## Subject Index Vol. 844

---

### Adsorption

Determination of heats of adsorption of hydrocarbons on a synthetic clay by gas–solid chromatography using a wall coated open tubular column approach 844(1999)191

### Air analysis

Construction and evaluation of automated gas chromatography for the measurement of anthropogenic halocarbons in the atmosphere 844(1999)259

Trace analysis of carbonyl compounds by liquid chromatography–mass spectrometry after collection as 2,4-dinitrophenylhydrazine derivatives 844(1999)403

### Alkanes

Influence of temperature and *n*-alkane pair on the methylene increments to the thermodynamic functions of solution on SE-30 and Carbowax-20M capillary columns 844(1999)201

### Alkenes

Alkene determination by bromination and gas chromatography with element-selective atomic plasma spectroscopic detection 844(1999)249

### Amino acids

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

### Aminobutylethylisoluminol

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

### Amphetamines

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

### Anions

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

### Antibiotics

Application of microemulsion electrokinetic chromatography to the analysis of a wide range of pharmaceuticals and excipients 844(1999)371

### Antioxidants

Reversed-phase retention characteristics of tocotrienol antioxidants 844(1999)67

### Aroma compounds

Trace-level determination of polar flavour compounds in butter by solid-phase extraction and gas chromatography–mass spectrometry 844(1999)295

### Artifacts

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

### Automation

Construction and evaluation of automated gas chromatography for the measurement of anthropogenic halocarbons in the atmosphere 844(1999)259

### Background electrolyte composition

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

### Barium peroxide

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

### Basic compounds

Comparison of the performance of conventional C<sub>18</sub> phases with others of alternative functionality for the analysis of basic compounds by reversed-phase high-performance liquid chromatography 844(1999)23

### Benzene

Methodology for gas chromatographic–mass spectral analysis of volatile organic compounds emerging from a low-pressure, flow-through reaction cell 844(1999)217

**Biogenic amines**

Condensation nucleation light scattering detection for biogenic amines separated by ion-exchange chromatography 844(1999)111

**Biosensors**

Reassessment of the calibration constant for the IAsys biosensor 844(1999)395

**Buffer composition**

Capillary electrophoretic separation enhanced by a macrocyclic dioxopolyamine additive 844(1999)439

**Bis(trimethylsilyl)acetamide**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

**Bis(trimethylsilyl)trifluoroacetamide**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

**Butter**

Trace-level determination of polar flavour compounds in butter by solid-phase extraction and gas chromatography–mass spectrometry 844(1999)295

**Calibration**

Reassessment of the calibration constant for the IAsys biosensor 844(1999)395

**Capillary columns**

Influence of temperature and *n*-alkane pair on the methylene increments to the thermodynamic functions of solution on SE-30 and Carbowax-20M capillary columns 844(1999)201

**Capillary electrophoresis**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

**Caramel**

Qualitative and quantitative evaluation of mono- and disaccharides in D-fructose, D-glucose and sucrose caramels by gas–liquid chromatography–mass spectrometry. Di-D-fructose dianhydrides as tracers of caramel authenticity 844(1999)283

**Carbohydrate**

Qualitative and quantitative evaluation of mono- and disaccharides in D-fructose, D-glucose and sucrose caramels by gas–liquid chromatography–mass spectrometry. Di-D-fructose dianhydrides as tracers of caramel authenticity 844(1999)283

**Carbonyl compounds**

Trace analysis of carbonyl compounds by liquid chromatography–mass spectrometry after collection as 2,4-dinitrophenylhydrazine derivatives 844(1999)403

 **$\beta$ -Carotenes**

Separation of *cis/trans* isomers of  $\beta$ -carotene by supercritical fluid chromatography 844(1999)307

**Carotenoids**

Determination of the geographical origin of valencia orange juice using carotenoid liquid chromatographic profiles 844(1999)149

**Catecholamines**

Capillary electrophoretic separation enhanced by a macrocyclic dioxopolyamine additive 844(1999)439

**Chemiluminescence detection**

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

**Chemometrics**

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

**Chiral stationary phases, LC**

Optimization and validation of chiral high-performance liquid chromatographic method for analysis of a fibrinogen (gpIIb/IIIa) receptor antagonist 844(1999)171

**Chloride**

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

**Chlorofluorocarbons**

Empirical formulae studies of chlorofluorocarbons using gas chromatography coupled to atomic emission detection 844(1999)271

**Clays**

Determination of heats of adsorption of hydrocarbons on a synthetic clay by gas–solid chromatography using a wall coated open tubular column approach 844(1999)191

**Codeine**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

**Column performance**

Comparison of the performance of conventional C<sub>18</sub> phases with others of alternative functionality for the analysis of basic compounds by reversed-phase high-performance liquid chromatography 844(1999)23

**Complexation**

Comparison of the liquid and gas chromatography of five classes of metal complexes 844(1999)181

**Condensation nucleation light scattering detection**

Condensation nucleation light scattering detection for biogenic amines separated by ion-exchange chromatography 844(1999)111

**Conductivity detection**

Contactless conductivity detection in capillary zone electrophoresis\* 844(1999)349

**Confocal scanning laser microscopy**

Direct visualisation of plasmid DNA in individual chromatography adsorbent particles by confocal scanning laser microscopy 844(1999)129

**Correlation chromatography**

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

**Derivatization, GC**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

Alkene determination by bromination and gas chromatography with element-selective atomic plasma spectroscopic detection 844(1999)249

**Derivatization, LC**

Trace analysis of carbonyl compounds by liquid chromatography–mass spectrometry after collection as 2,4-dinitrophenylhydrazine derivatives 844(1999)403

**Detection, electrophoresis**

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

Contactless conductivity detection in capillary zone electrophoresis 844(1999)349

Post-capillary laser-induced fluorescence detection without sheath-flow 844(1999)433

**Detection, GC**

Alkene determination by bromination and gas chromatography with element-selective atomic plasma spectroscopic detection 844(1999)249

**Detection, LC**

Condensation nucleation light scattering detection for biogenic amines separated by ion-exchange chromatography 844(1999)111

Reassessment of the calibration constant for the IAsys biosensor 844(1999)395

**Difuctose dianhydrides**

Qualitative and quantitative evaluation of mono- and disaccharides in D-fructose, D-glucose and sucrose caramels by gas–liquid chromatography–mass spectrometry. Di-D-fructose dianhydrides as tracers of caramel authenticity 844(1999)283

**Diglycerides**

Effort to improve the quantitative determination of oxidation and hydrolysis compound classes in edible vegetable oils 844(1999)77

**Dihydroxy benzenes**

Capillary electrophoretic separation enhanced by a macrocyclic dioxopolyamine additive 844(1999)439

**2,4-Dinitrophenylhydrazine**

Trace analysis of carbonyl compounds by liquid chromatography–mass spectrometry after collection as 2,4-dinitrophenylhydrazine derivatives 844(1999)403

**Dinophysis**

Liquid chromatographic methods for the isolation and identification of new pectenotoxin-2 analogues from marine phytoplankton and shellfish 844(1999)53

**DNA**

Direct visualisation of plasmid DNA in individual chromatography adsorbent particles by confocal scanning laser microscopy 844(1999)129

**Doehlert design**

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

**Electrochromatography**

Electroosmotically driven thin-layer electrochromatography on silica media 844(1999)333

**Electrokinetic chromatography**

Application of microemulsion electrokinetic chromatography to the analysis of a wide range of pharmaceuticals and excipients 844(1999)371

**Electroosmotic flow**

Electroosmotically driven thin-layer electrochromatography on silica media 844(1999)333

**Enantiomer separation**

Analytical study of penicillamine in pharmaceuticals by capillary zone electrophoresis 844(1999)361

**Environmental analysis**

Construction and evaluation of automated gas chromatography for the measurement of anthropogenic halocarbons in the atmosphere 844(1999)259

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

Determination of explosives in soil and ground water by liquid chromatography–amperometric detection 844(1999)97

**Ethanolamine**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

**Explosives**

Sensitive determination of RDX, nitroso-RDX metabolites, and other munitions in ground water by solid-phase extraction and isotope dilution liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 844(1999)87

Determination of explosives in soil and ground water by liquid chromatography–amperometric detection 844(1999)97

**Extraction methods**

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

**Factor IX**

Production of highly purified clotting factor IX by a combination of different chromatographic methods 844(1999)119

**Fats**

Effort to improve the quantitative determination of oxidation and hydrolysis compound classes in edible vegetable oils 844(1999)77

**Fibrinogen receptor antagonist**

Optimization and validation of chiral high-performance liquid chromatographic method for analysis of a fibrinogen (gpIIb/IIIa) receptor antagonist 844(1999)171

**Fish**

Condensation nucleation light scattering detection for biogenic amines separated by ion-exchange chromatography 844(1999)111

**Food analysis**

Effort to improve the quantitative determination of oxidation and hydrolysis compound classes in edible vegetable oils 844(1999)77

Condensation nucleation light scattering detection for biogenic amines separated by ion-exchange chromatography 844(1999)111

Determination of the geographical origin of valencia orange juice using carotenoid liquid chromatographic profiles 844(1999)149

Qualitative and quantitative evaluation of mono- and disaccharides in D-fructose, D-glucose and sucrose caramels by gas–liquid chromatography–mass spectrometry. Di-D-fructose dianhydrides as tracers of caramel authenticity 844(1999)283

Trace-level determination of polar flavour compounds in butter by solid-phase extraction and gas chromatography–mass spectrometry 844(1999)295

**Formalin**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

**Fruit juices**

Determination of the geographical origin of valencia orange juice using carotenoid liquid chromatographic profiles 844(1999)149

**Gasoline**

Alkene determination by bromination and gas chromatography with element-selective atomic plasma spectroscopic detection 844(1999)249

**Geometrical isomers**

Reversed-phase retention characteristics of tocotrienol antioxidants 844(1999)67

**Glycoproteins**

Production of highly purified clotting factor IX by a combination of different chromatographic methods 844(1999)119

**Halocarbons**

Construction and evaluation of automated gas chromatography for the measurement of anthropogenic halocarbons in the atmosphere 844(1999)259

Empirical formulae studies of chlorofluorocarbons using gas chromatography coupled to atomic emission detection 844(1999)271

**Hanford waste**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

**Heats of adsorption**

Determination of heats of adsorption of hydrocarbons on a synthetic clay by gas–solid chromatography using a wall coated open tubular column approach 844(1999)191

**Histidine**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

**Hydrocarbons**

Determination of heats of adsorption of hydrocarbons on a synthetic clay by gas–solid chromatography using a wall coated open tubular column approach 844(1999)191

Chemically bonded chelates as selective complexing sorbents for gas chromatography. VII. *N*-[3-(Trimethoxysilyl)propyl]diethylenetriamine complexes with CuCl<sub>2</sub> and CrCl<sub>3</sub> 844(1999)239

**IAsys calibration**

Reassessment of the calibration constant for the IAsys biosensor 844(1999)395

**Imidazole**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

**Inductively coupled mass spectrometry**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

**Injection methods**

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

**Inorganic anions**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

Contactless conductivity detection in capillary zone electrophoresis 844(1999)349

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

**Inorganic cations**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

Capillary electrophoretic separation enhanced by a macrocyclic dioxopolymine additive 844(1999)439

**Inorganic ions**

Simultaneous separation of inorganic ions and neutral organics on ion-exchange stationary phases 844(1999)39

**Instrumentation**

Methodology for gas chromatographic-mass spectral analysis of volatile organic compounds emerging from a low-pressure, flow-through reaction cell 844(1999)217

Construction and evaluation of automated gas chromatography for the measurement of anthropogenic halocarbons in the atmosphere 844(1999)259

Post-capillary laser-induced fluorescence detection without sheath-flow 844(1999)433

**Inter-laboratory study**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

**Ion exchangers**

Simultaneous separation of inorganic ions and neutral organics on ion-exchange stationary phases 844(1999)39

**Laponite-RD clay**

Determination of heats of adsorption of hydrocarbons on a synthetic clay by gas-solid chromatography using a wall coated open tubular column approach 844(1999)191

**Laser-induced fluorescence detection**

Post-capillary laser-induced fluorescence detection without sheath-flow 844(1999)433

**Ligate depletion**

Reassessment of the calibration constant for the IAsys biosensor 844(1999)395

**Lipids**

Reversed-phase retention characteristics of tocotrienol antioxidants 844(1999)67

**Lucigenin**

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

**Luminol**

On-line chemiluminescence detection for capillary electrophoresis based on the reaction of barium peroxide with luminescence reagents 844(1999)341

**Lysergic acid diethylamide**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

**Marine algae**

Liquid chromatographic methods for the isolation and identification of new pectenotoxin-2 analogues from marine phytoplankton and shellfish 844(1999)53

**Mass spectrometry**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

**Mathematical modelling**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

**Metal complexes**

Comparison of the liquid and gas chromatography of five classes of metal complexes 844(1999)181

Chemically bonded chelates as selective complexing sorbents for gas chromatography. VII. *N*-[3-(Trimethoxysilyl)propyl]-diethylenetriamine complexes with  $\text{CuCl}_2$  and  $\text{CrCl}_3$  844(1999)239

**Methylene chloride**

Methodology for gas chromatographic-mass spectral analysis of volatile organic compounds emerging from a low-pressure, flow-through reaction cell 844(1999)217

**Methylenedioxyamphetamine**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

**Methylene increments**

Influence of temperature and *n*-alkane pair on the methylene increments to the thermodynamic functions of solution on SE-30 and Carbowax-20M capillary columns 844(1999)201

**Microemulsion electrokinetic chromatography**

Application of microemulsion electrokinetic chromatography to the analysis of a wide range of pharmaceuticals and excipients 844(1999)371

**Monoacetylmorphine**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

**Morphine-6-glucuronide**

Poor reproducibility of in-source collisional atmospheric pressure ionization mass spectra of toxicologically relevant drugs 844(1999)409

***Mytilus galloprovincialis***

Liquid chromatographic methods for the isolation and identification of new pectenotoxin-2 analogues from marine phytoplankton and shellfish 844(1999)53

**Neutral organic compounds**

Simultaneous separation of inorganic ions and neutral organics on ion-exchange stationary phases 844(1999)39

**Nitramines**

Sensitive determination of RDX, nitroso-RDX metabolites, and other munitions in ground water by solid-phase extraction and isotope dilution liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 844(1999)87

**Nitrate**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

**Nitrite**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

**Nitroaromatics**

Sensitive determination of RDX, nitroso-RDX metabolites, and other munitions in ground water by solid-phase extraction and isotope dilution liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 844(1999)87

**Nitrobenzenes**

Determination of explosives in soil and ground water by liquid chromatography-amperometric detection 844(1999)97

**Nitrophenols**

Capillary electrophoretic separation enhanced by a macrocyclic dioxopolyamine additive 844(1999)439

**Nitrotoluenes**

Determination of explosives in soil and ground water by liquid chromatography-amperometric detection 844(1999)97

**Optimization**

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

**Organic acids**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

**Organobromine compounds**

Alkene determination by bromination and gas chromatography with element-selective atomic plasma spectroscopic detection 844(1999)249

**Organochlorine compounds**

Construction and evaluation of automated gas chromatography for the measurement of anthropogenic halocarbons in the atmosphere 844(1999)259

Empirical formulae studies of chlorofluorocarbons using gas chromatography coupled to atomic emission detection 844(1999)271

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

**Pectenotoxin-2**

Liquid chromatographic methods for the isolation and identification of new pectenotoxin-2 analogues from marine phytoplankton and shellfish 844(1999)53

**Penicillamine**

Analytical study of penicillamine in pharmaceuticals by capillary zone electrophoresis 844(1999)361

**Pesticides**

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425

**Pharmaceutical analysis**

Analytical study of penicillamine in pharmaceuticals by capillary zone electrophoresis 844(1999)361

Application of microemulsion electrokinetic chromatography to the analysis of a wide range of pharmaceuticals and excipients 844(1999)371

#### **Pirimicarb**

Electroosmotically driven thin-layer electrochromatography on silica media 844(1999)333

#### **Polar ice core**

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

#### **Polynuclear aromatic compounds**

Simultaneous separation of inorganic ions and neutral organics on ion-exchange stationary phases 844(1999)39

#### **Proteins**

Production of highly purified clotting factor IX by a combination of different chromatographic methods 844(1999)119

Reassessment of the calibration constant for the IAsys biosensor 844(1999)395

#### **Radioactive waste**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

#### **RDX**

Sensitive determination of RDX, nitroso-RDX metabolites, and other munitions in ground water by solid-phase extraction and isotope dilution liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 844(1999)87

#### **Reverse-polarity capillary zone electrophoresis**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

#### **Reviews**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them (Review) 844(1999)1

#### **Roxifiban**

Optimization and validation of chiral high-performance liquid chromatographic method for analysis of a fibrinogen (gpIIb/IIIa) receptor antagonist 844(1999)171

#### **Sample handling**

Methodology for gas chromatographic-mass spectral analysis of volatile organic compounds emerging from a low-pressure, flow-through reaction cell 844(1999)217

#### **Seafood toxins**

Liquid chromatographic methods for the isolation and identification of new pectenotoxin-2 analogues from marine phytoplankton and shellfish 844(1999)53

#### **Self-elution**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

#### **Signal suppression**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

#### **Silica, bonded**

Gas chromatography study of retention of organic compounds on silica with an attached layer of hydrophobic groups 844(1999)225

#### **Silyl derivatives**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

#### **Simulant waste material**

Determination of nitrate and nitrite in Hanford defense waste by reverse-polarity capillary zone electrophoresis 844(1999)387

#### **Soil**

Determination of explosives in soil and ground water by liquid chromatography-ampereometric detection 844(1999)97

#### **Stationary phases, GC**

Gas chromatography study of retention of organic compounds on silica with an attached layer of hydrophobic groups 844(1999)225

Chemically bonded chelates as selective complexing sorbents for gas chromatography. VII. *N*-[3-(Trimethoxysilyl)propyl]-diethylenetriamine complexes with CuCl<sub>2</sub> and CrCl<sub>3</sub> 844(1999)239

#### **Stationary phases, LC**

Comparison of the performance of conventional C<sub>18</sub> phases with others of alternative functionality for the analysis of basic compounds by reversed-phase high-performance liquid chromatography 844(1999)23

Simultaneous separation of inorganic ions and neutral organics on ion-exchange stationary phases 844(1999)39

Reversed-phase retention characteristics of tocotrienol antioxidants 844(1999)67

#### **Stationary phases, SFC**

Separation of *cis/trans* isomers of β-carotene by supercritical fluid chromatography 844(1999)307

#### **Steroids**

Application of microemulsion electrokinetic chromatography to the analysis of a wide range of pharmaceuticals and excipients 844(1999)371

**Sulfate**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

**Sulfide**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

**Sulfite**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

**Sulfur-containing anions**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

**Sulphate**

Reduction of the detection limits of anions in polar ice core analysis using correlation ion chromatography with detector signal processing 844(1999)419

**Tetraazacyclotridecanedione**

Capillary electrophoretic separation enhanced by a macrocyclic dioxopolymine additive 844(1999)439

**Thermodynamic parameters**

Determination of heats of adsorption of hydrocarbons on a synthetic clay by gas-solid chromatography using a wall coated open tubular column approach 844(1999)191

Influence of temperature and *n*-alkane pair on the methylene increments to the thermodynamic functions of solution on SE-30 and Carbowax-20M capillary columns 844(1999)201

Gas chromatography study of retention of organic compounds on silica with an attached layer of hydrophobic groups 844(1999)225

**Thiosulfate**

Ion chromatographic separation of sulfur-containing inorganic anions with an ICP-MS as element-specific detector 844(1999)161

**Tocotrienols**

Reversed-phase retention characteristics of tocotrienol antioxidants 844(1999)67

**Toxins**

Liquid chromatographic methods for the isolation and identification of new pectenotoxin-2 analogues from marine phytoplankton and shellfish 844(1999)53

**Transfer ratio**

Transfer ratio in indirect UV detection in capillary zone electrophoresis. A mathematical approach 844(1999)321

**Triglycerides**

Effort to improve the quantitative determination of oxidation and hydrolysis compound classes in edible vegetable oils 844(1999)77

**Trimethylsilyl derivatives**

Artifacts in trimethylsilyl derivatization reactions and ways to avoid them 844(1999)1

**1,3,5-Trinitro-1,3,5-triazacyclohexane**

Sensitive determination of RDX, nitroso-RDX metabolites, and other munitions in ground water by solid-phase extraction and isotope dilution liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 844(1999)87

**Vegetable oils**

Effort to improve the quantitative determination of oxidation and hydrolysis compound classes in edible vegetable oils 844(1999)77

**Vitamins**

Application of microemulsion electrokinetic chromatography to the analysis of a wide range of pharmaceuticals and excipients 844(1999)371

**Volatile organic compounds**

Methodology for gas chromatographic-mass spectral analysis of volatile organic compounds emerging from a low-pressure, flow-through reaction cell 844(1999)217

**Water analysis**

Determination of explosives in soil and ground water by liquid chromatography-amperometric detection 844(1999)97

Optimization of solid-phase microextraction conditions using a response surface methodology to determine organochlorine pesticides in water by gas chromatography and electron-capture detection 844(1999)425
