Journal of Chromatography A, 936 (2001) 241–248

JOURNAL OF
CHROMATOGRAPHY A

www.elsevier.com/locate/chroma

Subject Index Vols. 935–936

Achillea asiatica

Combination of chromatographic and spectroscopic methods for the isolation and characterization of polar guaianolides from *Achillea asiatica* 936(2001)193

Alcohols

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Alkaloids

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Chromatographic analysis of *Fritillaria* isosteroidal alkaloids, the active ingredients of Beimu, the antitussive traditional Chinese medicinal herb (Review) 935(2001)321

Androgens

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Antioxidants

Analysis of lipophilic antioxidants in human serum and tissues: tocopherols and carotenoids (Review) 936(2001)83

Bactoprenols

Chromatography of long chain alcohols (polyprenols) from animal and plant sources (Review) 936(2001)95

Bile acids

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Brassinosteroids

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Bufadienolides

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Calcitriol

Sensitive analysis of $1\alpha,25$ -dihydroxyvitamin D_3 in biological fluids by liquid chromatography–tandem mass spectrometry 935(2001)93

Camphor

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Capsicum annuum

Effects of fluorescent light and vacuum packaging on the rate of decomposition of pigments in paprika (*Capsicum annuum*) powder determined by reversed-phase high-performance liquid chromatography 936(2001)139

Cardenolides

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Carotenes

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Carotenoids

Chromatographic performance on a C_{30} -bonded stationary phase of monohydroxycarotenoids with variable chain length or degree of desaturation and of lycopene isomers synthesized by various carotene desaturases 936(2001)59

Improved normal-phase and reversed-phase gradient high-performance liquid chromatography procedures for the analysis of retinoids and carotenoids in human serum, plant and animal tissues 936(2001)71

Analysis of lipophilic antioxidants in human serum and tissues: tocopherols and carotenoids (Review) 936(2001)83

Liquid chromatographic separation of terpenoid pigments in foods and food products (Review) 936(2001)119

Effects of fluorescent light and vacuum packaging on the rate of decomposition of pigments in paprika (*Capsicum annuum*) powder determined by reversed-phase high-performance liquid chromatography 936(2001)139

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Centrolophus niger

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Cholesterol

Plasma non-cholesterol sterols (Review) 935(2001)203

Quantitative analysis of desmosterol, cholesterol and cholesterol sulfate in semen by high-performance liquid chromatography 935(2001)259

Cholesterol sulfate

Quantitative analysis of desmosterol, cholesterol and cholesterol sulfate in semen by high-performance liquid chromatography 935(2001)259

***Cimicifuga foetida* L.**

Analysis of terpene compounds in *Cimicifuga foetida* L. by reversed-phase high-performance liquid chromatography with evaporative light scattering detection 936(2001)111

Clinical laboratory

Steroid analysis for medical diagnosis (Review) 935(2001)267

Corticoids

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Cucurbitacins

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Dehydroepiandrosterone

High-performance liquid chromatographic analysis of dehydroepiandrosterone (Review) 935(2001)279

Dehydroepiandrosterone sulfate

High-performance liquid chromatographic analysis of dehydroepiandrosterone (Review) 935(2001)279

Desmosterol

Quantitative analysis of desmosterol, cholesterol and cholesterol sulfate in semen by high-performance liquid chromatography 935(2001)259

Diacylglyceryl ethers

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Dolichols

Chromatography of long chain alcohols (polyprenols) from animal and plant sources (Review) 936(2001)95

Ecdysteroids

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Identification and quantitative analysis of the phytoecdysteroids in *Silene* species (Caryophyllaceae) by high-performance liquid chromatography. Novel ecdysteroids from *S. pseudotites* 935(2001)309

Essential oils

Gas chromatographic technologies for the analysis of essential oils (Review) 936(2001)1

Estrogens

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Extraction methods

Extraction of fat-soluble vitamins (Review) 935(2001)3

Analysis of vitamin E isomers in seeds and nuts with and without coupled hydrolysis by liquid chromatography and coulometric detection 935(2001)77

Liquid chromatographic method for the analysis of tocopherols in malt sprouts with supercritical fluid extraction 935(2001)87

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Fats

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Analysis of free and esterified sterols in fats and oils by flash chromatography, gas chromatography and electrospray tandem mass spectrometry 935(2001)237

Fatty acids

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Fatty alcohols

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Ficaprenols

Chromatography of long chain alcohols (polyprenols) from animal and plant sources (Review) 936(2001)95

Fish

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Flash chromatography

Analysis of free and esterified sterols in fats and oils by flash chromatography, gas chromatography and electrospray tandem mass spectrometry 935(2001)237

Food analysis

Analysis of vitamin E isomers in seeds and nuts with and without coupled hydrolysis by liquid chromatography and coulometric detection 935(2001)77

Liquid chromatographic method for the analysis of tocopherols in malt sprouts with supercritical fluid extraction 935(2001)87

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Chromatographic analysis of plant sterols in foods and vegetable oils (Review) 935(2001)173

Analysis of free and esterified sterols in fats and oils by flash chromatography, gas chromatography and electrospray tandem mass spectrometry 935(2001)237

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmaterol in soybean oil 935(2001)249

Liquid chromatographic separation of terpenoid pigments in foods and food products (Review) 936(2001)119

Effects of fluorescent light and vacuum packaging on the rate of decomposition of pigments in paprika (*Capsicum annum*) powder determined by reversed-phase high-performance liquid chromatography 936(2001)139

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

***Fritillaria* spp**

Chromatographic analysis of *Fritillaria* isosteroidal alkaloids, the active ingredients of Beimu, the antitussive traditional Chinese medicinal herb (Review) 935(2001)321

Gas chromatography, comprehensive two-dimensional

Gas chromatographic technologies for the analysis of essential oils (Review) 936(2001)1

Geometric isomers

Chromatographic performance on a C₃₀-bonded stationary phase of monohydroxycarotenoids with variable chain length or degree of desaturation and of lycopene isomers synthesized by various carotene desaturases 936(2001)59

Glycoalkaloids

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Guaianolides

Combination of chromatographic and spectroscopic methods for the isolation and characterization of polar guaianolides from *Achillea asiatica* 936(2001)193

Hormones

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Steroid analysis for medical diagnosis (Review) 935(2001)267

Hydrocarbons

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Hydroxycarotenoids

Chromatographic performance on a C₃₀-bonded stationary phase of monohydroxycarotenoids with variable chain length or degree of desaturation and of lycopene isomers synthesized by various carotene desaturases 936(2001)59

Hydroxydehydroepiandrosterone

7-Hydroxydehydroepiandrosterone epimers in human serum and saliva. Comparison of gas chromatography–mass spectrometry and radioimmunoassay 935(2001)297

Hydroxyecdysone

Identification and quantitative analysis of the phytoecdysteroids in *Silene* species (Caryophyllaceae) by high-performance liquid chromatography. Novel ecdysteroids from *S. pseudotites* 935(2001)309

Lepidocybium flavobrunneum

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Limonene

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Lipids

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Plasma non-cholesterol sterols (Review) 935(2001)203

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Lipids, non-saponifiable

Analysis of non-saponifiable lipids by super-/subcritical-fluid chromatography (Review) 936(2001)201

Long-chain alcohols

Chromatography of long chain alcohols (polyprenols) from animal and plant sources (Review) 936(2001)95

Lycopenes

Chromatographic performance on a C₃₀-bonded stationary phase of monohydroxycarotenoids with variable chain length or degree of desaturation and of lycopene isomers synthesized by various carotene desaturases 936(2001)59

Membrane extraction

Analysis of vitamin E isomers in seeds and nuts with and without coupled hydrolysis by liquid chromatography and coulometric detection 935(2001)77

Menthol

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Monoterpenes

Monoterpenic and norisoprenoid glycoconjugates of *Vitis vinifera* L. cv. Melon B. as precursors of odorants in Muscadet wines 936(2001)145

Monoterpenic glycoconjugates

Monoterpenic and norisoprenoid glycoconjugates of *Vitis vinifera* L. cv. Melon B. as precursors of odorants in Muscadet wines 936(2001)145

Monoterpenoids

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Multidimensional separation

Gas chromatographic technologies for the analysis of essential oils (Review) 936(2001)1

C13-norisoprenoids

Monoterpenic and norisoprenoid glycoconjugates of *Vitis vinifera* L. cv. Melon B. as precursors of odorants in Muscadet wines 936(2001)145

Norisoprenoid glycoconjugates

Monoterpenic and norisoprenoid glycoconjugates of *Vitis vinifera* L. cv. Melon B. as precursors of odorants in Muscadet wines 936(2001)145

Oils

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Analysis of free and esterified sterols in fats and oils by flash chromatography, gas chromatography and electrospray tandem mass spectrometry 935(2001)237

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmaterol in soybean oil 935(2001)249

Chemical characterisation of the different types of volatile oil constituents by various solute retention ratios with the use of conventional and novel commercial gas chromatographic stationary phases (Review) 936(2001)33

Perillyl alcohol

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Pharmaceutical analysis

Chromatographic analysis of *Fritillaria* isosteroidal alkaloids, the active ingredients of Beimu, the antitussive traditional Chinese medicinal herb (Review) 935(2001)321

Analysis of terpene compounds in *Cimicifuga foetida* L. by reversed-phase high-performance liquid chromatography with evaporative light scattering detection 936(2001)111

Photosterols

Chromatographic analysis of plant sterols in foods and vegetable oils (Review) 935(2001)173

Phytoecdysteroids

Identification and quantitative analysis of the phytoecdysteroids in *Silene* species (Caryophyllaceae) by high-performance liquid chromatography. Novel ecdysteroids from *S. pseudotites* 935(2001)309

Phytosterols

Gas chromatography and high-performance liquid chromatography of natural sterols (Review) 935(2001)141

Phytosterols

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmaterol in soybean oil 935(2001)249

Pigments

Liquid chromatographic separation of terpenoid pigments in foods and food products (Review) 936(2001)119

Effects of fluorescent light and vacuum packaging on the rate of decomposition of pigments in paprika (*Capsicum annum*) powder determined by reversed-phase high-performance liquid chromatography 936(2001)139

Plant materials

Identification and quantitative analysis of the phytoecdysteroids in *Silene* species (Caryophyllaceae) by high-performance liquid chromatography. Novel ecdysteroids from *S. pseudotites* 935(2001)309

Combination of chromatographic and spectroscopic methods for the isolation and characterization of polar guaianolides from *Achillea asiatica* 936(2001)193

Pollen

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Polynuclear aromatic hydrocarbons

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Polyprenols

Chromatography of long chain alcohols (polyprenols) from animal and plant sources (Review) 936(2001)95

Positional isomers

Chromatographic performance on a C₃₀-bonded stationary phase of monohydroxycarotenoids with variable chain length or degree of desaturation and of lycopene isomers synthesized by various carotene desaturases 936(2001)59

Prolycopene

Chromatographic performance on a C₃₀-bonded stationary phase of monohydroxycarotenoids with variable chain length or degree of desaturation and of lycopene isomers synthesized by various carotene desaturases 936(2001)59

Pulegone

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Retention ratios

Chemical characterisation of the different types of volatile oil constituents by various solute retention ratios with the use of conventional and novel commercial gas chromatographic stationary phases (Review) 936(2001)33

Retinoic acid

Improved normal-phase and reversed-phase gradient high-performance liquid chromatography procedures for the analysis of retinoids and carotenoids in human serum, plant and animal tissues 936(2001)71

Retinoids

Qualitative and quantitative liquid chromatographic determination of natural retinoids in biological samples (Review) 935(2001)13

Improved normal-phase and reversed-phase gradient high-performance liquid chromatography procedures for the analysis of retinoids and carotenoids in human serum, plant and animal tissues 936(2001)71

Retinol

Improved normal-phase and reversed-phase gradient high-performance liquid chromatography procedures for the analysis of retinoids and carotenoids in human serum, plant and animal tissues 936(2001)71

Reviews

Extraction of fat-soluble vitamins (Review) 935(2001)3

Qualitative and quantitative liquid chromatographic determination of natural retinoids in biological samples (Review) 935(2001)13

Chromatographic analysis of α -tocopherol and related compounds in various matrices (Review) 935(2001)45

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Chromatographic analysis of plant sterols in foods and vegetable oils (Review) 935(2001)173

Plasma non-cholesterol sterols (Review) 935(2001)203

Steroid analysis for medical diagnosis (Review) 935(2001)267

High-performance liquid chromatographic analysis of dehydroepiandrosterone (Review) 935(2001)279

Chromatographic analysis of *Fritillaria* isosteroidal alkaloids, the active ingredients of Beimu, the antitussive traditional Chinese medicinal herb (Review) 935(2001)321

Gas chromatographic technologies for the analysis of essential oils (Review) 936(2001)1

Techniques for gas chromatography of volatile terpenoids from a range of matrices (Review) 936(2001)23

Chemical characterisation of the different types of volatile oil constituents by various solute retention ratios with the use of conventional and novel commercial gas chromatographic stationary phases (Review) 936(2001)33

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Analysis of lipophilic antioxidants in human serum and tissues: tocopherols and carotenoids (Review) 936(2001)83

Chromatography of long chain alcohols (polyprenols) from animal and plant sources (Review) 936(2001)95

Liquid chromatographic separation of terpenoid pigments in foods and food products (Review) 936(2001)119

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Analysis of non-saponifiable lipids by super-/subcritical-fluid chromatography (Review) 936(2001)201

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Ruvettus pretiosus

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Sambucus nigra

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Sample handling

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Sample introduction

Gas chromatographic technologies for the analysis of essential oils (Review) 936(2001)1

Sample preparation

Qualitative and quantitative liquid chromatographic determination of natural retinoids in biological samples (Review) 935(2001)13

Sapogenins

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Saponins

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Seocalcitol

Sensitive analysis of $1\alpha,25$ -dihydroxyvitamin D_3 in biological fluids by liquid chromatography–tandem mass spectrometry 935(2001)93

Separation analysis

Steroid analysis for medical diagnosis (Review) 935(2001)267

Sesquiterpenoids

Combination of chromatographic and spectroscopic methods for the isolation and characterization of polar guaianolides from *Achillea asiatica* 936(2001)193

***Silene* spp**

Identification and quantitative analysis of the phytoecdysteroids in *Silene* species (Caryophyllaceae) by high-performance liquid chromatography. Novel ecdysteroids from *S. pseudotites* 935(2001)309

Sitosterol

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmasterol in soybean oil 935(2001)249

Soybean

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmasterol in soybean oil 935(2001)249

Squalene

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Stability studies

Sensitive analysis of $1\alpha,25$ -dihydroxyvitamin D_3 in biological fluids by liquid chromatography–tandem mass spectrometry 935(2001)93

Stationary phase, GC

Chemical characterisation of the different types of volatile oil constituents by various solute retention ratios with the use of conventional and novel commercial gas chromatographic stationary phases (Review) 936(2001)33

Statistical analysis

7-Hydroxydehydroepiandrosterone epimers in human serum and saliva. Comparison of gas chromatography–mass spectrometry and radioimmunoassay 935(2001)297

Steroid hormones

Identification and quantitative analysis of the phytoecdysteroids in *Silene* species (Caryophyllaceae) by high-performance liquid chromatography. Novel ecdysteroids from *S. pseudotites* 935(2001)309

Steroids

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Steroid analysis for medical diagnosis (Review) 935(2001)267

High-performance liquid chromatographic analysis of dehydroepiandrosterone (Review) 935(2001)279

7-Hydroxydehydroepiandrosterone epimers in human serum and saliva. Comparison of gas chromatography–mass spectrometry and radioimmunoassay 935(2001)297

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Sterols

Analysis of steroidal lipids by gas and liquid chromatography (Review) 935(2001)125

Gas chromatography and high-performance liquid chromatography of natural sterols (Review) 935(2001)141

Chromatographic analysis of plant sterols in foods and vegetable oils (Review) 935(2001)173

Plasma non-cholesterol sterols (Review) 935(2001)203

Analysis of free and esterified sterols in fats and oils by flash chromatography, gas chromatography and electrospray tandem mass spectrometry 935(2001)237

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmasterol in soybean oil 935(2001)249

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Sterones

7-Hydroxydehydroepiandrosterone epimers in human serum and saliva. Comparison of gas chromatography–mass spectrometry and radioimmunoassay 935(2001)297

Stigmasterol

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmasterol in soybean oil 935(2001)249

Subcritical fluid chromatography

Analysis of non-saponifiable lipids by super-/subcritical-fluid chromatography (Review) 936(2001)201

Supercritical fluid chromatography

Analysis of non-saponifiable lipids by super-/subcritical-fluid chromatography (Review) 936(2001)201

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Supercritical fluid extraction

Liquid chromatographic method for the analysis of tocopherols in malt sprouts with supercritical fluid extraction 935(2001)87

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Terpenes

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Analysis of terpene compounds in *Cimicifuga foetida* L. by reversed-phase high-performance liquid chromatography with evaporative light scattering detection 936(2001)111

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Terpenoids

Quantitation of monoterpene compounds with potential medicinal use in biological fluids (Review) 936(2001)47

Liquid chromatographic separation of terpene pigments in foods and food products (Review) 936(2001)119

Terpenoids volatile

Techniques for gas chromatography of volatile terpenoids from a range of matrices (Review) 936(2001)23

Tocopherols

Chromatographic analysis of α -tocopherol and related compounds in various matrices (Review) 935(2001)45

Chromatographic separation of tocopherols 935(2001)71

Analysis of vitamin E isomers in seeds and nuts with and without coupled hydrolysis by liquid chromatography and coulometric detection 935(2001)77

Liquid chromatographic method for the analysis of tocopherols in malt sprouts with supercritical fluid extraction 935(2001)87

Analysis of lipophilic antioxidants in human serum and tissues: tocopherols and carotenoids (Review) 936(2001)83

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Tocotrienols

Chromatographic analysis of α -tocopherol and related compounds in various matrices (Review) 935(2001)45

Topological indices

Chromatographic separation of tocopherols 935(2001)71

Triterpenes

Nonsaponifiable lipid components of the pollen of elder (*Sambucus nigra* L.) 936(2001)173

Tubbia spp

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Validation

Sensitive analysis of $1\alpha,25$ -dihydroxyvitamin D_3 in biological fluids by liquid chromatography–tandem mass spectrometry 935(2001)93

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmasterol in soybean oil 935(2001)249

Vegetable oils

Chromatographic analysis of plant sterols in foods and vegetable oils (Review) 936(2001)173

Gas and liquid chromatography of hydrocarbons in edible vegetable oils (Review) 936(2001)159

Vitamin D

Gas chromatography and high-performance liquid chromatography of natural steroids (Review) 935(2001)141

Vitamins

Extraction of fat-soluble vitamins (Review) 935(2001)3

Qualitative and quantitative liquid chromatographic determination of natural retinoids in biological samples (Review) 935(2001)13

Chromatographic analysis of α -tocopherol and related compounds in various matrices (Review) 935(2001)45

Chromatographic separation of tocopherols 935(2001)71

Analysis of vitamin E isomers in seeds and nuts with and without coupled hydrolysis by liquid chromatography and coulometric detection 935(2001)77

Liquid chromatographic method for the analysis of tocopherols in malt sprouts with supercritical fluid extraction 935(2001)87

Sensitive analysis of $1\alpha,25$ -dihydroxyvitamin D₃ in biological fluids by liquid chromatography–tandem mass spectrometry 935(2001)93

Liquid chromatography–UV determination and liquid chromatography–atmospheric pressure chemical ionization mass spectrometric characterization of sitosterol and stigmasterol in soybean oil 935(2001)249

Analysis of lipophilic antioxidants in human serum and tissues: tocopherols and carotenoids (Review) 936(2001)83

Supercritical fluid extraction and chromatography for fat-soluble vitamin analysis (Review) 936(2001)215

Vitis vinifera

Monoterpenic and norisoprenoid glycoconjugates of *Vitis vinifera* L. cv. Melon B. as precursors of odorants in Muscadet wines 936(2001)145

Wax ester

Unusually high levels of non-saponifiable lipids in the fishes escolar and rudderfish. Identification by gas and thin-layer chromatography 936(2001)183

Withanolides

Chromatographic procedures for the isolation of plant steroids (Review) 935(2001)105

Xanthophyll epoxides

Improved normal-phase and reversed-phase gradient high-performance liquid chromatography procedures for the analysis of retinoids and carotenoids in human serum, plant and animal tissues 936(2001)71

Xanthophyll esters

Improved normal-phase and reversed-phase gradient high-performance liquid chromatography procedures for the analysis of retinoids and carotenoids in human serum, plant and animal tissues 936(2001)71
