Erratum

Erratum to “Characterization of Polystyrene and Polyisoprene by Normal Phase Temperature Gradient Interaction Chromatography” [J. Chromatogr. A 910 (2001) 51–60][☆]

Wonmok Lee, Donghyun Cho, Byung Ok Chun, Taihyun Chang*, Moonhor Ree

*Department of Chemistry and Center for Integrated Molecular Systems, Pohang University of Science and Technology,
Pohang, 790-784, South Korea*

Received 2 April 2001; accepted 11 April 2001

Keywords: Temperature gradient interaction chromatography; Polystyrene; Polyisoprene

In the caption of Fig. 7, the elution sequence of PI in NP-TGIC chromatogram (a) was reversed. The part should read:

Fig. 7. Simultaneous SEC-TGIC chromatograms of a PI/PS mixture. (a) NP-TGIC chromatogram. PIs (from left, M_w : 208, 53.0, 11.9, 2.7 kg/mol) are separated by SEC mode while PSs (from left, M_w : 10.3, 32.7, 68.1, 112, 213, 394, 683, 1530 kg/mol) are by TGIC mode.

The authors in reference 35 are in error. It should read:

S.H. Nguyen, D. Berek, *Chromatographia* 48 (1998) 65.
