fluorescence detection in capillary electrophoresis after pre-column derivatization of amino acids and small peptides 708(1995)309

### **Tyrosinamide oligosaccharides**

Preparative purification of tyrosinamide N-linked oligosaccharides 720(1996)235

### **Tyrosine**

Selective determination of peptides containing specific amino acid residues by high-performance liquid chromatography and capillary electrophoresis 704(1995)27

### **Tyrosine-phosphorylated proteins**

Specific determination of tyrosine-phosphorylated proteins and peptides by differential iodination 743(1996)273

### **Tyrosol**

Characterization of phenolic and secoiridoid aglycons present in virgin olive oil by gas chromatography-chemical ionization mass spectrometry 736(1996)195

## **U**

### **Uranium**

Determination of thorium and uranium in nitrophosphate fertilizer solution by ion chromatography 706(1995)175

Retention behaviour of thorium(IV) and uranyl on a reversed-phase column with glycolate and mandelate as eluents 739(1996)151

Simultaneous solvent extraction and high-performance liquid chromatographic determination of uranium, iron, nickel and copper in mineral ore samples and phosphate rock residues using N,N'-ethylenebis(salicylaldimine) as complexing reagent 740(1996)296

Method for the separation of uranium(IV) and (VI) oxidation states in natural waters 743(1996)335

### **Uranium materials**

Determination of lanthanides and actinides in uranium materials by high-performance liquid chromatography with inductively coupled plasma mass spectrometric detection 739(1996)139

### **Uranyl**

Determination of trace levels of thorium(IV) and uranyl by reversed-phase chromatography with on-line preconcentration and ligand exchange 749(1996)103

### **Urea**

Effect of urea addition on chiral separation of dansylamino acids by capillary zone electrophoresis with cyclodextrins 710(1995)331

Optimization of resolution in micellar electrokinetic chromatography via computer-aided simultaneous variation of concentrations of sodium dodecyl sulfate and urea as modifier 716(1995)81

Non-native capillary isoelectric focusing for the analysis of the microheterogeneity of glycoproteins 737(1996)281

### **Urethane oil**

Gel permeation chromatographic method for monitoring the transesterification reaction in a two-step chemoenzymatic synthesis of urethane oil based on vegetable oils 718(1995)299

### **Uric acid**

Simultaneous determination of uric acid and creatinine in biological fluids by column-switching liquid chromatography with ultraviolet detection 730(1996)139

Comparison of capillary electrophoretic and liquid chromatographic determination of hypoxanthine and xanthine for the diagnosis of xanthinuria 730(1996)329

- Uridine**  
Analysis of the reaction products of N-(O,O-diisopropyl)phosphorylthreonine with uridine by capillary zone electrophoresis with diode array detection and capillary electrophoresis-mass spectrometry 745(1996)263
- Uronic acids**  
Characterization of neutral sugars and uronic acids after methanolysis and trimethylsilylation for recognition of plant gums 720(1996)27
- Comparison of separation modes of high-performance liquid chromatography for the analysis of glycoprotein- and proteoglycan-derived oligosaccharides 720(1996)227
- Development of protamine-bonded phase for separation of saccharides in liquid chromatography 737(1996)149
- Uroporphyrinogen I**  
Preparation and separation of hydroxy derivatives of uroporphyrinogen I by high-performance liquid chromatography with electrochemical detection 722(1996)245
- V**
- Valine**  
High-performance liquid chromatography of amino acids in copper(II) complex form: application to valine fermentation samples 722(1996)311
- Postcolumn co-immobilized leucine dehydrogenase-NADH oxidase reactor for the determination of branched-chain amino acids by high-performance liquid chromatography with chemiluminescence detection 724(1996)354
- Vanadium**  
Simultaneous determination of vanadium and molybdenum as N-benzoyl-N-phenylhydroxamate complexes by combining solvent extraction and liquid chromatography 730(1996)241
- Vancomycin**  
High-performance liquid chromatographic determination of vancomycin in rabbit serum, vitreous and aqueous humour after intravitreal injection of the drug 727(1996)231
- Multiple-plug binding assays using affinity capillary electrophoresis 727(1996)291
- Investigation of enantioselective separation of quinolonecarboxylic acids by capillary zone electrophoresis using vancomycin as a chiral selector 736(1996)303
- Vanillin and related compounds**  
Micellar electrokinetic chromatography as a screening method for the analysis of vanilla flavourings and vanilla extracts 736(1996)321
- Vasodilators**  
Capillary electrophoresis of cardiovascular drugs 735(1996)123
- Vasopressin peptides**  
Determination of chiral reagent purity by capillary electrophoresis 715(1995)151
- Verapamil**  
Combined polymerized chiral micelle and  $\gamma$ -cyclodextrin for chiral separation in capillary electrophoresis 711(1995)297
- Development and validation of a bioanalytical method for the quantification of diltiazem and desacetyldiltiazem in plasma by capillary zone electrophoresis 717(1995)235
- Chiral separation of verapamil and related compounds using micellar electrokinetic capillary chromatography with mixed micelles of bile salt and polyoxyethylene ethers 723(1996)179
- Automated determination of verapamil and norverapamil in human plasma with on-line coupling of dialysis to high-performance liquid chromatography and fluorometric detection 750(1996)351
- Visoltricin**  
Simultaneous high-performance liquid chromatographic determination of visoltricin, acuminatopyrone and chlamydospores in *Fusarium* cultures on maize 730(1996)69
- Vitamins**  
see also Ascorbic acid and Retinol
- Microemulsion electrokinetic chromatography with different organic modifiers: separation of water- and lipid-soluble vitamins 709(1995)11
- Application and optimization of capillary zone electrophoresis in vitamin analysis 717(1995)255
- High-performance liquid chromatographic analysis of retinal and retinol isomers 721(1996)247
- Highly sensitive and simple liquid chromatographic determination in plasma of B<sub>6</sub> vitamers, especially pyridoxal 5'-phosphate 722(1996)296
- Determination of thiamine in dried yeast by high-performance liquid chromatography using a clean-up column of CM-cellulose 726(1996)237
- Determination of cholecalciferol and related substances by calcium phosphate hydroxyapatite and calcium phosphate fluoroapatite high-performance liquid chromatography 731(1996)153
- Micellar electrokinetic chromatography. Perspectives in drug analysis 735(1996)3

Application of on-line capillary high-performance liquid chromatography–nuclear magnetic resonance spectrometry coupling for the analysis of vitamin A derivatives 750(1996)303

#### **Volatile oils**

Use of a trio of modified cyclodextrin gas chromatographic phases to provide structural information on some constituents of volatile oils 707(1995)390

#### **Volatile organic compounds**

Carbon sorbents and their utilization for the preconcentration of organic pollutants in environmental samples 707(1995)145

Thermal desorption–gas chromatography–mass spectrometry–flame ionization detection–sniffer multi-coupling: A device for the determination of odorous volatile organic compounds in air 708(1995)105

Detection methods for the analysis of biogenic non-methane hydrocarbons in air 710(1995)39

On-site monitoring of volatile organic compounds as hazardous air pollutants by gas chromatography 710(1995)51

Automated gas chromatographic analysis of volatile organic compounds in air 710(1995)61

Sorbent evaluation for diffusive monitoring of environmental contaminants 719(1996)87

Langmuirian behaviour of smelly volatile organic compounds on air sampling with solid adsorbents 723(1996)293

Assessing breakthrough times for denuder samplers with emphasis on volatile organic compounds 723(1996)301

Windowless pulsed-discharge photoionization detector. Application to qualitative analysis of volatile organic compounds 724(1996)235

Characteristics of microtrap-based injection systems for continuous monitoring of volatile organic compounds by gas chromatography 727(1996)111

Quantification of toxic hydrocarbon target compounds in engine exhaust and air by aluminum oxide porous-layer open-tubular capillary gas chromatography–mass spectrometry using isotopically labeled internal standards 731(1996)217

New and efficient microextraction/solid-phase extraction method for the gas chromatographic analysis of wine volatiles 731(1996)247

Artifact-free preparation, storage and analysis of solid adsorbent sampling cartridges used in the analysis of volatile organic compounds in air 732(1996)414

Environmental analysis of volatile organic compounds in water and sediment by gas chromatography 733(1996)119

Methods of isolation and determination of volatile organohalogen compounds in natural and treated waters 733(1996)417

Continuous monitoring of volatile organic compounds in air emissions using an on-line membrane extraction–microtrap–gas chromatographic system 736(1996)165

Solid sorbent method for the collection and analysis of volatile halogenated organic compounds in soil gas 738(1996)73

Application of solid-phase microextraction to the analysis of volatile organic compounds in water 742(1996)181

Development of a whole headspace injection method for the determination of volatile organic compounds in water 746(1996)83

Comparison of two azobenzene liquid crystal stationary phases in open tubular column gas chromatography 746(1996)247

Screening method for the determination of 28 volatile organic compounds in indoor and outdoor air at environmental concentrations using dual-column capillary gas chromatography with tandem electron-capture–flame ionization detection 749(1996)181

A new fast method for field screening of polychlorinated biphenyls in air 750(1996)151

#### **Vulcanization accelerators**

Wastewater from the manufacture of rubber vulcanization accelerators: characterization, downstream monitoring and chemical treatment 733(1996)511

#### **VX**

Capillary gas chromatographic analysis of nerve agents using large volume injections 723(1996)210

## **W**

#### **Warfarin**

Separation of diastereomers by capillary zone electrophoresis in free solution with polymer additive and organic solvent component. Effect of pH and solvent composition 719(1996)411

Bonded cellulose-derived high-performance liquid chromatography chiral stationary phases. I. Influence of the degree of fixation on selectivity 728(1996)407

**Water**

New approach for controlling the partitioning of analyte ions in ion chromatography with a water mobile phase 723(1996)251

**Waxes**

Gas chromatography of petroleum-derived waxes and high-molecular-mass linear alcohols and acids 718(1995)119

Two-stage resolution of mixtures by supercritical fluid chromatography 722(1996)317

Characterization of technical waxes 732(1996)111

**Weak bases**

Calculation of the composition of sample zones in capillary zone electrophoresis 741(1996)265

**Whey proteins**

Characterization of ewe's milk by capillary zone electrophoresis 721(1996)345

Quantification of the major bovine whey proteins using capillary zone electrophoresis 723(1996)371

Perfusion liquid chromatography of whey proteins 729(1996)99

**Wogonin**

Determination of gentiopicroside, mangiferin, palmitate, berberine, baicalin, wogonin and glycyrrhizin in the traditional Chinese medicinal preparation Sann-Joong-Kuey-Jian-Tang by high-performance liquid chromatography 730(1996)17

**X****Xanthines**

Selected applications of the use of supercritical fluids in coupled systems 703(1995)467

Synthesis and characterization of polymer-coated mixed-functional stationary phases with several different hydrophobic groups for direct analysis of biological samples by liquid chromatography 722(1996)115

Comparison of capillary electrophoretic and liquid chromatographic determination of hypoxanthine and xanthine for the diagnosis of xanthinuria 730(1996)329

**Xylan**

Efficient capillary zone electrophoretic separation of wood-derived neutral and acidic mono- and oligosaccharides 738(1996)129

**Xylenes**

Repetitive liquid injection system for inverse gas chromatography 715(1995)279

Determination of monocyclic aromatic hydrocarbons in fruit and vegetables by gas chromatography-mass spectrometry 734(1996)297

**Xylose**

Simple and sensitive multi-sugar-probe gut permeability test by high-performance liquid chromatography with fluorescence labelling 730(1996)99

**Z****Zidovudine**

Rapid and sensitive determination of zidovudine and zidovudine glucuronide in human plasma by ion-pair high-performance liquid chromatography 721(1996)127

**Zinc**

Determination of Cd, Co, Cu, Fe, Mn, Ni and Zn in coral skeletons by chelation ion chromatography 706(1995)167

**Zinc dialkyldithiophosphates**

Separation of zinc dialkyldithiophosphates in lubricating oil additives by normal-phase high-performance liquid chromatography 749(1996)87

**Zirconia**

Comparison of an ordered mesoporous aluminosilicate, silica, alumina, titania and zirconia in normal-phase high-performance liquid chromatography 740(1996)1

**Zopiclone**

Enantiomeric separation of zopiclone, its metabolites and products of degradation on a  $\beta$ -cyclodextrin bonded phase 729(1996)19

Separation of enantiomers of drugs by capillary electrophoresis 735(1996)333
