

ELSEVIER

Journal of Chromatography A, 850 (1999) 395–402

JOURNAL OF
CHROMATOGRAPHY A

Subject Index Vol. 850

Acoustic effects

Acoustic effects in chromatography 850(1999)9

Air analysis

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Development of an analytical method for beryllium in airborne dust by micellar electrokinetic chromatography 850(1999)363

Alkali metals

Separation and detection of common mono- and divalent cations by ion chromatography with an ODS column and conductivity/UV detection 850(1999)247

Alkaline earth metals

Separation and detection of common mono- and divalent cations by ion chromatography with an ODS column and conductivity/UV detection 850(1999)247

Aluminum alloys

Using capillary electrophoresis to study the chemical conditions within cracks in aluminum alloys 850(1999)381

Amines

Determination of amines used in the oil and gas industry (upstream section) by ion chromatography 850(1999)289

Ammonium

Determination of sodium and ammonium ions in disproportionate concentration ratios by ion chromatography 850(1999)239

Separation and detection of common mono- and divalent cations by ion chromatography with an ODS column and conductivity/UV detection 850(1999)247

Ammonium sulfobetaine stationary phases

Electrostatic ion chromatography of polarizable anions in saline waters with *N*-{2-[acetyl(3-sulfopropyl)amino]ethyl}-*N,N*-dimethyldodecanaminium hydroxide (ammonium sulfobetaine-1) as the stationary phase and a dilute electrolytic solution as the mobile phase 850(1999)161

Artificial sweeteners

Determination of aspartame by ion chromatography with electrochemical integrated amperometric detection 850(1999)277

Aspartame

Determination of aspartame by ion chromatography with electrochemical integrated amperometric detection 850(1999)277

Background electrolyte composition

Optimization of conductivity detection of low-molecular-mass anions in capillary zone electrophoresis 850(1999)355

Basic contaminants

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Benzenecarboxylic acids

Ion-exclusion chromatography of carboxylic acids on silica gel modified with aluminium 850(1999)177

Beryllium

Development of an analytical method for beryllium in airborne dust by micellar electrokinetic chromatography 850(1999)363

Bisphosphonates

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Borate

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Boric acid

Enhancement of conductometric detection of weak acids in ion chromatography 850(1999)85

Bromate

Analysis of 500-ng/l levels of bromate in drinking water by direct-injection suppressed ion chromatography coupled with a single, pneumatically delivered post-column reagent 850(1999)119

Buffer composition

Factors affecting selectivity of inorganic anions in capillary electrophoresis 850(1999)319

Calibration

Lack-of-fit testing of ion chromatographic calibration curves with inexact replicates 850(1999)43

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Capacity gradients

Capacity gradient anion chromatography with a borate complex as eluent 850(1999)73

Carboxylic acids

Retention modelling of electrostatic and adsorption effects of aliphatic and aromatic carboxylic acids in ion-exclusion chromatography 850(1999)17

Ion-exclusion chromatography of carboxylic acids on silica gel modified with aluminium 850(1999)177

Separation of carboxylic acids on a weakly acidic cation-exchange resin by ion-exclusion chromatography 850(1999)187

Chromium

Determination of total chromium in phosphate rocks by ion chromatography 850(1999)137

Cleanroom

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Complexation

Capacity gradient anion chromatography with a borate complex as eluent 850(1999)73

Factors affecting selectivity of inorganic anions in capillary electrophoresis 850(1999)319

Computer modelling

Artificial neural networks for computer-aided modelling and optimisation in micellar electrokinetic chromatography 850(1999)345

Conductivity detection

Optimization of conductivity detection of low-molecular-mass anions in capillary zone electrophoresis 850(1999)355

Conductometric detection

Enhancement of conductometric detection of weak acids in ion chromatography 850(1999)85

Corrosion

Chemical conditions inside occluded regions on corroding aircraft aluminum alloys 850(1999)375

Using capillary electrophoresis to study the chemical conditions within cracks in aluminum alloys 850(1999)381

Crack chemistry

Using capillary electrophoresis to study the chemical conditions within cracks in aluminum alloys 850(1999)381

Crown ethers

Simultaneous determination of anions and cations by ion-exclusion chromatography–cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Simultaneous separation of common mono- and divalent cations on silica gel modified with aluminium by non-suppressed ion chromatography with conductimetric detection and nitric acid–15-crown-5 as eluent 850(1999)229

Derivatization, LC

Analysis of 500-ng/l levels of bromate in drinking water by direct-injection suppressed ion chromatography coupled with a single, pneumatically delivered post-column reagent 850(1999)119

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Detection, electrophoresis

Optimization of conductivity detection of low-molecular-mass anions in capillary zone electrophoresis 850(1999)355

Detection, LC

Enhancement of conductometric detection of weak acids in ion chromatography 850(1999)85

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Ion chromatography of nitrite at the ppb level with photometric measurement of iodine formed by post-column reaction of nitrite with iodide 850(1999)153

Determination of aspartame by ion chromatography with electrochemical integrated amperometric detection 850(1999)277

Detection limit

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Dianisidine

Analysis of 500-ng/l levels of bromate in drinking water by direct-injection suppressed ion chromatography coupled with a single, pneumatically delivered post-column reagent 850(1999)119

Diphenylcarbazide

Determination of total chromium in phosphate rocks by ion chromatography 850(1999)137

Electric double layer theory

Interpretation of chromatographic behavior of ions based on the electric double-layer theory 850(1999)3

Electrochemical detection

Determination of aspartame by ion chromatography with electrochemical integrated amperometric detection 850(1999)277

Electrokinetic chromatography

Separation selectivity of some ethylenediaminetetraacetic acid and cyclohexane-1,2-diaminetetraacetic acid complexes in column and ion electrokinetic chromatography 850(1999)269

Electrostatic ion chromatography

Electrostatic ion chromatography of polarizable anions in saline waters with *N*-{2-[acetyl(3-sulfopropyl)amino]ethyl}-*N,N*-dimethyldodecanaminium hydroxide (ammonium sulfobetaine-1) as the stationary phase and a dilute electrolytic solution as the mobile phase 850(1999)161

Environmental analysis

Simultaneous determination of anions and cations by ion-exclusion chromatography–cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Determination of trace level perchlorate in drinking water and ground water by ion chromatography 850(1999)131

Ion chromatography of nitrite at the ppb level with photometric measurement of iodine formed by post-column reaction of nitrite with iodide 850(1999)153

Simultaneous separation of common mono- and divalent cations on silica gel modified with aluminium by non-suppressed ion chromatography with conductimetric detection and nitric acid–15-crown-5 as eluent 850(1999)229

Determination of glyphosate by ion chromatography 850(1999)297

Analysis of wastewater for anionic and cationic nutrients by ion chromatography in a single run with sequential flow injection analysis 850(1999)303

Acid-rain monitoring in East Asia with a portable-type ion-exclusion–cation-exchange chromatographic analyzer 850(1999)311

Development of an analytical method for beryllium in airborne dust by micellar electrokinetic chromatography 850(1999)363

Environment-assisted cracking

Using capillary electrophoresis to study the chemical conditions within cracks in aluminum alloys 850(1999)381

Ethanolamines

Determination of amines used in the oil and gas industry (upstream section) by ion chromatography 850(1999)289

Experimental design

Artificial neural networks for computer-aided modelling and optimisation in micellar electrokinetic chromatography 850(1999)345

Fertilizers

Determination of total chromium in phosphate rocks by ion chromatography 850(1999)137

Field enhanced sample injection

Sample stacking of fast-moving anions in capillary zone electrophoresis with pH-suppressed electroosmotic flow 850(1999)339

Fluorescence detection

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Food analysis

Capacity gradient anion chromatography with a borate complex as eluent 850(1999)73

Determination of aspartame by ion chromatography with electrochemical integrated amperometric detection 850(1999)277

Geological samples

Determination of niobium(V) and tantalum(V) as 4-(2-pyridylazo)resorcinol–citrate ternary complexes in geological materials by ion-interaction reversed-phase high-performance liquid chromatography 850(1999)257

Glycolic acid

Determination of trace anions in concentrated weak acids by ion chromatography 850(1999)167

Glyphosate

Determination of glyphosate by ion chromatography 850(1999)297

Haloacetic acids

Preconcentration and separation of haloacetic acids by ion chromatography 850(1999)197

Hormones

Determination of melatonin in biological samples by capillary electrophoresis 850(1999)369

Hydrofluoric acid

Determination of trace anions in concentrated weak acids by ion chromatography 850(1999)167

Indirect fluorescence detection

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Injection methods

Sample stacking of fast-moving anions in capillary zone electrophoresis with pH-suppressed electroosmotic flow 850(1999)339

Inorganic anions

Interpretation of chromatographic behavior of ions based on the electric double-layer theory 850(1999)3

Critical comparison of retention models for the optimisation of the separation of anions in ion chromatography. II. Suppressed anion chromatography using carbonate eluents 850(1999)29

Lack-of-fit testing of ion chromatographic calibration curves with inexact replicates 850(1999)43

Polyelectrolyte sorbents based on aliphatic ionenes for ion chromatography 850(1999)53

Effect of eluent composition on retention behavior of anions in ion chromatography on anion-exchangers modified with heparin 850(1999)65

Simultaneous determination of anions and cations by ion-exclusion chromatography–cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Combination of suppressed and non-suppressed ion chromatography with atmospheric pressure ionization mass spectrometry for the determination of anions 850(1999)99

Analysis of 500-ng/l levels of bromate in drinking water by direct-injection suppressed ion chromatography coupled with a single, pneumatically delivered post-column reagent 850(1999)119

Determination of trace level perchlorate in drinking water and ground water by ion chromatography 850(1999)131

Ion chromatography of nitrite at the ppb level with photometric measurement of iodine formed by post-column reaction of nitrite with iodide 850(1999)153

Electrostatic ion chromatography of polarizable anions in saline waters with *N*-{2-[acetyl(3-sulfopropyl)amino]ethyl}-*N,N*-dimethyldodecanaminium hydroxide (ammonium sulfobetaine-1) as the stationary phase and a dilute electrolytic solution as the mobile phase 850(1999)161

Determination of trace anions in concentrated weak acids by ion chromatography 850(1999)167

Analysis of wastewater for anionic and cationic nutrients by ion chromatography in a single run with sequential flow injection analysis 850(1999)303

Acid-rain monitoring in East Asia with a portable-type ion-exclusion–cation-exchange chromatographic analyzer 850(1999)311

Factors affecting selectivity of inorganic anions in capillary electrophoresis 850(1999)319

Sample stacking of fast-moving anions in capillary zone electrophoresis with pH-suppressed electroosmotic flow 850(1999)339

Optimization of conductivity detection of low-molecular-mass anions in capillary zone electrophoresis 850(1999)355

Chemical conditions inside occluded regions on corroding aircraft aluminum alloys 850(1999)375

Inorganic cations

Simultaneous determination of anions and cations by ion-exclusion chromatography–cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Liquid chromatography: a tool for the analysis of metal species 850(1999)213

Simultaneous separation of common mono- and divalent cations on silica gel modified with aluminium by non-suppressed ion chromatography with conductimetric detection and nitric acid–15-crown-5 as eluent 850(1999)229

Determination of sodium and ammonium ions in disproportionate concentration ratios by ion chromatography 850(1999)239

Separation and detection of common mono- and divalent cations by ion chromatography with an ODS column and conductivity/UV detection 850(1999)247

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Determination of amines used in the oil and gas industry (upstream section) by ion chromatography 850(1999)289

Analysis of wastewater for anionic and cationic nutrients by ion chromatography in a single run with sequential flow injection analysis 850(1999)303

Acid-rain monitoring in East Asia with a portable-type ion-exclusion–cation-exchange chromatographic analyzer 850(1999)311

Chemical conditions inside occluded regions on corroding aircraft aluminum alloys 850(1999)375

Using capillary electrophoresis to study the chemical conditions within cracks in aluminum alloys 850(1999)381

Inorganic ions

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Inositol phosphate

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Instrumentation

Acid-rain monitoring in East Asia with a portable-type ion-exclusion-cation-exchange chromatographic analyzer 850(1999)311

Integrated amperometric detection

Determination of aspartame by ion chromatography with electrochemical integrated amperometric detection 850(1999)277

Iodine

Ion chromatography of nitrite at the ppb level with photometric measurement of iodine formed by post-column reaction of nitrite with iodide 850(1999)153

Ionene sorbents

Polyelectrolyte sorbents based on aliphatic ionenes for ion chromatography 850(1999)53

Ion-exclusion chromatography

Retention modelling of electrostatic and adsorption effects of aliphatic and aromatic carboxylic acids in ion-exclusion chromatography 850(1999)17

Lack-of-fit testing

Lack-of-fit testing of ion chromatographic calibration curves with inexact replicates 850(1999)43

Manufacturing

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Melatonin

Determination of melatonin in biological samples by capillary electrophoresis 850(1999)369

Metal cations

Determination of total chromium in phosphate rocks by ion chromatography 850(1999)137

Separation selectivity of some ethylenediaminetetraacetic acid and cyclohexane-1,2-diaminetetraacetic acid complexes in column and ion electrokinetic chromatography 850(1999)269

Metal chelates

Separation selectivity of some ethylenediaminetetraacetic acid and cyclohexane-1,2-diaminetetraacetic acid complexes in column and ion electrokinetic chromatography 850(1999)269

Metal complexes

Determination of niobium(V) and tantalum(V) as 4-(2-pyridylazo)resorcinol-citrate ternary complexes in geological materials by ion-interaction reversed-phase high-performance liquid chromatography 850(1999)257

Artificial neural networks for computer-aided modelling and optimisation in micellar electrokinetic chromatography 850(1999)345

Metals

Liquid chromatography: a tool for the analysis of metal species 850(1999)213

Development of an analytical method for beryllium in airborne dust by micellar electrokinetic chromatography 850(1999)363

Mobile phase composition

Effect of eluent composition on retention behavior of anions in ion chromatography on anion-exchangers modified with heparin 850(1999)65

Capacity gradient anion chromatography with a borate complex as eluent 850(1999)73

Simultaneous determination of anions and cations by ion-exclusion chromatography-cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Enhancement of conductometric detection of weak acids in ion chromatography 850(1999)85

Separation of carboxylic acids on a weakly acidic cation-exchange resin by ion-exclusion chromatography 850(1999)187

Simultaneous separation of common mono- and divalent cations on silica gel modified with aluminium by non-suppressed ion chromatography with conductimetric detection and nitric acid-15-crown-5 as eluent 850(1999)229

Separation and detection of common mono- and divalent cations by ion chromatography with an ODS column and conductivity/UV detection 850(1999)247

Neural networks, artificial

Artificial neural networks for computer-aided modelling and optimisation in micellar electrokinetic chromatography 850(1999)345

Niobium

Determination of niobium(V) and tantalum(V) as 4-(2-pyridylazo)resorcinol-citrate ternary complexes in geological materials by ion-interaction reversed-phase high-performance liquid chromatography 850(1999)257

Nitrite

Ion chromatography of nitrite at the ppb level with photometric measurement of iodine formed by post-column reaction of nitrite with iodide 850(1999)153

Non-aqueous capillary electrophoresis

Factors affecting selectivity of inorganic anions in capillary electrophoresis 850(1999)319

Optimisation

Critical comparison of retention models for the optimisation of the separation of anions in ion chromatography. II. Suppressed anion chromatography using carbonate eluents 850(1999)29

Artificial neural networks for computer-aided modelling and optimisation in micellar electrokinetic chromatography 850(1999)345

Optimization

Retention modelling of electrostatic and adsorption effects of aliphatic and aromatic carboxylic acids in ion-exclusion chromatography 850(1999)17

Organic acids

Interpretation of chromatographic behavior of ions based on the electric double-layer theory 850(1999)3

Preconcentration and separation of haloacetic acids by ion chromatography 850(1999)197

Optimization of conductivity detection of low-molecular-mass anions in capillary zone electrophoresis 850(1999)355

Oxyhalides

Combination of suppressed and non-suppressed ion chromatography with atmospheric pressure ionization mass spectrometry for the determination of anions 850(1999)99

Perchlorate

Determination of trace level perchlorate in drinking water and ground water by ion chromatography 850(1999)131

Pesticides

Determination of glyphosate by ion chromatography 850(1999)297

Phosphate rocks

Determination of total chromium in phosphate rocks by ion chromatography 850(1999)137

Phosphates

Capacity gradient anion chromatography with a borate complex as eluent 850(1999)73

Phosphonates

Anion-exchange separation and determination of bisphosphonates and related analytes by post-column indirect fluorescence detection 850(1999)143

Phosphoric acid

Determination of trace anions in concentrated weak acids by ion chromatography 850(1999)167

Polyelectrolyte sorbents

Polyelectrolyte sorbents based on aliphatic ionenes for ion chromatography 850(1999)53

Polyethers

Acoustic effects in chromatography 850(1999)9

Pyridylazoresorcinol

Determination of niobium(V) and tantalum(V) as 4-(2-pyridylazo)resorcinol-citrate ternary complexes in geological materials by ion-interaction reversed-phase high-performance liquid chromatography 850(1999)257

Quantitation

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Retention behaviour

Effect of eluent composition on retention behavior of anions in ion chromatography on anion-exchangers modified with heparin 850(1999)65

Retention models

Interpretation of chromatographic behavior of ions based on the electric double-layer theory 850(1999)3

Retention modelling of electrostatic and adsorption effects of aliphatic and aromatic carboxylic acids in ion-exclusion chromatography 850(1999)17

Critical comparison of retention models for the optimisation of the separation of anions in ion chromatography. II. Suppressed anion chromatography using carbonate eluents 850(1999)29

Reviews

Liquid chromatography: a tool for the analysis of metal species (Review) 850(1999)213

Factors affecting selectivity of inorganic anions in capillary electrophoresis (Review) 850(1999)319

Sample handling

Determination of trace anions in concentrated weak acids by ion chromatography 850(1999)167

Preconcentration and separation of haloacetic acids by ion chromatography 850(1999)197

Sample stacking

Sample stacking of fast-moving anions in capillary zone electrophoresis with pH-suppressed electroosmotic flow 850(1999)339

Selectivity

Separation selectivity of some ethylenediaminetetraacetic acid and cyclohexane-1,2-diaminetetraacetic acid complexes in column and ion electrokinetic chromatography 850(1999)269

Factors affecting selectivity of inorganic anions in capillary electrophoresis 850(1999)319

Semiconductors

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Silica, aluminium-modified

Ion-exclusion chromatography of carboxylic acids on silica gel modified with aluminium 850(1999)177

Sodium

Determination of sodium and ammonium ions in disproportionate concentration ratios by ion chromatography 850(1999)239

Speciation

Liquid chromatography: a tool for the analysis of metal species 850(1999)213

Stationary phases, LC

Polyelectrolyte sorbents based on aliphatic ionenes for ion chromatography 850(1999)53

Effect of eluent composition on retention behavior of anions in ion chromatography on anion-exchangers modified with heparin 850(1999)65

Electrostatic ion chromatography of polarizable anions in saline waters with *N*-{2-[acetyl(3-sulfopropyl)amino]ethyl}-*N,N*-dimethyldodecanaminium hydroxide (ammonium sulfobetaine-1) as the stationary phase and a dilute electrolytic solution as the mobile phase 850(1999)161

Ion-exclusion chromatography of carboxylic acids on silica gel modified with aluminium 850(1999)177

Simultaneous separation of common mono- and divalent cations on silica gel modified with aluminium by non-suppressed ion chromatography with conductimetric detection and nitric acid-15-crown-5 as eluent 850(1999)229

Statistical analysis

Lack-of-fit testing of ion chromatographic calibration curves with inexact replicates 850(1999)43

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Sulfonates

Interpretation of chromatographic behavior of ions based on the electric double-layer theory 850(1999)3

Tantalum

Determination of niobium(V) and tantalum(V) as 4-(2-pyridylazo)resorcinol-citrate ternary complexes in geological materials by ion-interaction reversed-phase high-performance liquid chromatography 850(1999)257

Tartaric acid

Simultaneous determination of anions and cations by ion-exclusion chromatography-cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Temperature effects

Acoustic effects in chromatography 850(1999)9

Trace analysis

Applications of ion chromatography in the semiconductor industry. II. Determination of basic airborne contaminants in a cleanroom 850(1999)283

Ultrasound

Acoustic effects in chromatography 850(1999)9

Water analysis

Lack-of-fit testing of ion chromatographic calibration curves with inexact replicates 850(1999)43

Simultaneous determination of anions and cations by ion-exclusion chromatography-cation-exchange chromatography with tartaric acid/18-crown-6 as eluent 850(1999)79

Combination of suppressed and non-suppressed ion chromatography with atmospheric pressure ionization mass spectrometry for the determination of anions 850(1999)99

Low-level calibration study for a new ion chromatographic column to determine borate in deionized water 850(1999)107

Analysis of 500-ng/l levels of bromate in drinking water by direct-injection suppressed ion chromatography coupled with a single, pneumatically delivered post-column reagent 850(1999)119

Determination of trace level perchlorate in drinking water and ground water by ion chromatography 850(1999)131

Ion chromatography of nitrite at the ppb level with photometric measurement of iodine formed by post-column reaction of nitrite with iodide 850(1999)153

Electrostatic ion chromatography of polarizable anions in saline waters with *N*-{2-[acetyl(3-sulfopropyl)amino]ethyl}-*N,N*-dimethyldodecanaminium hydroxide (ammonium sulfobetaine-1) as the stationary phase and a dilute electrolytic solution as the mobile phase 850(1999)161

Preconcentration and separation of haloacetic acids by ion chromatography 850(1999)197

Simultaneous separation of common mono- and divalent cations on silica gel modified with aluminium by non-suppressed ion chromatography with conductimetric detection and nitric acid-15-crown-5 as eluent 850(1999)229

Determination of glyphosate by ion chromatography 850(1999)297

Analysis of wastewater for anionic and cationic nutrients by ion chromatography in a single run with sequential flow injection analysis 850(1999)303

Acid-rain monitoring in East Asia with a portable-type ion-exclusion-cation-exchange chromatographic analyzer 850(1999)311

Weak acids

Enhancement of conductometric detection of weak acids in ion chromatography 850(1999)85
