

ELSEVIER

Journal of Chromatography A, 906 (2001) 485–489

JOURNAL OF
CHROMATOGRAPHY A

www.elsevier.com/locate/chroma

Subject Index Vol. 906

Albumin

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Aminoglycosides

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

Amylose

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)155

Ansamycins

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

Antibiotics

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

Band profile

Chiral chromatographic separations based on ligand exchange 906(2001)51

Brush-type chiral stationary phases

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors 906(2001)35

Cellulose

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)155

Centrifugal partition chromatography

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Chiral ligand-exchange chromatography

Chiral chromatographic separations based on ligand exchange 906(2001)51

Chiral resolution

Separation of enantiomers: needs, challenges, perspectives 906(2001)3

Chiral selectors

Separation of enantiomers: needs, challenges, perspectives 906(2001)3

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors 906(2001)35

Enantioseparations in capillary electromigration techniques: recent developments and future trends 906(2001)309

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Chiral solutes

Chromatographic and electrophoretic studies of protein binding to chiral solutes 906(2001)459

Chiral stationary phases

Enantioseparations in capillary electromigration techniques: recent developments and future trends 906(2001)309

Chiral stationary phases, GC

Separation of enantiomers by gas chromatography 906(2001)275

Chiral stationary phases, LC

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors 906(2001)35

Polysaccharide-based chiral stationary phases for high-performance liquid chromatographic enantioseparation 906(2001)105

Reversed-phase liquid chromatographic separation of enantiomers on polysaccharide type chiral stationary phases 906(2001)127

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)155

Regioselectively modified polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)171

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

Unusual effects of separation conditions on chiral separations 906(2001)195

Optically active synthetic polymers as chiral stationary phases in HPLC 906(2001)205

Imprinted chiral stationary phases in high-performance liquid chromatography 906(2001)227

Protein-based chiral stationary phases for high-performance liquid chromatography enantioseparations 906(2001)253

Enantioselective chromatography as a powerful alternative for the preparation of drug enantiomers 906(2001)379

Preparative enantioseparation by simulated moving bed chromatography 906(2001)399

Reviewing mobile phases used on Chiralcel OD through an application of data mining tools to CHIRBASE database 906(2001)443

Chiral stationary phases, SFC

Enantioseparations in super- and subcritical fluid chromatography 906(2001)301

CHIRBASE database

Reviewing mobile phases used on Chiralcel OD through an application of data mining tools to CHIRBASE database 906(2001)443

Chitosan

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)155

Counter-current chromatography

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Cyclodextrins

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Data mining

Reviewing mobile phases used on Chiralcel OD through an application of data mining tools to CHIRBASE database 906(2001)443

Derivatization, LC

Regioselectively modified polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)171

Diastereometric complexes

Atomistic modeling of enantioselection in chromatography 906(2001)417

Diltiazem

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

***N*-Dodecanoyl-L-proline-3,5-dimethylanilide**

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Drugs

Enantioselective chromatography as a powerful alternative for the preparation of drug enantiomers 906(2001)379

Dynamic enantioselective chromatography

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors 906(2001)35

Enantiomer separations

Separation of enantiomers: needs, challenges, perspectives 906(2001)3

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors 906(2001)35

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

High-performance liquid chromatographic and capillary electrophoretic enantioseparation of plant growth regulators and related indole compounds using macrocyclic antibiotics as chiral selectors 906(2001)91

Polysaccharide-based chiral stationary phases for high-performance liquid chromatographic enantioseparation 906(2001)105

Reversed-phase liquid chromatographic separation of enantiomers on polysaccharide type chiral stationary phases 906(2001)127

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)155

Regioselectively modified polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)171

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

Unusual effects of separation conditions on chiral separations 906(2001)195

Protein-based chiral stationary phases for high-performance liquid chromatography enantioseparations 906(2001)253

Separation of enantiomers by gas chromatography 906(2001)275

Enantioseparations in super- and subcritical fluid chromatography 906(2001)301

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365

Enantioselective chromatography as a powerful alternative for the preparation of drug enantiomers 906(2001)379

Preparative enantioseparation by simulated moving bed chromatography 906(2001)399

Atomistic modeling of enantioselection in chromatography 906(2001)417

Enantioseparations

Enantioseparations in capillary electromigration techniques: recent developments and future trends 906(2001)309

Enzymes

Protein-based chiral stationary phases for high-performance liquid chromatography enantioseparations 906(2001)253

Glycopeptides

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

Glycoproteins

Protein-based chiral stationary phases for high-performance liquid chromatography enantioseparations 906(2001)253

Imprinted chiral stationary phases

Imprinted chiral stationary phases in high-performance liquid chromatography 906(2001)227

Indole compounds

High-performance liquid chromatographic and capillary electrophoretic enantioseparation of plant growth regulators and related indole compounds using macrocyclic antibiotics as chiral selectors 906(2001)91

Indonolol

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

Ligand exchange

Chiral chromatographic separations based on ligand exchange 906(2001)51

Macrocyclic antibiotics

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

Membranes, enantioselective

Separation of enantiomers: needs, challenges, perspectives 906(2001)3

Mobile phase composition

Unusual effects of separation conditions on chiral separations 906(2001)195

Mobile phases

Reviewing mobile phases used on Chiralcel OD through an application of data mining tools to CHIRBASE database 906(2001)443

Molecular imprinting

Imprinted chiral stationary phases in high-performance liquid chromatography 906(2001)227

Molecular modeling

Atomistic modeling of enantioselection in chromatography 906(2001)417

Molecular simulation

Atomistic modeling of enantioselection in chromatography 906(2001)417

Nadolol

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

Nebivolol

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

Non-linear chromatography

Preparative enantioseparation by simulated moving bed chromatography 906(2001)399

Plant growth regulators

High-performance liquid chromatographic and capillary electrophoretic enantioseparation of plant growth regulators and related indole compounds using macrocyclic antibiotics as chiral selectors 906(2001)91

Polymers

Optically active synthetic polymers as chiral stationary phases in HPLC 906(2001)205

Polypeptides

Chiral separations using the macrocyclic antibiotics: a review 906(2001)73

Polysaccharide derivatives

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)155

Polysaccharides

Polysaccharide-based chiral stationary phases for high-performance liquid chromatographic enantioseparation 906(2001)105

Reversed-phase liquid chromatographic separation of enantiomers on polysaccharide type chiral stationary phases 906(2001)127

Regioselectively modified polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography 906(2001)171

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases 906(2001)185

Proteins

Protein-based chiral stationary phases for high-performance liquid chromatography enantioseparations 906(2001)253

Chromatographic and electrophoretic studies of protein binding to chiral solutes 906(2001)459

Potential energy surfaces

Atomistic modeling of enantioselection in chromatography 906(2001)417

Preparative chromatography

Preparative enantioseparation by simulated moving bed chromatography 906(2001)399

Protein binding

Chromatographic and electrophoretic studies of protein binding to chiral solutes 906(2001)459

Receptor-like chiral stationary phases

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors 906(2001)35

Reviews

Separation of enantiomers: needs, challenges, perspectives (Review) 906(2001)3

High-performance liquid chromatography chiral stationary phases based on low-molecular-mass selectors (Review) 906(2001)35

Chiral chromatographic separations based on ligand exchange (Review) 906(2001)51

Chiral separations using the macrocyclic antibiotics: a review (Review) 906(2001)73

Polysaccharide-based chiral stationary phases for high-performance liquid chromatographic enantioseparation (Review) 906(2001)105

Reversed-phase liquid chromatographic separation of enantiomers on polysaccharide type chiral stationary phases (Review) 906(2001)127

Covalently bonded polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography (Review) 906(2001)155

Regioselectively modified polysaccharide derivatives as chiral stationary phases in high-performance liquid chromatography (Review) 906(2001)171

High-performance liquid chromatographic enantioseparation of drugs containing multiple chiral centers on polysaccharide-type chiral stationary phases (Review) 906(2001)185

Unusual effects of separation conditions on chiral separations (Review) 906(2001)195

Optically active synthetic polymers as chiral stationary phases in HPLC (Review) 906(2001)205

Imprinted chiral stationary phases in high-performance liquid chromatography (Review) 906(2001)227

Protein-based chiral stationary phases for high-performance liquid chromatography enantioseparations (Review) 906(2001)253

Separation of enantiomers by gas chromatography (Review) 906(2001)275

Enantioseparations in super- and subcritical fluid chromatography (Review) 906(2001)301

Enantioseparations in capillary electromigration techniques: recent developments and future trends 906(2001)309

Enantioseparations in counter-current chromatography and centrifugal partition chromatography (Review) 906(2001)365

Enantioselective chromatography as a powerful alternative for the preparation of drug enantiomers (Review) 906(2001)379

Preparative enantioseparation by simulated moving bed chromatography (Review) 906(2001)399

Atomistic modeling of enantioselection in chromatography (Review) 906(2001)417

Reviewing mobile phases used on Chiralcel OD through an application of data mining tools to CHIRBASE database 906(2001)443

Chromatographic and electrophoretic studies of protein binding to chiral solutes (Review) 906(2001)459

Ristocetin A

High-performance liquid chromatographic and capillary electrophoretic enantioseparation of plant growth regulators and related indole compounds using macrocyclic antibiotics as chiral selectors 906(2001)91

Secondary equilibria

Chiral chromatographic separations based on ligand exchange (Review) 906(2001)51

Simulated moving bed chromatography

Preparative enantioseparation by simulated moving bed chromatography (Review) 906(2001)399

Subcritical fluid chromatography

Enantioseparations in super- and subcritical fluid chromatography 906(2001)301

Supercritical fluid chromatography

Enantioseparations in super- and subcritical fluid chromatography 906(2001)301

Teicoplanin

High-performance liquid chromatographic and capillary electrophoretic enantioseparation of plant growth regulators and related indole compounds using macrocyclic antibiotics as chiral selectors 906(2001)91

Vancomycin

High-performance liquid chromatographic and capillary electrophoretic enantioseparation of plant growth regulators and related indole compounds using macrocyclic antibiotics as chiral selectors 906(2001)91

Enantioseparations in counter-current chromatography and centrifugal partition chromatography 906(2001)365
