## Subject Index Vol. 905

### Acid treatment

Effects of acid treatment on the trace metal content of chromatographic silica: bulk analysis, surface analysis and chromatographic performance of bonded phases 905(2001)69

### Acrylamidomethylpropanesulfonic acid

Sulfonated acrylamide copolymers as pseudo-stationary phases in electrokinetic chromatography 905(2001)281

### Adrenaline

Polyacrylamides as hydrophilic selectors in non-aqueous capillary electrophoresis 905(2001)291

### Adsorption isotherms

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

### Alprenolol

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

### Amines

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

### Amino alcohols

Chiral ion-pair chromatography on porous graphitized carbon using *N*-blocked dipeptides as counter ions 905(2001)329

### Aminoglycosides

Applications of a copper microparticle-modified carbon fiber microdisk array electrode for the simultaneous determination of aminoglycoside antibiotics by capillary electrophoresis 905(2001)309

### Antibiotics

Applications of a copper microparticle-modified carbon fiber microdisk array electrode for the simultaneous determination of aminoglycoside antibiotics by capillary electrophoresis 905(2001)309

### Argentation

Chain separation of monounsaturated fatty acid methyl esters by argentation thin-layer chromatography 905(2001)251

### Aroma compounds

Two-fibre solid-phase microextraction combined with gas chromatography–mass spectrometry for the analysis of volatile aroma compounds in cooked pork 905(2001)233

### Background electrolyte composition

Optimization of background electrolytes for capillary electrophoresis. I. Mathematical and computational model 905(2001)269

### Basic drugs

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

### Benzoic acids

Polyacrylamides as hydrophilic selectors in non-aqueous capillary electrophoresis 905(2001)291

### Bisabolol

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

### $\beta$ -Blockers

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

### Buffer composition

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

Characterization of polyethylene glycol-modified proteins by semi-aqueous capillary electrophoresis 905(2001)299

### Cadinol

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

***Caenorhabditis elegans***

Application of reinforced frontal affinity chromatography and advanced processing procedure to the study of the binding property of a *Caenorhabditis elegans* galectin 905(2001)337

**Capaene**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Capillary electrophoresis**

Characterization of polyethylene glycol-modified proteins by semi-aqueous capillary electrophoresis 905(2001)299

**Carotenoids**

Preparative isolation and purification of lutein from the microalga *Chlorella vulgaris* by high-speed counter-current chromatography 905(2001)151

**Chemometrics**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Chiral stationary phases, GC**

Semi-preparative gas chromatographic separation of *all-trans*-perhydrotriphenylene enantiomers on a chiral cyclodextrin stationary phase 905(2001)175

**Chiral stationary phases, LC**

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

High-performance liquid chromatographic enantiomeric separation of an enzyme inhibitor which possesses both a chiral center and tautomeric moieties 905(2001)103

***Chlorella vulgaris***

Preparative isolation and purification of lutein from the microalga *Chlorella vulgaris* by high-speed counter-current chromatography 905(2001)151

**Cineole**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Cinnamic acid**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Cinnamyl acetate**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Colloids**

TiO<sub>2</sub> colloidal suspension polydispersity analysed with sedimentation field flow fractionation and electron microscopy 905(2001)163

**Column characterization**

Evaluation of the retention dependence on the physicochemical properties of solutes in reversed-phase liquid chromatographic linear gradient elution based on linear solvation energy relationships 905(2001)35

**Cortex cinnamomi**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Counter-current chromatography**

Preparative isolation and purification of lutein from the microalga *Chlorella vulgaris* by high-speed counter-current chromatography 905(2001)151

**Coupled columns**

Bi-column method for purification of transcription factors 905(2001)133

**Derivatization, GC**

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207

**Derivatization, LC**

Determination of retinoids in galenicals by column liquid chromatography with fluorescence and diode-array detection 905(2001)345

**Detection, electrophoresis**

Applications of a copper microparticle-modified carbon fiber microdisk array electrode for the simultaneous determination of aminoglycoside antibiotics by capillary electrophoresis 905(2001)309

**Detection, GC**

High-throughput reactor for simulating the flame photometric detector 905(2001)241

**Detection, LC**

Determination of metal complexes of ethylenediaminetetraacetate in the presence of organic matter by high-performance liquid chromatography 905(2001)157

**Dialkyldithiophosphates**

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207

**Diaryldithiophosphates**

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207

**Diffusion**

Nuclear magnetic resonance studies of solvent flow through chromatographic columns: effect of packing density on flow patterns 905(2001)19

**2,4-Dioxo-5-acetamido-6-phenylhexanoic acid**

High-performance liquid chromatographic enantiomeric separation of an enzyme inhibitor which possesses both a chiral center and tautomeric moieties 905(2001)103

**Dissociation constants**

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

**Dithiophosphates**

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207

**DNA**

Bi-column method for purification of transcription factors 905(2001)133

**Electrochemical detection**

Applications of a copper microparticle-modified carbon fiber microdisk array electrode for the simultaneous determination of aminoglycoside antibiotics by capillary electrophoresis 905(2001)309

**Electrochromatography**

Separation of the insecticidal pyrethrin esters by capillary electrochromatography 905(2001)319

**Electrokinetic chromatography**

Sulfonated acrylamide copolymers as pseudo-stationary phases in electrokinetic chromatography 905(2001)281

**Electron microscopy**

TiO<sub>2</sub> colloidal suspension polydispersity analysed with sedimentation field flow fractionation and electron microscopy 905(2001)163

**Electrophoretic mobility**

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

**Enantiomer separation**

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

Consequences of variable purity of heptakis(2,3,6-tri-*O*-methyl)- $\beta$ -cyclodextrin determined by liquid chromatography–mass spectrometry on the enantioselective separation of polychlorinated compounds 905(2001)59

High-performance liquid chromatographic enantiomeric separation of an enzyme inhibitor which possesses both a chiral center and tautomeric moieties 905(2001)103

Chiral ion-pair chromatography on porous graphitized carbon using *N*-blocked dipeptides as counter ions 905(2001)329

**Enantiomer separation**

Semi-preparative gas chromatographic separation of *all-trans*-perhydrotriphenylene enantiomers on a chiral cyclodextrin stationary phase 905(2001)175

**Environmental analysis**

Determination of metal complexes of ethylenediaminetetraacetate in the presence of organic matter by high-performance liquid chromatography 905(2001)157

**Enzyme inhibitors**

High-performance liquid chromatographic enantiomeric separation of an enzyme inhibitor which possesses both a chiral center and tautomeric moieties 905(2001)103

**Essential oils**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Ethylenetetraacetate**

Determination of metal complexes of ethylenediaminetetraacetate in the presence of organic matter by high-performance liquid chromatography 905(2001)157

**Ethylxylene**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Eudesmol**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Extraction methods**

Two-fibre solid-phase microextraction combined with gas chromatography–mass spectrometry for the analysis of volatile aroma compounds in cooked pork 905(2001)233

**Fatty acid methyl esters**

Chain separation of monounsaturated fatty acid methyl esters by argentation thin-layer chromatography 905(2001)251

**Fatty acids**

Autoxidation products of normal and genetically modified canola oil varieties determined using liquid chromatography with mass spectrometric detection 905(2001)85

**Field flow fractionation**

TiO<sub>2</sub> colloidal suspension polydispersity analysed with sedimentation field flow fractionation and electron microscopy 905(2001)163

**Flame photometric detection**

High-throughput reactor for simulating the flame photometric detector 905(2001)241

**Flow rate**

Nuclear magnetic resonance studies of solvent flow through chromatographic columns: effect of packing density on flow patterns 905(2001)19

**Food analysis**

Two-fibre solid-phase microextraction combined with gas chromatography–mass spectrometry for the analysis of volatile aroma compounds in cooked pork 905(2001)233

**Frontal affinity chromatography**

Application of reinforced frontal affinity chromatography and advanced processing procedure to the study of the binding property of a *Caenorhabditis elegans* galectin 905(2001)337

**Galectin**

Application of reinforced frontal affinity chromatography and advanced processing procedure to the study of the binding property of a *Caenorhabditis elegans* galectin 905(2001)337

**Geometrical isomers**

Characterisation of sorbate geometrical isomers 905(2001)359

**Glucopyranosyloxymethyloctanoic acid**

Comparison of direct and indirect methods of measuring the precursors of  $\beta$ -methyl- $\gamma$ -octalactone and their application to the analysis of Sessile oak wood [*Quercus petraea* (Matt.) Liebl.] 905(2001)183

**Glycosides**

Applications of a copper microparticle-modified carbon fiber microdisk array electrode for the simultaneous determination of aminoglycoside antibiotics by capillary electrophoresis 905(2001)309

**Gradient elution**

Evaluation of the retention dependence on the physicochemical properties of solutes in reversed-phase liquid chromatographic linear gradient elution based on linear solvation energy relationships 905(2001)35

**Heptakis(2,3,6-tri-*O*-methyl)- $\beta$ -cyclodextrin**

Consequences of variable purity of heptakis(2,3,6-tri-*O*-methyl)- $\beta$ -cyclodextrin determined by liquid chromatography–mass spectrometry on the enantioselective separation of polychlorinated compounds 905(2001)59

**Honeybees**

Multiresidual method for the gas chromatographic analysis of pesticides in honeybees cleaned by gel permeation chromatography 905(2001)223

**Hydrocarbons**

High-throughput reactor for simulating the flame photometric detector 905(2001)241

**Hydrophilic selectors**

Polyacrylamides as hydrophilic selectors in non-aqueous capillary electrophoresis 905(2001)291

**Hydrophobicity**

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

**Immobilized proteins**

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

**Ionisation constant**

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

**Ion-pair chromatography**

Chiral ion-pair chromatography on porous graphitized carbon using *N*-blocked dipeptides as counter ions 905(2001)329

**Lactone**

Comparison of direct and indirect methods of measuring the precursors of  $\beta$ -methyl- $\gamma$ -octalactone and their application to the analysis of Sessile oak wood [*Quercus petraea* (Matt.) Liebl.] 905(2001)183

**Lauric acid**

Autoxidation products of normal and genetically modified canola oil varieties determined using liquid chromatography with mass spectrometric detection 905(2001)85

**Lauryl methacrylamide**

Sulfonated acrylamide copolymers as pseudo-stationary phases in electrokinetic chromatography 905(2001)281

**Lectins**

Application of reinforced frontal affinity chromatography and advanced processing procedure to the study of the binding property of a *Caenorhabditis elegans* galectin 905(2001)337

**Linear solvation energy relationships**

Evaluation of the retention dependence on the physicochemical properties of solutes in reversed-phase liquid chromatographic linear gradient elution based on linear solvation energy relationships 905(2001)35

**Lutein**

Preparative isolation and purification of lutein from the microalga *Chlorella vulgaris* by high-speed counter-current chromatography 905(2001)151

**Mathematical modelling**

Spatial and temporal progressions of spatial statistical moments in linear chromatography 905(2001)47

Optimization of background electrolytes for capillary electrophoresis. I. Mathematical and computational model 905(2001)269

**Meat**

Two-fibre solid-phase microextraction combined with gas chromatography–mass spectrometry for the analysis of volatile aroma compounds in cooked pork 905(2001)233

**Metal complexes**

Determination of metal complexes of ethylenediaminetetraacetate in the presence of organic matter by high-performance liquid chromatography 905(2001)157

**Metalloporphyrins**

Determination of porphyrins and metalloporphyrins using liquid chromatography–diode array detection and mass spectrometry 905(2001)141

**Methanol**

Capillary zone electrophoresis of basic analytes in methanol as non-aqueous solvent. Mobility and ionisation constant 905(2001)259

**Methoxycinnamaldehyde**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Methyloctalactone**

Comparison of direct and indirect methods of measuring the precursors of  $\beta$ -methyl- $\gamma$ -octalactone and their application to the analysis of Sessile oak wood [*Quercus petraea* (Matt.) Liebl.] 905(2001)183

**Metoprolol**

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

**Mobile phase composition**

Evaluation of the retention dependence on the physicochemical properties of solutes in reversed-phase liquid chromatographic linear gradient elution based on linear solvation energy relationships 905(2001)35

Separation of the insecticidal pyrethrin esters by capillary electrochromatography 905(2001)319

Chiral ion-pair chromatography on porous graphitized carbon using *N*-blocked dipeptides as counter ions 905(2001)329

**Monounsaturated fatty acids**

Chain separation of monounsaturated fatty acid methyl esters by argentation thin-layer chromatography 905(2001)251

**Nervonic acid**

Chain separation of monounsaturated fatty acid methyl esters by argentation thin-layer chromatography 905(2001)251

**Nonaqueous capillary electrophoresis**

Polyacrylamides as hydrophilic selectors in non-aqueous capillary electrophoresis 905(2001)291

**Nuclear magnetic resonance spectrometry**

Nuclear magnetic resonance studies of solvent flow through chromatographic columns: effect of packing density on flow patterns 905(2001)19

**Oils**

Autoxidation products of normal and genetically modified canola oil varieties determined using liquid chromatography with mass spectrometric detection 905(2001)85

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207

**Oleic acid**

Chain separation of monounsaturated fatty acid methyl esters by argentation thin-layer chromatography 905(2001)251

**Optimization**

Optimization of background electrolytes for capillary electrophoresis. I. Mathematical and computational model 905(2001)269

**Organic acids**

Characterisation of sorbate geometrical isomers 905(2001)359

**Organochlorine compounds**

Consequences of variable purity of heptakis(2,3,6-tri-*O*-methyl)- $\beta$ -cyclodextrin determined by liquid chromatography–mass spectrometry on the enantioselective separation of polychlorinated compounds 905(2001)59

**Oxidation**

Reversed-phase high-performance liquid chromatographic separation of *tert*.-butyl hydroperoxide oxidation products of unsaturated triacylglycerols 905(2001)119

Effect of pH on the oxidation of paralytic shellfish poisoning toxins for analysis by liquid chromatography 905(2001)351

**Packing density**

Nuclear magnetic resonance studies of solvent flow through chromatographic columns: effect of packing density on flow patterns 905(2001)19

**Perhydrotriphenylene**

Semi-preparative gas chromatographic separation of *all-trans*-perhydrotriphenylene enantiomers on a chiral cyclodextrin stationary phase 905(2001)175

**Pesticides**

Consequences of variable purity of heptakis(2,3,6-tri-*O*-methyl)- $\beta$ -cyclodextrin determined by liquid chromatography–mass spectrometry on the enantioselective separation of polychlorinated compounds 905(2001)59

Multiresidual method for the gas chromatographic analysis of pesticides in honeybees cleaned by gel permeation chromatography 905(2001)223

Separation of the insecticidal pyrethrin esters by capillary electrochromatography 905(2001)319

**pH effects**

Effect of pH on the oxidation of paralytic shellfish poisoning toxins for analysis by liquid chromatography 905(2001)351

**Pharmaceutical analysis**

Gas chromatography–mass spectrometry and chemometric resolution applied to the determination of essential oils in *Cortex Cinnamomi* 905(2001)193

**Phosphates**

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207

**Polyacrylamides**

Polyacrylamides as hydrophilic selectors in non-aqueous capillary electrophoresis 905(2001)291

**Polychlorinated biphenyls**

Consequences of variable purity of heptakis(2,3,6-tri-*O*-methyl)- $\beta$ -cyclodextrin determined by liquid chromatography–mass spectrometry on the enantioselective separation of polychlorinated compounds 905(2001)59

**Polydispersity**

TiO<sub>2</sub> colloidal suspension polydispersity analysed with sedimentation field flow fractionation and electron microscopy 905(2001)163

**Poly(ethylene glycol)**

Characterization of polyethylene glycol-modified proteins by semi-aqueous capillary electrophoresis 905(2001)299

**Polymers**

Sulfonated acrylamide copolymers as pseudo-stationary phases in electrokinetic chromatography 905(2001)281

**Poly(*N*-tert.-butyl)acrylamide**

Polyacrylamides as hydrophilic selectors in non-aqueous capillary electrophoresis 905(2001)291

**Porous graphitized carbon**

Chiral ion-pair chromatography on porous graphitized carbon using *N*-blocked dipeptides as counter ions 905(2001)329

**Porphyrins**

Determination of porphyrins and metalloporphyrins using liquid chromatography–diode array detection and mass spectrometry 905(2001)141

**Preparative chromatography**

Preparative isolation and purification of lutein from the microalga *Chlorella vulgaris* by high-speed counter-current chromatography 905(2001)151

**Propranolol**

Influence of the solute hydrophobicity on the enantioselective adsorption of  $\beta$ -blockers on a cellulase protein used as the chiral selector 905(2001)3

**Proteins**

Bi-column method for purification of transcription factors 905(2001)133

Characterization of polyethylene glycol-modified proteins by semi-aqueous capillary electrophoresis 905(2001)299

Application of reinforced frontal affinity chromatography and advanced processing procedure to the study of the binding property of a *Caenorhabditis elegans* galectin 905(2001)337

**Pseudo-stationary phases**

Sulfonated acrylamide copolymers as pseudo-stationary phases in electrokinetic chromatography 905(2001)281

**Pulsed gradient spin echo**

Nuclear magnetic resonance studies of solvent flow through chromatographic columns: effect of packing density on flow patterns 905(2001)19

**Pyrethrins**

Separation of the insecticidal pyrethrin esters by capillary electrochromatography 905(2001)319

***Quercus petraea***

Comparison of direct and indirect methods of measuring the precursors of  $\beta$ -methyl- $\gamma$ -octalactone and their application to the analysis of sessile oak wood [*Quercus petraea* (Matt.) Liebl.] 905(2001)183

**Retention prediction**

Evaluation of the retention dependence on the physicochemical properties of solutes in reversed-phase liquid chromatographic linear gradient elution based on linear solvation energy relationships 905(2001)35

**Retinoids**

Determination of retinoids in galenicals by column liquid chromatography with fluorescence and diode-array detection 905(2001)345

***Saccharomyces cerevisiae***

Characterisation of sorbate geometrical isomers 905(2001)359

**Semi-aqueous capillary electrophoresis**

Characterization of polyethylene glycol-modified proteins by semi-aqueous capillary electrophoresis 905(2001)299

**Shellfish poisoning**

Effect of pH on the oxidation of paralytic shellfish poisoning toxins for analysis by liquid chromatography 905(2001)351

**Silanols**

Effects of acid treatment on the trace metal content of chromatographic silica: bulk analysis, surface analysis and chromatographic performance of bonded phases 905(2001)69

**Silica**

Effects of acid treatment on the trace metal content of chromatographic silica: bulk analysis, surface analysis and chromatographic performance of bonded phases 905(2001)69

**Solid-phase microextraction**

Two-fibre solid-phase microextraction combined with gas chromatography–mass spectrometry for the analysis of volatile aroma compounds in cooked pork 905(2001)233

**Sorbic acid**

Characterisation of sorbate geometrical isomers 905(2001)359

**Spatial statistical moments**

Spatial and temporal progressions of spatial statistical moments in linear chromatography 905(2001)47

**Stationary phases, LC**

Effects of acid treatment on the trace metal content of chromatographic silica: bulk analysis, surface analysis and chromatographic performance of bonded phases 905(2001)69

**Statistical analysis**

Spatial and temporal progressions of spatial statistical moments in linear chromatography 905(2001)47

**Stearic acid**

Autoxidation products of normal and genetically modified canola oil varieties determined using liquid chromatography with mass spectrometric detection 905(2001)85

**Structured lipids**

Optical resolution of asymmetric triacylglycerols by chiral-phase high-performance liquid chromatography 905(2001)111

**Surfactants**

Sulfonated acrylamide copolymers as pseudo-stationary phases in electrokinetic chromatography 905(2001)281

***tert.*-Butyl hydroperoxide**

Reversed-phase high-performance liquid chromatographic separation of *tert.*-butyl hydroperoxide oxidation products of unsaturated triacylglycerols 905(2001)119

**Titanium oxide**

TiO<sub>2</sub> colloidal suspension polydispersity analysed with sedimentation field flow fractionation and electron microscopy 905(2001)163

**Toxins**

Effect of pH on the oxidation of paralytic shellfish poisoning toxins for analysis by liquid chromatography 905(2001)351

**Triacylglycerol**

Optical resolution of asymmetric triacylglycerols by chiral-phase high-performance liquid chromatography 905(2001)111

**Triacylglycerols**

Autoxidation products of normal and genetically modified canola oil varieties determined using liquid chromatography with mass spectrometric detection 905(2001)85

Reversed-phase high-performance liquid chromatographic separation of *tert.*-butyl hydroperoxide oxidation products of unsaturated triacylglycerols 905(2001)119

**Vitamins**

Preparative isolation and purification of lutein from the microalga *Chlorella vulgaris* by high-speed counter-current chromatography 905(2001)151

Determination of retinoids in galenicals by column liquid chromatography with fluorescence and diode-array detection 905(2001)345

**Volatile organic compounds**

Two-fibre solid-phase microextraction combined with gas chromatography–mass spectrometry for the analysis of volatile aroma compounds in cooked pork 905(2001)233

**Water analysis**

Determination of metal complexes of ethylenediaminetetraacetate in the presence of organic matter by high-performance liquid chromatography 905(2001)157

**Weak bases**

Effects of acid treatment on the trace metal content of chromatographic silica: bulk analysis, surface analysis and chromatographic performance of bonded phases 905(2001)69

**Wood**

Comparison of direct and indirect methods of measuring the precursors of  $\beta$ -methyl- $\gamma$ -octalactone and their application to the analysis of sessile oak wood [*Quercus petraea* (Matt.) Liebl.] 905(2001)183

**Zinc dithiophosphates**

Structural determination of zinc dithiophosphates in lubricating oils by gas chromatography–mass spectrometry with electron impact and electron-capture negative ion chemical ionization 905(2001)207
