## Subject Index Vol. 928

### Acetyldaidzin

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

### Acetylgénistin

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

### Acypetacs zinc

Determination of organo-zinc based fungicides in timber treatments employing gas chromatographic analysis with mass selective detection and/or inductively coupled plasma atomic emission spectroscopy 928(2001)209

### Adrenaline

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

### Affinity capillary electrophoresis

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

### Alkanes

Dependence of the efficiency of a multicapillary column on the liquid phase loading method 928(2001)201

### Alkylphosphonic acids

Application of microcolumn liquid chromatography and capillary electrophoresis with flame photometric detection for the screening of degradation products of chemical warfare agents in water and soil 928(2001)187

### Americium

Determination of actinides in environmental and biological samples using high-performance chelation ion chromatography coupled to sector-field inductively coupled plasma mass spectrometry 928(2001)91

### Ballistic gradients

Ultra-short columns and ballistic gradients: considerations for ultra-fast chromatographic liquid chromatographic–tanden mass spectrometric analysis 928(2001)41

### Binding constants

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

### Blue-chitin column

Determination of polycyclic aromatic hydrocarbons by liquid chromatography–electrospray ionization mass spectrometry using silver nitrate as a post-column reagent 928(2001)53

### Calystegines

Automated multiple development thin layer chromatography for calystegines and their biosynthetic precursors 928(2001)217

### Capillary columns

Dependence of the efficiency of a multicapillary column on the liquid phase loading method 928(2001)201

### Chemical warfare agents

Application of microcolumn liquid chromatography and capillary electrophoresis with flame photometric detection for the screening of degradation products of chemical warfare agents in water and soil 928(2001)187

### Chiral stationary phases, LC

Preparation of highly selective stationary phases for high-performance liquid chromatographic separation of enantiomers by direct copolymerization of monomers with single or twin chiral ligands 928(2001)25

High-performance liquid chromatographic separation of the enantiomers of organophosphorus pesticides on polysaccharide chiral stationary phases 928(2001)145

### Chlortetracycline

Analysis of oxytetracycline, tetracycline, and chlortetracycline in water using solid-phase extraction and liquid chromatography–tanden mass spectrometry 928(2001)177

### Column length

Ultra-short columns and ballistic gradients: considerations for ultra-fast chromatographic liquid chromatographic–tanden mass spectrometric analysis 928(2001)41

**Counter-current chromatography**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Daidzein**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Daidzin**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Detection, electrophoresis**

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

**Detection, LC**

Application of microcolumn liquid chromatography and capillary electrophoresis with flame photometric detection for the screening of degradation products of chemical warfare agents in water and soil 928(2001)187

**Efficiency**

Dependence of the efficiency of a multicapillary column on the liquid phase loading method 928(2001)201

**Enantiomer separation**

Preparation of highly selective stationary phases for high-performance liquid chromatographic separation of enantiomers by direct copolymerization of monomers with single or twin chiral ligands 928(2001)25

Enantiomeric purity determination of malic acid in apple juices by multi-beam circular dichroism detection 928(2001)139

High-performance liquid chromatographic separation of the enantiomers of organophosphorus pesticides on polysaccharide chiral stationary phases 928(2001)145

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

***Erigeron breviscapus***

Identification and determination of glucuronides and their aglycones in *Erigeron breviscapus* by liquid chromatography–tandem mass spectrometry 928(2001)155

**Ephedrine**

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

**Ethene**

Use of porous glass and silica gel as support media of a surface compound for generation of analytes in gaseous standard mixtures. New method for the determination of the amount of analyte generated 928(2001)99

**Evaporative light scattering detector**

Assessment of the retention properties of poly(vinyl alcohol) stationary phase for lipid class profiling in liquid chromatography 928(2001)127

**Extraction methods**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

**Flame photometric detection**

Application of microcolumn liquid chromatography and capillary electrophoresis with flame photometric detection for the screening of degradation products of chemical warfare agents in water and soil 928(2001)187

**Flavonoids**

Identification and determination of glucuronides and their aglycones in *Erigeron breviscapus* by liquid chromatography–tandem mass spectrometry 928(2001)155

**Folates**

Determination of folates in foods by high-performance liquid chromatography with fluorescence detection after precolumn conversion to 5-methyltetrahydrofolates 928(2001)77

**Food analysis**

Identification and quantification of major bovine milk proteins by liquid chromatography 928(2001)63

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

**Frontal chromatograms**

Evaluation of frontal chromatograms 928(2001)1

**Gas chromatography, fast**

Dependence of the efficiency of a multicapillary column on the liquid phase loading method 928(2001)201

**Gaseous standard mixtures**

Use of porous glass and silica gel as support media of a surface compound for generation of analytes in gaseous standard mixtures. New method for the determination of the amount of analyte generated 928(2001)99

**Genistin**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Glucuronides**

Identification and determination of glucuronides and their aglycones in *Erigeron breviscapus* by liquid chromatography–tandem mass spectrometry 928(2001)155

**Glycitein**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Glycitin**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Glycosides**

Identification and determination of glucuronides and their aglycones in *Erigeron breviscapus* by liquid chromatography–tandem mass spectrometry 928(2001)155

**Gradient elution**

Ultra-short columns and ballistic gradients: considerations for ultra-fast chromatographic liquid chromatographic–tandem mass spectrometric analysis 928(2001)41

Assessment of the retention properties of poly(vinyl alcohol) stationary phase for lipid class profiling in liquid chromatography 928(2001)127

**Ion exchange**

Characterization and modeling of monolithic stationary phases: application to preparative chromatography 928(2001)13

**Iprodione**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

**Isoflavones**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Ligand synthesis, on column**

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

**Lignans**

Separation and determination of podophyllum lignans by micellar electrokinetic chromatography 928(2001)109

**Lipids**

Assessment of the retention properties of poly(vinyl alcohol) stationary phase for lipid class profiling in liquid chromatography 928(2001)127

**Malic acid**

Enantiomeric purity determination of malic acid in apple juices by multi-beam circular dichroism detection 928(2001)139

**Mass transport models**

Characterization and modeling of monolithic stationary phases: application to preparative chromatography 928(2001)13

**5-Methyltetrahydrofolates**

Determination of folates in foods by high-performance liquid chromatography with fluorescence detection after precolumn conversion to 5-methyltetrahydrofolates 928(2001)77

**Milk**

Identification and quantification of major bovine milk proteins by liquid chromatography 928(2001)63

**Monolithic stationary phases**

Characterization and modeling of monolithic stationary phases: application to preparative chromatography 928(2001)13

**Monomers**

Preparation of highly selective stationary phases for high-performance liquid chromatographic separation of enantiomers by direct copolymerization of monomers with single or twin chiral ligands 928(2001)25

**Mugineic acids**

Determination of phytosiderophores by anion-exchange chromatography with pulsed amperometric detection 928(2001)171

**Multi-beam circular dichroism detection**

Enantiomeric purity determination of malic acid in apple juices by multi-beam circular dichroism detection 928(2001)139

**Multi-capillary columns**

Dependence of the efficiency of a multicapillary column on the liquid phase loading method 928(2001)201

**Neptunium**

Determination of actinides in environmental and biological samples using high-performance chelation ion chromatography coupled to sector-field inductively coupled plasma mass spectrometry 928(2001)91

**Noradrenaline**

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

**On-chip separation**

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

**Organophosphorus pesticides**

High-performance liquid chromatographic separation of the enantiomers of organophosphorus pesticides on polysaccharide chiral stationary phases 928(2001)145

**Oxytetracycline**

Analysis of oxytetracycline, tetracycline, and chlortetracycline in water using solid-phase extraction and liquid chromatography–tandem mass spectrometry 928(2001)177

**Partial filling capillary electrophoresis**

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

**Peptides**

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

**Pesticides**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

Determination of organo-zinc based fungicides in timber treatments employing gas chromatographic analysis with mass selective detection and/or inductively coupled plasma atomic emission spectroscopy 928(2001)209

**Phytosiderophores**

Determination of phytosiderophores by anion-exchange chromatography with pulsed amperometric detection 928(2001)171

**Plant materials**

Separation and determination of podophyllum lignans by micellar electrokinetic chromatography 928(2001)109

**Plutonium**

Determination of actinides in environmental and biological samples using high-performance chelation ion chromatography coupled to sector-field inductively coupled plasma mass spectrometry 928(2001)91

**Podophyllum spp**

Separation and determination of podophyllum lignans by micellar electrokinetic chromatography 928(2001)109

**Polynuclear aromatic hydrocarbons**

Determination of polycyclic aromatic hydrocarbons by liquid chromatography–electrospray ionization mass spectrometry using silver nitrate as a post-column reagent 928(2001)53

**Polysaccharides**

High-performance liquid chromatographic separation of the enantiomers of organophosphorus pesticides on polysaccharide chiral stationary phases 928(2001)145

**Poly(vinyl alcohol)**

Assessment of the retention properties of poly(vinyl alcohol) stationary phase for lipid class profiling in liquid chromatography 928(2001)127

**Porous glass**

Use of porous glass and silica gel as support media of a surface compound for generation of analytes in gaseous standard mixtures. New method for the determination of the amount of analyte generated 928(2001)99

**Post column reagent**

Determination of polycyclic aromatic hydrocarbons by liquid chromatography–electrospray ionization mass spectrometry using silver nitrate as a post-column reagent 928(2001)53

**Procymidone**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

**Proteins**

Identification and quantification of major bovine milk proteins by liquid chromatography 928(2001)63

**Pseudoephedrine**

Rapid chiral on-chip separation with simplified amperometric detection 928(2001)225

**Pulsed amperometric detection**

Determination of phytosiderophores by anion-exchange chromatography with pulsed amperometric detection 928(2001)171

**Retention behaviour**

Assessment of the retention properties of poly(vinyl alcohol) stationary phase for lipid class profiling in liquid chromatography 928(2001)127

**Sector-field inductively coupled plasma mass spectrometry**

Determination of actinides in environmental and biological samples using high-performance chelation ion chromatography coupled to sector-field inductively coupled plasma mass spectrometry 928(2001)91

**Silica gel**

Use of porous glass and silica gel as support media of a surface compound for generation of analytes in gaseous standard mixtures. New method for the determination of the amount of analyte generated 928(2001)99

**Silver nitrate**

Determination of polycyclic aromatic hydrocarbons by liquid chromatography–electrospray ionization mass spectrometry using silver nitrate as a post-column reagent 928(2001)53

**Soybean**

Separation and purification of isoflavones from a crude soybean extract by high-speed counter-current chromatography 928(2001)163

**Stationary phases, LC**

Characterization and modeling of monolithic stationary phases: application to preparative chromatography 928(2001)13

Assessment of the retention properties of poly(vinyl alcohol) stationary phase for lipid class profiling in liquid chromatography 928(2001)127

**Statistical analysis**

Identification and quantification of major bovine milk proteins by liquid chromatography 928(2001)63

**Steric mass action**

Characterization and modeling of monolithic stationary phases: application to preparative chromatography 928(2001)13

**Stir bar sorptive extraction**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

***Streptomyces orientalis***

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

**Support medium**

Use of porous glass and silica gel as support media of a surface compound for generation of analytes in gaseous standard mixtures. New method for the determination of the amount of analyte generated 928(2001)99

**Surface compounds**

Use of porous glass and silica gel as support media of a surface compound for generation of analytes in gaseous standard mixtures. New method for the determination of the amount of analyte generated 928(2001)99

**Tetracycline**

Analysis of oxytetracycline, tetracycline, and chlortetracycline in water using solid-phase extraction and liquid chromatography–tandem mass spectrometry 928(2001)177

**Thiodiglycol**

Application of microcolumn liquid chromatography and capillary electrophoresis with flame photometric detection for the screening of degradation products of chemical warfare agents in water and soil 928(2001)187

**Thorium**

Determination of actinides in environmental and biological samples using high-performance chelation ion chromatography coupled to sector-field inductively coupled plasma mass spectrometry 928(2001)91

**Ultra-short columns**

Ultra-short columns and ballistic gradients: considerations for ultra-fast chromatographic liquid chromatographic–tandem mass spectrometric analysis 928(2001)41

**Uranium**

Determination of actinides in environmental and biological samples using high-performance chelation ion chromatography coupled to sector-field inductively coupled plasma mass spectrometry 928(2001)91

**Vancomycin**

On-column ligand synthesis coupled to partial-filling affinity capillary electrophoresis to estimate binding constants of ligands to a receptor 928(2001)233

**Vinclozolin**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

**Wall effect model**

Evaluation of frontal chromatograms 928(2001)1

**Water analysis**

Analysis of oxytetracycline, tetracycline, and chlortetracycline in water using solid-phase extraction and liquid chromatography–tandem mass spectrometry 928(2001)177

**Wine**

Stir bar sorptive extraction applied to the determination of dicarboximide fungicides in wine 928(2001)117

**Zinc octoate**

Determination of organo-zinc based fungicides in timber treatments employing gas chromatographic analysis with mass selective detection and/or inductively coupled plasma atomic emission spectroscopy 928(2001)209
