## Subject Index Vol. 937

### **Acesulfame-K**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

### **Aflatoxins**

New reversed-phase liquid chromatographic method to detect aflatoxins in food and feed with cyclodextrins as fluorescence enhancers added to the eluent 937(2001)31

### **Amines**

Studies of signal suppression in liquid chromatography–electrospray ionization mass spectrometry using volatile ion-pairing reagents 937(2001)41

### **Animal fat**

Analysis of oil used in late Roman oil lamps with different mass spectrometric techniques revealed the presence of predominantly olive oil together with traces of animal fat 937(2001)87

### **Aroma compounds**

Mechanisms effecting analysis of volatile flavour components by solid-phase microextraction and gas chromatography 937(2001)107

### **Aspartame**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

### **Atmospheric pressure chemical ionization**

Analysis of oil used in late Roman oil lamps with different mass spectrometric techniques revealed the presence of predominantly olive oil together with traces of animal fat 937(2001)87

### **Atmospheric pressure ionization**

On the signal response of various pesticides in electrospray and atmospheric pressure chemical ionization depending on the flow-rate of eluent applied in liquid chromatography–tandem mass spectrometry 937(2001)65

### **Benzoic acid**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

### **Bile acids**

Capillary gas chromatographic behaviour of *tert*-hydroxylated steroids by trialkylsilylation 937(2001)97

### **Bovine serum albumin**

Effects of bovine serum albumin heterogeneity on frontal analysis with anion-exchange media 937(2001)13

### **Caffeine**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

### **Ceramics, ancient**

Analysis of oil used in late Roman oil lamps with different mass spectrometric techniques revealed the presence of predominantly olive oil together with traces of animal fat 937(2001)87

### **Chip technology**

Flow-through sampling for electrophoresis-based microfluidic chips using hydrodynamic pumping 937(2001)115

### **Chiral stationary phases, SFC**

Separation of enantiomers of ibuprofen on chiral stationary phases by packed column supercritical fluid chromatography 937(2001)135

### **Contamination factor**

Graphical method for the calculation of chromatographic performance in representing the trade-off between purity and recovery 937(2001)1

### **Cyclodextrins**

New reversed-phase liquid chromatographic method to detect aflatoxins in food and feed with cyclodextrins as fluorescence enhancers added to the eluent 937(2001)31

**Derivatisation, GC**

Capillary gas chromatographic behaviour of *tert.*-hydroxylated steroids by trialkylsilylation 937(2001)97

**Electrospray ionization**

Studies of signal suppression in liquid chromatography–electrospray ionization mass spectrometry using volatile ion-pairing reagents 937(2001)41

On the signal response of various pesticides in electrospray and atmospheric pressure chemical ionization depending on the flow-rate of eluent applied in liquid chromatography–tandem mass spectrometry 937(2001)65

**Enantiomer separation**

Separation of enantiomers of ibuprofen on chiral stationary phases by packed column supercritical fluid chromatography 937(2001)135

**Enzymes**

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Extraction methods**

Matrix solid-phase dispersion extraction and high-performance liquid chromatographic determination of residual sulfonamides in chicken 937(2001)49

**Flow-rate**

On the signal response of various pesticides in electrospray and atmospheric pressure chemical ionization depending on the flow-rate of eluent applied in liquid chromatography–tandem mass spectrometry 937(2001)65

**Food analysis**

New reversed-phase liquid chromatographic method to detect aflatoxins in food and feed with cyclodextrins as fluorescence enhancers added to the eluent 937(2001)31

Matrix solid-phase dispersion extraction and high-performance liquid chromatographic determination of residual sulfonamides in chicken 937(2001)49

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

Mechanisms effecting analysis of volatile flavour components by solid-phase microextraction and gas chromatography 937(2001)107

**Fractionation diagram**

Graphical method for the calculation of chromatographic performance in representing the trade-off between purity and recovery 937(2001)1

**Frontal analysis**

Effects of bovine serum albumin heterogeneity on frontal analysis with anion-exchange media 937(2001)13

**Fruits**

Mechanisms effecting analysis of volatile flavour components by solid-phase microextraction and gas chromatography 937(2001)107

**Heterogeneity**

Effects of bovine serum albumin heterogeneity on frontal analysis with anion-exchange media 937(2001)13

**Hydrogen peroxide**

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Ibuprofen**

Separation of enantiomers of ibuprofen on chiral stationary phases by packed column supercritical fluid chromatography 937(2001)135

**Injection methods**

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Instrumentation**

Flow-through sampling for electrophoresis-based microfluidic chips using hydrodynamic pumping 937(2001)115

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Interfaces, LC–MS**

Studies of signal suppression in liquid chromatography–electrospray ionization mass spectrometry using volatile ion-pairing reagents 937(2001)41

**Ion-pairing reagents**

Studies of signal suppression in liquid chromatography–electrospray ionization mass spectrometry using volatile ion-pairing reagents 937(2001)41

**Ketoprofen**

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Lipid hydroperoxides**

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Lipids**

Analysis of oil used in late Roman oil lamps with different mass spectrometric techniques revealed the presence of predominantly olive oil together with traces of animal fat 937(2001)87

**Mass spectrometry**

On the signal response of various pesticides in electrospray and atmospheric pressure chemical ionization depending on the flow-rate of eluent applied in liquid chromatography–tandem mass spectrometry 937(2001)65

**Matrix effects**

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

**Matrix solid-phase dispersion**

Matrix solid-phase dispersion extraction and high-performance liquid chromatographic determination of residual sulfonamides in chicken 937(2001)49

**Mobile phase composition**

Use of porous graphitic carbon coupled with mass detection for the analysis of polar phenolic compounds by liquid chromatography 937(2001)21

**Olive mill wastewater**

Use of porous graphitic carbon coupled with mass detection for the analysis of polar phenolic compounds by liquid chromatography 937(2001)21

**Olive oil**

Analysis of oil used in late Roman oil lamps with different mass spectrometric techniques revealed the presence of predominantly olive oil together with traces of animal fat 937(2001)87

**On-column injection**

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

**Peroxides**

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Pesticides**

On the signal response of various pesticides in electrospray and atmospheric pressure chemical ionization depending on the flow-rate of eluent applied in liquid chromatography–tandem mass spectrometry 937(2001)65

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

**Phenolic compounds**

Use of porous graphitic carbon coupled with mass detection for the analysis of polar phenolic compounds by liquid chromatography 937(2001)21

**Porous graphitic carbon**

Use of porous graphitic carbon coupled with mass detection for the analysis of polar phenolic compounds by liquid chromatography 937(2001)21

**Product yield**

Graphical method for the calculation of chromatographic performance in representing the trade-off between purity and recovery 937(2001)1

**Profens**

Capillary zone electrophoresis with electrochemical detection — a simple and effective method to analyze oxygen-consuming and peroxide-forming processes 937(2001)127

**Programmed temperature vaporizer**

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

**Pulsed splitless injection**

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

**Purification factor**

Graphical method for the calculation of chromatographic performance in representing the trade-off between purity and recovery 937(2001)1

**Purity**

Graphical method for the calculation of chromatographic performance in representing the trade-off between purity and recovery 937(2001)1

**Recovery**

Graphical method for the calculation of chromatographic performance in representing the trade-off between purity and recovery 937(2001)1

**Response stability**

Performance of programmed temperature vaporizer, pulsed splitless and on-column injection techniques in analysis of pesticide residues in plant matrices 937(2001)73

**Rhodamine B**

Flow-through sampling for electrophoresis-based microfluidic chips using hydrodynamic pumping 937(2001)115

**Sample handling**

Flow-through sampling for electrophoresis-based microfluidic chips using hydrodynamic pumping 937(2001)115

**Signal response**

On the signal response of various pesticides in electrospray and atmospheric pressure chemical ionization depending on the flow-rate of eluent applied in liquid chromatography–tandem mass spectrometry 937(2001)65

**Sodium carbonate**

Flow-through sampling for electrophoresis-based microfluidic chips using hydrodynamic pumping 937(2001)115

**Sodium saccharin**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

**Sodium tetraborate**

Flow-through sampling for electrophoresis-based microfluidic chips using hydrodynamic pumping 937(2001)115

**Solid-phase microextraction**

Mechanisms effecting analysis of volatile flavour components by solid-phase microextraction and gas chromatography 937(2001)107

**Sorbic acid**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

**Steroids, *tert.*-hydroxylated**

Capillary gas chromatographic behaviour of *tert.*-hydroxylated steroids by trialkylsilylation 937(2001)97

**Sterols**

Capillary gas chromatographic behaviour of *tert.*-hydroxylated steroids by trialkylsilylation 937(2001)97

**Sulfonamides**

Matrix solid-phase dispersion extraction and high-performance liquid chromatographic determination of residual sulfonamides in chicken 937(2001)49

**Supercritical fluid chromatography**

Separation of enantiomers of ibuprofen on chiral stationary phases by packed column supercritical fluid chromatography 937(2001)135

**Tetrahydrofuran**

Use of porous graphitic carbon coupled with mass detection for the analysis of polar phenolic compounds by liquid chromatography 937(2001)21

**Theobromine**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

**Theophylline**

Simultaneous determination of artificial sweeteners, preservatives, caffeine, theobromine and theophylline in food and pharmaceutical preparations by ion chromatography 937(2001)57

**Volatile organic compounds**

Mechanisms effecting analysis of volatile flavour components by solid-phase microextraction and gas chromatography 937(2001)107

**Water analysis**

Use of porous graphitic carbon coupled with mass detection for the analysis of polar phenolic compounds by liquid chromatography 937(2001)21
